Resolution is as follows: "WHEREAS, policies de-emphasizing police enforcement of minor violations of North Carolina's motor vehicle statutes, such as expired registrations and improper equipment (hereinafter "regulatory violations"), furthers the City's goal of building trust between the community and police; and WHEREAS, research shows that de-prioritizing regulatory stops reduces the potential for the escalation of force between police and the public; and WHEREAS, Pillar Two: Policy and Oversight of the Final Report on 21st Century Policing emphasizes that if police are to carry out their responsibilities according to established policies, those policies must reflect community values; and WHEREAS, communities in North Carolina and across the country have adopted similar practices; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The City Council's action, taken during its May 22, 2018, meeting, directing the City Manager to implement a policy whereby the APD will de-prioritize low-level regulatory vehicle stops, is hereby rescinded. The City Council now authorizes the City Manager to work with the Asheville Police Department to include in a policy the practice of de-emphasizing police enforcement of regulatory and equipment-based violations that do not directly implicate public safety, such as expired registrations and equipment."

Thirty individuals spoke, mostly regarding the written consent resolution, whose comments ranged from wanting Council to reaffirm their motion on May 22, 2018, to opposing any

policy changes, to wordsmithing the resolutions, to supporting the resolutions before Council, with most acknowledging the need for the community and the City to work together to build trust.

Vice-Mayor Wisler acknowledged a lot of passion around these issues and a lot of shared values. She thanked the community for bringing this forward. She felt everyone is interested in creating a more equitable Asheville. She thanked the police department for listening to the community, sharing in those community values, continuing to improve relationships, and recognizing that we need to build trust. She will support the three resolutions because they do reflect Asheville's values. She expects the policies prepared by the police department will reflect our values, 21st Century Policing guidelines and we will be prepared with the safety of officers, civilians and emergency workers as a top priority. And finally she appreciated the fact that City Council recognizes that the actions taken at the May 22 meeting were flawed and appreciated the Council taking actions to remedy that.

Councilman Kapoor read the following statement: "Since our last meeting on May 22nd, in an attempt to better understand these issues and to try to reach a consensus on these resolutions, I've independently reviewed some of the data presented. I've met with the local NAACP and Mr. Mance, and I've met with the leaders of the Police Benevolent Association and the Fraternal Order of Police. Having been able to talk to them around the table, I learned that there's a lot of shared values among the four organizations that I spoke with. The Asheville leaders of the PBA and the FOP expressed to me that they recognize the lack of trust in law enforcement by some, locally and nationally. I learned that neither the PBA nor the FOP have blanket opposition to a written consent policy. In fact, they see the value in some form of written consent policy and also in the other two policies that we re considering. They agreed with recommendations 2.10 in the 21st Century Policing report cited by Mr. Mance that states and I quote 'Law enforcement officers **should** be required to seek consent before a search and **explain that a person has the right to refuse consent** when there is no warrant or probable cause. Furthermore, officers should **ideally** obtain written acknowledgement that they have sought consent in these circumstances.' (emphasis mine). To be clear, I've just outlined ways in which the four groups who have most vocally put themselves forward in this matter are, in fact, aligned and in agreement. The one possible area of disagreement comes from the perspective of law enforcement officers who are doing the daily work of public safety. That point is that not allowing verbal consent to suffice in some situations, such as for the public's and the officer's safety, could seriously jeopardize the safety of people who are counting on the police for assistance. No city with written consent policies that we've been provided, not even Durham, prohibits verbal consent to suffice in some situations. I'll share with you the following example of a possible domestic violence situation: A person calls the police saying they hear their neighbors, a husband and a wife, loudly arguing. An officer is dispatched and arrives at the scene. The officer hears the arguing and knocks on the door. The husband opens the door and the officer sees the husband and the wife who does not appear to have any bruises on her. At that point, the officer doesn't have probably cause and there are no exigent circumstances, so the officer would need consent to enter the home and search the parties. Why would the officer want to enter the home? Because the officer wants to make sure everyone is ok, and the officer may feel it is necessary to search the individuals to see if they have any weapons that could be used to harm others or themselves. Under current policy, the officer can verbally ask 'can I come in to see if everyone is ok' or 'can I just pat you down to make sure there isn't anything on you that might hurt me or you?' If they say yes, that's consent. This allows the officer to get in quickly and make sure that everyone is ok, to deescalate the situation, and to prevent potentially serious bodily harm. Now imagine that same scenario under a mandated written consent policy without any exceptions. the officer shows up, knocks on the door, the husband answers, the wife says please come in, but in order to follow the mandate the officer must have both the husband and wife sign a piece of paper allowing the officer to enter or to pat down the parties to see if there were weapons. If the husband had hit his wife, do you think he'd sign a piece of paper letting an officer come in? I doubt it. In those cases, wouldn't verbal consent recorded by a body camera be enough? What

is there were children in the house? In a situation like this, do we really want the officer's hands to be occupied with paper rather than being free in case they need them? This isn't some far fetched example - it's what police officers deal with on a day to day basis. This is just one example. Under a written consent policy with no exceptions for accepting verbal consent, we unnecessarily put the safety of the public, police officers and other first responders in danger. And furthermore, we can track the data with body cameras so that we know exactly which officers used verbal consent under exactly what situations. The department already has supervisors reviewing body camera footage for every vehicle consent search. As a policy matter, I prefer that our officers obtain written consent, but I know that in real life there will be situations where it is impractical or unnecessarily risky to do so. With respect to the written consent resolution before us tonight, I am voting in favor of it as it leaves the discretion of developing a written consent policy to the chief of police, which is what our charter and ordinances require. Furthermore, this resolution allows the chief to consider circumstances where she, as a nationally recognized law enforcement expert, believes not allowing verbal consent to suffice would put the public or officers at unnecessary risk. A written consent policy allowing for reasonable exceptions that will be tracked and reviewed, will implement the 21st Century Policing report's recommendations, builds trust with the community, and will protect our first responders and the public"

Councilman Haynes said that on May 22, by a vote of 5-2, Council endorsed the motions made by Councilman Young. While some procedural errors may have occurred, the intent was perfectly clear. He asked the City Manager that the wording may have changed from those, that the expectations have not. The policies should reflect the original intent of the motions passed by 5-2 majority.

Councilman Young said that Councilman Kapoor gave an eloquent scenario about domestic violence and police being able to do what they need to do. He called "BS" on that. Georgia vs. Randolph addresses the exact same domestic violence scenario that Councilman Kapoor described, and officers actually can do their job and their functions that they need to in that scenario under the "community caretaker" function. He actually prepared several different statements, depending on how this meeting went. He has a few different ones that go from kumbaya to let's work it out to hell-fire. He won't read any of those. He will address some things that he heard from people in the meeting earlier today and he has actually enlisted some other people to help him with his comments. And, as he gives them, you may know where they come from. Someone mentioned earlier that this was a social experiment for something. We are basically upholding people's right. So if you understand what probable cause is, and what written consent is, that is someone's actual right to tell you no. So he didn't think upholding someone's right to tell you you can do something without my permission is a social experiment. Someone also said we are being taken down the wrong direction. If upholding people's rights is the wrong direction, that's the way he wants to do. We were told that written consent gives police no wiggle room for them to play fishy with your rights. No wiggle room to not tell you have the right to say no. We were told this is a black thing. We were told that Council doesn't understand the manager form of government. We might have problems with Robert's Rules, but not the form of government. To that end, he doesn't think what was done at the last meeting was wrong and he stands by that. We were also told that we want written consent to be used only when it's practical. When someone has the actual right to tell you no, it's always practical. My rights are always practical, it's not when you feel they are practical. But when he feels he wants to exercise his rights, not when you feel he should exercise my rights. There comes a time when we must take a position that is neither safe nor politic nor popular. But we must take it because our conscience tells us it's right. Change doesn't roll in on the wheels of inevitability. But it comes through contentious struggle which is what we see here tonight. And in that contentious struggle we must all be fearless. We must uphold people's rights, not when it is ideal. No. Not when you feel it's okay for me to exercise my right. We must be fearless. Now we know that the overwhelming majority of police officers do an incredibly hard and dangerous job, fairly and professionally. They are deserving of our respect and not our scorn. And when anyone, no

matter how good their intentions may be, paints all police as biased or bigoted, we undermine those officers we depend on for our safety. Yes. As for those that use rhetoric that may suggest adverse action or harm to our police, even if they don't act on it themselves, they not only make the jobs of our police officers even more dangerous, but they do a disservice to the very cause of justice they claim to promote. We also know that centuries of racial discrimination, of slavery and subjugation and Jim Crow - they didn't simply vanish with the end of lawful segregation. They didn't just stop when Dr. King made a speech or the Voting Rights Act or the Civil Rights Act were signed. Race relations have improved dramatically in his lifetime. Those that deny it are dishonoring the struggles that helped achieve that progress. But America, we know that bias remains, whether it be implicit racial bias, explicit racial bias, bias remains. We know it. Whether you are black or white or hispanic or asian american or native american or of middle eastern descent, we have all seen this bigotry in our own lives at some point. We've heard it at times in our own homes. If we are honest. Perhaps we've heard prejudice in our own heads. And felt it in our own hearts. We know that. And while some suffer far more under racism's burden, some feel a far greater extent of discrimination sting. Although most of us we do our best to guard against it and try to teach our children to do better. None of us is entirely innocent. No institution is entirely immune and that includes our police departments. The ultimate measure of a man is not when he stands in moments of comfort and convenience, but where he stands at times of challenge and controversy and that is where we are at here. And those are not his words. There is a former President Barack Obama and Dr. Martin Luther King. That didn't come from Keith Young. So, there is no time in this world while he is alive that his rights as an American citizen can be told to me that, when you decide it's ideal for me to exercise them, that's when you can exercise them. That is not what we are talking about here. If you have probable cause to do whatever you need to do, do it. But if he has his right to say no, he should know that and he should be able to exercise that when he says so - not when you decide. He is going to reaffirm his vote tonight. But more importantly than reaffirming this vote, we must make sure that the intention of this resolution, these resolutions, are what Council wants. And that is not that someone's rights are ideal to when the police want them to exercise it, but when people in the public of our community know when they can exercise their rights and they get the choice. "Ideally" should never appear in any policy when people have the absolute right to exercise their privilege under the constitution. Never. So he will always, from this point forward, if he sees "ideally" in a policy for this, we will be back here again and again and again and again, because ideally exercising my rights is not an option for you to decide. Never.

Councilman Kapoor said that with respect to the "community caretaker" doctrine which Councilman Young noted tonight, in just a short Internet research he found that it is not the case in all states. In fact, the "community caretaker" doctrine in New Jersey, and he doesn't know what it is in North Carolina, and he was not sure if Councilman Young does either, it is not a justification for the warrantless entry and search of a home in the absence of some form of an objectionable reasonable emergency. The situation he described was not one of those cases. Respectfully, he believed there may be cases when Councilman Young is right and may apply, but the point he is simply making is there are situations where it may not, and it is very concerning to him that there may be Council Members who would require such a policy without any exceptions, even in the event that the public or the officer's safety may be in danger, which is not probable cause.

Mayor Manheimer said she did support a do-over of the earlier action that we took in May because there were a lot of questions from people around process, whether the action we took could have been legally challenged or voided in some way. She felt the questions around process undermined the actual intent of these actions and took away from the important underlying action of what we are trying to accomplish here. She felt this is a complicated topic. You can hear a criminal procedure debate happening right here and that is one of the reasons why we are not actually drafting the policy. She wanted to remind the public that Council gets to adopt a resolution regarding where we stand. We do not get the draft the policies of the police department. The police department will have to do that at this point, working with the City

Manager. She has taken the opportunity to read Durham's policy. She has also read Chapel Hill's policies. Those are two other communities that have a written consent policy (as well as Asheville) that gets closer to what we are talking about here. She has taken the opportunity to talk to the Durham Mayor about how this has been working in Durham. Her take-away was that it is complicated. It's not the kind of thing you can draft a policy on the back of a napkin in an afternoon. There needs to be some time and thought put into it. She looks forward to the City Manager working with the chief to do that. She applauded the audience because she felt they managed to handle this topic in a civil manner. Clearly there is great disagreement. She felt saddened by great divides occurring over a topic that she knows if we could sit around a table and talk about we could get closer together on. But she worried that in a public forum like this is if words that are spoken are so damaging that injuries cannot be recovered from. There were a couple of comments she felt got a little close to that bar but overall everyone did a good job of eloquently talking about you feel about this issue and explaining that to us. She did not live through the Civil Rights movement or the repeal of Jim Crow laws, but now we are into the nuanced part of this movement and it's very challenging to understand and it's something we are all learning about. None of us came into this job being an expert in this field by any means. She thanked the audience for working with Council because we are trying to do the best job we can and trying to make sure that Asheville is a safe community, but a fair and equitable community at the same time. She hoped that goal is coming through in the actions of Council.

Regarding the resolution regarding written consent, Vice-Mayor Wisler moved for the adoption of Resolution No. 18-144. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 470

Regarding the resolution regarding consent search criteria, Vice-Mayor Wisler moved for the adoption of Resolution No. 18-145. This motion was seconded by Councilwoman Mayfield and carried unanimously

Regarding the resolution regarding regulatory vehicle stops, Vice-Mayor Wisler moved for the adoption of Resolution No. 18-146. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 472

VI. NEW BUSINESS:

A. RESOLUTION NO. 18-147 - RESOLUTION APPROVING GROVE ARCADE ASHEVILLE LLC AS THE NEW SUBLESSEE FOR THE GROVE ARCADE; APPROVING THE NEW SUBLEASE, THE AMENDMENT TO THE LEASE BETWEEN THE CITY AND GROVE ARCADE PUBLIC MARKET FOUNDATION, AND OTHER ASSOCIATED DOCUMENTS; AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL DOCUMENTS NECESSARY TO GIVE EFFECT TO THIS TRANSACTION

Assistant City Attorney Jannice Ashley said that this is the consideration of a resolution approving Grove Arcade Asheville, LLC as the new Sublessee for the Grove Arcade; approving the new Sublease, Amendment to Lease between the City and Grove Arcade Public Market

Foundation, and other associated documents as described herein; and authorizing the City Manager to execute all documents necessary to give effect to this transaction.

This is a request to approve the sale of the sublease rights in the Grove Arcade from the existing Sublessees, Historic Grove Arcade, LLC (an entity affiliate of Duke Energy Progress) and Grove Arcade Restoration, LLC, to a new entity, Grove Arcade Asheville, LLC, a North Carolina Limited Liability Company (whose members consist of Northpond Partners and Dewey Property Advisors).

The City acquired the Grove Arcade from the Federal Government (National Park Service) at no cost in April 1997, subject to the requirement that the property be used for "historic monument purposes", and operated and maintained as a historic property in perpetuity in compliance with National Historic Preservation Guidelines and subject to the terms of the Preservation, Operation, and Rehabilitation Agreement . The City then leased the Grove Arcade to the Grove Arcade Public Market Foundation ("GAPMF" or the "Foundation"), a non-profit with the purpose of restoring and preserving the Grove Arcade, in August 1997. The Lease to GAPMF is for 99 years with an option to renew for an additional 99 years, for the nominal rate of $1/year. The Lease is subject to the terms of a separate Preservation, Operation, and Rehabilitation Agreement ("Preservation Agreement") between the City and GAPMF which was also approved by the federal government. The Lease granted GAPMF the ability to sublease the premises, with such subleases also being subject to the requirements of the Preservation Agreement, and GAPMF granted a sublease to Grove Arcade Restoration, LLC ("GAR") (which manages the 1st floor retail-35 tenants-, and portions of mezzanine and basement) and to Historic Grove Arcade, LLC ("HGA") (which manages the 2nd, 3rd, 4th, and 5th floors-that include 7 offices and 42 residential rental units) in 1999.

Since its initial lease up, the Grove Arcade, which was a dilapidated, bricked-up building when acquired by the City in 1997, has undergone more than $20M in historic preservation renovations and now is a thriving commercial building, with 35 retail tenants on the first floor, and offices and 42 residential rental units on the upper floors. A managing member of both GAR and HGA was Caro Home/Progress Energy (now Duke Energy Progress) that utilized the historic tax credit program to fund a majority of the renovation. The City also contributed to the cost of the renovation (approximately $2.6M) via a COPS (1997C Bonds-Certificate of Participation) Loan. While some of the outstanding balance of the COPS loan was repaid by GAPMF, in 2010, GAPMF experienced cash flow difficulty that prevented them from making the required debt service payments. The City negotiated with GAPMF to write off a portion of the debt, lower payment amounts, and agreed to not require repayment of the remaining loan balance from GAPMF until the Sublease rights to upper floors were sold. The City continued to pay the required debt service on the COPS, and created a receivable to be paid by GAPMF when the sublease rights are sold to the new Sublessee, after closing. The balance due is now approximately $1.2M.

In October of 2016, the Foundation informed the City Manager and the City Attorney's Office of their desire to move forward with a process to transfer the sublease interests in the Grove Arcade, and requested approval by the City Manager of the process to solicit proposals from interested parties. The proposed new Sublease structure was as follows: GAPMF and Duke Energy proposed to consolidate the subleases of HGA and GAR and transfer (i.e. sell the sublease rights) to a single entity that would operate the entire building. The City would continue to own the building, the Foundation would continue to the be the primary tenant under the 1997 Lease and Preservation Agreement, and all of the conditions of these governing documents would continue to apply. The Foundation, HGA and GAR-through a contract with Tessier Associates which currently manages the upper floors of the Grove Arcade-would seek a new Sublessee through a public RFP process.

In May of 2017, a Request for Proposals from interested parties to purchase a long term sublease interest in the Grove Arcade was released by Tessier Associates. The RFP/Invitation Letter was sent to over 500 local, regional and national investors and brokers; if interested, they were asked to submit information on their company and a confidentiality agreement. From inquiries received Tessier and the Selection Committee, made up of members from GAPMF, GAR and HGA ended up with a list of 12 qualified prospects that were then sent a complete information packet and asked to submit a formal proposal. Three (3) complete proposals were received by the cutoff date in July 2017 and each was invited to tour the property and meet with the Selection Committee. In the Fall of 2017, the City was informed, that the Selection Committee had chosen Grove Arcade Asheville, LLC, as the most qualified proposer to become the new Sublessee of the Grove Arcade.

Requests Before City Council:

1. **Review and Approval of new Sublessee-Grove Arcade Asheville, LLC ("GAA")**

   As per the terms of the 1997 Preservation Agreement between the City and the Foundation (Section IV, p. 10), the City Council has the right to review the qualifications of the successful bidder/RFP respondent, Grove Arcade Asheville, LLC, in order to determine whether they should be approved as a new Sublessee. Northpond Partners, a managing member of GAA, has significant experience in the ownership and operation of historic properties in urban settings both in North Carolina and throughout the United States. A summary of Northpond's projects and experience was provided to Council.

2. **Approval of the new Sublease; Approval of an Amendment to the Lease with the Foundation, including approval of updated Leasing Guidelines; Approval of Amendment to Encroachment (Sidewalk) Agreement; and approval of other documents necessary to give effect to this transaction.**

   This proposed sale of sublease rights actually will result in very little change to the existing management structure of the Grove Arcade. The Foundation will remain the primary Lessee of the Grove Arcade and all major terms of the Lease (i.e. lease term, rental rate, Foundation responsibility for all costs of maintenance and repair in accordance with historic preservation standards) will remain in place. As under the current arrangement, the responsibility for performance of these terms is passed through to the Sublessee. The new Sublease is substantially similar to the existing subleases with GAR and HGA. The major terms of the documents necessary for this transaction are as follows:

New Sublease between the Foundation and Grove Arcade Asheville, LLC

- Lease Term- Until 8-14-2096 (remaining 78 years of the initial 99 year term of the original subleases entered in 1997); option to renew for an additional 99 years if the Foundation renews its primary lease for an additional 99 years.
- Rent-$10/year
- Sublessee to assume responsibility for operation and maintenance of the Leased Premise and payment of all utilities, taxes, maintenance and repair. City and Foundation retain the right to inspect any work to ensure it is in accordance with the Preservation Agreement.
- Sublease is expressly subject to and subordinate to the Prime Lease with the Foundation and its use subject to all preservation requirements outlined in governing documents including, the Preservation Agreement, Quit Claim Deed from the Federal Government to the City, Preservation Façade Easement with Preservation North Carolina, Certificate of Appropriateness issued by the Historic Resources Commission, and any applicable

requirements of the National Monument Act, National Historic Preservation Act, and State Historic Preservation Act.

- Sublease is subject to insurance and liability terms approved by the City's Risk Manager.

Amendment to Lease between the City and the Foundation and Modification to the Preservation Agreement

- Approval of Sublease of Grove Arcade Asheville, LLC (Northpond)
- City agrees to be bound by terms of Sublease if Lease with Foundation is involuntarily terminated and to treat GAA as direct lease if, 1) GAA forms a non-profit entity who purposes include the preservation of real or personal properties of historical significance and with the specific purpose of the preservation of the Grove Arcade in accordance with the terms of the Preservation Agreement; 2) the new entity assumes all the same liabilities, responsibilities and rights contained in the Prime Lease with the Foundation; and 3) the City shall have the right to review all documents related to the formation of this new non-profit and the new entity's board shall include a City appointee as a member (as is the case for the current Foundation board).
- City approval of a New Operations and Lease Plan. Original Leasing Policies related to the first floor use as retail/office were adopted on 3-26-97. The Sublessee proposes a new Operations and Leasing Plan which is not as detailed as the original plan, but is similar in many ways. Summary of New Leasing Policy Guidelines is as follows:
    - Criteria for (Sub) Tenant Selection in the new Leasing Plan is substantially the same as those outlined in the original leasing policy-criteria include: Tenant overall contribution to success of the public market; ownership (independent, franchise, national); nature and uniqueness of product mix; how product offered represents and/or reflects on our region; mix with other tenant offerings; competition with existing businesses.
    - The Foundation will still have a limited role in overseeing the leasing guidelines/implementation. The Foundation and GAA will enter into a separate Historic Preservation Management Agreement (reviewed by the city's legal department) which makes clear that the Foundation shall remain the primary lessee with the ultimate responsibility for complying with the preservation requirements. Additionally, the Agreement requires that GAA provide the Foundation with space for its administrative office within the Grove Arcade. Also, the new Leasing Policy will specifically require at least quarterly meetings between the Foundation and GAA to discuss: the leasing plan, merchandising strategy, long term target prospects. The Foundation will also assist in preparing the biennial report that the City sends to the National Park Service ("NPS"), regarding building activities.
    - New Leasing Policy provides that Sublessee shall never sign a lease which will exceed a balance of 50% local and regional and 50% National tenant mix without the majority approval of the Foundation Board.
    - While the new Leasing Policy does specifically contemplate leasing to National Tenants, something which was not specifically mentioned in the original leasing guidelines, it appears to do so in a way that meets the requirements of the Preservation Agreement to

rent principally to locally owned and operated small retail and service businesses. The Merchandising Plan states that they will, "*seek first to find unique local operators to curate the mix and focus primarily on local and/or regional restaurant operators.*"

- Modification of the Preservation Agreement to remove obsolete provisions related to rehabilitation/construction requirements and parking provisions that are no longer necessary since the major rehabilitation project has been completed and the parties agree that such requirements (i.e. provision of additional parking by the City) are no longer being pursued.

Amendment to Sidewalk Encroachment Agreement

- The City and the Foundation entered into an encroachment agreement in August 2002, which allows the placement of tables, chairs, merchandise carts and other furnishings upon the sidewalk rights of way adjoining the Grove Arcade Building. The Agreement makes the Foundation (as Lessee) responsible for the maintenance, repair and renovation of the sidewalks where the encroachment is located. The existing Agreement also allows the City to terminate the encroachment agreement for any reason with 60 days notice. The new Sublessee is requesting to amend the Agreement to delete the City's 60 day termination right.
- The amendment would retain the City's ability to terminate with cause (i.e. if Lessee fails to use the space for the permitted purposes) after providing 60 days notice and an opportunity to cure. Otherwise, the Agreement will remain in place throughout the lease term.

Non-Disturbance and Attornment Agreement

This is an agreement between the City, the Foundation, Grove Arcade Asheville, LLC and UNUM Life Insurance Company (lender for GAA), in which the City confirms the existing Primary Lease terms with the Foundation, represents that neither the City nor the Foundation are in default under the Lease, confirms that the City has not assigned, sold or otherwise encumbered its interest in the Leased premises, and essentially agrees, that in the event of a termination of the Primary Lease, the Sublease rights shall be preserved (as long as the Sublessee is not in default). This type of agreement is a usual requirement of this type of transaction.

At their meeting on May 21, 2018, the Planning and Economic Development Committee recommended approval of the new sublessee, Grove Arcade Asheville, LLC ("GAA") and approval of the new sublease, subject to the conditions that GAA submit a more detailed Business Plan for operation of the Grove Arcade, and that the Foundation be required to meet more frequently (quarterly rather than annually) with the sublessee in regard to the leasing plan and policy. GAA has complied with these requests; and a more detailed Business Plan was provided to City Council on June 5th and the Leasing Plan will be updated to require quarterly meetings.

Pros:

- Grove Arcade Asheville, LLC, the new Sublessee, has demonstrated the necessary qualifications and experience in the operation and preservation of historic buildings to ensure the continued successful operation of the Grove Arcade in accordance with the existing Preservation Plan requirements.

- Upon Sale of the Sublease rights to Grove Arcade Asheville, the City will be repaid the receivable due to it in the amount of approximately $1.2M related to the initial debt issued as part of the COPS 1997C.

Con:

- None Known.

Repayment of receivable due to the City in the amount of $1.2M related to the initial debt issued as part of the COPS 1997C.

Staff recommends that the City Council adopt a resolution approving Grove Arcade Asheville, LLC as the new Sublessee for the Grove Arcade; approving the new Sublease, Amendment to Lease between the City and Grove Arcade Public Market Foundation, and other associated documents as described herein; and authorizing the City Manager to execute all documents necessary to give effect to this transaction.

Mr. Robby Russell, Board Chair of the Grove Arcade Public Market Foundation, said that the Foundation and Duke Progress both agree that the renovation efforts were successful and it's now time to divest this asset to the new caretaker who will also be subject to the existing lease with the City.

Ms. Ruth Summers, Executive Director of the Grove Arcade Public Market Foundation, gave a brief history of the Grove Arcade, which was originally developed in the 1920's. Community benefits for the Grove Arcade include: The Grove Arcade was the prime engine for continuing the economic revitalization and renaissance on the western edge of the downtown; Celebrate the best that Asheville has to offer, from our local entrepreneurial community of businesses; Provide needed community services and public amenities to the citizens of Asheville; Revenue generator of the City and County governments, through sales, business and real estate taxes; Encourage people to come to downtown Asheville in the evening; Saved a historic building from remaining as a desolate and vacant building, once all Federal uses were discontinued; Leases remain in place; The apartments will remain as rental units and not be converted to condominiums thus retaining an active local downtown community; 39 local artists will continue to make a living by participation in the Outdoor Artists Market located on Battery Park Avenue; The conference room will remain available to small businesses and non-profits as a reasonable priced meeting space; and Community events will continue to be offered to the public; free of charge or by ticket as a fundraiser. She explained the current and the proposed structure.

Mr. Sam Aiken, with Northpond Partners, said that on behalf of their company they are excited as this is their 13th investment in North Carolina and their third historic property. They have been working with Eddy Dewey, from Dewey Property Advisors, for the last three years to find the right fit in Asheville. As partners they are excited to continue the great tradition of the Grove Arcade.

Mr. Dewey spoke about his local market knowledge in Asheville.

Mr. Alan Ditmore explained his opposition to this action.

Councilwoman Mayfield thanked those who are retaining and restoring this beautiful building. She hoped the new partners understand the legacy of the Grove Arcade in Asheville.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved for the adoption of Resolution No. 18-147. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 473

B. RESOLUTION NO. 18-148 - RESOLUTION ADOPTING THE EQUITY ACTION PLAN

Ms. Kimberlee Archie, Equity and Inclusion Manager, said that this is the consideration of a resolution adopting the Equity Action Plan by City Council.

DEFINITIONS:

- **Equity** is just and fair inclusion into a society in which all can participate, prosper, and reach their full potential (excerpt from Equity Manifesto)
- **Racial equity** is the condition when racial identity no longer predicts individual or group life outcomes, and outcomes for all groups are improved.
- **Advancing racial equity** employs analysis and strategies at the root cause of inequities and disparities; working to address disparities through changes in policy, practice and procedure. (working draft)
- **Inclusion** is authentic and empowered participation with a true sense of belonging. (working draft)
- **Inclusive engagement** of Asheville's residents is demonstrated through meeting community where they are and working collaboratively to ensure their voices are valued. (working draft)

To advance equity and inclusion within municipal government, the GARE racial equity framework is being employed. The City of Asheville is a member of the Government Alliance for Race and Equity, a national network of government jurisdictions working to achieve racial equity and advance opportunities for all, which has developed a framework based on best practice from government entities who have been working to advance racial equity for a decade or longer. Creating equity tools, such as an equity action plan, is part of one component of the racial equity framework.

Why do we lead with race?

The Equity and Inclusion work in Asheville leads with race because although the founding values of the United States are evident in statements such as "all men are created equal", "with liberty and justice for all", and "government of the people, by the people, for the people shall not perish from the earth", those included and allowed to benefit from these values has changed over time. Who encompasses "all", "all men" or "the people" was exclusionary at the founding of this nation and the legacy remains today.

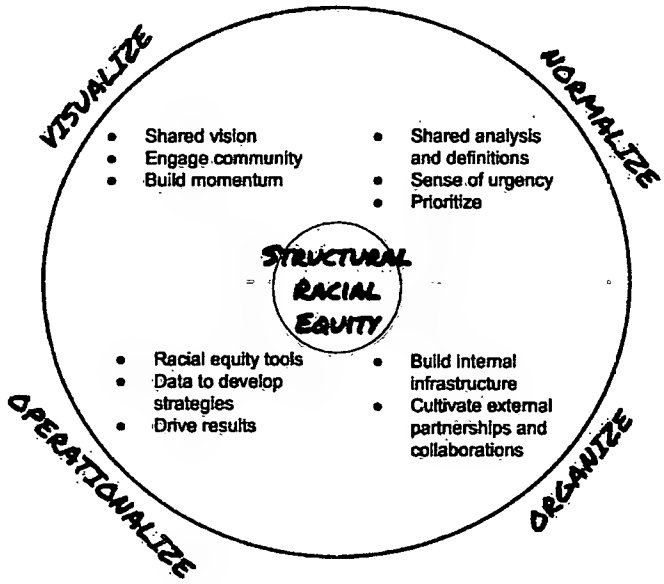
Over the history of this nation, government policy, practice and procedures have evolved from explicitly creating and maintaining racism and race-based oppression through Indian removal, colonization, slavery, Jim Crow laws, Japanese internment, housing discrimination and segregation, employment discrimination and more, to implicit racism and disenfranchisement through "race neutral" policies. Once explicit discrimination became illegal, examples of race-neutral policies, meaning the removal of race-specific language restricting access and opportunity, include redlining practices by the Federal Housing Administration and ongoing collusion with insurance companies, the real estate industry, financial institutions and companies supported government subsidized wealth building for whites that is still evident today as observed in the State of Black Asheville. The Social Security Act of 1935 excluded agricultural and domestic workers from access to benefits. 65% of workers in these industries at that time were African Americans; therefore, by excluding workers in agriculture and domestics, the unintended or intended consequences of who benefitted and was included were racialized.

Although the Civil Rights Act of 1964 and Voting Rights Act of 1965 provided protections and opportunities for those facing discrimination, mainly African Americans, the legacy of discrimination, oppression, and explicit racism was deeply embedded in the fabric of the United States and impacts all facets of life:

- Education
- Jobs
- Wealth
- Health
- Criminal Justice
- Housing
- Income
- Safe Neighborhoods

In Asheville and all over the United States, people of color, especially African Americans are disproportionately and negatively portrayed and show up in data related to these facets of life. We lead with race because we haven't eliminated racism yet. We lead with race because racism has been the most pervasive and hasn't been solved. Successfully dismantling institutional and structural racism will mean other forms of oppression can be dealt with using a similarly focused framework.

Racial Equity Framework - The racial equity framework adopted for use in Asheville has four major components:



The racial equity framework is represented in a circle to communicate the non-linear process of building, developing and acting that occurs simultaneously.

Normalize: Establish racial equity as a key value by developing a shared understanding of key concepts across the entire jurisdiction and create a sense of urgency to make changes. This work includes getting on the same page in our understanding of systemic racism, how it is pervasive and has been maintained for generations by government along with supporting a culture of dialogue, analysis and learning about institutional and systemic racism in a safe environment.

Organize: Build staff and organizational capacity, skills and competencies through training while also building an infrastructure to support the work, like internal organizational change teams and external partnerships with other institutions. Asheville has an Equity Core Team with representatives from all city departments who are adding to their capacity as leaders, organizers and ambassadors while learning to "normalize" racial equity. Additionally, conversations are occurring with other public and private institutions interested in partnering or collaborating to dismantle structural racism in Asheville and Buncombe County.

Operationalize: Put theory into action by implementing new tools for decision-making, measurement, and accountability like a Racial Equity Analysis Tools (equity lens) and developing a Racial Equity Action Plan.

Visualize: Develop a clear and bold vision for racial equity with inclusion by those most impacted by inequities. Inclusive community engagement is a requirement to ensure alignment between the needs and desires of impacted community members and the actions of city government to operate in a racially equitable manner.

The Equity Action Plan was recommended to City Council for adoption by the Finance & Human Resources Committee on April 23, 2018, after presentation by staff.

An equity action plan communicates a theory of change into action to achieve a collective vision of racial equity. This initial equity action plan has been developed with the Equity Core Team and informed by community as well as data about our community. The Equity Action Plan has being vetted with Management Team to ensure agreement; and support of the work described therein has been provided. It supports Vision 2036 and this strategic plan describes the initial direction, goals, capacity and implementation for advancing equity citywide as stated in City Council's strategies, updated February 2018 [*Goal 1: Adopt and implement an equity program driven by a comprehensive strategic plan that will ensure direction, goals, and capacity*]

This Equity Action Plan focuses internally for community level impact. Five areas of action are described in the Plan: advancing workforce equity as an employer, advancing equity and inclusion in community engagement, advancing economic equity in contracting, advancing equity in development without gentrification (economic inclusion), and finally, advancing equity through building our internal capacity. The details of developing measurable outcomes in each area of work are in process; however, the questions we are answering to measure accountability include:

- How much did we do?
- How well did we do it?
- Is anyone better off?

These questions, which are the foundation of the Results Based Accountability framework, a disciplined method for thinking and taking action to achieve meaningful change.

City Council's support, approval and adoption of the Equity Action Plan is necessary for institutional and structural change to occur. Advancing racial equity takes time, funding, skills, effort, will and community expertise to change our policies, the way we do business, our habits and cultures. Through the collaborative efforts of Interdepartmental Action Teams, the Office of Equity & Inclusion, all City Departments, and through community connections (e.g. Human Relations Commission of Asheville) and external partners, this work will be implemented and we will demonstrate accountability to our stakeholders.

Pros:

- Will create a strategic roadmap for coordinated, citywide actions toward advancing racial equity.
- Will engage City employees, from frontline workers to leadership in building capacity to change policies, practices, and procedures for advancing equity and being inclusive.
- Provides a path to including those most impacted by oppression, racism, and discrimination in connecting to city government.
- Transform Asheville into a more equitable and inclusive city government

Con:

- Ongoing costs for staffing and program development

Implementation costs for the Equity Action Plan includes the addition of 3 positions and related operating expenses for a budgeted total increase of approximately $250,000 as outlined in the FY 2018-19 Proposed Budget. Ongoing costs will be higher than this initial amount due to the phased hiring approach planned for FY 2018-19.

Staff recommends City Council adopt a resolution authorizing the City Manager to implement the comprehensive and strategic goals of the Equity Action Plan.

In response to Councilwoman Wisler, Ms. Archie said that she will provide a quarterly update to Council.

Mr. Michael Hayes suggested funds be earmarked to the Equity Action Plan, with perhaps funding from the sale of Mission Hospital system.

Mr. Alan Ditmore felt that City Council is gentrifying on purpose.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved for the adoption of Resolution No. 18-148. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 475

C. RESOLUTION NO. 18-149 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A WATER PRODUCTION AND DISTRIBUTION AGREEMENT WITH HENDERSON COUNTY

Deputy City Attorney Kelly Langteau-Ball said that this is the consideration of a resolution authorizing the Mayor to execute a Water Production and Distribution Agreement with Henderson County.

In April of 2017, City staff met with Representative Chuck McGrady and representatives of Henderson County and the City of Hendersonville to discuss issues relating to Asheville and Hendersonville's water systems. The City and Henderson County agreed that previous agreements both parties entered into in 1994 and 1995 regarding water production and distribution were no longer legally effective or binding. Therefore, City staff and Henderson County staff agreed to enter into a new agreement for water production and distribution.

The primary purpose of the new agreement is to: i) memorialize the applicability of the Sullivan Acts and the City's Water Policy to the portion of the Asheville's water system located in Henderson County, including the Cane Creek Area and ii) provide an opportunity for large industrial water users who plan to locate in the Asheville Service Area, which includes the Cane

Creek Service Area, to request funds from the Asheville City Council to assist with the payment of water infrastructure to connect to the City's water system.

The decision as to whether to grant economic incentive funds, and the amount of such funds to be granted, will be within City Council's sole discretion, based upon factors to be determined by the City Council, which could, but would not be required to include the following: the amount of water required; the number of jobs created; and the cost of the infrastructure improvements. In order to request economic incentives, the following minimum requirements must be met: i) the industry must be located in Asheville's Service Area; ii) the industry must have a minimum daily usage of at least 80,000 gallons; and ii) if the industrial user's location is outside of Asheville's corporate limits, the governing jurisdiction must agree to be a party to any economic incentive agreement, and to partner with Asheville in the event such incentives are allowed.

The City agrees that it will amend the Asheville Water Policy with the above-stated economic incentive provision within 90 days of the date of execution of the agreement with Henderson County.

In addition, based on requests by Henderson County, the City agrees to the following: i) a right of first refusal to Henderson County should the City receive an offer to buy the Mills River Plant and/or the portions of the water system located within Henderson County; ii) the approval of Henderson County if the City extends any water lines into the unincorporated areas of the county; and iii) if the City's water system becomes governed by a board other than Asheville by voluntary agreement to which Asheville is a party, then Henderson County shall be a voting member of such board, with voting representation proportional to the number of Henderson County water customers. These provisions are not authorized under the Sullivan Acts and as such, the agreement contains language that these provisions are effective only if the Sullivan Acts are repealed or are not otherwise prohibited by law.

Pros:

- Provides economic development incentives for potential large industrial users.
- Assists with system expansion efforts by leveraging private investments in the water system.

Con:

- Difficult to identify a budget to support an economic incentive program due to uncertainty associated with the frequency and scale of these projects.

Fiscal impact is largely unknown at this time. Due to the uncertainty associated with the frequency and scale of these projects, it is difficult for the Water Enterprise fund to develop a budget that will support this economic incentive program. In the event that this program is used, Water Resources may be required to draw on its cash reserves in order to support the incentive program.

Staff recommends adoption of a resolution authorizing the Mayor to execute a Water Production and Distribution Agreement with Henderson County.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-149. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 481

D. BOARDS & COMMISSIONS

Regarding the I-26 Connector Aesthetics Committee, the following individuals applied for a vacancy: Woodard Farmer, Joe Minicozzi, Michael Adams, Billy Cooper, David Nutter and Michael Zukoski. Because there were not enough applications received, it was the consensus of Council to re-advertise for this Committee.

Councilman Young briefly reported on the Human Relations Commission and that they will be holding a retreat. He suggested they may need a facilitator for that meeting.

RESOLUTION NO. 18-150 - RESOLUTION APPOINTING A MEMBER TO THE AFRICAN AMERICAN HERITAGE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the African American Heritage Commission.

The term of Marvin Chambers will expire on July 1, 2018.

The following individuals applied for the vacancy: Samantha Singer, Brandon Oliver and Michael Hayes.

It was the consensus of the Boards & Commissions Committee to reappoint Marvin Chambers.

Vice-Mayor Wisler moved to reappoint Marvin Chambers to serve an additional three-year term, term to expire July 1, 2021, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 483

RESOLUTION NO. 18-151 - RESOLUTION APPOINTING A MEMBER TO THE GREATER ASHEVILLE REGIONAL AIRPORT AUTHORITY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Greater Asheville Regional Airport Authority.

The term of Bob Roberts will expire on June 20, 2018.

The following individuals applied for the vacancy: Frank Wolf, Robert Herlin, Brad Galbraith and Chris Sevcik.

It was the consensus of the Boards & Commissions Committee to appoint Brad Galbraith.

Vice-Mayor Wisler moved to appoint Brad Galbraith to serve a three-year term , term to expire June 30, 2022, or until his successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 484

RESOLUTION NO. 18-152 - RESOLUTION APPOINTING MEMBERS TO THE

CITIZEN-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Citizens-Police Advisory Committee.

The terms of Carol Rogoff Hallstrom (North) and Larry Holt (Central) expired on June 30, 2017 (terms extended until their successors were appointed). In addition, (1) Allen Brailsford (West) resigned from his June 30, 2017, termination date; and (2) Debbie Applewhite (East) resigned from her June 30, 2017, termination date. Also, there is an unexpired term left by Sir Charles Gardner (resident of property owned by the Housing Authority) until June 30, 2019; and an unexpired term of Jayden Gurney (Housing Authority representative) until June 30, 2021.

The following individuals applied for the vacancy: Frank Wolf, Gretchen Gudites, Celeste Fletcher, Frederic Arnold, Jason Martin, Michael Hayes and Karl Katterjohn.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Clifford Joslin (South); (2) appoint Michael Hayes (West); and (3) appoint Karl Katterjohn (East).

Vice-Mayor Wisler moved to (1) reappoint Cliff Johnson (South) to serve a three-year term, term to expire June 30, 2020; (2) appoint Michael Hayes (West) to serve an unexpired term, term to expire June 30, 2021; and (3) appoint Karl Katterjohn (East) to serve an unexpired term, term to expire June 30, 2021. All appointments are until their successors have been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

It was the consensus of Council to re-advertise for the north, central and resident of the Housing Authority seats, along with contacting the Housing Authority for their representative.

RESOLUTION BOOK NO. 39 - PAGE 485

RESOLUTION NO. 18-153 - RESOLUTION APPOINTING A MEMBER TO THE CIVIC CENTER COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Civic Center Commission.

The terms of Joel Storrow, Chris Bubenik and Greg Duff will expire on June 30, 2018. In addition Joe Green has resigned, thus leaving an unexpired term until June 30, 2019.

The following individuals applied for the vacancy: Larry Layton.

It was the consensus of the Boards & Commissions Committee to reappoint Greg Duff.

Vice-Mayor Wisler moved to reappoint Greg Duff to serve an additional three-year term, term to expire June 30, 2021, or until his successor has been appointed. This motion was seconded by Councilman Kapoor and carried unanimously.

It was the consensus of Council to re-advertise for the other vacant seats.

RESOLUTION BOOK NO. 39 - PAGE 486

RESOLUTION NO. 18-154 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ELECTRICAL EXAMINERS

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Board o f Electrical Examiners.

The terms of George Grigg (electrical contractor), Charlie Wheeler (journeyman electrician), David Martin (utility representative), Russell Thacher (licensed engineer) and Kenneth Frisbee (layman) expire on July 1, 2018.

The following individuals applied for the vacancy: None.

It was the consensus of the Boards & Commissions Committee to reappoint Greg Grigg, Charlie Wheeler, David Martin and Russell Thacher.

Vice-Mayor Wisler moved to reappoint George Grigg (electrical contractor), Charlie Wheeler (journeyman electrician), David Martin (utility representative) and Russell Thacher (licensed engineer) to each serve an additional three-year term respectively, terms to expire July 1, 2021, or until their successors have been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

It was the consensus of Council to re-advertise for the layman seat.

RESOLUTION BOOK NO. 39 - PAGE 487

RESOLUTION NO. 18-155 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville-Buncombe Historic Resources Commission.

The terms of William Eakins and Ed Flowers will expire on July 1, 2018.

The following individuals applied for the vacancy: Rick Freeman and Will Hornaday.

It was the consensus of the Boards & Commissions Committee to reappoint William Eakins and Ed Flowers.

Vice-Mayor Wisler moved to reappoint William Eakins and Ed Flowers to each serve a three-year term respectively, terms to expire July 1, 2021, or until their successors have been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 488

RESOLUTION NO. 18-156 - RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Homeless Initiative Advisory Committee (HIAC).

The term of Jay Lively expired on November 1, 2017.

The following individuals applied for the vacancy: Val Ball, Timothy Moser, Bill Robinson, Michael Carlebach, Roberto L. Hess, Thomas Cash, Tamarie Macon, Donna Ball and Elvia Diaz.

On May 22, 2018, the HIAC recommended City Council appoint Donna Ball. However, it was the consensus of Council to interview Donna Ball and Elvia Diaz.

After speaking highly of both interviewees, Donna Ball received 3 votes, and Elvia Diaz received 4 votes, therefore, Elivia Diaz was appointed to serve a three-year term, term to expire November 1, 2020, or until her successor has been appointed.

RESOLUTION BOOK NO. 39 - PAGE 489

RESOLUTION NO. 18-157 - RESOLUTION APPOINTING MEMBERS TO THE MULTI-MODAL TRANSPORTATION COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Multi-Modal Transportation Commission.

The terms of Kim Roney (representing transit interests), Mary Weber (representing greenway interests) will expire on July 1, 2018. In addition, Billie Lofland (representing bike/ped interests) resigned leaving an unexpired term until July 1, 2018.

The following individuals applied for the vacancy: Helen Hyatt, Han Winogrond, Keaton Edwards, Carson Dellinger, Tina Wexler, Andrew S. Kirby, Ritchie Rozzelle, Dennis Wencel, Pat Katz, Rachelle Sorensen-Cox and Kenneth Armstrong.

It was the consensus of the Boards & Commissions Committee to reappoint Kim Roney and Mary Weber.

Vice-Mayor Wisler moved to (1) reappoint Kim Roney and Mary Weber to each serve a three-year term respectively, terms to expire July 1, 2021; or until their successors have been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

It was the consensus of Council to wait for the Multimodal Transportation Commission's recommendation on the vacancy left by Ms. Lofland.

RESOLUTION BOOK NO. 39 - PAGE 490

RESOLUTION NO. 18-158 - RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Neighborhood Advisory Committee.

The terms of Spencer E. Hardaway (representing 28803 or 28704 zip code), Mike Wasmer (at-large), and Joe Fioccola (representing 28801 zip code) expire on July 1, 2018.

The following individuals applied for the vacancy: Kristin Baldwin, Carter B. Webb and Karl Katterjohn.

It was the consensus of the Boards & Commissions Committee to reappoint Spencer Hardaway, Mike Wasmer and Joe Fioccola.

Vice-Mayor Wisler moved to reappoint Spencer Hardaway (representing 28803 or 28704), Mike Wasmer (at-large) and Joe Fioccola (representing 28801) to each serve a three-year term respectively, terms to expire July 1, 2021, or until their successors have been appointed. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 491

RESOLUTION NO. 18-159 - RESOLUTION APPOINTING A MEMBER TO THE NOISE ORDINANCE APPEALS BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Noise Ordinance Appeals Board.

The terms of Tod Leaven (Regular member) and Robert Glenn (Alternate member) will expire on July 1, 2018.

No one applied for the vacancy.

It was the consensus of the Boards & Commissions Committee to reappoint Tod Leaven (Regular member)

Vice-Mayor Wisler moved to reappoint Tod Leaven (Regular Member) to serve an additional three-year term, term to expire July 1, 2021, or until his successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

It was the consensus of Council to re-advertise for the Alternate member seat.

RESOLUTION BOOK NO. 39 - PAGE 492

RESOLUTION NO. 18-160 - RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Public Art & Cultural Commission.

The terms of Ali McGhee, Micah Mackenzie and Constance Richards will expire on June 30, 2018.

The following individuals applied for the vacancy: Allen Roda, Johanna Hagarty, Cate Ryba, Mariana Avila Llorente, Karen Depew, Valeria Watson and Karin Peterson.

It was the consensus of the Boards & Commissions Committee to reappoint Ali McGhee and Constance Richards, and appoint Johanna Hagarty.

Vice-Mayor Wisler moved to (1) reappoint Ali McGhee and Constance Richard to each serve a three-year term respectively, terms to expire July 1, 2021, and (2) appoint Johanna Hagarty to serve a three-year term, term to expire July 1, 2021. All appointments are until their successors have been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 493

RESOLUTION NO. 18-161 - RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Recreation Board.

The terms of Jeff Luttrell, Robert Pierce, Dean Pistor and Helen Hyatt will expire on June 30, 2018.

The following individuals applied for the vacancy: Ron Nelson, Ken Miller, John Irving and April Suttles.

It was the consensus of the Boards & Commissions Committee to reappoint Jeff Luttrell, Robert Pierce and Helen Hyatt and appoint John Irving and Ron Nelson.

Vice-Mayor Wisler moved to (1) reappoint Jeff Luttrell, Robert Pierce and Helen Hyatt to each serve a three-year term respectively, terms to expire June 30, 2021, (2) appoint John Irving to serve a three-year term, term to expire June 30, 2021; and (3) appoint Ron Nelson to serve an unexpired term until June 30, 2020. All appointment are until their successors have been appointed. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 494

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mayor Manheimer announced that the redistricting bill will be heard in Committee at 10:00 a.m. this Thursday in the Senate.

Ms. Sandy Kellam wanted to raise Council's awareness of the lack of security on Asheville City buses.

Mr. Drew Pollack and Mr. Jackson Tierney spoke to Council regarding homestays. Councilwoman Mayfield said that this will be coming before the City Council Planning & Development (PED) Committee to give staff direction and then any Unified Development Ordinance amendment will need to go to the Planning & Zoning Commission and then to City Council for public hearings. When the issue goes to the PED Committee, they will want information on what was the rationale of the change, what are some other options to address the concerns, how many homestay permits are issued, what effect has this had on any of the existing permits, and clarification on the changes made by City Council in January and how it impacts existing permit holders, etc. It was noted that the homestay permitting update will be brought forward to Council in July.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 10:28 p.m.

Magdalen Bourloon
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – July 2, 2018- 5:00 p.m.

Special Meeting

Present: Vice-Mayor Gwen C. Wisler, Presiding; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; Deputy City Attorney Kelly Langteau-Ball; and City Clerk Magdalen Burleson

Absent: Mayor Esther E. Manheimer

A. PUBLIC HEARING TO CONSIDER AN ORDINANCE ADOPTING THE WATER RESOURCES DEPARTMENT SYSTEM MAINTENANCE AND CAPITAL FEES ANALYSIS AND AMENDING THE FISCAL YEAR 2018-19 FEES AND CHARGES TO ADOPT THE WATER RESOURCES DEPARTMENT "SYSTEM MAINTENANCE AND CAPITAL FEES" AND RENAME IT TO "DEVELOPMENT FEES"

ORDINANCE NO. 4678 - ORDINANCE ADOPTING THE WATER RESOURCES DEPARTMENT SYSTEM MAINTENANCE AND CAPITAL FEES ANALYSIS AND AMENDING THE FISCAL YEAR 2018-19 FEES AND CHARGES TO ADOPT THE WATER RESOURCES DEPARTMENT "SYSTEM MAINTENANCE AND CAPITAL FEES" AND RENAME IT TO "DEVELOPMENT FEES"

Interim Water Resources Director David Melton said that this is the consideration of an ordinance adopting the Water Resources Department System Maintenance and Capital fees analysis and amending the Fiscal Year (FY) 2018-19 fees and charges to adopt the Water Resources Department (WRD) "System Maintenance and Capital Fees" and rename it to "Development Fees."

System development fees are one-time charges imposed of new development to fund costs of capital improvements necessitated by and attributable to such new development or to recoup costs of existing facilities. North Carolina General Statute 162A Article 8 ("Article 8") provides for the uniform authority to implement system development fees for public water systems in North Carolina, and was recently enacted by the North Carolina General Assembly on July 20, 2017. According to the statute, system development fees must be adopted in accordance with the conditions and limitations of "Article 8", and those fees in effect as of October 1, 2017, must conform to the requirements set forth in the Article no later than July 1, 2018.

Raftelis Financial Consultants, Inc. (RFC) completed the required analysis, which conforms to the conditions set forth in "Article 8." To conform to N.C.G.S. 162A-209,, the analysis must be posted on the City's website for not 'ess than forty-five (45) days and furnish a means to submit written comments prior to considering adoption. The analysis was posted on March 28, 2018, and met the 45-day requirement on May 12, 2018.

Findings from the final analysis completed by RFC reveal that the WRD is charging below the state average for this fee. WRD is proposing to phase-in increases over the next two years as approved by the City's Finance Committee on March 27, 2018.

On April 10, 2018, City Council adopted the City's Fees and Charges for the Fiscal Year (FY) 2018-19. At that time, the WRD System Maintenance and Capital Fee (formerly known as the Development Fee) was posted for public review and could not be adopted until meeting the required 45-day posting period.

North Carolina General Statute 162A Article 8 ("Article 8") also provides that all proceeds from these fees be accounted for in a capital reserve fund. The resolution establishing a capital reserve fund (CRF) to meet this statutory requirement was approved at the June 19, 2018 Council Meeting. The City may not expend monies directly out of a CRF. Instead, Council must amend the CRF to withdraw the monies and then amend the budget ordinance or project ordinance to recognize the revenue and authorize its expenditure for specific water projects or debt service payments associated with these projects.

Pro:

- Provides opportunity to recover the cost of services from those that directly utilize the water system.

Con:

- Failure to comply with the conditions and limitations of NCGS 162A Article 8 – "System Development Fees" will constitute a violation of the State statute.

The proposed fee adjustment would generate estimated revenue of $100,000. As noted above, this revenue will be accounted for in a capital reserve fund and be used to pay costs of capital improvement necessitated by and attributable to such new development of to recoup costs of existing facilities.

City staff recommends City Council adopt an ordinance adopting the Water Resources Department System Maintenance and Capital fees analysis and amending the Fiscal Year (FY) 2018-19 fees and charges to adopt the Water Resources Department (WRD) "System Maintenance and Capital Fees" and rename it to "Development Fees."

Vice-Mayor Wisler opened the public hearing at 5:02 p.m. and when no one spoke, she closed the public hearing at 5:02 p.m.

Vice-Mayor Wisler said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved for the adoption of Ordinance No. 4678. This motion was seconded by Councilman Kapoor and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 106

Vice-Mayor Wisler adjourned the meeting at 5:03 p.m.

Magdalen Bowlesson
CITY CLERK

Esther Manheimer
MAYOR

Tuesday – July 24, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 19, 2018; AND THE SPECIAL MEETING HELD ON JULY 2, 2018

B. RESOLUTION NO. 18-162 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH APPALACHIAN PAVING AND CONCRETE FOR THE FISCAL YEAR 2018-19 UTILITY CUT CONCRETE REPAIR PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $294,300 plus a contingency of 15% ($44,145) with Appalachian Paving and Concrete for the project known as Fiscal Year (FY) 2018-19 Utility Cut Concrete Repair Contract.

The City of Asheville Public Works-Streets Division Administers the Street Cut Utility Program. This program is an enterprise fund that is supported by the participation and work generated by partner agencies (Duke Energy, PSNC, City of Asheville Water Resources and City of Asheville Stormwater Division). As part of this program both internal and external utilities partner with the Streets Division to make repairs to City owned infrastructure that results from utility improvements and repairs. At times these activities cut concrete infrastructure such as curbs and sidewalk. When this occurs the Utility Cut Program must have a method to address these areas. This contract serves as an instrument to address the unpredictable nature of these cuts in the City infrastructure, and eliminates the possibility City employees being removed from the more routine scheduled maintenance of existing infrastructure. The quantity and location of the concrete repair performed under this contract is dictated by development and repair work performed by the partner utilities. This is the fifth year that a private contractor has performed this service. The contract has the option to renew annually for two, one-year extensions, upon budgetary approval by Council for each fiscal year for the project known as Utility Cut Concrete Repair Contract.

The project was advertised on May 4, 2018. A bid opening was scheduled for May 30, 2018, but we did not receive a sufficient number of bids to open. The contract was readvertised and bids were opened on June 7, 2018, with the following results:

Appalachian Paving and Concrete, Inc. of Asheville, NC $294,300

A 15% contingency ($44,145) has been added to allow payment for any unforeseen costs that typically arise during construction.

Pro:

- Provides for the timely repair on concrete infrastructure that has been damaged by the installation of utilities.

Con:

- Project management and contract administration will consume staff time.

The Street Cut Utility Program is an enterprise fund that is funded by fees paid by the four partners participating in the program. The partners will be billed 100% of the repair cost meaning that the City realizes full cost recovery.

City staff recommends City Council adopt the resolution awarding the contract to Appalachian Paving and Concrete, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $294,300 plus a contingency of $44,15.00 (15%) with Appalachian Paving and Concrete, Inc. for annual concrete repair work in the Street Cut Utility Fund.

RESOLUTION BOOK NO. 40 - PAGE 1

C. RESOLUTION NO. 18-163 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A CONTRACT WITH EQUINOX ENVIRONMENTAL CONSULTATION AND DESIGN INC. FOR THE DESIGN SERVICES NECESSARY FOR THE SWANNANOA RIVER GREENWAY ONE, PHASE ONE: PRELIMINARY CORRIDOR DESIGN PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Equinox Environmental Consultation and Design, Inc. (Equinox) for design services necessary to perform a feasibility analysis for the eventual design of a greenway between Thompson Street and Azalea Park, in the amount of $147,638.10 and to enter into change orders to this contract not to exceed an additional 10% of the original contract amount ($14,763.81), for a total amount of $162,401.91.

This project is to perform a feasibility analysis for the eventual alignment of a greenway between the northwest end of Thompson Street and the recreation facilities at Azalea Park. This work includes but is not limited to data collection, base mapping, landowner identification and preliminary outreach, coordination with the N.C. Dept. of Transportation, preliminary corridor design, cost estimate, and public engagement.

The project was advertised on August 28, 2017, and Equinox was selected from a pool of eight respondents to the City's request for qualifications advertisement. The selection process included a qualifications-based, individual and group review by a committee of City staff. The eight respondents included:

- Atkins North America, Inc. Raleigh, NC
- Equinox Asheville, NC
- Vaughn & Melton Consulting Engineers Asheville, NC
- Stewart, Inc. Charlotte, NC
- McAdams Company Durham, NC
- HensonFoley Design LLC Huntersville, NC
- AECOM Charlotte, NC

- McGill Associates, PA Asheville, NC

Following Equinox' selection, negotiations were held and a final contract amount was agreed upon for Equinox and their subconsultant team.

Pros:

- Contributes to increasing the City's inventory of greenways
- Ensures coordination with NCDOT on needed improvements within an important transportation corridor
- Works towards defining Asheville as a recreation destination

Con:

- Eventual construction will be disruptive to the area.

The total amount of the contract is $147,638.10. Adding in a 10% contingency of $14,763.81 brings the total required budget to $162,401.91. This contract is funded through the General Obligation Bond Program as part of the Transportation and Infrastructure Program.

City staff recommends City Council adopt a resolution awarding the contract to Equinox and authorizing the City Manager to execute the contract for the design services necessary to perform the Swannanoa River Greenway One, Phase One: Preliminary Corridor Design project, in the amount of $147,638.10, and to enter into change orders to this contract not to exceed an additional 10% of the original contract amount or $14,763.81.

RESOLUTION BOOK NO. 40 - PAGE 2

D. RESOLUTION NO. 18-164 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY TO CO-FUND A REQUEST FOR PROPOSALS FOR RENEWABLE ENERGY PLANNING SERVICES

Summary: The consideration of a resolution authorization the City Manager to enter into an Interlocal Agreement with Buncombe County to co-fund a Request for Proposals (RFP) for Renewable Energy Planning Services to continue the City and County's efforts in accomplishing the Energy Innovation Task Force's goals.

Buncombe County, the City of Asheville and Duke Energy Progress established a collaborative task force known as the Energy Innovation Task Force (EITF) to research and recommend strategies to transition the City and Buncombe County to a Clean Energy Future.

Both the City and County have budgeted funds to support the work of the EITF and to that end, the City and County would like to partner on examining what it would take to transition the City and County to renewable energy in an effort to guide the work of the EITF as it promotes policies and programs to encourage a clean energy future. The RFP is intended to result in a partnership to explore renewable energy development pathways, and the implications of such development. The RFP also seeks information on opportunities and challenges associated with providing communities with renewable energy and to reveal how such arrangements can be used to fulfill the municipal carbon reduction and renewable energy goals of the City and County.

Funding to implement the goals of the EITF was allocated in the Fiscal Year (FY) 2019 City budget from the General Fund in the amount of $205,000.

Pros:

- Supports Resolution 11-77, Establishing a 4% Annual Carbon Reduction Goal
- Supports Resolution 13-228, Supporting a Clean Energy Economy
- Supports Resolution 16-64, Establishing a joint City, County and Utility Energy Innovation Task Force
- Supports Resolution 18-05 adding the EITF recommendations into the Sustainability Management Plan
- Leverages County funding through IAG partnership

Con:

- None foreseen

As part of the FY 2019 budget, $205,000 has been budgeted from the General Fund for the EITF. Of that funding, $50,000 will be allocated to support this partnership with the County and to support the ongoing implementation of the EITF goal to transition the City and County to a clean energy future.

Staff recommends City Council adopt a resolution authorizing the Interim City Manager to enter into an Intergovernmental Agreement with Buncombe County to co-fund an RFP for Renewable Energy Planning Services to continue the City and County's efforts in accomplishing the Energy Innovation Task Force's goals.

RESOLUTION BOOK NO. 40 - PAGE 3

E. ORDINANCE NO. 4679 - BUDGET AMENDMENT ASSOCIATED WITH THE REFUNDING AND DEFEASEMENT COMPONENTS OF THE 2017 LIMITED OBLIGATION AND SPECIAL OBLIGATION BOND FINANCINGS

Summary: The consideration of a technical budget amendment to the Fiscal Year (FY) 2017-18 budget in the General, Stormwater, Parking, and US Cellular Center Funds to budget the $46,491,109 refunding component of the 2017 Limited Obligation Bonds and Special Obligation Bonds.

City Council approved resolutions at its August 22, 2017 meeting authorizing City staff to proceed with the issuance of Limited Obligation (LOBs) and Special Obligation (SOBs) Refunding Bonds. On November 9, 2017, the City closed on the 2017 LOBs and SOBs. These financings replaced the 2016 Installment Financing Contract and also included a partial refunding of Series 2012 LOB's.

The FY 2017-18 budget did not include appropriations reflecting the Series 2012 refunding component or the defeasement of the 2016 Installment Financing Contract. This technical amendment incorporates this appropriation into the budget in order to ensure that none of the City's operating funds exceed their approved annual budgets in the City's Comprehensive Annual Financial Report (CAFR).

Pro:

- Amends the FY 2017-18 budget to reflect the refunding and defeasement components of the 2017 Limited Obligation and Special Obligation Bond Financings in order to ensure statutory budgetary compliance.

Con:

- None.

There is no net fiscal impact from this technical budget amendment. It will simply amend the FY 2017-18 budgets in the General, Stormwater, Parking, and US Cellular Center Funds to

reflect the receipt of refunding proceeds from the bank and the subsequent payment to bondholders to defease the prior debt issuances. The City's external auditors reviewed the accounting entries for this transaction while on site in June, which delayed budget amendment approval until the July meeting.

City staff recommends City Council approve the technical budget amendment to the FY 2017-18 budget in various operating funds to budget the $46,491,109 refunding component of the 2017 Limited Obligation Bonds and Special Obligation Bonds.

ORDINANCE BOOK NO. 32 - PAGE 108

F. ORDINANCE NO. 4680 - BUDGET AMENDMENT FROM THE U.S. DEPT. OF JUSTICE FOR THE 2017 EDWARD BYRNE JUSTICE ASSISTANCE GRANT - LOCAL SOLICITATION

Summary: The consideration of a budget amendment in the Special Revenue Fund from the U.S. Department of Justice for the 2017 Edward Byrne Justice Assistance Grant – Local Solicitation in the amount of $54,574.

During its September 12, 2017, meeting, the City Council authorized the City to apply for and enter into an agreement with the U.S. Department of Justice for the 2017 Edward Byrne Justice Assistance Grant (JAG) in the amount of $54,574. This is a predetermined amount of funds based on the Part 1 Uniform Crime Reporting Crimes. The Asheville Police Department (APD) and Buncombe County Sheriff's Office (BCSO) will be allocated $54,574 based on the award matrix, with the City of Asheville receiving $43,975 and Buncombe County receiving $10,599. The distribution of funds will be approved through a signed Memorandum of Understanding.

The funds will be used to create a task force of police officers to deter and interrupt violent Part I crimes in the City. With the use of JAG funds, the APD will strategically deploy a task force of police officers to work flexible hours who are assigned to interrupt and resolve emerging violent Part I Crimes in the City. The City of Asheville will rely on the JAG program to enable the City to have the flexibility to deploy police officers to take an intensive approach to fighting serious crimes. This approach has been used in the past to reduce auto thefts as well as to combat public housing gun violence, robbery and burglary. The officers will be selected from various patrol groups and with the use of JAG funds, APD will now be able to compensate officers with overtime pay as well as fill their normal patrol assignments.

There will be an expense of $43,975 to pay overtime to police officers for the purpose of combating, intercepting, and resolving emerging violent Part I Crimes. The BCSO will be awarded $10,599 to purchase rifles to train deputies who are not currently assigned rifles. This accounts for the total allocation of $54,574 for this grant.

This is a 100% funded non-local match grant that will enable the APD to allow the City to have the flexibility to deploy police officers and take an intensive approach to fight serious crime. This approach has been used to reduce auto thefts and to combat robbery and burglary. In the past, it has been successful in reducing the number of these types of incidents within the City.

Pros:

- Increasing flexibility to deploy police officers to take an intensive approach to fighting serious crimes.

· To increase surveillance and investigative methods as well as making proactive analysis, among other best practices, as part of their overall crime prevention tasks.

Con:

· Additional burden on budget for future operations associated with the cost of overtime to deploy police officers to combat emerging violent Part I crimes.

There is no local match required.

Staff recommends City Council adopt the budget amendment to accept grant funds through US Office of Justice Programs in the amount of $54,574.

ORDINANCE BOOK NO. 32 - PAGE 110

G. RESOLUTION NO. 18-165 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION FROM CONNECT BUNCOMBE TO BE USED TO FINANCE THE INTERPRETIVE SIGNAGE FOR THE TOWN BRANCH GREENWAY

ORDINANCE NO. 4681 - BUDGET AMENDMENT FOR INTERPRETIVE SIGNAGE FOR THE TOWN BRANCH GREENWAY

Summary: The consideration of a resolution and budget amendment to accept a $5,000 donation from Connect Buncombe for the Town Branch Greenway interpretive signage improvements.

Connect Buncombe is a non-profit organization with a mission of assisting in the implementation of greenways throughout Buncombe County. The donated funds will be used to finalize the interpretive signs for the Town Branch Greenway. The Town Branch Greenway will have an interpretive signage experience that tells the history of the Southside Community of the late 1960-early 1970's before and after Urban Renewal. The research for these signs was conducted during the design and engineering of the greenway but is not finalized. Research lacks two "bookend" signs at the trailheads that will give visitors a description of what they are about to experience. Additionally, the money will be used to refine the graphic layout of the entire signage system for a unified look that is easier to read than the original plans. These changes will be made with public input from the neighborhood.

The Finance Committee will review this action on July 24, 2018, and anything other than a unanimous endorsement will be shared at the City Council meeting.

Pros:

- This project will be 100% funded by grant funds and donations from private entities.
- We will finalize the interpretive signage for Town Branch Greenway with improved graphic arts and additional public input.
- The City of Asheville received a grant to implement the construction of the Town Branch Greenway. The additional funds made through this donation will allow us to do the needed additional signage design work before construction.

Con:

- There are no known negative impacts.

The budget for the Town Branch Greenway was included in the adopted FY 2018-19 General Capital Projects Fund budget. The donation of $5,000 is an additional amount of funding

that will be used to conduct the finishing steps of this signage project. There is no additional fiscal impact to the City.

Staff recommends that City Council approve a resolution and budget amendment authorizing the City Manager to accept a donation of $5,000 from Connect Buncombe to finalize the interpretive signage for the Town Branch Greenway.

RESOLUTION BOOK NO. 40 - PAGE 4
ORDINANCE BOOK NO. 32 - PAGE 112

H. RESOLUTION NO. 18-166 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ACCEPT THE BUILD TRANSPORTATION DISCRETIONARY GRANT PROGRAM TO ACQUIRE TEN BUSES AND CONDUCT A FEASIBILITY STUDY

Summary: The consideration of a resolution authorizing the City Manager to apply for and accept the BUILD Transportation Discretionary Grant program, if awarded, in order to 1) acquire ten buses and 2) to conduct a transit maintenance facility feasibility study.

This federal program was previously known as the Transportation Investment Generating Economic Recovery, or "TIGER Discretionary Grants," program and is now known as the Better Utilizing Investments to Leverage Development, or "BUILD Transportation Discretionary Grants," program. BUILD funding supports transportation projects, including transportation-related studies and program funds for this round total $1.5 billion.

The Transportation Department has identified transit needs that include five buses for FY 2022 and five buses for FY 2023. The total cost for the ten vehicles is $8,926,385. The 20% local match ($1,785,277) is already planned for in the five year Capital Improvement Program.

In addition, the Transit Master Plan calls for a feasibility study to lay the foundation for a new transit maintenance facility that has met the end of its useful life. $90,000 is needed to procure a professional team to review site requirements, potential locations, possible synergies with other department needs, and so forth. The local match required for this feasibility study totals $18,000 and would need to be approved as an amendment to the FY 2019 budget.

The Finance Committee reviewed this action on June 26, 2018, and they unanimously endorsed it to move forward to City Council for consideration and approval.

Pros:

- Provides funding needed to roll out Transit Master Plan recommendations
- Supports the city's carbon reduction and climate mitigation goals
- Reduces harmful local emissions by over 1,000 pounds per bus per year

Con:

- Local match for the feasibility study has not yet been budgeted

The total BUILD budget would be $9,016,385. The 20% local match totals $1,803,277, with all but $18,000 of it already planned for in out years of the CIP. If this grant is awarded, an $18,000 budget amendment for FY 2019 would need to be approved.

Staff recommends that City Council approve resolution authorizing the City Manager to apply for and accept the BUILD Transportation Discretionary Grant program, if awarded, in order to 1) acquire ten buses and 2) to conduct a transit maintenance facility feasibility study.

I. RESOLUTION NO. 18-167 - RESOLUTION ACCEPTING THE ANNUAL REPETITIVE LOSS AREA ANALYSIS REPORT AND AUTHORIZING THE CITY MANAGER TO SUBMIT THE REPORT FOR THE COMMUNITY RATING SYSTEM PROGRAM

Summary: The consideration of a resolution accepting the annual Repetitive Loss Area Analysis report which identifies actions staff has taken over the past year as a member of the Community Rating System (CRS) Program.

The City of Asheville joined the Community Rating System (CRS) program administered by the Insurance Services Office (ISO) in 2014. As required by the CRS program, a Repetitive Loss Area Analysis (RLAA) was prepared in 2014 by the consultation firm of Brown and Caldwell to supplement the Buncombe County-wide All Hazards Mitigation Plan.

A Repetitive Loss Area (RLA) is defined as an area that contains one or more repetitive loss structures (two or more claims of more than $1,000 that have been paid by the National Flood Insurance Program (NFIP) within any 10-year period since 1978). The RLAA is a mitigation plan developed for those areas with the purpose of reducing damages and increasing awareness from flooding and lowering the cost of claims submitted to the NFIP. The ultimate goal of lowering these costs is to reduce the increase in flood insurance premiums that has been occurring for a number of years.

The Community Rating System (CRS) is a program administered by the Federal Emergency Management Agency (FEMA). It provides lower insurance premiums under the National Flood Insurance Program. The premium reduction is in the form of a CRS Class. A 5 percent reduction is received by policyholders within the City for each class reduction the community obtains. The classes are obtained by actions that are above and beyond the requirements of the National Flood Insurance Program administered by FEMA. The benefits of joining the CRS program has been a reduction of flood insurance premiums paid for by those citizens who have flood insurance. Currently, the citizens of Asheville receive a 10 percent reduction in their flood insurance premiums through participation in the CRS program.

In order to maintain the current status in the CRS program, staff is required to provide to council the annual report of the Flood Mitigation Actions Items that were part of the RLAA report from Brown and Caldwell adopted by Council on December 10, 2013. As highlighted in the report, staff continues to look for ways to reduce flooding and damage from floods through community awareness through the city website and flyers, working with the Army Corps of Engineers on opportunities within the Swannanoa River Basin for flood mitigation opportunities, and working with developers and property owners on ways to protect their properties from flooding.

The City has a goal to continue to be stewards of the environment by looking for opportunities for flood mitigation. The projects provide public awareness of the threats of flooding.

Pros:

- The citizens of Asheville will continue to receive a 10 percent reduction on their flood insurance program.
- Provides higher level of protection through the current flood ordinance
- Promotes public education of the Special Flood Hazard Areas

Con:

- Considerable amount of staff time is necessary to maintain these requirements

There is no additional fiscal impact to continuing the efforts necessary for the CRS program, staff time is currently programmed into the annual operating budget.

Staff requests council to approve a resolution accepting the report prepared by city staff for the flood mitigation action associated with the repetitive loss area analysis report.

RESOLUTION BOOK NO. 40 - PAGE 6

J. RESOLUTION NO. 18-168 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A CONTRACT WITH ALFRED BENESCH & COMPANY FOR THE MOUNTAINSIDE PARK/MEMORIAL STADIUM UPGRADES/RENOVATIONS

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Alfred Benesch & Company, to provide design services for Mountainside Park/Memorial Stadium Upgrades/Renovations for an amount not to exceed $220,817.

The primary goal of the project is to address equitable access to park facilities and recreation opportunities in Asheville. The Stormwater Division has also identified improvements needed in this area to address nuisance flooding near the entrance to McCormick Field and street flooding downstream of this area along Short Coxe, Southside, and Coxe Avenues. Upgrades and improvements to Memorial Stadium and Mountainside Park are budgeted within the $17 million Parks & Recreation General Obligation bond package. The design for additional stormwater improvements is budgeted in the Stormwater Capital Fund. Proposed improvements to stadium and park would increase quality recreation opportunities for the entire community including improved parking, athletic facilities, playground, sidewalk and greenway connections, stormwater infrastructure, and restrooms. Facilities will be designed to recognize the park setting as a gateway to the neighborhood, utilize ideas and trends from some of the best recreation and athletic facilities in the country, to create enhanced, inclusive play experience for users of all ages and abilities.

The City of Asheville (City) issued a Request for Qualifications (RFQ) for design services for the Mountainside Park/Memorial Stadium Upgrades/Renovations. In response to the RFQ, the City received eleven (11) Statements of Qualifications to be considered for this project. After thorough review, evaluation & interviews, staff recommended Alfred Benesch & Company, 2359 Perimeter Pointe Parkway, Suite 350, Charlotte, North Carolina as the most qualified to perform the design services for the Mountainside Park/Memorial Stadium Upgrades/Renovations and Stormwater Improvements.

Alfred Benesch & Company has presented a scope of work and fee proposal for professional services associated with the Mountainside Park/Memorial Stadium Upgrades/Renovations project, including preliminary design services and cost estimating. This information will be used to determine the fees associated with final design/engineering documents, bidding administration, and contract administration/reporting during construction.

Tentative Project Timeline:

Preliminary Design Engineering	Summer 2018 - Winter 2018
Final Engineering/Design Services	Winter 2018 - Fall 2019
Permitting	Fall 2019
Request for Construction Bid	Winter 2019
Construction Begin	Spring/Summer 2020
Construction Complete	Summer 2022

Pros:

- Address immediate maintenance needs and critical failures that are otherwise unattached to capital investments
- Focus on underserved areas of the city
- Address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods
- Meet the Parks and Recreation goal of increasing accessibility and equity
- Leverages interdepartmental city funding to provide improvements under a single project
- Improve Stormwater quality and control stormwater runoff to provide safe access for the citizens that visit this area.
- Make capital investments through projects achieves a goal of the Stormwater Utility Program.

Con:

- None

Funding for these services are already included in the adopted Capital Improvement Budget through the City's General Obligation (GO) Bond Funding & Stormwater CIP.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract with Alfred Benesch & Company, to provide design services for Mountainside Park/Memorial Stadium Upgrades/Renovations and Stormwater Improvements for an amount not to exceed $220,817, and further authorizing the execution of any change orders to said contract which may arise during execution of said project.

RESOLUTION BOOK NO. 40 - PAGE 11

K. RESOLUTION NO. 18-169 - RESOLUTION AMENDING THE 2018 CITY COUNCIL MEETING SCHEDULE

Summary: Resolution amending the 2018 City Council meeting schedule to add a City Council worksession to review the 2019-20 budget process to include information on different City programs and services on August 28, September 25, October 23, November 13, and December 11, 2018, from 3:00 p.m. - 5:00 p.m. in the 1st Floor North Conference of City Hall.

RESOLUTION BOOK NO. 40 - PAGE 12

L. RESOLUTION NO. 18-170 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH SOUTHERN SPECIALITY CIVIL CONSTRUCTORS LLC, FOR THE FISCAL YEAR 2018 RESURFACING - STORMWATER IMPROVEMENTS PIPE REPLACEMENT PROJECT

ORDINANCE NO. 4682 - BUDGET AMENDMENT FOR FISCAL YEAR 2018 RESURFACING - STORMWATER IMPROVEMENTS PIPE REPLACEMENT PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a contract with Southern Specialty Civil Constructors, LLC. (Southern Specialty) for construction services necessary to perform the FY18 Resurfacing - Stormwater Improvements Project Pipe Replacement Project in the amount of $1,073,685.05 and to enter into change orders to this contract not to exceed an additional 20% of the original contract amount or $214,737.01 for a total

amount of $1,288,422.06; and (2) a budget amendment in the Stormwater Capital Projects Fund in the amount of $362,923 from Stormwater Fund Balance and savings from completed projects to fully fund the total amount above.

This project is to complete the needed pipe replacement and minor stormwater improvements ahead of our Street Division FY18 Resurfacing Contract. This work includes but is not limited to the installation and replacement of stormwater pipe, stormwater structures, concrete curb and the associated repairs to driveways, sidewalk, and patching of roadway.

Within the scope of the project, Southern Specialty will install approximately 1,508 feet of new storm drainage infrastructure in various locations along Chestnut St, Griffing Blvd, Terrace Rd, The Circle Rd, Virginia Ave, Brownwood Ave, Hanover St, White Ave, Emory Rd, Deaver Park Cir, and Thurland Ave.

The project was posted for bid on June 13, 2018. A non-mandatory pre-bid meeting was held with a small turnout on June 20, 2018. Bids were scheduled to be opened on June 27, 2018; however, only one bid was received. The bid was not opened and was returned to the contractor.

Following the re-bid process, the project was re-advertised for at least 7 days. Bids were received and opened on July 5, 2018; with the following bid result:

Southern Specialty Civil Constructors, LLC of Clemmons, NC $1,073,685.05

Upon careful consideration of the bidder, their bid submittal and their qualifications, the City determined that Southern Specialty Civil Constructors, LLC was the lowest responsive responsible bidder. With Southern Specialty's bid the final contract amount will be $1,073,685.05.

Pros:

- Repair and installation of storm drainage systems ahead of resurfacing prevents future roadway cuts and maintenance issues in these areas.
- Controlling stormwater runoff provides safe access for the citizens that visit this area.
- Making capital investments through projects achieves a goal of the Stormwater Utility Program.

Con:

- Construction will be disruptive to the area for approximately 3 ½ months.

The total amount of the contract is $1,073,685.05. Adding in a 20% contingency of $214,737.01 brings the total required budget to $1,288,422.06. Staff originally identified $925,500 in available budget in the Stormwater Capital Projects Fund to fund this project. However since bids exceeded this original planning estimate, staff is requesting a budget amendment in the amount of $362,923 to fully fund the contract and the contingency. A portion of the needed budget amount ($144,383) will come from savings that have accrued in the Stormwater Capital Projects Fund from projects that came in under budget. The remaining amount ($218,540) will come from available fund balance in the Stormwater Operating Fund that exceeds the 8% fund balance policy target.

City staff recommends City Council adopt a resolution awarding the contract to Southern Specialty and authorizing the City Manager to execute on behalf of the City of Asheville the contract for the construction services necessary to perform the FY18 Resurfacing - Stormwater Improvements Pipe Replacement Project in the amount of $1,073,685.05 and to enter into change orders to this contract not to exceed an additional 20% of the original contract amount or $214,737.01; and a budget amendment in the Stormwater Capital Projects Fund in the amount of

$362,923 from Stormwater Fund Balance and savings from completed projects to fully fund the total amount above.

M. **RESOLUTION NO. 18-171 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE LEAF DOWNTOWN AVL**

RESOLUTION NO. 18-172 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ZERO PROSTATE CANCER RUN/WALK

RESOLUTION NO. 18-173 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE LIVING ASHEVILLE ARTS FESTIVAL

RESOLUTION NO. 18-174 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ORANGE PEEL EVENTS PRESENTS

Summary: The consideration of a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at LEAF Downtown AVL, Zero Prostate Cancer Run/Walk, Living Asheville Arts Festival, and Orange Peel Events Presents.

- LEAF Community Arts has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at LEAF Downtown AVL and allow for consumption at this event.

  LEAF Downtown AVL will be held on Friday, August 3, 2018 from 3:00 p.m. to 10:00 p.m. and Saturday, August 4, 2018 from 9:00 a.m. to 10:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- ZERO – The End to Prostate Cancer has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at ZERO Prostate Cancer Run/Walk and allow for consumption at this event.

  ZERO Prostate Cancer Run/Walk will be held on Saturday, August 25, 2018 from 7:30 a.m. to 11:00 a.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

- Arts 2 People has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Living Asheville Arts Festival and allow for consumption at this event.

  Living Asheville Arts Festival will be held on Sunday, September 2, 2018 from 11:00 a.m. to 10:00 p.m. within the boundaries of North Lexington Avenue, Hiwassee Street, and Walnut Street as per the area limits referenced on the accompanying site map.

- Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Orange Peel Events Presents and allow for consumption at this event.

  Orange Peel Events Presents will be held on Friday, September 21, 2018 from 4:30 p.m. to 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for LEAF Community Arts, Zero – The End to Prostate Cancer, Arts 2 People, and Asheville Brewers Alliance

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at LEAF Downtown AVL, Zero Prostate Cancer Run/Walk, Living Asheville Arts Festival, and Orange Peel Events Presents.

N. ORDINANCE NO. 4683 - ORDINANCE READOPINT THE CITY OF ASHEVILLE WATER RESOURCES DEPARTMENT'S POLICY MANUAL

Summary: The consideration of an ordinance authorizing the re-adoption of the City of Asheville Water Resources Department's Policy Manual.

The Water Resources Department Policy Manual (herein "Manual") was last updated and adopted by City Council on December 13, 2016. The Manual must be periodically revised to align with federal and state regulations and to remain relevant with present business practices. Along with grammatical revisions, the substantive revisions to the Manual include, but are not limited to: revision of the Economic Development Incentives, Affordable Housing, and the Water Shortage Response Plan sections.

Pros:

- Re-adoption of the Manual will ensure that it aligns with federal and state regulations and remains relevant with present business practices.
- Changes provide better document navigation and clearer interpretation.
- Changes align with the Water Design and Construction Manual.

Cons:

- Failure to re-adopt the Manual may cause confusion about interpretation of the policies.
- Failure to re-adopt could cause policies to be noncompliant with federal, state, and local regulations and present business practices.

Staff recommends City Council adopt an ordinance authorizing the re-adoption of the City of Asheville Water Resources Department's Policy Manual.

ORDINANCE BOOK NO. 32- PAGE 116

O. RESOLUTION NO. 18-175 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH T&K UTILITIES INC. FOR THE FISCAL YEAR 2018 MEDIUM AND LARGE SERVICE RENEWALS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with T & K Utilities, Inc., for the Water Resources Fiscal Year (FY) 18-19 Medium and Large Service Renewals Project for the bid amount of $500,000 plus a 10% contingency in the amount of $50,000 for a total project budget in the amount of $550,000.

On May 10, 2018, the Water Resources Department (WRD) issued an Advertisement for Bids for the FY 18-19 Medium and Large Service Renewals Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for the demolition and renewal of five large (3" and above) and nine medium (1.5"-2") water customer connections, including vault and meter, with all related appurtenances and materials required in order to complete the work.

In response to the Advertisement for Bids, the department received one bid on June 19, 2018, and rebid the project due to the legal requirement that three bids must be received for formal construction projects. In response to the rebid, the WRD received one bid on June 28, 2018. The company responding was T & K Utilities, Inc., of Asheville, NC.

Following a review of the bids by City Staff and the project engineers, Cavanaugh and Associates, P.A., T & K Utilities, Inc., was selected as the lowest responsible, responsive bidder for the bid amount of $540,000. The WRD and project engineers negotiated the bid price with T & K to stay within the project budget of $500,000 as allowed by NCGS §143-129(b). A contingency amount of $50,000 has been added for a total project budget in the amount of $550,000.

Pros:

- This project will replace existing substandard and failing large and medium water meters and vaults with new metering infrastructure designed and constructed in accordance with the City of Asheville standards.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's property and infrastructure through Capital Improvement Projects, in order to provide a high quality of life.

Con:

- This is not a required project to effectively operate the water system.

The funding needed for the construction agreement is currently allocated within the Meter/Vault Repair project in the Water Resources Capital Improvement Projects fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with T & K Utilities, Inc., for the Water Resources FY 18-19 Medium and Large Service Renewals Project for the bid amount of $500,000 plus a 10% contingency in the amount of $50,000 for a total project budget in the amount of $550,000.

RESOLUTION BOOK NO. 40 - PAGE 26

P. RESOLUTION NO. 18-176 - RESOLUTION AUTHORIZING THE CITY MANAGER TO OBTAIN PROPERTY INSURANCE FOR FISCAL YEAR 2019

Summary: The consideration of a resolution authorizing the City Manager to purchase property insurance for Fiscal Year 2019 (FY19).

The City of Asheville (City) purchases property insurance via the City's insurance broker of record to cover replacement costs for City buildings and highly valued vehicles/equipment and actual cash value for low-valued vehicles/equipment. The proposed policy is unique and desirable as it includes replacement cost for vehicles/equipment valued over $250,000, such as fire apparatus, buses, and sanitation vehicles and also includes cyber, flood, and pollution liability coverage. Should loss arise, property deductibles are as follows:

Asset	Deductible
buildings/contents	$25,000
vehicles/equipment valued above $250,000	$100,000
vehicles/equipment valued up to $250,000	$10,000
boiler/machinery/cyber/flood/pollution	Varies

Pro:

- Property insurance is sound financial risk management for City assets.

Con:

- None.

The FY19 property insurance premium is $272,447.03. The premium cost was included in the approved FY19 budget within the City's Property & Liability Fund with the intent to purchase property insurance.

Staff recommends City Council adopt a resolution authorizing the City Manager to purchase FY19 property insurance in the amount $272,447.03.

RESOLUTION BOOK NO. 40 - PAGE 27

Q. RESOLUTION NO. 18-177 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO CONTRACTS TO MAKE REPAIRS TO COMMUNITY RECREATIONAL FACILITIES DAMAGED DURING THE MAY 30, 2018, FLOOD EVENT

ORDINANCE NO. 4684 - BUDGET AMENDMENT TO REPAIR PARKS & RECREATION FACILITIES DAMAGED BY RECENT FLOODING

Summary: The consideration of a resolution authorizing the City Manager to enter into contracts not to exceed $1,205,000 to make repairs to community recreational facilities due to damage occurring during the May 30, 2018, flood event and to approve the associated budget amendment.

After any type of flood event City staff works with environmental consultants and the appropriate regulatory agency to make sure there is no Imminent hazard pursuant to the regulations associated with the continued use of recreational facilities by the public in order to protect the City and its assets.

Following the flooding event on May 30, 2018, damage evaluations were conducted throughout the Parks and Recreation facilities along the two primary flood areas: Swannanoa River and French Broad River corridors. The facilities that receive the heaviest flood damage within these corridors were Azalea Park, Carrier Park, French Broad River Park and Municipal Golf Course.

Remediation necessary for these facilities has been identified as the following:

Azalea Park	
Turf Clean-Up and Repair (Soccer Complex)	$875,000
Professional Services, Management and Administration Compliance to ensure Turf Warranty	$28,000
Playground Repair/Replacement	$102,000
Infrastructure Repair and Replacement of Furnishings *(*Furnishings are support items damage or washed away during the flood event)* *(i.e. bleachers, goals, trash and recycling cans, benches, scoreboards)*	$65,000
Carrier Park	
Comprehensive Assessment of Utilities Infrastructure Sub-Surface Damage	$35,000
French Broad River Park	
Infrastructure Repair and Riverbank Restoration	$65,000
Asheville Municipal Golf Course	
Repair of Restroom Building	$35,000
Comprehensive Analysis/Assessment Stormwater System	

Contracts will be bid in accordance with the state statutes and the City's contracting policy

This action will go to the Finance & Human Resources Committee on July 24, 2018, and if there is anything other than unanimous support to move forward to the full Council, that it will be noted at the meeting.

Pro:

- This action provides for the restoration and repair of important recreational facilities.

Con:

- This action has a fiscal impact to the unassigned general fund balance.

The $1,205,000 needed for this repair project will be appropriated from unassigned general fund fund balance. Staff is currently estimating that unassigned general fund balance at June 30, 2018, including fund balance appropriated with adoption of the Fiscal Year 2018-19 budget will be $20.71 million or 16.65% of the adopted budget.

The additional fund balance appropriation for this project will lower that estimate to $19.51 million, which will equate to 15.53% of the revised budget. Staff is anticipating that FEMA funds will be secured in order to fully or partially reimburse this fund balance usage. If that occurs, staff will return to City Council to amend the budget at a later date.

Staff recommends that City Council adopt a (1) resolution authorizing the City Manager to enter into contracts not to exceed $1,205,000 for necessary repairs due to damage caused by the May 30, 2018, flood event; and (2) budget amendment in the amount of $1,205,000 to fully fund those repairs.

RESOLUTION BOOK NO. 40 - PAGE 28
ORDINANCE BOOK NO. 32 - PAGE 163

R. RESOLUTION NO. 18-178 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND AN AGREEMENT WITH PARK RIDGE HEALTH TO PROVIDE ANNUAL PHYSICAL EXAMINATIONS FOR FIREFIGHTERS IN FISCAL YEAR 2018-18

Summary: The consideration of a resolution authorizing the City Manager to the terms of the current agreement with Park Ridge Health to provide annual physical examinations for firefighters in FY 2018 – 2019 in the amount of $77,125.

This agreement allows firefighters to receive required annual physical examinations in accordance with standards set forth by the National Fire Protection Association. The previous agreement, executed and amended in FY 2017 – 2018, allows for 275 physical examinations to be performed by Park Ridge Health for a total of $77,125 and ended on June 30, 2018. The new agreement is a renewal that extends the contract of 275 physical examinations and 130 x-rays. for one year from August 1, 2018 to July 31, 2019. The new agreement amount will be $77,125.

Prior to entering the original contract with Park Ridge Health, similar organizations were solicited to provide estimates of their services. SiteMed, which held the contract previously, did not provide the organizational efficiency needed to examine 275 firefighters throughout the course of the year. The costs of Mission Hospital's services were prohibitive. Thus, the services and costs of Park Ridge Health best fit the mission of Asheville Fire Department's desire to provide its firefighters with the best care to meet and exceed health standards while controlling costs. A review of the costs, operational efficiencies, and satisfaction of the firefighters with the services, factored into making the determination to renew the agreement with Park Ridge Health.

This will be heard at the July 24th Finance Committee meeting. If there is not a unanimous vote this will be brought to the attention of Council at July 24th Council meeting.

Pros:

- Meets best practices for the industry by complying with consensus standards of NFPA 1582 that will reduce risks and provide for the health, safety, and effectiveness of firefighters
- Allows for the continued medical monitoring and testing of firefighters to ensure they are fit for the challenges of emergency response
- Allows the City to begin the practice of providing initial baseline x-rays and subsequently repeated every five years to help control preventable risks to the City's firefighters

Cons:

- None Identified

All funds for the physicals and x-rays have been assigned in the adopted FY 2018 - 2019. budget, thus there are no additional impacts.

Staff recommends City Council approve the resolution authorizing the City Manager to amend the terms of the contract with Park Ridge Health to provide annual physical examinations for firefighters in FY 2018 – 2019 in the amount of $77,125.

RESOLUTION BOOK NO. 40 - PAGE 29

S. RESOLUTION NO. 18-179 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A GENERAL SERVICES CONTRACT WITH TYLER TECHNOLOGIES FOR MAINTENANCE AND SUPPORT TO THE CITY OF ASHEVILLE'S MUNIS ENTERPRISE SYSTEM

Summary: The consideration of a resolution authorizing the City Manager to execute a general service agreement with Tyler Technologies for (5) five fiscal years with the understanding that funding is project specific and subject to the annual appropriation of funds.

The City of Asheville Information Technology Services is seeking to extend our current maintenance agreement for the estimated amount of $180,000.00 for FY 2018/2019 plus a maximum of 5% escalation in subsequent years for the maximum of (5) five fiscal years

Pros:

- City has been using Tyler/Munis since January of 2010 and staff is familiar with its strengths, limitations, and support process.

- Allows for updates to the Tyler/Munis system, which enables new features and improved underlying technologies; upgrade licensing is included with support & ongoing fixes.

Con:

None noted. This maintenance will support core city financial and other key functions.

The finding needed for this agreement is currently allocated within the IT Services Business and Public Technology division's maintenance budget.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a general service agreement with Tyler Technologies for the estimated amount of $180,000.000 for FY 2018/2019 plus a maximum of 5% escalation in subsequent years for the maximum of (5) five fiscal years with the understanding that funding is project specific and subject to the annual appropriation of funds.

RESOLUTION BOOK NO. 40 - PAGE 30

T. RESOLUTION NO. 18-180 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACQUIRE A STORMWATER EASEMENT FROM OWNER OF PROPERTY ON ELIZABETH PLACE FOR STORMWATER IMPROVEMENTS THAT WILL SERVE A SECTION OF THE REED CREEK GREENWAY

Summary: The consideration of a resolution authorizing the City Manager to acquire a stormwater easement from the owners of property on Elizabeth Place for stormwater improvements that will serve a section of the Reed Creek Greenway between Broadway and Elizabeth Place.

The Transportation Bond funding allowed for the completion of neighborhood greenway connectors including the last remaining section of the Reed Creek Greenway. A private development project is planned at Broadway and Chestnut Streets to build a mixed use development that will include both retail and residential components. The Reed Creek Greenway will border the development along the back of the project and adjacent to Reed Creek.

The developers and the City intend to partner on the design and construction of the Reed Creek Greenway between Broadway and Elizabeth in order to build out that section of the greenway in the very near future. As part of the greenway design, there is a need to channel the stormwater from that section of the greenway into Reed Creek which in turn requires an easement from a neighboring property owner on Elizabeth Street. The City needs the easement in order to maintain the stormwater drainage across the greenway. The property owners of PIN # 9649-23-6247 at 63 Elizabeth Place have agreed to convey an easement on their property for this purpose.

In order to ensure both compliance with stormwater regulations and continued maintenance of infrastructure improvements, Blanch and Wayne Smith will convey a 150 square foot stormwater easement to the City. The City will construct the greenway and the drainage improvements to City specifications. City staff have negotiated a purchase price of $3,000 in return for the easement.

Pro:

- This easement facilitates another section of the Reed Creek Greenway.

Con:

- City resources will be needed to install and maintain stormwater infrastructure.

The City has budgeted the money to pay for the greenway easement in the amount of $3,000 within the Transportation Bond funds.

Staff recommends authorizing the City Manager to acquire a stormwater easement from Blanch and Wayne Smith at 63 Elizabeth Place for stormwater improvements that will serve a section of the Reed Creek Greenway between Broadway and Elizabeth Place.

RESOLUTION BOOK NO. 40 - PAGE 31

U. ORDINANCE NO. 4685 - FIRST READING OF AN ORDINANCE GRANTING A FRANCHISE AGREEMENT TO TUK IT, LLC, FOR THE OPERATION OF AN ELECTRIC VEHICLE SHUTTLE SERVICE WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance granting a franchise agreement for the operation of an electric vehicle shuttle service within the City of Asheville.

Staff has been working with an individual that is interested in starting an electric vehicle shuttle service within the City of Asheville under the business name of Tuk It, LLC that would operate in the Central Business District, Biltmore Village, the River Arts District, and the Historic Montford District. The shuttle service can only use public streets that have a speed limit of 35 mph or lower. Service stops may not exceed three minutes on any public right-of-way, except as necessary to embark and debark passengers, or with the written permission of the City Traffic Engineer. All service stops shall be made in a way to minimize any possible disruption to the flow of vehicular traffic. Loading/unloading zones may be used for service stops but actual travel lanes should not be used.

The shuttle service will provide various tours throughout the service area for individuals, groups, and special events. They will also provide transportation services for participating hotels and businesses for their guests in an effort to minimize traditional vehicle travel within the service area. The hours of operation are Monday through Wednesday 10:00 am until 9:00 pm and Thursday through Sunday 10:00 am until midnight. Typically, each vehicle will provide one tour on Mondays and Tuesdays, two tours on Wednesdays, three tours on Thursday, and four tours on Fridays, Saturdays, and Sundays.

A total of three fully electric vehicles will be available with a maximum capacity of six passengers plus the driver per vehicle. The vehicles are manufactured in the United States and they are US DOT compliant and street legal. The vehicles are registered and "tagged" by the North Carolina Division of Motor Vehicles.

The business owner understands and acknowledges that he/she will comply with all applicable Federal, State, and local laws in the operation of its business including, but not limited to, the City of Asheville open container ordinance, and the State of North Carolina Alcoholic Beverage Control (ABC) laws. In addition, the business owner understands and acknowledges that third-party advertising is not allowed on the outside of the vehicles.

The Asheville Police Department and the Transportation Department have reviewed all of the information that has been provided by the owner and we believe that the shuttle service will not have a negative impact on efficient traffic flow or safety.

Approval of a franchise agreement requires action by City Council at two official meetings with the first meeting on July 24, 2018, and the second meeting on August 28, 2018.

The Public Safety Committee reviewed this franchise agreement on July 2, 2018, and they unanimously endorsed it to move forward to City Council for consideration and approval. The committee members expressed concern about the possibility of alcoholic beverages onboard and according to the business owner, there are no plans on alcohol being consumed on the vehicles.

Pros:

- Provides various tours within the Central Business District, Biltmore Village, the River Arts District, and the Historic Montford District which could relieve and/or minimize traffic congestion.
- Provides transportation services for hotels and retail businesses which should relieve and/or minimize traffic congestion.

Con:

- There are no known cons.

There is no known fiscal impact for the subject franchise agreement.

Staff recommends that City Council approve an ordinance, first consideration on July 24, 2018, and second consideration on August 28, 2018, granting a franchise agreement to Tuk It, LLC for the operation of an electric vehicle shuttle service within the City of Asheville.

ORDINANCE BOOK NO. 32 - PAGE 165

V. RESOLUTION NO. 18-181 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ACCEPT THE FUNDING FOR THE BUS AND BUS INFRASTRUCTURE PROGRAM TO ACQUIRE TEN BUSES AND ASSOCIATED CHARGERS

Summary: The consideration of a resolution authorizing the City Manager to apply for and accept the funding from the Buses and Bus Facilities Infrastructure Investment Program (Bus and Bus Infrastructure Program), if awarded, in order to acquire ten buses and associated chargers.

The Federal Transit Administration (FTA) has announced the availability of approximately $366.3 million of Fiscal Year 2018 funds for buses, bus facilities, and bus equipment. The

Transportation Department has identified transit needs that include five buses for FY 2021 and five buses for FY 2022. The total cost for the ten vehicles is $8,800,000. The 20% local match ($1,760,000) is already planned for in the five year Capital Improvement Program. The Transportation Department is concurrently applying for funds from three separate sources for FY 20-23 transit vehicles because the outcome of these grant applications is always uncertain.

The Finance Committee will review this action on July 24, 2018, and anything other than a unanimous endorsement will be shared at the City Council meeting.

Pros:

- Provides funding needed to roll out Transit Master Plan recommendations
- Supports the city's carbon reduction and climate mitigation goals
- Reduces harmful local emissions by over 1,000 pounds per bus per year

Con:

- None

The total budget would be $8,800,000. The 20% local match totals $1,760,000, and is already planned for in the out years of the CIP.

Staff recommends City Council approve a resolution authorizing the City Manager to apply for and accept the funding from the Buses and Bus Facilities Infrastructure Investment Program (Bus and Bus Infrastructure Program), if awarded, in order to acquire ten buses and associated chargers.

RESOLUTION BOOK NO. 40 - PAGE 32

W. RESOLUTION NO. 18-182 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH TERRACON CONSULTANTS, INC. FOR ON-CALL BUILDING ENVELOPE ENGINEERING SERVICES

Summary: The consideration of a resolution authorizing the City Manager to enter into a professional services contract with Terracon Consultants, Inc. for on-call building envelope engineering services.

A primary function of the General Services Department is the stewardship of City-owned properties and facilities. The Department is involved with the life cycle of the City's real estate assets, including the initial acquisition of real property, construction and renovation of facilities, and disposition of assets. As a best practice within asset management, municipalities and institutional entities across the State maintain on-call service contracts with firms that support the maintenance and management of buildings and related assets.

Within this framework, the City requires building envelope engineering services for various purposes, which include re-roofing, masonry maintenance, restoration, and forensic investigation of moisture intrusion into buildings. Additional services include, but are not limited to, structural assessments to determine the feasibility of rooftop renewable energy systems. The design and construction of new buildings for the City of Asheville may be supported by building envelope design consulting and commissioning during the construction phase for quality assurance of the installation of building envelope systems.

In order to secure firms to perform this work, the City must follow a qualifications-based procurement process. A Request for Qualifications for these services on an on-call basis was

published on May 17, 2018. In response to the Request for Qualifications, the following seven (7) firms submitted packages:

Form & Function (Asheville, NC Office)	SKA Consulting Engineers (Asheville, NC Office)
Legerton Architecture (Asheville, NC Office)	Terracon Consulting, Inc (Charlotte, NC Office)
MHA Works (Asheville, NC Office)	REI Engineers (Charlotte, NC Office)
Raymond Engineering (Greenville, SC)	

The review team utilized a scoring matrix to assess the qualifications of the proposed firms. The firm with the highest score was Terracon Consultants, Inc. If the following resolution is approved, the City will enter into a contract with this firm for on-call services. When specific projects are identified at City-owned buildings, the City will negotiate a scope of work and fee for services based on the contracted cost framework and specific project needs. The duration of these on-call service contracts will be for an initial term of one year with an option to renew for up to two additional one-year periods. For the initial term, the aggregate value of services provided under this on-call contract is not expected to exceed $250,000.

Pros:

- A well-qualified firm will perform services in support of ongoing facilities maintenance and improvements needs.
- These services will be available to support various programs and projects within the City's portfolio, including capital improvement projects, facilities construction and renovation projects.

Con:

- None identified.

The contract will be established at a not-to-exceed amount of $250,000 over the initial term. The consulting services will be used for various projects, which already have their own budget allocations under the General Fund or CIP, and the supplemental agreements under this on-call contract will not exceed the budgeted amount.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a professional services contract with Terracon Consultants, Inc. for on-call building envelope professional services.

RESOLUTION BOOK NO. 40 - PAGE 33

X. RESOLUTION NO. 18-183 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACQUIRE EASEMENTS ASSOCIATED WITH THE TRANSPORTATION BOND - BUS SHELTER PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to execute easement agreements with private property owners for easements related to the Transportation Bond - Bus Shelter Program.

The Transportation Bond funding allows for the installation of bus shelter improvements throughout the City's Asheville Redefines Transit (ART) service area. Several of these improved shelters have been installed, mostly within City-controlled or NCDOT right-of-way. To continue making progress on the installation of shelter improvements, new easements from private property owners must be obtained to secure the necessary short-term and long-term access to private property for installation and maintenance of bus shelters.

Currently, staff brings forward each easement for City Council approval, with the exception of donated sidewalk easements. In February 2017, Council authorized the City Manager to accept donated public sidewalk easements. In order to streamline the acquisition of bus shelter easements, the current request for consideration provides authority to the City Manager to execute all easements associated with the Transportation Bond Program for Bus Shelters. Donations of easements are routinely sought after, however in some cases, compensation may be required. Since only City funds are associated with the bond shelter program, the Federal Uniform Act requirements for acquisition (URA) are not applicable and therefore the City has more flexibility to negotiate on price, to relocate the easement to another property or to delay installation if for some reason a mutually agreed upon price cannot be achieved.

Within the next phase of bus shelter installations, a total of seven new easements need to be acquired from private property owners. These easements range in size from 65 square feet to 200 square feet in permanent easement and all costs associated with acquiring these easements are planned for in the Transportation Bond - Bus Shelter Improvement Budget.

Pros:

- Allows for streamlining the easement acquisition process for a more expedient and efficient delivery of bus shelter easements.
- New easements support the implementation of the Transportation Bond - Bus Shelter program.

Con:

- None.

The funds associated with potential acquisition costs of these easements are budgeted within the Transportation Bond - Bus Shelter Program.

Staff recommends authorizing the City Manager to acquire and accept easement agreements related to the Transportation Bond - Bus Shelter Program.

RESOLUTION BOOK NO. 40 - PAGE 34

Y. RESOLUTION NO. 18-184 - RESOLUTION ADOPTING THE WATER SHORTAGE RESPONSE PLAN UPDATE

Summary: The consideration of a resolution adopting the Water Shortage Response Plan (WSRP) update as required by the North Carolina Department of Environmental Quality (NCDEQ).

Every few years, the Water Resources Department is required to complete a Water Shortage Response Plan (WSRP) update. On June 15, 2018, the North Carolina Department of Environmental Quality (NCDEQ) issued a letter stating that the department's WSRP update is complete and must be adopted by the water system's governing board. The WSRP establishes authority for declaration of a water shortage, defines different stages of water shortage severity, and outlines appropriate responses for each stage. Recently adopted rules governing water use during droughts and water emergencies (15A NCAC 02E. 0607) stipulate specific requirements for WSRPs.

All public and privately owned water systems subject to G.S. 143-355 (l) are required to prepare and submit a WSRP as part of their Local Water Supply Plan. At a minimum, updated

WSRPs are required every five years. Updates may also be necessary to address changes such as population growth, new sources or additional demands for water or after implementation and evaluation of restriction effectiveness.

In order for the WSRP update to be compliant with N.C.G.S. §143-355 (l), City Council must formally adopt the update. Once City Council adopts the update, NCDEQ will consider it compliant. A copy of the WSRP is also in the Water Policies, which will be updated to include the updates as approved by NCDEQ.

Pro:
- Adoption of the WSRP update will ensure compliance with N.C.G.S. §143-355 (l).

Con:
- If the WSRP update is not adopted, then the City will not be compliant with N.C.G.S. §143-355 (l) and may be issued a Notice of Violation from NCDEQ.

City staff recommends City Council adopt the the Water Shortage Response Plan update as required by the North Carolina Department of Environmental Quality.

RESOLUTION BOOK NO. 40 - PAGE 35

Z. RESOLUTION NO. 18-186 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO CONTRACTS WITH ASHEVILLE STAFFING, UPSTAFF, AND APPLE ONE TO PROVIDE TEMPORARY STAFFING SERVICES FOR THE CITY OF ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to enter into contracts with Asheville Staffing, UpStaff, and AppleOne to provide temporary staffing services for the City of Asheville.

Numerous departments within the City of Asheville rely on firms to meet their temporary staffing needs.

Staff recognizes that one of Council's goals is to provide living-wage jobs with benefits to City workers. A staffing firm is not intended to be used where the position could be filled with a regular, temporary, or seasonal employee. A staffing firm is to be used in those instances where temporary workers are needed to support in-house staff by managing periods of increased workload, peak demands, projects, short-term labor for hard-to-fill positions with immediate service needs, or to provide workers on an immediate basis that may otherwise require lengthy recruitments.

A staffing firm is used to provide workers in the labor, administrative, and professional sectors. Currently, departments are selecting and paying staffing firms individually. The Human Resources Department determined the need to consolidate our temporary staffing with one to three firms for use by all City departments, in an effort to maximize cost savings. An RFP was released, and proposers were invited to submit proposals for providing temporary staffing in one, two, or all three of the staffing sectors needed. The Human Resources Department received proposals from the following ten firms:

AppleOne
Asheville Staffing
Creative Management
Devine
Express Employment Professionals

Global Economic Advantage
GO-Upstaff
RAD Gov
Sydata Consulting
Talented Fish

The review team assessed the proposals submitted by the vendors based on the evaluation criteria listed in the RFP. Scoring by the review team indicated the following five companies as the highest-rated proposers:

AppleOne
Asheville Staffing
Global Economic Advantage
GO-Upstaff
Sydata Consulting

Phone interviews were then conducted by the Human Resources Department, who determined the top three companies to be AppleOne (for professional and administrative positions), Asheville Staffing (for all types of positions), and UpStaff (for administrative and labor positions). Staff hereby requests the approval of contracts with each of these companies.

Pros:

- Contracting with three companies maximizes the ability to fill temporary positions within the necessary timeframe; and
- Allows temporary staffing firms to continue to supplement in-house staff where that work is not able to be filled by a regular, temporary, or seasonal employee.

Con:

- None identified.

Departments will continue to pay for temporary staffing services out of their approved FY 2018-19 budgets. Approximately $500,000 per year was spent on temporary staffing for the City in FY 2015 and FY 2016.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into contracts with Asheville Staffing, UpStaff, and AppleOne to provide temporary staffing services for the City of Asheville.

RESOLUTION BOOK NO. 40 – PAGE 37

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. UPDATE ON THE ASHEVILLE POLICE DEPARTMENT OPEN DATA

Assistant to the City Manager Jaime Matthews said that the goals for the Asheville Police Department (APD) Open data is (1) consistent with City Council's Open Data Policy; (2) provide ample safeguards for the privacy of victims, officers, residents and the integrity of criminal investigations; and (3) increase trust between the city and the community that it serves. She then reviewed the APD open data request. Other dataset updates include (1) use of force data and citizen complaint data - an update to the software was completed. APD is working to pull data for first review before posting these on the open data portal; (2) emergency calls and citation and arrest data - Information Technology Department and APD are working with Buncombe County to release data. Some delays are due to staff turnover at Buncombe County; and (3) demographics information on all City employees - review with the Human Resources Department and Equity Office.

B. COUNCIL STRATEGIC OPERATING PLAN UPDATE

Interim Assistant City Manager Peggy Rowe briefly reviewed Council's Strategic Plan update. For an Equitable & Diverse Community, the Equity Action Plan was adopted which will establish racial equity as a key value, and reduce racial disparities within City government and our communities. In the Well Planned and Livable Community section, (1) Riverfront Greenway project advancement; (2) temporary Haywood Street installations in place and progress made toward long-term use; and (3) improvement of Tempie Avery Montford Center complex. For a Clean & Health Environment, (1) renewal energy planning services Request for Proposals; (2) energy audits & LED lighting projects; (3) Climate Resilience Assessment; (4) revised Food Policy Action Plan; (5) backyard composting workshops; and (6) 31% of 80% carbon reduction goal achieved. For Quality Affordable Housing (1) Eagle-Market Street completion; (2) South Slope Vision Plan & Lee Walker Heights Development Plan; and (3) utilization of newly-purchased City-owned land. Under Transportation & Accessibility, (1) Transit Master Plan finalized; (2) Bike Share Feasibility Study; (3) Parking Plan for Downtown Asheville; and (4) electric buses. For a Thriving Local Economy, (1) Minority-Owned and Section 3 Construction Firms Mentoring Program; and (2) support for local businesses during times of construction. For a Connected & Engaged Community (1) expand Asheville Police Department open data portal; (2) Blue Ribbon Committee recommendations approved by Council; and (3) Human Relations Commission of Asheville appointed. And, a Financially Resilient Community, (1) maintain AAA bond rating; and (2) Capital Projects Bond - Use Dashboard.

Councilwoman Mayfield also noted other highlights, some being, but are not limited to: decision made around Charlotte Street road diet; conversations with the N.C. Dept. of Transportation (NCDOT) about the Merrimon Avenue proposal; and work with the NCDOT on I-26 to make sure that the project benefits the people who live here and not just those who are passing through.

In response to Councilwoman Smith, Ms. Rowe said that she would be confirm the race of the 13% of 200 new hires in Fiscal Year 2018.

Mayor Manheimer also noted the major effort continuing to happen with the Duke substation in the old Volvo dealership property on Patton Avenue. After through a lot of community work and urging from the City, Duke will build the second ever Gas Insulated Substation, which will take up a significantly smaller footprint and can be enclosed in a building.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN ECONOMIC DEVELOPMENT INCENTIVE GRANT TO GENERAL ELECTRIC CORPORATION AND UNISON ENGINE COMPONENTS INC.

RESOLUTION NO. 18-185 - RESOLUTION APPROVING AN ECONOMIC DEVELOPMENT INCENTIVE GRANT TO GENERAL ELECTRIC CORPORATION AND UNISON ENGINE COMPONENTS INC.

Community & Economic Development Director Sam Powers said that this is the consideration of a resolution authorizing a performance based economic development incentive grant agreement with General Electric Corporation and Unison Engine Components, Inc. This public hearing was advertised on July 13, 2018.

City of Asheville has been requested by Asheville-Buncombe EDC for consideration of a performance based incentive grant under the City Economic Development policy to an existing Asheville manufacturing facility, operated by General Electric Corporation ("GE"), and Unison Engine Components, Inc. ("Unison"). The purpose of the City's participation would be to induce GE to make additional investments in the City for expenditures to acquire and install machinery/equipment, make facility improvements which increase the tax value as determined by the Buncombe County Tax Department in the amount of $105,000,000, and create 131 new jobs with median wage of $49,500. All new jobs will pay a Living Wage and are fully benefited. The City of Asheville is considering offering a performance based grant in an amount not to exceed $900,960. North Carolina state law requires a public hearing be held before an incentive grant can be officially awarded.

Pros:

- Performance driven grant that is distributed after job and investment is achieved or mutually agreed performance benchmarks are established.
- Grant is based on new generation of tax revenue in the City.
- Grant supports expansion of existing industry in the City.
- Supports job creation and capital investment in Asheville.
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of a portion of the new incremental increase from property tax revenue generated by the project for a 5 year period.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive 50% of the new incremental property tax revenues, as well as the existing property tax revenues from the project. After the grant period of 5 years, the City will henceforth receive 100% capture of all city taxes. Staff projects that the first payment of the grant in the potential range of $175,000 would be budgeted and paid in Fiscal Year 2020-21 (subject to performance being met).

City staff recommends Council approve a resolution authorizing a performance based economic development incentive grant agreement to support retention and expansion with General Electric Corporation and Unison Engine Components, Inc.

Mr. Michael McGuire, Plant Manager for GE Aviation in Asheville, brief Council on the history of GE Aviation and felt this is a great partnership with the City and the local business community. He felt this is the right type of technology and growth in the City.

In response to Councilwoman Mayfield, Mr. Grant explained the specifics of the 131 new jobs.

Mayor Manheimer opened the public hearing at 5:37 p.m.

Mr. Dave Rowe supported the economic development incentive grant to GE Aviation.

In response to Ms. Tiffany De'Bellott, Mr. McGuire said that he would need to follow-up with Council on the percentage of people of color that work at the Asheville GE Aviation.

Mayor Manheimer closed the public hearing at 5:40 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Young moved to approve Resolution No. 18-185. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 36

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ADD STANDARDS TO THE OUTDOOR LIGHTING ORDINANCE

ORDINANCE NO. 4686 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ADD STANDARDS TO THE OUTDOOR LIGHTING ORDINANCE

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to include new standards for outdoor dining and outdoor sports facilities, in addition to a couple of minor corrections. This public hearing was advertised on July 13 and 20, 2018.

The Unified Development Ordinance (UDO) includes general standards for outdoor lighting that are established to allow for nighttime use and enjoyment of property, while also addressing public health, safety and security. In order to address basic safety and security concerns, minimum levels of illuminance and uniformity of illuminance are established. However, growing environmental concerns over controlling unnecessary "over lighting", safety concerns over unnecessary glare, and nuisance concerns over light trespass and sleep disruption resulted in maximum illuminance limits along with glare control (shielding) designs which are now required with most outdoor lighting systems.

On April 9, 2018, the Planning & Economic Development (PED) Committee heard a report on the city's outdoor lighting standards and how they are applied, more specifically, to outdoor dining areas. Under the current ordinance, unshielded string lights with bulbs that emit more than 15 lumens per bulb, when visible from the boundary of the property, are not allowed. The PED supported a change that would allow a higher level of illuminance per bulb before requiring shielding so that dining areas may utilize string lights of a higher intensity to provide higher illumination along with nighttime ambiance to add to the dining experience. Also during the April PED meeting, staff introduced the need to add new standards for outdoor sports facilities where much higher levels of illuminance are needed for safe play. The PED committee supported adding new standards for sports facilities as well.

This wording amendment includes three primary components:

1) Add a new standard for string lights in permitted outdoor dining or drinking areas;
2) Add new standards and definitions for sports court lighting, and update standards for ball field and performance area lighting; and
3) Correct and/or clarify existing sections including:
   - applicability in single family residential conditions
   - exempting lighting required by the NC State Building Code

- simplify language in (g) *General standards.*

The maximum illuminance levels for string lights is proposed to be raised from 15 lumens per bulb to 25 lumens for incandescent bulbs and 50 lumens for LED bulbs. String lights that are brighter than the new allowances, or are installed in areas outside of established outdoor dining areas, may still be used but must be shielded. As always, other lighting fixtures and designs may also be used.

While the existing ordinance allowed for taller and brighter fixtures for outdoor sports facilities, it does not anticipate the transition from metal halide lights to LED, and the application of general LED standards proved impractical when working with this specialized and unique lighting application. The proposed language addresses the move to LED lights while also establishing lower standards for court (tennis and basketball) lighting where the facilities are more likely to be located entirely within residential neighborhoods.

This wording amendment was reviewed by the Planning and Zoning Commission on June 6, 2018, and was approved 5-0. Staff has received public comment from an individual in the community with concerns over the need to minimize light pollution. City Council provides the final review of all zoning text amendments.

This wording amendment supports the City's Comprehensive Plan by providing flexibility to restaurants (& tourism) to allow for greater nighttime use and appeal, and by tailoring the design options for parks in order to maximize their benefit to the community.

Having effective and outdoor lighting standards most closely aligns with the Council goals of a *Well-Planned and Livable Community* and a *Clean and Healthy Environment* by addressing safety, nuisance and environmental concerns; while the proposed update supports the goal of providing for a *Thriving Local Economy* by allowing for increased flexibility to service and tourism based businesses.

The Planning and Zoning Commission recommends approval of the zoning text amendment modifying Article XI of the UDO to expand standards for string lights, outdoor sports facilities and to perform minor corrections and clarifications, which is consistent with the Comprehensive Plan and other adopted plans.

Mayor Manheimer opened the public hearing at 5:45 p.m.

Mr. Bernard Arghiere had no objection to the sport outdoor lighting; however, he explained why he was asking Council vote separately on the suspended string of lights addition.

A gentleman noticed a deterioration of our night skies and spoke in opposition of the amendments, in particular the no limits on the string lights per certain area, when the business is closed that they should be required to turn the outdoor lighting off, new residential lighting for one and two family dwelling units should be complaint driven.

Mayor Manheimer closed the public hearing at 5:50 p.m.

At the request of Councilman Young, Ms. Tuch responded to the objections raised.

Councilwoman Mayfield suggested an amendment to the ordinance that that when the outdoor dining area is not used, the outdoor patio lights should be turned off.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to approve the wording amendments to UDO Articles II and XI to expand and clarify standards for outdoor lighting, with the amendment that lights must be turned off when the outdoor dining area is not in use, and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the amendment (1) Maintains development standards to promote harmony and compatibility with surrounding properties; (2) Provides flexibility for enjoyment and use of property at night; and (3) Improves safety by allowing higher levels of illumination for high activity areas and uses. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 171

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 18-187 - RESOLUTION ADOPTING THE TRANSIT MASTER PLAN

Mr. Eli Mathis, Project Manager for the City, said that the Plan has gone through numerous rounds of public comment and changes and at this point we have a strong plan endorsed by a number of advisory boards and stakeholder groups, including the Transit Committee, the Multimodal Transportation Commission, Housing Authority, Drivers Union, etc. The Plan is ambitious and recommends major service expansions in the first year, as well as continuing service expansions in future years.

The following staff report was available for Council review:

"Plan Background - The Transit Master Plan (TMP) is the guiding document for the City's transit system and shapes how and where bus service is provided, and provides a vision for long term service expansion and infrastructure needs. The original TMP was adopted in October 2009. Since that time there has been significant growth and development in Asheville and the surrounding area which has placed increasing pressure on the current structure and route networks of the City's transit system (ART). There are also significant limitations placed on the system by the current facilities which are ageing and do not have the capacity to support the City's future transit needs. On September 12, 2017, the Asheville City Council passed a resolution authorizing the City Manager to enter into a contract with Tindale Oliver for consulting services for updating the City's TMP.

Public Engagement Process - The process for developing the new TMP began in October 2017 and continued through the winter and spring of 2018. After a thorough review of existing plans from various City departments and regional organizations, the Project Team began the key public engagement and data collection portion of the project. Effective public engagement is crucial to ensuring that the plan reflects the needs of the public, therefore several layers were included in the public engagement strategy to collect data and feedback from both existing riders and the general public. The engagement strategy included:

- The project Steering Committee served as the primary advisory board for the TMP and helped guide the Project Team over the course of the project. The Steering Committee was comprised of City staff, Buncombe County staff, MPO staff, NCDOT staff, ART management staff, ART bus drivers, members of the Transit Committee and Multimodal Transportation Commission, and representatives from AARP, Just Economics, the Homeless Coalition, and the People's Transit Campaign.
- Two Community Workshops allowed members of the public to meet with the project team

in a charrette style setting where they could be actively involved in designing route changes.

- Two formal Public Meetings to present the Draft Plan and to receive direct feedback from the public. A free shuttle was provided for both public meetings which allowed members of the public to easily travel between the meeting location and the ART Station every 15 minutes.
- Eight Discussion Group Workshops which consisted of meetings between the Project Team and small groups of representatives from different stakeholder organizations. These meetings allowed for more in-depth conversations about the specific transit needs of the different groups. The stakeholder groups included: higher education organizations, ART drivers and supervisors, medical organizations, senior groups, Just Economics and the People's Transit Campaign, local business owners, and neighborhood associations.
- Regular updates to existing boards and commissions, such as: the Transit Committee, Multimodal Transportation Commission, Neighborhood Advisory Committee, and the Community Transportation Advisory Board.
- Continuous feedback via email and phone throughout the project. The phone number and email address of the Transit Planning Manager were posted on the project website, *AshevilleNC.gov/TransitMasterPlan*, and on all posters and promotional materials that were distributed during the process to allow the public to provide direct feedback to City staff. City staff also made themselves available to have private meetings with individual members of the public to review the Draft Plan whenever that request was made.
- Rider Surveys were administered onboard buses and at the ART Station by volunteers from Just Economics and the People's Transit Campaign in December and January. These surveys were focused on current transit riders and their specific ridership patterns and service needs.
- Online and Paper Surveys were available to the general public from November through January. These surveys were more broad in scope and aimed at obtaining information from both current riders and potential future riders.

In order to promote the various meetings and other engagement activities available to the public, the Project Team utilized all of the following methods: maintaining meeting dates and project information on *AshevilleNC.gov/TransitMasterPlan*, posters on buses and bus stops, TV and radio interviews, social media posts, newspaper advertisements, coordinating with community partners, and with regular email updates through the IRide Transit email list.

Some of the key information collected during the public engagement process includes:

- On-time performance (OTP) and overall system reliability are key to growth and sustainability of the network.
- Transferring between routes to get to a single destination is a major burden to existing riders and is a disincentive for potential riders to use the system. Even when transfers are completed on schedule, having to switch buses causes delays and is difficult for passengers with mobility issues, those traveling with groceries or children, and for passengers not familiar with the system.
- Equitable service coverage is of great concern. While frequency of service is important, preserving access to the areas already served, and increasing access to those areas with few mobility options are key to the success of transit in Asheville.
- Access to social services, medical centers, and grocery stores is a need that is recognized by the majority of stakeholders involved in the TMP process. While regular hourly service is ideal, preserving access, even with a more limited schedule was seen as a practical solution to more efficiently allocating resources throughout the fixed-route bus network.

Service Changes and Routing Recommendations - After the initial information gathering

portion of the project was complete, the Project Team then set about updating the existing transit network and planning for long term expansion of the network. Edits to the existing network are focused on improving on-time performance (OTP) and overall system reliability, creating options for traveling across town without transferring, and extending hours of operation. 'Year One' of the plan is scheduled for Fiscal Year 2020. Some of the major changes in the first year of the plan include:

- Combining the existing W3 and E2 routes to create the new Crosstown 2, and combining the existing W4 and E1 routes to create the new Crosstown 4. The new crosstown routes will provide single-seat rides through Downtown, and will increase service frequency on the primary east/west corridors of Tunnel Rd and Patton Ave. Initially, the east/west crosstown routes will continue to go through the ART Station on every trip.
- New direct route to Pisgah View Apartments in West Asheville will improve OTP and reliability on routes W1 and W2, and will provide a combined frequency of 15-minutes on Haywood Rd from Downtown to State St.
- Interlining of the N1 and N2 routes with S4 will create a single seat ride through downtown and a new direct connection between UNCA and AB Tech. This will also increase the frequency on S4 to 30-minutes. This change will not impact existing service on routes N1 and N2.
- Haw Creek Neighborhood will be served by 170 to alleviate severe OTP issues on E2. Service frequency will be reduced from hourly to every other hour, but the coverage area will be expanded to include Spruce Hill Apartments which lost service under the previous TMP.
- S2 will retain hourly service but will now be a one-directional clockwise loop from Downtown to Social Security Administration to Kenilworth and back to Downtown.
- Extended service hours across all routes- 10PM on Weekdays and Saturdays with some Late Night Service on key corridors until Midnight; 8PM on Sundays and Holidays.

Plans for long term expansion of the network are focused on increasing frequency on primary corridors, expanding service to new areas not currently within the existing service area, and further reducing the dependence on transfers by creating additional crosstown routes which provide single-seat trips through Downtown. Some of the major changes in the later years of the plan include:

- FY 2021- Crosstown 1 will provide a north/south single-seat ride through Downtown via Merrimon Ave, Biltmore Ave, and Hendersonville Rd. Passengers will be able to transfer to the east/west crosstown routes at Pack Square Park, eliminating the need for a major deviation through town to the ART Station on Coxe Ave. This route will be increased to 30-minute frequency in FY23, thereby giving Merrimon Ave 15-minute frequency up to Beaverdam Rd.
- FY 2021- An additional bus on routes S3/S6 will increase combined frequency on Hendersonville Rd to 30-minutes, with hourly service to Biltmore Park and the Airport.
- FY 2022- Enka route will provide hourly service to an area within the city limits which is currently not served by ART.
- FY 2023- Sweeten Creek route will provide hourly service to an area within the city limits which is currently not served by ART.
- FY 2025- Carrier Park and Swannanoa River Rd route will provide hourly service to two areas within the city limits which are currently not served by ART.
- FY 2025- Downtown Shuttle will provide greater mobility to the Central Business District (CBD) and will reduce overcrowding issues on other routes by focusing shorter trips within the CBD onto the Downtown Shuttle rather than on longer routes traveling out of Downtown.
- FY 2026 through FY 2029- Additional vehicles and operating funds are programmed into the financial plan for the out-years, but these resources are purposely left open so they

can be allocated based on future service demands: ridership, community needs, congestion, etc.

The plan also recommends service extensions beyond the city limits and into Buncombe County and other neighboring communities. Some of these are 'Strategic Extensions' which could be provided using the existing ART system, but with funding provided by regional partners for the sections that extend beyond the city limits. Other recommendations for service beyond the city limits are for longer routes which could not be accomplished with the ART system. Plans for these routes will be provided to Buncombe County and other regional partners and will be available for them to use, should they decide to implement the routes with the Trailblazer system.

Fare Analysis - The TMP provides a detailed analysis of the existing fare structure, as well as a review of the potential impacts of fare changes; considering the possibility of a fare increase or elimination of fares entirely. While the public engagement process did not show that the cost of transit was a major disincentive to most riders, there is significant evidence that making the service free could result in increased ridership. The primary concern about switching to a free system, aside from lost revenue, is the potential that a sudden increase in ridership could cause issues with overcrowding and on-time performance. In order to better understand and prepare for the potential impacts to ridership, the plan recommends a Fare Free Weekend Trial for a full year, beginning in July 2019. Because weekend ridership is already significantly lower than weekday ridership and weekend fare revenue is not substantial, providing a Fare Free Weekend Trial will allow staff to monitor the impacts of fare free service without the risk of overcrowding or a substantial loss of revenue. At the conclusion of the Fare Free Weekend Trial, staff will be able to provide the results of the trial and their recommendation to Council, and Council can provide further direction on how to proceed regarding fares.

Facility Analysis - A key component of the TMP is a review of existing transit facilities and recommendations on improvements that are needed to support future system growth. The ART Operations and Maintenance Facility at 360 West Haywood St is where all of the system's maintenance and administrative facilities are located. The current facility was built in 1971 and is nearing its federally established 50-year useful life. With the addition of electric vehicles to the fleet, and the significant expansion of the fleet projected in the coming years, the current facility will reach capacity in FY 2022 and significantly exceed capacity by FY 2023. The TMP is recommending that the construction of a new facility be made a top priority; the plan calls for the City to advance the location and design services in FY 2019 and initiate a design-build process for completion by 2024. The initial estimate for the 8-10 acre facility is $50 million, however, this estimate will need to be refined once a more detailed facility analysis has been completed.

Summary - The Draft TMP was reviewed and endorsed, with edits, by the Transit Committee on May 15, 2018, and the Multimodal Transportation Commission on May 23, 2018. Comments and recommendations from both the TC and MMTC have been incorporated into the Draft Final TMP presented to the PED and City Council.

Pros:

- Expands transit service area, service hours, and frequency of service.
- Creates new crosstown route options which will provide more direct service and reduce the need to transfer between routes.
- Provides future routing options for specific areas not included in the 10-year phasing plan so these could be implemented at a later date if funding becomes available.

Con:

- Increases the total amount of local funds spent on transit service.

The Draft Final TMP proposes to expand transit revenue hours of service by 44% in FY

2020 and continue to expand it at a regular pace every year after that. This level of service expansion will trigger a renegotiation of the rates of the Transit Operations and Maintenance Contract, therefore the final cost of the service changes will not be known until the contract renegotiation has taken place. The expected cost of the service changes for transit operations in FY 2020, are approximately $10.6 million. That represents an increase of approximately $2.4 million from the proposed FY 2019 transit operations budget.

Staff recommends City Council approve a resolution adopting the Transit Master Plan."

Mr. Justin Willits, Assistant Project Manager from Tindale Oliver, provided Council with a brief overview of the project schedule and an overview of community involvement. Throughout the project they learned (1) status quo service levels and funding were inadequate to serve the needs of the community; (2) on-time performance issues needed to be addressed without impacting coverage in the service area; (3) the quality and quantity of service needed to be addressed to put Asheville on a trajectory for enhancing mobility options into the future; (4) extensive feedback with incorporated to address community concerns and focus on needs; and (5) transferring downtown for all connections across town was seen as a deterrent to riding ART.

Mr. Willits then reviewed the primary changes, along with the Transit Master Plan timeline of improving the frequency of service, while expanding coverage and span of service, addressing on-time performance.

Regarding the Fare Policy, compared to peers, ART transit is very inexpensive. Sixty-seven percent of peer average for a single trip. City Council should consider raising the fare to $1.5, day-pass to $4 and monthly pass to $35-40 if it wants to be comparable to peers.

Regarding the Fare Free Weekend Pilot Program, we don't want to overburden the transit system (ART saw 58% increase in ridership last Pilot Program). They will collect data on impacts of the Pilot Program.

He then explained the facility analysis. Increasing vehicle fleet means a new facility will be required for storage and maintenance - approximately 8-10 acres.

Mr. Mathis then reviewed the budget. Immediate funding needs will require (1) for Fiscal Year 2020, Operations Budget increase - $2.5 Million; (2) For Fiscal Year 2019-20 Facility Study - $18,000 local match; and (3) for Fiscal Year 2021, $10 Million maintenance facility local match. Using a chart, he outlined the Fiscal Year 2019 - 2029 transit operations budget projects, including the year, revenue hours, total estimated cost, and increase from the Fiscal Year 2019 budget.

Mr. Mathis and Mr. Willits responded to various questions/comments from Council, some being, but are not limited to: what is the usefulness of a new facility and what is it's timeframe for the design-build; is the local funding match of $10 Million a conservative estimate; will the potential growth of our system included in maintenance facility expansion study; confirmation that the maintenance facility expansion study was not budgeted in the Fiscal Year 2019-20 budget; what is the timeline for any grant opportunities to fund the expansion study; how did the state budget affect transit funding for the City; is the maintenance facility identified in our capital improvement program; are there any funds in the capital reserve that can be used for a maintenance facility; and explain the analysis of the fare free transit pilot program for the weekends.

Councilwoman Mayfield was in favor of using some of the funds not used from a study associated with the Fire Department to be used to fund the maintenance facility expansion study.

Acting City Manager Ball was confident we will be able to find the $18,000 match. The matter will go to the Finance Committee and then to Council for a budget amendment.

Councilman Young asked that when the pilot program is implemented that Council be updated quarterly on the ridership data.

Acting City Manager Ball said that we believe there is a strong connection between health and their access to transportation. We will be moving ahead with an eye towards funding locally, potentially through the new Mission Foundation as the ability to have this transit system grow.

Ms. Sabrah n'haRaven, member of the Transit Committee, the Transit Master Plan Steering Committee, and the Better Buses Together core team, urged Council to not only adopt the Transit Master Plan but commit to funding it over the next few years. The Year 1 recommendations in the Transit Master Plan are also not about giving us a great or even a good system. They're about giving us the bare essentials of a system that actually functions well enough for people to use it. She would like to see the timeline moved up for the half-hour service on Hendersonville Road and the service to Enka-Candler.

Mr. Francisco Diaz, representing Youth Empowered Solutions, in partnership with Just Economic, spoke about the benefits of the Transit Master Plan for youth and the benefits associated with the Plan. He also supported expanding to areas like Woodfin, Weaverville and A.C. Reynolds.

Ms. Cindy Oak, representing Family to Family in the Reynolds District of Buncombe County Schools, supported the Transit Master Plan that outlines a deviated fixed route or flex service along Highway 74 from the City limits at River Ridge Shopping Center to the Reynolds campus.

A representative of Just Economics and Beloved Asheville supports the Transit Master Plan.

Ms. Vicki Meath, representing Just Economic, and Rev. Amy Cantrell spoke in support of the Transit Master Plan and urged the Council to prioritize funding for the Plan.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 18-187. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 38

B. RESOLUTION NO. 18-188 - RESOLUTION TO RECOMMIT $1 MILLION TO A LOCAL COMMUNITY LAND TRUST, RECOGNIZE THE FORMATION OF THE ASHEVILLE BUNCOMBE COMMUNITY LAND TRUST AND PROVIDE A LETTER OF SUPPORT FOR THE ASHEVILLE BUNCOMBE COMMUNITY LAND TRUST SHOWCASING OUR CONTINUED STAFF SUPPORT AND THE EFFORTS OF THE ABCLT IN ACHIEVING ITS 501 (C) (3) TAX-EXEMPT STATUS

Housing Development Specialist Paul D'Angelo said that this is the consideration of a resolution to recommit one million dollars to a local Community Land Trust, recognize the formation of the Asheville Buncombe Community Land Trust (ABCLT) and provide a letter of

support for the ABCLT showcasing our continued staff support and the efforts of the ABCLT in achieving its 501 (c) (3) tax-exempt status.

The City of Asheville currently has $1 Million of affordable housing bond funds allocated to a community land trust, should one be formed. Over the past 14 months, city staff and community members have participated in educational forums and received technical assistance from Burlington Associates in Community Development to determine the feasibility of a community land trust in Asheville and Buncombe County. A steering committee was formed and has been meeting almost weekly since January to work on this assessment. The steering committee determined it best to create a single community land trust entity that could target specific neighborhoods – particularly predominantly African American neighborhoods that are facing gentrification-driven displacement – in Asheville as well as respond to affordable housing opportunities that may present themselves elsewhere in Asheville and throughout Buncombe County. As with other community land trust organizations operating across the country, this new CLT, to be called the Asheville-Buncombe Community Land Trust, will commit itself to figuring out – through consultation, representative governance, and ongoing communication and regular and frequent interaction with local residents and nonprofit organizations – how to build as much local ownership and accountability as possible in the neighborhoods in which the CLT would operate.

On Monday, June 11, 2018, a formal Board was appointed to oversee the ABCLT. Articles of incorporation have also been filed for this new entity.

On Monday, July 9, 2018, the Board elected the following officers:

- Dewana Little - Chair
- Libby Kyles - Vice Chair
- Rosanna Mulcahy - Treasurer
- C. Nicole Hinebaugh - Secretary

Also on the 9th, the ABCLT reviewed by-laws to be voted on in August and will be meeting with the Durham Community Land Trustees later this month for a training.

Pro:

Community Land Trusts are a recognized best practice for preserving and creating long-term affordable homeownership opportunities.

Con:

Budget constraints limit the availability and use of funds; the Asheville-Buncombe CLT will also need to find additional sources of revenue for operations.

Affordable housing bond funds are in existing budget. Existing resources can also be used for additional technical assistance.

The HCD Committee recommended at their June meeting that City Council recommit their support of the $1 Million in affordable housing bond funds for a local CLT, recognize the formation of the ABCLT and provide a letter of support for the ABCLT in their efforts to achieve 501 (c) (3) tax-exempt status.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-188. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 39

C. BOARDS & COMMISSIONS

Regarding the Board of Adjustment Alternate seat, the following individual applied for the vacancy: Ken Sherlin. It was the consensus of Council to re-advertise for the Alternate seat.

Regarding the appointment of Chair to the Civil Service Board, it was the consensus of Council to wait until the Board has appointed their fifth member.

Regarding the Board of Electrical Examiners layman seat, no one applied for the vacancy, therefore, it was the consensus of Council to re-advertise for the layman seat.

Regarding the Neighborhood Advisory Committee, the following individual applied for the vacancy: Karl Katterjohn. It was the consensus of Council to re-advertise for the vacancy.

Regarding the Noise Ordinance Appeals Board Alternate seat, no one applied for the vacancy, therefore, it was the consensus of Council to re-advertise for the Alternate seat.

Regarding the Tree Commission, the following individual applied for the vacancy: Martha Dyke. It was the consensus of Council to re-advertise for the vacant seat.

RESOLUTION NO. 18-189 - RESOLUTION APPOINTING MEMBERS TO THE CITIZEN-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Citizens-Police Advisory Committee.

The terms of Carol Rogoff Hallstrom (North) and Larry Holt (Central) expired on June 30, 2017 (terms extended until their successors were appointed). In addition, Also, there is an unexpired term left by Sir Charles Gardner (resident of property owned by the Housing Authority) until June 30, 2019; and an unexpired term of Jayden Gurney (Housing Authority representative) until June 30, 2021.

The following individuals applied for the vacancy: Gretchen Gudites, Celeste Fletcher, Frederic G. Arnold, Jason Martin, S. Elizabeth Snyder, Blake Marcus and Jerry Kivett.

It was the consensus of the Boards & Commissions Committee to appoint Blake Marcus (North), Jerry Kivitt (Central) and Gene Bell (Housing Authority representative). It was also the consensus of the Boards & Commissions Committee to re-advertise for the resident of the Housing Authority property.

Vice-Mayor Wisler moved to (1) appoint Blake Marcus (North) to fill the unexpired term of Ms. Hallstrom, term to expire June 30, 2020; (2) appoint Jerry Kivitt (Central) to serve the unexpired term of Mr. Holt, term to expire June 30, 2020; and (3) appoint Gene Bell (Housing Authority representative) to serve the unexpired term of Mr. Gurney, term to expire June 30, 2021. All appointments are until their successors have been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 40

RESOLUTION NO. 18-190 - RESOLUTION APPOINTING MEMBERS TO THE CIVIC CENTER COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Civic Center Commission.

The terms of Joel Storrow and Chris Bubenik expired on June 30, 2018. In addition Joe Green has resigned, thus leaving an unexpired term until June 30, 2019.

The following individuals applied for the vacancy: Shelia Surrett, Kimberly Hunter, Kyle Smith and Bill Jones.

It was the consensus of the Boards & Commissions Committee to appoint Kimberly Hunter, Kyle Smith and Bill Jones.

Vice-Mayor Wisler moved to (1) appoint Bill Jones to serve the unexpired term of Mr. Greene, term to expire June 30, 2019; and (2) appoint Kimberly Hunter and Kyle Smith to each serve a three-year term respectfully, terms to expire June 30, 2021, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 41

RESOLUTION NO. 18-191 - RESOLUTION APPOINTING MEMBERS TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Homeless Initiative Advisory Committee.

Mr. John Rakes has resigned, thus leaving an unexpired term until November 1, 2019. In addition, Ms. Whitney Lott also resigned, thus leaving an unexpired term until November 1, 2021.

The following individuals applied for the vacancy: Timothy Moser, Bill Robinson, Michael Carlebach, Roberto L. Hess, Thomas Cash, Tamarie Macon, Donna Ball, Tim McElyea and Joell Steininger.

Vice-Mayor Wisler moved to (1) appoint Donna Ball to serve the unexpired term of Mr. Rakes, term to expire November 1, 2019, or until her successor has been appointed; and (2) appoint Joell Steininger to serve the unexpired term of Ms. Lott, term to expire November 1, 2021, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE

RESOLUTION NO. 18-192 - RESOLUTION APPOINTING MEMBERS TO THE I-26 CONNECTOR PROJECT AESTHETICS COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the I-26 Connector Project Aesthetics Committee.

City Council established the ad hoc committee of the I-26 Connector Project Aesthetics Committee on April 24, 2018, to gather information and ideas about treatments that would make the project a cohesive and integrated part of Asheville. It is anticipated that the Committee would serve for about one year and complete their tasks before the final Environmental Impact Statement is released.

The following individuals applied for the vacancy: Woodard Farmer, Joe Minicozzi, Michael Adams, Billy Cooper, David Nutter, Michael Zukoski, Tal Dgani and Ted Figura.

It was the consensus of the Boards & Commissions Committee to appoint Woodard Farmer, Joe Minicozzi, Michael Adams, David Nutter, Michael Zukoski and Ted Figura.

Vice-Mayor Wisler moved to appoint Woodward Farmer, Joe Minicozzi, Michael Adams, David Nutter, Tak Dgani, Michael Zukoski and Ted Figura to each serve until their tasks are complete and before the final Environmental Impact Statement is released. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 43

RESOLUTION NO. 18-193 - RESOLUTION APPOINTING MEMBERS TO THE MULTI-MODAL TRANSPORTATION COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Multi-Modal Transportation Commission.

Ms. Billie Lofland (representing bike/ped interests) resigned leaving an unexpired term until July 1, 2018.

The following individuals applied for the vacancy: Helen Hyatt, Han Winogrond, Keaton Edwards, Carson Dellinger, Tina Wexler, Andrew S. Kirby, Ritchie Rozzelle, Dennis Wencel, Pat Katz, Rachelle Sorensen-Cox and Kenneth Armstrong.

It was the consensus of the Boards & Commissions Committee to appoint Rachelle Sorenson-Cox.

Vice-Mayor Wisler moved to appoint Rachelle Sorensen-Cox to serve the unexpired term of Billie Lofland, term to expire July 1, 2021, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 44

RESOLUTION NO. 18-194 - RESOLUTION APPOINTING MEMBERS TO THE PLANNING & ZONING COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Planning & Zoning Commission.

The terms of Tony Hauser and Guillermo Rodriguez expire on August 13, 2018.

The following individuals applied for the vacancy: Nick Hinton, Carter B. Webb, Robert Carroll, Paul Harkrider, Jesse James, Byron Greiner, Jeffrey Vanderlip and Suzanne Godsey.

It was the consensus of the Boards & Commissions Committee to reappoint Tony Hauser and Guillermo Rodriguez.

Vice-Mayor Wisler moved to reappoint Tony Hauser and Guillermo Rodriguez to each serve an additional three-year term, terms to expire August 14, 2021, or until their successors have been appointed. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 45

RESOLUTION NO. 18-195 - RESOLUTION APPOINTING MEMBERS TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Buncombe County Tourism Development Authority.

The terms of Himanshu Karvir and John Luckett (seats of an owner or operator of a hotel, motel, bed and breakfast, or vacation rental management company with more than 100 rental units) expire on August 31, 2018.

The following individuals applied for the vacancy: Ken Stamps, Jennifer Lauzon, Jessica Tomasin, Elizabeth Liddell Button, Patrick Ryan Conant, Peter Pollay and Christina Bailey. However, none of the applicants fill the specific need required for this seat.

It was the consensus of the Boards & Commissions Committee to reappoint Himanshu Karvir and John Luckett.

Vice-Mayor Wisler moved to reappoint Himanshu Karvir and John Luckett (both representing an owner or operator of a hotel, motel, bed and breakfast, or vacation rental management company with more than 100 rental units) to each serve an additional three-year term, terms to expire August 31, 2021, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 46

RESOLUTION NO. 18-196 - RESOLUTION APPOINTING A MEMBER TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Recreation Board.

Ms. Lauren Weldishofer has resigned, thus leaving an unexpired term until June 30, 2020.

It was the consensus of the Boards & Commissions Committee to appoint April Suttles

Vice-Mayor Wisler moved to appoint April Suttles to the unexpired term of Ms. Weldishofer, term to expire June 30, 2020, or until until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 47

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Steve Foster, representing the Council of Independent Business Owners Budget Committee, spoke to Council about infrastructure items including police funding; improvements to stormwater and street maintenance, and the transit system. They urge Council to take advantage of the unprecedented growth in the City and focus resources on core infrastructure needs.

Ms. Libby Kyles, Executive Director of YTL Training Programs, submitted a proposal to Council for the use of the Stephens Lee Recreation Center. In an effort to reverse the downward spiral of our youth of color, she proposed the use of the Stephens Lee space to do the following:

(1) Create programming for youth that focuses on working through trauma; (2) Create and deliver programming for youth and their parents; (3) Explore recreation beyond basketball and football; (4) Provide community programming that explores healing the hurts that have been caused by urban renewal and gentrification; and (5) Provide space for multiple non profits that service communities of color. They request a 10-15 year lease agreement for $1 per year; a commitment from the City to reimagine and reinvest public spaces; and a financial commitment from the City to support programming aimed not only at closing the achievement gap, but rejuvenating programming that is affordable and provides varied opportunities for youth of color living in low income neighborhoods. Executive Director of the Housing Authority of the City of Asheville Gene Bell stated that they have 22 African American males that have pledged to help Ms. Lyles, as far as coverage in any facility (primarily Stephens Lee), to help her to make sure it's a safe environment for her programs. At the request of Council, Acting City Manager Ball said that she will work with City staff, the Recreation Board, Ms. Lyles, Stephens Lee Alumni, East End Community and other stakeholders presently using Stephens Lee, and others, to provide Council an update at their August 28 meeting with an overview of the current users of the building, the demographics of those users, staffing of Stephens Lee, and Conditions Facilities Report; along with 2-3 processes available to Council in making any decision.

Mr. Max Swicegood, representing the Council of Independent Business Owners, read a resolution in support of City of Asheville Police. The Council of Independent Business Owners publicly acknowledges their support for the commitment and sacrifice made by each and every member of the City of Asheville police force.

Ms. Elizabeth Schell, downtown business owner; Ms. Delores Venable, representing Asheville Black Lives Matter, and Rev. Amy Cantrell were disturbed about the Asheville Police Department surveillance of community activists.

Ms. Amy Worthen and Mr. Reid Thompson encouraged Council to proceed with the proposal by Ms. Libby Lyles for the re-use of Stephens Lee.

Mr. Rondell Lance, President of the Fraternal Order of Police, supported Police Chief Tammy Hooper and explained the difference between police surveillance and monitoring.

Mr. Michael Carter was concerned about the lack of competency in reporting by the Asheville Police Department.

Results of the June 25, 2018, Civil Service Board Employee Elections

One copy of the results of the Civil Service Board employee election held on June 25, 2018, is to be filed with the City Manager and one with the City Clerk, who shall present such certification to the City Council at its next regular meeting. The Board of Canvassers provided the following certified certificate on June 26, 2018: We do hereby certify, having opened, canvassed, and determined the original returns of the Civil Service Board employee election, the results of the Civil Service Board Employee Election held on June 25, 2018, noting the name of each person voted for and the number of votes cast for each person as follows: Marvin Rosen - 146; and Ronald Reginald King - 44.

Closed Session

At 7:54 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2)

To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: City of Asheville v. T&T Enterprises, et al.; and City of Asheville v. Parkway Court, LLC. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:51 p.m., Councilman Kapoor to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:51 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – August 28, 2018- 3:00 p.m.

Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; and City Clerk Magdalen Burleson

Acting City Manager Cathy Ball said that in an effort to increase transparency and engagement leading into the next budget process, staff will be providing detailed departmental information to Council and the community. This information will include a focused look at each department's programs, level of service, budget, staffing, partnerships, and goals. Each department director will highlight key strategic elements within their department. The intent of this project is to provide a detailed account of City operations, highlight departmental challenges and opportunities, and identify the key resources that are required to deliver city services. This conversation will help to inform staff as they begin to consider priorities for the next fiscal year.

Finance and Management Services Director Barbara Whitehorn provided Council with a broad overview of the City's expenditures, revenues and community factors that drive operational and budgetary needs within Asheville. She reviewed the community profile.

Budget Manager Tony McDowell reviewed the General Fund Revenues & Expenditures, along with the City Council, City Manager, City Clerk and City Attorney summaries.

Sustainability Officer Amber Weaver reviewed with Council the Office of Sustainability.

Equity and Inclusion Director Kimberlee Archie provided Council with information on the Office of Equity and Inclusion.

Various staff responded to several questions/comments raised by Council, and those which could not be readily answered would be provided to Council via a memorandum.

Vice-Mayor Wisler asked that future budget worksessions contain detailed information on partnership agreements, including costs, expiration dates, etc.

Mayor Manheimer said that the next step of this process will be the community engagement piece so we have the opportunity to hear from the community. Councilman Haynes suggested the public to send any questions they may have to the Council members so they may get them addressed during the worksessions.

Mayor Manheimer adjourned the worksession at 4:44 p.m.

Tuesday – August 28, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER, 2018, AS "CERTIFIED COMMUNITY WILDLIFE HABITAT MONTH"

Vice-Mayor Wisler read the proclamation proclaiming September, 2018, as "Certified Community Wildlife Habitat Month " in the City of Asheville. She presented the proclamation to several individuals who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 24, 2018

B. SECOND AND FINAL READING OF ORDINANCE NO. 4685 - ORDINANCE GRANTING A FRANCHISE AGREEMENT TO TUK IT, LLC, FOR THE OPERATION OF AN ELECTRIC VEHICLE SHUTTLE SERVICE WITHIN THE CITY OF ASHEVILLE

At the request of Councilwoman Smith, this item was pulled from the Consent Agenda until the Multimodal Transportation Commission has had an opportunity to review.

C. RESOLUTION NO. 18-197 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE OFFICE OF NATIONAL DRUG CONTROL POLICY FOR THE HIGH INTENSITY DRUG TRAFFIC AREA 2018 GRANT

ORDINANCE NO. 4687 - BUDGET AMENDMENT FOR THE OFFICE OF NATIONAL DRUG CONTROL POLICY'S HIGH INTENSITY DRUG TRAFFIC AREA 2018 GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into an agreement to accept a grant from the Executive Office of the President, Office of National Drug Control Policy; and (2) a budget amendment in the City's Special Revenue Fund in the amount of $19,000 for the Office of National Drug Control Policy's High Intensity Drug Traffic Area (HIDTA) 2018 grant.

The mission of the HIDTA program - authorized by the Anti-Drug Abuse Act of 1988 and administered by the Office of National Drug Control Policy - is to reduce drug trafficking in the most critical areas of the county, thereby reducing the impact of illegal drugs in other areas. Asheville has for many years been designated as a HIDTA site. Asheville's HIDTA serves as a key drug trafficking reduction effort, critically positioned between the Atlanta HIDTA and the Appalachia HIDTA. The Asheville Police Department (APD) serves as the fiduciary for the Asheville Area HIDTA Task Force.

The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County sheriff's Office, Henderson County Sheriff's Office and McDowell County sheriff's Office. The Asheville HIDTA is a

component of the Asheville DEA Task Force. The HIDTA task force primarily concentrates on high volume, high value drug trafficking. As an example, the task force was recently involved in a case involving the large seizure of controlled substances from persons with local and National ties, involved in the trafficking of narcotics in this region and beyond.

The City of Asheville currently serves as the partial fiduciary for the Asheville HIDTA and has recently agreed to expand this service to include all program expenses. The allotted funds from the Federal government will be usec for investigative purposes and other program expenses including employee overtime, mobile phones and miscellaneous supplies. The expenditure of all funds are tracked and audited by both local and Federal authorities.

The request for the budget amendment will be presented to the Finance and Human Resources Committee on August 28, 2018 and any response other than unanimous approval to move forward to the full City Council will be noted at that meeting.

Pros:

- Federal HIDTA funds will be used for investigative purposes and program expenses.
- Continue to foster partnerships with Federal and local law enforcement agencies.

Con:

- Funding from the Office of National Drug Control Policy is awarded annually.

There is no impact to the City's General Fund Budget.

Staff recommends City Council adopt the resolution and budget amendment to accept grant funds in the amount of $19,000 through the Office of National Drug Control Policy to establish the HIDTA 2018 Grant.

RESOLUTION BOOK NO. 40 - PAGE 48
ORDINANCE BOOK NO. 32 - PAGE 174

D. RESOLUTION NO. 18-198 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH MCGILL ASSOCIATIONS P.A. FOR THE HAYWOOD STREETSCAPE BOND PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with McGill Associates, P.A. to provide survey, design and construction administration services for Haywood Streetscape Bond Project for an amount of $210,402, and further authorizing the execution of any contract amendments up to 10% ($21,040.) above of the contract price, which may arise during execution of said project.

This project was listed on the Nov. 2016 Transportation Bond Referendum that passed. This project has been prioritized as a safety issue and a major need by the City and by various boards, committees, and associations. The general project limits will be Haywood St. from Vanderbilt Ave. to Patton Ave. This project will include sidewalk rehabilitation, street resurfacing, stormwater improvements, sanitary sewer improvements, and the sourcing, siting and installation of various street amenities informed by public input. A key component is the replacement of irregular and broken sidewalk on much of this corridor. MSD will contribute construction funds and design consultation for the sanitary sewer replacement.

The City of Asheville (City) issued a Request for Qualifications (RFQ) for design services for the Haywood Streetscape Bond Project. In response to the RFQ, the City

received eleven (11) Statements of Qualifications to be considered for this project. After thorough review, evaluation & interviews, staff recommended McGill Associates, P.A. as the most qualified to perform the surveying, design and construction administration services for the Haywood Streetscape Bond Project.

McGill Associates has presented a scope of work and fee proposal for professional services associated with the Haywood Streetscape project, including surveying, public engagement, design services, cost estimating, permitting, bidding and construction administration.

The Buncombe County Metropolitan Sewer District (MSD) is planning a significant sewer replacement project within and overlapping the Haywood Streetscape project limits. In an effort to coordinate the construction of the City and MSD projects, McGill Associates will coordinate and combine the construction documents between these two projects into one set of bid documents. The intent will be to bid one construction contract for both the City and MSD work, with the construction costs being assigned to the respective organizations. The City will administer the construction contact for both organizations.

The following is the tentative project timeline:

Surveying/Design/Public Engagement	Fall/Winter 2018
Bidding for Construction	Winter 2018
Construction Begin	Spring/Summer 2019
Construction Complete	Winter 2019/Spring 2020

Pros:

- Addresses needed infrastructure and safety improvements and delivers on sidewalk, drainage and roadway improvements identified in the approved 2016 Bond Referendum.
- Begins the coordination between the City and MSD Capital Improvement Projects that will reduce redundancy in costs and in construction impacts to citizens during the future construction process.

Con:

- None identified.

Funding for this contract is already included in the Adopted Capital Improvement Program (CIP) as part of the Transportation Bond Program.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract with McGill Associates, P.A. to provide survey, public engagement, design, bidding and construction administration services for Haywood Streetscape Bond Project for an amount not to exceed $210,402, and further authorizing the City Manager to execute any contract amendments up to 10% ($21,040) above of the contract price.

RESOLUTION BOOK NO. 40 - PAGE 49

E. RESOLUTION NO. 18-199 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A ONE-YEAR MEMORANDUM OF UNDERSTANDING WITH THE FRIENDS OF THE WESTERN NORTH CAROLINA NATURE CENTER

Summary: The consideration of a resolution authorizing the City Manager to enter into a one-year Memorandum of Understanding (MOU) with the Friends of the Western North Carolina Nature Center (Friends).

The Friends is a 501 (c) (3) nonprofit corporation with a purpose to support the Nature Center with resources to provide an enriching and educational experience for Nature Center visitors. Each year the City and the Friends enter into a MOU to establish the respective roles of each party for the mutual benefit of creating a first class nature center and visitor experience. Most recently the Friends contributed funds to support Nature Center capital projects including the front entrance, otter exhibit, cougar exhibit, playground and restroom, and the red panda exhibit.

The MOU defines areas of operations between the City and the Friends in areas of relationship, communications, revenue, marketing and promotions, materials, center access, and the Friends role in supporting the Nature Center 2020 Vision Master Plan.

The Friends will contribute $175,000 to the City to support Nature Center operations as specified in the MOU.

This action will go before the Finance and Human Resources Committee on August 28, 2018. If there is anything other than a unanimous support to move forward to the full Council, it will be reported at the meeting.

Pros:
- Defines the role and responsibility of the Friends in the operation of the Nature Center
- Provides revenue to support Nature Center operations
- Reduces the amount of City subsidy to operate the Nature Center

Con:
- None

The Friends will contribute $175,000 during the one-year term of the MOU to support Nature Center operations.

Staff recommends City Council to adopt a resolution authorizing the City Manager to enter into a one-year Memorandum of Understanding with the Friends of the Western North Carolina Nature Center

RESOLUTION BOOK NO. 40 - PAGE 50

F. RESOLUTION NO. 18-200 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A GRANT AGREEMENT WITH THE N.C. HISTORIC PRESERVATION OFFICE FOR AN AFRICAN AMERICAN HERITAGE RESOURCES SURVEY

ORDINANCE NO. 4688 - BUDGET AMENDMENT FOR AN AFRICAN AMERICAN HERITAGE RESOURCES SURVEY

Summary: The consideration of a resolution to authorize the City Manager to enter into an agreement with the N.C. Historic Preservation Office for the purpose of surveying architectural resources associated with African American heritage; and a budget amendment to accept a federal pass through grant in the amount of $12,000 from the National Park Service Historic Preservation Fund via the North Carolina State Historic Preservation Office to dedicate local matching funds in the amount of $7,000 for a total budget of $19,000 for the research and documentation of Asheville African American heritage resources.

In partnership with the community, historic resources staff has identified the imperative

need for documentation of African American heritage resources within the city. The need to identify these resources is essential to documenting, understanding and illustrating a more comprehensive narrative of Asheville's unique sense of place and to celebrate and honor local African American history. In addition to gentrification, demolition and insensitive modifications to historic structures relating to African American history, remain a threat as development pressure continues to increase. One example of this threat can be seen in the demolition of the building at 185 Biltmore Avenue to make way for a surface parking lot. The demolished building was built ca. 1905 by local African American physician, Dr. R.H. Bryant, as his private residence and was later converted by Dr. Mary Frances (Polly) Shuford into the Asheville Colored Hospital during the 1940s at a time when Mission Hospital only allocated 18 beds to African American patients.

While several areas in Asheville identified for their association with African American communities have been included in past architectural surveys and National Register nominations, the vast majority of resources within the City have yet to be fully surveyed, including but not limited to, the East End, Eagle-Market, Southside, Lee Walker Heights, St. Johns-A-Baptist Church area, Shiloh, Burton Street, Pisgah View, Hillcrest and Stumptown.

It is the goal of this survey to compile existing research on local African American heritage, and to use this collection of information as the basis for more in depth research to inform prioritization of areas for survey, conduct survey of identified areas, and to identify potential additional future phases and/or projects relating to preservation of African American history in Asheville.

This was reviewed by the Finance and Human Resources Committee on April 23, 2018, and approval was recommended.

Pros:

- Funding will be made available for research and documentation of African American heritage resources in Asheville.
- Initial phase and documentation will help inform future phases of work related to preserving and celebrating local African American history, as well as long range planning.

Con:

- Future phases of survey may be necessary to fully document all resources due to limited amount of grant funding available; however, it is anticipated that at least one neighborhood/area will be surveyed as part of the scope of work for this application.

This grant application requires a match of $7,000 to be allocated from the contracted services line item in the Planning and Urban Design budget.

Staff recommends that City Council approve a budget amendment for $19,000 to research and document African American heritage resources, accept grants funds, and authorize the City Manager to execute any documents necessary to give effect to this approved action.

Historic Resources Director Stacy Merten responded to Councilwoman Smith regarding the ratio of the grant request, noting that we anticipate applying for another grant next year.

RESOLUTION BOOK NO. 40 - PAGE 51
ORDINANCE BOOK NO. 32 - PAGE 176

G. RESOLUTION NO. 18-201 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH GREEN LIGHT ELECTRIC INC. FOR ADDITIONAL PAVING REQUIRED BY THE N.C. DEPT.

OF TRANSPORTATION FOR THE SOUTH CHARLOTTE STREET/BILTMORE AVENUE TRAFFIC SIGNAL UPGRADE PROJECT

ORDINANCE NO. 4689 - BUDGET AMENDMENT FOR THE SOUTH CHARLOTTE STREET/BILTMORE AVENUE TRAFFIC SIGNAL UPGRADE PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a change order with in the amount of $10,799 to be paid to Green Light Electric Inc. for additional paving required by the N.C. Dept. of Transportation (NCDOT); and (2) a budget amendment in the City's General Capital Projects Fund in the amount of $10,799 from additional grant funding and the City's General Fund Traffic Safety budget to provide additional funding for the South Charlotte Street / Biltmore Avenue traffic signal upgrade project constructed by Green Light Electric, Inc.

Adding pedestrian signals to this intersection is part of an FTA Job Access/ Reverse Commute (JARC) grant project. The intersection was included because it is large, complex, has high pedestrian and vehicle traffic volumes, and connects people to transit.

City Council approved the original funding of $116,378.63 on February 13, 2018, in Resolution No. 18-35. The additional funding is being requested to cover unexpected costs that exceeded the original bid cost and contingency. These additional costs were incurred to provide a safer and smoother intersection by milling and paving a portion of dilapidated asphalt on Southside Avenue as part of a new requirement by NCDOT.

The current balance in the project fund is insufficient to cover the full cost and contingency, so the budget amendment moves funds from the Traffic Safety Projects budget in the General Fund to this project. Additional FTA grant funding is pending FTA action, so it is possible that some portion of the Traffic Safety funding will be able to be returned to the General Fund.

Pros:

- Pedestrian safety and mobility will be improved.
- Improve mobility and safety on city streets.

Con:

- The Traffic Safety budget will be reduced by an additional $1,366 to complete this signal.

As noted above, funding is coming from an FTA 2010 grant and the City's General Fund Traffic Safety budget. The additional $10,799 needed to complete this project will be funded with $9,433 from the FTA grant funding and $1,366 from the City's General Fund Traffic Safety budget The total cost of this contract, including contingency, is $127,176.75.

City staff recommends City Council 1) authorize a budget amendment in the City's General Capital Projects Fund in the amount of $10,799 to provide additional funding for the South Charlotte Street / Biltmore Avenue traffic signal upgrade project constructed by Green Light Electric, Inc. and 2) authorize the City Manager to execute a change order in the amount of $10,799 to be paid to the contractor for additional paving required by the NCDOT.

RESOLUTION BOOK NO. 40 - PAGE 52
ORDINANCE BOOK NO. 32 - PAGE 178

H. RESOLUTION NO. 18-202 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY ADDITIONAL EASEMENT OVER A PORTION OF

CITY-OWNED PROPERTY AT 166 RESERVOIR ROAD TO CHRIS AND JESSICA LARSON FOR THE PURPOSE OF CREATING A DRIVEWAY TO A RESIDENTIAL LOT

Summary: The consideration of a resolution authorizing the City Manager to convey additional easement over a portion of City-owned property at 166 Reservoir Road to Chris and Jessica Larsen for the purpose of creating a driveway to a residential lot.

The City of Asheville owns real property at 166 Reservoir Road and the parcel is currently used for telecommunications purposes. The parcel is approximately 7.42 acres in size and is improved with two telecommunications towers and related buildings. There is a significant grade change between the land area used for telecommunications and the area of the property that meets McCauley Drive.

Chris and Jessica Larsen have purchased an adjoining vacant parcel that fronts McCauley Drive for a new home. The land area of their lot is too steep to accommodate a driveway within the existing lot footprint. Chris and Jessica Larsen requested and were granted an easement from the City in 2014 in order to create a driveway connection to McCauley Drive. That easement involved 473 square feet of permanent easement. The Larsen family paid for the easement, but due to the untimely demise of their attorney, the easement was never recorded. Their development plans were delayed, and in the interim, the City changed the location of the Beaucatcher Greenway.

In 2018, the Larsens are renewing their plans to build a residence on this property and have approached the City with a request for additional square footage to accommodate their driveway. City transportation and greenway staff have reviewed the revised easement request and are willing to support the additional permanent easement that is needed. The area of the easement is not currently being utilized by the City and presents no apparent conflict with future development of the Beaucatcher Greenway.

The additional easement area involves 171 square feet of additional City property as shown in the sketch provided in Exhibit A. The exhibit shows both the original easement and the additional amount being requested. A price per square foot was determined from the purchase price of the homesite owned by the Larsens. The cost of the additional easement area would be $370.00 plus a real estate processing fee of $180.00.

Pros:

- Modest amount of compensation for the property.
- The easement would not interfere with the operation of City-owned property including the Beaucatcher Greenway.

Cons:

- The City would be relinquishing additional square footage for future use.

The amount of revenue generated by the sale of the easement will be deposited into the General Fund.

Staff recommends that City Council approve a resolution authorizing the City Manager to convey the additional 171 square foot easement over a portion of City-owned property at Reservoir & McCauley Road for the purchase price of $370.00 to Chris and Jessica Larsen.

Councilwoman Mayfield disclosed that Chris and Jessica Larsen are her current neighbors but she has had no conversation with them regarding this easement.

Ms. Jan Howard Kubinek explained that a section by her house can never be widened, and that it would be good to have a neighbor.

RESOLUTION BOOK NO. 40 - PAGE 53

I. RESOLUTION NO. 18-203 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH DANNY'S DUMPSTER INC. FOR A TYPE III COMPOSTING FACILITY ON A PORTION OF CITY-OWNED LAND AT 80 HARDESTY LANE

Summary: The consideration of a resolution authorizing the City Manager to execute a lease agreement between the City of Asheville (City) and Danny's Dumpster Inc., for a Type III Composting Facility on a portion of City-owned land at 80 Hardesty Lane.

Danny's Dumpster, Inc. is a small business that serves as a commercial composting and food waste hauling company for area establishments such as restaurants, universities, hospitals, and government buildings. Since 2012, Danny's Dumpster has operated a compost processing facility on City-owned property at 80 Hardesty Lane to process food wastes and wood debris into a finished soil amendment -- compost. Onsite, Danny's Dumpster maintains three in-vessel composting containers, a food waste mixing container, covered storage areas for wood chips/debris and the finished compost product on approximately 5.5 acres. The use is regulated by the North Carolina Department of Environment and Natural Resources (NCEDQ) and is permitted as a Type III Composting Facility.

The existing lease expired on August 1, 2018, and is currently on a month-to-month tenancy. Danny's Dumpster has requested a new two-year lease with the City of Asheville to continue operations at this site. Danny's Dumpster has purchased a site in Leicester and has begun construction of a permanent facility, and the firm has requested two additional years with the City in order to successfully transition to the new location.

City Real Estate staff consulted with staff from Public Works, Solid Waste and Sustainability concerning this request and received support from these functions for the two-year lease, as follows:

- The Sustainability Officer noted that there are no other commercial composting businesses in the Asheville area and as the City continues its efforts to reduce waste from entering the landfill, Danny's Dumpster is the only service provider accepting organics. Currently, Danny's Dumpster accepts 2,340 tons of food/compostable waste per year and accepts 11,700 cubic yards of carbon waste such as wood chips or leaves.
- The manager of the City's solid waste function stated that diverting this amount of compostable waste extends the life of the Buncombe County landfill, which is both an economic and environmental benefit to the citizens of this community.
- The Public Works Department utilizes land adjacent to Danny's Dumpster for a beneficial fill site for inert materials such as concrete and asphalt. Public Works needs to expand this beneficial site into the area occupied by Danny's Dumpster, and is amenable to the two-year extension so long as the lease is terminated after the two-year period. Danny's Dumpster is willing to reduce the leased footprint to allow for the beneficial landfill site to expand within the two-year lease period.

The proposed lease has a term of two years with no renewals allowed. Danny Keaton, as the owner of Danny's Dumpster, has indicated to the Real Estate Division that he is transitioning his operation to one that is completely indoors. He has purchased land, equipment and technology in Leicester to convert his operation and he has requested 24 months to accomplish this transition. The lease can be terminated by either party with sixty days written notice.

The fair market rental rate is based on a capitalization rate of 5.5% for unimproved land and discounted because of accessibility issues and the absence of any infrastructure such as water or sewer. The market rate rental rate has been established at $1,437.00 per month and the tenant has agreed to pay this amount. This is based on the existing site and can be adjusted based on acreage if Danny's Dumpster reduces the lease footprint to allow use by the Public Works - beneficial landfill site (based on future needs of the Public Works Department).

It should be noted that a homeowner on Gashes Creek Road has filed a complaint with Danny Dumpster's NCDEQ as well as the City of Asheville about the odor emanating from the composting facility. Complaints of this sort are handled by the permitting agency and NCDEQ has informed Danny's Dumpster of this complaint. In response, Danny's Dumpster uses more carbon (wood chips, leaves) in the processing of food waste to reduce the odor. City staff visited Gashes Creek Road on a hot day in June and were unable to verify that a noxious smell was present in the neighborhood, however it is acknowledged that odor can vary due to temperature, wind, and rainfall.

Pros:

- This lease will support the local green economy.
- This lease contributes to solid waste reduction.
- The City will be receiving rental income.
- Additional area will be available for the beneficial landfill to expand.

Con:

- The operation can generate unpleasant odors during certain times of the year such as when the area gets heavy rains as indicated by the complaint that has been filed.

The General Fund will receive the rental income.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute a lease agreement with Danny's Dumpster for a Type III composting operation with a maximum term of two years.

RESOLUTION BOOK NO. 40 - PAGE 54

J. RESOLUTION NO. 18-204 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH APPALACHIAN PAVING AND CONCRETE FOR THE FISCAL YEAR 2019 CONCRETE MAINTENANCE PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $239,925 plus a contingency of 12.75% ($30,590) with Appalachian Paving and Concrete for the project known as Fiscal Year 2019 Concrete Maintenance Contract.

This contract will address a number of ADA issues throughout the City. A list of the proposed project was provided to Council.

The project was advertised on July 16, 2018, and bids were opened on August 9, 2018, with the following results:

Appalachian Paving and Concrete, Inc. of Swannanoa, NC	$239,925
Patton Construction Group of Arden, NC	$358,930

The low bid is within 2.3% of the engineers estimate.

A 12.75% contingency ($30,590) has been added to allow payment for any unforeseen costs that typically arise during construction.

Pros:

- Will correct a number of sidewalk issues throughout the City.
- Addresses pedestrian safety by providing the required sidewalk maintenance.

Con:

- Project management and contract administration will consume staff time.

Funding for this contract is in the Fiscal Year 2018-2019 budget. This funding is our annual pay-as-you-go sidewalk maintenance program and is not bond or debt funded.

City staff recommends City Council adopt the resolution awarding the contract to Appalachian Paving and Concrete Inc. and authorizing the City Manager to execute a contract in the amount of $239,925 plus a contingency of $30,590 (12.75%) for the FY 19 Concrete Maintenance and ADA Improvements Contact.

RESOLUTION BOOK NO. 40 - PAGE 55

K. RESOLUTION NO. 18-205 - RESOLUTION ACCEPTING MANCHESTER DRIVE AS A CITY STREET

Summary: The consideration of a resolution to accept Manchester Drive as a City street.

The engineer of record, Civil Design Concepts, for a recently completed 10-unit single-family residential community that is served by Manchester Drive in the Haw Creek area has offered this street for dedication to the City for public use on behalf of the developer.

Manchester Drive from Waters Road to its dead-end is a developer-constructed street that has an average width of 20 feet with grass shoulders, a length of 0.13 mile, and a right-of-way width of 50 feet. In addition, street lights are in place along the entire length of the street.

Transportation Department staff, Fire Department staff, Planning Department staff, and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The street provides access to residential properties.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept Manchester Drive as a City street.

RESOLUTION BOOK NO. 40 - PAGE 56

L. RESOLUTION NO. 18-206 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS SMATHERS LANE AND SETTING A PUBLIC HEARING FOR OCTOBER 9, 2018

Summary: The consideration of a resolution of intent to permanently close an unopened right of way known as Smathers Land and setting a public hearing on October 9, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Duke Energy, owner of parcel 9648-19-0490, has requested the City of Asheville to permanently close an unopened r/w known as Smathers Ln. A copy of this resolution of intent shall be sent by registered or certified mail to all property owners abutting the unnamed alley, not joining in the petition to close.

The Multimodal Transportation Commission reviewed this request at their May 23, 2018, meeting and recommended approval of the closure.

Pursuant to N.C. Gen. Stat. Sec. 160A-299, prior to closing the alley, the City Council must first adopt a resolution, declaring its intent to close the alley and calling a public hearing on the question. This resolution of intent shall be published once a week, for four successive weeks prior to the date of the hearing.

A copy of this resolution of intent shall also be sent by registered or certified mail to all [CH1] owners of property adjoining the alley, as shown on the county tax records. A copy of this resolution shall also be prominently posted, in at least two places, along the alley, to provide notice of the closing and public hearing.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unopened right of way known as Smathers Lane and set a public hearing on October 9, 2018.

RESOLUTION BOOK NO. 40 - PAGE 58

M. RESOLUTION NO. 18-207 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE AN UNNAMED RIGHT-OF-WAY LOCATED NEAR THE INTERSECTION OF HENDERSONVILLE ROAD AND SWEETEN CREEK ROAD AND SETTING A PUBLIC HEARING FOR OCTOBER 9, 2018

Summary: The consideration of a resolution of intent to permanently close an unopened right of way located near the intersection of Hendersonville Road and Sweeten Creek Road and setting a public hearing on October 9, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Dena Yamalis, owner of parcels 9654-40-6970 and 9654-40-6803, have requested the City of Asheville to permanently close an unopened r/w located near the intersection of Hendersonville Rd., and Sweeten Cr. Rd. In addition 2506 Hendersonville Rd LLC, owner of parcel 9654-40-6526, has been contacted and has consented to the closure. A copy of this resolution of intent shall be sent by registered or certified mail to all property owners abutting the unnamed alley, not joining in the petition to close.

The Multimodal Transportation Commission reviewed this request at their May 23, 2018, meeting and recommended approval of the closure.

Pursuant to N.C. Gen. Stat. Sec. 160A-299, prior to closing the alley, the City Council must first adopt a resolution, declaring its intent to close the alley and calling a public hearing on the question. This resolution of intent shall be published once a week, for four successive weeks prior to the date of the hearing.

A copy of this resolution of intent shall also be sent by registered or certified mail to all [CH1] owners of property adjoining the alley, as shown on the county tax records. A copy of this resolution shall also be prominently posted, in at least two places, along the alley, to provide notice of the closing and public hearing.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unopened right of way located near the intersection of Hendersonville Road and Sweeten Creek Road and set a public hearing on October 9, 2018.

RESOLUTION BOOK NO. 40 - PAGE 60

N. RESOLUTION NO. 18-208 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO AN AGREEMENT WITH THE CODE FOR AMERICA LABS INC. TO PARTICIPATE IN THE COMMUNITY FELLOWSHIP PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Code for America Labs, Inc. to participate in the Community Fellowship Program to enhance the State of Black Asheville by creating a shared tool for addressing the issues underlying racial disparity in Asheville.

The Code for America Community Fellowship program aims to strengthen the relationship between local Code for America Network leaders and their governments — to create conditions where change can "stick" and help transform government from the inside out.

Code for America (CfA) fellows will spend 3-6 months collaborating with government staff, researching user needs, meeting with key stakeholders, and improving service delivery to vulnerable populations. The product could be an early-stage application, an improved procurement, an open data release, or other project that improves the delivery of a government service or function, at a fraction of the cost if the City government were to take on this project alone. The process will act as a vehicle for driving cultural and structural change inside of government — encouraging innovation, reducing risk by involving users early, and increasing capacity for serving the public.

As proposed and accepted, the City of Asheville is a partner in the CfA Community Fellowship Program in Asheville. As part of this program, the City of Asheville is collaborating with two CfA fellows, who are working as independent contractors, to update and enhance the State of Black Asheville website to incorporate more data-driven functionality, including visualizations built on open data, that is accessible to all stakeholders, particularly members of the community.

CfA will provide mentorship, project management and training for two fellows working as independent contractors. The fellows will travel to San Francisco for meetings and the majority of their work will be performed in Asheville. The fellows will develop the tool on their own, without direction from CfA, building out data-driven enhancements for the criminal justice focus area of the State of Black Asheville. Using data gathered from the City and other sources they will create a shared tool for addressing the issues underlying criminal justice racial disparities in Asheville. An additional feature is to engage community to ensure the tool makes disparity data more accessible to those interested in change at the policy, practice and budget level.

This tool will be developed according to what the fellows determine is the best possible methods for disseminating the collected information. This could be a webpage with a dashboard, an application, and/or it could connect to an existing City application such as SimpliCity.

The request for approval for the CfA Community Fellowship Agreement is scheduled for consideration by the Finance and Human Resources Committee on August 28, 2018, and pending Finance and Human Resources Committee approval it will be considered by Council.

Pros:

- Demonstrates City Council Vision 2036 value as a municipal government connected and engaged to community.
- Creates new accessibility to criminal justice racial disparities data for the community and for systems to embark on eliminating said disparities

Cons:

- None identified.

The direct cost of this agreement is $10,000 plus expenses, not to exceed $11,000, which is included in the Information Technology Services Department adopted FY 2018-19 budget. There will also be indirect costs associated with staff time for the Director of Equity & Inclusion, and staff time for the Digital Services Architect. Code for America will invest approximately $80,000 in direct costs for this community project.

Staff recommends City Council approve an agreement authorizing the City Manager to partner with Code for America Community Fellowship.

RESOLUTION BOOK NO. 40 - PAGE 62

O. RESOLUTION NO. 18-209 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS UNDER THE EXECUTIVE OFFICE

OF THE PRESIDENT, OFFICE OF NATIONAL DRUG CONTROL POLICY FOR THE HIGH INTENSITY DRUG TRAFFIC AREA 2017 GRANT

ORDINANCE NO. 4690 - BUDGET AMENDMENT FOR THE OFFICE OF NATIONAL DRUG CONTROL POLICY'S HIGH INTENSITY DRUG TRAFFIC AREA 2017 GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to accept grant funds under the Executive Office of the President, Office of National Drug Control Policy; and (2) a budget amendment in the City's Special Revenue Fund in the amount of $25,000 for the Office of National Drug Control Policy's High Intensity Drug Traffic Area (HIDTA) 2017 grant in which the Asheville Police Department (APD) serves as the fiduciary for the Asheville Area HIDTA Task Force.

The mission of the HIDTA program - authorized by the Anti-Drug Abuse Act of 1988 and administered by the Office of National Drug Control Policy - is to reduce drug trafficking in the most critical areas of the county, thereby reducing the impact of illegal drugs in other areas. Asheville has for many years been designated as a HIDTA site. Asheville's HIDTA serves as a key drug trafficking reduction effort, critically positioned between the Atlanta HIDTA and the Appalachia HIDTA.

The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County sheriff's Office, Henderson County Sheriff's Office and McDowell County sheriff's Office. The Asheville HIDTA is a component of the Asheville DEA Task Force. The HIDTA task force primarily concentrates on high volume, high value drug trafficking. As an example, the task force was recently involved in a case involving the large seizure of controlled substances from persons with local and National ties, involved in the trafficking of narcotics in this region and beyond.

The City of Asheville serves as the partial fiduciary for the Asheville HIDTA and has recently agreed to expand this service to include all program expenses. The allotted funds from the Federal government will be used for investigative purposes and other program expenses including employee overtime, mobile phones and miscellaneous supplies. The expenditure of all funds are tracked and audited by both local and Federal authorities.

This modification of $25,000 is an increase to the original award of $22,335 for a new total of $47,335 which reflects the increased fiduciary responsibility assumed by APD.

Pros:

- Federal HIDTA funds will be used for investigative purposes and program expenses.
- Continue to foster partnerships with Federal and local law enforcement agencies.

Con:

- Funding from the Office of National Drug Control Policy is awarded annually.

There is no impact to the City's General Fund Budget.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept grant funds under the Executive Office of the President, Office of National Drug Control Policy; and (2) a budget amendment to accept grant funds in the amount of $25,000 through the Office of National Drug Control Policy to modify the HIDTA 2017 Grant.

RESOLUTION BOOK NO. 40 - PAGE 63
ORDINANCE BOOK NO. 32 - PAGE 180

P. RESOLUTION NO. 18-210 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO CONTRACTS/SUPPLEMENTAL AGREEMENTS WITH WITHERSRAVENEL, INC. FOR PROFESSIONAL ENGINEERING SERVICES PURSUANT TO A MASTER AGREEMENT

Summary: The consideration of a resolution authorizing the City Manager to continue entering into a professional services contracts in individual amounts not to exceed $90,000, with WithersRavenel, Inc. for design and engineering professional services under an existing Master Services Agreement.

The staff requires design and civil engineering services for various tasks to complete projects throughout the City. These tasks, may include but are not limited to, civil design, flood study and certification, geotechnical work, survey and construction engineering services. On-call services are a way for the City to quickly, efficiently and effectively respond when engineering services are required. On-call services are also allowed in the State of North Carolina and are used across the State as a best practice for securing these services.

In order to secure firms to perform this work, the City must follow a qualifications-based procurement process. A Request for Qualifications for these services, on an on-call basis, was published on February 22, 2018. In response to the Request for Qualifications, the following twelve (12) firms submitted packages:

WithersRavenel	Wetherill Engineering
Vaughn & Melton	SEPI Inc.
Michael Baker & Assoc	McGill & Associates
Mattern & Craig	Kimley Horn
Gresham Smith Partners	Clark Patterson Lee
Clark Nexsen	Civil & Environmental Consultants Inc.

The review team utilized a scoring matrix to assess the qualifications of the proposed firms. The firm with the highest score was WithersRavenel, Inc. Based upon the qualifications-based selection process, which identified WithersRavenel as the most qualified firm to perform this work, the City entered into a no cost contract (i.e. Master Agreement) with the intent of entering into individual supplemental agreement contracts to perform specific activities and distinct work. Staff anticipates that services rendered through these individual contracts cumulatively under this agreement will exceed $90,000. Although not required, staff is seeking confirmation from City Council that they are willing to continue the use of this practice and authorize this work to continue.

The continued use of this on-call contract will involve identification of projects which require engineering services. Upon identifying these projects, staff will negotiate a scope of work and fee for services based on the contracted cost framework and specific project needs. The duration of these on-call service contracts will be for an initial term of two years with an option to renew for up to three additional one-year periods. If a contract individually exceeds the City Manager's approval threshold of $90,000, staff will bring this contract to City Council for individual approval. All contracts below this threshold will be authorized by the City Manager based upon

the completion of the Qualifications Based Selection Process as explained previously in this memo and City Council approval of this resolution .

Pros:

- A well-qualified firm will perform services in support of design services and engineering needs.
- These services will be available to support various programs and projects within the City's portfolio, including capital improvement projects, facilities construction and renovation projects.

Con:

- None identified.

Supplemental agreements for specific projects will be awarded based on existing budget plans for those projects.

Staff recommends City Council adopt a resolution authorizing the City Manager to continue entering into a professional services contracts with WithersRavenel, Inc. for design and engineering professional services under the on-call services Master Agreement described herein.

RESOLUTION BOOK NO. 40 - PAGE 64

Q. RESOLUTION NO. 18-211 - RESOLUTION AUTHORIZING THE PURCHASING MANAGER TO DISPOSE OF SURPLUS CITY-OWNED PERSONAL PROPERTY VALUED AT $30,000 OR MORE

Summary: The consideration of a resolution authorizing the sale of one (1) 2008 Sterling LT9500 Dump Truck deemed surplus City personal property.

The City's Water Resources Department -- Maintenance Division, identified a 2008 Sterling LT9500 Dump Truck as surplus personal property, with no anticipation of utilization by the City. Pursuant to N.C.G.S. §160A-266, the Sale and Disposal of Personal Property valued at $30,000 or more must be approved by City Council. The City's Purchasing Manager has authority to dispose of personal property valued at less than $30,000 by private negotiation and sale. The estimated wholesale value of the 2008 Sterling LT9500 Dump Truck is listed at $40,000+, $1000 - $10,000 above wholesale, depending on condition. Bids were solicited and received from several potential purchasers. The final bid amount at the close of the auction on Sunday, July 22, 2018, was $49,100. City Council is being asked to approve the sale of the Dump Truck for $49,100.

Pros:

- Promotes City of Asheville fiscal responsibility of disposing of surplus property which generates revenue
- Space utilization eliminates the need to store large, unused equipment
- Competitive process yielded market price

Con:

- None

The dump truck is fully depreciated and the Water Resources Fund will recognize the entire $49,100.00 as revenue from the sale of assets.

City staff recommends City Council adopt a resolution approving the sale of the 2008 Sterling LT9500 Dump Truck to the prospective purchaser for the amount of $49,100.

RESOLUTION BOOK NO. 40 - PAGE 65

R. **RESOLUTION NO. 18-212 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY CUP**

RESOLUTION NO. 18-213 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE GOOMBAY FESTIVAL

RESOLUTION NO. 18-214 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE FARM TO VILLAGE DINNER

RESOLUTION NO. 18-215 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BREWGRASS FESTIVAL

RESOLUTION NO. 18-216 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE OKTOBERFEST

Summary: The consideration of a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Beer City Cup, Goombay Festival, Farm to Village Dinner, Brewgrass Festival, and Asheville Oktoberfest.

- WNC Soccer Foundation has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Beer City Cup and allow for consumption at this event.

  The Beer City Cup will be held on Sunday, September 2, 2018, from 9:00 a.m. to 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

- YMI Cultural Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Goombay Festival and allow for consumption at this event.

  The Goombay Festival will be held on Friday, September 7, 2018, from 5:00 p.m. to 10:00 p.m., Saturday, September 8, 2018, from 10:00 a.m. to 10:00 p.m. and Sunday, September 9, 2018, from 12:00 p.m. to 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Historic Biltmore Village Association via Manna Food Bank has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Farm to Village Dinner and allow for consumption at this event.

  The Farm to Village Dinner will be held on Thursday, September 6, 2018, from 6:00 p.m. to 9:00 p.m. within the boundaries of Boston Way as per the area limits referenced on the accompanying site map.

- Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Brewgrass Festival and allow for consumption at this event.

  The Brewgrass Festival will be held on Saturday, September 15, 2018, from 12:00 p.m. to 6:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

- Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Asheville Oktoberfest and allow for consumption at this event.

  Asheville Oktoberfest will be held on Saturday, October 6, 2018, from 1:00 p.m. to 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for WNC Soccer Foundation, YMI Cultural Center, Historic Biltmore Village Association, Asheville Brewers Alliance, and Asheville Downtown Association

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Beer City Cup, Goombay Festival, Farm to Village Dinner, Brewgrass Festival, and Asheville Oktoberfest.

RESOLUTION NO. 18-216 - RESOLUTION BOOK NO. 40 - PAGE 78

S. RESOLUTION NO. 18-217 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION FROM BUNCOMBE COUNTY AND CONNECT BUNCOMBE TO BE APPLIED TOWARDS THE LOCAL MATCH FOR THE NORTH RIVER ARTS DISTRICT GREENWAY PROJECT

ORDINANCE NO. 4691 - BUDGET AMENDMENT FOR DONATION FROM BUNCOMBE COUNTY AND CONNECT BUNCOMBE FOR THE NORTH RIVER ARTS DISTRICT GREENWAY PROJECT

Summary: The consideration of 1) a resolution to accept a combined $40,000 donation from Buncombe County ($20,000) and Connect Buncombe ($20,000) for the North River Arts District (RAD) Greenway; and 2) a budget amendment in the City's Special Revenue Fund in the amount of $300,000 to budget the $20,000 donation from Buncombe County, the $20,000 donation from Connect Buncombe, the City's contribution of $20,000 from City Manager's Contingency, and $240,000 in grant funding from the Surface Transportation Block Grant - Direct Attributable (STBGDA) grant to setup the project for the North River Arts District Greenway.

In 2016, Buncombe County applied for and was awarded a $300,000 Surface Transportation Block Grant - Direct Attributable (STBGDA) grant to be used for the preliminary engineering phase for the North RAD Greenway project from Hill Street to SR 1781 (Broadway), a total distance of about 1.1 miles. This project is identified in the 2018-2027 State Transportation Improvement Program as EB-5822 with a total project cost of $300,000 for Federal FY 2018. In 2017, Buncombe County approached the City asking if we would be interested in administering and managing the project. The City agreed to accept that role and the required $60,000 local match is being provided equally by the City, Buncombe County, and Connect Buncombe.

The Finance & Human Resources Committee reviewed this action on July 24, 2018 and recommended that it move forward to City Council for review and approval.

Pros:

- The grant will enable the preliminary engineering phase to proceed on an important greenway connection.
- Buncombe County and Connect Buncombe will provide $20,000 each towards the required local match.

Con:

- The City is responsible to provide $20,000 of the required local match.

The City has budgeted the $20,000 in the FY 2019 general fund budget as part of the City's Manager Contingency; and the donated funds from Buncombe County and Connect Buncombe will provide the balance of the required local match.

Staff recommends that City Council approve: 1) a resolution to accept a combined $40,000 donation from Buncombe County ($20,000) and Connect Buncombe ($20,000) and to authorize the City Manager to execute any documents necessary to accept such funding; and 2) a budget amendment in the City's Special Revenue Fund in the amount of $300,000 to budget the $20,000 donation from Buncombe County, the $20,000 donation from Connect Buncombe, the City's contribution of $20,000 from City Manager's Contingency, and $240,000 in grant funding from the Surface Transportation Block Grant - Direct Attributable (STBGDA) grant to setup the project for the North River Arts District (RAD) Greenway.

RESOLUTION BOOK NO. 40 - PAGE 81
ORDINANCE BOOK NO. 32 - PAGE 182

T. RESOLUTION NO. 18-218 - RESOLUTION REVISING THE EXISTING POLICY FOR THE NAMING OF PUBLICLY OWNED PROPERTIES TO INCLUDE THE DEDICATION OF INFRASTRUCTURE (PUBLIC STREETS AND BRIDGES) WITHIN THE PUBLIC RIGHT-OF-WAY

Summary: The consideration of a resolution revising the existing policy for the naming of publicly owned properties.

City Council approved a resolution adopting a policy for the naming of publicly owned properties on March 25, 2014 via resolution # 14-55. The policy includes the naming of public property such as buildings, parks, squares, and greenways that exist on city-owned property but it does not include infrastructure (public streets and bridges) within the public right-of-way.

Transportation Department staff and Asheville Police Department staff took the lead role in developing a policy for dedicating portions of City streets and bridges. The N.C. Dept. of

Transportation (NCDOT) has a street and bridge naming policy and the City's proposed policy is patterned after their policy.

The revised policy includes a section for the dedication of municipal streets and bridges within the public right-of-way. In addition to the Police Department, the revised policy has been reviewed and endorsed by the Public Works Department, the Fire Department, and the Water Department.

The PED Committee reviewed this action on July 23, 2018, and recommended that it move forward to City Council for review and approval.

Pro:

- Expands the written policy to include infrastructure (public streets and bridges) within the public right-of-way

Con:

- There are no known negative impacts.

The only known cost would be the material, fabrication and installation cost of the signs and that cost would be included in the Transportation Department annual operating budget.

Staff recommends that City Council adopt a resolution revising the existing policy for the naming of publicly owned properties to include infrastructure (public streets and bridges) within the public right-of-way.

RESOLUTION BOOK NO. 40 - PAGE 82

U. ANNOUNCEMENT OF THE SETTLEMENT OF THE JOHNNIE RUSH LAWSUIT

Summary: A Settlement and Release Agreement was executed by the City and Johnnie Jermaine Rush on August 3, 2018. The terms of the agreement provide that the City will pay a total of six hundred and fifty thousand dollars ($650,000.00) in exchange for a release of claims Mr. Rush could assert against the City related to events on August 24-25, 2017.

V. RESOLUTION NO. 18-219 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT TO A CONSTRUCTION MANAGER AT RISK AGREEMENT WITH J. BRADLEY CONTRACTING INC. FOR THE CONSTRUCTION OF THE U.S. CELLULAR CENTER RENOVATION & HVAC PROJECTS

Summary: The consideration of a resolution authorizing the City Manager to execute a contract amendment to a Construction Manager at Risk Agreement (CMAR) with J. Brady Contracting, Inc. in the amount of $536,135 for the construction of the U.S. Cellular Center Renovation & HVAC Projects (Press/Meeting Room and Storage Phase).

The City Council's adopted budget for the 2016-17 fiscal year included a Capital Improvements project for the U.S. Cellular Center that is partially funded by 2016 Tourism Product Development Fund (TPDF) grant for $1,500,000. The project provides flexible theater seating in the arena, a sound and lighting package, and converts a storage room into a press/meeting room; additional supporting projects include the expansion of storage for the displaced room, and modernization of the building's 1970's era HVAC system. These improvements will increase the venue's capacity, capabilities, and will reduce operational costs that will enable it to expand the type and frequency of events that the venue can host. The facility renovation and HVAC

modernization components of this project are managed by the General Services Department, in coordination with the U.S. Cellular Center.

Due to timing and need, the press/meeting room and storage expansion projects will be constructed first, in preparation for scheduled events; the HVAC modernization project will begin when event scheduling and weather are optimal for off-season replacement of cooling and heating equipment.

On January 23, 2018, the General Services Department issued a Request for Qualifications for a Construction Manager at Risk (CMAR) for the U.S. Cellular Center Facility Renovation and HVAC Modernization Projects. The services provided by the CMAR include preconstruction services (including cost estimation, value engineering, public bidding, and minority business outreach) and construction management services.

In response to the Request for Qualifications, the department received seven responsive submittals on February 14, 2018. The companies responding were:

1. American South General Contractors (Sanford, NC)
2. Brantley Construction Company (Weaverville, NC Office)
3. Harper Corporation (Greenville, SC)
4. Hickory Construction Company (Hickory, NC)
5. H&M Constructors (Asheville, NC)
6. J. Brady Contracting (Greensboro, NC)
7. Vannoy Construction (Asheville, NC Office)

Following a review of qualifications by City staff and the Program Manager, J. Brady Contracting, Inc. was selected as the most qualified firm for this project. The City Manager awarded the preconstruction services contract to J. Brady Contracting, Inc. in the amount of $67,000 on May 14, 2018. After months of work with designers and City staff, and in accordance with the requirements of N.C.G.S 143-128.1(c), the City and CMAR publicly bid the Press/Meeting Room and Storage Renovation Phase. The negotiated fee for this additional work requires a contract amendment in the amount of $536,135, and the resulting total contract amount will be $603,135 for consideration by City Council.

Pros:

- Improve the venue's ability to host a wider range of events.
- Reduce energy consumption and operational costs at the U.S. Cellular Center.
- Leverage grant funding in partnership with the Buncombe County Tourism Development Authority.

Con:

- None.

The funding needed for this agreement is currently allocated within the TPDF Theater Project (C1701) in the Capital Improvement Program (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a contract amendment to the construction manager-at-risk contract with J. Brady Contracting, Inc., for the guaranteed maximum price of $536,135 for construction services for the U.S. Cellular Center Facility Renovation & HVAC Modernization Project (Press/Meeting Room Conversion and Storage Renovation Phase), which yields a total contract amount of $603,135.

RESOLUTION BOOK NO. 40 - PAGE 86

W. RESOLUTION NO. 18-220 - RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ASHEVILLE, NORTH CAROLINA, DIRECTING THE APPLICATION TO THE LOCAL GOVERNMENT COMMISSION FOR APPROVAL OF A WATER REVENUE BOND ANTICIPATION NOTE AND CERTAIN RELATED MATTERS

Summary: The consideration of a resolution authorizing and directing the Interim City Manager and Chief Financial Officer, with advice from the City Attorney and Bond Counsel, to pursue and negotiate on behalf of the City debt financing for capital projects associated with the City's water system with a draw program that includes the issuance of interim Water Revenue Bond Anticipation Note ("Water BAN") in an amount not to exceed $40,000,000.

The City has reimbursement resolutions for Council approved capital projects associated with the City's water system authorized as part of the FY 2019 Budget. The interim Water BAN draw program will reimburse the City for costs incurred to date for those projects and allow the City to complete many of the projects. Upon completion, these projects will be permanently financed through longer-term Water Revenue Refunding Bonds.

The resolution authorizes the Interim City Manager and Chief Financial Officer to proceed and negotiate an interim Water BAN financing on behalf of the City. The resolution also authorizes the Chief Financial Officer to provide information to and seek necessary approvals from the LGC for such financing and to retain assistance from bond counsel and financial advisors as she deems necessary to carry out the transaction and makes certain findings required by the LGC to support the City's application to the LGC. Such program will be in accordance with the provisions of The State and Local Government Revenue Bond Act of the General Statutes of North Carolina.

Pro:

- Allows the City to move forward with capital projects associated with the City's water system and Draw Program financing.

Con:

- None noted.

The interim Water BAN draw program includes an amount not to exceed $40,000,000. The annual debt service payments for this financing depend ultimately on the timing of the loan draws over the course of an approximate two year period and will be estimated following responses from the considered banks. The annual debt service estimates will be included in the Staff Report provided for the September 25, 2018 City Council meeting.

Staff recommends that City Council approve the resolution as it is proposed.

At the request of Councilman Kapoor, Director of Finance and Management Services Barbara Whitehorn explained the requested resolution.

RESOLUTION BOOK NO. 40 - PAGE 87

X. MOTION TO SET A PUBLIC HEARING ON SEPTEMBER 11, 2018, TO RENAME A 500' SECTION OF RIVERSIDE DRIVE TO RIVER ARTS PLACE

Summary: The consideration of a motion setting a public hearing on September 11, 2018, to consider a street name change to rename a 500' section of "Riverside Drive" to "River Arts Place."

A portion of Riverside Drive is slated for realignment with major enhancements detailed in the River Arts District Transportation Improvement Plan (RADTIP). The realignment of streets and the construction of a new roundabout at the Lyman St intersection will reroute a newly constructed section of Riverside Drive to the west. It is the approximate 500' section remnant of existing Riverside Drive proposed to be renamed as River Arts Place. Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing advertised with state open meeting laws. The Notice will be posted prominently on each end of the street, published at least once in a newspaper and mailed to all property owners adjoining the affected right-of-way.

The Public Safety Committee reviewed the request at their July 2, 2018, meeting and recommended to change the name of a section of Riverside Drive to River Arts Place.

Pro:

- Potential emergency response enhanced with a specific unique street name.

Con:

- Cost and labor of replacing two street name signs.

Material, fabrication and installation costs of the new street signs is included in the Transportation Department annual operating budget.

City staff recommends City Council adopt a motion authorizing the City Manager to set a public hearing on September 11, 2018, to change the name of a section of Riverside Drive to River Arts Place.

Y. RESOLUTION NO. 18-221 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION OF PROPERTY LOCATED OFF OF SOUTHCLIFF PARKWAY FROM MRECV SOUTHCLIFF LM LLC

Summary: The consideration of a resolution authorizing the City Manager to accept the conveyance of real property located off of Southcliff Parkway (portion of PIN # 9677-75-3989, associated easements and rights-of-way) from MRECV Southcliff LM LLC.

As part of the infrastructure to support the Southcliff Community located in Fairview, a water tank and associated water lines were constructed by the developers to serve the community. Once constructed, the Water Resources of the City of Asheville inspects the improvements and incorporates the improvements in to the water system through a formal acceptance of the property. The infrastructure and real property proposed for acceptance is as follows: 0.21 acres of real property, improved with a water tank; 20 ft wide easement and associated water lines; and a 45' wide road right-of-way to be combined with the Southcliff right-of-way road system.

Pro:

- Acceptance of the property will allow for City maintenance and long-term ownership of the water improvements.

Con:

- None noted

There will be no fiscal impact to the City as the subject property is being donated at no cost.

City staff recommends that City Council adopt the resolution authorizing the City Manager to accept the conveyance of real property located off of Southcliff Parkway from MRECV Southcliff LM LLC.

RESOLUTION BOOK NO. 40 - PAGE 90

Z. RESOLUTION NO. 18-222 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR GRANT FUNDS THROUGH THE US OFFICE OF JUSTICE FOR THE EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE 2018 GRANT, AND IF AWARDED, ENTER INTO SAID AGREEMENT

ORDINANCE NO. 4692 - BUDGET AMENDMENT FOR THE EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE 2018 GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to apply for funds through the US Office of Justice, Edward Byrne Justice Assistance 2018 Grant – Local Solicitation, and if awarded, enter into said agreement; and (2) a budget amendment, in the amount of $58,235.

The City of Asheville Police Department (APD) requests authorization to apply for the Byrne JAG – Local Solicitation and if awarded, to enter into said agreement. This is a predetermined amount of funds based on the Part I Uniform Crime Reporting Crimes. The Asheville Police Department and Buncombe County Sheriff's Office will be allocated $58,235 based on the award matrix, with the City of Asheville receiving $46,494 and Buncombe County receiving $11,741. The distribution of funds will be approved through a signed Memorandum of Understanding.

APD proposes to use JAG funds to purchase an Interview Recording Platform. This system will allow for the recording, organizing and streaming of crucial interviews. An interview recording platform will allow APD to capture video of witness and suspect interviews, tag it with descriptive metadata, and automatically transfer it to an appropriate storage system. The platform will be a full interview room video solution that provides critical, defensible evidence for the prosecution.

The Buncombe County Sheriff's Office proposes to use JAG funds to purchase duty weapons and issue them to deputies for use in various assignments from Patrol to School Resource Officers to SWAT members. These roles are vital in protecting the community. It is necessary that a law enforcement agency have duty weapons on hand to issue to officers as needed for training and for individual assignments. The weapons requested are items that will be needed over the next fiscal year that were not included in their normal operating budget.

This is a 100% funded non-local match grant. The application due date was August 22, 2018 and it was submitted on August 13, 2018.

The request for the budget amendment will be presented to the Finance and Human Resources Committee on August 28, 2018, and any response other than unanimous approval to move to the full City council will be noted at that meeting.

Pros:

- Offers stronger evidence for prosecutors, boosting prosecution records on appeal and resulting in fewer pre-trial motions.

· To increase the ability to capture and protect crucial video interview evidence and protects officers from claims of abuse, coercion or perjury.

Cons:

· None

There is no local match required.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to apply for funds through the US Office of Justice, Edward Byrne Justice Assistance 2018 Grant – Local Solicitation, and if awarded, enter into said agreement; and (2) a budget amendment, in the amount of $58,235.

RESOLUTION BOOK NO. 40 - PAGE 91
ORDINANCE BOOK NO. 32 - PAGE 184

AA. ORDINANCE NO. 4693 - ORDINANCE TO ENACT A 25 MPH SPEED LIMIT ON HAZEL MILL ROAD FROM SR 1332 (LOUISIANA AVENUE) TO US 19-23-74A (PATTON AVENUE) AND MARTIN LUTHER KING DRIVE FROM SR 3284 (SOUTH CHARLOTTE STREET) TO US 70-74A (COLLEGE STREET) AND A 30 MPH SPEED LIMIT ON NORTH BEAR CREEK ROAD FROM US 19-23-74A (PATTON AVENUE) TO OLD COUNTY HOME ROAD

Summary: The consideration of an ordinance to enact and/or change the speed limits on various sections of streets in the City of Asheville.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses. Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed traffic engineering investigations and determined that a 25 mph speed limit on Hazel Mill Road from SR 1332 (Louisiana Avenue) to US 19-23-74A (Patton Avenue) and Martin Luther King drive from SR 3284 (South Charlotte Street) to US 70-74A (College Street) would be reasonable and safe. In addition, City staff recently completed a traffic engineering investigation and determined that a 30 mph speed limit on North Bear Creek Road from US 19-23-74A (Patton Avenue) to Old County Home Road would be reasonable and safe.

This action aligns with the 2036 Council Vision in the Transportation and Accessibility area by creating safe and convenient access to jobs, health, education, and recreation opportunities.

Pros:

- City staff has been able to respond favorably to citizen's requests.
- The new speed limits will be consistent with roads of like character and design.
- Based on the 85th percentile speeds, most drivers would adhere to the recommended speed limits on these roads.

Con:

- None.

The initial cost to install the appropriate speed limit signs is about $1,000 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance enacting a 25 mph speed limit on Hazel Mill Road from SR 1332 (Louisiana Avenue) to US 19-23-74A (Patton Avenue) and Martin Luther King drive from SR 3284 (South Charlotte Street) to US 70-74A (College Street) and a 30 mph speed limit on North Bear Creek Road from US 19-23-74A (Patton Avenue) to Old County Home Road.

ORDINANCE BOOK NO. 32 - PAGE 186

BB. RESOLUTION NO. 18-223 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH J. BARTHOLOMEW CONSTRUCTION LLC FOR THE RECREATION PARK POOL PUMP HOUSE RETAINING WALL PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a Construction Agreement with J. Bartholomew Construction, LLC for the amount of $138,537 to execute the scope of work per IFB # 298-18-GS-RecParkWall.

The project will replace an old concrete ramp and retaining wall at the Recreation Park Pool Pump House that is currently stabilized by a retrofitted steel bracing structure. The ramp area will be filled with compacted soil to the level of the pool deck to provide an expanded grassy area for the users of the pool facilities.

On June 4, 2018, the General Services Department issued an Invitation for Bids for Construction Services at the Recreation Park Pool Pump House at 69 Gashes Creek Road. The contract includes the construction of a retaining wall plus associated grading and drainage. In response to the solicitation, the department received two submittals on June 28, 2018. The companies responding were:

	Company	Location	Bid Amount
1.	J. Bartholomew Construction, LLC	Hendersonville, NC	$138,537
2.	Patton Construction Group, Inc	Asheville, NC	$220,750

The lower bid was submitted by J. Bartholomew Construction in the amount of $138,537. A 10% contingency on construction in the amount of $13,854 will be added to the project budget, for a total project budget of $152,391.

Pros:

- The new construction will provide a safer condition for the patrons of the pool facility.
- A new lawn will be provided for the enjoyment of the users of the pool.
- The retaining wall will enclose the pump house lower and upper levels. The enclosed space may be used for storage and reduce the chance of vandalism in this area.
- The work is scheduled to be completed after the pool season is completed and will not interrupt the public services provided by the pool.
- The work will replace a sidewalk that serves the adjacent playground and as a walkway to parking.

Con:

- During the improvements, some modest disruption will be seen in the visitor experience at the adjacent playground.

Funding for this contract will come from the Swimming Pools Capital Improvement Project that was already approved as part of the City's existing Capital Improvement Program (CIP).

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Contract Agreement with J. Bartholomew Construction, LLC for the amount of $138,537 for the construction of a retaining wall at the Rec Park Pool Pump House.

RESOLUTION BOOK NO. 40 - PAGE 92

CC. RESOLUTION NO. 18-224 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUPPORT THE RIVERFRONT DEVELOPMENT GROUP APPLICATION TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY TDA FOR GRANT FUNDING OF CAPITAL PROJECTS ON CITY LAND OWNED/LEASED, AND TO COMMIT TO CONSIDER AN ALLOCATION OF $250,000 AS PART OF THE FISCAL YEAR 2019-20 CAPITAL BUDGET FOR PHASE I OF THE PROJECT

Summary: The consideration of a resolution authorizing the City Manager to support the Riverfront Development Group (RDG) application to the Buncombe County TDA for grant funding of capital projects on City owned or managed property and to commit to consider an allocation of $250,000 as part of the Fiscal Year (FY) 2019-20 Capital Budget for Phase I of the project.

In 2014, Asheville City Council and the Buncombe County Board of Commissioners determined that it was in the public interest to establish a commission to discover, develop, promote and implement projects and programs to recognize African American history in Buncombe County. This resulted in the formation of the African American Heritage Commission.

In 2016, to support this commission's purpose, staff from both the City and County Parks and Recreation Departments began working with the Stephens-Lee Alumni Association to publicly display artifacts from their archives in the Center. The purpose of that project is to support the Alumni Association and honor graduates of Stephens-Lee.

In 1999, with the support of the Alumni Association and the East End Neighborhood Association, the City was able to secure a PARTF Grant for major renovations to make improvements to the community recreational facility in the East Central Park District. The City's partnership with both of these organizations began in the 1980s as part of the development of MLK Park.

Supporting the Riverfront Development Group (RDG) could build on the successful relationship that the City has with the Alumni Association, the East End Neighborhood Association, and the Tourism Development Authority to acknowledge and recognize the past achievements of the African American community by supporting a pathway to raise funds for the following initiatives:

- Naming and marking with signage an African-American Heritage and Cultural District along a course running from the historic area known as The Block to the historic East End and along present-day South Slope, into Southside, and to the present-day River Arts District, and;

- Renovations to the site of the former Stephens-Lee High School for a Stephens-Lee African American History Museum.

In the short term, RDG is proposing to raise funds to implement the first phase of these projects.

If City Council adopts and authorizes the resolution of support, the following (and potentially others) are key community partners that will be involved in the implementation of the projects.

Alumni Association - The Stephens-Lee Alumni Association has celebrated a total of 23 reunions as an organization. While each individual class celebrates their own yearly reunion, the Alumni Association is the link between all of the the graduating classes. President Sarah Roland Hart.

East End Neighborhood Association - The East End / Valley Street Neighborhood Association represents the oldest African-American neighborhood in Asheville. Seeking to generate pride and participation in their neighborhoods and city. President Renee' White.

The Riverfront Development Group (RDG) - A 501(c)(3) corporation whose president is Catherine Mitchell. RDG has submitted a TPDF application to support a variety of African American History Projects; the Phase I Scope of Work below is based on her TPDF application.

Phase I Scope of Work

1. Upfit a section of the Stephens-Lee Recreation Center for the purposes of creating the Stephens-Lee African-American History Museum and Arts Center, to include the following:
    a. Upfit to the back third of the first floor corridor at the Stephens-Lee Recreation Center as part of the Stephens-Lee Museum
    b. Upfits that support the use as an event space, including event lighting in the second floor gymnasium and upfit of the kitchen to standards where it can be used for catering/food service.
    c. Upfit to the Alumni room as part of the Stephens-Lee Museum
    d. Potential renovation of a portion of the multi-purpose room or the after school room as an extension of the museum.
    e. Adding museum signage to the existing Stephens-Lee/Parks and Recreation identification sign

2. Installation of African-American Heritage Trail signage on City owned or leased property to include the following:
    a. Community overview sign: at Triangle Park
    b. A peek at the business district's past: at the north west corner of South Charlotte Street and Beaumont
    c. The neighborhood store: at the corner of Max and S. Charlotte Street
    d. The role of churches in the African-American neighborhood: on the west side of Max street near the intersection of old Max Street.
    e. The completed Trail would include approximately 19 installations along the route of the entire District, with opportunity for collaboration, especially with the City's Greenway plan, and requiring staff-level review of requests for each proposed location on City owned or leased property or City rights of way.

Considerations

If Council chooses to approve this request, staff would recommend that Council approve with the following recommendations:

- RDG coordinates with the Stephens-Lee Alumni Association and include other community stakeholders to create a shared vision for the design of the Museum and Arts Center.
- The program will be subject to a coordinated planning and assessment process that will help determine the feasibility of the various phases of the program, including the design, construction, and future uses of the facility.
- The vision and design scope of the project must be approved by the African American Heritage Commission, Recreation Advisory Board, Historic Resources Commission, and the Planning and Economic Development (PED) Committee of City Council.
- Staff relocate programs and services that will be impacted.
- A Memorandum of Agreement be developed between the City, RDG, Stephens-Lee Alumni Association, and the East End Neighborhood Association that outlines the scope of the project, timeline, roles and responsibilities, design, approval, construction processes, and maintenance responsibilities.

This proposal supports Council's 2036 Vision to develop an Equitable and Diverse Community. Regarding Council's Strategic Priorities, it aligns with Goal #4, which aims to participate in community dialogue and create potential strategies to honor history and contributions of the African American community in Asheville, beginning with a community-led effort to install a monument to African American heritage.

This proposal supports the goals of the comprehensive plan by: (1) promoting great architecture and urban design to enhance placemaking; (2) elevating the arts and cultural sectors to strengthen and preserve heritage and history (from the "livable built environment" section); and (3) prioritizing investments equitably and fairly across neighborhoods and increasing access to opportunities for all (from the "interwoven equity" section).

Pros:

- The project can help accomplish Council Strategic Goal #4.
- The project will support the purpose of the African American Heritage Commission.
- The project will support collaborations that engage our community.
- The project funding could be leveraged by TPDF.

Cons:

- The feasibility of the scope of the work and the method of collaboration has not been determined.
- Additional coordination between various stakeholders will require the dedication of unplanned staff resources.

- Any use of the existing building that is not clearly "recreation" use, here a museum use, would need permission from Parks and Recreation Trust Fund (PARTF) or could be in violation of their grant.

The requested $250,000 match is currently not part of the City's five-year Capital Improvement Program (CIP), and would therefore need to be added to the CIP/Debt cash flow model. Staff would encourage RDG to request matching funds from the County.

Staff recommends City Council consider authorizing the City Manager to support the Riverfront Development Group application to the Buncombe County Tourism Development Authority for grant funding of capital projects on City land owned/leased, and to commit to consider an allocation of $250,000 as part of the FY 2019-20 Capital Budget for Phase I of the project.

RESOLUTION BOOK NO. 40 - PAGE 93

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda, with the exception of Consent Agenda Item "B". This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. PRESENTATION BY CONSULTANT, 21ST CP SOLUTIONS ON THEIR REVIEW RELATED TO THE RUSH INCIDENT

Acting City Manager Ball said that on March 20, 2018, City Council unanimously asked staff to move forward on an evaluation of the event that occurred on August 24, 2017, regarding Mr. Johnnie Rush and former Police Officer Christopher Hickman. In doing so, we have brought on the consultant firm and they are now prepared to give Council their results. Ms. Ball then introduced Commissioner Charles Ramsey and Mr. Sean Smoot, from 21st Century Solutions Policing.

Mr. Smoot explained 21st Solutions experience and expertise. He then briefly reviewed his report from the Executive Summary below:

"In April 2018, 21CP Solutions, LLC was hired by the City of Asheville to conduct a policy and procedure review of the excessive force incident involving the arrest of Johnnie Jermaine Rush in August 2017. The city requested an assessment that included but was not limited to: a review of the incident that gave rise to arrest, the tactics utilized in affecting the arrest, the police department response, the city administration response, and the community response. The report that follows delivers on the police and city administration components described above. (The community component is tentatively scheduled to be fulfilled during a series of meetings that will include 21CP Principals meeting with the Chief of Police, Command Staff and other APD personnel (at the Chief's discretion) to present and explain findings and recommendations; a presentation to the City Council to explain findings and recommendations; and a presentation aimed at familiarizing the community and public officials with the findings and recommendations. The final two presentations will be designed to dovetail with a presentation by the police department explaining to the public and elected officials the steps that the department has taken and will take to respond to findings and implement any recommendations.)

"The findings and recommendations included in the following report span the arrest

incident, Asheville Police Department (APD) response, and the response of local government entities, such as the City Council, Mayor, City Attorney, and Buncombe County District Attorney. The key findings and recommendations from the assessment are summarized below and presented in greater detail throughout this report.

Rush Incident – Findings and Recommendations

Finding 1:Officer Christopher Hickman should not have been utilized as a field training officer.

- Recommendation 1.1: Revise the selection and recruitment process for field training officer program.
- Recommendation 1.2: The skills necessary to be an effective field training officer are perishable; officers who have transferred from patrol for a period of time should be reassessed prior to returning to FTO duties.
- Recommendation 1.3: APD should routinely assess its Early Intervention System triggers, adjusting when necessary.

Finding 2: Officers did not intervene when their fellow officer was engaging in an inappropriate, unnecessary, and excessive use of force, despite having several opportunities to do so as Officer Hickman actively escalated the situation.

- Recommendation 2.1: APD should consider adopting a peer intervention program.

Finding 3: Officer Hickman and Sergeant Taube did not appear to communicate to EMS that multiple Taser cycles had been used on Mr. Rush, which was documented by the download usage record from Officer Hickman's Taser.

- Recommendation 3.1: All APD personnel and Asheville EMS should be notified and trained regarding the medical treatment requirements included in the use of force policy.

Asheville Police Department Response to Rush Incident - Findings and Recommendations

Finding 4: The Asheville Police Department responded to the incident in a timely manner, and within the limitations of North Carolina law.

Finding 5: The leak of Officer Hickman's body worn camera footage to the Asheville Citizen Times may have undermined the formal administrative review processes already underway within APD and the city and may have compromised or impeded future prosecution of Officer Hickman.

Finding 6: During the review of all body worn camera footage uploaded by Officer Hickman from June 11, 2017 through September 11, 2017, APD learned about numerous incidents during which Officer Hickman engaged in unacceptable behavior and judgement.

- Recommendation 6.1: APD should implement a more structured policy regarding BWC audits, particularly for officers identified as possibly being problematic.

Finding 7: After the video of the Rush incident was posted to the website of the Asheville Citizen Times on February 28, 2018 at 7:06 PM, it was over 16 hours before APD released an official response.

- Recommendation 7.1: The APD should prioritize the timely release of information, and response to the release of information, acknowledging the 24-hour nature of the news media.
- Recommendation 7.2: The APD should have its own independent public information officer that reports directly to the police chief.
- Recommendation 7.3: APD should consider developing a policy and associated training for appropriate engagement with community members on social media, particularly with 4 regard to police events.

Local Government Response to Rush Incident - Findings and Recommendations

Finding 8: The members of the Asheville City Council, City Manager, and Mayor were unaware of the Rush incident prior to the Asheville Citizen Times story's publication on February 28, 2018.

- Recommendation 8.1: Develop clear protocols for when individuals at different levels of city government should be informed about particular events.
- Recommendation 8.2: Develop clear notification procedures to inform individuals on the City Council of possible high-profile issues in a way that is consistent with policy and allows the information to remain confidential if necessary.
- Recommendation 8.3: Implement a crisis communication policy within the City Council, City Manager, and Mayor's offices to coordinate press releases and correspondence in concert with APD's PIO when communicating with the media.
- Recommendation 8.4: The City should consider retaining a firm to provide crisis response services to the APD and the City of Asheville in the future.

Finding 9: The civil service board (CSB) model in its current form is inefficient and requires improvement.

- Recommendation 9.1: The CSB process should be streamlined and focus on whether the act being investigated occurred as reported and whether the employee's termination is appropriate."

Mayor Manheimer said that City Council asked for a number of things to happen after the Rush incident came to light and one of them was to bring in an external auditor for a review of this incident and their recommendations about improvements. City Council will hear on September 25, 2018, a report from the Asheville Police Department about which of these recommendations have already been implemented and which of them haven't, and what is the plan for implementation.

In response to Councilman Kapoor, Mr. Smoot said that he has seen where an external organization has declined an investigation of this type, but only in the situation where there was another agency conducting such an investigation.

When Mr. Smoot said that they did not interview external stakeholders during their review, Councilwoman Smith felt if that would have happened it might have added another viewpoint and the ultimate report might have been a little more balanced. She felt like this report feels like the police policing the police.

B. CURRENT STATE OF THE TRANSIT SYSTEM

Mr. Elias Mathis, Transit Planning Manager, gave a brief explanation of the current state of the Transit System. He reminded the Council on why we switched from the old transit management model to our current model. Under the current model, the City's focus is to provide

oversight for the contractor and support for the contractor so they can manage operations. There were major service interruptions in July due to mechanical issues. It's important to understand that the primary factors causing those issues is the overall age of the fleet and the lack of past bus purchases. At this point, the maintenance staff has a handle on the situation and are doing everything possible to avoid this type of service interruption in the future. The long-term solution is buying more buses on a regular schedule and we now have a regular fleet replacement schedule. We are in line to purchase five new buses each year for the next five years and then regular bus purchases continued after that. The first of those buses are expected to arrive in January.

ART General Manager Joe Brooks said that ART staff understands the maintenance issues that happened in July and are fully aware of the impact they have had on bus riders, as well as bus operators. These are the actions we have taken to address these issues:

- Outsourced buses to Cummins and Thermo-King in order to expedite repairs. This cost has been absorbed by the RATP DEV, not the City.
- We are in the process of adding a third maintenance shift, once we are fully staffed, which will help ensure all routes are covered. When RATP DEV inherited the system in October, the maintenance staff was short a total of three positions. We continue hold job fairs, as well as posting to Indeed, AB-Tech, Goodwill, and the City's social media; in order to have a fully staffed maintenance department. We are at 48 drivers and want 54 drivers.
- We have leased a 12-passenger ADA van that can be used in emergency situation if there is a shortage of vehicles. This was authorized in July, and will arrive next week.

We respect the union's role as an advocate for employees and as an advocate for safe public transit. We understand there are concerns about maintenance, safety, information requests, and employee communications. We have addressed the information requests from the union and will continue to work closely with them on that issue. We think our communications with the employees are excellent and we have substantial feedback to support that view. We do have monthly labor management meetings. We also have monthly one of one meetings with the union president, or as often as necessary. Again, we respect the union's role here and will continue to work closely with them through these issues to provide reliable transit service to Asheville.

Here is a list of some of the regular communications with our staff:

- Monthly meeting with the Union President.
- Monthly meeting with all employees.
- Monthly meeting with all Union Representatives.
- Everyone is given the opportunity to speak and provide feedback at these meetings.
- On Sunday, RATP DEV hosted an end of the summer and employee appreciation barbeque.
- Both the Director of Operations and General Manager work a late night once a week to give late afternoon and late night employees a chance to see us and voice any of their concerns.
- The entire staff all have an open door policy.

Mr. Brooks, along with Mr. Mathis, answered various questions from Council, some being, but are not limited to: how long do they expect repairs to take; how long do they expect it will take to fill the third maintenance shift; how long do they expect to lease the 12-passenger van; how many reserve buses do we currently have; has the Union been provided maintenance records; after we receive the new buses, how long does it take to get them on the road; how is the

management company addressing the maintenance issues; is the City doing all it can to enforce the provisions of the contract and require a level of service that we pay for under the new management contract; has the 30 minute replacement bus provision being met; is there a legal impediment for City staff not meeting with the union, and if not, why aren't we holding those meetings; are there ways the City's social media networks might help in trying to fill the management company's vacancies; and do the applications ask if the applicant has ever been convicted of a crime.

Councilman Young suggested a quarterly update from the management company.

C. UPDATE ON THE STEPHENS-LEE PROPOSAL

Parks & Recreation Director Roderick Simmons said the following is the Fiscal Year 2017-18 programming and community use of Stephens-Lee Community Center (Center) as requested by City Council on July 24, 2018. Information provided is for the timeframe between July 2017-June 2018. The Center is operated by the Parks & Recreation Department and provides programming, and community space, designed to serve a variety of needs throughout the community.

Built in 1923, Center is located in the former gymnasium of the Stephens Lee High School. It is a 27,144 square foot building including multi-purpose room, gymnasium, classrooms, fitness center, Stephens Lee Alumni Association room, kitchen, restrooms, office and storage. The 2.34 acres park surrounding the center includes two playgrounds, basketball court, parking, and access to the George Washington Carver Edible Garden.

The Center is opened 3,275 hours a year. Sunday-Friday they have Parks and Recreation programs and community programs. On Saturdays they have birthday party rentals, community programs or special events. The fitness center is open to the public during open hours.

The report outlines the past year facility programming that was conducted at Stephens-Lee Recreation Center and how the facility was programmed during the year.

Staff is responsible for administration of the facility, programs, community outreach, and help with community programs. Positions at the Center include a Facility Manager, Facility Supervisor, custodian, 2 program leaders and 3-5 rotating seasonal employees.

Program Hours and Participation: July 2017-June 2018

- Programming Hours: 6,914
- Program Participants: 4,142
- Community Access Hours: 4,049

Budget FY 2017-2018

The overall community investment was $246,933

Programming Annual Totals	**Total Program Hours**	**# of Participants**
Youth Programming (Ages 5 yrs to 18 yrs)	3,135	1,317
Adult Programming (Ages 18 & Over)	2,991	1,146
Alumni Programs	171	0
Community Events & Activities	131	1,679
Annual Total	**6,427**	**4,142**

Public Access to Facility	**Total Hours**	**Total Attendance**
Community Agencies	258	2,904
Other City Departments	191	945
Facility Rentals	38	200
Annual Total	**487**	**4,049**

Mr. Simmons showed a slide showing the average participant demographics, after school & summer programming, and after school and summer program demographics. He explained the fees for the after school and summer programs, along with a graph of the program fees per participant.

In response to Vice-Mayor Wisler as she tried to understand the possible impact of the Center on the entire community, Mr. Simmons said they don't have a mechanism in place to pull the data on what the percentage of the Center is compared to all the parks and recreation programs. However, he can provide a percentage of the Center's program hours vs. other centers.

Mr. Simmons responded to various questions by Council, some being, but are not limited to: are the after school and summer programs full; and how well used is this Center compared to other community centers.

Mayor Manheimer asked for information on what the costs would look like if they wanted to scale up the programs at the Center, i.e., increase the staffing from the current two employees.

Councilwoman Mayfield confirmed there is capacity at the Center because of staffing and programs during the prime hours.

It was the consensus of Council to wait until they receive the revised proposal for the use of the Center from Ms. Libby Kyles with the YTL Training Programs before any direction is given to staff.

Acting City Manager Ball recommended that after we receive and review the revised proposal, she meet with Ms. Kyles to make sure she has received and understands the information presented and both look at what opportunities there are to work together. She reminded Council that they still need to work through the Parks and Recreation Trust Fund grant the City received for this building in 1997 and that will not run out until 2022.

Vice-Mayor Wisler asked that as we move forward, she asked that the Recreation Board be involved, along with the many other voices that want and need to be heard around this Center and it's uses. There needs to be a robust community conversation.

D. UPDATE ON HOMESTAY PERMITS

Principal Planner Shannon Tuch provided the following update for Council:

"City Council has requested regular updates on Homestay permits and the Homestay/Short-term Vacation Rental enforcement process. The last report was given to Council on October 24, 2017. with a subsequent update to the Unified Development Ordinance standards

on January 9, 2018. This report covers the time period beginning January 1, 2018, through June 30, 2018 (six months).

"Rental of a property within the City of Asheville for a duration of less than one month is considered "Short-term". Rental of an entire home/apartment on a short-term basis has never been allowed in Asheville's residential districts but prior to January 9, 2018, had been allowed in some commercial districts. After the October 24, 2017, enforcement report, City Council requested a zoning text amendment to allow for the regulation of short-term vacation rentals. This required defining "short-term vacation rentals" along with other forms of lodging, and updating other existing definitions. The same zoning text amendment also removed short-term vacation rentals and many other forms of lodging, as a permitted use in most non-residential or commercial districts. This amendment was adopted January 9, 2018 (Ord. No. 4637).

"Since the adoption of the January 9, 2018, zoning text amendment, a six month report was first provided to the Planning & Economic Development (PED) Committee on July 23, 2018 after which the PED requested additional research related to the definition of "kitchen" and other enforcement enhancements. A follow-up discussion occurred at the PED's August 13, 2018 meeting resulting in staff direction to draft a zoning text amendment to the Unified Development Ordinance (UDO) amending the definition of "kitchen" and other enforcement enhancements that will be expected to come before City Council in late October or early November for consideration.

With a pending discussion related to homestay development standards anticipated this fall, this report has been modified to provide an update on the permitting and enforcement metrics related to the regulation and enforcement of lodging activities.

Homestay Permits: According to the city's permit records, there are approximately 603 active Homestay permits, up from 548 permits reported in October 2017. Approximately one third of these permits are advertised as "partial home" or a "private room" while the other two thirds are advertised as "whole home/apt.". This is a change from previous reports where only half of all homestays were advertised as "whole home/apt.".

The very large majority of these permits have been issued since amending the homestay standards in November 2015, with a swell in permits issued after heavy short-term rental enforcement activity that began in 2016. 139 Homestay permits have been issued in the last six months while approximately 84 applications have lapsed or gone inactive.

Lawful Short-term Vacation Rentals: Since the adoption of the Ord. No. 4637, staff has attempted to identify all existing and pending lawfully established short-term vacation rentals. To date, 125 existing STVRs have been identified with approximately 80 more units currently under construction and pending.

Enforcement Activity: Planning & Urban Development staff have maintained the proactive enforcement of the short-term rental provisions of the Unified Development Ordinance which is enhanced by the data supplied by the third party contractor. In the last six months 55 Notices of Violation were issued to properties; however, a moderate amount of recent enforcement effort has been issuing Citations (22) to properties that have lapsed back into short-term renting or other violations of the homestay permit. In the last sixty days, the city has collected $12,100 in STVR/homestay fines with 56 cases remaining open or unresolved (down from 85 cases reported in October 2017). Five of the 56 unresolved cases have been turned over to legal staff for further action.

Time Period	Average Violations Noticed, Monthly
Nov 2015- Oct 2016; 12 month span	10

Jan 2017- Sept 2017; 9 month span	42
Jan 2018 - June 2018; 6 month span	13

As has been reported on previous occasions, the very large majority of cases are identified by city staff with the assistance of the contract service. The number of cases initiated through a citizen complaint remains relatively low due in part to the challenge of obtaining first hand evidence of the violation which leaves the complaint unsubstantiated.

Active enforcement requires the constant monitoring of the third party database. This database is continuously updated as new listings are added to, and removed from, the digital marketplace, and as new properties are identified. As of the writing of this report, there are over 3000 listings with over 600 inactive listings for properties in Asheville. Many rentals have multiple listings on different platforms with more traditional lodging facilities such as Bed & Breakfasts and smaller inns using some of the online rental platforms. As a result, the data must be heavily sorted to identify the number of rental units, which is then further sorted to identify the number of units that have been matched to an address.

Approximate Listing Breakdown (as of July 10, 2018)
Total number of rental listings: 3023
Total number of short-term rental units: 1188
Total number of short-term units matched to address: 1033 (87%)
Total number of short-term units unidentified: 155 (13%)
*Number of active homestay permits: 603 (or 51% of **all** STVR units, and 58% of all **identified** STVR units)*
Number of lawful STVRs: 125+/-

With approximately 2 years of basic metrics provided through the third party contractor, it is easier to recognize that the overall number of listings continues to grow at a slow but steady rate."

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE DESIGNATION OF THE PRINCESS ANNE HOTEL LOCATED AT 301 EAST CHESTNUT STREET AS A LOCAL HISTORIC LANDMARK

ORDINANCE NO. 4694 - ORDINANCE DESIGNATING THE PRINCESS ANNE HOTEL LOCATED AT 301 EAST CHESTNUT STREET AS A LOCAL HISTORIC LANDMARK

Urban Planner Alex Cole said that this is the consideration of an ordinance to designate the Princess Anne Hotel located at 301 East Chestnut Street as a local historic landmark. This public hearing was advertised on August 17 and 24, 2018.

The applicant is requesting designation of the Princess Anne Hotel as a local historic landmark. The property owners and petitioners are Michael and Colleen Eden. The parcel (PIN 9649.63-6041) is located at 301 East Chestnut Street.

The Princess Anne Hotel was built in 1922-23. It is a highly intact 3-story structure built in the Shingle and Colonial Revival styles and was designed by prominent Asheville architect

William J. East. The Princess Anne Hotel has a period of significance from 1922-1929, and is significant for its architecture, as well as its association with recreation and culture. The Princess Anne Hotel exemplifies a notable example of guest accommodations constructed in Asheville during its early twentieth century boom period of tourism and real estate development in the 1920s. It is also significant architecturally as a highly intact example of a Shingle/Colonial Revival style building from the 1920's. The modest size of the Princess Anne Hotel distinguished itself from the large resort hotels and placed it more of a scale with the numerous apartment buildings that were being constructed throughout Asheville in the 1920s.

The designation includes the entire exterior of the building and .59 acre site on which the building is located.

The application for local historic landmark designation of the Princess Anne Hotel was reviewed by the Historic Resources Commission on July 11, 2018.

Considerations:

- When a property is designated as a local historic landmark restrictions are placed on the property, and any modification to the land or structure must receive a Certificate of Appropriateness from the Historic Resources Commission. All improvements must follow the Secretary of the Interior's Standards for Rehabilitation.
- Designation of a site as a local historic landmark makes the property eligible for a 50% reduction in local property taxes. Currently, the tax appraisal for the property included in the proposed designation is $3,410,500. If the property is designated as a local landmark the potential tax savings for the property owner, including city, county and school taxes, would be $18,380.88 per year.

The Historic Resources Commission reviewed this project on July 11, 2018. The commission voted 11-0 in favor of the landmark designation and recommended Asheville City Council approval of this local historic landmark designation application.

Mayor Manheimer opened the public hearing at 6:43 p.m. and when no one spoke, she closed the public hearing at 6:43 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to adopt the ordinance designating the Princess Anne Hotel, located at 301 East Chestnut Street, as a local historic landmark. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 187

B. PUBLIC HEARING TO CONSIDER THE REZONING OF PROPERTY LOCATED AT 643 AND 99999 (FORMERLY 647) BREVARD ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT

At the request of the applicant, Vice-Mayor Wisler moved to continue this public hearing until September 11, 2018. This motion was seconded by Councilwoman Smith and carried unanimously.

C. **PUBLIC HEARING TO REZONE TWO PARCELS LOCATED AT 402 HENDERSONVILLE ROAD AND 349 REED STREET FROM HIGHWAY BUSINESS DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT RESULTING IN PORTIONS OF BOTH ZONING CATEGORIES APPLIED TO EACH PARCEL; AND AMENDMENT TO THE FUTURE LAND USE MAP TO CHANGE A PORTION OF 402 HENDERSONVILLE ROAD AND 349 REED STREET FROM URBAN CORRIDOR TO TRADITIONAL NEIGHBORHOOD**

ORDINANCE NO. 4695 - ORDINANCE REZONING TWO PARCELS LOCATED AT 402 HENDERSONVILLE ROAD AND 349 REED STREET FROM HIGHWAY BUSINESS DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT RESULTING IN PORTIONS OF BOTH ZONING CATEGORIES APPLIED TO EACH PARCEL; AND AMENDING THE FUTURE LAND USE MAP TO CHANGE A PORTION OF 402 HENDERSONVILLE ROAD AND 349 REED STREET FROM URBAN CORRIDOR TO TRADITIONAL NEIGHBORHOOD

Urban Designer David Hazzard said that this is the consideration of rezoning two parcels located at 402 Hendersonville Road and 349 Reed Street from Highway Business District and RS-8 Residential Single-Family High Density District to Highway Business District and RS-8 Residential Single-Family High Density District resulting in portions of both zoning categories applied to each parcel. In addition, this will also require an amendment to the Future Land Use map to change a portion of 402 Hendersonville Road and 349 Reed Street from Urban Corridor to Traditional Neighborhood. This public hearing was advertised on August 17 and 24, 2018.

Mr. Hazzard said that the applicant is requesting to rezone two parcels. The property owner is Butel LLC and the petitioner is Michael Driskill. The first parcel (PIN 9647-75-9978) is located at 402 Hendersonville Road and is currently zoned Highway Business (HB). The applicant is requesting that the portion of the first parcel that abuts Hendersonville Road remain Highway Business (HB), but that the rear portion of the parcel which abuts Reed Street be rezoned to Residential Single Family High Density (RS-8). The second parcel (PIN 9647-85-0803) is located at 349 Reed Street and is adjacent to the first parcel. The second parcel is currently zoned Residential Single Family High Density (RS-8). The applicant is requesting that a small portion of the second parcel be rezoned to Highway Business (HB), and that the parcel otherwise remain Residential Single Family High Density (RS-8). The rezoning Request will result in a portion of each parcel at issue being zoned HB and RS-8. Pursuant to a recent amendment to North Carolina General Statute 160A-383, an approval of the rezoning request would result in an amendment to the Future Land Use Map, from Urban Corridor to Traditional Neighborhood.

Parcel 9647-75-9978 (402 Hendersonville Rd.) is zoned HB, is approximately 1.28 ac., and appears to be currently vacant. Parcel 9647-85-0803 (349 Reed St.) is zoned RS-8, is approximately 0.36 ac., and appears to have an existing single family residential structure with a detached garage. These parcels have approximately 55' of grade change from Hendersonville Rd. to Reed St. and are currently wooded.

To the west of these parcels is Hendersonville Rd. Parcels to the north are zoned HB and appear to contain a medical office and a restaurant (The Huddle House). To the east is Reed St., across Reed St. are parcels zoned RS-8 and Office 2 CZ (O2CZ) and appear to contain single family residential structures and medical offices. Parcels to the south are zoned HB and RS-8 and some appear to be vacant while others contain single family residential structures.

The applicant is proposing to rezone the two parcels, one currently zoned Highway Business (HB) and one currently zoned Residential Single Family High Density (RS-8), so that each parcel includes a portion zoned Highway Business (HB) and a portion of zoned Residential Single Family High Density (RS8).(see zoning exhibits for clarification). The applicant indicates that if the rezoning request is approved, they plan to recombine and resubdivide the two properties, so that one property will abut Hendersonville Road and be located fully within the HB zoning district and one property will abut Reed Street and be located fully within the RS-8 zoning district. However, the recombination and subdivision of the properties cannot be a condition of this rezoning, because this is a general rezoning application, so no specific development plans or conditions can be applied.

The subject property does not lie within any special review areas and does not require review by any other body. Standard rezoning requests are first reviewed by the Planning & Zoning Commission with final review performed by City Council.

The proposal is to rezone these properties so the property fronting Hendersonville Rd. will be HB, and the property frontage on Reed St. will be RS-8. This removes the HB zoning district fronting on Reed St. which will help protect the existing Shiloh community from potential commercial intrusions. HB is the predominant zoning district adjacent to Hendersonville Rd. in this area and RS-8 is the predominant zoning district in the Shiloh community. Thus staff feels these districts are appropriate for this area. The applicant has indicated if the rezoning request is approved they plan to adjust the parcel lines so that each parcel is located wholly within one zoning district,, but, as explained above, this cannot be required as part of this general rezoning request.

Living Asheville: A Comprehensive Plan for our Future identifies both parcels as Urban Corridor which are workhorse streets for transportation and commercial activity in Asheville and recommends redevelopment over time in the form of mixed-use residential, commercial and office uses that place emphasis on pedestrian-friendly amenities and access.

The requested HB zoning district adjacent to Hendersonville Rd. allows for uses that would be consistent with the goals for development adjacent to corridors and allows for residential densities that could support affordable housing goals of the comprehensive plan (pg 178). The RS-8 portions of the properties will allow more limited development consistent with the surrounding residential neighborhood. The adopted Shiloh Community Plan 2025 (pg 39) recommends this approach to limit commercial incursion in the neighborhood and on neighborhood streets.

The portions of the parcels fronting Reed St., that are proposed to be rezoned to RS-8, are currently designated as Urban Corridor on the Future Land Use Map and so, with respect to these portions of the properties, the rezoning request is inconsistent with the Future Land Use Map. Pursuant to N.C. Gen. Stat. § 160A-383(b)(3), approving the rezoning request will automatically amend the Future Land Use Map with respect to the RS-8 portions of the parcels, from Urban Corridor to Traditional Neighborhood. In addition to the rezoning, staff also supports this amendment to the Future Land Use Map, because it will allow the Future Land Use Map to reflect and be consistent with the proposed rezoning and will ultimately create lots that work better with the existing community and site topography.

This action does align with the 2036 Council Vision in the following areas (1) *A Well-Planned and Livable Community* - The proposed rezoning would promote a thoroughfare lined with thriving businesses and help protect an existing residential community; (2) *Quality Affordable Housing* - The proposed rezoning would allow for higher density residential in the HB district which normally is associated with affordable housing; and (3) *Transportation and Accessibility* - These parcels are adjacent to a transit line which would support options for

transportation and accessibility.

Considerations:

- The HB zoning is the predominate zoning district adjacent to Hendersonville Rd. and allows for uses that are consistent with city goals and plans for this area.
- The RS8 zoning is the predominate zoning district adjacent to Reed St.
- The RS8 zoning helps protect the existing Shiloh community from potential commercial intrusions.

The Planning and Zoning Commission reviewed this project on July 9, 2018. The Commission voted 6-0 in favor of the rezoning and recommended Council approval of this rezoning request.

Mayor Manheimer opened the public hearing at 6:49 p.m., and when no one spoke, she closed the public hearing at 6:49 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the zoning map amendment rezoning the property located at 402 Hendersonville Road, from Highway Business (HB) to a mixture of Highway Business (HB) and Single Family High Density (RS-8), and rezoning the property located at 349 Reed Street from Residential Single Family High Density District (RS-8) to a mixture of Single Family High Density (RS-8) and Highway Business (HB), as shown on the exhibits and the Proposed Zoning Boundary Survey Exhibit D Map and declare that this approval is also deemed an amendment to the Future Land Use Map within the Living Asheville Comprehensive Plan from Traditional Neighborhood to Urban Corridor as shown on Exhibit D, and find that the request and resulting Future Land Use Map amendment is reasonable, is in the public interest, and meets the development needs of the community because, among other reasons: (1) The HB district allows for uses that are appropriate for the Hendersonville Road corridor (2) The RS-8 District is compatible with the neighborhood fabric (3) The request Is compatible with current land uses and desired future land uses and (4) The rezoning and Future Land Use Amendment aligns with community character specified in the Living Asheville Comprehensive Plan. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 190

D. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 99999 NORTH BEAR CREEK ROAD FROM HIGHWAY BUSINESS DISTRICT AND RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONE TO ALLOW FOR A COMMERCIAL USE AND STRUCTURE

ORDINANCE NO. 4696 - ORDINANCE TO CONDITIONALLY ZONE 99999 NORTH BEAR CREEK ROAD FROM HIGHWAY BUSINESS DISTRICT AND RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONE TO ALLOW FOR A COMMERCIAL USE AND STRUCTURE

Urban Planner Jessica Bernstein said that the applicant is requesting review of conceptual plans for the use of a property for a tree care and removal business located at 99999 North Bear Creek Road with a conditional zoning request from Residential Multi-Family Medium Density District (RM-8) and Highway Business (HB) to Highway Business Conditional Zone (HB

CZ) District. This project is considered under conditional zoning pursuant to Sections 7-7-8 and 7-8-16 of the UDO. This public hearing was advertised on August 17 and 24, 2018.

The subject property is addressed as 99999 North Bear Creek Road (PIN 9628.54-8656) and is owned by Top Notch Tree Care, LLC; the contact is Stephen Bellich.

The project area is a single parcel, 1.34 acres in size, currently split-zoned RM-8 and Highway Business. The site has frontage on both North Bear Creek Road and Bear Creek Drive (for a portion). Zoning in the area includes RM-8 to the north and west, Commercial Industrial (CI) to the north and east and Highway Business to the south. The site is approximately 400 feet north of Patton Avenue and is currently vacant. Nearby uses include single-family homes to the north and west and a variety of commercial and industrial uses to the south and east.

The application is for the construction of a single building, one-story in height and 2,400 square feet for the tree removal operation. Primary uses on the site will be equipment storage, both inside and outside, as well as office use for the business. The plans show the building and parking/storage towards the northwest side and middle of the site (closer to Bear Creek Drive).

The proposal is to utilize the existing driveway from North Bear Creek Road to access the existing gravel area and five new parking spaces are provided closer to the building. The applicant is requesting a condition to eliminate the requirement for sidewalk on both road frontages.

Landscaping is required for this project and includes a type A (20 foot) property line buffer on two sides as well as street trees. Open space is required and is provided based on 15% of the lot area.

The bulk of the site is zoned HB. There is only a small area currently zoned residential. The uses proposed (service business providing off-site services, vehicular/equipment parking) are permitted in the HB district.

Conditions - The applicant is requesting the following conditions:

1. Elimination of sidewalk on both frontages
2. Maintain existing driveway width, exceeding commercial standard

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on April 28, 2018. The project was approved with conditions by the Technical Review Committee on June 4, 2018. The Planning & Zoning Commission unanimously voted to support this proposal and conditions at their meeting on July 19, 2018.

In 2016, there was a major subdivision approved on Bear Creek Road but south of Patton Avenue.

The project as proposed should be generally compatible with the surrounding area and is already allowed by-right on the bulk of the site. To the east and south are a variety of complementary commercial and light industrial uses. There are residential uses to the west and north; the landscape buffer should provide adequate visual separation and the uses proposed on the site are not expected to pose a disturbance to the nearby residences.

The proposal is aligned with the Living Asheville Plan, which identifies this area for "Industrial/Manufacturing" uses in the future land use map and there will be a property line buffer

for separation from the adjacent residentially-zoned area.The bulk of the site is already appropriately-zoned for the use.

The proposal aligns with the 2036 Council vision in the area of *A Thriving Local Economy* – The proposal supports a locally-owned business.

Considerations:

- The use is currently permitted on the bulk of the property and aligns with the future land use map
- The proposal remedies a split-zoning condition for the parcel
- A property line buffer provides mitigation to the adjacent residential parcel

Staff finds that this proposal is in line with the Living Asheville Plan future land use designation as well as with the current zoning and uses in place in the area. The design incorporates a property line buffer to mitigate the impact from the nearby residential area.

The Planning & Zoning Commission reviewed this request at their meeting on July 19, 2018, and voted 7-0 in support of the project.

Mr. Stephen Bellich, applicant, said that they are asking to eliminate the construction of the sidewalks due to the cost, noting it would be a sidewalk with no connection. He felt that if he was required to construct the sidewalk, then the City should build a sidewalk up to the residential area.

There was considerable discussion regarding whether the applicant should be required to build the sidewalk given the fair amount of residential up the road from this property and its proximity to Patton Avenue or pay a fee equivalent to the sidewalk construction into the City's Capital Sidewalks Fund. Using $66.00 per linear foot for 280 linear feet, the contribution would be $18,480.

At a later date, Councilman Young requested information about floating sidewalks in the City and exactly where the sidewalks are constructed with the use of the City's Capital Sidewalks Fund.

Mayor Manheimer opened the public hearing at 7:16 p.m., and when no one spoke, she closed the public hearing at 7:16 p.m.

City Attorney suggested a revised Condition No. 4 to read "No sidewalks are provided along North Bear Creek Road or Bear Creek Drive; however, the applicant will provide a ten-foot wide easement for future sidewalk along the project frontage on North Bear Creek Road (approximately 280 linear feet) and contribute $18,480 to the City's Capital Sidewalks Fund. the easement will be recorded and payment made prior to the Certificate of Occupancy." Mr. Bellich agreed to the revised condition.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning request for Top Notch Tree Care at 99999 North Bear Creek Road from Residential Multi-Family Medium Density District (RM-8) and Highway Business (HB) to Highway Business District Conditional Zone (HB CZ), with the revised Condition No. 4 agreed to by the applicant, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (a) The proposal is aligned with the future land use map in the Living Asheville Plan as well as current zoning; and (b) The development incorporates property line buffering and open space

to mitigate possible impacts on residential uses. This motion was seconded by Councilman Young and carried on a 6-1 vote, with Councilwoman Smith voting "no".

ORDINANCE BOOK NO. 32 – PAGE 194

E. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 28 AND 32 MAXWELL STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONE TO ALLOW SHORT-TERM VACATION RENTAL USE AND TO AMEND THE FUTURE LAND USE MAP TO CHANGE 28 AND 32 MAXWELL STREET FROM TRADITIONAL NEIGHBORHOOD TO TRADITIONAL CORRIDOR

At the applicant's request, Vice-Mayor Wisler moved to continue this public hearing until October 9, 2018. This motion was seconded by Councilman Kapoor and carried unanimously.

F. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT TO ALLOW THE CONSTRUCTION OF A NEW TELECOMMUNICATIONS TOWER AT 1256 HENDERSONVILLE ROAD

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Currin reviewed with Council the conditional use permit hearing process which is a quasi-judicial permit hearing. At this public hearing, all testimony needs to be sworn and due process protections afforded to the applicant.

After hearing no questions about the procedure, Mayor Manheimer opened the public hearing at 7:24 p.m.

Urban Planner Jessica Bernstein submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Bernstein said that the applicant, Dale Finocchi of PlanTech Services LLC for Communications Tower Group LLC, is requesting review of site plans for a proposed telecommunications tower at 1256 Hendersonville Road. This project is considered as a Conditional Use Permit pursuant to Sections 7-8-1 and 7-16-2 of the Unified Development Ordinance (UDO).

The project site consists of a single parcel, 0.66 acres in size (Location Map - Attachment to City Exhibit 3). The property is zoned Highway Business (HB) as are parcels to the north, south and west (Aerial Map - Attachment to City Exhibit 3). To the east is the Ascot Point residential development (RM-16 CZ) across the railroad right-of-way. The parcel is owned by Brandt Point Investments LLC. The applicant will be leasing a small area to the rear of the parent parcel for the tower (Site Plan; Landscape Plan; Tower Elevation - Attachments to City Exhibit 3).

Currently on the site is a Valvoline Instant Oil Change operation and a physical therapy and medical supplies business. The tower site is proposed at the rear of the site.

The applicant is proposing to construct a stealth monopole, 95 feet in height with an additional four foot lightning rod at the top; overall height not to exceed 100-feet (maximum allowed by the UDO). The pole and equipment ("proposed tower compound area") will be enclosed by a chain link fence at least eight feet in height and topped by barbed wire, as shown

on plans and per the ordinance. As required by the code, the tower is designed to accommodate at least one additional user for co-location.

The code requires that the tower shall be buffered from adjacent properties by a 20 foot wide Type A landscaped buffer and any ground mounted equipment to be surrounded by a Type B buffer and/or a fence. The plans include landscaping on two sides of the tower area as well as additional screening provided by a faux wood fence. There is no ground-mounted equipment currently included in this application.

Conditions - Aside from the seven conditional use standards in Section 7-16-2(c.), a telecommunication tower must be found to meet the conditions described in Section 7-16-2(d)(3) of the UDO, which includes both technical and non-technical standards for submittal. Staff has determined the application materials provided by the applicant to be complete.

Per Section 7-16-2(d)(3)o., "telecommunication towers must be setback from any residentially zoned or residentially used properties a distance equivalent to the full height of the tower being erected. The City Council may reduce the setback requirement upon a showing by the applicant that there are special physical circumstances or conditions affecting the proposed site such that the strict application of the setback requirement would not allow the most effective use of the proposed site to minimize the visual impact of the wireless telecommunication facility." The distance from the center of the proposed tower location to the property line of the nearest residential use (Ascot Point) is approximately 110 feet six inches; however, the residential zoning boundary reaches to the center of the railroad right-of-way that separates the Highway Business uses along Hendersonville Road and the residential uses on the east side of the rail line even though there is no residential use within this restricted area. The distance from the center of the proposed tower is approximately 60 feet from the middle of the train tracks where the residential zoning boundary begins.

The site is currently zoned Highway Business (HB) where telecommunications towers are permitted only through a Conditional Use Permit.

This project was approved with conditions by the Technical Review Committee (TRC) on July 16, 2018 and per Section 7-5-5 of the UDO, the proposal goes directly to a **quasi-judicial** review by City Council and Final TRC review prior to zoning approval. If approved, the permit is valid for five years and must be renewed annually. She has heard comments from the public regarding negative health impacts associated with telecommunication towers.

Conditional Use Findings: Section 7-16-2(c) of the Unified Development Ordinance (UDO) states that Asheville City Council shall not approve the conditional use application and site plan unless and until it makes certain findings based on the evidence and the testimony received at the public hearing or otherwise appearing in the record of the case. The applicant has provided a statement on these findings.

Staff finds that the relevant standards of the City have been met or can be met with this application; as long as City Council approves of the setback reduction based on the difference between residentially-zoned land verses the distance to the actual residential use.

In response to Mayor Manheimer, Ms. Bernstein said that the City is required to send notices to people within 200 feet of the proposed project, even though some of those notifications may fall outside of the City boundary. In this case, we sent notices to people in Biltmore Forest. Mayor Manheimer asked that the next time we send notices to Biltmore Forest residents that we also send a copy to their Manager just in case questions are raised by their residents.

Mr. Thomas Johnson, attorney with Williams Mullen representing the applicant, submitted a notebook entitled "CTG Hendersonville Site Conditional Use Permit Documents" (Applicant Exhibit 1). Using a photograph from Applicant Exhibit 1, Mr. Johnson showed the existing tower locations noting that there the need for better coverage in this area. There is a similar existing tower about one mile north of this site with a flag on it. It's very inconspicuous and located behind Mission Health Facility on Hendersonville Road. The need for coverage is for cell phones, data and communication purposes as well as good signal strength in commercial or residential properties. The ordinance says that setback has to be 100' from the zoning or use line, but it doesn't distinguish between the two. Using an aerial photo (Applicant Exhibit 1), he said from the use it's very easily over 100' but the zoning line goes down the middle of the railroad right-of-way. There will be no residential property or residential development within the tower height. It's not that we are asking for a reduction, it's just that we are asking that it be measured from the use in this circumstance, rather than the zoning line. The many existing mature trees between where the tower will be located and the multi-family complex on the other side of the railroad tracks will not be touched. Using a photo (Applicant Exhibit 1), he showed what the tower would look like and how the ground equipment would be shielded. Using simulated photos (Applicant Exhibit 1), they commissioned a person to do a study showing what the tower would look like from various locations. One view was from the north of Hendersonville Road, one view was from the south of Hendersonville Road, three sites within Biltmore Forest, and an office development along Hendersonville Road with residential behind that. In all the locations within the development (that he could access from the public right-of-way) it showed no visibility in the single-family residential portion. It's not to say that in some backyards there would be some visibility but that is why they are doing a concealed tower, so it minimizes the visibility. All around there is infrastructure, and this is just additional infrastructure for the community and for community services.

When Councilwoman Mayfield asked if there was any photo simulations done from the apartments that would be facing the tower, Mr. Johnson said that because of the limited time, they were not able to take photographs from the apartments and they basically used Google Earth to do this. There were no Google Earth images from the apartment complex. He said it will be a very similar view. When Councilman Kapoor further questioned why one of the photos that showed mature trees between the apartments and the subject site was not used to simulate the tower, Mr. Johnson said that was a photograph the appraiser took (Attachment to Applicant Exhibit 1). He did not have that picture or the data from where he took that picture to be able to give it to the person who did the photo simulations.

Mr. Johnson said that the only difference on the technical standards, Council needs to rule on the setback from the residential. He said that there was a concern from the public about safety related to the radio frequency from the tower. It's safe and the FCC governs that and determines it's well below the FCC standard, and all towers have to be licensed. Under N. C. Gen. Stat. sec. 160A-400.5 (1) (a) it says specifically "public safety includes without limitation federal, state and local safety regulations, but does not include requirements relating to radio frequency emissions of wireless facilities." That should not be part of Council's consideration because it's preempted by the federal government saying these are the standards and if you meet the standard it's safe. He then reviewed their findings from the seven conditional use standards (Attachment to City Exhibit 3).

Regarding standard No. 3, Mr. David Smith, state certified general appraisal, stated his qualifications to be considered as an expert appraiser, said he was asked to study the abutting and adjoining properties (Impact Analysis - Attachment to Applicant Exhibit 1). One of the properties around the site is vacant except for a billboard. One has an abandoned industrial property. Between this site and Hendersonville Road is the Mini-Lube car shop and the other property is Ballard's business. Behind the site is a railroad track. He researched properties around existing cell towers to locate those that sold for comparison in Asheville. He located

properties in Ballantree subdivision near a tower on Sweeten Creek Road. Some of the dwellings had a clear view and others were further away with no view of the tower. Based on his study, it was his opinion that the proposed tower would not have an adverse impact on the property values of adjoining or abutting properties.

Councilman Kapoor wondered if the Ascot Point Circle apartments will have a similar buffer of trees or will they see the cell tower. Mr. Smith said that it depends on where you are in those apartments.

Mayor Manheimer then asked for any public comments.

Mr. John Delaney, resident on Hilltop Road, said that he received his certified copy of the notice three days ago. Some residents who were not at home (or didn't answer the door) when the certified mail arrived did not even know of this hearing as they had not gone to the Post Office to collect the certified mail. He would be representing those people who could not attend this hearing. Primarily they were concerned about health concerns because of the cell tower. He explained how the photographs showed by Mr. Johnson (Applicant Exhibit 1) were not clear on how the tower would look. He felt they were cleverly taken and superimposed. The photograph that Mr. Johnson said they didn't have time to take (from the apartments) is the most important. He said the mature trees shown in the photographs (Applicant Exhibit 1) are not existing trees.

Ms. Leigh Jackson, resident on Hilltop Road, said she was representing 26 households. She presented a picture of the site (Public Exhibit 1) showing 35-40 houses (26 of which were in opposition) with over 130 individuals. On the other side of the site is Ascot Point with over 800 families. When they received the notification to pick up the letter, the pick-up date from the Post Office was August 31. Many people didn't pick up the letter because they thought they had until August 31. She said this is a high residential walking neighborhood. She said no where has the railroad consideration been taken into account - she said it is a 300 foot setback. She would like for the setback to remain in the middle of the railroad. Residents felt that they didn't have a voice because they didn't get the letter, the views, safety, health and real estate resale. She googled telecommunications in your neighborhood and according to the EMF Real Estate Survey 94% respondents said they would not live near a cell tower or antennas (Public Exhibit 2). She said she has a list of people with their addresses and concerns and wanted more involvement on what they would have to look at every day. Therefore, she asked for this public hearing to be continued.

City Attorney Currin said that since this hearing is quasi-judicial, you can't consider the lists. You can't consider anything of anyone not present. She also pointed out that with respect to value impact, an expert witness is required.

Mr. Johnson objected to anything from the internet on the issue of real estate (Public Exhibit 2) because there has to be an expert present to testify.

In response to City Attorney Currin, Ms. Bernstein said that the applicant did comply with the mailing requirements (Attachment to Applicant Exhibit 1). The applicant is required to send the certified letters to the ¼ mile property owners at least 10 days before the meeting. The letters were sent out on October 13. The letter was sent to the property owner of the apartment complex.

Mr. Johnson said that they did the certified mailing pursuant to the ordinance.

Mr. Joseph McCormick objected to Mr. Johnson's objection. He felt that no one would want to live next to a 300 foot tall cell tower when we already have six in Asheville.

Mr. Johnson addressed the questions regarding the railroad, visibility and the notice requirements per the ordinance. Based upon the testimony of Mr. Smith as an expert certified appraiser and based upon the ordinance requirement to conceal the tower, they meet not only that technical requirements but the seven standards. He has heard nothing from the opposition bringing forward any expert testimony or any other testimony that would be relevant to the seven standards.

Councilman Kapoor asked Mr. Smith, in his professional opinion, if the analysis that he did with the Ballantree community was sufficiently comparable (trees and site lines) to the impact on what will happen in Ascot Point. He felt the views from the Ascot Point complex is different than the views of the tower that the Ballentree residents experience. Mr. Smith emphasized that seeing the tower is one of 100 things that would affect a house or an apartment. If someone was looking to rent an apartment would they care if there was a tower or do they want tennis courts? There are so many other factors. If you could choose not to have a tower you would, but most people do not pay less because there is a tower there.

In response to Councilwoman Mayfield regarding Condition No. 4, City Attorney Currin said that you don't need expert testimony on that condition. Generally what the law is, is that if the use is included as a special use there is a presumption of harmony and there has to be evidence contrary so that the use is not harmonious. As far as the applicant, they have the burden to show that it will generally fit into the area.

In response to Councilman Kapoor regarding the railroad tracks, City Attorney Currin said that Council may reduce the setback requirement upon a showing by the applicant that there are special physical circumstances or conditions affecting the proposed site such that the strict application of the setback requirement would not allow the most effective use of the proposed site to minimize the visual impact of the wireless telecommunication facility.

Mr. Johnson said that the purpose is to set it back from residential development. If the reality is that the residential development is not going to be located within the 100 feet regardless of the existence of the railroad track, it can't happen.

Councilman Young asked for City Attorney Currin to reiterate to Council the legal requirement for Council to vote in the affirmative if the seven conditions are met. This is not like a conditional zoning where Council can negotiate certain changes. City Attorney Currin said that under the law of North Carolina, there must competent, material and substantial evidence as to each one of the requirements. Competent evidence means someone who has actual knowledge about the facts or if it has to do with traffic or property values, it has to be an expert to be competent. With respect to material evidence, it has to have something to do with each one of the standards. If the applicant has presented competent, material and substantial evidence, then they are required to be granted a permit unless there is competent, material and substantial evidence contrary presented by an expert with actual facts. With respect to the exception, basically what it means is that is you can't build anything residential on the railroad anyway then it's not that something will be built there later.

Mr. Johnson agreed with City Attorney Currin in that it is presumed harmonious unless there is some evidence presented to the contrary - which has not been presented. In terms of the apartments, Mr. Smith didn't mention the demand for wireless now. These are built in apartment complexes so people have good signal.

At the request of Councilwoman Mayfield, City Attorney Currin said that there can be an ordinance amendment so that the tenants in an apartment complex are also notified.

Ms. Johnson said that she has credentials to be an expert witness. She does oversight hearings for the Senate and House in D.C. and a lot of her area has been with railroads. She can tell you that there are setbacks. The City would be letting them use part of the residential and that wouldn't meet the criteria of safety for the railroad.

Mayor Manheimer said that if there is a conflict with the railroad, that will be between the railroad and the applicant. Ms. Bernstein also noted that all property owners within 200 feet (including the railroad) were notified by the City.

Mayor Manheimer closed the public hearing at 8:35 p.m.

Councilwoman Mayfield didn't particularly like the project like the project; however, she didn't see a basis to disapprove it.

Councilman Young felt the in the future the tenants in apartment complexes be notified as well as the property owner, and possibly even change the requirement of more than 10 days. This is a conditional use permit which puts Council in certain restrictions of legality to vote in the affirmative based on the seven conditions.

Councilman Young moved to approve the conditional use permit for the telecommunication tower at 1256 Hendersonville Road because it meets the seven conditional use standards as demonstrated by the applicant. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

City Attorney Currin said that the Findings of Fact and Conclusions of Law will be placed on the September 11, 2018, agenda.

G. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 430 MCDOWELL STREET AND THE REZONING OF A SMALL PORTION OF THAT PROPERTY FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONE TO ALLOW THE CHANGE OF USE FOR A MEDICAL OFFICE AND AN AREA FOR AN ADDITIONAL PROFESSIONAL OFFICE OR ONE RESIDENTIAL APARTMENT; AND AMENDMENT TO THE FUTURE LAND USE MAP FOR 430 MCDOWELL STREET FROM TRADITIONAL NEIGHBORHOOD TO TRADITIONAL CORRIDOR

ORDINANCE NO. 4697 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 430 MCDOWELL STREET AND THE REZONING OF A SMALL PORTION OF THAT PROPERTY FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONE TO ALLOW THE CHANGE OF USE FOR A MEDICAL OFFICE AND AN AREA FOR AN ADDITIONAL PROFESSIONAL OFFICE OR ONE RESIDENTIAL APARTMENT; AND AMENDING THE FUTURE LAND USE MAP TO CHANGE 430 MCDOWELL STREET FROM TRADITIONAL NEIGHBORHOOD TO TRADITIONAL CORRIDOR

Urban Designer David Hazzard said that this is the consideration of an amendment to the conditional zoning of property located at 430 McDowell Street and the rezoning of a small portion of that property from RS-8 Residential Single-Family High Density District to Institutional

District/Conditional Zone to allow the change of use for a medical office and an area for an additional professional office or one residential apartment. In addition, this will also require an amendment to the Future Land Use map to change 430 McDowell Street from Traditional Neighborhood to Traditional Corridor. This public hearing was advertised on August 17 and 24, 2018.

Mr. Hazzard said that the applicant is requesting to amend the conditional zoning (Ordinance Number 3393) of a property located at 430 McDowell Street and PIN 9648-41-5818 to allow the use of a medical office and an area for an additional professional office or one residential apartment for long-term rental within the existing structure. In addition a small portion of this property will be rezoned from Residential Single Family High Density (RS-8) district to Institutional Conditional Zoning (INST-CZ) district as a part of the conditional zoning amendment. Pursuant to a recent amendment to North Carolina General Statute 160A-383, an approval of the amendment and rezoning request would result in an amendment to the Future Land Use Map, from Traditional Neighborhood to Traditional Corridor. The project contact is Mary Weber and the property owner is Academy of Asheville, Inc.

Parcel 9648-41-5818 is approximately 0.84 acres in size and is located at 430 McDowell Street. This parcel currently has an existing structure that is vacant. The site slopes from east to west and is fairly steep adjacent to McDowell St. The parcel is split zoned with the majority of the parcel zoned Institutional Conditional Zoning (INST-CZ) and a small portion of the parcel is zoned Residential Single Family High Density (RS-8). The southern portion of the parcel that is zoned RS-8 is also located in a Local Historic district and will require a Certificate of Appropriateness for a minor work for any site modifications in this area.

On the west side of this parcel is McDowell St. and across the street is Asheville High School and is zoned Institutional (INST). To the North is Grindstaff Dr. and parcels across Grindstaff Dr. are zoned INST and RS-8 and appear to contain a dog grooming business and a single family residential structure. To the east are parcels zoned RS-8 and appear to contain single family residential structures. Parcels to the south are zoned RS-8 and some appear to be vacant while others contain single family residential structures, These parcels are located in the St. Dunstan's Historic District.

The applicant is proposing to modify a previously approved conditional zoning (CZ) that allowed for the use of a daycare facility on this parcel to now allow a medical office and a area for an additional professional office or one residential apartment for long-term rental within the existing structure. Note this parcel is split zoned and a small portion of this parcel is zoned RS-8, thus this proposal is also requesting to rezone that portion of the parcel to INST-CZ.

Access to the existing building and parking area is located off of Grindstaff Road. The applicant intends to expand and improve the existing parking area. A total of 19 parking spaces, including two handicap spaces and a bike rack are proposed. Note some of the parking will encroach into the front setback up to 6' (this has been included in the B.1 Conditions)

Sidewalks are required on the property frontage along both McDowell St. and on Grindstaff Rd. A sidewalk is proposed along Grindstaff Rd. The applicant has requested a B.1 Condition to not build the sidewalk adjacent to McDowell St. due to the existing steep slope and rock outcropping that would require a +/- 6' retaining wall. As per the applicant an estimate for this sidewalk in 2014 was $235,000 for 160 linear feet. Based on recent city construction projects, construction for a typical sidewalk (without walls, extensive grading, etc.) is approximately $66.00 a linear foot, thus for 160 linear feet would be approximately $10,560. In exchange for construction of this sidewalk the applicant has proposed to continue the sidewalk along Grindstaff Rd. to the existing bus stop, provide a bus shelter at this location and install a crosswalk and associated ADA ramps across Grindstaff Rd.

A 30-foot Type B buffer is required along the east and south sides of the property where adjacent to residential uses. The applicant is proposing a reduced buffer width in areas where existing site conditions and expansion of the parking area will limit the buffer width (this request is included as a B.1 condition). The applicant has proposed additional evergreen vegetation in these areas. Street trees are required along McDowell Street and Grindstaff Road. Parking lot, building impact, and street buffer landscaping will also be provided to meet the landscape requirements in the UDO. The majority of existing trees will be preserved and may count as credit towards landscape requirements.

This amendment to the conditional zoning was approved with conditions by the Technical Review Committee (TRC) on July 16, 2018, and requires review by the Planning and Zoning Commission, City Council and Final TRC prior to zoning approval. Note the portion of the parcel that is located in the historic district will also require a Certificate of Appropriateness for the expansion of the parking area.

The parcel is split zoned with the majority of the parcel zoned Institutional Conditional Zoning (INST-CZ) and a small portion of the parcel is zoned Residential Single Family High Density (RS-8), thus this proposal is also requesting to rezone that portion of the parcel to INST-CZ. Ultimately resulting in all of parcel Parcel 9648-41-5818 being zoned INST-CZ.

Conditions -

- Permitted uses: Medical office and a area for an additional professional office or one residential apartment for long-term rental.
- Encroachment of the parking and existing retaining wall up to 6' into building setback.
- Reduction in the required landscape buffer "B" width as shown on plans.
- Modification of required street tree spacing requirements along McDowell St. as shown on plan.
- One additional street tree along Grindstaff Dr. as shown on plan.
- Elimination of sidewalk along McDowell St.
- Install bus shelter at existing bus stop.
- Install crosswalk and associated ADA ramps across Grindstaff Dr.
- Receive a Certificate of Appropriateness for the area of the parcel that is located in the Local Historic District.

The existing building is residential in scale and was previously approved as a daycare which is similar to the intensity of use as a small scale medical office. Thus staff feels this use is compatible with this area.

Living Asheville: A Comprehensive Plan for our Future identifies this parcel as Traditional Neighborhood on the Future Land Use Map. Traditional Neighborhood are commonly found in in some of the older areas within the city that are generally more compact and walkable, and where homes may be placed closer to the street. The existing and proposed zoning (INST CZ) is inconsistent with the Future Land Use Map. Pursuant to N.C. Gen. Stat. § 160A-383(b)(3), approving this CZ amendment will automatically amend the Future Land Use Map, from Traditional Neighborhood to Traditional Corridor. Staff supports this amendment to the Future Land Use Map, because it will allow the Future Land Use Map to reflect the existing and proposed land use.

This parcel is on the edge of the existing neighborhood, located on McDowell Street, and adjacent to an existing bus stop. Therefore it is consistent with Traditional Corridor designation in that it has multimodal options and could be considered a community service.

This action does align with the 2036 Council Vision in the following areas (1) *A Well-Planned and Livable Community* - The proposed amendment would promote an area with businesses mixed with residential and commercial uses, and has the potential to be integrated with the city's transportation system; and (2) *Transportation and Accessibility* - This parcel is adjacent to a transit line which would support options for transportation and accessibility.

Considerations:

- This is an appropriate use for the McDowell St. corridor.
- This is a amendment to a previously approved Conditional Zoning for an existing structure with a similar intensity of use.

The Planning and Zoning Commission reviewed this project on August 1, 2018. The Commission voted 7-0 in favor of the project and recommended Council approval of this Conditional Zoning request subject to Final TRC approval and the B-1 Conditions that were presented to Planning & Zoning.

Mayor Manheimer opened the public hearing at 8:47 p.m.

Councilwoman Mayfield felt this is an ideal place that we would want a sidewalk, but was concerned that if we insist on a sidewalk at that location, then no one will use that property, because no one will spend $235,000 to fix the existing steep slope, and construct a +/- 6' retaining wall for the rock outcropping.

There was considerable discussion about the condition not to build a sidewalk on McDowell Street. Council discussed asking the applicant to contribute $10,560 into the City's Capital Sidewalk Fund in addition to the applicant continuing the sidewalk along Grindstaff Road to the existing bus stop, provide a bus shelter at this location and install a crosswalk and associated ADA ramps across Grindstaff Road; or accepting the applicant's request that in exchange for building the sidewalk they would continue the sidewalk along Grindstaff Road to the existing bus stop, provide a bus shelter at this location and install a crosswalk and associated ADA ramps across Grindstaff Road, with no contribution to the City's Capital Sidewalk Fund.

Councilman Young felt that we need to have some uniformity when applicants request not to build a required sidewalk.

Ms. Mary Weber, landscape architect for this property, said that this site has been empty for 10 years because of the sidewalk issue. She estimated the applicant's improvements in exchange for not having to build a sidewalk in the range of $20-30,000.

Mr. Dennis Campbell, property owner, said that he held a neighborhood meeting where several neighbors attended and they were excited about the improvements to the transit system he proposes.

Mayor Manheimer opened the public hearing at 8:57 p.m.

Ms. Lauren Bacchus supported the sidewalk for connectivity and also for the bus shelters. She expressed the need for more funding for public transportation.

Ms. Allison Hammond supported a bus shelter and crosswalk for this high traffic area.

Mayor Manheimer closed the public hearing at 9:00 p.m.

Councilwoman Mayfield felt there is already good connectivity across McDowell which is north from the school.

Mayor Manheimer agreed the sidewalk is a missing link and it will be expensive to build the sidewalk. She felt we do need some consistency and feel strongly that if a sidewalk is not going to be constructed as part of the project for some reason, we need a plan on how to deal with that. She felt a fee that is somehow related to the typical costs of what the sidewalk would be is fine. In this case, there is also the bus shelter construction which is not a requirement.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the amendment to Ordinance No. 3393 to allow for the use of a medical office and a area for an additional professional office or one residential apartment for long-term rental, and the rezoning of a portion of parcel 9648-41-5818 from Residential Single Family High Density (RS-8) to Institutional Conditional Zoning (INST-CZ) (with the B.1 conditions presented to the Planning & Zoning Commission and no fee into the City's Capital Sidewalk Fund) and declare that this approval is also deemed an amendment to the Future Land Use Map within the Living Asheville Comprehensive Plan, changing this parcel from Traditional Neighborhood to Traditional Corridor, and find that the request and resulting Future Land Use Map amendment is reasonable, is in the public interest, and meets the development needs of the community because: (1) The amendment will allow for the adaptive reuse of an existing structure (2) This is a amendment to a previously approved Conditional Zoning with a similar intensity of use (3) The use is consistent with other uses along the McDowell Street corridor (4) The request Is compatible with current land uses and desired future land uses and (5) The amendment aligns with community character specified in the Living Asheville Comprehensive Plan. This motion was seconded by Councilman Kapoor and carried on a 6-1 vote with Vice-Mayor Wisler voting "no".

ORDINANCE BOOK NO. 32 – PAGE 199

H. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 511 BREVARD ROAD FROM HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONE AND LODGING EXPANSION/CONDITIONAL ZONE FOR THE DEVELOPMENT OF A 4-STORY HOTEL BUILDING AND A FUTURE DEVELOPMENT PARCEL

At the applicant's request, Councilman Haynes moved to continue this public hearing until October 9 , 2018. This motion was seconded by Councilman Kapoor and carried unanimously.

Closed Session

At 9:06 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: James Robert West v. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To consider the qualifications of appointment of an individual public officer or employee. The statutory authorization is contained in N.C.G.S. 154-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C.G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C.G.S. 154-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 10:06 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. ORDINANCE NO. 4698 - ORDINANCE AMENDING CHAPTER 11, SECTION 18 AND APPENDIX B, SECTION G, OF THE CODE OF ORDINANCES OF THE CITY OF ASHEVILLE TO REGULATE TRESPASS TOWING FROM PRIVATE PARKING LOTS

Assistant City Attorney Catherine Hofmann said that this is the consideration of amendments to the City's Pre-Towing Ordinance, set forth in City Code Section 11-18, and City Code Appendix B (Schedule of Civil Penalties), to provide additional regulations to protect citizens whose vehicles are towed from private lots within the City.

The City previously enacted a Towing Ordinance, found in City Code Section 11-18, that regulates the act of non-consensual towing and booting (immobilization) of vehicles from private property within the CBD and Biltmore Village Historic District. Pursuant to the City's Towing Ordinance, it is unlawful to engage in non-consensual towing or immobilization of such vehicles, without complying with certain pre-towing notice and other requirements. The person or entity who engages in the unlawful tow or immobilization of a vehicle is subject to the fines set forth in Appendix B to the City Code.

In or around early 2018, due, in part, to questions from citizens regarding the Towing Ordinance, City Council asked our office to review the City's Towing Ordinance provisions and to research whether there are any additional regulations that the City may enact, to further protect citizens whose vehicles are towed from private lots within the City.

On April 10, 2018, our office provided the Governance Committee with a summary of the City's authority to regulate the nonconsensual towing of vehicles from private property, (see Governance Committee April 10, 2018 Staff Report), and presented to the Governance Committee for their consideration, several potential amendments to the City's Towing Ordinance, based on the questions we received and in consultation with the City's Parking Services Department. The potential amendments presented to the Governance Committee included the following:

- Expanding the scope of violators, to include any person or entity who authorizes, directs, engages in or contracts for illegal trespass (non-consensual) towing or booting;
    - With this amendment, our office recommended a few additional clarifying amendments, to ensure that such regulation would not otherwise hinder the rights of private property owners to protect their property from trespass;

- Providing that, when applicable, regulations related to the practice of trespass towing are also applicable to the practice of "booting" or immobilizing vehicles;

- Expanding the scope of the ordinance to regulate towing from private lots in other areas in the City, in addition to the CBD and Biltmore Village Historic District; and

- Increasing the amount of civil penalties assessed for violations of the ordinance.

The Governance Committee recommended that the Towing Ordinance be presented to City Council with all of the above potential amendments. With respect to expanding the area the ordinance covers, the Governance Committee recommended that it be expanded to include the River Arts District, portions of West Asheville and other areas in the City where there are currently private parking lots for a fee. The Governance Committee also requested that we research the amount of fines that other North Carolina municipalities assess for this type of ordinance violation, and consult with the Parking Services Department as to what amount of fines would be appropriate.

In addition to the above, the Governance Committee also requested that our office review the distance a vehicle may be towed, which is currently 10 miles. In reviewing this regulation, we benchmarked other North Carolina municipalities, as well as a parallel State statute that regulates towing in certain municipalities (although not Asheville). Our research did not find a North Carolina municipality that restricts the distance a vehicle may be towed to less than 10 miles.

Finally, the Governance Committee asked our office to research whether the City may enact regulations related to the licensing of towing companies, that would require tow companies to be familiar with the City's Towing Ordinance regulations, in order to operate within the City. Our research found that, in King v. Town of Chapel Hill, the North Carolina Supreme Court held that cities need specific statutory authority in order to regulate the business or licensing of a tow company and that authority does not currently exist. As such, Asheville currently does not have the statutory authority to enact such a regulation.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to adopt an ordinance amending City Code Chapter 11, Section 18, "Pre-towing notices on private lots," and City Code Appendix B, "Schedule of Civil Penalties." This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 205

B. BOARDS & COMMISSIONS

Regarding the Citizens-Police Advisory Committee, no one applied for the resident of the Housing Authority property. Therefore, it was the consensus of Council to re-advertise for that seat.

Regarding the Board of Electrical Examiners, no one applied for the layman seat. . Therefore, it was the consensus of Council to re-advertise for that seat.

RESOLUTION NO. 18-225 - RESOLUTION APPOINTING ALTERNATE MEMBERS TO THE BOARD OF ADJUSTMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing Alternate members to the Board of Adjustment.

There currently exists an Alternate vacancy when Mr. Paul Wilczynski was appointed a Regular member. That current vacancy expires on January 21, 2021. In addition, there currently exists a vacancy until January 21, 2019, left by Ms. Misty Miller.

The following individuals applied for the vacancy: Ken Sherlin, Paul Harkrider, Robert Carroll and Suzanne Godsey.

It was the consensus of the Boards & Commissions Committee to appoint Suzanne Godsey.

Vice-Mayor Wisler moved to appoint Suzanne Godsey to serve the Alternate unexpired term of Mr. Wilczynski, term to expire January 21, 2021, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 94

RESOLUTION NO. 18-226 - RESOLUTION APPOINTING THE CHAIR OF THE CIVIL SERVICE BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that it is the responsibility of City Council to appoint the Chair of the Civil Service Board, and the Chair of the Civil Service Board shall be appointed annually by City Council.

Mr. Alan Escovitz, has resigned as a member and Chair of the Board, and a Civil Service Board election was held on June 25, 2016, for his replacement on the Board as an employee representative.

In 2013, a process was established for future appointments to the chair role of the Civil Service Board. Said process offered members of the Civil Service Board to express interest in serving as Chair.

All members were advised to contact Deputy City Clerk Sarah Terwilliger if they were interested in serving as Chair. Ms. Carol Goins was the only interested member. The term of Mr. Coxie expires on October 1, 2019.

Vice-Mayor Wisler moved to appoint Carol Goins as Chairman of the Civil Service Board to serve a one-year term, term to expire August 28, 2019, or until her successor is duly appointed or until her term on the Civil Service Board expires, whichever occurs first. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 95

RESOLUTION NO. 18-227 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Asheville-Buncombe Historic Resources Commission.

Ms. Janet Whitworth resigned as a member from the Asheville-Buncombe Historic Resources Commission, thus leaving a vacancy until July 1, 2010.

The following individuals applied for the vacancy: Will Hornaday, Linden Ontjes, Mike Kennedy, Wayne Wheeler, Hillary Mannion and Lorraine Tipaldi.

It was the consensus of the Boards & Commissions Committee to appoint Hillary Mannion.

Vice-Mayor Wisler moved to appoint Hillary Mannion to fill the unexpired term of Ms. Whitworth, term to expire July 1, 2020, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 96

RESOLUTION NO. 18-228 - RESOLUTION APPOINTING A MEMBER TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Neighborhood Advisory Committee.

Mr. Jackson Tierney (at-large representative) has resigned, thus leaving an unexpired term until July 1, 2020.

The following individuals applied for the vacancy: Karl Katterjohn, Bob Swanson and Cissy Dendy.

It was the consensus of the Boards & Commissions Committee to appoint Cissy Dendy.

Vice-Mayor Wisler moved to appoint Cissy Dendy (at-large representative) to the unexpired term of Mr. Jackson, term to expire July 1, 2020, or until until her successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 97

RESOLUTION NO. 18-299 - RESOLUTION APPOINTING A MEMBER TO THE NOISE ORDINANCE APPEALS BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Noise Ordinance Appeals Board.

The term of Robert Glenn (Alternate member) expired on July 1, 2018.

The following individuals applied for the vacancy: John L. Caldwell and Patrick Gilbert.

It was the consensus of the Boards & Commissions Committee to appoint John Caldwell or Patrick Gilbert.

Vice-Mayor Wisler moved to appoint Patrick Gilbert (Alternate Member) to serve a three-year term, term to expire July 1, 2021, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 98

RESOLUTION NO. 18-230 - RESOLUTION APPOINTING A MEMBER TO THE TREE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Tree Commission.

Ms. Diane Hillgrove has resigned, thus leaving an unexpired term until December 31, 2020.

The following individuals applied for the vacancy: Martha Dyke, Chip Hood, Guillermo Rodriguez, Patrick Gilbert and Jonathan Watterson.

It was the consensus of the Boards & Commissions Committee to appoint Guillermo Rodriguez.

Vice-Mayor Wisler moved to appoint Guillermo Rodriguez to the unexpired term of Ms. Hillgrove, term to expire December 31, 2020, or until until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 99

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. James Gambrell requested more money for the transit system.

Mr. Jack Logan requested a day to be proclaimed in memory of 12-year old Derrick Lee Jr. and urged Council to stress that gun violence will not be tolerated. Mayor Manheimer said that she would be happy to do this and asked that he reach out to City Clerk Burleson for preparation of this proclamation.

Ms. Allison Hammond requested Oakland Road be repaired and sidewalks be constructed. She also felt that speed humps might work on that road as well. Mayor Manheimer asked Ms. Hammond to contact City Clerk Burleson for the process of traffic calming.

Ms. Hollie Davison spoke about the importance of the services at 610 Haywood Road.

Ms. Vicki Meath, Director of Just Economics, spoke about the need to work together to improve the transit system and the need for the City to hold the management company accountable.

Ms. Diane Allen, Transit Union President, said she was ready and willing to assist with any outstanding issues with the transit system, including the shortage of mechanics, condition of the buses and gaps in service.

Ms. Kim Roney asked the City to hold the transit management company accountable and try to find ways to help fill the mechanic needs.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 10:47 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – September 11, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER 9-15, 2018, AS "SUICIDE PREVENTION WEEK"

Councilman Kapoor read the proclamation proclaiming September 9-15, 2018 as "Suicide Prevention Week" in the City of Asheville. He presented the proclamation to Ms. Nichole Rickard and possibly Betsy Rhodes (Area Director for the N.C. Chapter of the American Foundation for Suicide Prevention, who briefed City Council on some activities taking place during the week.

B. PROCLAMATION PROCLAIMING SEPTEMBER 12-14, 2018, AS "GREEN BOND PLEDGE DAYS"

Councilwoman Mayfield read the proclamation proclaiming September 12-14, 2018 as "Green Bond Pledge Days" in the City of Asheville. She presented the proclamation to Ms. Megan Robinson and Josh Dorfman from the Collider, who briefed City Council on some activities taking place during the days.

C. PROCLAMATION PROCLAIMING SEPTEMBER 21, 2018, AS "INTERNATIONAL DAY OF PEACE"

Councilwoman Smith read the proclamation proclaiming September 21, 2018 as "International Day of Peace" in the City of Asheville. She presented the proclamation to Ms. Rachel Bliss and Dr. Ellie Halsey, who briefed City Council on some activities taking place during that day.

CONSENT AGENDA:

At the request of Mayor Manheimer asked that Consent Agenda "L" (Resolution Appointing Sabrina Rockoff as Interim City Attorney) be added to the Consent Agenda.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 28, 2018

B. MOTION TO ADOPT THE FINDINGS OF FACT AND CONCLUSIONS OF LAW FOR THE CONSTRUCTION OF A NEW TELECOMMUNICATIONS TOWER AT 1256 HENDERSONVILLE ROAD

C. RESOLUTION NO. 18-231 - RESOLUTION ACCEPTING WILLIS WAY ALLEY FROM RAMOTH ROAD TO NORWOOD AVENUE AS A CITY STREET

Summary: The consideration of a resolution to accept Willis Way Alley from Ramoth Road to Norwood Avenue as a City street.

Willis Way Alley from Ramoth Road to Norwood Avenue has existed for many years serving several residential properties (the original plat is dated June 1915). Unfortunately, there has been confusion regarding the street being city-maintained or privately-maintained. Since the Water Department needed to make some repairs to their water lines along this street which would require an asphalt overlay, the decision was made during November 2017 that staff would move forward with a recommendation to City Council to officially accept the street as a city-maintained street once all of the work was completed and inspected. All of the work is now completed.

Willis Way Alley from Ramoth Road to Norwood Avenue has an average width of 11 feet with unpaved shoulders, a length of 0.19 mile, and a right-of-way width of 15 feet.

Transportation Department staff, Fire Department staff, Planning Department staff, and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual with the exception of the pavement width.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List. In this specific case, the City of Asheville will not receive Powell Bill Funds from the North Carolina Department of Transportation since the average pavement width is less than 16 feet.

Pro:

- The street provides access to several residential properties.

Con:

- The City of Asheville will **not** receive Powell Bill Funds from the N.C. Dept. of Transportation (NCDOT) to help maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department.

Staff recommends that City Council accept Willis Way Alley from Ramoth Road to Norwood Avenue as a City street.

RESOLUTION BOOK NO. 40 - PAGE 100

D. RESOLUTION NO. 18-232 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT WITH RESTOCON TO COMPLETE REPAIRS IN THE CIVIC CENTER GARAGE

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with RESTOCON to complete repairs in the Civic Center Garage.

The four City owned parking garages are valuable assets that generate millions of dollars of revenue for the City each year. The garages range from 42 years old for the Civic Center Garage to six years old for the Biltmore Avenue Garage. Wall Street and Rankin Avenue garages

are 30 years old. Like any building, they age, and must be periodically evaluated, and if necessary, repaired, to ensure the safety of the building and the users thereof.

Parking Services Division systemically contracts with structural engineers, specializing in parking garages, to evaluate the garages and to propose needed repairs or upgrades. The cycle starts with the largest garage, Civic Center, then on to the smaller garages Rankin Avenue and Wall Street. By stretching them out, we ensure the maximum number of parking spaces remain available to the public. The last cycle ended in 2010. The current cycle started in 2017.

In late 2016 the City entered into a contract with the engineering firm Walter P. Moore to evaluate the Civic Center Garage and prepare a detailed report on the condition of the facility. And, to propose a plan to keep the facility in good operating condition for up to the next 30 years. In late summer of 2017 they presented their recommended 30 maintenance year plan to keep this facility operational. The plan identified and recommended High Priority, Medium Priority, Low Priority, and Enhancements. City staff identified the needed repairs and directed the engineering firm to prepare the specifications, drawings, and request for bids documents.

In early March 2018, the City published a Request for Bids to complete the necessary repairs in the garage. Since only one bid was submitted, staff had to republish the request which was accomplished in late April 2018. Two bids were received with RESTOCON Corporation submitting the lowest bid of $274K. Repairs will include stairwell repair/replacement, door frame repair/replacement, concrete deck repairs, post tension anchor repair/replacement, column repairs, light pole replacement, and painting of surfaces.

Pros:

- Updates and improves a 42-year old structure ensuring continued safe use of the facility.
- Improves lighting on the top of the structure.
- Enhancement efforts will improve the aesthetics of the interior and exterior of the facility.

Cons:

- Customer disruption and inconvenience during the work period.
- Will cost $274K plus possible contingencies.

The budget for this project is already included in the Parking Services' Capital Fund.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter in a contract with RESTOCON Corporation in an amount not to exceed $300,000.00 (bid amount plus contingency) for restoration and repairs of the Civic Center Garage.

RESOLUTION BOOK NO. 40 - PAGE 102

E. RESOLUTION NO. 18-233 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A CONTRACT WITH AZTECA SYSTEMS, LLC FOR A CONTRACT FOR ENTERPRISE ASSET MANAGEMENT SOFTWARE LICENSE, MAINTENANCE AND SUPPORT

Summary: The consideration of a resolution authorizing the City Manager to execute an agreement with Azteca Systems, LLC for an upgraded asset management software license, maintenance and support, with the understanding that funding is project specific and subject to the annual appropriation of funds.

The City is seeking to upgrade the current license agreement for the estimated total amount of $60,000 annually. The City currently has a utility-based license agreement with Azteca Systems, LLC for enterprise asset management software license, maintenance, and support for

use by the Water Resources Department in the amount of $20,000 annually. Staff recommends upgrading to an enterprise-wide agreement in order to expand the use of this software to allow for collaboration with the Public Works Department and any additional departments in the future. The additional cost for this expansion is $40,000 annually. Asset management software typically has a lifespan of ten or more years. During this time period, annual maintenance renewals will be needed for software maintenance and support, software enhancements on ongoing fixes. The Public Works Department is entering into a separate contract with Timmons Group for implementation of this software.

Pros:

- The City has been using Azteca/Cityworks since March of 2018 and staff is familiar with its strengths, limitations, and support process.
- Allows for increased collaboration among WRD and PWD initially, and among additional departments when ready, streamlining inter-department workflows and sharing costs.
- Continues software license, maintenance and support services including software enhancements and ongoing fixes.

Con:

- Staff time and financial support will be needed for success.

The software license upgrade is funded by the Public Works Department, and funding is currently allocated within the Public Works General Fund, Stormwater Enterprise Fund, and Street Cut Enterprise Fund. The funding needed for the annual agreement is shared by user departments, and is currently allocated within the Water Resources Department Enterprise Fund, Public Works General Fund, Stormwater Enterprise Fund, and Street Cut Enterprise Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into an enterprise-wide agreement with Azteca Systems, LLC on behalf of the City of Asheville for the purpose of providing an enterprise license agreement contract for asset management software, maintenance and support in the amount of $60,000 per year for City-wide use. Further, the City Manager is authorized to execute annual maintenance renewals as needed by City departments for an amount not to exceed the City's approved budget, for those departments, for each applicable fiscal year period.

RESOLUTION BOOK NO. 40 - PAGE 103

F. RESOLUTION NO. 18-234 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A GENERAL SERVICES AGREEMENT WITH TIMMONS GROUP FOR THE PUBLIC WORKS ASSET MANAGEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a general services agreement with Timmons Group for the Public Works Asset Management Project for the proposal amount of $199,100 plus a 15.5% contingency of $30,900 for a total project budget of $230,000.

The scope of work for this Project includes, but is not limited to: consultation, data conversion, customization, licensing, training, integrations, and software support required for the expanded use of Cityworks-Azteca Server Asset Management System (AMS). This software will replace the Public Works Department's (PWD) existing, outdated Munis Work Order System, expand mobile system use, and allow for better system integration with the department's Geographic Information System (GIS) database and software. The new Cityworks-Azteca AMS will provide a powerful tool for asset management, customer service, and work order management, as well as increase accuracy and efficiency, and improve our ability to better communicate across the organization and with the public regarding our infrastructure assets.

On July 1, 2016, the Water Resources Department (WRD) issued a Request for Proposals (RFP) for the WRD's Enterprise Asset Management Project, which included City-wide asset management needs. In response to the RFP, eight proposals were received on August 1, 2016, followed by an extensive review of the proposals by City Staff of various departments, including reference checks and on-site demonstrations. After this extensive review, Timmons Group was selected. WRD was the first to engage with specific services for their department under a general services agreement with Timmons Group which was approved by City Council on February 14, 2017 in Resolution No. 17-31. The PWD desires to execute an agreement to expand the City-wide Project scope in order to include similar services for Public Works. The contract allows the PWD to partner with the WRD in sharing costs and increasing collaboration as PWD seeks to emulate WRD's success in using asset management technology to modernize business operations. Future contracting phases may be needed to support additional departments, groups or tasks, to continue to expand the use of asset management technology. The City is entering into a separate contract with Azteca for the software.

Pros:

- This Project will replace the existing, outdated work order system, expand mobile system use, and allow other systems (i.e. GIS) to interface more easily with the software.
- This Project will improve communication across the organization and with the public.
- This Project will increase accuracy and efficiency in asset management, customer service, and work order management.

Con:

- Staff time and financial support will be needed for Project success.

All of the funding needed for the Public Works Asset Management Project is currently allocated within the Public Works General Fund, Stormwater Enterprise Fund, and Street Cut Enterprise Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a general services agreement with Timmons Group for the Public Works Asset Management Project for the amount of $199,100 and to enter into change orders or contract amendments to their agreement for an additional 15.5% (contingency) of the agreement amount or $30,900, for a total project budget of $230,000.

RESOLUTION BOOK NO. 40 - PAGE 104

G. RESOLUTION NO. 18-235 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH ADW ARCHITECTS FOR THE ARCHITECTURAL AND ENGINEERING SERVICES TO CONSTRUCT FIRE STATION #13

Summary: The consideration of a resolution authorizing the City Manager to enter into a professional services contract with ADW Architects for the architectural and engineering services necessary to plan, design, and construct Fire Station #13.

Fire Station #13, which was authorized in the Capital Improvement Program (CIP), will be located on land that was purchased on Broadway in 2014. During its December 13, 2016 meeting the Finance Committee received a briefing on the project which included project status, timeline, and future station staffing and operational needs. In response to the Request for Qualifications, the following six firms submitted packages:

Zapata (Charlotte, NC)	Stewart-Cooper-Newell (Gastonia, NC)
ADW Architects (Charlotte, NC)	Mathews Architecture (Asheville, NC)
DP3 Architects (Greenville, SC)	CBSA Architects (Hickory, NC)

In reviewing submittals, an inter-departmental team utilized a scoring matrix to assess the qualifications. Three firms scored high enough to be short-listed for on-site interviews, including Zapata, ADW Architects, and Stewart-Cooper-Newell. The professional team led by ADW Architects is well-qualified in all required disciplines, with specific experience in fire station design. Scoring by the review team indicated ADW Architects as the highest-rated offeror.

Contract negotiations were undertaken with ADW, and the proposed contract is being structured so that the City must issue a Notice to Proceed (NTP) through each phase of the project before the Architect can proceed from one phase to the next. Cost estimates will be provided at each design phase so the City can assess the overall project budget before moving to the next step.

The value of the primary architectural & engineering service work is $366,801. In addition, there is a cost of $89,782 for the specialized design & related tasks needed to achieve LEED Gold Certification as required by Council Resolution 07-91. Therefore, the total proposed contract value is $456,583.

Pros:

- Allows design work to proceed on the Fire Station #13 project authorized in the CIP;
- Multi-disciplinary team includes architecture, engineering, interior design, LEED, and other professional disciplines needed to take this project from start to finish; and
- Flexible delivery of services that will allow the City to authorize work on a phase-by-phase basis that provides cost estimates and decision support at each step.

Con:

- None identified.

Project funding was approved by City Council in the Capital Improvement Program (CIP Project F1401), and the proposed expenditures are within the existing budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a professional services contract with ADW Architects for the architectural & engineering services needed to design and support construction of Fire Station #13.

RESOLUTION BOOK NO. 40 - PAGE 105

H. RESOLUTION NO. 18-236 - RESOLUTION ACCEPTING MCKINLEY AVENUE AS A CITY STREET

Summary: The consideration of a resolution to accept McKinley Avenue as a City street.

Asheville Area Habitat for Humanity has recently completed a 10-unit single-family residential community that is served by McKinley Avenue in the Shiloh Community and is offering this street for dedication to the City for public use.

McKinley Avenue from Taft Avenue to its dead-end is a developer-constructed street that has an average width of 20 feet with valley curb, a length of 0.09 mile, and a variable right-of-way width of 30 to 40 feet. In addition, street lights are in place along the entire length of the street.

Transportation Department staff, Fire Department staff, Planning Department staff, and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The street provides access to residential properties.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept McKinley Avenue as a City street.

RESOLUTION BOOK NO. 40 - PAGE 106

I. RESOLUTION NO. 18-237 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PURCHASE EXCESS LIABILITY AND WORKERS' COMPENSATION AND DAM INSURANCE POLICIES FOR SEPTEMBER 1, 2018, THROUGH AUGUST 31, 2019

Summary: The consideration of a resolution authorizing the City Manager to purchase excess Liability and Workers' Compensation and Dam insurance policies for September 1, 2018 through August 31, 2019.

Since 1993, the City of Asheville (City) has administered a self-funded insurance claims program. The self-funded program has provided significant savings in the overall cost of risk management for the City. The City Risk Management Division ensures provision of insurance and funding reserves to resolve liability and workers' compensation claims. The following proposed excess insurance policies protect the City from liability claims exceeding $500,000 and workers' compensation claims exceeding $600,000. The policies provide a stop-loss value for the City should compensable claims exceed the aforementioned amounts.

Line of Insurance	Coverage Limit	Deductible	Premium
Excess Liability (Primary)	$5,000,000	$500,000	$314,795
Excess Liability (Umbrella)	$10,000,000	Primary Deductible	$134,567
Dams	$15,000,000	$500,000	$190,890
Workers' Compensation	Statutory (No Limit)	$600,000	$234,681

Pro:

- Procuring insurance financially protects the City from losses exceeding $500,000 for liability claims and $600,000 for workers' compensation claims.

Con:

- None. The City's self-insured claims programs and excess insurance policies are sound financial and strategic risk management techniques.

The excess liability layered premium costs are $314,795 and $134,567. The dam insurance premium costs $190,890. The excess workers' compensation premium cost is $234,681. All premiums are included in the adopted FY19 budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to purchase excess liability and workers' compensation and dam insurance policies.

RESOLUTION BOOK NO. 40 - PAGE 108

J. RESOLUTION NO. 18-238 - RESOLUTION RESCINDING APPOINTMENT TO CIVIL SERVICE BOARD AND AUTHORIZING THE POSTING OF NOTICE SOLICITING NEW APPLICANTS

Summary: The City Council has authority to appoint two members of the five members of the Civil Service Board pursuant to 2009 N.C. Sess. Laws ch. 401, § 2(a) ("the Civil Service Act"). The Civil Service Act provides that such appointees "shall serve at the pleasure of the Council." On June 28, 2017, the City Council approved Resolution No. 17-90 appointing Mr. Alan Escovitz to the Civil Service Board until May 21, 2019. The City Council wishes to appoint a new member to the Civil Service Board in lieu of Mr. Escovitz. Therefore, (1) Resolution No. 17-90, appointing Mr. Alan Escovitz, 102 Macon Avenue, Asheville, NC, to the Civil Service Board, is hereby rescinded; and (2) the City Clerk is hereby authorized to post notice soliciting applications for appointment to the Civil Service Board to fill the remainder of Mr. Escovitz' term.

RESOLUTION BOOK NO. 40 - PAGE 109

K. RESOLUTION NO. 18-243 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MCGUIRE, WOOD & BISSETTE FOR LEGAL SERVICES AT AN HOURLY RATE, WITH CONTRACT NOT TO EXCEED 200,000

T Summary: The consideration of a resolution authorizing the City Manager to sign a contract with McGuire Wood & Bissette for legal services at an hourly rate, with contract not to exceed $200,000.

With the resignation on the City Attorney, Deputy City Attorney and Assistant City Attorney, the City is in need of general legal services until these positions are filled. Sabrina Rockoff, with McGuire Wood & Bissette has been working with the City on legal matters for the past several years.

Sabrina Rockoff has agreed to maintain office hours in City Hall and service as the Interim City Attorney until a new City Attorney is hired. Peter Kanipe, in addition to other staff with McGuire, Wood & Bissette will be assisting as needed. In no case will any attorney with McGuire Wood & Bissette advise staff on matters where there is a potential for a conflict of interest.

Pros:

- Provides much needed resources to the City during this interim period.
- Ms.Rockoff has been working for the City for several years and is representing the City in current matters.

Con:

- None identified.

The funding for these services will be realized from salary savings from vacant positions.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign a contract with McGuire Wood & Bissette for legal services at an hourly rate, with contract not to exceed $200,000.

RESOLUTION BOOK NO. 40 - PAGE 135

L. RESOLUTION NO. 18-244 - RESOLUTION APPOINTING SABRINA ROCKOFF AS INTERIM CITY ATTORNEY

Summary: Pursuant to N. C. Gen. Stat. sec. 160A-173, the City is required to have a city attorney to serve as legal adviser. Current City Attorney Robin Currin has resigned, effective September 27, 2018. With the resignation of Ms. Currin, the City is in need of an interim City Attorney until her position is filled. Sabrina Rockoff, with McGuire, Wood & Bissette, has agreed to maintain office hours in City Hall and serve as the Interim City Attorney until a new City Attorney is hired. Now, therefore, Ms. Sabrina Rockoff be and she is hereby appointed to the position as Interim City Attorney for the City of Asheville, effective 5:00 p.m. on September 27, 2018, until such time as the new City Attorney has been appointed; said appointment to be at the pleasure of the City Council and subject to all applicable law.

RESOLUTION BOOK NO. 40 - PAGE 136

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda, with the addition of Consent Agenda L. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. HURRICANE FLORENCE UPDATE

Interim Fire Chief Chris Budzinski provided a brief update to City Council on how the City of Asheville is preparing, and how the public should be preparing, for the upcoming anticipated Hurricane Florence. Key information includes (1) Hurricane Florence has strengthened and is a major hurricane; (2) indications that the storm may linger over the southeast through next weekend; (3) the forecast is subject to change; (4) impacts could be more significant if the track storm moves more westward; (5) greater impacts could be increased winds and especially heavy rain and flooding; and (6) we are expecting an increase in traffic and visitors due to coastal evacuations. He said the City of Asheville department status includes (1) departments are coordinating planning internally and with Buncombe County/NC Emergency Management to insure operational readiness; (2) staying connected and informed with local, state and federal partners; (3) working with the Community & Public Engagement Division for messaging; (4)

documenting all storm related activities (Hurricane Florence 2018); (5) preparing our workforce; and (6) currently, the Asheville Fire Department has been requested by NC Emergency Management to deploy or make preparations to deploy several resources to assist. He then reviewed with Council the City's Comprehensive Emergency Management Plan. Suggestions for resident preparations include (1) prepare their homes and family; (2) sign up for AVLAlerts; (3) download Ready NC app; and (4) follow City of Asheville and Asheville Fire Department on Twitter and other social media. Public Works Director Greg Shuler and Water Resources Director David Melton also explained how their respective departments are preparing.

B. UPDATE ON THE ASHEVILLE POLICE DEPARTMENT OPEN DATA

Assistant to the City Manager Jaime Matthews updated City Council on the Asheville Police Department (APD) Open Data requests. She said that three community meetings have been held, they have released traffic stop data and crime data; and the APD has created an Open Data web page. Datasets upgrades include (1) Citizen Complaint Data - final review by APD; (2) Use of Force Data - based on feedback from the community group, we are working on making the data more clear; (3) Emergency Calls - resolving issues to filter out records that have investigative holds; (4) Citation and Arrest Data - estimated release in mid-November; and (5) Demographics Information on all City Employees - working with Human Resources to determine how to release. Next steps include a follow-up meeting with community partners; continued work with APD and Information Technology Department to release remaining data; and continued work to validate and improve data sets that have been released.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER RENAMING A 500' PORTION OF RIVERSIDE DRIVE TO RIVER ARTS PLACE

RESOLUTION NO. 18-239 - RESOLUTION RENAMING A 500' PORTION OF RIVERSIDE DRIVE TO RIVER ARTS PLACE

E911 Addressing Coordinator Stuart Rohrbaugh said that this is the consideration of a resolution to rename a 500' portion of Riverside Drive to River Arts Place. This public hearing was advertised on August 31, 2018.

A portion of Riverside Drive is slated for realignment with major enhancements detailed in the River Arts District Transportation Improvement Plan (RADTIP). The realignment of streets and the construction of a new roundabout at the Lyman St intersection will reroute a newly constructed section of Riverside Drive to the west. It is the approximate 500' section remnant of existing Riverside Drive proposed to be renamed as River Arts Place. The street is currently a City maintained street. Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing. Notice of the public hearing has been posted prominently on each end of the street, published at least once in a newspaper and mailed to all property owners adjoining the affected right-of-way. Several community groups and organizations located in and around this neighborhood have been involved and support the proposed renaming.

Buncombe County Emergency Services Department, Buncombe County Planning Department, City of Asheville Traffic Engineering Division, Asheville Police and Fire Departments have confirmed that River Arts Place will not duplicate another street name elsewhere in Buncombe County in away that would impair the delivery of municipal or emergency services. The Public Safety Committee reviewed the request at their July 2, 2018, meeting and recommended to change the name of a section of Riverside Drive to River Arts Place.

Pro:

- Potential emergency response enhanced with a specific unique street name.

Con:

- Cost and labor of replacing two street name signs.

Material, fabrication and installation costs of the new street signs is included in the Transportation Department annual operating budget.

City staff recommends City Council change the name of a section of Riverside Drive to River Arts Place.

Mayor Manheimer opened the public hearing at 5:29 p.m.

Ms. Pattiy Torno spoke in support of the renaming, stating that there is overwhelming support from of the other associations in the River Arts District as well. She asked for help from City staff when the transition occurs for the public to be able to locate the artists.

Mayor Manheimer closed the public hearing at 5:32 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-239. This motion was seconded by Councilman Hayes and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 110

B. PUBLIC HEARING TO CONSIDER THE REZONING OF PROPERTY LOCATED AT 643 AND 99999 (FORMERLY 647) BREVARD ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT (CHANGED OFFICIALLY TO COMMUNITY BUSINESS II DISTRICT)

ORDINANCE NO. 4699 - ORDINANCE TO REZONE PROPERTY LOCATED AT 643 AND 99999 (FORMERLY 647) BREVARD ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO COMMUNITY BUSINESS II DISTRICT

Mr. Robert W. Oast Jr., attorney for the applicant, said that the applicant has officially requested the rezoning be changed from Highway Business District to Community Business II District. .

Urban Designer David Hazzard said that this is the consideration of an ordinance to rezone 643 and 99999 (formerly 647) Brevard Road from RS-8 Residential Single-Family High Density District to Highway Business District (which applicant has requested it be changed to Community Business II District). This public hearing was advertised on August 17 and 24, 2018. On August 28, 2018, this public hearing was continued to this date at the request of the applicant.

Mr. Hazzard said that the applicant is requesting to rezone properties from Residential Single Family High Density District (RS8) to Community Business II District located at 643 and 99999 (formerly 647) Brevard Road. The properties are identified as PINS 9627-92-4999 and 9627-93-8189. Note that on 8-9-2018 these two parcels were recombined as per a condition of the Planning and Zoning Commission approval. This recombination is recorded in Deed Book

5691, Page 858; however, as of the time of this report Buncombe County GIS has not been updated and so two property identification numbers (PIN) are referenced.

The parcel identified in Deed Book 5691, page 858 is zoned RS8, is approximately 5.23 acres, and currently has an existing structure that is vacant as per the applicant.

To the east is Brevard Road with adjacent parcels that are zoned RS8 and Office; some of these parcels are vacant, others contain residential single family structures and one appears to contain a dental office. Parcels to the north are zoned RS8 and some appear to contain residential single family structures while others are vacant. Parcels to the south are zoned RS8 and Commercial Industrial (CI) and some appear to contain residential single family structures while others are vacant. To the west is Hominy Creek and across the creek is a parcel zoned CI that contains Southern Concrete Materials.

The subject parcel is also located within a Manufactured Housing Community Overlay (MH-CO) and Manufactured Housing Overlay (MH-O) districts.

The city's Greenways Master Plan proposes the Hominy Creek Greenway to the west of the subject site and the Bent Creek Greenway to the east.

The applicant originally requested a standard rezoning of the two parcels to Commercial Industrial (CI); however, the request was amended to Highway Business (HB) at the Planning and Zoning Commision meeting on June 6, 2018. No specific development plans are proposed with this request. The applicant has now officially requested the rezoning be Community Business II District.

Two parcels located at 655 Brevard Rd. were rezoned from Office CZ to Office and RS8 on January 23, 2018, and the large 191 acre parcel of land located at 1568 Brevard Road (south of this site) was rezoned from CI to RM16 on November 28, 2017.

The Brevard Road corridor has been transitioning faster than zoning has kept up with. The subject parcels along with a number of the adjacent parcels are zoned RS8, which staff feels is no longer appropriate for this area. It is staff's opinion that the lots fronting on Brevard Road should be developed in a more mixed-use, higher density, pedestrian-friendly fashion as supported by City Council's goals and adopted plans.

Rezoning applications are reviewed by the Planning and Zoning Commission with final consideration by City Council. The Planning and Zoning Commission meeting was held on June 6, 2018, and the Commission voted 5-0 in favor of the rezoning. One resident spoke against the proposed rezoning. He had concerns about the compatibility with the existing single family residences adjacent to this parcel.

Living Asheville: A Comprehensive Plan for our Future, identifies this area as an Urban Corridor which are workhorse streets for transportation and commercial activity in Asheville and recommends redevelopment over time in the form of mixed-use residential, commercial and office uses that place emphasis on pedestrian-friendly amenities and access. The application was submitted when the Asheville Development PLan 2025 was in effect and similar goals were expressed with the redevelopment of corridors in a more mixed-use format over time.

This action does align with the 2036 Council Vision in the following areas (1) *A Well-Planned and Livable Community* - The proposed rezoning would allow for mixed-use developments; and (2) *Quality Affordable Housing* - The proposed rezoning would allow for higher density residential which normally is associated with affordable housing.

Considerations:

- The CB II zoning district allows for a mix of uses that are consistent with existing city goals and plans for this area.
- The CB II zoning allows for use that are appropriate for this corridor.
- The CB II zoning requires a vegetated buffer when adjacent to residentially zoned properties.

Based on the above findings and the analysis provided in the report, staff recommends approval of the proposed rezoning to Community Business II District, finding that the request is reasonable and consistent with City-adopted plans and strategic goals for development in this area.

The Planning and Zoning Commission reviewed this request at their meeting on June 6, 2018, and voted 5-0 in support of the project.

Mr. Oast explained how the area is transitional and is close to Council's goals for this area. He asked for Council's support for the Community Business II District zoning.

Mayor Manheimer opened the public hearing at 5:42 p.m., and when no one spoke, she closed the public hearing at 5:42 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the zoning map amendment from Residential Single Family High Density District (RS8) to Community Business II (CBII) and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The CBII district allows for use that are appropriate for this corridor, (2) The CBII district allows for higher density residential, and 3) Is compatible with current land uses and desired goals and future land uses as indicated in the new Comprehensive Plan. This motion was seconded by Councilman Haynes and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 210

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 18-240 - RESOLUTION APPROVING REVISIONS TO THE LAND USE INCENTIVE GRANT POLICY

Interim Community Development Director Jeff Staudinger said that this is the consideration of changes to the Land Use Incentive Grant Policy (LUIG), as recommended by the Housing and Community Development Committee. .

Upon review of changes recommended by the Affordable Housing Advisory Committee, and the results of staff polling of local developers, the HCD Committee is recommending the following amendments to the current LUIG:

1. Change language to emphasize "grant;"
2. Amend the current minimum period of affordable housing from 15 years to 20 years;
3. Adding a new section with a a 10 or 20 point incentive for units serving low-income households (60% AMI or less);

4. Allowing 5 points for projects on transit routes served by one hour frequency with plans for expanded services via Transit Master Plan, maintaining 10 points for those on twice-hourly frequency;
5. Expanding the definition of designated "Job Centers" to include Urban Centers as defined by the comprehensive plan and/or applicant making a case for large concentrations of employment within 1 mile radius - job calculations demonstrated by the applicant (a minimum threshold was not designated);
6. Including 20 points for permanent affordability (50 years or more);
7. Add 10 points for Brownfield Developments;
8. Give 20 points for downtown development; and,
9. Point system adjustment based on the changes above to a 200 point maximum (previously 140);
10. Require that applicant submit maps and documentation to demonstrate the location efficiency.

Pros:

- The proposed amendments will extend the period of affordability for a minimum of 20 years (as opposed to current policy minimum of 15 years).
- The proposed amendments recognize the benefit to the community of providing housing for those with low incomes, and creating significantly longer periods of affordability than the minimum requirements;
- The proposed amendments clarify and enhance the definition of locational efficiency;
- The proposed amendments extend the maximum term of the grant to 20 years.

Con:

- Some developers may feel that the minimum period of affordability is too long. However, staff notes that developers consulted about this did not generally object.

The proposed increase in the term of the grant could defer the net increase of City of Asheville property taxes for affordable housing developments for as much as 20 years.

Staff recommends that Council approve the proposed changes in the Land Use Incentive Grant Policy, as recommended by the Housing and Community Development Committee.

Mr. Staudinger said that he would bring Councilman Kapoor's recommendation (that overall net affordable housing units be more than they are the beginning) and Councilwoman Mayfield's recommendation (to use same language in the Housing Trust Fund regarding criteria and points around energy efficiency) to the Affordable Housing Advisory Committee for their thoughts.

Ms. Sabrah n'haRaven supported most of the revisions; however, she explained why she felt Council should reject the language awarding developers points for building within a ½ mile of a bus stop that only gets hourly service.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 18-240. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 112

B. RESOLUTION NO. 18-241 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE THE MOUNTAIN COMMUNITY CAPITAL FUND AND MANAGEMENT & TECHNICAL ASSISTANCE PROGRAM ALLOCATION OF SERVICES AND DUTIES AGREEMENT FOR THE ASSOCIATED DEPOSIT NOTE

Community & Economic Development Director Sam Powers said that this is the consideration of a resolution authorizing the City Manager to (1) execute the Mountain Community Capital Fund and Technical Assistance Program Allocation of Services and Duties Agreement ("Agreement"); (2) to release funds for the Deposit Note described in the agreement; and (3) to formalize an interim Steering Committee to launch implementation of the fund.

As part of Asheville City Council's Strategic Operating Plan/Vision 2036 in the Thriving Local Economy focus area, City Council adopted a goal to develop and implement a Buncombe Community Capital loan program with an emphasis on minority business. The plan states, "A variety of economic tools is critical in building the ladder of social and economic mobility and sustainability of our community. There is a perceived gap in the existing business and service provider network regarding access to capital for small and minority business. The City can support a strong public-private partnership to help diversify our business ownership by participating in this initiative."

Since the adoption of City Council's Strategic Operating Plan, City staff has been working with three lending agencies — Mountain BizWorks, Self Help and the Carolina Small Business Development Center — and Buncombe County to design a program to help minority businesses gain access to funds to start or grow a business. The City and its partners worked with Trade Street Advisors, LLC, a financial services advisory group, to design the Mountain Community Capital Fund and Technical Assistance Program. Through this process, the City and its partners have designed the program's governance and reporting requirements, legal documents, roles and responsibilities, and key services. These components are summarized in the Allocation of Services and Duties Agreement.

MCCF partners are now processing the agreement through their respective internal channels to gain final approval so that program implementation can begin. Once the agreement has been executed by all parties, partners will begin to market the fund and process loan applications.

As part of the MCCF partnership, each lender will provide quarterly reports with financial performance and data about their borrowers - including demographic, business and jobs information - to the City of Asheville Program Metrics Data Manager (Rosanna Mulcahy). Staff will provide a summary of these reports to the Finance Committee each quarter. The MCCF Operating Committee will make a report about overall performance to the Finance Committee on an annual basis.

The City Council Finance Committee approved this item at its meeting on August 28, 2018.

Pros:

- Provides the opportunity for the City to work with lenders that have experience in providing financing to small businesses in underserved areas and markets, and are committed to assisting the growth and development of small business enterprises, especially minority-owned enterprises
- Creates a partnership with Buncombe County to provide access to capital for small businesses by pooling funds to serve as collateral for loans

Con:

- This is a new program for the City of Asheville that will require ongoing staff support and coordination.

The City will make a 0% forgivable loan to Self-Help in the amount of $250,000 to provide additional collateral for loans to small businesses as part of the program, which will enable the participating lenders to make loans that they would otherwise not have made. The funds for this loan were included in the City's adopted FY 2016-17 General Fund budget and have been carried forward since then as part of the City's Assigned Fund Balance. Buncombe County is considering making a similar loan to the program in the amount of $200,000.

Staff recommends the City Council (1) authorize the City Manager to execute the Allocation of Services and Duties Agreement; (2) authorize the City Manager to release the funds for the Deposit Note as described in the agreement; and (3) formalize an interim Steering Committee made up of non-voting representatives from Mountain BizWorks, Self Help, the Carolina Small Business Development Center and two voting members from Buncombe County and the City of Asheville to launch the fund. After 180 days, City staff will seek a City Council's appointment of a permanent Operating Committee pursuant to the terms of the Agreement, including three community stakeholders.

Vice-Mayor Wisler said that if Buncombe County isn't able to participate with this program that she hoped the committee would focus on giving businesses within the City of Asheville priority.

Vice-Mayor Wisler and Councilman Young both thanked former Councilman Gordon Smith for his vision on this program several years ago.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved for the adoption of Resolution No. 18-241. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 121

C. RESOLUTION NO. 18-242 - RESOLUTION UPDATING CITY COUNCIL'S 2036 VISION AND ADOPTING CITY COUNCIL'S 2018-19 STRATEGIC PRIORITIES

Acting City Manager Cathy Ball said that this is the consideration of a resolution updating City Council's 2036 Vision and adopting City Council's Strategic Priorities for Fiscal Year 2018-2019.

In February 2018, Asheville City Council met at their annual retreat to reaffirm the 2036 Vision, and to update the strategic priorities for Fiscal Year 2018-2019. At that retreat, Council determined the need to amend the language of the vision categories. The amended language is as follows:

- An Equitable and Diverse Community
- A Well-Planned and Livable Community
- A Clean and Healthy Environment
- Quality Affordable Housing

- Transportation and Accessibility
- Thriving Local Economy
- Connected and Engaged Community
- A Financially Resilient City

Additionally, Council updated the strategic priorities from Fiscal Year 2017-2018 to develop the Fiscal Year 2018-2019 Strategic Priorities.

Pros:

- Provides Council and City staff with an overall direction and goals of the organization.
- Provides Council and City staff with a measure of success.

Con:

- None.

The updated 2036 Vision and Fiscal Year 2018-2019 Strategic Priorities will provide direction for Council and the Executive Management Team throughout the budgeting process.

City staff recommends that City Council adopt the resolution adopting the updates to Council's 2036 Vision and Fiscal Year 2018-2019 Strategic Priorities.

Acting City Manager Ball said that this is typically something Council would have been in March or April after their retreat; however, at this time we wanted to bring this forward to Council for their approval. She pointed out some major topic changes. She said that after Council approves these items, staff develops action actions. Staff will update those action items and bring back a report to Council.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-242. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 122

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Richard Fireman spoke to Council about the City Manager criteria and urged them to make sure that the new manager has experience in all aspects of sustainability.

Closed Session

At 6:13 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit, or potential lawsuit involving the following parties: City of Asheville vs. Parkway Court LLC. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To consider the qualifications of appointment of an individual public officer or employee. The

statutory authorization is contained in N.C.G.S. 154-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C.G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:27 p.m., Councilman Young moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:27 p.m.

Magdalen Bowlesson
CITY CLERK

Edward G Manheimer
MAYOR

Tuesday – September 25, 2018 - 3:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Peggy Rowe; and City Clerk Magdalen Burleson

Budget Director Tony McDowell said that we are starting the budget process differently this year by sharing with Council and the public detailed budget information for each department earlier in the process. As you might recall from the previous budget workshop Asheville has unique challenges around its cost of living, demographics, affordable housing, as well as significant daytime growth in the city population. At this worksession, Council will continue to hear about how these challenges are impacting departmental budgets. Council will also continue to hear about the impact of the national economy on the City as an employer, and also hear about our focus on equity and how that is changing our service delivery models.

The City also continues to experience significant community interest in planning and zoning as we address growth and the impact of non-residents. All of these and other factors demand changes in how services are delivered, in the kind of technology and the equipment needs that exist. Keeping pace with changes in these areas allows us to have the best facilities and equipment to provide quality services to our residents and visitors.

As important as our facilities, equipment and technology needs are, people are still the organization's most important resource. The people we hire here are integral to quality of the service delivery. Throughout the presentations last month, we noted that a large part of the budget is dedicated to the employees who provide the services.

Department Directors from the Fire Department, Human Resources Department, Parks & Recreation Department, and Community & Public Engagement each reviewed their organizational chart; overview of core services; key partners; budget and Fiscal Year 2018-19 budget drivers; prior year spending trends; Fiscal Year 2018-19 budget changes; department challenges; and Fiscal Year 2018-19 department goals from their respective department.

Various staff responded to several questions/comments raised by Council, some being, but are not limited to: are some of the critical incident programs in the Fire Department shared with all other departments; why is the Fire Department's pay cycle different than other City departments; what is the cost of providing fire control for Biltmore Forest; do people take advantage of childcare services at community meetings; are additional resources needed for the audio/visual/graphic design services; what was the idea behind a citizen academy; clarification on the swim program at the YWCA; how much land does Buncombe County own in Pack Square Park and why don't they contribute to the maintenance of that Park; interest in reviewed the operation of Riverside Cemetery; how is it decided on which department maintains which facility; have there been adjustments to the fee structure for the different park facilities; how are we controlling health insurance costs; what is the internal process of selecting each health care carrier; why does our health plan look the way it does; outline the health plan features that help protect employees and reduce cost savings to the taxpayers; and describe the City's wellness program and what are the benchmarks to make sure that the wellness programs are working. For those questions not readily answered, they will be provided to Council via a memorandum.

Due to time restraints, it was the consensus of Council to hear the Planning & Urban Design Department budget information at their next budget worksession.

Vice-Mayor Wisler asked the Finance & Human Relations Committee receive a report on the cost of having all Fire Department specialized services vs. the cost of buying them on an as-needed basis.

Mayor Manheimer adjourned the worksession at 4:41 p.m.

Tuesday – September 25, 2018 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Peggy Rowe; City Attorney Robin T. Currin; and Deputy City Clerk Sarah Terwilliger

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RECOGNITION OF DEPUTY CITY CLERK SARAH TERWILLIGER IN OBTAINING HER CERTIFIED MUNICIPAL CLERK DESIGNATION FROM THE INTERNATIONAL INSTITUTE OF MUNICIPAL CLERKS

B. ANNOUNCING THE LAST CITY COUNCIL MEETING OF CITY ATTORNEY ROBIN T. CURRIN WHO HAS ACCEPTED THE POSITION AS RALEIGH CITY ATTORNEY; AND WELCOMING INTERIM CITY ATTORNEY SABRINA ROCKOFF

C. PROCLAMATION PROCLAIMING OCTOBER 5, 2018, AS "ENERGY EFFICIENCY DAY"

Councilwoman Mayfield read the proclamation proclaiming October 5, 2018, as "Energy Efficiency Day" in the City of Asheville. She presented the proclamation to Mr. Sam Ruark-Eastes from Green Built Alliance, who briefed City Council on some activities taking place during the day.

D. PROCLAMATION PROCLAIMING OCTOBER 7-13, 2018, AS "FIRE PREVENTION WEEK"

Vice-Mayor Wisler read the proclamation proclaiming October 7-13, 2018, as "Fire Prevention Week" in the City of Asheville. She presented the proclamation to Fire Marshal Kelly Hinz and Fire & Life Safety Educator Charley Cox, who briefed City Council on some activities taking place during the week.

E. PROCLAMATION AGAINST GUN VIOLENCE IN ASHEVILLE

Mayor Manheimer read the proclamation against gun violence in Asheville. She presented the proclamation to Derrick Lee Jr.'s grandparents Rev. Eddie and Mrs. Tolbert, his parents Neisha Mitchell and Derrick Lee Sr., Mr. Jack Logan, and Rev. L.C. Ray.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 11, 2018

B. RESOLUTION NO. 18-245 - RESOLUTION AUTHORIZING THE ISSUANCE OF THE WATER REVENUE BOND ANTICIPATION NOTE

RESOLUTION NO. 18-246 - RESOLUTION FOR THE APPROVAL OF THE WATER REVENUE BOND ANTICIPATION NOTE FINANCING FOR CAPITAL PROGRAMS ASSOCIATED WITH CITY'S WATER SYSTEM

Summary: The consideration of the resolutions authorizing the issuance of the Water Revenue Bond Anticipation Note ("Water BAN") and directing the Interim City Manager and Chief Financial Officer to pursue debt financing for capital projects associated with City's water system. Such program includes the issuance of an interim, variable rate Water BAN in an amount not to exceed $40,000,000. The interim Water BAN will provide financing for projects which, upon completion, will be permanently financed through longer-term, fixed rate Water Revenue Refunding Bonds.

The City has reimbursement resolutions for Council approved capital projects associated with the City's water system authorized as part of the Fiscal Year (FY) 2019 Budget. The Water BAN draw program will reimburse the City for costs incurred to date and for costs that occur approximately over the next two years, and allow the City to complete many of the projects.

As a next step in the process, staff is seeking City Council's approval to complete the Water BAN financing with Bank of America, as the purchaser of the debt, which provided the lowest cost financing for the draw program interim financing. A summary of the proposals submitted by the competing banks was provided.

The resolution seeking approval of the Water BAN financing also authorizes the Interim City Manager and Chief Financial Officer to proceed with the Water BAN financing and execute and deliver the necessary documents to complete the financing.

Pro:

- Allows the City to move forward with the capital projects associated with the City's water system and Draw Program financing.

Con:

- None noted.

The initial draw on the Water BAN facility for costs incurred through to October's closing date is approximately $10,200,000. At current variable rates associated with this facility (roughly 2%), the annualized interest expense on the initial draw is $204 thousand. As further draws are made on the facility, the interest expense will increase accordingly. Funds are included in the City's FY 2018-2019 proposed debt service budget to cover these costs. They are also included in the City's multi-year capital improvements debt model.

Staff recommends that City Council approve the resolutions as they are proposed.

RESOLUTION NO. 18-246 - RESOLUTION BOOK NO. 40 -PAGE 139

C. RESOLUTION NO. 18-247 - RESOLUTION MAKING PROVISIONS FOR THE

POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BLUE RIDGE PRIDE FESTIVAL ON SEPTEMBER 29, 2018

Summary: The consideration of a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Blue Ridge Pride Festival.

Blue Ridge Pride has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Beer City Cup and allow for consumption at this event.

The Blue Ridge Pride Festival will be held on Saturday, September 29, 2018, from 11:00 a.m. to 7:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Blue Ridge Pride

Con:

- Potential for public safety issues

There is no fiscal impact.

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Blue Ridge Pride Festival.

RESOLUTION BOOK NO. 40 - PAGE 142

D. RESOLUTION NO. 18-248 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT 2018-19 CONTINUUM OF CARE GRANT CONSOLIDATED APPLICATION AND ACCEPT ANY SUBSEQUENT AWARD OF PROJECT FUNDING

Summary: The consideration of a resolution authorizing submittal of the Fiscal Year (FY) 2018 U.S. Dept. of Housing and Urban Development Continuum of Care (CoC) Consolidated Grant Application for annual CoC Competition on behalf of NC-501 Asheville-Buncombe Continuum of Care (CoC), accepting any funds subsequently awarded, and authorizing the City Manager to sign awarded HUD contracts.

The City of ASheville serves as the Continuum of Care Lead for the Asheville-Buncombe CoC (NC-501). Each CoC Lead is responsible for submitting the community's Consolidated Application for project funding during the CoC Competition. For FY 2018-19, the Asheville-Buncombe CoC is eligible to apply for $1,254,274 in renewal funding. The renewal projects currently assist in housing more than 150 formerly homeless individuals with case management support. HUD CoC funding also provided the financial support necessary to operate the Homeless Management Information System (HMIS) in NC-501. Additional bonuses are available for $75,256 and $59,044 for a Permanent Supportive Housing expansion project and a project targeted to serve survivors of domestic violence (DV). There is also $37,628 available for a CoC Planning Grant. The Planning Grant assists the Community and Economic Development Department in staff costs for CoC responsibilities related to homelessness.

The Homeless Initiative Advisory Committee (HIAC) annually appoints an ad-hoc Finance Subcommittee, comprised of individuals and agencies who did not apply for CoC funds, to review, score, and rank the Continuum of Care project applications and make funding recommendations to the HIAC with an order of project priority. The Finance Subcommittee's funding and ranking recommendations were approved unanimously by the HIAC. The HIAC recommended the following projects and order of priority to the Housing and Community Development Committee for the 2018 CoC Consolidated Grant Application.

At their September 18, 2018, meeting, the City Council Housing and Community Development Committee reviewed the application, and voted to recommend that City Council approve the application and associated actions.

Tier 1			
Project Application	**GIW/ Funding**	**Project Type**	**Project Score/Rank**
Permanent Supportive Housing Extreme Needs 2: Homeward Bound of WNC	$ 59,388	Permanent Supportive Housing	1
Shelter Plus Care Asheville-Buncombe: Homeward Bound of WNC	$315,748	Permanent Supportive Housing	2
Bridge to Recovery: Homeward Bound of WNC	$ 303,069	Permanent Supportive Housing	3
Permanent Supportive Housing Extreme Needs: Homeward Bound of WNC	$ 218,798	Permanent Supportive Housing	4
Homeless Management Information System: City of Asheville	$ 67,500	HMIS	5
Permanent Supportive Housing Extreme Needs 3: Homeward Bound of WNC	$ 73,311	Permanent Supportive Housing	6
Permanent Supportive Housing Extreme Needs 5: Homeward Bound of WNC	$ 141,204	Permanent Supportive Housing	7
Tier 2			

Permanent Supportive Housing Extreme Needs 5: Homeward Bound (Straddle)	$ 20,065	Permanent Supportive Housing	-
Rapid Rehousing Domestic Violence Bonus: Helpmate	$59,044	Bonus Project	8
New Project Expansion for PSH: Homeward Bound	$75,256	Bonus Project	9
Not Ranked			
Project Application	**Funding**	**Project Type**	**Not ranked**
CoC Planning Project: City of Asheville	$37,628	Planning Grant	n/a

Pro:

- Continuum of Care funding is a key resource for permanent supportive housing for homeless individuals and families, as well as operating the Homelessness Management Information System, which is necessary for NC-501 to receive this votal funding.

Con:

- Program funding does not meet the full demand for the housing subsidy needed to assist all the low-income homeless households in the community that need secure permanent housing.

Program funding is entirely from the U.S. Department of Housing and Urban Development. Existing Community Development division staff will administer the program. Matching funds for the CoC Planning Grant will come from Buncombe County. No general funds are requested to support this program.

Staff recommends City Council adopt a resolution authorizing the submission of the FY 2018 Continuum of Care Consolidated Grant Application and authorizing the City Manager to sign all necessary documents with the U.S. Department of Housing and Urban Development to accept the funds subsequently awarded.

RESOLUTION BOOK NO. 40 - PAGE 145

E. RESOLUTION NO. 18-249 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN THE US GEOLOGICAL SURVEY APPLICATION TO NAME A CREEK IN WEST ASHEVILLE "ORCHARD CREEK"

RESOLUTION NO. 18-250 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN THE US GEOLOGICAL SURVEY APPLICATION TO NAME A CREEK NORTHEAST IN DOWNTOWN ASHEVILLE AS "GORDON'S BRANCH"

Summary: The consideration of a resolution authorizing the City Manager to sign the US Geological Survey applications to name a creek in West Asheville "Orchard Creek" and a creek off Murdock Avenue "Gordon's Branch."

RiverLink's Name that Creek program is a local, grassroots program in which communities submit name suggestions for unnamed creeks and vote for the most fitting name. After a name is chosen, it is submitted first to the Asheville City Council for approval, and then to the U.S. Geological Survey (USGS) Board of Geographical Names for consideration. Once approved, the creek name will appear on official USGS maps.

Recently, RiverLink worked with residents to select names for two nameless creeks in Asheville city limits. The first naming campaign initiated by a West Asheville resident, focused on a small tributary of Rhododendron Creek that flows through West Asheville Park. The second campaign focused on a tributary of Reed Creek, and was led by a North Asheville resident. RiverLink create an online poll (Google Doc) for both campaigns to collect potential names from neighbors who live along the creeks and along with flyers being distributed by RiverLink. Additionally, a North Asheville resident volunteered to distribute more flyers to their neighbors regarding the online poll. After a month, RiverLink gathered the name suggestions and created a city-wide poll to select the official name. City residents were made aware of the poll through RiverLink's website, newsletter, and social media pages.

In order to complete the application to the United States Geological Survey (USGS) to name the two unnamed creeks noted in this report, it is submitted first to the Asheville City Council for approval and then signed by a local government official to demonstrate support and to certify that the naming process followed USGS guidelines.

Staff presented information on the two campaigns for creek naming to the Council Planning and Economic Committee on September 10, 2018, with an unanimous vote to move it forward for approval by City Council based on the documentation by RiverLink on the outreach and voting for the naming of the two aforementioned unnamed creeks.

Pros:

- Naming of a creek or stream can bring attention to its existence, help identify it as a part of neighborhoods ecosystem, and encourage environmental stewardship that enhances quality of life.
- Supporting this community-driven effort further develops partnerships between groups like RiverLink, West and North Asheville neighborhoods and the City.

Con:

- None identified.

There is no fiscal impact related to this item.

City staff recommends City Council authorize the City Manager to sign the USGS form to name the creek in West Asheville to "Orchard Creek" and the creek in North Asheville off Murdock Ave. to "Gordon's Branch."

RESOLUTION NO. 18-249 - RESOLUTION BOOK NO. 40 - PAGE 146
RESOLUTION NO. 18-250 - RESOLUTION BOOK NO. 40 - PAGE 147

F. RESOLUTION NO. 18-251 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS UNDER THE EXECUTIVE OFFICE OF THE PRESIDENT, OFFICE OF NATIONAL DRUG CONTROL POLICY FOR THE HIGH INTENSITY DRUG TRAFFIC AREA 2017 GRANT

ORDINANCE NO. 4700 - BUDGET AMENDMENT THROUGH THE OFFICE OF NATIONAL DRUG CONTROL POLICY TO MODIFY THE HIGH INTENSITY DRUG TRAFFIC AREA 2017 GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to accept grant funds under the Executive Office of the President, Office of National Drug Control Policy, for the High Intensity Drug Traffic Area (HIDTA) 2017 grant in which the Asheville Police Department (APD) serves as the fiduciary for the Asheville Area HIDTA Task Force; and (2) a budget amendment in the City's Special Revenue Fund in the amount of $55,639.69.

This modification of $55,639.69 is an increase to the previously approved award of $47,335.00 for a new total of $102,974.69 which reflects the full fiduciary responsibility assumed by APD.

The mission of the HIDTA program - authorized by the Anti-Drug Abuse Act of 1988 and administered by the Office of National Drug Control Policy - is to reduce drug trafficking in the most critical areas of the county, thereby reducing the impact of illegal drugs in other areas. Asheville has for many years been designated as a HIDTA site. Asheville's HIDTA serves as a key drug trafficking reduction effort, critically positioned between the Atlanta HIDTA and the Appalachia HIDTA.

The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County Sheriff's Office, Henderson County Sheriff's Office and McDowell County Sheriff's Office. The Asheville HIDTA is a component of the Asheville DEA Task Force. The HIDTA task force primarily concentrates on high volume, high value drug trafficking. As an example, the task force was recently involved in a case involving the large seizure of controlled substances from persons with local and National ties, involved in the trafficking of narcotics in this region and beyond.

The City of Asheville currently serves as the partial fiduciary for the Asheville HIDTA and has recently agreed to expand this service to include all program expenses. The allotted funds from the Federal government will be used for investigative purposes and other program expenses including employee overtime, mobile phones and miscellaneous supplies. The expenditure of all funds are tracked and audited by both local and Federal authorities.

This request for a budget amendment will be presented to the Finance and Human Resources Committee on September 25, 2018, and any response other than unanimous approval to move forward to the full City Council will be noted at that meeting.

Pros:

- Federal HIDTA funds will be used for investigative purposes and program expenses.
- Continue to foster partnerships with Federal and local law enforcement agencies.

Con:

- Funding from the Office of National Drug Control Policy is awarded annually.

There is no impact to the City's General Fund Budget.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept the grant funds; and (2) a budget amendment in the amount of $55,639.69 through the Office of National Drug Control Policy to modify the HIDTA 2017 Grant.

RESOLUTION BOOK NO. 40 - PAGE 148
ORDINANCE BOOK NO. 32 - PAGE 213

G. ORDINANCE NO. 4701 - BUDGET AMENDMENT FOR DWI TASK FORCE 2019 YEAR #06 GRANT

Summary: The consideration of budget amendment, in the amount of $232,438.25, from the North Carolina Governor's Highway Safety Program (NCGHSP) for a grant extension to fund 1 year of the multi-jurisdictional DWI Task Force involving the Asheville Police Department (APD) and Buncombe County Sheriff's Office (BCSO)

In Asheville and Buncombe County, the number of impaired drivers has been a serious concern to citizens and law enforcement for many years. In October 2013, the North Carolina Governor's Highway Safety Program granted the Asheville Police Department a four year grant to combat impaired driving incidents within Buncombe County. The Asheville Buncombe DWI Task Force (DWI Task Force) was developed and put into action August 2014. Since then, the DWI Task Force has made 920 Driving While Impaired arrests and has conducted 54 drug evaluations.

Public education on the dangers of impaired driving is a focus area of the DWI Task Force. Through partnerships with the Asheville Police Department Traffic Safety Unit and the Asheville Downtown Business Association this educational effort has been directed to some key audiences. These educational efforts have included presentations at local high schools and downtown festivals. These educational efforts have included the following:

- Distribution of information on the impaired driving laws and alternative ways to get home.
- Surveying festival participants anonymously about their willingness to drive at a point where they believe their blood alcohol levels exceed the legal limit.
- Allow festival goers to use roadside instruments to check their breath to determine their level of intoxication.

These interactions allow the team to engage the public in conversations and educate them on what the Illegal Per Se law is and what a 0.08 BAC feels like. The DWI Task Force efforts have directly resulted in a 40 % reduction with impaired driving fatalities in Buncombe County as of October 2016. The DWI Task Force is also a member of the board for Buncombe County Sobriety Court. Members actively assist defendants assigned to this program through direct interaction following a DWI charge.

In reviewing these statistics, the NCGHSP contacted APD and suggested the DWI Task Force continue with its efforts of reducing the number of DWI related collisions, injuries and deaths in Asheville and Buncombe County, as well as educating the public on impaired driving and its effects. NCGHSP has recommended the continuation of the existing grant and authorized additional funding in the amount of $451,278.90 in FY 2019. This funding covers the cost to train and pay for six officers focused on DWI enforcement and training. The City of Asheville will match this grant at 75% for a cost of $232,438.25. Buncombe County will match their portion of the grant at 75% for a cost of $106,020.93. Under this grant, APD would continue to supply one sergeant and three officers while BCSO would continue to supply two deputies. These six officers would continue to conduct DWI enforcement throughout Asheville and Buncombe County and conduct Traffic Safety Checking Stations throughout the County. The appointed officers will also continue to hold educational events for the public.

This action was recommended unanimously by the Finance and Human Resources Committee on December 19, 2017.

Pros:

- NCGHSP grant funds used to pay for 25% of the costs of salary, benefits and training for officers participating in the DWI Task Force.
- Potential reduction in impaired driving collisions, injuries and deaths throughout Asheville and Buncombe County.

Con:

- Funding from NCGHSP is evaluated annually and not fully guaranteed beyond this year.

The City match for this grant was included in the Adopted FY 2018-2019 General Fund Police Department budget. An additional match amount will need to be included in the FY 2019-2020 budget.

City staff recommends City Council adopt a budget amendment in the amount of $232,438.25 to establish a budget for this year's DWI Task Force 2019 Year # 06 grant.

ORDINANCE BOOK NO. 32 - PAGE 215

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. ACTIONS ITEMS FROM 21ST CP SOLUTIONS REPORT

Police Chief Tammy Hooper and Community & Public Engagement Director Dawa Hitch provided Council with the following report: Below are present actions and updates from the Asheville Police Department and City

Manager's Office undertaken to implement recommendations from the 21 CP Solutions Report.

In April 2018, 21 CP Solutions, LLC was hired by the City of Asheville to conduct a policy and procedure review of the excessive force incident involving the arrest of Johnnie Jermaine Rush in August 2017. The city requested an assessment that included: a review of the incident that gave rise to arrest, the tactics utilized in affecting the arrest, the police department response, the city administration response, and the community response. The report with recommendations delivers on the police and city administration components. Representatives from 21 CP Solutions presented the key findings and recommendations to City Council on August 28, 2018. This memo serves as an update on the recommendations made to the Asheville Police Department, City Manager's Office, and City Council.

Update:

Recommendation: Revise the Field Training Officer (FTO) selection and recruitment process.

- APD has finalized the comprehensive review and revisions to Field Training Program Policy and the Field Training Manual.

- The revised manual includes a more robust application and selection process for FTO, including the following:

  - Field Training Officer Selection Selection processes will be announced by the Recruitment and Career Development Section, with the announcement outlining all eligibility requirements. Interested eligible officers must submit an Application for In-House Reassignment (P-14) accompanied by a Supervisor Recommendation Form (P-16) endorsed by their chain of command. The selection process will include, at a minimum, a panel interview and an applicant review by the department's FTO committee. The FTO committee should consider each applicant's quality of work, work ethic,and disciplinary/safety record. A final banded list will be supplied to the Patrol Operations Commander. The list will be forwarded through the chain of command to the Chief of Police for final approval.

Recommendation: Officers returning to patrol from another assignment should be re-assessed prior to resuming FTO duties

- The revised Field Training Manual and Policy states the following:

  - FTOs who have been inactive or on assignment outside of patrol for an extended period of time will be reviewed for suitability as a FTO before returning to active status. Returning FTOs may be required to attend refresher training prior to the assignment of a trainee.

  - Removal of Field Training Officers from the FTO program is at the discretion of the Chief of Police.

Recommendation: APD should routinely assess its early intervention system triggers, adjusting when necessary.

- APD has updated and revised its Early Intervention System policy. This policy establishes guidelines for a Personnel Early Intervention System (EIS), a pro-active, non-disciplinary system that seeks to identify and positively influence conduct or performance related problems exhibited by individual employees. The purpose is to provide systematic reviews of specific, significant events involving agency employees. Revisions include:

  - Lower thresholds that trigger review

  - Added review of body worn camera if appropropriate

  - All reviews go to Deputy Chiefs and Chief

  - Professional Standards will ensure that the employee's progress is monitored until the established end date regardless of changes in the employee's assignment or supervision.

Recommendation: Consider adopting a peer intervention program.

- 21 CP Solutions will assist APD in coordinating EPIC, Ethical Policing is Courageous, training. EPIC is a peer intervention program developed by the NOPD, in collaboration with community partners, to promote a culture of high-quality and ethical policing. EPIC

educates, empowers, and supports the officers on the streets to play a meaningful role in "policing" one another. EPIC is a peer intervention program that teaches officers how to intervene to stop a wrongful action before it occurs.

At its core, EPIC is an officer survival program, a community safety program, and a job satisfaction program. EPIC represents a cultural change in policing that equips, encourages, and supports officers to intervene to prevent misconduct and ensure high-quality policing. Everyone benefits when potential misconduct is not perpetrated or when a potential mistake is not made. See more: http://epic.nola.gov/home/

Recommendation: All APD personnel and Asheville EMS should be notified and trained regarding medical treatment requirements in the use of force policy.

- This is included in the Use of Force policy. All officers have been reminded of the following portion of the policy:
    - 402.5 RENDERING AID A. Following any use of force, and/or apprehension when safe to do so officers will evaluate the subject for injuries and render appropriate medical aid within their training as soon as practical. Officers will observe the subject for any possible changes. [4.1.5]
    - B. Officers must immediately request an ambulance, paramedics or other appropriate medical personnel for all subjects who show signs of injury or complain of injury following any use of force and/or apprehension. [4.1.5]

Recommendation: APD should implement a more structured policy regarding BWC audits, particularly for officers identified as possibly being problematic.

- A more robust Body Worn Camera policy incorporates viewing of body worn camera footage in coordination with the Early Interventions System.

Recommendation: APD should prioritize the timely release of information and response to the release of information.

- PIO working on crisis communication templates and will complete a SWOT analysis, to include public input, to inform a plan for release of information in coordination with City Council and the City Manager's Office.

Recommendations: APD should consider developing a policy and training for appropriate engagement with community members on social media, particularly with regard to police events.

- APD has adopted a new Social Media policy that provides guidelines to department members on the professional and personal use of social media. The policy is intended to address only such social media activity that is fundamentally inconsistent with agency values, bears on an employee's official duties, or suggests that the employee is posting on behalf of the APD. This policy does not prohibit department members from engaging in any social media activity protected by the First Amendment.

Recommendation: Develop clear protocols for when individuals at different levels of city government should be informed about particular events.

- This task has been added to Communication and Public Engagement (CAPE) Department's work plan as a priority for this fiscal year.

Recommendation: Develop clear notification procedures to inform individuals on the City Council of possible high-profile issues in a way that is consistent with policy and allows the information to remain confidential if necessary

- In the coming weeks, a SWOT analysis will be performed. This analysis will be used to provide a foundation for standard operating procedures (SOP) for high-profile issues. The City will engage outside resources to complete the SOP which will include standards and procedures for departments, City Manager and City Council.

Recommendation: Implement a crisis communication policy within the City Council, City Manager, and Mayor's office to coordinate press releases and correspondence in concert with APD's PIO when communication with the media.

- A SWOT analysis, which will be used to inform the development of standard operating procedures (SOP) for high-profile issues, will be performed in the coming weeks. The analysis will provide foundational information for the outside resource the City engages to complete the (SOP) for high-profile issues. The SOP will include but not be limited to a statement of roles, responsibilities and decision-making authority for information shared in press releases.

Recommendation: The City should consider retaining a firm to provide crisis response services to the APD and the City of Asheville in the future.

- This recommendation is being discussed as a priority in the current budget process.

In response to Councilwoman Mayfield, Police Chief Hooper said that they would review all complaints of excessive force prior to initiating any type of internal or administrative investigations or actions. In addition, they are working with the District Attorney on a document that lays out a process for this.

When Councilman Kapoor asked if it was a fair statement to say that for all the recommendations the 21st CP Solutions made, the Police Department has either adopted them or is in the process of adopting them as it relates to the Police Department, Police Chief Hooper replied yes.

Acting City Manager Rowe said that regarding the recommendation regarding the Civil Service Board, they are continuing to work with the City Attorney's Office to differentiate what takes legislative action and what we can do in-house. We will report back to Council in the near future.

In response to Councilwoman Mayfield, Ms. Hitch said that there are now templates in place for communication with the Council and the public if we find ourselves in an unfortunate

situation.

B. UPDATE ON EQUITY & TRANSPARENCY ITEMS FROM MARCH 20, 2018, WORKSESSION

Interim City Manager Cathy Ball updated Council on equity and transparency items from the Council's March 20, 2018, worksession. She said that on March 20, 2018, Mayor Manheimer and Council held a special work session for the purpose of reaching consensus regarding direction they would give staff to explore and make changes to increase equity and transparency following the Mr. Johnnie Rush and former Officer Hickman incident that took place in August 2017. An initial update was provided to Council on the status of those requests on May 22, 2018. The purpose of this memo is to provide an additional update (shown in bold) on the status of these requests.

- The first topic discussed was a third-party review of the Asheville Police Department (APD). Specifics include implementation of any recommendations of the review, to include:

    1. All excessive use of force complaints to be reviewed criminally, immediately.
    UPDATE: This change has been implemented.

    2. Change administrative procedures to ensure Council notification of excessive use of force occurrences and/or complaints, and adopt a plan for notifying the DA and the SBI in all cases.
    UPDATE: A formalized process has been initiated with the DA.

    Next steps: In coordination with City's Legal Department, APD will be entering into a formal agreement with the DA in the near future.

- A third-party will conduct a review around Mr. Johnnie Rush and former Officer Hickman and to give Council a set of recommendations around that incident.
UPDATE: 21CP completed their report and presented their findings to Council at their August 28, 2018 meeting.

    Next steps: An update will be provided by Chief Hooper at the September 25, 2018 Council Meeting on the recommendations made in this report.

- The next topic discussed was the establishment of the Human Relations Commission of Asheville (HRCA) per the Blue Ribbon Task Force recommendations, to include:

    1. HRCA or Police Advisory Subcommittee to review all use of force occurrences and excessive use of force complaints.
    UPDATE: HRCA has been formed and is meeting regularly.

    2. Enhance Equity and Inclusion Department staffing.
    UPDATE: Three additional positions were approved and budgeted. The office is in the interview process for the Inclusive Engagement and Leadership Manager position, which is expected to be filled in October 2018. The Training Consultant for Equity and Inclusion position is currently posted and interviews will begin in October.

Next steps: The Human Relations Analyst position is expected to be filled in January 2019.

- Council instructed City Attorney Currin to explore whether a staff person from the Equity and Inclusion Department is allowed to review APD body camera footage.
  UPDATE: Person in the Equity and Inclusion Department is not allowed to to view body camera videos under NC General Statute 132-1-4A.

  Next steps: Council is consider requesting a change in this legislation.

- It was the consensus of Council that the third-party review of the APD include a review of the APD policy of auditing body cam footage, along with a revisit of the 60-day retention of body cam footage.
  UPDATE: The completed 21CP report includes this APD policy. The body cam footage retention period was revisited and has now been changed to 90 days.

  Next steps: An update will be provided by Chief Hooper at the September 25, 2018 Council Meeting on the recommendations made in this report.

- It was suggested that the City explore how it might fund an outside legal position to advocate for individuals filing complaints against law enforcement. At the time, Mayor Manheimer stated the idea is to fund an attorney, perhaps at a non-profit like Pisgah Legal Services, who could represent people who are bringing complaints against law enforcement - APD and/or Sheriff's Department. Some preliminary discussions with the Chairman of the Buncombe County Commissioners and the Mayor about the possibility of co-funding this position had taken place as of the date of the worksession.
  UPDATE: In the report provided to you in May we stated that some meetings have taken place to explore this concept. City and County Officials met to discuss options. The Interim City Manager, Mayor Manheimer, and County staff met with local nonprofits to evaluate their ability to provide this service, but no service provider has been identified at this time.

  Next steps: The Interim City Manager will continue to work on this item.

- The next topic discussed was review of City of Asheville Personnel Policies and Civil Service Board Rules to allow the city to remove employees who demonstrate terminatable conduct.
  UPDATE: The City's Personnel Policies are still in the process of being reviewed and updated. Human Resources is working with legal to move forward.

  Next steps: Once finalized, the updated Personnel Policies will be adopted.

- The next topic discussed was to create an aggressive plan to hire minority officers. As Mayor Manheimer stated during the worksession, work is well underway to do this.
  UPDATE: Human Resources and the Office of Equity & Inclusion have been working together to address City-wide recruiting policies, practices and procedures that are barriers. All job postings include a statement about the equity, inclusion and diversity values of City government. Additionally, minimum

qualification are be reviewed and changed for accuracy, and open positions are being posted where more diverse applicants will see opportunities.

The Equity Action Plan includes specific items to eliminate disparities in citywide hiring, promotion and retention over time. Recruiting and retaining people of color to live and work in Asheville is a challenge for all major employers. Barriers include affordable housing, a reputation for an unwelcoming and exclusive environment and culture, lacking a visible and thriving People of Color middle class, and low wages, and lack of People of Color in Leadership roles being visible. A recruiting plan, plus actions to address the challenges listed is necessary to see change in the future.

The Equity and Inclusion Office, Human Resources Department and community members have provided feedback on APD's Recruiting Plan.

Next steps: APD will continue to implement its recruiting plan.

- The next topic discussed suggested that the City encourage and educate citizens about the process of bringing forward complaints against law enforcement coupled with the use of an unbiased policing hotline.
  UPDATE: The complaint form (which can be submitted in person, by email, or online) and other contact information are currently available on the APD homepage. APD has made this information more visible and accessible. In 2018, APD developed a professional standards brochure that explains how to file a complaint and the complaint process.

  Next steps: CAPE and APD will continue to explore viable options for a hotline and other ways to provide the community with additional access to the complaint process.

- The final topic discussed was to support legislative changes, to include (1) Support for HB 165 (citizen review of police complaints); (2) Civil Service Board changes; and (3) Personnel law changes (not just for police, but any employee) to allow complainants to learn the results of their complaint. Council voted to support legislative changes to (1) support HB 165; (2) Civil Service Board changes; and (3) Personnel law changes to allow complainants to learn the results of their complaint.
  UPDATE: These considerations are underway. A meeting with legislative delegate has taken place and language was proposed.

  Next steps: This will likely be revisited prior to the next legislative session.

In response to Councilwoman Mayfield, Acting City Manager Rowe said that staff is still working with the City Attorney's Office on the personnel policy changes. It is anticipated that the Civil Service Board will review and adopt their Rules in October and then onto City Council for their consideration.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 18-252 - RESOLUTION ADOPTING THE BURTON STREET NEIGHBORHOOD PLAN

Planning & Urban Development Director Todd Okolichany said that this is the consideration of adoption of the Burton Street Neighborhood Plan.

The proposed I-26 Connector project (State Transportation Improvement Project (STIP) I-2513) is a seven mile interstate freeway that would connect I-26 in southwest Asheville to U.S. 19/23/70 in northwest Asheville. The Burton Street neighborhood is one of 10 communities being impacted by the proposed I-26 improvements and has been classified as an Environmental Justice population that has incurred reoccurring impacts. With an Environmental Justice designation, the N.C. Dept. of Transportation (NCDOT) can provide additional mitigation opportunities to lessen the burden of the project on the Burton Street neighborhood.

To address and remedy the anticipated impacts to the Burton Street community as a result of the I-26 improvements, a community driven mitigation strategies plan was initiated by NCDOT. At the request of the City of Asheville Planning and Urban Design Department, a neighborhood planning component was added to the project scope. The goal of the project was to develop a *Burton Street Neighborhood Plan* that would be adopted by the city as a revision to the 2010 *Burton Street Community Plan* and that includes a list of mitigation strategies related to the I-26 Connector project, as well as other neighborhood goals and strategies. NCDOT retained Public Participation Partners ("the consultant") to prepare the plan and act as the liaison between the Burton Street community, NCDOT and City of Asheville.

In partnership with the Burton Street Community Association and Burton Street neighborhood, the consultant developed a neighborhood plan over an approximately 10-month long period. The initial draft was released for public review on April 29, 2018, and updated in June and August 2018 based on input from the public, City of Asheville staff, the Planning and Economic Development (PED) Committee and the NCDOT. A number of community meetings and surveys were also conducted during this time. At its July 2018 meeting, PED members recommended moving forward with the plan for review and consideration by the Planning and Zoning Commission and the full City Council.

The plan is organized by the following sections:

- Introduction
- Burton Street History
- Existing Conditions
- Local Area Plans
- Burton Street Neighborhood
- Themes, Goals and Strategies
- NCDOT Mitigation
- Implementation

The main strategies are found in the Themes, Goals and Strategies chapter of the plan. This section also includes an analysis of how the plan's goals and strategies align with the recently adopted *Living Asheville Comprehensive Plan*. All strategies have been designed in accordance with NCDOT and National Environmental Policy Act (NEPA) policies and procedures.

The Implementation chapter includes a list of all the plan's strategies, including those to be coordinated and/or implemented by NCDOT to mitigate community impacts resulting from the I-26 Connector project, by the City of Asheville or Burton Street Community Association. As part of the process, community members were also asked to priority strategies in the plan. The following strategies were ranked the highest:

- Improve Community Center infrastructure
- Improve existing sidewalks to meet ADA standards
- Support design guidelines and policies that aim to preserve or enhance neighborhood character
- Expand Community Center programming
- Construct a new park and community gathering space at Smith Mill Creek that will include an access point to the future greenway
- Install historic markers throughout the neighborhood
- Install Burton Street community gateway signs
- Establish and implement programs to reinvest into current residential properties
- Stabilize property tax rates by promoting affordability by design principles in new development

This project was funded by NCDOT as part of the I-26 Connector Project. Staff resources were used throughout the project to provide technical assistance, review materials and during community engagement.

The *Burton Street Neighborhood Plan* aligns with the 2036 Council Vision in the *A Well-Planned and Livable Community area.* The *Burton Street Neighborhood Plan* includes recommended mitigation measures for impacts related to the I-26 Connector project, while also including a neighborhood plan element that includes updated information and strategies for the Burton Street neighborhood that will align with city goals. The plan also aligns with Goal 23: Continue to work toward achieving goals on I-26, which includes minimizing impacts adjacent to neighboring communities.

The Planning and Zoning Commission held a public hearing on September 5, 2018, to review the plan. The commission voted unanimously (7-0) to recommend approval of the *Burton Street Neighborhood Plan*.

He then introduced Simone Robinson, project consultant, who said that over the course of the I-26 project planning process, the N.C. Dept. of Transportation (NCDOT) met with the Burton Street community to discuss and develop ways to minimize and mitigate project impacts. The Burton Street Neighborhood and Mitigation Strategies Plan project was established to address the anticipated I-26 Connector impacts to the Burton Street community and provide residents with an opportunity to be involved in the mitigation development process. And in an effort to ensure the inclusion of a Burton Street neighborhood plan in the comprehensive plan update, the City of Asheville Planning and Urban Design Department requested that a neighborhood planning component be added to NCDOT's mitigation planning process for the Burton Street neighborhood.

Since the projects inception in 2017, 3 community meetings and one stakeholder group meetings were held to obtain feedback from Burton Street neighborhood residents, businesses and community organizations on their priorities and concerns.

Based on the community feedback provided during the Burton Street community open houses, stakeholder group meeting and online community survey, a neighborhood vision, plan themes, community goals and strategies were developed. These components serve as the framework for the draft Burton Street Neighborhood Plan.

The Burton Street Neighborhood Plan was developed by the Burton Street Community Association in partnership with NCDOT and the City of Asheville to address potential impacts resulting from the I-26 Connector project and current community concerns, enhance the quality of life of the Burton Street community, and preserve the strong sense of community among Burton Street residents.

The Burton Street Neighborhood Plan is comprised of the following components: a project background, plan development process overview, neighborhood overview including: history, existing conditions, community resources and demographic data; 2 Themes – A livable built environment with 6 goals and 15 strategies addressing infrastructure needs and improvements, and A Healthy community with 6 goals and 12 strategies addressing community resource improvements, affordable housing, and measures to increase community safety. Each goal details its compatibility with the Living Asheville Comprehensive Plan.

The plan also includes a section dedicated to NCDOT mitigation, and plan implementation that outlines Burton Street community priorities, the responsible agency and necessary coordination for each strategy. NCDOT anticipates that the strategies that they are responsible for will be incorporated into the I-26 project contract for completion.

Mr. DeWayne Barton, resident of the Burton Street community, Ms. Vivian Conley, President of the Burton Street Association, and Ms. Margaret Fuller hoped that the plan will be implemented soon.

Councilwoman Mayfield felt it would be helpful to have the neighborhood association to provide to Council their top three priorities that the City can work on in order to begin implementation of the plan.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-252 to adopt the *Burton Street Neighborhood Plan* in that the plan: (1) Includes mitigation strategies related to the I-26 Connector project; (2) Was developed with community input and reflects the Burton Street neighborhoods' vision for the future; (3) Provides guidance on goals and strategies that aim to improve the neighborhood; and (4) Aligns with the *Living Asheville Comprehensive Plan*. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 149

B. RESOLUTION NO. 18-253 - RESOLUTION APPROVING A TUNNEL ROAD/SOUTH TUNNEL ROAD CORRIDOR STUDY (FROM BEAUCATCHER TUNNEL TO SWANNANOA RIVER ROAD)

Urban Planner Vaidila Satvika said that this is a report on the upcoming two-year pilot for corridor studies and a consideration of a resolution authorizing the City Manager to select Tunnel Road for a corridor study that would be managed by the Transportation Department and the Department of Planning and Urban Design.

During the Fall of 2017, the French Broad River Metropolitan Planning Organization (MPO) presented an opportunity to member jurisdictions to conduct corridor studies to better inform local priorities and needs. The MPO demonstrated that there is a missing gap for priority projects that are identified as significant corridors in planning documents that fail to have the data

and conceptual framework to be able to advance projects for funding in the State Transportation Investment Program.

The MPO's federally mandated Congestion Management Process (CMP) highlights priority congestion corridors to inform local planning work, aiming to transcend the historical reaction to add capacity to the system by providing more lane miles, which has been demonstrated to induce demand that over time adds to the problem. The problem is not insignificant as the conventional response to congestion has been to plan for more automobiles, leading to fewer transport options, more suburban land development, increased parking and more dispersed development patterns. It is understood now that, if left unchecked, this cycle continues to lead to more automobile dependency and sprawl. By better understanding our priority corridors we can plan for an alternative to the auto-oriented cycle.

Asheville and Buncombe County have each agreed to an increase in dues paid to the MPO to provide a local match to fund a corridor study in each jurisdiction. Asheville and Buncombe County will each receive a total of $157,500 for a corridor study of their choosing (with $17,500 per study set aside for MPO staff administrative and operations costs to manage the studies; each study totals $175,000).

The recently adopted Living Asheville Comprehensive Plan has also prioritized corridor studies/small area planning as a way to achieve several of the plan's strategies, such as the creation of transit-supportive corridors and more robust neighborhood planning (see Goal #34). By collaborating with the Transportation Department, we ensure that land use and zoning considerations dovetail with transportation issues.

The Planning and Urban Design Department with Transportation Department and MPO support, ranked corridors throughout the city using several criteria, including crash rates, traffic volumes, equity, redevelopment potential, growth projections, and various transit data. Based on this criteria the highest ranked priority corridors are Patton Ave (Haywood Rd to I-240), Tunnel Rd/S Tunnel Rd (Beaucatcher Tunnel to Swannanoa River Rd), and Hendersonville Rd (I-40 to Mills Gap Rd). He reviewed the highest ranked corridor locations. Buncombe County is selecting Hendersonville Road for their preferred corridor study, focusing the study on the area from the Blue Ridge Parkway to Mills Gap Road.

He showed the context of the corridors in relation to the Future Land Use map that was developed through Living Asheville. The Patton Avenue corridor would link two Urban Centers (near Haywood Rd and K-Mart) with large parcels interconnected by the Urban Corridor future land use designation. If selected, this corridor study would need to coordinate the intersection of the future I-26 reconfiguration where I-240 meets the Jeff Bowen Bridge. The Tunnel Road corridor would link an Urban Center (Innsbruck Mall area) with a larger Town Center future land use designation (the Asheville Mall) that is already beginning to attract mixed-use residential development. The two nodes are connected by the Urban Corridor future land use designation.

Both corridors are served by current and future high frequency transit that by 2022 will provide 15-20 minute service frequency. Staff has identified the following considerations:

Patton Avenue

- Wider right-of-way (~150 Ft)
- Potential synergy with I-26 Project design/build and other planning efforts (e.g. Burton Street Neighborhood Plan)
- More potential to improve safety (greater number and more severe crashes)

- Higher volumes (~46,000 AADT)

- Further from downtown (~1.3 Miles)
- Uncertainty with future I-26 Project alignment and related land use impacts
- Smaller commercial nodes (~66 Acres)
- Floodplain and stormwater challenges (south side of Patton Ave)

Tunnel Road/South Tunnel Road

✓
- Lower volumes (~20,000 AADT)
- Closer to downtown (~0.5 Mile)
- Larger commercial nodes (~183 Acres), including the Innsbruck and Asheville malls
- Recent growth and development trends
- Historical lack of planning in this area

✗
- Narrower right-of-way (~100 Ft)

Once a corridor has been selected, the MPO will collaborate with city staff to develop a request for qualifications to select a team of transportation engineers and planning and land use professionals. Likely deliverables include a study area that defines the corridor and reviews existing conditions, detailed review of constraints and opportunities that explain the need for the study, public participation component, real estate and demographic analysis, land use and urban design analysis, transportation analysis, and implementation plan, which would might include short- and long-term transportation infrastructure recommendations, policy recommendations for land use and zoning, and marketing, housing, and real estate considerations).

On August 13, 2018, City Council's Planning and Economic Development Committee (PED) recommended that staff move forward with the first study focused on the Tunnel Road corridor.

This project aligns with the 2036 Council Vision in the following areas: (1) A Well-Planned and Livable Community. Corridor studies will support community planning that results in pedestrian-oriented development for all ages and abilities, harmonized with an integrated transportation system. This project would also help to implement the Living Asheville Comprehensive Plan; and (2) Transportation and Accessibility. Corridor studies will help to make getting around easier, whether you drive a car, take the bus, ride a bike or walk. The studies will support the recent Transit Master Plan and Living Asheville Comprehensive Plan, which aim to create urban corridors that support transit and walkability.

Asheville's local share for the first year of the corridor studies pilot has already been approved and is reflected in the FY 2019 budget (Transportation Department). Over the two years of the study, Asheville is contributing 36.6% of the $70,000 local match, a total of $25,593. Additional staff resources may be required for neighborhood planning and engagement, land use and zoning analyses, and other planning-related tasks.

Staff recommends that City Council consider a resolution to authorize the City Manager to select Tunnel Rd/South Tunnel Rd for a corridor study and to direct staff to conduct a comprehensive review and analysis in order to enhance safety, multimodal transportation, and to recommend zoning changes to guide development that aligns with Living Asheville, the City's Comprehensive Plan.

Vice-Mayor Wisler said that what convinced the Planning & Economic Development Committee to recommend Tunnel Road is there is just so much that looks like it will happen very soon that we did not want to miss the opportunity to look at the corridor before things changed.

Councilwoman Mayfield noted that the MPO is paying the bulk of this cost. Another reason to choose Tunnel Road is that a piece of that segment (Tunnel to the Mall) is also a project that we are trying to get prioritized for funding in terms of access management. That wouldn't happen for at least 5 years out so if we can do the study and figure out the recommendations, then funding from the N.C. Dept. of Transportation could be close behind that.

In response to Councilman Kapoor, Planning & Development Director Todd Okolichany said that Planning staff is negotiating working with the MPO on the Tunnel Road Request for Proposals (RFP) and we also waiting to receive the draft RFP for Hendersonville Road. In the meantime we have been in contact with Buncombe County Planning staff to coordinate our efforts. As we work on the RFP process, we will determine whether Buncombe County can also allocate some of their resources to help us with the community engagement efforts for Hendersonville Road. But nonetheless, Planning staff is available to conduct that community engagement portion for Hendersonville Road as well as Tunnel Road.

One individual felt the City should be thinking of adapting our corridors for emergency situations.

Mr. Timothy Sadler suggested the City should back up our corridors with solar power for when the electricity goes out.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 18-253. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 150

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Carolyn Anderson, member of the WNC Renewables Coalition, urged City Council to hire a City Manager who has expertise and experience in sustainability.

Ms. Ashley Cooper made suggestions for other details to be included in Council's future budget worksessions.

Mr. Jonathan Wainscott spoke about gentrification in Asheville.

Closed Session

At 6:22 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: James Robert West v. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To consider the qualifications of appointment of an individual public officer or employee. The statutory authorization is contained in N.C.G.S. 154-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C.G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is

contained in N.C.G.S. 154-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:59 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilman Kapoor and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:59 p.m.

Magdalen Fouresson
CITY CLERK

Esther E. Manheimer
MAYOR

Thursday – October 4, 2018 - 8:45 p.m.

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; and City Clerk Magdalen Burleson

Mayor Manheimer opened the special meeting.

At 8:45 a.m. Councilman Kapoor moved to go into closed session to consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee pursuant to N.C. Gen. Stat. sec. 143-318.11 (a)(6) and to prevent the disclosure of information that is confidential pursuant to N. C. Gen. Stat. sec. 160A-168, the Personnel Privacy Act, pursuant to N. C. Gen. Stat sec. 143.318.11 (a)(1). This motion was seconded by Councilwoman Smith and carried unanimously.

At 3:55 p.m., Vice-Mayor Wisler moved to go out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

****

Friday – October 5, 2018 - 8:15 p.m.

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; and City Clerk Magdalen Burleson

Mayor Manheimer opened the special meeting.

At 8:15 a.m. Councilman Young moved to go into closed session to consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee pursuant to N.C. Gen. Stat. sec. 143-318.11 (a)(6) and to prevent the disclosure of information that is confidential pursuant to N. C. Gen. Stat. sec. 160A-168, the Personnel Privacy Act, pursuant to N. C. Gen. Stat sec. 143.318.11 (a)(1). This motion was seconded by Councilwoman Mayfield carried unanimously.

At 3:31 p.m., Councilman Young moved to go out of closed session. This motion was seconded by Councilman Kapoor and carried unanimously.

Magdalen Burleson
City Clerk

Esther E. Manheimer
Mayor

Tuesday – October 9, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: Councilman Vijay Kapoor

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION OCTOBER 6, 2018, IN MEMORY OF MARIE COLTON

Mayor Manheimer read the proclamation proclaiming October 6, 2018, in memory of Marie Colton. She presented the proclamation to Elizabeth Colton; and Marie Colton Woodard and her husband Dave Woodard.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 25, 2018

B. SECOND AND FINAL READING OF ORDINANCE NO. 4685 - ORDINANCE GRANTING A FRANCHISE AGREEMENT TO TUK IT, LLC, FOR THE OPERATION OF AN ELECTRIC VEHICLE SHUTTLE SERVICE WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance granting a franchise agreement for the operation of an electric vehicle shuttle service within the City of Asheville.

Staff has been working with an individual that is interested in starting an electric vehicle shuttle service within the City of Asheville under the business name of Tuk It, LLC that would operate in the Central Business District, Biltmore Village, the River Arts District, and the Historic Montford District. The shuttle service can only use public streets that have a speed limit of 35 mph or lower. Service stops may not exceed three minutes on any public right-of-way, except as necessary to embark and debark passengers, or with the written permission of the City Traffic Engineer. All service stops shall be made in a way to minimize any possible disruption to the flow of vehicular traffic. Loading/unloading zones may be used for service stops but actual travel lanes should not be used.

The shuttle service will provide various tours throughout the service area for individuals, groups, and special events. They will also provide transportation services for participating hotels and businesses for their guests in an effort to minimize traditional vehicle travel within the service area. The hours of operation are Monday through Wednesday 10:00 am until 9:00 pm and Thursday through Sunday 10:00 am until midnight. Typically, each vehicle will provide one tour on Mondays and Tuesdays, two tours on Wednesdays, three tours on Thursday, and four tours on Fridays, Saturdays, and Sundays.

A total of three fully electric vehicles will be available with a maximum capacity of six passengers plus the driver per vehicle. The vehicles are manufactured in the United States and they are US DOT compliant and street legal. The vehicles are registered and "tagged" by the North Carolina Division of Motor Vehicles.

The business owner understands and acknowledges that he/she will comply with all applicable Federal, State, and local laws in the operation of its business including, but not limited to, the City of Asheville open container ordinance, and the State of North Carolina Alcoholic Beverage Control (ABC) laws. In addition, the business owner understands and acknowledges that third-party advertising is not allowed on the outside of the vehicles.

The Asheville Police Department and the Transportation Department have reviewed all of the information that has been provided by the owner and we believe that the shuttle service will not have a negative impact on efficient traffic flow or safety.

Approval of a franchise agreement requires action by City Council at two official meetings with the first meeting on July 24, 2018, and the second meeting on October 9, 2018.

The Public Safety Committee reviewed this franchise agreement on July 2, 2018, and they unanimously endorsed it to move forward to City Council for consideration and approval. The committee members expressed concern about the possibility of alcoholic beverages onboard and according to the business owner, there are no plans on alcohol being consumed on the vehicles.

The MultiModal Transportation Commission reviewed this franchise agreement on September 26, 2018, and they recommended that it move forward to City Council for the second and final reading provided clarifying language was added to the section in the agreement regarding stops and parking. This language has been added to the agreement.

Pros:

- Provides various tours within the Central Business District, Biltmore Village, the River Arts District, and the Historic Montford District which could relieve and/or minimize traffic congestion.
- Provides transportation services for hotels and retail businesses which should relieve and/or minimize traffic congestion.

Con:

- There are no known cons.

There is no known fiscal impact for the subject franchise agreement.

Staff recommends that City Council approve an ordinance granting a franchise agreement to Tuk It, LLC for the operation of an electric vehicle shuttle service within the City of Asheville.

ORDINANCE BOOK NO. 32 - PAGE 165

C. RESOLUTION NO. 18-254 - RESOLUTION PROPOSING TO ACCEPT/APPROVE LEASE AGREEMENTS WITH THE N.C. DEPT. OF PUBLIC SAFETY, DIVISION OF LAW ENFORCEMENT, STATE HIGHWAY PATROL, FOR ANTENNAS AND EQUIPMENT FACILITY SPACE AT 130 RESERVOIR ROAD AND PEACH KNOB DRIVE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LEASE AGREEMENTS

Summary: The consideration of a resolution proposing to accept/approve lease agreements with N.C. Dept. of Public Safety, Division of Law Enforcement, State Highway Patrol, for antennas and equipment facility space at 130 Reservoir Road and Peach Knob Drive, and authorizing the City Manager to execute the lease agreements.

The property at 130 Reservoir Road known as White Fawn Reservoir is on a knoll at the western end of the Beaucatcher Mountain ridge. It has exceptional range for telecommunication with approximately 300° coverage from northeast to west to southeast. Two telecommunication towers are located on the property and the City of Asheville leases antenna space on the towers and ground space for related equipment.

The lower tower has recently been rebuilt to allow for greater equipment loading. The N.C. Dept. of Public Safety has proposed a reciprocal facility sharing agreement whereby the State would operate a NC Highway Patrol radio site at the City's new tower at Lower White Fawn. The State would likewise provide the City with equipment space in their new facility to be located at the base of the tower, and provide the City space for equipment and tower antennas at their Meadows Mountain facility at Peach Knob Drive. The proposed Lease Agreements are based on the following terms:

- Per the proposed lease agreements, the City and State would utilize each other's radio tower sites for a term of 30 years with a total payment of $1 per lease.

Pros:

- New Highway Patrol VIPER Radio site will serve as a redundant radio system for Police and Fire Departments.
- Long term commitment from NC Highway Patrol will insure future public safety inter-agency coordination and communication in the region.

Con:

- None noted

City staff recommends City Council adopt the resolution proposing to accept/approve the leases with the N.C. Dept. of Public Safety, Division of Law Enforcement, State Highway Patrol, and authorizing the City Manager to execute the lease agreements.

Ms. Jan Howard Kubinek, resident on Reservoir Road, was concerned about adding additional traffic on Reservoir Road.

RESOLUTION BOOK NO. 40 - PAGE 151

D. RESOLUTION NO. 18-255 - RESOLUTION APPROVING A TACTICAL URBANISM PROJECT ALONG COXE AVENUE BETWEEN HILLIARD AND SOUTHSIDE AVENUES AND AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH ASHEVILLE ON BIKES FOR THE PROJECT

Summary: The consideration of a resolution to approve a tactical urbanism project along Coxe Avenue between Hilliard and Southside Avenues, that seeks to enhance the public realm and improve multi-modal transportation safety in the South Slope and authorize the City Manager to execute an agreement for the project.

Last Fall, the city was approached by Asheville on Bikes and Blue Ridge Bicycle Club to consider implementing a Tactical Urbanism project in the City of Asheville. Tactical Urbanism projects aim to make temporary active transportation infrastructure enhancements on a street in

an effort to demonstrate possible long-term multimodal infrastructure improvements. These two groups raised funds to hire a consultant, have a community process and build an installation. Since that time, their partnership, which is known as the Street Tweaks Partnership (STP), has grown to include AARP, and conversations with City staff have led the team to select Coxe Avenue (between Southside Avenue and Hilliard Avene) for the project.

This past summer, there was a design workshop held on June 21st to look at possible reconfigurations of Coxe Avenue for the project build. After the consultant took community feedback and did some analysis, they returned in August and presented refined designs for additional input. A wider meeting with relevant city department representatives happened in August as well.

Throughout the process both Planning and Transportation Department staff have been closely involved with the project. Since the design has been finalized, additional meetings with key Public Works staff have taken place to ensure that the project is feasible and supportable by their departments with respect to maintenance.

The proposed design for the tactical urbanism project includes extending the curb line on both sides of the street through the use of paint and adding small delineators called "armadillos" as guidance to clearly separate the spaces identified for pedestrians/bicycles as separate from automobile parking areas . Additionally, there will be vertical delineators and planters to further clarify spaces and to add safety. The design also includes reducing oversized driveways for some parcels. Mike Sule, Executive Director of Asheville on Bikes, has been in contact with property owners to let them know about the project and how it might impact them. Lastly, part of the design is the inclusion of a street mural between Banks and Buxton Avenues and in the middle of the intersection of Hilliard Avenue and Coxe Avenue.

This design builds on the work that has already been done by city staff and the community in the South Slope process. Moreover, the exciting part of this project is the opportunity to build an alternative and test it in real life to see how it works. Due to the temporary materials, adjustments can be made to the design if needed. While the project is in place, staff will begin working with a consultant to plan the long-term re-design for Coxe Avenue. In the meantime, staff will also be pursuing funding of construction dollars to rebuild the street. The installation date is scheduled for November 1-4, 2018 and includes volunteers from the community.

An agreement has been developed for the project. In the agreement, responsibilities are outlined for both the city and Asheville on Bikes (on behalf of the Street Tweaks Partnership). The city is primarily responsible for maintenance of the street, and Asheville on Bikes will be providing supplementary maintenance and monitoring. Asheville on Bikes will inspect quarterly for debris, litter and other maintenance needs. Staff and the partners will meet regularly to evaluate the project and ensure that it continues to be effective and safe. The intent is for the installation to be in place until it is time to reconstruct the street unless both parties agree that it needs to be removed.

The Planning & Economic Development Committee reviewed this project on July 23, 2018, and recommended that it move forward to City Council for review and approval. Also, the Finance & Human Resources Committee reviewed this project on September 25, 2018, and unanimously recommended that it move forward to City Council for review and approval.

Pros:

- Provides an opportunity for the city and community to work on a project together.
- Should provide a safer experience for all modes of active transportation.
- Provides an opportunity to test out ideas being proposed in the South Slope Vision Plan.

- Design and installation funds provided by private sources.

Cons:

- City is responsible for typical street maintenance including snow removal activities.
- City is responsible to provide before and after traffic counts.
- City is responsible to provide general assistance including staff time.

The Street Tweaks Partnership has raised $150,000 to fund the design and building of this project. The city has not contributed any funding to this process, but there are in-kind contributions in the form of staff time, traffic counts and general assistance.

Staff recommends that City Council adopt a resolution to approve a tactical urbanism project along Coxe Avenue between Hilliard and Southside Avenues, that seeks to enhance the public realm and improve multi-modal transportation safety in the South Slope and authorize the City Manager to execute an agreement for the project.

Councilwoman Mayfield said that in our ongoing effort to advance good bike and pedestrian infrastructure and safety, she supported this great strategy that has been used in other communities.

RESOLUTION BOOK NO. 40 – PAGE 152

E. RESOLUTION NO. 18-256 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER TO INCREASE THE ENGINEERING DESIGN SERVICES CONTRACT WITH CDM SMITH FOR THE 2015 NEIGHBORHOOD ENHANCEMENT AREA 3 PROJECTS

Summary: The consideration of a resolution authorizing the City Manager to execute a change order in the amount of $160,000 to increase the engineering design services contract for CDM Smith from $672,572 to $832,572 for the 2015 Neighborhood Enhancement Area 3 Projects.

Through a qualifications based selection process for engineering services, the City of Asheville selected four engineering firms to provide on-call professional services for Water Distribution and Storage Projects. CDM Smith was one of the selected firms and the City of Asheville entered into a master agreement with them on May 27, 2015, for On-Call Professional Services for Water Distribution and Storage Projects. On November 10, 2015, City Council awarded the engineering design services contract to CDM Smith for the 2015 Neighborhood Enhancement Area 3 Projects.

The contract originally consisted of a survey, a hydraulic analysis, engineering design, construction administration, and other related professional services for approximately 26,500 Linear Feet (LF) of predominately 6 and 8-inch water main and appurtenances along various streets within the Kenilworth and Malvern Hills neighborhoods. Additionally, the project included approximately 1,000 LF of new 30-inch water main along Tunnel Road near the Kenilworth neighborhood.

The original project scope of work assumed a single construction bid package combining the 6 and 8-inch water main replacements in the Kenilworth and Malvern Hills neighborhoods with the 30-inch water main improvements along Tunnel Road. During preliminary design development, it was determined that special and previously unknown conditions for the proposed 30-inch water main would have to be addressed, greatly increasing the complexity of the design. The special conditions that were found required a change in the design scope consisting of: (1)

an additional 200 LF of 30-inch water main; (2) relocation of 200 LF of existing 24-inch water main; (3) adjusting the proposed alignment of the proposed 30-inch waterline into and under NCDOT-maintained Tunnel Road; (4) revising the original plan of removing an existing abandoned bridge over Ross Creek to create the pipe corridor to utilizing the bridge for both the 30 and 24-inch crossing of Ross Creek; and (5) the addition of specialized thrust / surge analysis to determine pipe restraint needs and (6) additional design parameters related to having to install the new water mains significantly deeper than typical to avoid existing conflicts. As a result of the additional time and money needed for the development of the 30-inch water main design, Water Resources staff requested that the overall project be phased in order to keep the replacement of the water infrastructure in the Kenilworth and Malvern Hills neighborhoods on schedule. Thus, the 30-inch water main project on Tunnel Road became NEP 3 Phase 2 and the Kenilworth and Malvern Hills neighborhoods piece of the project is referred to as NEP 3 Phase 1. Additionally, this created the need for a separate construction bid package and a duplication of professional services for the development of the bid packages for Phase 1 and Phase 2 projects.

Originally, it was planned that all areas of the construction for the singular project, prior to the requested phasing, would occur simultaneously. This would have allowed for a shortened time period for the professional services contracted task of construction administration and construction observation, resulting in cost savings due to the maximized effort. Additionally, the previously noted alignment change for the 30-inch water main into and under NCDOT maintained Tunnel Road required revised Encroachment Agreements with NCDOT. This change ultimately resulted in a requirement from NCDOT for construction of the water main within all NDDOT right-of-way to occur at night. This requirement to work at night and the schedule change associated with constructing it as a separate project from NEP Phase 1 substantially increased the required construction administration and observation services during construction.

Construction of NEP 3 Phase 1 has reached Final Completion stages, with Record Drawing preparation extending into late October. The NEP 3 Phase 2 construction contract was awarded in April 2018 and a Notice to Proceed (NTP) was established by the City on August 27, 2018. CDM Smith has been tracking the aforementioned scope changes and invoicing for additional design and construction services as incurred. With the NTP for NEP 3 Phase 2 now established, the full impact to the scope, timeline and overall NEP 3 budget has been determined. It is summarized as an increase in time of six months for the construction services task, which results in the need for an additional $160,000. This will fund all of the additional design services previously completed and the cost of additional time to provide construction-related services. Therefore, a change order is needed to increase the contract amount by an additional $160,000 for a revised total contract amount of $832,572.

Pros:

- Approval of the change order will allow the city to complete the engineering services for the entire project.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects in order to provide safe and reliable service.

Con:

- Failure to approve the change order would prevent the completion of the water system improvements.

The funding needed for the construction agreement is currently allocated within the 2015 NEP Area 3 project in the Water Resources Capital Improvement Projects fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a change order in the amount of $160,000 to increase the engineering design services contract for CDM Smith from $672,572 to $832,572 for the 2015 Neighborhood Enhancement Area 3 Projects.

Acting City Manager Ball said that questions have been raised about Mr. Wiseman working with CDM Smith and the City's interactions with Mr. Wiseman. CDM Smith has approximately 5,000 employees, and the City of Asheville has not had any interaction with Mr. Wiseman when he worked for CDM Smith. The work that we are proposing does not include any work with Mr. Wiseman. We have been able to work with CDM Smith successfully in the past and have procured those services according to state statutes.

RESOLUTION BOOK NO. 40 - PAGE 153

F. RESOLUTION NO. 18-257 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PATTON CONSTRUCTION GROUP, INC. FOR THE SKYVIEW PLACE RETAINING WALL

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $575,270 plus a contingency of 15.0% ($86,290) with Patton Construction Group, Inc. for the project known as Skyview Place Retaining Wall.

This contract covers the construction of a retaining wall between Skyview Place and Sunset Terrace to repair a slope failure caused by excessive runoff.

The existing retaining wall was built in two phases to correct two separate slope failures. The new wall will be a approximately 160 feet long extension of the existing wall. This contract also includes the extension of the existing storm drainage system on Skyview Place. This extension will reduce the amount of runoff this slope will see in the future.

The project was advertised on August 16, 2018, and bids were opened on September 20, 2018, with the following results:

Patton Construction Group, Inc. of Asheville, NC	$575,270
Thomas Construction Company of Johnson City, TN	$856,835
Wright Brothers Construction of Charleston, TN	$903,576
Buchanan and Sons of Whittier, NC	$1,034,554

A 15.0% contingency ($86,290) has been added to allow payment for any unforeseen costs that typically arise during projects.

Pros:

- Will repair a slope failure and allows the City to reopen Skyview Place.
- Will extend the existing storm drain system and help prevent runoff from hitting the slope.

Con:

- Project management and contract administration will consume staff time.

Funding for this project is already included in the adopted Capital Improvement Program (CIP).

City staff recommends City Council adopt the resolution awarding the contract to Patton Construction Group, Inc.. and authorizing the City Manager to execute a contract in the amount of $575,200 plus a contingency of $86,290 (15.0%) for the Skyview Place Retaining Wall.

RESOLUTION BOOK NO. 40 - PAGE 154

G. RESOLUTION NO. 18-258 - RESOLUTION TO ESTABLISH AN EQUITY-BASED VISION ZERO TASK FORCE TO REDUCE THE NUMBER OF TRAFFIC-RELATED FATALITIES AND SEVERE INJURIES OCCURRING IN ASHEVILLE

Summary: The consideration of a resolution endorsing and authorizing the City Manager to direct staff to form an Equity-Based Vision Zero Task Force that would work on establishing strategies and policies to help reduce the number of traffic-related fatalities and severe injuries occurring in Asheville.

According to the N.C. Dept. of Transportation (NCDOT), Asheville is consistently ranked as a top crash city in North Carolina, with approximately 5,000 crashes and 10 fatalities in the city every year. The costs associated with fatalities alone is estimated to be close to $100 million per year. These facts contrast with City Council's long-term Vision that transportation in the city should be reliable and safe.

Recognizing the need to improve the safety of Asheville's streets for all users, the City's adopted Asheville in Motion (AIM) recommended the the City pursue the adoption of a Vision Zero policy and strategies. Vision Zero is a transportation safety philosophy developed in Sweden in the late 1990s to eliminate traffic fatalities and serious injuries. The core principles of Vision Zero are the following: 1) Traffic deaths and severe injuries are acknowledged to be preventable, 2) Human life and health are prioritized within all aspects of transportation systems, 3) Acknowledgement that human error is inevitable, and transportation systems should be forgiving, 4) Safety work should focus on systems-level changes above influencing individual behavior, and 5) Speed is recognized and prioritized as the fundamental factor in crash severity. .

More recently, cities across the US who have implemented Vision Zero initiatives have recognized that an important first step to building a successful Vision Zero program is to establish a leadership team that is diverse and representative of the wide array of interests and communities involved in order to ensure that an equity-based approach is front and center, as data confirms that economically-challenged and minority groups bear a disproportionate burden of traffic violence.

At the Multimodal Transportation Commission's April 2018 meeting, the Commission recommended that the Public Safety Committee ask Council to consider establishing a Vision Zero Task Force, as well to "establish safety as the primary goal for projects on City streets." However, today's request seeks only to establish a Vision Zero Task Force, which will be charged with developing a Vision Zero policy(ies) and strategies with the support of staff, and which will be brought forward for Council consideration at a future date.

It is envisioned that the Task Force could include representatives from (but not limited to) the Multimodal Transportation, Neighborhood Advisory, and Human Relations Commissions; members of the Citizens Police Advisory, Transit, Greenway, and Homeless Initiative Advisory Committees; representatives of non-profit organizations, such as Just Economics, Asheville On Bikes, Pisgah Legal, and Disability Partners; as well as others from health, school, and business sectors. Transportation Staff will work with the Multimodal Commission to further develop and refine the list and reach out to potential Task Force members.

During the first 6 to 12 months, the Task Force would likely achieve the following activities (with staff support):

1. Creation of vision, goals, objectives
2. Identification of data needs and gaps (crash statistics, locations, contributing crash factors, etc.), including assembling data and information so that it can be easily understood and viewed by the Task Force and the public
3. Compilation and review of existing/current City activities related to traffic-safety (i.e. existing bike/ped committees/actions, TRC project review, budget prioritization of capital projects, UDO regulations, City Standards and Specifications, educational initiatives, NCDOT programs and practice, etc.)
4. Possible focus groups/public input opportunities related to transportation safety concerns/needs to seek broad-based input
5. Development of communication strategies, including what Vision Zero is and what it is not, and how equity will be addressed, including related marketing campaigns to inform the public

These activities are not expected to result in a direct fiscal impact to the City budget with the exception of staff time and existing resources. Following these initial steps, the Task Force would identify areas of concern and develop a Vision Zero Action Plan, including strategies and action steps to improve traffic-related safety, which may or may not involve budget impacts that would be taken to the City Council for consideration.

While Transportation will serve as the lead for the effort, it is expected that additional City departments/divisions will be involved in supporting and providing information to the Task Force, including Equity and Inclusion, Public Works, Planning, Sustainability, Risk Management, Asheville Police and Fire Departments, and Communications and Public Engagement.

This action was reviewed by the Planning and Economic Development Committee on November 21, 2017, and by the Public Safety Committee on August 28, 2018, and both committees recommended that it move forward to City Council for review and approval.

Pros:

- Will lead to an equity-based traffic-safety initiative
- Will lead to reductions in the number of severe injuries and deaths in Asheville
- Will reduce public costs as the number of crashes declines over time
- Make Asheville a safer, more livable community

Con:

- Staff time will be used to develop and support the ongoing efforts of the Task Force

There will be no impact to the City budget except current staff time and existing resources that would be used to develop and support the efforts of the Task Force.

Staff recommends that City Council adopt a resolution endorsing and authorizing the City Manager to direct staff to form an Equity-Based Vision Zero Task Force that would work on establishing strategies and policies to help reduce the number of traffic-related fatalities and severe injuries occurring in Asheville.

Councilwoman Mayfield said that in our ongoing effort to advance good bike and pedestrian infrastructure and safety, she supported this Task Force as it's a first step in the right direction to make our City safety for everyone.

Mr. George Webb, spoke in favor of this Task Force and with his experience and background he hoped that he could be appointed to this Task Force.

RESOLUTION BOOK NO. 40 - PAGE 155

H. RESOLUTION NO. 18-259 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH 21ST CENTURY PC SOLUTIONS LLC FOR THE PURPOSE OF TRAVEL FOR THEIR PRESENTATION OF FINDINGS FOR THEIR FINAL SITE VISIT ON AUGUST 28, 2018

Summary: The consideration of a resolution authorizing the City Manager to execute an amendment to the contract with 21st CP Solutions, LLC.

The City of Asheville entered into a contract with 21CP Solutions, LLC on April 12, 2018, to review the Hickman incident and make recommendations to APD and to Council. The original contract was $87,500. Due to the timing of the consultants' trips to Asheville and how those coincided with City Council meetings, an additional trip was added for two of the 21CP consultants to return to Asheville for a public presentation of findings and recommendations. Additional funding is needed to pay for travel expenses for the additional trip to present to City Council on August 28, 2018.

Pro:

- In addition to having 21 CP Solutions present findings and recommendations to the APD and to Council, the report from 21 CP Solutions was also presented to the Council in a public meeting.

Con:

- None identified.

The additional $5,000 in funding for this contract will come from the existing Police Department budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to amend the 21CP Solutions Contract to include payment for the presentation that occured at the August 28, 2018 Council meeting.

RESOLUTION BOOK NO. 40 - PAGE 156

I. RESOLUTION NO. 18-260 - RESOLUTION DEDICATING A SECTION OF HAYWOOD ROAD IN MEMORY OF ROB BINGAMAN

Summary: Announcement of a request to dedicate a section of Old Haywood Road near the Traffic Safety Unit Office in memory of Sr. APD Officer Robert Bingaman.

The Asheville Police Department is proposing to dedicate a section of Old Haywood Road near the Traffic Safety Unit Office in memory of Sr. APD Officer Robert Bingaman.

On Tuesday, October 29, 2013, the City tragically lost a member of the Asheville Police Department family in the line of duty. Officer Bingaman was driving across the French Broad River when the patrol vehicle he was driving left the Captain Jeff Bowen Bridge. Despite the great efforts of emergency personnel and APD officers who responded to the scene, Officer

Bingaman succumbed to his injuries. He honorably served his country as a member of the Marine Corps and his city as a well respected police officer.

Pursuant to the City's policy on naming public property, suggestions for the naming of any public property or portion thereof may come to the Council from any City of Asheville Department Director or official. The Asheville Police Department and the Fraternal Order of Police have brought this request to the council for consideration.

The fiscal impact would be $500 for signage to dedicate portion of the street. This is included in the Transportation Department's operating budget.

Staff recommends City Council approve the dedication of a section of Old Haywood Road near the Traffic Safety Unit Office in honor of Sr. APD Officer Robert Bingaman.

RESOLUTION BOOK NO. 40 - PAGE 157

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. UPDATE ON COMMUNITY EMT PROGRAM

Assistant Fire Chief Barry Hendron said that the Community EMT Program goals are as follows: (1) To enhance the safety of the public in the Central Business District and South Slope; (2) To build relationships with the people in the downtown and south slope areas including business owners; (3) Improve patient outcomes for medical emergencies in the designated areas by having firefighters actively engaging with community members; (4) Gather information and data to help inform future programs and possible solutions; and (5) Help to gather data for First Due Size Up pre-planning system.

The program overview consists of 16 days in service; 117 Interactions; 2 - 2 person teams; days of operation; and hours of operation.

Interactions are classified in 4 Main Categories:

- Assistance - 30%
- Outreach - 62%
- Interaction with Business Owner - 3%
- Interaction with Concerned Member of Public - 4%

He then reviewed the coverage area and interactions.

Overall costs include $7,000 labor; and $5,000 equipment - Bikes, EMS Equipment, and Uniforms.

He said they have had a very fruitful initial meeting with the BeLoved street medics earlier this week where they discussed further opportunities to collaborate and work together as a group. The City's Homeless Program Manager Brian Huskey did an excellent job of facilitating the meeting and they are planning to meet again soon.

He shared with Council the resources they use along with the challenges of consistent staffing and weather.

Mr. Hendron responded to various questions from Mayor Manheimer concerning staffing and cost sharing.

Mayor Manheimer hoped that the as this pilot program continues, that the teams will have an opportunity to build relationships with the business owners as well.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS SMATHERS LANE

RESOLUTION NO. 18-261 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS SMATHERS LANE

Interim City Attorney Rockoff recused herself from this matter due to a conflict of interest. Senior Assistant City Attorney Jannice Ashley was seated for this discussion.

Public Works Director Greg Shuler said that this is the consideration of a resolution to permanently close an unopened right-of-way known as Smathers Lane. This public hearing was advertised on September 14, 21, 28 and October 5, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Duke Energy, owner of parcel 9648-19-0490, has requested the City of Asheville to permanently close an unopened r/w known as Smathers Lane.

The Multimodal Transportation Commission reviewed this request at their May 23, 2018, meeting and recommended approval of the closure.

On August 28, 2018, the City Council adopted a resolution of intent to permanently close the right-of-way and calling for a public hearing on said closure for October 9, 2018. Copies of the resolution of Intent were properly served and posted, in accordance with N.C. General Statute 160A-299.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt a resolution ordering the permanent closure of an unopened right-of-way known as Smathers Lane.

Mayor Manheimer opened the public hearing at 5:31 p.m.

Mr. Robert Oast, attorney for the applicant, spoke in support of the street closure and asked for Council's support.

Mayor Manheimer closed the public hearing at 5:32 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-261. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 158

B. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY LOCATED NEAR THE INTERSECTION OF HENDERSONVILLE ROAD AND SWEETEN CREEK ROAD

RESOLUTION NO. 18-262 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY LOCATED NEAR THE INTERSECTION OF HENDERSONVILLE ROAD AND SWEETEN CREEK ROAD

Interim City Attorney Rockoff recused herself from this matter due to a conflict of interest. Senior Assistant City Attorney Jannice Ashley was seated for this discussion.

Public Works Director Greg Shuler said that this is the consideration of a resolution to permanently close an unopened right of way located near the intersection of Hendersonville Road and Sweeten Creek Road. This public hearing was advertised on September 14, 21, 28 and October 5, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Dena Yamalis, owner of parcels 9654-40-6970 and 9654-40-6803, In addition 2506 Hendersonville Rd LLC, owner of parcel 9654-40-6526,, has requested the City of Asheville to permanently close an unopened r/w near the intersection of Hendersonville Road and Sweeten Creek Road.

The Multimodal Transportation Commission reviewed this request at their May 23, 2018, meeting and recommended approval of the closure.

On August 28, 2018, the City Council adopted a resolution of intent to permanently close the right of way and calling for a public hearing on said closure for October 9, 2018. Copies of the resolution of Intent were properly served and posted, in accordance with N.C. General Statute 160A-299.

Pros:

- There will be no future compromise of ingress/egress to other property

- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:
- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt a resolution ordering the permanent closure of an unopened right-of-way near the intersection of Hendersonville Road and Sweeten Creek Road.

Mayor Manheimer opened the public hearing at 5:32 p.m.

Mr. Robert Oast, attorney for the applicant, spoke in support of the street closure and asked for Council's support.

Mayor Manheimer closed the public hearing at 5:33 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 18-262. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 160

C. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 28 AND 32 MAXWELL STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONE TO ALLOW SHORT-TERM VACATION RENTAL USE AND AN AMENDMENT TO THE FUTURE LAND USE MAP TO CHANGE 28 AND 32 MAXWELL STREET FROM TRADITIONAL NEIGHBORHOOD TO TRADITIONAL CORRIDOR

Councilman Young moved to recuse Mayor Manheimer from this matter due to a conflict of interest. This motion was seconded by Vice-Mayor Wisler and carried unanimously. At this time, she handed over the gavel to Vice-Mayor Wisler to preside over this matter and left the meeting room.

Urban Planner Jessica Bernstein said that this is the consideration of conditionally zoning 28 and 32 Maxwell Street from RM-8 Residential Multi-Family Medium Density District to Lodging Expansion/Conditional Zone to allow short-term vacation rental use. In addition, this will also require an amendment to the Future Land Use map to change 28 and 32 Maxwell Street from Traditional Neighborhood to Traditional Corridor. This public hearing was originally scheduled for public hearing on August 28, 2018, and advertised on August 17 and 24, 2018; however, on August 28, 2018, this public hearing was continued to this date.

Ms. Bernstein said that the applicant is requesting review of a conditional zoning to allow short-term vacation rental (STVR) use for two properties located at 28 and 32 Maxwell Street with a zoning change from Residential Multi-Family Medium Density District (RM-8) to Lodging Expansion (LODG EXP) District. This project is considered under conditional zoning pursuant to Sections 7-7-8 and 7-8-45 of the Unified Development Ordinance (UDO). Pursuant to a recent amendment to N. C. Gen. Stat. sec. 160A-383, an approval of the rezoning request would result

in an amendment to the Future Land Use Map, from Traditional Neighborhood to Traditional Corridor.

The subject properties (PINs 9649-33-4037 & 9649-33-4069) are currently owned by Parkway Court, LLC; the petitioner/project contact is Joe Minicozzi.

The project site consists of two properties located at 28 and 32 Maxwell Street. The parcels are 0.12 and 0.09 acres respectively and both are developed with two-story single-family home structures (ca. 1920). The sites front onto Maxwell Street and are currently zoned RM-8, as are properties to the north, east and west, which are occupied by residential and office uses. Across Maxwell Street to the south are commercial and residential uses, zoned Community Business II and Neighborhood Commercial District. There are a number of legally-permitted homestays in the immediate neighborhood.

The applicant is proposing to rezone the properties to allow short-term vacation rental use (STVR) as well as the flexibility for the units to be rented as long-term residential uses. Per the applicant at the Technical Review Committee (TRC) meeting the structure at 28 Maxwell Street is currently operating as a triplex with three one-bedroom units; 32 Maxwell Street contains one unit at this time but the applicant requests to increase the building to house three units, for a total of six units between the two properties. This would be an increase in the allowed density for the lot area at number 32, which would only be permitted to have one unit by-right under the current zoning.

At the Planning & Zoning Commission hearing, the applicant offered a condition that one of the six units (the ground-floor unit in 32 Maxwell) would be rented long-term and the other five would be available for STVR use.

There is an existing driveway easement running between the two structures that can provide parking for two vehicles. Sidewalks and on-street parking exist along Maxwell Street; however, the parking is residential-permit only and not for commercial use and therefore would not be open to users of the STVR units under the current policy.

Based on the number of bedrooms proposed in the application, between two and a half and five off-street parking spaces are required for the lodging use. The applicant is not proposing any off-street parking for the uses other than the two vehicular spaces in the driveway easement that operate in a "first-in, last-out" configuration. Also, at the Planning & Zoning Commission meeting, the applicant's representative indicated that parking in the driveway would be used by the long-term rental unit, leaving only one space designated for the five proposed lodging units.

Landscaping is required for uses in this district and would include a 30 foot wide, type B property line buffer along the east, west and north property lines adjacent to residential zoning. Additionally, street trees are required at a minimum of every 40 feet. There are trees on number 32 that can be used as credits but none on number 28. The applicant is proposing a modified five foot property line buffer around the rear and part of the sides, with no additional planting other than the garden plots and yard currently in place, *see conditions below.*

Fifteen percent of the parcel area is required to be dedicated as open space. The existing rear yards would provide sufficient land area provided that no accessory structures are built in the future *(see conditions).*

There are standards relating to building orientation and fenestration in the proposed zoning district and the plans appear to comply with the possible exception of ground level fenestration.

Conditions - The following standards related to the Lodging Expansion district do not appear to be met. There are additional conditions noted in the draft B.1 exhibit.

1. *Lot Size* - The minimum lot size for the district is 0.75 acres; the subject lots are 0.12 and 0.09 acres as an existing condition.
2. *Lot Width* - The minimum lot width for the district is 100 feet; the subject lots have approximately 42 feet of width as an existing condition.
3. *Setbacks* - The minimum front setback is 35 feet; the existing structures have a front setback of approximately 38 feet. The minimum side setback is 15 feet; the structures are approximately two feet from the side property lines on the west side of each parcel.
4. *Landscaping* - A 30 foot wide, type B property line buffer is required for this commercial use adjacent to residential zoning and would be required along the the rear and both sides; a partial five-foot wide property line buffer is proposed along a portion of the site. There are two trees that could count for street tree requirement on 32 Maxwell but not on 28 Maxwell.
5. *Open Space* - 15% of the lot area is required to be dedicated open space. This standard can be met by preserving the existing rear yard areas, however any future expansion of the structures or construction of accessory buildings may render the open space area non-compliant so future building would need to be restricted.
6. *Parking and Loading* - Guest drop off is not permitted along the primary access corridor; the applicant proposes to use driveway and on-street parking for guest use and does not propose compliant or additional off-street parking. *On-street parking is currently restricted for residential permit holders only and would not be available for a commercial (lodging) use; therefore, the applicant's proposal for STVR users to park on-street would not be permitted.*
7. *Sidewalks* - Sidewalks exist on Maxwell Street but do not meet the 10 foot standard.
8. *Design and Operational Standards* - The applicant proposes to retain the existing structures, which were constructed circa 1920 as single-family homes. The design and operational standards in the district may not be met as far as fenestration (50% ground floor required) but comply with the height and orientation standards.
9. *Density* - Since the applicant has requested to have flexibility for five of the six units to be either STVR or long-term rental, the residential density in the Lodging Expansion District are applicable. The maximum is 20 units per acre without dedicated affordable units. Based on this, three units in each building exceeds the maximum allowable density of 2.4 units in 28 Maxwell and 1.8 units in 32 Maxwell. *If the applicant dedicates a long-term affordable unit in each structure, the proposed density would comply.*

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on March 1, 2018. The project was approved with conditions by the TRC on April 16, 2018.

The Planning and Zoning Commission discussed this proposal at two meetings, on May 2nd and July 19th, ultimately recommending approval by a 5-2 vote at their July 19, 2018, meeting. Commissioners of the majority recommendation opined that Maxwell Street is subject to negative impacts from the commercial grocery neighbor and that current enforcement efforts do not seem to be remedying those impacts. However, there was not unanimous agreement that allowing whole-house STVRs are the appropriate use for the subject sites. One Commissioner requested that the applicant dedicate a long-term residential unit in each house to more closely resemble the legal homestay use in the vicinity; the applicant did not agree with this condition. Staff also previously asked the applicant to consider including one long-term affordable unit in each building in order to further the city's affordable housing goals; the applicant was unwilling to agree to this condition.

The site is currently zoned Residential Multi-Family Medium Density (RM8) and the STVR

lodging use is prohibited in that district, thus requiring the conditional zoning request. Commercial zoning (Community Business II) and uses are present across Maxwell Street; however, STVRs are also prohibited in that district. Residential Single-Family High Density (RS8) zoning is located to the north, along E Chestnut Street, while the Neighborhood Corridor District (NCD) is located to the west and southwest of the subject sites. The suitability of the request at the subject sites are evaluated below.

In 2017 - Level II project approved for a mixed-use building on Broadway, approximately two-tenths of a mile north.

The whole-house STVR use has long been prohibited in residentially-zoned neighborhoods for a number of reasons, including the need to preserve and increase the supply of long-term residential units, the desire to limit commercial activity in residential neighborhoods and to preserve the character of residential neighborhoods in Asheville. On January 9, 2018, the Asheville City Council approved zoning changes that prohibit STVR uses except in the Resort zoning district and other applicable expansion districts, providing a clear directive that the lodging use is to be evaluated only by City Council to determine compatibility through the conditional zoning process. Standards were created at that time to mitigate impacts of the higher intensity of the STVR use, including but not limited to, providing off-street parking for guests, buffering the use from adjacent properties through landscaping and requiring the operator to obtain annual permits, inspections and insurance.

The subject properties are located directly across from an active commercial use (Greenlife) and the property adjacent to the east operates as an office, which are examples of limited office and neighborhood-serving commercial uses in the vicinity. However, there are standards that are required when commercial uses are proposed adjacent to residential uses to lessen the impacts of the increase in intensity and these are not included in this application.

Maxwell Street is currently operating under a residential parking permit program that reserves spaces only for residents of the units on the street as a result of past issues from the impact of nearby commercial uses previously utilizing these spaces and not leaving enough parking for the residents. This program has been in place since 2011 and was initiated by the residents of the area, including the applicant. With on-street parking spaces restricted for use by residents on the street and very limited off-street parking proposed for guests, there is no plan for lessening the impact of this use in that regard.

Similarly, landscape buffers are required on property lines shared with residential uses. This occurs on three sides of the project area but there is insufficient space due to existing conditions of the smaller, historical lot development; leaving very little buffer to mitigate the intensity associated with multiple STVR units in a small area.

As noted in the City's conditional zoning application materials, conditional zoning permits are "uses which are *generally compatible with other land uses permitted in a zoning district* but which, because of their unique characteristics or potential impacts on the surrounding neighborhood and/or the city as a whole, require individual consideration of their location, design, configuration, or operation at the particular location proposed. Such individual consideration may also call for the imposition of individualized conditions in order to ensure that the use is appropriate at a particular location and to ensure protection of the public health, safety, and welfare." In this case, the STVR use has long been established to be incompatible and prohibited in residential zoning districts and this use is also prohibited in the nearby commercial zoning districts. Neighbors are operating legal homestays in the vicinity, which maintains some of the long-term community nature of the neighborhood while still allowing those property owners or residents to make limited commercial use of their properties. This would be an avenue open to the applicant.

The petitioner has been cited for illegally operating STVRs on the site and is seeking this zoning change to legitimize this infraction. In the city's application materials, it is stated that the conditional zoning tool *"is available to promote land uses and activities that benefit the public in general. If there is only private benefit, the tool should not be used."* There is no community benefit noted by changing the zoning of these two properties; furthermore, there is anticipated to be a negative impact due to the increase in intensity of use without compliance with mitigating standards such as off-street parking, landscaping and density. The applicant's representative stated at the Planning and Zoning Commission hearing that the desire to use these properties for STVR rather than long-term residential or another non-residential use is to recoup the greatest financial benefit.

Staff finds the STVR use as proposed by the applicant to be incompatible with the neighborhood.

Pending Litigation: The applicant is currently operating three illegal STVRs on the property and has been doing so since at least August 2016. The City issued Notices of Violation and a citation in the fall of 2016. The applicant did not bring the property into compliance and did not pay the assessed fines. On March 22, 2017, the City filed a civil action in Buncombe County Superior Court seeking to enforce the requirements of the UDO and recover the fines accrued, which at that time totaled $232,500. They are now approaching $1 million dollars. The applicant filed several counterclaims in that case. The case was mediated on September 5, 2018, and impassed. Questions relating to this lawsuit and proposed settlement should be directed to the City Attorney.

Compliance with Comprehensive Plan: This project was submitted prior to adoption of Living Asheville: A Comprehensive Plan For Our Future ("Living Asheville"); however, it is not aligned with goals in the Asheville City Development Plan 2025 as that plan stresses the need to preserve, protect and maintain residential uses and neighborhood character. Land Use Goal I indicates that adaptive reuse of existing structures should only be done when neighborhood compatibility and viability can be protected. The 2025 Plan recognizes that there are areas where more intense development may be appropriate close to downtown; however, it must be done in a way that "protect(s) the neighbors from inappropriate non-residential encroachment and further states that "protection, preservation and enhancement of existing neighborhoods must be as much a part of our development pattern as promoting new construction [or uses]".

The applicant has stated in the public hearings several times that the 2002 Broadway Corridor Action Plan indicates this is an area for mixed-use development; however, the subject properties are actually outside of the study area included in the plan so this is not applicable to this proposal. The study area for the action plan only included parcels on Maxwell Street up to Marcellus.

Although not adopted at the time of application, Living Asheville provides guidance that allowing the conversion of existing residential homes into STVRs contributes to the lack of affordable housing options and does not recommend this use in applicable future land use designations such as this area (Traditional Neighborhood). The applicant has stated that they believe the subject properties are erroneously included in the Traditional Neighborhood future land use category and should be a part of the Traditional Corridor future land use designation. Staff contends that the proposed zoning and STVR uses are inconsistent with the Future Land Use Map. Maxwell Street is a local street and not an arterial corridor (such as Broadway, Merrimon, Charlotte Street, Haywood Road and others) that have received the future land use designation of Traditional Corridor, in which the intent is to establish a transit-supportive corridor. Staff believes the subject properties are appropriately designated as Traditional Neighborhood on the Future Land Use Map and that the character of Maxwell Street and the surrounding block are

consistent with the intent and purpose of the Traditional Neighborhood future land use designation. Pursuant to N.C. Gen. Stat. § 160A-383(b)(3), approving the proposed application would automatically amend the Future Land Use Map, from Traditional Neighborhood to Traditional Corridor.

The proposal does not align with the 2036 Council vision in that it eliminates residential units for lodging use (*Quality Affordable Housing)* and has the potential to negatively impact the neighborhood (*A Well-Planned and Livable Community).*

Considerations:

- The use is not permitted in the surrounding residential districts nor in surrounding commercial zoning districts. Lengthy public discussion surrounding this restriction has taken place resulting in the deliberate action to prohibit whole-house STVR uses and to increase the availability of the homestay permit as a balanced option.
- Due to the historic residential development pattern, there is not sufficient room on the properties to provide compliant landscape buffering or adequate off-street parking.
- If permitted, the applicant should be required to provide an off-street parking plan to mitigate the impact on other residents on the street (perhaps remote parking), which utilizes a residential-only permit parking system due to past commercial overuse.
- Approval of this change from residential to STVR to legitimize an ongoing illegal use may set a precedent to the community that is contrary to the ongoing efforts of the City to prohibit this use in whole-house structures in residential and other zoning districts and may open the door to other applicants expecting this change to be allowed throughout other residential neighborhoods.
- It has been requested of the applicant to provide a long-term affordable residential unit in each house to more closely mirror the homestay use that is allowed and existing along this street, and to meet city affordable housing goals; the applicant was unwilling to commit to this request.
- The density of three units in each structure exceeds the minimum allowed residential density in the Lodging Expansion district, without the inclusion of dedicated affordable units.
- While the applicant has stated that he in unable to keep a long-term tenant, properties immediately adjacent to Greenlife on Maxwell Street is consistently rented at at least $1,250 per the property management group.

Staff does not recommend approval of the conditional zoning to allow STVR use on these properties. This is based on directives from City Council on prohibiting the use in both residential and commercial zoning districts. Further, the applicant has not provided a plan for mitigating the increased impact of the use or a plan to reasonably accommodate parking for the proposed non-residential uses, the proposed conditional zoning is only for the benefit of one property owner and does not provide any benefit to the long-term residential neighbors or community, and the proposal does not align with goals and strategies in the 2025 Comprehensive Plan and City Council's 2036 Vision.

Staff agrees that the residential character of the street is impacted by the commercial use of trucks and loading; however, staff does not agree that allowing the STVR use is the best and most appropriate use. The homestay use within a long-term, occupied residential dwelling is afforded to and utilized by residents along the street to maintain residential consistency. Also there are other non-residential uses that can be integrated into the periphery of a neighborhood (such as office uses similar to along Chestnut Street or Arlington) that provide community benefits. The applicant disagrees that this would be available to him due to the limited ability of the properties to comply with non-residential requirements and standards such as off-street parking, but they are similarly not proposing to comply with standards through this application.

The Planning and Zoning Commission reviewed this request at their meeting on July 19, 2018, and voted 5-2 in support of the project. As stated above, Commissioners opined that the street faces negative impacts from the commercial grocery neighbor and that current enforcement efforts do not seem to be remedying the conflicts from large truck traffic on this street. However, there was not unanimous agreement that allowing whole-house STVR use is the appropriate use. One Commissioner requested that the applicant dedicate a long-term residential unit in each house to more closely resemble the legal homestay use in the vicinity; the applicant did not agree to this condition.

Mr. Joe Minicozzi, representing the applicant Parkway Court and Reid Thompson, used a PowerPoint for his presentation. He showed the two houses in question, noting that Mr. Thompson had three other houses on Maxwell Street that he was forced to sell during this entire process, which started in 2004. From a Google earth image you can see the trucks on Maxwell Street. In 2004 Greenlife converted an office into a grocery store, showing an image that did not show two loading bays. They went to two loading bays in the initial site plan and there was supposed to be a buffer that is acknowledged in the image shown. The buffer was removed without a public process and a second loading bay was added, to which the City removed parking on the street and forced the loading into the street. The intent of the law is to have buffering between residential and commercial. The law states that there should be five feet of landscaping between the fence and the sidewalk. He showed a view from Mr. Thompson's property from many years ago. What is notable is that the City has identified that the issue is there because they have put visibility triangles in the street, essentially making the street a loading area. There is acknowledgement that the street has become commercialized. For all intent and purposes, the street is the loading area by neglect of the existing rules which require the street to be residential and protected by buffering. From a non-compliance standpoint, the City asked Dr. David Owens, who is an expert of zoning law from UNC-Chapel Hill, for a report. In his report he basically cited that the site is non-compliant and does not meet the qualifications of what the law is. He essentially told City Council they have to follow certain requirements. He showed a video of former City Attorney Bob Oast in 2006 saying "our code is fairly specific in terms of timelines for compliance with respect to notices of violation and it's my suggestion that we just follow that code." Former Mayor Bellamy said "that works for me." The notice of violation to be delivered to the property owner never happened. He showed a copy of a letter from UNC-Chapel Hill where it stated "... it should be equal to or better than regular compliance." He said there should be a 20 foot buffer there or something equal to or better than that for it to be legal. In 2007, the City brought forward the "either/or" plan, either Greenlife fixes it's loading bay with a buffer added in or the City move forward with traffic calming. He alleged that former Mayor Bellamy said to put it in writing and make it so. When the Mr. Owens' report came in, the City was notified of the non-compliance and several different times the seated City Council asked for Greenlife to come back and gave several different deadlines. Using a video, Mr. Minicozzi said that in 2007, then Interim Planning Director Shannon Tuch presented before the seated City Council, showing the drawings and plans saying "no application has been made at this time but this is very typical of a conditional zoning process and this is what we would expect to see at this point." Using a video, in 2007 former Councilwoman Robin Cape is shown speaking with Mr. Swann saying "...partners in other places who aren't as committed to our community as you are and that has been part of the issue for you. Do you feel like you have their support to move this forward?" Mr. Swann replied "Absolutely, we wouldn't have these prints on the table if we didn't have full support of management and ownership of the company." He said Mr. Swann was supposed to have brought plans forward to City Council. There is also the issue of the side parking lot that wasn't part of the original plan. He asked the Planning Department to show him where Greenlife got their permit to use the lot without paving it or meeting the standards. When he first talked to John Swann about this in 2004 Mr. Swann said it was a loading area and they didn't own that property. Somehow they have been using that with a notice of violation or compliance. City staff even says "the city finds that the property and land use occurring on Greenlife are largely in compliance." You can't be largely in compliance - you're legal or you're not. There are nuisance issues and we have

been before the Noise Board. There are frequent noise complaints, frequent sounds and noise disturbances. City Council receives these emails. 4:00 a.m./3:00 a.m. there are trucks on this street every single day ignoring the No Truck signs and driving right past them. This is Mr. Thompson's everyday experience on the street. Trucks drive over telephone lines. He showed a picture of the morning of the Planning & Zoning Commission meeting. Neighbors deal with beeping of the trucks and would anyone live with this? The sidewalk is blocked. From a video, former Councilman Mumpower says "Do that for a week, and if you don't get response, start calling us." The reason why Mr. Thompson has been calling is because he was directed by council to do so if he didn't get responses. Showing pictures, he said Greenlife blows their garbage down the street and have had snow plowed in front of Mr. Thompson's property. They do not care about their neighbors. Yet, the City allows them to sponsor that street. Using a photo, he said that staff sends memos that they are enforcing laws that no trucks will block the sidewalk, but you can see from a picture that a truck is blocking the sidewalk. There are trucks that are not allowed on the street. There are private services being delivered on Maxwell Street (showing a private garbage truck on the street three times a week) - the law only allows for public contracted garbage trucks to be operated on the street. He said Mr. Thompson was even cited for a shrub violation in June for the shrubs growing over the sidewalk. He provided Council with a 2005 petition from 11 people on Maxwell Street requesting enforcement of the City's Code. He also provided Council with letters from neighbors in 2004 (and one from 2018) who complained about Greenlife, noting they were paying $850/month rent. Even Airbnb people complain. The ethical principles of planners say we have to deal with the related issues - we can't ignore them. He noted that the Comp Plan for 2025 was not presented by staff, but it clearly contemplates a mixed-use environment.

Vice-Mayor Wisler opened up the public hearing at 6:03 p.m.

The following individuals spoke in support of the conditional zoning; however, most voiced concerns relating to Greenlife acknowledging that this seated Council is not responsible for the inactivity of the past but should be responsible for the solution. Some concerns expressed were, but are not limited to: Maxwell Street is no longer a residential street, but a commercial street; precedent is set that the City chooses large businesses over residents; unable to live or rent on Maxwell Street due to constant traffic, noise and nuisances every day; City staff abused their power to ignore and marginalize this community and Mr. Thompson in particular; the City needs to enforce the buffering requirement of Greenlife; in 2007 the seated City Council gave Greenlife 45 days to mitigate concerns, but 11 years Greenlife made no changes; the City has issued no violations to Greenlife; there is flagrant commercialism on Maxwell Street that the City has allowed; the fines accrued by Mr. Thompson should be dropped; even with low rent, people will not want to live on Maxwell Street due to the noise of the trucks; the residences are no longer suitable for long-term rental; there are community benefits to having short term rentals as those people spend money in our city; if the properties are allowed to be short-term rentals, the reviews by customers might contain damaging comments about loud truck traffic and Mr. Thompson might not be able to rent them short-term even; problems in accessing homes on Maxwell Street due to trucks; cars parked on Maxwell Street are getting hit by trucks; the large trucks create a lot of dust; trees have been damaged by the large trucks maneuvering on Maxwell Street; even legal homestays on Maxwell Street are having a hard time getting customers due to the truck activity on Maxwell Street; Mr. Thompson is being denied due process and equal protection of the law; and the residents on Maxwell Street might be treated the way the have been treated is because the property is owned by State representative Brian Turner and he makes money off of this lease:

Former City Councilman Cecil Bothwell
Ms. Meg Jamison, former resident of 17 Maxwell Street
Ms. Karen Ramshaw
Former resident of 32 Maxwell Street
Mr. Jonathan Wainscott

Mr. Michael McDonough, Montford resident
Mr. Pat Whalen, President of Public Interest Projects
Mr. William Huxley, resident
Ms. Hope Trammel, employee of Mr. Thompson
Ms. Velvet Hawthorne, resident of 17 Maxwell Street
Mr. Sidney Bach
New City resident
Mr. James John, resident of Asheville
Ms. Brandee Boggs, resident on Maxwell Street
Ms. Jan Howard Kubinek, resident on Reservoir Road

Mr. Peter Landis, downtown resident, felt City Council should deny Mr. Thompson's request for short term rentals as it would set a terrible precedent. He requested Council to either drop or suspend the fines accumulated by Mr. Thompson because of inaction by the City. Finally, because Greenlife is owned by the world's richest person the City should put pressure on Greenlife to find a solution.

Mr. Reid Thompson, applicant, said that residents on Maxwell Street have lived with 14 years of an illegally operated commercial alley and loading in the street that has been completely unenforced. For 12 years, the City has had a report from the School of Government so everyone has known Greenlife has not be in compliance. He has been threatened, assaulted and arrested. He has been banned from public buildings without due process. In 2015 he was removed off a field trip with his daughter because of staff's actions. When you look at the record, it shows he was banned after he had been promised corrective action by Council. All he did was ask staff for the plan to get the trucks off the street. It's obvious to him now that all that was was misdirection by our government. He and his neighbors have been intimidated from speaking out. He would have had more realtor friends at this meeting but they were afraid to be singled out like he has been singled out. He sold three houses and dealt with continuous nuisances. One of his tenants went to Europe and when she returned the rats had eaten the wiring in her car. She moved out and he sold the property. He asked Council to do the right thing and help mitigate this situation. If he were asking for special treatment, he would be asking for what Greenlife got 14 years ago. He put in his application prior to the change in zoning. Ms. Shannon Tuch, who was directed to get the commercial traffic off Maxwell Street a decade ago, is the same person that denied his application. One of two that were denied out of 36. Mr. Joe Minicozzi put in his application and by his peers he is ranked as one of the top 100 urbanists that have ever lived. He works with governments across the country and around the world. It puzzles him that he was unable to complete an application that was acceptable to Ms. Tuch. In the 32 page report prepared by staff, Greenlife is mentioned one time in the minutes from the Planning & Zoning Commission meeting. The published Planning & Zoning Commission minutes are 7 pages. Quite by accident he ran into the woman who kept the minutes in a restaurant and she told him there were 9 pages. He didn't imagine that staff did him any favors with their edits. He feels like he's been singled out, like he's been treated unfairly by the City for standing up for himself. How can the Planning staff say the two issues are not related when that is what planning is all about - the interrelatedness of properties. Because of the same situation for all the residents on Maxwell Street, he felt we should rezone the whole street so everyone can do short term rentals. He said he has been the buffer to his neighbors for 15 years. Regarding Ms. Tuch, he showed a letter from North Carolina Real Estate Commission where Ms. Tuch made a statement about his activities, where she felt he was a "'loose cannon' in the community - in her opinion, he was not stable." In that same letter it said "she never felt threatened and did not actually see if he was going to follow her." He then showed an email from Mr. Cecil Bothwell where he had met with Gary Jackson and Bob Oast and read "When I showed them the letter from the BOR ... they said that the information in the letter was not what Tuch had told them about the incident." And then what he noticed was missing from the Planning & Zoning Commission minutes was the information he supplied about the Turner's. The Turner's own the property. Every morning they are woken up by the beep, beep,

beep from the garbage truck. He has sent Council a lot of pictures showing his daughter sitting in the window crying with the truck behind her. He has invited all of Council to come out and have coffee with him on his porch and none of them has taken him up on it. He was sorry that he seems upset but he has dealt with this for 15 years and he knows that he has not been treated fairly by staff because they can't see the interrelatedness. Using a map, he said what didn't get shown was this area used to be a part of the Broadway Corridor District. In that map he showed Kevin Kerr's building. That building is 20 units an acre but Council down-zoned it and now he can't ask for Airbnb on his other property. He doesn't know if that was directed by Council or done by staff. The same thing was done to Mr. Chris Peterson and to Mr. Jim Siemens.

Vice-Mayor Wisler closed the public hearing at 6:50 p.m.

Councilman Haynes said that the City has been wrong over the years and they have an obligation to make this right. Short term rentals may not be the solution here, but he wondered if the units can be rented for anything other than short term rentals. He felt that Maxwell Street is no longer a residential street. He felt this is a special case and City Council will not be setting a precedent because they will need to come before Council for approval.

Councilwoman Mayfield agreed that people are more important than companies, but this doesn't have anything to do with Greenlife or the Turner family. The truth is that the decisions the City made years ago were wrong, and it was wrong that it wasn't fixed. She doesn't understand why it hasn't been fixed. She believed that the City's actions have harmed, to some degree, everyone on Maxwell Street, particularly Mr. Thompson has been impacted and that has caused enormous distress and real damage. She apologized for that. We have been trying to figure out the solution, but she didn't think we have found the solution yet. She was equally troubled by the proposal mainly because turning these properties into short term rentals doesn't solve the problem. The problem is Greenlife and the fact that there is a loading dock where there shouldn't be a loading dock. The problem is there is a loading dock with no buffer, and the problem is there are trucks on that street that should be on that street. That's the problem we have to fix. Allowing these houses to be used as short term rentals, in complete violation of every direction this Council has gone in terms of that policy, doesn't fix the problem. Turning the street into a commercial street also doesn't solve the problem because short term rentals are illegal everywhere. In her view, we need to focus on Greenlife and said those conversations have opened. Our City staff is in conversations already with Greenlife about them coming to look at this problem and try to find a solution. There have been other options on the table for resolving this, i.e., a mediation and a number of options put on the table to try to alleviate the distress that Mr. Thompson is experiencing. We have not been able to come to an agreement on any of those things, but she remains convinced that the City has to actually solve the problem, which is Greenlife. She has committed to staff that she will put energy into trying to do that. Allowing these two houses to be used a short-term rental will not fix the problem.

Councilman Young felt that short term rentals is not the fix for this problem and this is not the end of trying to find a solution.

Vice-Mayor Wisler said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to deny the conditional zoning request for Parkway Court LLC for 28 and 32 Maxwell Street from Residential Multi-Family High Density District (RM-8) to Lodging Expansion District Conditional Zone (LODG EXP CZ) and find that the request is not consistent with the adopted comprehensive plan and that the denial is reasonable and in the public interest for the following reasons: (1) The use is not permitted in the surrounding residential districts nor in surrounding commercial zoning districts. Lengthy public discussion surrounding the restriction has taken place resulting in the action by City Council to prohibit whole-house STVR

uses and greatly limit the use elsewhere; (2) Due to the historic residential development pattern, there is not sufficient room on the properties to provide the buffering and parking required by code; (3) On-street parking along Maxwell Street is purposely reserved for long-term residential users only is a concerted effort to reduce the impact of commercial users in the vicinity; (4) In the city's application materials, it is stated that the conditional zoning tool *"is available to promote land uses and activities that benefit the public in general. If there is only private benefit, the tool should not be used."* This action is only for the financial benefit of the applicant; and (5) A change in the Future Land Use Map to Traditional Corridor is not appropriate as these properties are more suited to the Traditional Neighborhood designation and Maxwell Street would not be identified as a corridor (although it is noted that this is the edge of the neighborhood). This motion was seconded by Councilwoman Mayfield and carried on a 4-1 vote, with Councilman Haynes voting "no." (Mayor Manheimer recused).

At this time, Mayor Manheimer re-entered the meeting and presided over the remainder of the meeting.

H. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 511 BREVARD ROAD FROM HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONE AND LODGING EXPANSION/CONDITIONAL ZONE FOR THE DEVELOPMENT OF A 4-STORY HOTEL BUILDING AND A FUTURE DEVELOPMENT PARCEL

ORDINANCE NO. 4702 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 511 BREVARD ROAD FROM HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONE AND LODGING EXPANSION/CONDITIONAL ZONE FOR THE DEVELOPMENT OF A 4-STORY HOTEL BUILDING AND A FUTURE DEVELOPMENT PARCEL

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to conditionally zone 511 Brevard Road from Highway Business (HB) to Lodging Expansion Conditional Zone (LODG-EXP-CZ) for the development of a 106 room hotel with associated parking and an outparcel for future development on the property to Highway Business CZ (HB CZ) located on 3.03 acres at 511 Brevard Road in West Asheville. This project is considered a Level III Development, which requires a Conditional Zoning review pursuant to Section 7-5-9 of the city's Unified Development Ordinance (UDO). This public hearing was advertised on August 17 and 24, 2018. On August 28, 2018, this public hearing was continued to this date at the applicant's request.

The project proposes to build a 58,398 sf hotel with 106 rooms with 103 parking spaces. The building is shown at four stories and 62 feet to the top of the roof ridge. The height to the floor of the top occupied story is 32 feet. The building is placed to the rear of the lot, towards I-40.

The outparcel at the corner of South Bear Creek and Brevard Road is proposed to be conditionally zoned as HB-CZ. The benefit of this is to ensure proper connectivity between the two future parcels including sidewalks, and a sidewalk along South Bear Creek for the frontage of the outparcel. The applicant has agreed to prohibiting drive-thrus associated with uses for the outparcel.

The project site is 3.03 acres on Brevard Road and South Bear Creek Road, just north of I-40 in West Asheville. The site is located in an "island" of land between I-240 and I-40. The portion to be conditionally zoned is currently zoned Highway Business. The parcel to the north is outside of the city jurisdiction, and is zoned Commercial Services (CS) in Buncombe County.

The site is accessed via a driveway off of South Bear Creek Road. A secondary driveway

is shown going to S. Bear Creek Road closer to the intersection of Brevard Road, as required by the Fire Department. Sidewalks are shown along S. Bear Creek and Brevard Road. The applicant agreed to make these improvements with the development of the hotel instead of waiting for a development to occur on Lot 2.

The applicant has also agreed to provide the standard city transit shelter at the transit stop on Brevard Road. In addition, the applicant has agreed to install a pedestrian crossing signal at S. Bear Creek Road, which will assist anyone using the bus get to the northbound (inbound) bus stop on Brevard Road. The pedestrian crossing signal will be subject to the N.C. Dept. of Transportation approval.

The applicant has agreed to provide a ten foot easement along Brevard Road for a potential future Buncombe County greenway. Lastly, the applicant has agreed to provide shuttle services for guests to downtown and other destinations.

Plans show street trees, building impact, and Vehicle Usage Area landscaping. Screening for dumpsters is also noted. Open space is shown at 15% in compliance with UDO standards.

The current design as submitted does not fully meet the city's design standards for the Lodging Expansion District. The building orientation is oriented more to I-40 than S. Bear Creek and there is parking between the building at the primary facade that faces S. Bear Creek. The original design showed the building sides having very few windows. Since the Planning and Zoning Commission meeting, the design team has added windows to the Brevard Road facade (side of building).

The applicant is requesting the following condition to modify the standards.

1. Parking between the building at the primary access corridor.
2. Reduced fenestration on the side facades.

This project was approved with conditions by the city's Technical Review Committee (TRC) on February 19, 2018. As this is a Level III review, City Council review and approval is required. A Final TRC review is also required if approved by City Council.

Planning and Zoning Commission reviewed this project on August 1, 2018, and voted 6-1 in favor of the project. The Commission did discuss the side of the building facing Brevard Road and as a part of their approval recommended that the side be redesigned to look more like the front of the building. The applicant has added windows to a greater extent on the side facade facing Brevard Road.

At the Planning & Zoning Commission meeting there was one person who commented about the project. The speaker's concern was about the safety of the location of the hotel entrance drive with the RV Park just up the road, citing vehicle speeds and the curviness of the road. No comments were made in opposition to the project.

Current zoning is Highway Business District. The applicant is requesting Lodging Expansion Conditional Zone and has agreed to the outparcel being zoned Highway Business Conditional Zone.

In May 2017, City Council approved a Conditional zoning for the Buncombe County Transfer Station which is nearby. No other zoning actions have been taken for properties nearby.

The proposed project should be compatible with the surrounding context in part due to its separation from the surrounding area. To the rear of the site along South Bear Creek Road is a RV park. Further down South Bear Creek, the area transitions to a more residential community. The city zoning along the South Bear Creek corridor between the site and I-240 is Regional Business which would allow for much more intense and mixed uses than is there today. To the north of this property is one large parcel that is a older farm, which is outside the city jurisdiction and zoned Commercial Services (CS) by Buncombe County.

In the newly adopted Living Asheville Comprehensive Plan, the Future Land Use Map identifies this area as an Urban Corridor area. Urban corridors are appropriate for infill development and "redevelopment in the form of mixed-use residential, commercial and office uses that place emphasis on pedestrian-friendly amenities". Hotels are recognized as a compatible use in the Urban Corridor areas. At the same time, the Living Asheville plan does recommend further study on all lodging types and how they impact the local community, which would assist future reviews of hotel proposals.

The proposal aligns with the 2036 Council vision in the area of A Well-Planned and Livable Community – The project is located within a short driving distance of miles of stores, restaurants and Bent Creek/Lake Powhatan. The subject site is also located next to a highway exit and on the ART S3 bus line.

Considerations:

- Project makes use of land that is bordered by two N.C. Dept. of Transportation rights-of-way that may be less attractive for other uses such as residential.
- Traffic to the site will be primarily coming from I-40, I-240 and Brevard Road; should have limited traffic coming through the neighborhood via South Bear Creek Road.
- Improved sidewalk facilities along Brevard Road and South Bear Creek Road.
- Applicant has agreed to prohibit drive through uses on the outparcel.
- Applicant has agreed to a shuttle service and building a transit shelter on Brevard Road.

Staff supports the application. The hotel is an appropriate use for the area, close to highways, the Farmers Market and the North Carolina Arboretum/National Forest. The conditions on the outparcel in the form of HB-CZ zoning will ensure that future development will limit drive-throughs. Overall, the development will improve the pedestrian infrastructure and facilities.

Mr. Derek Allen, attorney representing the applicant, said that they have agreed to all the conditions staff has requested. He gave a brief description about the developer BlackStream Development noting that they have an office in downtown Asheville. The project complies with the Land Use Plan, and noted that the property is really an island bounded by Bear Creek Road, Brevard Road and I-40. There were no issues at the Technical Review Committee or at the Planning & Zoning Commission. We have agreed to sidewalks around the entire of the property, a bus stop, open space, greenway easement, interconnectivity between the out parcel and the hotel parcel, no drive-thrus on the out parcel, and shuttle service from the hotel to downtown, Airport and retail area on the other end of Brevard Road. Outside of those conditions, they have committed to provide a living wage. They have also committed to contribute at least $150,000 to the A-B Community Land Trust that the City is establishing for land-banking for affordable housing. That commitment is to be triggered in the first calendar year following occupancy of the hotel and pay it in six annual installments of $25,000. That is an acknowledgement that we do have an affordable housing issue, but housing on this parcel does not work.

Vice-Mayor Wisler asked that the condition regarding the shuttle service be revised to include the Asheville Outlets area at the other end of Brevard Road. Mr. Allen agreed to amending that condition.

Mr. Chris Day, representing Civil Design Concept, reviewed the proposed location. An effort was made to orient the building and place it up against the interstate. It helps to provide any type of shielding and buffering towards the uses and it also creates an out parcel. That out parcel will remain Highway Business and they are committing that to no drive-thrus. Whatever goes on the out parcel will provide a connectivity to the adjacent hotel use. The second vehicular access was a requirement by the Fire Marshal and while they have it shown in this particular location, as the out parcel is developed, it is their intention that it may adjust slightly to accommodate what retail or use that goes on that Highway Business tract. They propose to put in the sidewalk along the out parcel tract as well as sidewalks along Brevard Road. They propose a transit shelter along Brevard Road as well as pedestrian signals for a crossing across S. Bear Creek Road. The Planning & Zoning Commission requested additional fenestration on the Brevard Road side of the building and windows were added where feasible.

Vice-Mayor Wisler suggested that whatever is placed on the out parcel, when it is developed, that it be a local company.

Mr. Josh Howard, principle of BlackSteam Development, said they are committed to Asheville and that is why they are excited about this project. They recognize that affordable housing is an issue and while housing did not work for this site, they are committed to being good community stewards. That is why they are committing to contribute $150,000 to the A-B Community Land Trust.

Mayor Manheimer understood that the developer has worked with staff on a number of conditions to include the sidewalk piece around both parcels, prohibit a drive-thru on the out-parcel, and provide a shuttle service. The contribution to the A-B Community Land Trust is not a condition, but will be a separate non-profit entity working in partnership with the City and others. The City has two staff on the board for the A-B Community Land Trust. Her understanding that the commitment to the A-B Community Land Trust would begin in the year 2020 (or if the Community Land Trust takes longer to create) with $25,000 per year for six years.

Mr. Howard agreed to the commitment of $150,000 to the A-B Community Land Trust beginning within the calendar year after occupancy.

Mayor Manheimer thanked Councilman Young and Councilwoman Smith for thinking of this creative concept to try to help us marry the challenges we are having around tourism and hotel growth with this continuing affordable housing crisis we are experiencing in Asheville.

Mayor Manheimer opened the public hearing at 7:22 p.m., and when no one spoke, she closed the public hearing at 7:22 p.m.

Councilwoman Mayfield questioned what the value is of the pedestrian crossing signal at S. Bear Creek, a two-lane road, when we don't have one across Brevard Road, a five-land road. Ms. Vrtunski said the S. Bear Creek Road crossing was at the request of the Transportation Department. She said that Brevard Road and S. Bear Creek Road are both on N.C. Dept. of Transportation (NCDOT) right-of-way. It was the consensus of Council to ask the NCDOT to construct the pedestrian crossing on Brevard Road and to allow the applicant to construct the pedestrian crossing signal at S. Bear Creek Road. To the extent that we need any land on the northwest corner of the intersection of S. Bear Creek Road and Brevard Road for the purposes of creating a pedestrian crossing on Brevard Road, Mr. Allen said that they would be willing to provide an easement.

Councilwoman Mayfield appreciated all of the community benefits the applicant is willing to provide as a part of this project; however, she will not support this project because she felt this is a place where we need multi-family housing.

Mayor Manheimer said that she has personally considered if we should consider a moratorium on hotels for the City; however, legally moratoriums are very difficult in North Carolina and if you can get them passed, they are extremely temporary. That is not the answer. City Council we hold a worksession dedicated to just this topic and look at all the pieces of tourism that impact our community, especially how we are able to finance the needed infrastructure improvements to be able to host the number of people that are coming to the City, while balancing the level of growth we are seeing with preserving what makes our community wonderful. And also so that the people that live here can afford to live here. It's important that hotel applicants understand that we have to carefully review each application individually. We will need to understand how the particular project will contribute to our City. In this situation the applicant has worked hard to figure out a way to address some of the issues we are having, especially around housing. There is a tendency in the hotel industry to think they will generate property tax revenue, jobs, etc., and we have done a little research on the revenue side, noting that we will look at the whole picture. Asheville collects around $64 Million in property tax revenue every year (the majority revenue source that balances our budget) and of that, hotels contribute $3.25 Million. That means the taxpayers are subsidizing the infrastructure improvements needed to help maintain a City that hosts that many people that come to it everyday. There is an argument to be made about the economics around the hotel industry and the tourism industry that has helped keep this City strong for as many years as it has been. She understands that and it's valid. But when you realize how much it costs to fix sidewalks and to pave road and to keep a community safe, etc. and try to provide a forum that creates good quality jobs for the people that live here, everyday we struggle with it. We need developers that want to participate and invest in our community, and we will need to see that partnership piece of it.

Councilman Haynes will not support the conditional zoning and wanted to developers and investors in the City wanted them to realize what we are really looking for - we want housing and businesses that will add some diversity to our economy, not just aimed towards tourism.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved approve the conditional zoning request for Highway Business District to Lodging Expansion Conditional zone for the Mainstay Suites Hotel at 511 Brevard Road with the requested conditions and find that the request is reasonable, is in the public interest and is consistent with the Living Asheville Comprehensive Plan in that: (1) the project is located in a well established commercial area; (2) increases pedestrian connectivity; and (3) a new shelter will be built at an existing ART stop on Brevard Road. This motion was seconded by Councilwoman Smith and carried on a 4-2 vote with Councilman Haynes and Councilwoman Mayfield voting "no."

ORDINANCE BOOK NO. 32 – PAGE 217

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Board of Electrical Examiners, since no applications for the layman seat were received, it was the consensus of Council to re-advertise for the position.

Regarding the Citizens-Police Advisory Committee, since no applications for the resident of property owned by the Housing Authority were received, it was the consensus of Council to re-advertise for the position.

Regarding the Neighborhood Advisory Committee, since no applications for the representative that resides in the 28806 or 28728 zip code, it was the consensus of Council to re-advertise for the position.

Regarding the Public Art & Cultural Commission, the following individuals applied for the vacancy: Cate Ryba, Mariana Llorente, Karven Depew, Valeria Watson, Karin Peterson and Travis Smith. It was the consensus of Council, as requested by the Public Art & Cultural Commission, to re-advertise for the vacancy while the Commission seeks a minority representative.

RESOLUTION NO. 18-263 - RESOLUTION APPOINTING A MEMBER TO THE CIVIL SERVICE BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Civil Service Board.

On September 9, 2018, City Council rescinded Alan Escovitz' appointment to the Civil Service Board, thus leaving an unexpired term until May 21, 2019.

The following individuals applied for the vacancy: Stephen P. Hyleck and Carter B. Webb.

Vice-Mayor Wisler moved to appoint Carter B. Webb to serve the unexpired term of Mr. Escovitz, term to expire May 21, 2019, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 162

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Kara Jahn was concerned about kudzu on the Reed Creek Greenway and suggested using goats which are eco friendly and cost effective. Mayor Manheimer suggested the Recreation Board would be a good place to start this discussion and said the City Manager would be in contact with her.

Mr. Sidney Bach was concerned that the Hospital Corporation of America may ask for the assessed value of the Mission property be reviewed. He pointed out that this happened in Sylvia and the value of the land dropped by more than 70%. Mayor Manheimer suggested the City Manager look into this possibility.

Mr. Joe Minicozzi spoke about his disappointment of how we operate in our community.

Mr. Jonathan Wainscott spoke about gentrification in Asheville.

Results of the September 25, 2018, Civil Service Board Employee Elections

One copy of the results of the Civil Service Board employee election held on September 25, 2018, is to be filed with the City Manager and one with the City Clerk, who shall present such certification to the City Council at its next regular meeting. The Board of Canvassers provided the following certified certificate on September 26, 2018: We do hereby certify, having opened,

canvassed, and determined the original returns of the Civil Service Board employee election, the results of the Civil Service Board Employee Election held on September 25, 2018, noting the name of each person voted for and the number of votes cast for each person as follows: Alan Escovitz - 128; and Steve Hayleck - 36.

Closed Session

At 7:49 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: James Robert Wet vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3);and (3) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:55 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:55 p.m.

Magdalen Bulteson
CITY CLERK

Esther E. Manheimer
MAYOR

Wednesday – October 17, 2018 - 4:00 p.m.

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Mayor Manheimer opened the special meeting and said that City Council is holding this special meeting in order to vote on executing a contract with the anticipated City Manager candidate.

Mayor Manheimer explained the process City Council used in the City Manager selection process. City Council's initial intention had been to hold a community Meet and Greet for the finalists; however, the anticipated candidate was so well aligned with the input received from the community, City Council and staff that City Council has decided to move forward with the anticipated candidate. The anticipated candidate had strong support from community stakeholders, City Council and City leadership team.

RESOLUTION NO. 18-264 - RESOLUTION AUTHORIZING EMPLOYMENT AGREEMENT WITH DEBRA CAMPBELL AND APPOINTING DEBRA CAMPBELL AS CITY MANAGER

Mayor Manheimer read the resolution: "WHEREAS, the City Council began its search for a new City Manager in Spring of 2018; and WHEREAS, the City Council sought community and employee input regarding desired qualifications for the new City Manager; and WHEREAS, the City received 75 applications for City Manager; and WHEREAS, after a careful and deliberate process involving community members, City employees and City Council, City Council narrowed the candidates to six possible candidates; and WHEREAS, after conducting interviews of those six candidates, involving community members, City employees and City Council, and reviewing input from those groups, City Council deliberated and agreed that Debra Campbell was their unanimous choice for the role; and WHEREAS, Ms. Campbell has agreed to the terms of an Employment Agreement presented to Ms. Campbell contingent upon ratification by the City Council, whereby she will begin employment with the City of Asheville as City Manager on December 3, 2018; and WHEREAS, pursuant to Article III Section 19 of the City's Charter, City Council appoints the City Manager; and WHEREAS, pursuant to N.C. General Statute §143-318.11(a)(6) such appointment shall take place in an open meeting; and WHEREAS, this special meeting was properly noticed and called for the purpose of appointing Ms. Campbell as City Manager and ratifying the Employment Agreement; NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: Debra Campbell is hereby appointed City Manager as of December 3, 2018, and is so employed as of that date pursuant to the terms of the Employment Agreement she has signed, hereby ratified by City Council."

Councilman Young moved to adopt Resolution No. 18-264 appointing Debra Campbell as City Manager, effective December 3, 2018. This motion was seconded by Councilman Kapoor and carried unanimously.

Council welcomed Ms. Campbell to Asheville and looked forward to her leadership.

Ms. Campbell said she was blessed, honored and excited to be named Asheville's City Manager. She commended the Mayor and City Council, community partners who participated in the process, staff and the search firm for their inclusive, thorough process to recruit for this coveted position. She thanked her co-workers, elected officials, community and business partners in Charlotte for the amazing experiences that helped develop her skills professionally and prepared her for this incredible opportunity in Asheville. Now, she realizes that she has a lot of hard work ahead of her to convince Mayor and City Council, staff and the broader community that they should keep her as their City Manager. To do this, she hoped they will never have to question her competency, her character and her commitment to this position, to this organization and to this community. Asheville has a lot of positive momentum to build on, but there is a lot of heavy lifting ahead of us to address social, economic, environmental and trust issues. She is anxious to get started. This is about what we can get done together. She thanked her family and friends for their support, love and encouragement through this process. She will not let Asheville down.

RESOLUTION BOOK NO. 40 - PAGE 163

Mayor Manheimer adjourned the meeting at 4:17 p.m.

Magdalen Bowleson
City Clerk

Esther E. Manheimer
Mayor

Tuesday – October 23, 2018 - 3:00 p.m.

Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith (arrived in meeting at 3:48 p.m.); Councilman W. Keith Young; Acting City Manager Cathy Ball; and City Clerk Magdalen Burleson

Budget Director Tony McDowell said that we are starting the budget process differently this year by sharing with Council and the public detailed budget information for each department earlier in the process. As you might recall from the previous budget workshop Asheville has unique challenges around its cost of living, demographics, affordable housing, as well as significant daytime growth in the city population. At this worksession, Council will continue to hear about how these challenges are impacting departmental budgets. Council will also continue to hear about the impact of the national economy on the City as an employer, and also hear about our focus on equity and how that is changing our service delivery models.

The City also continues to experience significant community interest in planning and zoning as we address growth and the impact of non-residents. All of these and other factors demand changes in how services are delivered, in the kind of technology and the equipment needs that exist. Keeping pace with changes in these areas allows us to have the best facilities and equipment to provide quality services to our residents and visitors.

As important as our facilities, equipment and technology needs are, people are still the organization's most important resource. The people we hire here are integral to quality of the service delivery. Throughout the presentations last month, we noted that a large part of the budget is dedicated to the employees who provide the services.

Department Directors from the Planning & Urban Design Department, Police Department, Information Technology Department, Finance Department and non-departmental each reviewed their organizational chart; overview of core services; key partners; budget and Fiscal Year 2018-19 budget drivers; prior year spending trends; Fiscal Year 2018-19 budget changes; department challenges; and Fiscal Year 2018-19 department goals from their respective department.

Various staff responded to several questions/comments raised by Council, some being, but are not limited to: to what extent do we collaborate or interact with the Buncombe County Planning staff; do the smaller municipalities in Buncombe County pay their fair share of joint projects; what type of calls are included in Police Department calls for service; is the 5% increase in the Police Department's calls for service typical for a city this size; request for breakdown of the Police Department's calls for service; and has the security contract for City Hall and Public Works ever been handled in-house, and if so, what would that amount look like. For those questions not readily answered, and for any additional questions Council members submit, they will be provided to Council via a memorandum.

Mayor Manheimer adjourned the worksession at 4:15 p.m.

Tuesday – October 23, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RECOGNITION OF FLORENCE RESPONDERS

Acting City Manager Ball said that Hurricane Florence had an extreme impact in Eastern North Carolina and quickly overwhelmed the cities and counties of that region. These communities were in need of help due to damaged water infrastructure, communication systems and flood waters. NC requested assistance from less impacted communities and Asheville employees stepped up in a big way. City of Asheville Employees affected numerous rescues from boats and helicopters, evacuated dozens of hospital bound patients to safer locations inland, supported the communication infrastructure in the region, supported a large shelter for evacuees, coordinated and monitored social media to assist with community engagement, assessed and supported the mental health needs of responders in the region and helped to manage water infrastructure challenges. Numerous lives were impacted and saved by our amazing employees. In all, 37 employees assisted in the response to Hurricane Florence; we are very proud of the services that they provided and how they represented the City of Asheville. Those employees are: Chris Corl (US Cellular Center); Brandon Buckner and David Melton (Water Resources); Christy Edwards, Christina Hallingse, Ashley Traynum-Carson, and Polly McDaniel (Community & Public Engagement); and from the Fire Department Eric Johnson, Adam Wilson, Patrick Boland, Adam Hoffman, Eric Wardwell, Scott Hare, Patrick Crudup, Mike Webb, Nathan Miller, Ryan Anderson, Kevin Proffitt, David Sullivan, Ross Parkinson, Austin Hall, Spencer Tetrault, David House, Jeremy Knighton, Wallace Sexton, Norris Going, Isaac McCurry, Jackie Buckner, Jamie Bryson, Barry Sheppard, Brendan Flood, Trey Young, Brad Holmes, Jay Bettencourt, Dennis Ball, Josh Jenkins and Kelley Klope.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE SPECIAL MEETINGS HELD ON OCTOBER 4 AND 5, 2018; THE REGULAR MEETING HELD ON OCTOBER 9, 2018; AND THE SPECIAL MEETING HELD ON OCTOBER 17, 2018

B. RESOLUTION NO. 18-265 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE FISCAL YEAR 2019-20 METROPOLITAN TRANSPORTATION PLANNING GRANT, SECTION 5303 OF THE FEDERAL TRANSIT ADMINISTRATION, AND IF AWARDED, ENTER INTO THE AGREEMENT

Summary: The consideration of a resolution authorizing the City Manager to apply for and accept a grant from the N.C. Dept. of Transportation (NCDOT) to fund the Metropolitan Planning Program, Section 5303 of the Federal Transit Administration (FTA).

The FTA Section 5303 Metropolitan Planning Program is part of the annual Unified Planning Work Program (UPWP) of the French Broad River Metropolitan Planning Organization (FBRMPO), which outlines transportation planning tasks to be performed by the FBRMPO. The Metropolitan Planning Program is designated to pay exclusively for transit planning activities, such as grant administration and reporting activities, short-range and long-range transit planning, transportation improvement program preparation, Title VI and DBE programs, and planning and operational analyses. The funds are used to supplement the Transit Planning Manager position (90% of the grant) and other transit related positions (the remaining 10%) for time spent on transit planning.

This funding makes it possible to have dedicated staff developing and engaging in complex processes such as the transit master plan implementation, route changes, and to develop programs required by the Federal Transit Administration for Asheville, as designated recipient, and sub-recipients to ensure compliance with federal regulations. This resolution is required by the North Carolina State Department of Transportation.

FY 2019-20 funding totals $75,000. The subject grant will provide 80% of the anticipated funding ($60,000), the North Carolina Department of Transportation will provide 10% ($7,500), and the City of Asheville will provide the remaining 10% ($7,500). The grant funding and the City's local match are budgeted annually in theTransit Services Fund budget.

The Finance & HR Committee will review this action at their October 23, 2018, meeting and if there is any action other than a unanimous recommendation, it will be shared at the City Council meeting.

Pros:

- Supplements funding for multiple transit-related positions.
- Enables the City of Asheville to use $67,500 in Federal and State funds for transit planning activities.

Con:

- A 10% local match in the amount of $7,500 is required.

The total grant funding is $75,000. As noted above, the City is required to provide a 10% local match in the amount of $7,500. The anticipated grant funding and the City's local match in the amount of $7,500 are budgeted annually in the Transit Services Fund budget.

City staff recommends that City Council adopt a resolution authorizing the City Manager to to apply for and accept a grant from the North Carolina Department of Transportation to fund the transit planning program, Section 5303 Metropolitan Planning Grant of the Federal Transit Administration for FY 2019-20.

RESOLUTION BOOK NO. 40 - PAGE 164

C. ORDINANCE NO. 4703 - BUDGET AMENDMENT FOR DEVELOPMENT SERVICES TECHNOLOGY PROJECT

Summary: The consideration of a budget amendment in the amount of $100,000 to allocate revenue collected in the Development Services Technology Project to fund contracted services and supplies.

The Development Services Department assesses a four percent technology fee on most applications for development related permits and services. The revenue associated with this fee is intended to fund technology projects that improve service delivery to development related customers. Examples of previous technology improvement initiatives include implementation of the Accela permitting software system, replacement and upgrade of staff computers, the procurement of software, and ongoing technology consulting services.

This budget amendment proposes to allocate $34,500 to contract with Open Counter Enterprises, Inc. to provide software based services to create and maintain a Development Portal. This web based portal will function as a resource tool for development customers and as the submittal platform for digital plans and permits.

The amendment also proposes to allocate $15,000 to purchase staff subscriptions of BlueBeam plan review software, and support hardware such as scanners, to facilitate the implementation of a digital plans and permit submittal and review process.

Finally, the remaining allocation of $50,500 provides for ongoing software maintenance for the Accela permitting software system including related professional services, and needed upgrades/replacement of staff computers and related technology items.

This item is being reviewed by the Finance & Human Resources Committee on October 23, 2018, and if there is anything other than unanimous recommendation to move forward, it will be noted at the meeting.

Pros:

- Allows the department to continue implementing the electronic submittal and review of plans and permits, which is consistently the top priority of development customers.
- User fees are dedicated to funding technology improvements that directly benefit them.
- Reduces demand on the city's general fund.

Con:

- None noted.

The technology fee revenue to support this budget amendment has already been collected in the Development Services Technology Project, but has not been budgeted. Allocating these funds is an appropriate use of technology fee revenues and does not impact the general fund.

Staff recommends City Council adopt the budget amendment in the amount of $100,000 to allocate revenue collected in the Development Services Technology Project to fund contracted services and supplies.

ORDINANCE BOOK NO. 32 - PAGE 225

D. RESOLUTION NO. 18-266 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACQUIRE AN EASEMENT FROM BUNCOMBE COUNTY FOR THE INSTALLATION AND MAINTENANCE OF PARKING AVAILABILITY SIGN

Summary: The consideration of a resolution authorizing the City Manager to acquire an easement from Buncombe County for the electrical infrastructure that will be needed to install and operate an available parking sign in front of the Downtown County Library on Haywood Street.

The Parking Services Enterprise Fund will provide the funding for a sign in front of the Public Library on Haywood to alert the driving public of the availability of parking spots in the US Cellular Center's lot. Parking Services will maintain the sign and ensure that the information provided is accurate. It is thought that this sign would significantly reduce the number of motorists who do not realize that the parking garage is full and have to find a way to turnaround in a very tight area. The actual sign will be placed in the City's right of way, but an easement is needed from the County for the electrical improvements that are needed to connect the sign to the electrical system in the current parking garage.

Buncombe County owns the property that is home to the library and it is identified as PIN # 9649-31-4051-00000. This parcel has .61 acres and the entrance on Haywood is actually the third floor of the building. The first floor is below street level and a retaining wall was needed to be able to construct the roadway between the Library and Vanderbilt Senior Housing building that acts as an entrance to the parking garage. The easement is approximately two (2) feet wide and extends from the intersection of Vanderbilt Place and Haywood Road to the US Cellular Center parking garage. The electrical conduit will be attached to the library side of the retaining wall with a metal covering in order to avoid cutting the concrete. The City will be requesting a permanent easement from the County for 520 square feet or .012 acres. Real Estate and Parking Services staff have met with the manager of the Buncombe County Libraries and their staff is amenable to the project. The easement is on the County's agenda for approval on October 16, 2018. Legal has been working with the County's attorney to develop the easement.

Pro:

- This easement will ease congestion on Haywood Street that is caused by motorists trying to turnaround when the parking garage is full.

Con:

- City resources will be needed to install and maintain the sign.

The Parking Services Department has budgeted the money in its Enterprise Fund to pay for the parking availability sign in front of the Public Library on Haywood Street. Buncombe County has not requested compensation for said easement.

Staff recommends authorizing the City Manager to acquire the electrical easement from Buncombe County to facilitate the installation of the parking sign on Haywood Street and Vanderbilt Place.

RESOLUTION BOOK NO. 40 - PAGE 165

E. RESOLUTION NO. 18-267 - RESOLUTION AUTHORIZING SUBMITTAL OF THE FISCAL YEAR 2018-19 EMERGENCY SOLUTIONS GRANT APPLICATION, ACCEPTING ANY FUNDS SUBSEQUENTLY AWARDED, AND AUTHORIZING THE CITY MANAGER TO SIGN AWARDED HUD CONTRACTS

Summary: The consideration of a resolution authorizing submittal of the Fiscal Year (FY) 2018-19 Emergency Solutions Grant (ESG) application, accepting any funds subsequently awarded, and authorizing the Interim City Manager to sign awarded HUD contracts.

ESG funds are made available from the US Dept. of Housing and Urban Development through the State of North Carolina Division of Aging and Adult Services (DAAS). The City of

Asheville has been the fiscal sponsor for Emergency Solutions Grant funding since 2012 to fund local agencies working to address homelessness.

In the FY 2017-18 cycle, the community received an initial award of $123,460. An additional allocation of $21,650 was granted for Emergency Shelter Operations.

The Homeless Initiative Advisory Committee appointed a Finance Subcommittee to review the ESG projects and application process. This subcommittee was comprised of individuals and agencies who did not apply for ESG funding. Each project was evaluated using the 2018 Scorecard for ESG funds developed by the North Carolina Balance of State Continuum of Care.

The following projects were recommended by the HIAC Finance Subcommittee for the 2018-19 ESG Grant Application. Both HIAC and the Homeless Coalition voted to approve the Finance Subcommittee's recommendations:

Agency	Project Type	Request	Award
Caring for Children	Emergency Shelter	$ 15,000	$ 12,000
Helpmate	Emergency Shelter	$ 32,000	$ 32,000
Helpmate	Rapid Rehousing	$ 35,000	$ 20,000
Homeward Bound	Homelessness Prevention	$ 65,306	$ 54,412
City of Asheville	HMIS	$ 10,000	$ 2,000
Total		**$ 157,306**	**$ 120,412**

This distribution provides level funding for emergency shelters, additional HMIS support, and includes housing assistance through Homeless Prevention activities. These projects are expected to maximize the use and ensure the expenditure of ESG funds.

At their October 16, 2018, meeting, the Housing and Community Development Committee reviewed the application, and voted to recommend that City Council approve the application and associated actions.

Pro:

- The Emergency Solutions Grant program is a key funding resource for emergency shelter and housing stability for persons experiencing homelessness.

Con:

- None noted.

Program funding is entirely from the US Dept. of Housing and Urban Development, through the State of North Carolina. Existing Community Development Division staff will administer the program. No general funds are requested to support this program.

Staff recommends City Council approve the HCD recommendation and staff request to make application for $120,412 in Emergency Solutions Grant funds to the State Division of Aging and Adult Services and accept funds awarded, including any additional allocations.

RESOLUTION BOOK NO. 40 - PAGE 166

F. RESOLUTION NO. 18-268 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH CAROLINA CORNERSTONE CONSTRUCTION INC. FOR THE MILLS RIVER WATER TREATMENT PLANT ROOF REPLACEMENT & STRUCTURAL

IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Carolina Cornerstone Construction, Inc., for the Mills River Water Treatment Plant Roof Replacement and Structural Improvements Project for the bid amount of $1,932,782 plus a 15% contingency in the amount of $290,000 for a total project budget in the amount of $2,222,782.

On August 27, 2018, the Water Resources Department (WRD) issued an Advertisement for Bids for the Mills River WTP Roof Replacement and Structural Improvements Project. The scope of work for this project includes: (1) removal and replacement of the existing roof system to all buildings on-site; (2) corrections and improvements to the facade of all four buildings on-site; (3) addition of skylights above the chemical facility to allow for the removal of bulk chemical tanks, including structural modifications to the roof framing and relocation of some HVAC, electrical, fire protection, and plumbing equipment; (4) installation of roof access ladders on the raw and finished water pumping building and intake structure; and (5) replacement of five indoor air handling units and their associated outdoor condensing units, along with the electrical associated with removing HVAC units.

In response to the Advertisement for Bids, the department received one bid on September 24, 2018, and rebid the project due to the legal requirement that three bids must be received for formal construction projects. In response to the rebid, the WRD received two bids on October 3, 2018. The companies responding were:

1. Cityscape Roofing, LLC (Claremont, NC) - bid $2,378,875
2. Carolina Cornerstone Construction, Inc. (Asheville, NC) - bid $1,932,782

Following a review of the bids by City Staff and the project engineers, GHD Consulting Services, Carolina Cornerstone Construction, Inc., was selected as the lowest responsible, responsive bidder for the bid amount of $1,932,782. A contingency amount of $290,000 has been added for a total project budget in the amount of $2,222,782.

Pro:

- This project will replace the leaky roof at the Mills River WTP, make much-needed structural repairs and improvements, and make it easier to access and replace chemical storage tanks, which are housed inside the plant.

Con:

- If the construction agreement is not approved, the roof will continue to leak and cause additional structural damage that would be more costly to repair in the future.

The Water Resources Department currently has the funds needed for this construction agreement budgeted in the "Water Treatment Plant Project" in the CIP Fund.

City staff recommends City Council authorize the City Manager to execute a construction agreement with Carolina Cornerstone Construction, Inc., for the Mills River Water Treatment Plant Roof Replacement and Structural Improvements Project for the bid amount of $1,932,782 plus a 15% contingency in the amount of $290,000 for a total project budget in the amount of $2,222,782.

RESOLUTION BOOK NO. 40 - PAGE 167

G. RESOLUTION NO. 18-269 - RESOLUTION IN SUPPORT OF PROACTIVE STANCE ON HOW OPPORTUNITY FUNDS WILL AFFECT OUR LOCAL

OPPORTUNITY ZONES, INCLUDING PROMOTING EQUITABLE GROWTH, ECONOMIC OPPORTUNITY FOR ALL, AND AN IMPROVED QUALITY OF LIFE FOR RESIDENTS AS WELL AS SENDING SIMILAR COMMENTS UPON THE RELEASE OF THE PUBLISHED REGULATIONS

Summary: The consideration of a resolution in support of proactive stance on how Opportunity Funds will affect our local Opportunity Zones, including promoting equitable growth, economic opportunity for all, and an improved quality of life for residents as well as sending similar comments upon the release of the published regulations.

As part of the 2017 federal tax reform package (Tax Cuts & Jobs Act), Opportunity Zone Funds are designed to drive long-term capital into low-income communities (Opportunity Zones) by using tax incentives to encourage private investment into impact funds (Opportunity Funds). The hope is that these funds will ease the burden for the investor in the distressed community and the tax benefits derived from these investments will incentivize participation in the fund. The goal is to revitalize Opportunity Zones, lower income census tracts that have not benefited equitably in the economic recovery.

The City of Asheville worked closely with the N.C. Dept. of Commerce as well as state and national legislative representatives to insure that as many qualified low-income census tract designations (Opportunity Zones) could be nominated by NC Governor Roy Cooper and certified by the U.S. Treasury. Asheville received 5 census tract designations:

- Census Tract 2
- Census Tract 7
- Census Tract 9
- Census Tract 14
- Census Tract 20

Staff has an internal working group that is communicating with local developers and business owners that the City has these census tracts designations that can assist with funding, especially when it comes to affordable housing, business expansion, job creation and building rehabilitation. While there is excitement that Opportunity Zone Funds, an adjustment to the tax code not a program, can funnel up to $6 trillion in investment in lower income census tracts across the country, there is concern regarding displacement, gentrification, and equity if the resources are deployed without a focus on the residents in the Opportunity Zones.

On September 12, 2018, the Internal Revenue Service sent regulatory guidance on Qualified Opportunity Zones and Funds to the Office of Management and Budget. After review, the regulations will be released for public comment. Staff will work with CAPE to insure that those residents affected by Opportunity Zones, as well as investors and other interested parties, are aware upon public release of these published regulations as well as a link for public comment.

Pro:

If invested in projects with the community in mind, Opportunity Funds could spark catalytic development that creates economic opportunity and improves neighborhood quality of life.

Con:

If Opportunity Funds are deployed without a focus on improving opportunities and outcomes for residents living inside the zones, the investments could lead to displacement of low-income people and communities of color in addition to the loss of community assets and land.

Opportunity Zone revitalization could add significantly to property tax collection over time. There is no direct impact to the City budget.

Staff, after meeting with a group of local citizens who may be affected by Opportunity Funds, recommends that City Council adopt a resolution in support of proactive stance on how Opportunity Funds will affect our local Opportunity Zones, including promoting equitable growth, economic opportunity for all, and an improved quality of life for residents as well as sending similar comments upon the release of the published regulations.

Dee Williams and Matilda Bliss each spoke in support of the opportunity zones.

RESOLUTION BOOK NO. 40 - PAGE 168

H. RESOLUTION NO. 18-270 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH AAR OF NORTH CAROLINA INC. TO REPLACE THE ROOF AND PERFORM RELATED CONSTRUCTION ACTIVITIES AT THE LINWOOD CRUMP SHILOH CENTER

Summary: The consideration of a resolution authorizing the City Manager to execute a Construction Contract with AAR of North Carolina, Inc. to replace the roof and perform related construction activities at the Linwood Crump Shiloh Center.

The project will replace the roof of the whole building with components including new insulation to meet current energy code, positive drainage in all areas, 20 year roof warranty, fall protection system, building envelope masonry repairs, cleaning and sealing.

On August 31, 2018, the General Services Department issued an Invitation for Bids for Roof Replacement Construction Services (IFB # 298-19-Shiloh Roof) at the Linwood Crump Shiloh Center at 121 Shiloh Road. The department received six (6) bids on September 27, 2018. The companies responding were:

	Company	Location	Base Bid + Alternates 2-3-4
1.	TeamCraft Roofing	Salisbury, NC	$501,050.00
2.	WNC Roofing	Arden, NC	$422,100.00
3.	CityScape Roofing	Claremont, NC	$518,430.00
4.	J. Bartholomew Construction, LLC	Hendersonville, NC	$480,800.00
5.	Baker Roofing	Raleigh, NC	$423,845.00
6.	AAR of North Carolina, Inc.	Kernersville, NC	$381,200.00

The Invitation for Bids included line items for base bid and alternate bid items. The lowest total price for the base bid and selected alternates (2-3-4) was $381,200.00 submitted by AAR of North Carolina, Inc.

Pros:

- The new construction will provide a safer condition for the patrons of the recreational facility.
- The roof will be replaced before there is further leaking in the building.
- The exterior walls will be treated to prevent further moisture intrusion into the building and the new roofing system.
- Insulation will be increased to lower energy use and provide better occupant comfort.

Con:

- During the improvements, some modest disruption will be seen in the visitor experience at scheduled times.

Project funding was approved by City Council in the Capital Improvement Program (CIP Project B1801), and the proposed expenditures are within the available budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Construction Contract with AAR of North Carolina, Inc. for the Roof Replacement at Linwood Crump Shiloh Center.

In response to Vice-Mayor Wisler, Director of General Services, said that they have designed the roof so solar panels can be added to the roof at a future date.

RESOLUTION BOOK NO. 40 - PAGE 169

I. RESOLUTION NO. 18-271 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE FOLLOWING THREE FEDERAL EMERGENCY MANAGEMENT AGENCY GRANTS: (1) ASSISTANCE TO FIREFIGHTERS GRANT; (2) STAFFING FOR ADEQUATE FIRE AND EMERGENCY RESPONSE GRANT; AND (3) FIRE PREVENTION AND SAFETY GRANT; AND IF AWARDED, ENTER INTO SAID AGREEMENTS

Summary: The consideration of a resolution authorizing the City Manager to apply for the following three Federal Emergency Management Agency (FEMA) grants: (1) Assistance to Firefighters Grant; (2) Staffing for Adequate Fire and Emergency Response Grant; and (3) Fire Prevention and Safety Grant; and if awarded, enter into said agreements.

There are currently three federally funded grant programs that the Asheville Fire Department (AFD) has applied for in the past. The three programs are all administered by the Federal Emergency Management Agency (FEMA) and awarded after several different reviews, with the final decision being made by fire service members who review all the applications based upon the proposed expected outcomes and community needs. The three programs are:

- AFG - Assistance to Firefighters Grant
- SAFER - Staffing for Adequate Fire and Emergency Response Grant
- Fire Prevention and Safety Grant

All three programs are authorized annually by the United States Senate and Congress, and the amounts available vary from year to year. The application periods are established when the funding is secured, and are typically only a few weeks.

The AFG program's primary focus is firefighting safety equipment such as Self Contained Breathing Apparatus (SCBA), protective equipment and items to reduce cancer risks. AFD was successful in its last request for $36,000 to fund four sets of personal protective equipment washers and dryers. This grant includes a 10% match for the department.

The SAFER program is designed to help fire departments hire and retrain firefighters to provide for a safer emergency scene. Multiple studies over the past ten years have shown that the overall effectiveness of emergency scene operations increases significantly as minimum fire company staffing increases up to a level of four firefighters per company. AFD was successful in the last request for $1.3 million dollars which funds nine additional firefighters' salaries and benefits. This grant is for three years and requires a match in year one of 25%, year two of 25% and year three of 65%. The total cost to the City is approximately $500,000.

The Fire Prevention and Safety Grant program focuses on equipment and programs for community risk reduction. AFD was unsuccessful last year in the Fire Prevention and Safety Grant program. In 2017, the ADS was awarded $110,000 to purchase items for fire and life safety education programs and smoke alarms.

These programs' unpredictable and short application periods makes it difficult for staff to provide the City Council with adequate time to review needs and provide policy direction for grants prior to the application deadlines. AFD recommends policy direction from Council to apply for all of these grant opportunities as they become available.

The Public Safety Committees will review the grant requests on October 22, 2018; and the Finance and Human Resources Committee will review the grant requests on October 23, 2018. If there is not unanimous support to move them forward to City Council, that will be noted during the City Council meeting.

Pros:

- Firefighter and Citizen safety would be increased significantly
- Grant would bring COA into compliance with national consensus standards
- The grant would allow a much-needed infusion of protective gear
- AFD would not need to request funds to be spent from the Fund balance for added safety equipment

Con:

- The total match for all three grants could be between $5,000 and $862,500. This range of matching funds is explained in the fiscal impact section of this staff report.

The Assistance to Firefighters Grant (AFG):

- Requires a 10% local match.
- The grant amount, if awarded, would likely be between $50,000 and $100,000
- One time local match would be between $5,000 to $10,000.

The Staffing for Adequate Fire and Emergency Response Grant (SAFER):

- Awarded over a three year period.
- The first year and second year require a 25% local match, and the third year requires a 65% local match.
- The grant amount, if awarded, would likely be between $150,000 and $300,000 annually.
- The local match would be between $37,500 and $75,000 in years one and two. The local match for year three would be between $97,500 and $195,000.
- The grant does not require the City to maintain the higher level of staffing after year three. If Council direction at year four was to continue the higher staffing level, the cost in year four and ongoing would be between $150,000 and $300,000 (increasing annually with inflation). If the direction was to return to current level staffing after year three, the firefighters hired under the grant would be reassigned within the department and normal hiring in year four would be curtailed, with no ongoing staff or financial impact.

The Fire Prevention and Safety Grant:

- Requires a 5% local match.
- The grant amount, if awarded, would likely be between $100,000 and $200,000.
- One time local match between $5,000 to $10,000.

City staff recommends City Council authorize the City Manager to apply for the following three Federal Emergency Management Agency (FEMA) grants: (1) Assistance to Firefighters Grant; (2) Staffing for Adequate Fire and Emergency Response Grant; and (3) Fire Prevention and Safety Grant; and if awarded, enter into said agreements.

RESOLUTION BOOK NO. 40 - PAGE 170

J. **RESOLUTION NO. 18-272 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR $100,000 FROM FEDERAL HOME LOAN BANK OF ATLANTA "COMMUNITY HERO" PROGRAM FOR DOWN PAYMENT LOANS TO ENABLE LAW ENFORCEMENT OFFICERS, FIREFIGHTERS, OTHER FIRST RESPONDERS, AND PUBLIC SCHOOL TEACHERS EARNING BETWEEN 81% AND 120% (AS PUBLISHED BY HUD) OF AREA MEDIAN INCOME (AMI) TO PURCHASE A HOME UNDER LOCALLY STRUCTURED PARTNERSHIPS**

RESOLUTION NO. 18-273 - RESOLUTION AUTHORIZING THE AMENDMENT TO THE HOUSING TRUST FUND POLICY TO REFLECT THIS SPECIAL PARTNERSHIP WITH THE FEDERAL HOME LOAN BANK OF ATLANTA AND ITS TERMS FOR PARTICIPATION

Summary: The consideration of applying to partner with The Federal Home Loan Bank of Atlanta (FHLB) on their "Community Heroes" initiative to help with Down Payment Assistance (DPA) to enable law enforcement officers, firefighters, other first responders, and public school educators earning between 80% and 120% (as published annually by HUD) of area median income (AMI) to purchase a home under locally structured partnerships; and to amend the City Housing Trust Fund (HTF) Policy to reflect this special partnership with the FHLB and its terms for participation.

The Federal Home Loan Bank of Atlanta (FHLB) has established a "Community Heroes" initiative to help with Down Payment Assistance (DPA) to enable law enforcement officers, firefighters, other first responders, and public school educators earning between 80% and 120% (as published annually by HUD) of area median income (AMI) to purchase a home under locally structured partnerships. FHLB has invited the City of Asheville to apply to participate in the program. The match would be 3 to 1, with the City contributing 3x the amount granted from the FHLB. Funds received from the FHLB do not need to be paid back to the FHLB and can be structured into our own DPA program and utilized as the City of Asheville sees fit. The FHLB would like a proposal submitted by November 1, 2018.

The City's General Obligation Housing Bond funds are to be used for low to moderate income households, which by US Department of Housing and Urban Development (HUD) definition is for individuals and families under 80% AMI. In August, the Affordable Housing Advisory Committee (AHAC) recommended that affordable housing tools like the Housing Trust Fund not be used to fund the City's match. Staff reached out to the UNC School of Government for guidance on the legality of using local funds - be they Housing Trust Funds or other local funding - to underwrite homeownership for households with incomes above 80% AMI. UNC stated that using local funds to assist homeowners between 80% and 120% of AMI (Workforce Housing) would be allowable with an adjustment to our Housing Trust Fund (HTF) Policy.

In September, the Housing & Community Development Committee (HCD) passed by 2 - 1 the use of $300,000 of HTF dollars to participate in the FHLB Community Heroes initiative. HCD recommended that HTF Policy be updated to include language regarding the FHLB and servicing households between 80% and 120% of AMI. Currently, HTF policy can be used for DPA as long as the funds are not forgiven and serves potential Homes for Sale by limiting the buyer's total household income income to not exceed 100% of AMI. In addition, HCD recommended including a sunset provision for one (1) year beyond the date of award.

Proposals, suggested by the FHLB, can be in the form of a one page proposal, to include:

- Readiness
- Level of Commitment from the Local Entity
- Leveraging
- Capacity (Operational)
- Shareholder Support

Participation in the FHLB Community Heroes Initiative will assist local City employees like law enforcement officers, firefighters, other first responders, and public school educators making between 80% and 120% of AMI with homeowner down payment assistance to purchase a home in the City of Asheville. This Initiative will support Council's 2036 Vision of An Equitable and Diverse Community, A Thriving Local Economy and Quality Affordable Housing.

Pro:

This FHLB Initiative will assist local eligible employees,with household incomes of 81-120% AMI, purchase a home within City limits through down payment assistance.

Con:

The Affordable Housing Advisory Committee (AHAC) advised that funding for this initiative should not come from monies already earmarked for affordable housing, i.e. the Housing Trust Fund or Bond funding.

$300,000 taken from the Housing Trust Fund for the required match for this program during the length of the program.

The Housing and Community Development Committee voted 2-1 at their September meeting to recommend to City Council to: 1) authorize the City Manager to apply to participate in this FHLB initiative, using $300,000 from the Housing Trust Fund and to accept if received a $100,000 match from the FHLB; and 2) approve that the HTF Policy will be updated with the following language to reflect this special partnership with the FHLB and its terms for participation:

Page 4, Section III, Part B. Eligible Activities:

12. Special Partnerships: Federal Home Loan Bank of Atlanta's Community Heroes Down Payment Assistance. To serve law enforcement officers, firefighters, other first responders, and public school educators earning between 80% and 120% (as published annually by HUD) of area median income (AMI) to purchase a home under locally structured partnerships within City limits. This Special Partnership will sunset in one year from the date of the agreement with the FHLB, approximately November 1, 2019.

RESOLUTION NO. 18-272 - RESOLUTION BOOK NO. 40 - PAGE 171
RESOLUTION NO. 18-273 - RESOLUTION BOOK NO. 40 - PAGE 172

K. ORDINANCE NO. 4704 - ORDINANCE AUTHORIZING THE HOUSING CODE COORDINATOR TO UNDERTAKE ADDITIONAL ENFORCEMENT EFFORTS WITH RESPECT TO 460 ½ BOOKER STREET

Summary: The consideration of an ordinance authorizing the Housing Code Coordinator, or his designee, is hereby authorized to take any or all of the enforcement actions specified in Chapter 4, Article VII, Section 4-217 of the Code of Ordinances of the City of Asheville in order to bring 460 ½ Booker Street, Asheville, in compliance with the Chief Code Official's Order of August 25, 2017.

This matter relates to a piece of real property located at 460 ½ Booker Street, Asheville. In June of 2016 it was reported to the City of Asheville Developmental Services Department (DSD) that someone appeared to be residing at 460 ½ Booker Street despite the fact that it lacked running water or electricity. After a Housing Code Inspector met with one of the owners of the property, a Notice of Violation was sent by certified mail to Shirley Brown, Kenneth Wilson, and George Wilson, who own the property.

After a hearing, the City's Chief Code Official entered an Order on August 25, 2017, finding that the property was in violation of the minimum housing code standards set forth in the following sections of the City Code:

Section 4-210(3)(e) - sanitation
Section 4-210(5)a - electrical service
Section 4-210(6)(a) - potable water supply system
Section 4-210(6)(c) - hot and cold water supply
Sections 4-210(6)(d) - water heating
Section 4-210(7)(a) - mechanical heating
Section 4-209(a)(1,3,4,5,7,18)- life safety/unsafe conditions

Given these housing code violations, the Order required that the owners bring the property up to code, or ensure that it was not used for human habitation. The Order further specifically provided that, before the property could be again declared to be in compliance with the Housing Code, the owners must first be inspected by a code enforcement officer. In September of 2017, code enforcement officers confirmed that the property had been vacated, and was not being used for human habitation.

Beginning in the summer of 2018, DSD began receiving reports from neighbors that George Wilson had moved back into the house without making the required repairs. In September 2018, Mr. Wilson requested an electrical inspection under an old permit from 2016. Upon inspecting the house, the City electrical inspector reported that unpermitted electrical work had been performed and that the wiring was dangerous. Subsequently, an Asheville Police Department officer, along with a county social worker and the Asheville Housing Code Coordinator, met with Mr. Wilson on site, where Mr. Wilson admitted to moving back into the house. He still does not have water or electricity.

Consistent with the provisions of Chapter 4, Article VII, Section 4-217, subsection (g) of the Code of Ordinances of the City of Asheville, which states that "In enforcing the provisions of this Code, the housing code coordinator shall make every effort to prevent unnecessary displacement of occupants, and to the extent possible, discuss with the affordable housing agencies and other organizations on any alternate housing needs," City staff is actively engaging with community resources in an effort to insure that the current occupant of 460 1/2 Booker Street has alternative housing secured prior to the commencement of a summary ejectment action.

Pros:

- Will provide the City's code enforcement officials to ensure compliance with their Order concerning 460 ½ Booker Street.
- Will promote the health, safety, or welfare the City's citizens by preventing the public from accessing a dangerous property.

Con:

- None known at this time.

The expected costs of initiating a summary ejectment proceeding to remove any inhabitants from the property is $126, and the subsequent cost of securing the property to ensure it remains vacant will be *de minimis*.

City staff recommends that City Council approve an ordinance authorizing the Housing Code Coordinator, or his designee, to take any or all of the enforcement actions specified in Chapter 4, Article VII, Section 4-217 of the Code of Ordinances of the City of Asheville in order to bring 460 ½ Booker Street, Asheville, in compliance with the Chief Code Official's Order of August 25, 2017 time period of the contract up to the budgeted amount.

ORDINANCE BOOK NO. 40 - PAGE 227

L. RESOLUTION NO. 18-274 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE FISCAL YEAR 2019-20 N.C. DEPT. OF TRANSPORTATION APPRENTICESHIP GRANT, AND IF AWARDED, ENTER INTO THE AGREEMENT

Summary: The consideration of a resolution authorizing the City to apply for the Apprenticeship Program Grant and if awarded, authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to fund the Apprenticeship Program for FY 2019-20.

The NCDOT Public Transportation Apprenticeship Program gives current college seniors the opportunity to work in the field of public transportation management upon receiving their undergraduate degree. The 12-month program, which starts July 1st, provides exposure to all aspects of a transit system and allows apprentices to gain experience in managing public transportation operations.

The application for the Apprenticeship Program Grant is due November 2, 2018. A selection process will be conducted by the NCDOT before the beginning of the fiscal year. The apprentice will work in the Transit Planning Division, Transportation Department, performing transit specific tasks, as required by the grant. The apprentice will assist with route planning, analysis of transit related surveys and procurement processes and special projects.

FY 2019-20 funding totals $37,498. The North Carolina Department of Transportation will provide 90% of the anticipated funding ($33,748.20), and the City will provide the remaining 10% ($3,749.80). The grant funding and the City's local match in the amount of $3,749.80 will need to be budgeted in the Transportation Department's budget for FY 20.

The Finance & HR Committee will review this action at their October 23, 2018, meeting and if there is any action other than a unanimous recommendation, it will be shared at the City Council meeting.

Pros:

- The subject grant supplements funding for an apprentice position for FY 2019-20.
- The subject grant enables the City of Asheville to use $33,748.20 in State funds for transit planning activities.

Con:

- A 10% local match in the amount of $3,749.80 is required.

The total grant funding for Fiscal Year 2019-20 is $37,498. The City is required to provide a 10% local match in the amount of $3,749.80. The anticipated grant funding and the City's local match in the amount of $3,749.80 will need to be budgeted in the Transit Services fund FY 20 budget.

City staff recommends that City Council adopt a resolution authorizing the City to apply for the Apprenticeship Program Grant and if awarded, authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation to fund the Apprenticeship Program for FY 2019-20.

RESOLUTION BOOK NO. 40 - PAGE 173

M. RESOLUTION NO. 18-275 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE FISCAL YEAR 2019-20 N.C. DEPT. OF TRANSPORTATION INTERNSHIP GRANT, AND IF AWARDED, ENTER INTO THE AGREEMENT

Summary: The consideration of a resolution authorizing the City to apply for the Internship Program Grant and if awarded, authorize the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to fund the Internship Program for Fiscal Year (FY) 2019-20.

The NCDOT Public Transportation Internship Program gives current college students in the fields of Engineering, Public Administration, Business Administration, Marketing, English/Journalism, Planning and Project Management the opportunity to work in the field of public transportation management. The 12-month program, which usually starts July 1st but can begin no earlier than May 15, 2019, provides exposure to all aspects of a transit system and allows interns to gain experience in managing public transportation operations.

The application for the Internship Program Grant is due November 2, 2018. A selection process will be conducted by the NCDOT before the beginning of the fiscal year. The intern will work in the Transportation Department, performing various transportation related tasks, as required by the grant.

FY 2019-20 funding totals $19,309.50. The North Carolina Department of Transportation will provide 90% of the anticipated funding ($17,554), and the City will provide the remaining 10% ($1,755.40). The grant funding and the City's local match in the amount of $1,755.40 will need to be budgeted in the Transportation Department's budget for FY20.

The Finance & HR Committee will review this action at their October 23, 2018, meeting and if there is any action other than a unanimous recommendation, it will be shared at the City Council meeting.

Pros:

- The subject grant supplements funding for an intern position for FY 2019-20.
- The subject grant enables the City of Asheville to use $17,554 in State funds for transit planning activities.

Con:

- A 10% local match in the amount of $1,755.40 is required.

The total grant funding for Fiscal Year 2019-20 is $19,309.50. The City is required to provide a 10% local match in the amount of $1,755.40. The anticipated grant funding and the

City's local match in the amount of $1,755.40 will need to be budgeted in the FY20 Transit Services fund.

City staff recommends that City Council adopt a resolution authorizing the City to apply for the Internship Program Grant and if awarded, authorize the City Manager to enter into an agreement with the N.C. Dept. of Transportation to fund the Internship Program for FY 2019-20.

RESOLUTION BOOK NO. 40 - PAGE 174

N. RESOLUTION NO. 18-276 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS UNDER THE EXECUTIVE OFFICE OF THE PRESIDENT, OFFICE OF NATIONAL DRUG CONTROL POLICY, FOR THE HIGH INTENSITY DRUG TRAFFIC AREA 2018 GRANT

ORDINANCE NO. 4705 - BUDGET AMENDMENT TO MODIFY THE HIGH INTENSITY DRUG TRAFFIC AREA 2018 GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to accept additional grant funds for the Asheville Police Department as the fiduciary for the Asheville Area High Intensity Drug Traffic Area (HIDTA) for the 2018 grant; and (2) a budget amendment in the City's Special Revenue Fund in the amount of $87,627.

On August 28, 2018, City Council approved Resolution 18-197 authorizing the City Manager to enter into an agreement to accept grant funds under the Executive Office of the President, Office of National Drug Control Policy in the amount of $19,000. This modification of $87,627 is an increase to the previously approved award of $19,000 for a new total of $106,627 which reflects the full fiduciary responsibility assumed by Asheville Police Department (APD).

The purpose of the HIDTA program is to reduce drug trafficking and production in the United States, specifically in places where drug-related activities are having a significant harmful impact, by:

- Facilitating cooperation among Federal, state, local, and tribal law enforcement agencies to share information and implement coordinated enforcement activities;
- Enhancing law enforcement intelligence sharing among Federal, state, local, and tribal law enforcement agencies;
- Providing reliable law enforcement intelligence to law enforcement agencies to facilitate the design of effective enforcement strategies and operations; and
- Supporting coordinated law enforcement strategies that make the most of available resources to reduce the supply of illegal drugs in designated areas of the United States and in the Nation as a whole.

The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), APD, Buncombe County Sheriff's Office, Henderson County Sheriff's Office and McDowell County Sheriff's Office. The Asheville HIDTA is a component of the Asheville DEA Task Force. The HIDTA task force primarily concentrates on high volume, high value drug trafficking.

The allotted funds from the Federal government will be used for investigative purposes and other program expenses including employee overtime, mobile phones and miscellaneous supplies. The expenditure of all funds are tracked and audited by both local and Federal authorities.

The Public Safety Committees will review the grant requests on October 22, 2018; and the Finance and Human Resources Committee will review the grant requests on October 23, 2018. If there is not unanimous support to move them forward to City Council, that will be noted during the City Council meeting.

Pros:

- Federal HIDTA funds will be used for investigative purposes and program expenses.
- Continue to foster partnerships with Federal and local law enforcement agencies.

Con:

- Funding from the Office of National Drug Control Policy is awarded annually.

There is no impact to the City's General Fund Budget.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept the grant funds; and (2) a budget amendment in the amount of $87,627 through the Office of National Drug Control Policy to modify the HIDTA 2018 Grant.

RESOLUTION BOOK NO. 40 - PAGE 175
ORDINANCE BOOK NO. 32 - PAGE 228

O. RESOLUTION NO. 18-277 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FUNDS THOUGH THE U.S. DEPT. OF JUSTICE 2018 BULLETPROOF VEST PARTNERSHIP PROGRAM

ORDINANCE NO. 4706 - BUDGET AMENDMENT FOR 2018 BULLETPROOF VEST PARTNERSHIP GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to accept grant funds from the Department of Justice, Office of Justice Programs, 2018 Bulletproof Vest Partnership solicitation and (2) a budget amendment in the City's Special Revenue Fund in the amount of $64,815.00 utilizing funds from Department of Justice, Office of Justice Programs, Bulletproof Vest Partnership ($32,407.50) and Fiscal Year (FY) 2018-19 budgeted City General Operating Funds ($32,407.50) to establish the Bulletproof Vest Partnership 2018 grant.

The City of Asheville Police Department currently participates in the Department of Justice, Office of Justice Programs, Bulletproof Vest Partnership program. The funds allocated through this program are designed to offset departmental cost associated with purchasing bulletproof vests. The City of Asheville has been awarded $32,407.50 through this program, which requires the City to match dollar for dollar. The budget amendment is necessary to authorize the full project budget amount of $64,815.00 in the Special Revenue Fund. The City's match of $32,407.50 will come from the Police Department's adopted FY 2018-19 operating expense budget. The funding will enable the purchase of 87 bulletproof vests over the next 2 years.

This request will be presented to the Public Safety Committee on October 22; 2018, and the Finance and Human Resources Committee on October 23, 2018, and any response other than unanimous approval to move forward to the full City Council will be noted at those meetings.

Pros:

- Reduction in cost to the City of Asheville for the purchase of bulletproof vests
- Increase in officer safety by providing crucial safety equipment

Con:

- Requires City match.

This grant requires a match of $32,407.50, which will come from the Police Department's existing General Fund budget (Patrol Division – Supplies – Safety Equipment). It should be noted that the overall fiscal impact to the City of Asheville is reduced because the Police Department would have to purchase these vests at full replacement costs if the grant is not accepted.

Staff recommends City Council authorize (1) the City Manager to accept grant funds from the Department of Justice, Office of Justice Programs, 2018 Bulletproof Vest Partnership solicitation and (2) a budget amendment in the City's Special Revenue Fund in the amount of $64,815.00 utilizing funds from Department of Justice, Office of Justice Programs, Bulletproof Vest Partnership ($32,407.50) and Fiscal Year (FY) 2018-19 budgeted City General Operating Funds ($32,407.50) to establish the Bulletproof Vest Partnership 2018 grant.

RESOLUTION BOOK NO. 40 - PAGE 176

P. RESOLUTION NO. 18-279 - RESOLUTION ESTABLISHING A 100% RENEWABLE ENERGY GOAL FOR THE CITY OF ASHEVILLE

Summary: The consideration of a resolution authorizing the Mayor to adopt a municipal 100% Renewable Energy goal for the City of Asheville.

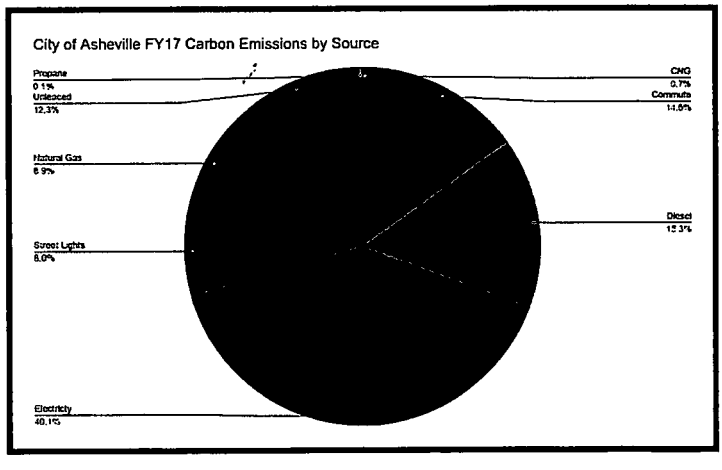
The Sustainability Advisory Committee on Energy and the Environment (SACEE) reviewed City Council's request to examine adoption of a resolution to support the City of Asheville's energy sources be 100% renewable energy by 2030. Through this process, SACEE collaborated with Duke Energy Progress, the Office of Sustainability and incorporated public comments, concerns and suggestions from citizens during their monthly meetings.

The City of Asheville's Office of Sustainability (OoS) provided technical expertise and data on national trends concerning types of energy sources, and goal dates by other cities that have adopted 100% renewable energy goals.

As North Carolina communities address the transition of fossil fuels to renewables multiple strategies are being examined; however, what is consistent across the board are the lack of costs and action plans involved in doing so. At present time six (6) US cities are powered entirely by renewable energy through municipal utilities and cooperates.

Last year, Buncombe County adopted a 100% renewable energy resolution to implement the best fiscally and environmentally responsible energy solution to reach the goal of 100 percent renewable energy by 2030 for County government and 100 percent renewable for Buncombe County within 25 years.

The supporting graphic is the FY17 Municipal Carbon Emissions by energy source with electricity being the largest use for the municipality at 48.1% and cost the City $1.6 million dollars. Total energy use spending in FY17 was $3.1 million dollars.



The Planning and Economic Development Committee reviewed SACEE's resolution request at the September 10, 2018, meeting and unanimously approved moving the resolution forward to full Council.

The aforementioned resolution has been brought forth by SACEE for City Council's review and adoption.

The 100% Renewable Energy resolution aligns with City Council's 2036 vision of A Clean and Healthy Environment.

Additionally, the 100% Renewable Energy Resolution supports the following plans: (1) Living Asheville: A Comprehensive Plan for our Future; and (2) Sustainability Management Plan.

It also supports the following Resolutions signed by Council:

- Resolution 13-228, Supporting a Clean Energy Economy
- Resolution 16-64, Establishing a joint City, County and Utility Energy Innovation Task Force
- Resolution 17-104, Support a State Goal of 100% Renewable Energy by 2050
- Resolution 17-119, Reaffirming Asheville's commitment to reducing climate pollution and continued support of the principles of the Paris Climate agreement

Pros:

- Supports Living Asheville: A Comprehensive Plan for our Future through renewable energy generation
- Supports the Sustainability Management Plan to produce renewable energy in appropriate facilities and increase purchases of renewable energy
- Will have a positive correlation on the City's Carbon Reduction Goal

Cons:

- The Renewable Energy Planning Services contract with Buncombe County is in the beginning stages and has not been completed
- Electrifying all energy sources contradicts Living Asheville: A Comprehensive Plan for our Future when addressing resiliency
- Fiscal impacts of full implementation are unknown at this time

Fiscal impacts are unknown at this time.

SACEE recommends that City Council adopt a 100% Renewable Energy goal for the City of Asheville.

Councilwoman Mayfield said this is the City's next step in our ongoing path towards sustainability. We adopted a carbon reduction goal about 10 years ago, a clean energy framework a few years ago, and we launched the Energy Innovation Task Force a couple of years ago, so this is the natural next step. There are some concerns about how we are going to get there or how much it's going to cost, but that's where we were back in 2007 when we adopted the carbon reduction goal. It's important to have something to be working toward. We are going to have to find the resources, as our Sustainability Office is our smallest office with two people and one of the smallest budgets. If we are going to do this right, that is going to have to change. We will have to put more resources into that office and give them the ability to meet with goal. Every City department has a role and obligation to help meet the City's sustainability goals. The City and the County are working together on getting a report that will give us this path and tell us what it will cost and what it will take for both the City and the County to get to renewable energy. That

will take about one year. In the meantime, there are opportunities and work underway. She personally thanked Carol Anderson for all her efforts in moving this action forward.

Councilman Young said that we need to put the resources into the departments in order achieve our goals. Some of the most significant barriers in other places to implementing large scale renewable energy goals are climate change denial, but that is not the case here. In thinking about how we can put the finances behind this to make our goals work, one thought was renewable energy bonds, which we can't do anymore. He asked the public to start thinking about larger aspects of how to put the money behind these initiatives and goals to really make them concrete and just not on paper. Perhaps we should look at Green Bonds, or General Obligation Bonds to help implement this goal. He hope this spreads to other municipalities so North Carolina is committed to this policy adjustment. He feels Asheville will be able to set the tone.

The following individuals spoke in support of establishing a 100% renewable energy goal for Asheville:

Tom Tribble, President of the Elisha Mitchell Audubon Society (presented a petition signed by 45 members) and stated another 72 members submitted an online email to Council)
Ken Brame, representing both the Sierra Club and the WNC Renewables Coalition (presented over 650 letters and petitions)
Elias Varn, student from Asheville High School with dual enrollment at A-B Tech (presented a petition with 506 signatures from Asheville High students and 35 signatures from A-B Tech)
Danielle Holtz and Ben Stockdale, Students from UNC-Asheville (presented a petition with 261 signatures from UNC-Asheville)
Rev. Mark Ward, Unitarian Universalist Congregation of Asheville
John Noor, Chair of the Sustainability Advisory Committee on Energy & the Environment
Dee Williams
Matilda Bliss
James Smith, student from UNC-Asheville

Mayor Manheimer said that she participated with the mayors who stand behind the Paris Climate Accord and she and Councilwoman Mayfield have spent one year going to Duke University to participate with a bipartisan group looking at how to meet the future energy needs in North Carolina. She was very supportive of the resolution. This is just another step in our journey as a community to identify ourselves as a climate-forward community. A community that understands the impacts of climate change and trying to do our part to address it. We have to talk about our capacity to handle projects as a City in terms of staffing. The other aspect is a broader question of ways to finance the upfit required to go 100% renewable - probably several million dollars. We will have to find that revenue and some would be found through the savings we would see in not having to pay the higher power bill. If the other revenue has to be made up through taxes, we are looking at property taxes. One of the things she worries about is energy poverty in our community, and how do we thoughtfully disburse the cost of embracing renewable energy. Ideally our federal government would step up and have a renewable portfolio requirement of all utilities that provide energy in America. That won't happen. It is also unrealistic that it would happen on a state level. We can make the change, but questioned who pays for it. Utility bills are a regressive tax some argue and they are not the fairest way to tax households, but she understands the environmental concern and the benefits that embracing 100% renewable energy bring to our community. The challenge we will have is how to structure this so that it is fair and bearable as possible for a community.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. CITIZENS SURVEY RESULTS

Communication & Public Engagement Director Dawa Hitch presented the following citizen survey results. "The National Citizen Survey™ is a statistically valid survey which measures:

- resident opinions of community characteristics
- satisfaction with city services and governance, and
- resident participation in community matters.

With a high probability that the responses represent a cross section of the entire community, the results are an important tool in assisting City Council and City departments' understanding of community priorities. The responses also suggest overall satisfaction with services and are helpful in the continual improvement of City services.

The survey is the product of a partnership between the National Research Center Inc. (NRC) and the International City/County Management Association (ICMA). This long standing partnership has resulted in an extensive database which allows the responses to be benchmarked against responses in other cities. There are over 500 communities in this year's database.

In addition to the national database, Asheville results were benchmarked against a smaller subset of destination/resort communities with populations under 175,000. Similar subset comparisons can provide additional perspective to responses.

The Community Livability Report was prepared by National Research Center, Inc. and is a plain language summary of the survey results. Additional reports provide data that allow for deeper analysis such as resident satisfaction and priorities by:

- Zip Code
- Age
- Race/Ethnicity
- Median Income, and
- whether the participant rents or owns his/her home.

A better understanding of subgroup preferences can be beneficial in the city's communication and engagement efforts as well as efforts to equitably provide City services and investments.

The results assist departments in the continuous improvement of service delivery and the identification of priorities throughout the budget process.

Methodology - The survey was mailed to 1500 homes within the city limits and responses were accepted both online and through return mail. The survey was available in English and Spanish. The sampling method was designed to closely mirror the overall housing unit density, including oversampling of multi-family housing units as residents of this type of housing typically

respond to surveys at a lower rate than residents of single-family homes. Results were also weighted to reflect the demographics of the population.

The results of the survey are statistically valid with a 95% confidence level that in most cases is no greater than +/- 5 percentage points around a given response value. The demographic and geographic subgroup comparison reports have margins of error of roughly +/- 10 percentage points. The margin of error increases in the subgroup comparison reports because of the smaller sample sizes within each of the subgroups.

A total of 343 surveys were received, yielding a 24% response rate. Response rates for citizen surveys are typically in the 25-40% range. The opt-in survey was completed by 1,266 residents and non-residents.

Trends between resident responses in 2008 as compared to responses in 2015 were also reported.

Special Topics - A number of special topics were included in the survey. While they cannot be benchmarked against other communities, they provide insight into:

1) community perception of police department performance including recommendations for improved police services
2) the importance the community places on specific city investments
3) community preferences for aspects of future development
4) community sentiment for the prohibition of accessory dwelling units in the short-term rental ordinance, and:
5) the ways and frequency with which residents engage with local government news

The final question was an opened-ended question that asked, "What do you think is the single biggest issue facing Asheville over the next three to five years."

Benchmarking - Asheville resident responses were benchmarked against the 500+ cities included in the NRC database. As another benchmark comparison, Asheville responses were compared to a narrower subset of other destination/resort communities with populations less than 175,000. There were 50 cities in this subset.

Results - Survey results offer insight into resident perceptions and priorities. The methodology involved in obtaining a representative sample of the Asheville community helps to ensure more voices are heard, including the voices of people who may not regularly engage in local government.

The responses of a representative sample can then be used to determine areas where further engagement is needed, areas that are working well, and areas where there is low satisfaction. This is a valuable tool for continuous improvement and establishing priorities.

The ability to analyze trends over time (i.e., did satisfaction change from 2015 to 2018) assists with assessing whether or not courses of action are improving resident satisfaction in City government.

Analyzing demographic comparisons assists with assessing City government's efforts toward equity in the delivery of City services.

The entirety of the survey responses are shared with City Council, City staff and are available to the community at large through the Open Government page of the City website. Results from 2008 and 2015 are also available on this page.

The following is a brief overview of the results:

Excerpt from the Report: As in 2015, residents identified Natural Environment and Economy as priorities for the Asheville community in the coming two years. New in 2018, respondents also identified the facet of Mobility as a priority in the future. Ratings for most facets were positive and similar to comparison communities, though evaluations for Mobility were lower than benchmark comparisons. -The National Citizen Survey, Community Livability Report, 2018

Additionally, Asheville continues to be more civically engaged than most communities and residents are split on whether or not accessory dwelling units should be allowed as short term rentals.

Respondents felt the top 5 most important investments were:

- Public safety including police, fire and emergency preparedness (**89%** Essential or Very Important)
- Environmental protection and sustainability (**88%** Essential or Very Important)
- Affordable housing development (**85%** Essential or Very Important)
- Improving roads (**84%** Essential or Very Important)
- Sidewalks, bikeways, and greenways (**84%** Essential or Very Important)

Subgroup comparisons brings a better understanding to where certain groups differ from the overall response. For example, people of color placed more importance on affordable housing than people who identified as "White alone, not Hispanic. The percent of Essential or Very Important were 96% and 83% respectively.

The table below outlines responses to the open-ended question, "What do you think is the single biggest issue facing Asheville over the next three to five years?"

Issue	% of respondents rating issue as the biggest issue 2018	% of respondents rating issue as the biggest issue 2015
Affordable Housing	24%	16%
Growth/development/planning and zoning/environmental issues	24%	29%
Mobility (infrastructure, traffic, parking, etc.)	22%	14%
Economic development issues, jobs, cost of living	16%	29%
Police department issues	6%	--
Crime and Safety	3%	4%
Other	4%	7%
Don't know	1%	1%
Total	100%	100%

Asheville is **trending up** AND is **Higher** than **Benchmark**

- Watched a local public meeting

Asheville is **trending down** AND is **Lower** than **Benchmark**

- Traffic Flow
- Travel by Car
- Overall ease of travel
- Land use, planning and zoning
- Would recommend Asheville
- Childcare/preschool
- Overall direction

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER ADOPTION OF THE BURTON STREET NEIGHBORHOOD PLAN

RESOLUTION NO. 18-278 - RESOLUTION ADOPTING THE BURTON STREET NEIGHBORHOOD PLAN

Planning & Urban Design Director Todd Okolichany said that this is the consideration of the adoption of the Burton Street Neighborhood Plan. The plan was initially reviewed and supported by City Council on September 25, 2018, under "New Business" on the Council agenda. It is recommended that this item be considered as a public hearing so that the plan adoption process is consistent with other adopted neighborhood plans in the City. This public hearing was advertised on October 12 and 19, 2018.

The proposed I-26 Connector project (State Transportation Improvement Project (STIP) I-2513) is a seven mile interstate freeway that would connect I-26 in southwest Asheville to U.S. 19/23/70 in northwest Asheville. The Burton Street neighborhood is one of 10 communities being impacted by the proposed I-26 improvements and has been classified as an Environmental Justice population that has incurred reoccurring impacts. With an Environmental Justice designation, the N.C. Dept. of Transportation (NCDOT) can provide additional mitigation opportunities to lessen the burden of the project on the Burton Street neighborhood.

To address and remedy the anticipated impacts to the Burton Street community as a result of the I-26 improvements, a community driven mitigation strategies plan was initiated by NCDOT. At the request of the City of Asheville Planning and Urban Design Department, a neighborhood planning component was added to the project scope. The goal of the project was to develop a *Burton Street Neighborhood Plan* that would be adopted by the city as a revision to the 2010 *Burton Street Community Plan* and that includes a list of mitigation strategies related to the I-26 Connector project, as well as other neighborhood goals and strategies. NCDOT retained Public Participation Partners ("the consultant") to prepare the plan and act as the liaison between the Burton Street community, NCDOT and City of Asheville.

In partnership with the Burton Street Community Association and Burton Street neighborhood, the consultant developed a neighborhood plan over an approximately 10-month long period. The initial draft was released for public review on April 29, 2018, and updated in June and August 2018 based on input from the public, City of Asheville staff, the Planning and Economic Development (PED) Committee and the NCDOT. A number of community meetings and surveys were also conducted during this time. At its July 2018 meeting, PED members recommended moving forward with the plan for review and consideration by the Planning and Zoning Commission and the full City Council.

The plan is organized by the following sections:

- Introduction

- Burton Street History
- Existing Conditions
- Local Area Plans
- Burton Street Neighborhood
- Themes, Goals and Strategies
- NCDOT Mitigation
- Implementation

The main strategies are found in the Themes, Goals and Strategies chapter of the plan. This section also includes an analysis of how the plan's goals and strategies align with the recently adopted *Living Asheville Comprehensive Plan.* All strategies have been designed in accordance with NCDOT and National Environmental Policy Act (NEPA) policies and procedures.

The Implementation chapter includes a list of all the plan's strategies, including those to be coordinated and/or implemented by NCDOT to mitigate community impacts resulting from the I-26 Connector project, by the City of Asheville or Burton Street Community Association. As part of the process, community members were also asked to prioritize strategies in the plan. The following strategies were ranked the highest:

- Improve Community Center infrastructure
- Improve existing sidewalks to meet ADA standards
- Support design guidelines and policies that aim to preserve or enhance neighborhood character
- Expand Community Center programming
- Construct a new park and community gathering space at Smith Mill Creek that will include an access point to the future greenway
- Install historic markers throughout the neighborhood
- Install Burton Street community gateway signs
- Establish and implement programs to reinvest into current residential properties
- Stabilize property tax rates by promoting affordability by design principles in new development

This project was funded by NCDOT as part of the I-26 Connector Project. Staff resources were used throughout the project to provide technical assistance, review materials and during community engagement.

The *Burton Street Neighborhood Plan* aligns with the 2036 Council Vision in the *A Well-Planned and Livable Community area.* The *Burton Street Neighborhood Plan* includes recommended mitigation measures for impacts related to the I-26 Connector project, while also including a neighborhood plan element that includes updated information and strategies for the Burton Street neighborhood that will align with city goals. The plan also aligns with Goal 23: Continue to work toward achieving goals on I-26, which includes minimizing impacts adjacent to neighboring communities.

The Planning and Zoning Commission held a public hearing on September 5, 2018, to review the plan. The Commission voted unanimously (7-0) to recommend approval of the *Burton Street Neighborhood Plan*. The plan was also initially presented to City Council on September 25, 2018, and Council supported the adoption of the plan.

Mayor Manheimer opened the public hearing at 6:12 p.m., and when no one spoke, she closed the public hearing at 6:12 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to recommend that the Asheville City Council adopt the *Burton Street Neighborhood Plan* in that the plan: (1) Includes mitigation strategies related to the I-26 Connector project; (2) Was developed with community input and reflects the Burton Street neighborhoods' vision for the future; (3) Provides guidance on goals and strategies that aim to improve the neighborhood; and (4) Aligns with the *Living Asheville Comprehensive Plan*. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 177

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING OF 190 HOMINY CREEK ROAD FOR THE BUNCOMBE COUNTY TRANSFER STATION LANDSCAPE PLAN AND CONDITIONS TO ACCOMMODATE ENVIRONMENTAL CONDITIONS OF THE SITE AND LIMITATIONS BY THE STATE OF NORTH CAROLINA

ORDINANCE NO. 4707 - ORDINANCE TO AMEND THE CONDITIONAL ZONING OF 190 HOMINY CREEK ROAD FOR THE BUNCOMBE COUNTY TRANSFER STATION LANDSCAPE PLAN AND CONDITIONS TO ACCOMMODATE ENVIRONMENTAL CONDITIONS OF THE SITE AND LIMITATIONS BY THE STATE OF NORTH CAROLINA

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to amend the conditional zoning of 190 Hominy Creek Road for the Buncombe County Transfer Station landscape plan and conditions to accommodate environmental conditions of the site and limitations by the State of North Carolina. This public hearing was advertised on October 12 and 19, 2018.

Ms. Vrtunski explained that this is a request to review an amendment to the B-1 Conditions for the Institutional Conditional Zone that was approved by City Council in May 2017. The amendment is solely for the purpose of amending the landscape plan for the site. This project is considered a Conditional Zoning Amendment review pursuant to Section 7-7-8 of the Unified Development Ordinance (UDO).

The original conditional zoning was for the expansion of the Buncombe Transfer Station. The staff report for Council (dated May 9, 2017) was provided. The Transfer Station is located on top of an old landfill, which limited the amount of trees that could be planted on the site. Since that time, the State of North Carolina performed additional analysis of the site and found that the trash plume greatly exceeded the boundaries of where landscaping would be accepted. The amendment to the conditional zoning is to further reduce the additional landscaping due to the environmental conditions on the site.

The landscaping plan that was approved by City Council provided that instead of 54 trees for parking lot landscaping, that 54 trees would be located along the greenway. The State has mandated that the County cannot add any plant materials along the greenway because of the trash plume. In addition the County is unable to plant street trees because of the same issue.

County staff has looked for alternate locations for as many trees as possible that are not near the landfill boundaries and found locations for 16 trees. In addition, the County has offered to donate five additional trees for planting on a city greenway. A site visit also showed that there are approximately 7-8 trees on either side of Hominy Creek Road which will help shade the road, and are mature trees.

Conditions - Due to the existing site features (former landfill site), the following condition

will accompany this request:

1. Reduced number of trees, 16 on County property and 5 donated to the city for a greenway.

As the proposed amendments only concern landscaping requirements, staff determined that review by the Technical Review Committee was not warranted. City Council review and approval is required. The Planning and Zoning Commission heard the request on October 3 and recommended approval of the request with a 6-0 vote.

This site is fairly isolated, located between I-40, the Biltmore Estate and the NC Farmers Market, accessed only by Hominy Creek Road. The majority of surrounding zoning is Buncombe County zoning: Public Service (PS) district for the WNC Farmers Market, Conference Center/Resort (CR) zoning for the Biltmore Estate. Given the isolated nature and scale of the site and the unique attributes of the on-going operation, staff believes that even with the amended landscape plan, this will continue to be a compatible use for this location.

This proposal aligns with several aspects of the City Development Plan 2025 including "Continue to promote and facilitate effective and efficient governmental coordination" and "Continue to direct a substantial amount of solid waste and organic materials away from landfill disposal... through recycling and reuse".

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community* – The project expands and upgrades an existing use instead of attempting to relocate it to another part of the community where there is greater development or use potential; and (2) *A Clean and Healthy Environment* - The expansion of this facility will further accommodate recycling and waste disposal in the community.

Considerations:

- Environmental conditions onsite prevent the planting of any additional trees along the greenway or along Hominy Creek Road.
- The Transfer Station property and the nearby park have significant numbers of existing trees that will remain and Buncombe County has worked with the State of NC to ensure that the trees are allowed to remain.
- County staff have spent significant time identifying locations for trees on the adjacent property. These are the few locations where trees will survive due to other trees and sunlight. Trees will be planted in these locations.
- The County would donate an additional 5 trees to the City to be planted along a greenway.

The Planning and Zoning Commission reviewed this project on October 3, 2018. The Commission voted 6-0 in favor of the project and recommended Council approval of this Conditional Zoning request subject to the B-1 Conditions that were presented to Planning & Zoning.

Mr. Nate Pennington, Buncombe County Planning Director, explained how the State Tree Regulatory Landfill Commission contacted them and said that after they reviewed the County's plans for planting on the landfill, they pointed out that there is a prohibition of planting anything on the landfill materials. When they were building the sidewalk, they found that the landfill encompassed most of the site. The State accepted their innovative idea of the floating island that took care of the parking lot landscaping. He visited the site several times and found the site is reamed with large sewer lines, Duke Energy Power lines, rights-of-way and large areas of poison ivy that cover most of the very large existing trees. When they originally approached the City with with project, the conditions written at the time did not fully capture the total number of existing

trees on site. There are large trees in a particular area covered with poison ivy so he felt the City is not actually losing any trees.

When Councilwoman Mayfield felt we are giving up trees that can be planted somewhere else, Mr. Pennington stated that when the poison ivy foliage drops, he would be happy to go back to the site and verify they have enough credit to cover the other existing trees. He further explained that at the time they conducted a vegetation survey, they elected to stop counting and say they would make up for the total required. Then they found out from the State that they couldn't do the plantings at all. He will simply continue that counting and find probably enough credits of existing vegetation to where the City will not be losing any trees.

Mayor Manheimer opened the public hearing at 6:26 p.m., and when no one spoke, she closed the public hearing t 6:26 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the amendment to the Industrial District/Conditional Zone (IND-CZ) with the requested condition for the reduced landscaping and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan in that: (1) the site has historically been an industrial use; (2) the State of North Carolina has prohibited Buncombe County from planting trees on the site and along Hominy Creek Road; and, (3) the County has worked with the State to preserve the existing trees and vegetation along the greenway. This motion was seconded by Councilman Kapoor and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 232

C. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 324 BILTMORE AVENUE FROM REGIONAL BUSINESS DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A 7-STORY, 103 ROOM HOTEL

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone 324 Biltmore Avenue from Regional Business District to Lodging Expansion/ Conditional Zone for the construction of a 7-story, 103 room hotel. This public hearing was advertised on October 12 and 19, 2018.

The project site consists of a single parcel located at 324 Biltmore Avenue with an area of approximately 0.78 acres (per plans). The site is currently zoned Regional Business (RB) and surrounding zoning includes RB to north and west (across Biltmore Avenue), Institutional to the south and RS-8 to the east. Uses in the vicinity include Mission Hospital to the south, single-family residential to the east and a variety of businesses to the north heading into downtown. The site is currently vacant.

The applicant is proposing to construct a hotel building on the site with approximately 103 rooms and associated parking. The building has a maximum height of seven stories (approximately 75' according to plans; 90'6" to the tallest roof peak). There is a portion of the building that falls within 100 feet of a residential zone, thereby limiting the maximum allowed height to match the residential limit. The building height in that restricted area is approximately 25 feet. The structure contains a total of approximately 88,593 square feet.

Vehicular access to the site is proposed via a single two-way driveway from Biltmore Avenue. According to plans, 106 structured parking spaces are provided within the development, including accessible parking and bicycle spaces.

Sidewalks are shown along both road frontages, at least 10 feet in width according to district standards. The site is situated along the S1, S2 and S5 transit routes and the Transportation Department has requested that the applicant install a transit shelter at the corner with White Fawn to meet the standards in the Lodging Expansion District.

Landscaping is required for this project and includes street trees, a 30 foot type-B property line buffer, building impact landscaping and parking deck screening. While some aspects appear to be in compliance, there are a number of conditions proposed related to landscaping as well that are detailed below.

Five percent of the lot area is required for designated urban open space. Plans appear to comply utilizing the interior recreational spaces.

There are standards relating to building orientation and fenestration in the requested zoning district and the plans appear to comply. Although the entire length of the frontage along Biltmore Avenue is not activated, the building facade at the ground level will be fenestrated according to the standards in the district.

Conditions - The project does not comply with the following standards in the requested zoning district:

1. Setbacks - Proposing zero foot setbacks along front and side; three foot on the corner side and 10 feet for the rear. District standards are five feet for the front; 15 feet for the side and 25 feet to the rear.
2. Landscaping -
    a. Property line buffer - the plans indicate a reduction in the property line buffer to between approximately 10-23 feet in width. An administrative reduction is allowed by code to 15 feet in width if all planting material is installed on the high end of the grade change since it is over 15 feet of vertical separation.
    b. Street trees - the applicant proposes no street trees along Biltmore Avenue due to significant utility conflicts; six trees would be required. The applicant is proposing large planters along the Biltmore Avenue frontage as an alternative solution.
3. Impervious Surface - Maximum allowed is 80%; plans indicate 82%.

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on June 12, 2018. The project was approved with conditions by the Technical Review Committee (TRC) on September 17, 2018.

The Planning & Zoning Commission discussed this proposal at their meeting on October 3, 2018, and ultimately voted unanimously to support approval of the project (6-0). Commissioners expressed a desire to highlight the street tree alternative by using a species that is as large as possible to provide shading on the sidewalk and to irrigate well for plant longevity.

Staff received comments of concern regarding this project from members of the public early in the review process about increased traffic in the adjacent residential neighborhood; the applicant subsequently revised the plans to eliminate a driveway that provided access onto White Fawn Drive. At the Planning & Zoning Commission meeting, several nearby residents spoke in general support of the project and the efforts of the developer to meet on multiple occasions with residents and to incorporate some of their concerns. They also noted a desire that the applicant incorporate a restaurant use, that the height will impact existing views from the neighborhood and concerns about the balcony shown on the rear of the building. The applicant has since indicated a willingness to relocate or remove the balcony.

Recent projects in the area include the Lee Walker Heights redevelopment directly across the street and the Mission Hospital expansion currently under construction to the south. There have been a number of residential projects in the surrounding area over the past several years as well.

The applicant is required to undergo the conditional zoning due to the lodging use. The suitability of the request is discussed further in this report. Staff recommends the completion of the comprehensive plan strategy that suggests a study of lodging uses, need and impact to aid in evaluating the amount of new lodging uses that continue to be received.

The proposed lodging use can be considered compatible with the other uses along the corridor. The site is situated between the Central Business District and the Mission Hospital campus where there are a variety of medical, retail and office uses along this section of Biltmore Avenue. The existing heights of immediately nearby buildings are considerably lower, mostly one and two story structures to the north and south until the intersection with Hospital Drive, where current building heights are more comparable to this proposal. There is a single-family residential neighborhood adjacent to the subject property to the east. The project is restricted from locating taller building heights or trash receptacles within 100 feet of the residential zoning and the design respects those prohibitions.

The Living Asheville Comprehensive Plan identifies this location as an Employment / Anchor Institution Center on the Future Land Use Map. A limited application of the lodging use is considered complementary in this land use category as it "may improve the campus environment to support its primary function to the benefit of staff, students, workers and/or patrons." A hotel use in this area could provide rooms for visitors of Mission Health. Transit facilities and safe pedestrian routes are noted as being essential within this area.

The subject area is designated for potential expansion of the Downtown land use category, in which lodging is noted as essential to the mix of uses provided that the design is done in the proper context. The site design is urban in nature with parking structured on the site rather than on exposed surface lots and the building is pulled to street, directly behind the sidewalk with limited height against the residential neighborhood.

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community* – the project is aligned with the Future Land Use designations of Employment / Anchor Institution as well as Downtown expansion; and (2) *Transportation and Accessibility* - the project contributes to pedestrian connectivity in the area by providing new sidewalks, and transit enhancements are possible if a new bus shelter is provided.

Considerations:

- The use is anticipated in the current Future Land Use category as well as a proposed Downtown expansion area
- The proposal can support visitors to the Mission Hospital campus as it is located with a half mile and directly on multiple transit lines
- The building height exceeds structures within the immediate vicinity; however it is in line with the maximum building height allowed in the other zoning districts along the corridor
- Potential visual and noise impacts to the adjacent residential neighborhood should be considered and mitigated as needed
- The applicant has agreed to include a transit shelter on the project site

Staff is supportive of the proposal as the use is anticipated in the existing land use category as a support of the medical and institutional uses in the vicinity and the applicant has worked closely with the neighborhood to address concerns and minimize impacts. The

development meets a number of stated City goals including providing an urban development pattern along this corridor, the inclusion of a transit stop and a commitment of providing transit passes for both guests and employees.

The Planning & Zoning Commission recommends approval of the conditional zoning for the construction of a new lodging facility based on policies in the Living Asheville Comprehensive Plan, Future Land Use map and City Council's 2036 Vision considerations.

Mr. Wyatt Stevens, representing Milan Asheville LLC, talked about the principals behind Milan Asheville LLC noting they are good corporate and community citizens. Regarding the project, he said there are no hotels that service this area and it is walking distance to the hospital and downtown. They have reached out to Mission Hospital and offered preferential pricing to families of patients at the Hospital, along with preferential pricing to the families of children in the Caiyalynn Burrell Child Crisis Center across the street. They have talked with Rev. Scott Rogers of the Asheville-Buncombe Community Christian Ministry (ABCCM) about opportunities to provide more jobs for veterans and other beneficiaries of ABCCM. They talked with Mountain Housing Opportunities and the Housing Authority of the City of Asheville regarding the revitalization of Lee Walker Heights. They will be able to provide a job training program (similar to ABCCM) for the residents of Lee Walker Heights. In addition, they will provide free bus passes to the residents of Lee Walker Heights, all of their staff and all of the hotel guests who would like one. They have also committed $125,000 for a playground at Lee Walker Heights upon approval of this zoning application. They understand that affordable housing is our number one problem in Asheville. He explained that it doesn't make sense to put affordable housing on a ¾ acre piece of property. But, because they want to be good community partners, they have agreed to make a contribution of $100,000 a year for 5 year to the Affordable Housing Trust Fund, once the hotel is up and running. He said this is a good project and asked for Council's approval.

Mayor Manheimer opened the public hearing at 6:48 p.m.

The following individuals spoke in support of the conditional zoning of property at 324 Biltmore Avenue for a hotel:

General Manager of Noble Kava at 268 Biltmore Avenue
Rev. Ronald Gates, Pastor of Greater Works Church of God and Christ
Johanna Johnson, business owner in Asheville
Luelle Whitmire, Living Water Ministry
Pam Coppedge, RN, Director of Caiyalynn Burrell Child Crisis Center
Gene Bell, Executive Director of the Housing Authority of the City of Asheville
General Manager of Quality Inn

Matilda Bliss spoke against the conditional zoning as the project does not contribute to the affordable housing crisis in Asheville

Mayor Manheimer closed the public hearing at 7:05 p.m.

Councilman Kapoor is aware that there is some sense of fatigue when it comes to hotels in the City. As a Council member, he views his role is to look at each project individually and judge it on it's own merits. He felt this hotel fits a specific need in this part of town as it relates to the Hospital and Child Crisis Center. He felt what the owners are offering is positive for Asheville - money for a playground, money for the Affordable Housing Trust Fund, and a commitment of jobs for people in that area. He agreed that we have an affordable housing problem in Asheville, but he didn't believe affordable housing will be at this location.

Councilwoman Mayfield agreed with Councilman Kapoor. She encouraged neighborhood input, and hoped they never assume that neighborhood input doesn't matter. She commended the developers for meeting with the neighborhood three times and trying to address their concerns.

Councilman Young felt we need to balance the way we move development. He supported some hotels further away from the downtown, but until we have more conversations about the fiscal health of the City and its ability to maintain instructure, he could not support this hotel.

Councilman Haynes felt that we have enough hotels in our City, especially in the Central Business District and downtown area. We need housing. He didn't like to see developers sink a lot of money into hotel proposals, but asked future developers to step back and think long and hard about bringing another hotel project forward.

Mayor Manheimer said we have had conversations about the fiscal health of the City and its ability to maintain infrastructure and keep a vibrant tourist industry in Asheville. We are at a critical point where there is no doubt the tourism economy is a pillar of Asheville. But, as Council, our challenge is to use the revenue stream we have to be able to pay for the infrastructure and expense needs to host our visitors every year. She did not feel comfortable in making a decision about additional hotels until we figure out how to address our lack of revenue diversity to support real infrastructure improvements, i.e., sidewalks, cleaning, repaving streets, filling potholes, etc. She appreciated what this hotelier has put together to bring forward, but could not support the project. If this doesn't pass, she hoped they would consider coming back to Council again in the future so we, as a City, may have reached a different place and feel we have the capacity to be able to continue this trend. For now, we have to make sure our house is in order and balancing the needs of our community against a growing industry that brings a great deal of positive and challenge for us.

Mr. Stevens said that in light of the comments, they would respectfully withdraw the application.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Roger Sharpe spoke to Council about the lack of maintenance at the bus station and bus stops. He provided Council with his Op Ed piece he wrote about Asheville's public transportation system.

Mr. Reid Thompson played several videos of trucks blocking the sidewalk on Maxwell Street and the noise from the trucks. Acting City Manager Ball said that moving violations can only be cited by the Asheville Police Department and they are prepared to increase enforcement. They are not writing warnings, but giving citations to everyone. Regarding blocking the sidewalk, the requirement is there has to be 4 foot of clearance. If there is 4 foot of clearance for a handicapped individual, they are able to maneuver through that. They are working on a plan to have Parking staff and resources in place for 5-7 hours a day for the next 6 weeks to write tickets and take appropriate action. Staff from Parking Enforcement will only be able to write citations for parking violations. They are working with the residents along Maxwell Street to make sure they have hang tags allowing them to park on Maxwell Street. We are also in contact with the people who own the grease truck and dumpster truck to limit the times that they come so that they come

more during the day. Councilwoman Mayfield asked that Acting City Manager Ball send Council an email that specifically lays the enforcement plan out.

Closed Session

At 7:32 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit or a potential lawsuit. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:52 p.m., Councilman Young to come out of closed session. This motion was seconded by Councilwoman Smith and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:52 p.m.

Magdalen Bowlesson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – November 13, 2018 - 3:00 p.m.

Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; and City Clerk Magdalen Burleson

We have started the budget process differently this year by sharing with Council and the public detailed budget information for each department earlier in the process. Asheville has unique challenges around its cost of living, demographics, affordable housing, as well as significant daytime growth in the city population. At this worksession, Council will continue to hear about how these challenges are impacting departmental budgets. Council will also continue to hear about the impact of the national economy on the City as an employer, and also hear about our focus on equity and how that is changing our service delivery models.

The City also continues to experience significant community interest in planning and zoning as we address growth and the impact of non-residents. All of these and other factors demand changes in how services are delivered, in the kind of technology and the equipment needs that exist. Keeping pace with changes in these areas allows us to have the best facilities and equipment to provide quality services to our residents and visitors.

As important as our facilities, equipment and technology needs are, people are still the organization's most important resource. The people we hire here are integral to quality of the service delivery. Throughout the presentations last month, we noted that a large part of the budget is dedicated to the employees who provide the services.

Department Directors from the Public Works Department, Development Services Department, General Services Department and Capital Projects Department each reviewed their organizational chart; overview of core services; key partners; budget and Fiscal Year 2018-19 budget drivers; prior year spending trends; Fiscal Year 2018-19 budget changes; department challenges; and Fiscal Year 2018-19 department goals from their respective department.

Various staff responded to several questions/comments raised by Council, some being, but are not limited to: clarification of Capital Projects Department organizational chart as it relates to the bonds; as we move towards electronic submissions, will leases go down; clarification of why benefits vary from department to department; what is the sense of development in Asheville; when will we start seeing the projects from the Facilities Assessment Report; what is the status of pay as you throw program; how can we divert more waste from the landfill; and does Public Works have mutual aid agreements with other municipalities, agencies or Buncombe County. For those questions not readily answered, and for any additional questions Council members submit, they will be provided to Council via a memorandum.

Mayor Manheimer adjourned the worksession at 4:28 p.m.

Tuesday – November 13, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City

Manager Cathy Ball; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Mayor Manheimer expressed Council's deepest sympathy for the families and friends of the 11 congregants who were killed at Tree of Life Synagogue on October 27, 2018, in Pittsburgh, Pennsylvania; and the families and friends of the 12 individuals killed at the mass shooting at the Borderline Bar & Grill in Thousand Oaks, California, in early November, 2018.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING NOVEMBER, 2018, AS "DIABETES AWARENESS MONTH"

Councilman Young read the proclamation proclaiming November, 2018, as "Diabetes Awareness Month" in the City of Asheville. He presented the proclamation to Ms. Jackie Steward, JDRF Advocacy Team Chair, and others, who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING NOVEMBER 16, 2018, AS "CARE FOR CAREGIVERS DAY"

Vice-Mayor Wisler read the proclamation proclaiming November 16, 2018, as "Care for Caregivers Day " in the City of Asheville. She presented the proclamation to Ms. Terry Bellamy, and others, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 23, 2018

B. RESOLUTION NO. 18-280 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH GREENLIGHT ELECTRIC INC. FOR THE BOND TRAFFIC SIGNALS - PHASE 2 PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a contract in the amount of $191,595.00 plus a contingency of 10% ($19,159.50) with Greenlight Electric, Inc. for the project known as Bond Traffic Signals – Phase 2, and further authorizing the execution of any change orders to said contract which may arise during execution of said contract up to the budgeted amount of $210,754.50.

This contract is for a General Obligation Bond project. Phase 2 will include one (1) of the four (4) proposed traffic signals approved by the 2016 Bond referendum (Along Patton Avenue, the intersections with Lexington Ave).

The project was advertised on September 5 th, due to a lack of bidders , the project was re-advertised on September 21st with the following bid results on September 22nd:

Greenlight Electric, Inc. of Weaverville, NC	$191,595.00

Pros:

- Will upgrade aging traffic and pedestrian signals
- Project works towards fulfillment of General Obligation Bond

Con:

- Work will cause some traffic delays during construction

There is $750,000 set aside for the four intersections identified for traffic signals in the General Obligation Bond Program. Three of these intersections are currently under construction in phase 1. Phase 2 will be the last of the intersections of the Bond program project that was identified for improvement. The combined total of phase 1 and phase 2 equals $460,954.50, leaving $289,045.50 for a potential phase 3 bond signal work.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a contract in the amount of $191,595.00 plus a contingency of 10% ($19,159.50) with Greenlight Electric, Inc. for the contract known as Bond Traffic Signals – Phase 2, and further authorizing the execution of any change orders to said contract which may arise during execution of said contract up to the budgeted amount of $210,754.50.

RESOLUTION BOOK NO. 40 - PAGE 181

C. RESOLUTION NO. 18-281 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE WITH DUKE ENERGY FOR PROPERTY ACROSS 34 HIAWASSEE STREET

Summary: The consideration of a resolution to convey an easement to Duke Energy Progress, Inc. (DEP) over a portion of City-owned property that is currently used as the employee parking lot for the U.S. Cellular Center.

The City of Asheville owns real property at 34 Hiawassee Street (PIN 9649-31-5500). It is located behind the US Cellular Center and is currently being used as the employee parking lot. The lot is paved with asphalt and lined for individual spaces. Approximately 32 cars can be parked in the lot and there are two entry and exit points.

DEP approached the City in the summer of 2017 requesting an easement on City property that would enable them to construct and maintain sections of overhead and/or underground electrical facilities between the Vanderbilt Substation and the West Asheville Substation. At that time, DEP wanted to replace a pole located in the parking lot of the US Cellular Center and stabilize its base with concrete. Time was of the essence and they requested a Right of Entry (ROE) in order to complete the work immediately. DEP was granted the ROE on August 21, 2017 and this work was done in the grassy area next to the parking lot. DEP worked with Chris Corl, the General Manager of the U.S. Cellular Center to minimize the number of spaces lost during construction and to maintain access for employees during the construction period.

In 2018, DEP requested a permanent easement over the employee parking lot in order to make and maintain overhead improvements to the existing line. DEP maintains that they have an easement already but their contention is debatable because many of the structures in the area have been torn down and replaced and streets have been changed or eliminated. The City of Asheville is also concerned that the improvements that exist under the power line (i.e., stairs, entry ways, and parking lot) could be removed by DEP under the language used in their standard easement agreement. The City Legal Department has worked with DEP's attorney to revise

DEP's standard easement language to to allow the City's existing and planned improvements to remain within the easement area and to make DEP responsible for any damages to such existing improvements related to their work in the easement area. Additionally, the City has negotiated language with DEP which makes clear that the easement will terminate should the Vanderbilt Substation, which is located behind the U.S. Cellular Center, is removed and/or relocated.

Duke Energy Progress is requesting an easement that is approximately 0.136 acres under the existing overhead electrical cables.

The Real Estate Coordinator has briefed the Manager of the U.S. Cellular Center and he does not object to the project as long as he continues to have use of the parking lot without a loss of parking spaces.

Pros:

- City of Asheville retains use of an important parking area.
- City of Asheville supports DEP's efforts to maintain quality service to the Vanderbilt Substation serving the downtown area.

Cons:

- There is no compensation associated with this permanent easement.
- The easement limits certain uses on the property (e.g., new buildings).

Compensation is not offered when DEP is connecting to an existing pole.

Staff recommends City Council adopt a resolution granting the permanent easement for the electrical conduit and associated distribution lines at 34 Hiawassee Street behind the U.S. Cellular Center.

RESOLUTION BOOK NO. 40 - PAGE 182

D. RESOLUTION NO. 18-282 - RESOLUTION AUTHORIZING THE CITY MANAGER TO DISPOSE OF 1.72 ACRES OF CITY-OWNED REAL PROPERTY LOCATED AT THE MILLS RIVER WATER TREATMENT PLANT TO THE CITY OF HENDERSONVILLE FOR AN EMERGENCY WATER INTAKE

Summary: The consideration of a conveyance of 1.72 acres of real property located at the Mills River Water Treatment Facility to the City of Hendersonville for the purposes of installing an emergency municipal water intake system.

The City of Asheville owns over 300 acres in Henderson County that serves as the Mills River Water Treatment Facility. Asheville has been approached by the City of Hendersonville with a request to acquire 1.72 acres of said property to develop a new emergency water intake on the French Broad River to serve Hendersonville water customers.

Hendersonville wishes to acquire 1.72 acres of property located along the French Broad River. This parcel is located within the French Broad River floodplain and is located at the very northeastern edge of Asheville's property. This proposed intake is located downstream from Asheville's water intake and does not conflict with the future operations of the Asheville Water treatment facility. The subject parcel is not contiguous to the main treatment facility property and is part of a larger 50 acre tract of land that is separated from the main property by the convergence of the Mills River and French Broad River (see the enclosed map for clarification.) Currently, there is no roadway access to the property except through a private driveway owned and controlled by the adjacent landowner, Super Sod.

At one time, the City leased the 50 acre tract of land to Super Sod for sod production. Once the Super Sod lease expired, the City contemplated utilizing the 50 acre site property to support local food production, but ultimately determined that preserving the property as a water quality buffer was the preferred land use. The City has identified no other public use for this property, given the flood plain and access concerns.

In response to the City of Hendersonville's request, City staff procured a third-party appraisal of the 1.72 acre property. Given the floodplain and access issues, the property appraised at $14,625. The City of Hendersonville has offered to pay the appraised amount and acknowledges the need to obtain deeded, legal access to the property. A conveyance of property to another unit of government does not require a public bidding process and must be approved by City Council.

This item was endorsed by the Finance and Human Resources Committee on October 23, 2018.

Pros:

- Sale of property at fair market value.
- No conflicts with Mills River Water Treatment Facility.

Con:

- None noted.

Sale of property would benefit the Water Resources Enterprise fund.

Staff recommends the conveyance of 1.72 acres of real property located at the Mills River Water Treatment Facility to the City of Hendersonville for the purposes of installing a municipal water intake system.

RESOLUTION BOOK NO. 40 - PAGE 183

E. RESOLUTION NO. 18-283 - RESOLUTION AMENDING THE 2018 CITY COUNCIL MEETING SCHEDULE TO INCLUDE A WORKSESSION ON NOVEMBER 27, 2018, AT 3:00 P.M. IN THE COUNCIL CHAMBER, 2ND FLOOR OF CITY HALL, TO DISCUSS CITY OF ASHEVILLE REVENUE SOURCES

RESOLUTION BOOK NO. 40 - PAGE 184

F. RESOLUTION NO. 18-284 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH ALTA PLANNING + DESIGN, INC. FOR THE DESIGN SERVICES FOR THE ASHEVILLE GREENWAY CONNECTORS PROJECT, PHASE TWO

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Alta Planning + Design, Inc. (Alta) for services necessary to create design and construction documents for the project known as the Asheville Greenway Connectors, in the amount of $95,087.40, plus a contingency of 20% ($19,017.48).

This project is to design two on-street bicycle and pedestrian connections that will connect the Town Branch Greenway to Memorial Stadium (future Beaucatcher Greenway) and the Bacoate Branch Greenway. The work includes but is not limited to data collection, base

mapping, street engineering, streetscape design and wayfinding, public engagement, utility coordination, and design plans.

Alta was selected from a pool of eleven respondents to the City's request for qualifications advertisement, issued on December 13, 2016. The selection process included a qualifications-based, individual and group review by a committee of City staff. Phase 1 of the project consisted of a feasibility study and was undertaken in a February 2018 contract with Alta, contract #91800250 for $24,912.60. The anticipated budget of Phase II of this project, consisting of design and construction documents, is a lump sum price of $95,087.40. A 20% contingency has been added to account for:

- N.C. Dept. of Transportation (NCDOT) administrative costs associated with NCDOT administration of the project grant;
- the possibility of temporary construction easements being needed;
- and any unforeseen costs that typically arise during construction and design.

Pros:

- Increases access to the City's growing inventory of greenways
- Works towards defining Asheville as a recreation destination

Con:

- Eventual construction will be disruptive to the area.

The total amount of the contract is $114,104.88, including contingency. This contract is funded through the Federal Highway Administration and administered by the NCDOT, via the Moving Ahead for Progress in the 21st Century Act.

City staff recommends City Council adopt a resolution awarding the contract to Alta and authorizing the City Manager to execute the contract for the design services necessary to perform the Asheville Greenway Connectors, Phase Two: Design and Construction Documents project, in the amount of $95,087.40 plus a contingency of $19,017.48 (20%).

RESOLUTION BOOK NO. 40 - PAGE 185

G. RESOLUTION NO. 18-285 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH WNC LANDSCAPING, LLC, FOR THE FISCAL YEAR 2019 DOWNTOWN CLEANING CONTRACT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $226,202 plus a contingency of 15.0% ($33,930) with WNC Landscaping, LLC. for the project known as Fiscal Year 2019 Downtown Cleaning Contract.

This contracts includes provisions for the pressure washing of City owned sidewalks in the Central Business District (CBD), weed control on City owned sidewalks and curblines, general cleanup services to remove loose litter and debris from City owned sidewalks and the cleaning of City owned garbage and recycle cans.

Specifically, Zone A of the CBD will be pressure washed six times in one year and Zone B will be pressure washed 2 times. The contractor will provide weed control on an as needed basis and patrol daily for loose litter and debris. Garbage and recycle cans will be cleaned four times per year.

The current version of this contract only provides for 4 cycles of Zone A and weed control in Zone A and B. It does not contain provisions for litter patrol or cleaning of garbage cans.

The project was advertised on August 29, 2018, and bids were opened on September 20, 2018, with the following results:

WNC Landscaping, LLC of Cedar Mountain, NC	$226,202
Harper Professional Janitorial Services of Black Mountain, NC	$288,434
Rivertop Contracting of Swannanoa, NC	$406,266

A 15.0% contingency ($33,930) has been added to allow payment for any unforeseen costs that typically arise during projects.

Staff have compared the impacts of contracting vs in-house staff completing the downtown cleaning work and staff is recommending that the work be brought in house. Staff will request a new crew and equipment as part of next year's budget. The suggestion to add these items in Fiscal Year 2020 will be made as part of the budget process in the Spring of 2019. If this request is authorized by City Council as part of the normal budgeting process, the purchase of equipment and staffing the program should be completed by October 2019. By the renewal date of this contract, equipment and staffing can be in place to provide in house maintenance service in the CBD and no contract renewal will be necessary. Authorizing this contract and following the set budget process will allow for these maintenance services to go uninterrupted over the next year. Following this recommendation will also provide City Council with adequate opportunity to review and approve the additional budget items.

Pros:

- Will increase the cleaning rates of the most heavily used areas of the CBD.
- Will provide for the cleaning of City owned garbage and recycle cans which are a source of complaint.

Con:

- Project management and contract administration will consume staff time.

Funding for this contract is in the Fiscal Year 2018-2019 budget.

City staff recommends City Council adopt the resolution awarding the contract to WNC Landscaping, LLC. and authorizing the City Manager to execute a contract in the amount of $226,202 plus a contingency of $33,930 (15.0%) for the FY 19 Downtown Cleaning contract.

RESOLUTION BOOK NO. 40 - PAGE 186

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Haynes and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. ASHEVILLE POLICE DEPARTMENT OPEN DATA UPDATE

Assistant to the City Manager Jaime Matthews updated City Council on the Asheville Police Department (APD) Open Data requests. She said that APD CAD 911 calls and APD citizen complaints data has been added to the Open Data. Datasets now completed include emergency call data, crime reports, citizen complaints and traffic stop reports. Policies and reports include the APD policy manual, and internal reports. Additional actions include the Blue Ribbon Committee, and recordings of committee meetings. Datas upgrades include (1) Use of Force - estimated release in upcoming weeks; (2) Citation and Arrest Data - CJIS staff has begun working on data; and (3) Demographics information on all City employees - working with Human Resources to update data. Next steps include (1) continued work with Asheville Police Department, Information Technology Department, and community partners to release remaining data; and (2) continued work to validate and improve data sets that have been released.

In response to Councilwoman Mayfield, Ms. Matthews said that staff is working on the breakdown on the number of Asheville Police Department calls for services.

B. CITY COUNCIL'S STRATEGIC PRIORITIES UPDATE

Interim Assistant City Manager Scott Burnette briefly reviewed Council's Strategic Plan update. For an Equitable & Diverse Community, (1) an Inclusive Engagement & Leadership Manager was hired, (2) an Equity Core Team #2 began their training to support the implementation and tracking of the Equity Action Plan as well as develop a Budget Analysis Tool; and (3) the Office of Equity & Inclusion has been working closely with Human Resources to analyze and change practices to become a more equitable employer. In the Well Planned and Livable Community section, (1) the City is working toward a late fall completion of the northern half of the French Broad River Greenway East; (2) paving has now been completed, from the current Lyman Street/Riverside Drive intersection to just north of the railroad trestle bridge; (3) a community celebration of the newly installed Big Fish sculpture and the first section of paved greenway on the west bank of the French Broad River was recently held on November 9; (4) we have plans to being construction in the Spring of 2019 on future French Broad River West; (5) we are preparing to begin work on the Charlotte Street Corridor Improvement Project; and (6) work is underway on the first group of playgrounds and sport courts to be renovated with funding from the bond referendum passed in 2016. For a Clean & Health Environment, (1) the Office of Sustainability in collaboration with Development services earned the City of Asheville a Gold designation from the national SolSmart program for making it faster, easier and more affordable for homes and businesses to go solar; (2) Council established a 100% renewable energy goal and the City has partnered with the County to develop a renewable energy roadmap; (3) funding for solar panels on the ART station bus canopy has been secured; (4) the Riparian Enhancement Plan Project was recently completed; and (5) the City's Climate resilience assessment was adopted as an appendix to the comprehensive plan in June and efforts are currently underway to develop a toolkit to help residents build resilience on their own property. For Quality Affordable Housing, (1) he City is working on a strategy to solve affordable housing challenges through the redevelopment of City-owned land; (2) the Lee Walker Heights redevelopment project has received a 4% tax credit approval, and plans are set to move forward with construction in the Spring of 2019; and (3) a workshop co-sponsored by the City of Asheville was held for residents to have a chance to learn how to take advantage of updated zoning regulations. Under Transportation & Accessibility, (1) work is ongoing on the River Arts District Transportation Improvement Project (RADTIP); (2) as part of a collaboration with Asheville on Bikes and other organizations, a tactical urbanism project has been completed on a stretch of Coxe Avenue, between Banks & Buxton Avenues; (3) improvements to the downtown ART station are expected to start in early 2019; (4) a new real-time app has been launched for Asheville ART bus riders; and (5) Asheville's Comprehensive Plan calls for the City to transition in a direction that strengthens urban transit corridors and connects urban centers. For a Thriving Local Economy,

(1) the final stages of the Disparity Study have been completed; and (2) we have a supporting role in Mountain BizWorks Test-Drive Program. For a Connected & Engaged Community. For a Connected & Engaged Community, (1) beginning in the month of October, Asheville residents were invited into City budget process through neighborhood meetings; (2) in the inaugural year of the Visiting Artist Project, the finalist -Art Ecologie- was chosen in October by a leadership team; their choice was informed by a community engagement process that included an online survey with over 200 responses; (3) this year's Festival of Neighborhoods, organized by the City of Asheville's Neighborhood Advisory Committee, brought together neighborhoods from all parts of the city, representing 14 associations to hear more about the City's next steps with implementing the Living Asheville Comprehensive Plan, Development Update/Tools and continued neighborhood planning through the Plan on a Page process; and (4) The International Association of Public Participation (IAP2) just held a training session on planning and techniques for better public engagement. In the Financial Resilient Community, (1) in an effort to increase transparency and engagement leading into FY 2019-2020 budget processes, staff have been providing detailed departmental information to Council and the community in budget worksessions, beginning in August, and ending in December this year; (2) City staff and Council members have been participating in public meetings throughout different Asheville regions in October and November in order to break down information on the budget process for our residents, and allow them to provide input as well as give feedback about budget priorities; and (3) the City also has an online dashboard available for anyone to access, allowing community members to stay engaged and informed about City spending and bond use.

C. I-26 CONNECTOR UPDATE

Transportation Director Ken Putnam provided the following update: "The purpose of this memorandum is to provide an update to City Council regarding the I-26 Connector project (Project # I-2513).

"The North Carolina Department of Transportation (NCDOT) and their design team are currently working to finalize the Final Environmental Impact Statement (FEIS) including additional coordination with the US Fish and Wildlife Service (USFWS) regarding two Federally Listed Endangered Species that were "identified" in the project area within the last year. Specifically, the species are the gray bat and the elktoe mussel. A biological assessment must be prepared outlining the measures needed to minimize harm to both species. Once prepared, the biological assessment will be submitted to the USFWS for review and comment and they will issue a biological opinion that serves as concurrence to enable the project to move forward to the construction phase. The Federal Highway Administration (FHWA) has indicated that they will not sign the FEIS document until the biological assessment is submitted and they will not sign the Record of Decision (ROD) until the biological opinion is issued.

"In order to keep moving forward with the project, the NCDOT is adjusting the schedule as follows:

- Schedule a public hearing the first week of December 2018 prior to the signing of the FEIS (scheduled for Tuesday, December 4, 2018).
- Release the signed FEIS during January 2019.
- Sign the Record of Decision (ROD) during May 2019.

"There will be a comment period following the public hearing and the release of the FEIS. All of the comments received will be considered prior to signing the ROD.

"Since Project # U-5868, which is identified as a widening project along SR 1477 (Riverside Drive) from NC 251 / SR 1781 (Broadway) to Hill Street, and Project # I-2513 are "linked" because of overlapping study areas, the NCDOT has made the decision to delete Project

U-5868 and absorb all the work into Project # I-2513. This decision was made in coordination with the FHWA and it will create efficiencies for all parties by reducing the number of required environmental documents as well as simplifying further agency coordination as the projects move forward. The U-5868 project number and description will be included in the public hearing advertisement and on the public hearing maps. In addition, information will be available at the public hearing explaining this change. This change does not affect the scope and proposed improvements that have already been discussed.

"The City's consulting firm, Sam Schwartz Consulting, prepared a technical memorandum dated September 19, 2018, that is intended to be included in the FEIS as an official record of the City's preferred vision for the I-26 Connector project and it was submitted to the NCDOT and their design team on September 27, 2018.

"The City's Aesthetics Committee had their first meeting on October 3, 2018, from 1:00 pm until 4:00 pm at the Municipal Building on the 4th floor in the Police & Fire Training Room. The purpose of the meeting was for the committee members to learn about their roles and responsibilities for suggesting aesthetics treatments for the subject project and to hear from the NCDOT regarding resources available to them and examples of treatments that have been used by other communities throughout the state.

"City Council has sent out a request for additional committee members and the application deadline is Monday, November 5, 2018 at 5:00 pm. Additional information and applications can be found on the City's Boards and Commissions webpage.

"The second meeting is scheduled for Friday, November 30, 2018, from 9:00 am until noon at a location to be determined. All of these meetings are "noticed" and the public is welcome to attend. The purpose of the second meeting will be to provide an appropriate background (history) for the committee members including newly appointed members and to begin the actual work. Sam Schwartz Consulting will be facilitating this meeting."

Councilwoman Mayfield announced a N.C. Dept. of Transportation will hold a public hearing on December 4, 2018, to review the latest maps on I-26, and another public hearing in January on the final Environmental Impact Statement on I-26.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE MAKING ALL SUBDIVISIONS IN HISTORIC OVERLAY DISTRICTS AND ON LOCAL HISTORIC LANDMARK PROPERTIES A MAJOR WORK

Councilman Young moved to continue this public hearing until December 11, 2018. This motion was seconded by Councilwoman Smith and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 18-286 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH TRAFFIC PLANNING & DESIGN INC. FOR THE CHARLOTTE STREET IMPROVEMENT PROJECT

Capital Projects Director Jade Dundas said that this is the consideration of a resolution authorizing the City Manager to execute a design contract with Traffic Planning and Design, Inc. for the Charlotte Street Improvement Project.

The Charlotte Streets Improvements project has been listed in the General Capital Improvement Program since Fiscal Year (FY) 2014-15, and is consistent with City Council's direction related to the Charlotte Street Road Diet and safety improvement recommendations provided in April 2018. This project includes the section of Charlotte Street between I-240 and Edwin Place. The adopted budget for the project is $1,250,000.

In March, 2018 the Planning and Economic Development Committee considered five options for moving the subject project forward and made a recommendation that City Council put forward in resolution #18-93 in April, 2018. A portion of that resolution is outlined below:

> *(1) WHEREAS, Option 1 is a road diet only approach which consists of issuing an RFQ for engineering services to use programmed capital funds to produce construction drawings to implement a road diet with bike lanes and pedestrian improvements as the preferred and priority treatment; (2) WHEREAS, Option 3 is a tactical projects approach for the design and implementation of spot neighborhood safety, pedestrian, and streetscape improvements along the Charlotte Street Corridor; and (3) WHEREAS, City Council also requests the Planning staff review the zoning and land uses in the Charlotte Street Corridor to identify possible changes that would enhance a multi-modal, pedestrian-oriented experience.*

Following this direction, City staff issued a Request for Qualifications for design services for the Charlotte Street Improvement project. In response to the RFQ, the City received nine (9) Statements of Qualifications to be considered for the project. After thorough review, evaluation and interviews, staff recommended Traffic Planning & Design, Inc. (TPD) as the most qualified to perform the surveying, design and construction administration services for this project. The scope for TPD includes community outreach, surveying, technical design, bidding and construction administration. The tentative project outline is shown below:

Surveying/Design/Public Engagement	Fall/Winter 2018
Bidding for Construction	Winter 2018
Construction Begin	Spring/Summer 2019
Construction Complete	Summer/Fall 2019

Pros:

- Currently listed in the adopted capital budget.
- Implements multi-modal principles.
- Enhances travel safety for multiple modes of transportation.

Con:

- Possible reduced levels of service for automobiles and increased queue lengths during peak hours.

The adopted capital budget already includes $1,250,000 for the Charlotte Street Improvements project.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract with Traffic Planning & Design, Inc. to provide survey, public engagement, design, bidding and construction administration services for the Charlotte Street Improvement project for an amount not to exceed $155,000, and further authorizing the City Manager to execute any contract amendments up to 10% ($15,500) above of the contract price.

Transportation Director Ken Putnam briefly reviewed the project comprehensively.

Several individuals spoke in support of the Charlotte Street Improvement Project, for some reasons, some being, but are not limited to: much needed safety improvements to the street; needed stormwater improvements, remilling and repaving Charlotte Street, need to bury electrical lines; need to widen sidewalks and move electrical poles; smaller road will be safer for pedestrians and make people realize they are in a residential area and not a cut through to commercial area; and bike lanes will also help with pedestrian safety.

Several individuals spoke in opposition of the Charlotte Street Improvement Project, for several reasons, some being, but are not limited to: postpone the design process; review past traffic studies, conclusions and recommendations; plan ahead by looking at any new developments on Charlotte Street; return to the original priority of pedestrians first; restart neighborhood engagement; with three lanes, instead of spending money for three-lanes, the money will be better spent on sidewalks and stormwater system; Americans with Disabilities Act sidewalk improvements are not included in the plan; narrowing a major commuter artery will cause major congestion and backups; drivers are already trying to find alternative routes creating congestion; and traffic and safety issues on the side streets.

Mayor Manheimer said the scope of the project is not as comprehensive as might we might have hoped. She explained how the vision of the long-term full scope of the project is the street improvement now, noting that the sidewalk issue will be incorporated into the long-range plan. One of the challenges is the number of curb-cuts that Charlotte Street has and it's always difficult for cities to get private property owners to close up their curb cuts so there is more level sidewalk, as well as the width.

Mayor Manheimer has had the personal experience of running and walking with a stroller on Charlotte Street for many years. She is very supportive of this project. She has had the opportunity to visit other cities to see how they have experienced changes and we are not the first to try this out. There is a lot of good information about this. Charlotte Street is very dangerous and she is very hopeful it will be a positive improvement for north Asheville. She said that it's inevitable that Asheville will grow and the answer is not to widen roads. Cities are trying to reclaim their urban vibrancy to make sure it remains a place where you can walk, ride a bus or ride a bike.

Councilwoman Mayfield said that change is hard and scary and this is a big change. However, there is a lot of good information available, especially an AARP document on road diets including a myth-busting section.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-286. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 187

B. RESOLUTION NO. 18-287 - RESOLUTION AUTHORIZING THE SALE OF CITY-OWNED PROPERTY AT 360 HILLIARD AVENUE TO THE KASSINGER DEVELOPMENT GROUP FOR AN AFFORDABLE HOUSING DEVELOPMENT

402.

RESOLUTION NO. 18-288 - RESOLUTION TO APPROVE LOANS FROM THE CITY'S HOUSING TRUST FUND

Mr. Jeff Staudinger, representing the Community & Economic Development Department, said that this is the consideration of a revised proposal from Kassinger Development Group for the development of mixed-income housing at the City-owned 360 Hilliard Street

On June 13, 2017, City Council approved a proposal from Kassinger Development Group for a 64 unit rental development on the city-owned "Parks Maintenance" site, located at 360 Hilliard Avenue. At the time, the project, which had an estimated development cost of $7.9 million, incorporated the following elements:

- 64 units total, of which 33 were affordable at 80% and below AMI, and 31 were market rate;
- 49 one bedroom and 15 two bedroom units;
- third party sustainability certification.

Two other key elements were proposed:

- 50 year land lease from the City; with a lease payment of 10% of net cash flow made annually to the City for the term of the lease;
- 50 year period of affordability

The City committed $1,280,000 of Housing Trust Funds to the development, at 2% interest for a 50 year term.The City also agreed to a Land Use Incentive Grant (LUIG) for a period of 10 years, with an estimated value (in current dollars at the time of approval) of $291,430. This was a total incentive per unit of $24,554 and $47,619 per affordable unit.

The Developer sought financing with a HUD guarantee, and hoped to be under way by the summer of 2018. During this time frame, although the HUD financing was ultimately approved, significant increases in construction costs, reflecting national conditions, made the project as proposed unfeasible.

Kassinger, committed to the project regardless, sought staff feedback and suggested that a for-sale condominium development might make financial sense. Staff responded positively to this proposal, and Kassinger is now making that proposal.

New Proposal - Kassinger now proposes a 64-unit mixed income for-sale community to be located at 360 Hilliard Avenue. In summary, the proposed project would be comprised of:

- 49 1-BR units and 15 2-BR units.
- 33 (52%) affordable
    - 28 1-bedroom units at $135,000
    - 5 2-bedroom units at $155,000
    - Income restricted to 80% AMI, with an affordability period of 50 years.
    - The developer would provide the 1st year of HOA payments on each affordable unit.
- 31 Market Units
    - 21 1-bedroom units, priced at $224,738
    - 10 2-bedroom units, priced at $312,800
    - No deed restrictions on market units.

The developer is seeking the purchase of the land based on the appraised value from Fred Beck and Associates of $750,000, dated July 3rd, 2018. They propose that 50% of the land

value be left in the project to subsidize the cost of the affordable units. The remaining 50% of the land value would be paid in the take down of the units. They also propose that the current land parcel would be subdivided out to allow the back parking to remain in the control of the city.

Thirteen of the affordable units must be sold to households earning 60% or less of median income. Priority for purchase will be given to Housing Choice Voucher holders, with a goal of sale to 20 voucher holders. Currently, 50 households are participating in the Housing Authority's homeownership qualification program. The developer and City staff will initiate an education and marketing program to those participating households, and make down payment assistance available to qualified households. The Housing Authority will actively market this development to their those participating households.

Kassinger seeks the following incentives:

$1,280,000 Housing Trust Fund loan. The loan request amount is unchanged form the original proposal, but now is proposed to be used for construction financing. The request is for interest only payments during the period of construction, with full pay-back of principal as units are sold, with an estimated full repayment occurring in three years.

$375,000 Land Value Discount. As stated above, the developer proposes that one-half of the appraised land value remain in the project as subsidy for the affordable units.

Because this is a for-sale project, no LUIG is requested.

The proposed schedule for development is:

Activity	Completion Date
Property Acquisition Completed	1/15/2019
Zoning Approvals Obtained	N/A – Zoning is already in place
Final Bid Specifications Completed	Completed
Detailed Architectural Design Completed	Completed
Building Permits Obtained	12/15/2018
Construction and All Subordinate Financing Committed	1/15/2019
Housing Trust Fund Loan Close	1/15/2019
Site Clearance	2/15/2019
Construction Started	3/1/2019
Construction 50% Completed	7/15/2019
Marketing and Lease-up Begins	7/15/2019
Construction Completed	1/15/2020

Final Sale (homebuyer)	3/15/2020

Pros:

- The project as proposed is fully designed, and the developer indicates that all required construction financing is pending;
- 64 units of new mixed-income ownership housing will be developed in the City's Central Business District, with excellent transportation access as well as walkable proximity to jobs, schools, services, and amenities ;
- As originally proposed, 33 of those units will be affordable to low and moderate income households for 50 years;
- The new construction will be National Green Building Standard (NGBS) certified (http://ngbs.com/the-ngbs-green-promise);
- The City's HTF investment will be repaid as units are sold, making these funds again available to support affordable housing development;
- Half of the City land value will also be returned to the City, with the remainder helping bridge the gap to make the affordable units possible;
- If the City so desires, sale of units to the Community Land Trust or directly to lower income purchasers will be possible using City bond resources to further write-down the cost of the units at the time of purchase; the use of bond resources for Down Payment Assistance will be governed by the City's Down Payment Assistance Policy, currently under development by staff for review by the Housing and Community Development Committee;
- The City will have expanded its toolbox of public-private partnership for the development of affordable housing, and potentially create a model for consideration for the Cedar Hill property as well as other projects.

Con:

- In order to facilitate both construction financing and ultimate individual unit sale, the developer maintains that sale of the property, rather than lease as originally approved, is necessary. Staff has researched this issue and concludes that the current finance situation makes bank participation on both construction and ultimately mortgage financing for individual buyers much more attainable when the developer and homebuyers have fee simple title to the property.

This revised proposal was reviewed by the Housing and Community Development Committee on October 16, and recommended for action to City Council.

The project seeks a total upfront investment from the City of $1,280,000 in a construction loan from the Housing Trust Fund, and a further investment of $375,000 in land value, for a total investment of $1,655,000. The full HTF loan would be repaid, at 2% interest. The $375,000 invested from land value is $12,098 per affordable unit.

Staff recommends that City Council accept the revised Kassinger proposal for the redevelopment of 360 Hilliard Avenue as a mixed-income for-sale development, including accepting the revised proposal for the use of $1,280,000 of Housing Trust Funds, eliminating the commitment of a Land Use Incentive Grant, and agreeing to subdivide the 360 Hilliard Avenue parcel and sell to Kassinger the portion of that parcel to be used for the construction of the project.

In response to Vice-Mayor Wisler, Mr. Staudinger explained what tools we will use to make sure that the affordability period of 50 years will remain. She then stated that she can support the project as long as we can make sure those details are part of the sale and that the affordability period is in effect as long as possible.

Mr. Chip Kassinger said that they are excited about this project and confirmed that all details of the sale will be agreed to up front.

Councilman Young said that the HCD Committee has made some policy changes in order to adopt to the changing needs of Asheville to support affordable housing needs while also trying to address gentrification issues. He noticed the absence of subsidies for low income homeowners and the extremely low homeownership rate amongst subsidized households. That previously suggested to him that there was a strong policy bias against homeownership and a preference for any rental units. We also found out that Asheville was the second fastest gentrified city in America with a lack of affordable homeownership options at the lower price points. This project is a direct reflection of the recent policy changes and will be the first project before Council that will directly secure ownership opportunities for those at the lower price points of our community. He relayed a message to Council from Shaunda Sandford, the Program Manager for the Family Self-Sufficiency Program, stating that "This opportunity has the potential to be a major vehicle for our residents who face significant barriers to become homeowners and build wealth and economic opportunity right here in the City of Asheville. Other positive effects identify with homeownership include improved outcome for our children who we hope will want to live here and become future leaders of our community. ... Just in case folks are wondering how many Housing Authority residents are eligible for housing choice vouchers that will commit funds towards their mortgages, I can't give you an exact number, but it's every single one of them."

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolutions and they would not be read.

Councilman Young moved for the adoption of Resolution No. 18-287. This motion was seconded by Councilwoman Smith and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 188

Councilman Young moved for the adoption of Resolution No. 18-288. This motion was seconded by Councilwoman Smith and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 189

C. BOARDS & COMMISSIONS

Regarding the Board of Electrical Examiners, since no applications for the layman seat were received, it was the consensus of Council to re-advertise for the position.

Regarding the Citizens-Police Advisory Committee, since no applications for the resident of property owned by the Housing Authority were received, it was the consensus of Council to re-advertise for the position.

RESOLUTION NO. 18-289 - RESOLUTION APPOINTING MEMBERS TO THE ALCOHOLIC BEVERAGE AND CONTROL BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Alcoholic Beverage and Control Board.

The terms of Robin Cape and Edward Hay expire on November 13, 2018.

The following individuals applied for the vacancy: Mychal Bacoate, Lakota Denton, Januarie West, Max Haner and Charlie Hodge. However, Mr. Hodge had a conflict of interest

It was the consensus of the Boards & Commissions Committee to appoint Januarie West and Max Haner.

Vice-Mayor Wisler moved to appoint Januarie West and Max Haner as members of the Alcoholic Beverage Control Board to each serve a 3-year term respectively, terms to expire November 13, 2021, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 190

RESOLUTION NO. 18-290 - RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Homeless Initiative Advisory Committee.

The term of Dale Davidson expires on 1, 2018.

The following individuals applied for the vacancy: Thomas Cash, Tamarie Macon and Tim McElyea.

It was the consensus of the Boards & Commissions Committee to reappoint Dale Davidson.

Vice-Mayor Wisler moved to reappoint Dale Davidson to serve a three-year term, term to expire November 1, 2021, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 191

RESOLUTION NO. 18-291 - RESOLUTION APPOINTING MEMBERS TO THE I-26 CONNECTOR PROJECT AESTHETICS COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the I-26 Connector Project Aesthetics Committee.

The following individuals applied for the vacancy: Kenneth Dierks, Susan Bigbie Loftis and Larry McDevitt.

It was the consensus of the Boards & Commissions Committee to appoint Kenneth Dierks and Susan Loftis.

Vice-Mayor Wisler moved to appoint Kenneth Kierks and Susan Loftis to the I-26 Connector Project Aesthetics Committee, to serve approximately one year or until their tasks are complete before the Environmental Impact Statement is released. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 192

RESOLUTION NO. 18-292 - RESOLUTION APPOINTING A MEMBER TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Neighborhood Advisory Committee.

Mr. Ken Miller has resigned, thus leaving an unexpired term until July 1, 2019, for the representative of 28806 or 28728.

The following individuals applied for the vacancy: Bob Swanson, Gretchen Gudites, Nan Huebner, Steven Rasmussen, Anna Sexton, Grace Davidson and Geoff Grant

Vice-Mayor Wisler moved to appoint Anna Sexton to serve the unexpired term of Mr. Miller, term to expire July 1, 2019, or until her successor has been appointed. This motion was seconded by Councilman Kapoor carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 193

RESOLUTION NO. 18-293 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Public Art & Cultural Commission.

Mr. Guillermo Rodriguez has resigned, thus leaving an unexpired term until June 30, 2020.

The following individuals applied for the vacancy: Cate Ryba, Mariana Llorente, Karven Depew, Valeria Watson, Karin Peterson, Travis Smith, Jasmine Washington, Nandita Vyas and Honor Moor.

Vice-Mayor Wisler moved to appoint Valeria Watson to serve the unexpired term of Mr. Rodriguez, term to expire June 30, 2020, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 194

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Tammy Summey expressed to Council a concern of harassment she experienced while voting in west Asheville. She did state that she voiced her concerns to the Board of Elections.

Ms. Velvet Hawthorne showed a video of truck parking on the sidewalks on Maxwell Street.

Mr. Ben Airing, student at Warren Wilson College, asked Council if they felt it was appropriate for the Vance Monument should be displayed on public property downtown. Mayor Manheimer said that she would be happy to sit down and meet with Mr. Airing or he could submit any questions to all of Council.

Mr. Jonathan Wainscott asked for information to be presented at the budget worksessions to include a growth chart of the African American community.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:21 p.m.

Magdalen Bowlson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – November 27, 2018 - 3:15 p.m.

Worksession - City of Asheville Revenue Sources - A Balancing Act

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; and City Clerk Magdalen Burleson

Acting City Manager Cathy Ball said that during 2018, Asheville was named Favorite Foodie City, Top 15 Cities in the US, Top-Rated Vacation Destinations, Top 10 Music Cities in the US, and 18 Top Destinations of 2018. The result of all this popularity is construction is booming. General Fund revenues are $124.5 Million - Property tax - 52%; Sales tax - 21%; Charges for services (Sanitation, Parks, development) - 14%; and Other revenues - 14%. Property tax ($64.2 Million) and Charges for Services ($17.5 Million) are the only revenue streams the City has some control over. Some of the items in the Charges for Services are solid waste fees and permit fees. In a good year, revenue grows $3.6 Million (Property tax up 3% - $2.0 Million; Sales tax up 5% - $1.3 Million; and Charges up 1% - $0.2 Million). For every $1.00 spent in Buncombe County you pay an additional 7-cents of sales tax. Of that seven cents, .4 cents come back to the City's budget. Out of $1 Million sales in Buncombe County, the revenue to the City is $4,000. So when we talk about economic impact to the community it is not the same as fiscal impact to the City's budget.

In a typical year, operating costs grow $3.2 Million - Cost of Living Adjustment - 3%; Healthcare - $500k additional estimate for annual increase; Inflation - 2% (Federal Reserve target rate for inflation) applied to non-personnel and non-capital operating costs; and Construction - 4.7% increase in construction index applied to operating costs associated with capital maintenance/repair plus 2% increase assumed in capital debt model. That's not enough to catch up on deferred maintenance.

For example, she showed a slide of the Pavement Condition Index. This is a result of prior lack of investment in ongoing maintenance in infrastructure- GO Bonds 2016; impact of population increase; and weather and topography. Bond money will keep pavement condition index from falling, but it will not improve. And that money will run out. Resurfacing 10 miles of road costs an average of $4.25 Million. The City has 400 miles of roadway to maintain. This means that if the City invested $4.25 Million a year it would take 40 years to resurface every street.

The most obvious, and easiest solution, is to raise property taxes. But that impacts Asheville's affordability, so we are looking for alternatives. Staff continues to evaluate revenue options on an annual cycle as part of the budget process, including, but not limited to, fee adjustments, motor vehicle license and property tax increases. Traditional revenue impact the affordability of Asheville and do not address the imbalance. So we began looking at how other cities are addressing this issue beyond increasing property taxes.

Showing a slide of non-resident vs. resident populations and a chart of daytime population changes, our overall population increase from 2012-2016: 4.5%. There is a very small change in non-workers (people that live here but don't work) and a small drop in commuters out (fewer people living here and commuting to another place). There is a 14% increase in those that both live & work in Asheville. Almost 5% increase in commuters coming into Asheville. Almost 20% increase in tourists (almost 25k to almost 30k daily) - tourist number is taking annual

visitation from Tourism Development Authority and dividing by 365 - probably a lot more variation day-to-day. The point is that our daytime population pushing to 160 thousand, much larger than official population of 87,531.

The non-resident population that uses Asheville's services include: streets, sidewalks, emergency services, police, fire, greenways, festivals and events, and downtown sidewalk cleaning. Property owners use streets, sidewalks, emergency services, police, fire, greenways, festivals and events, downtown sidewalk cleaning, neighborhood policing, and brush collection. Who pays for these services? The non-resident population pays sales tax and Tourism Product Fund for capital improvements. Property owners pay sales tax, building fees, solid waste fees, etc., motor vehicle fee, and property tax.

Asheville is limited in solutions as we are not currently legally permitted City-only sales tax, special tax for "second house", or City income tax. The following three revenue sources are available by a vote of Council and are legally permitted (1) business improvement district (BID) - property tax in municipal service districts; (2) special assessments - assessment on specific capital projects; and (3) property tax increase.

Some may ask about the room tax, which is controlled by the Tourism Development Authority. Three-quarters goes to marketing, and one-quarter goes to the Tourism Product Development Fund.

When we look at these options through the Equity Lens, this is what we find. The BID and special assessment options would tax only the property owners in the areas receiving the benefits, and therefore would have the lowest immediate impact on low income households. At the same time, these would be an additional increase in property taxes, and would likely impact Asheville's affordability in the long term as the costs are passed down to consumers and renters.

One possible solution would be "Allowed by voter referendum in Buncombe County a ¼ cent sales tax for transit related operations." This tax would be added to all taxable purchases made in Buncombe County. The City would receive revenue from both non-resident and resident populations. Sales tax increases disproportionately impact low income households because costs to meet basic needs are a larger percent of the overall budget. The additional revenue from the tax would be used for transit that benefits people with transportation barriers.

Another possible solution would be "Precedent for special legislation in North Carolina of a prepared food and beverage tax." Prepared foods include restaurant food, but also include fast food and grocery store deli foods. This tax would disproportionately impact low income populations because food costs are a larger percent of the overall budget in these homes. Additionally, there is often a heavy reliance on ready-to-eat foods. The alternative - raising property taxes - would likely impact Asheville's affordability in the long term as these costs are passed down to consumers and renters.

Here is one way you could mitigate an increase on food costs to low income families - earmark a certain amount of money to strengthen food security to decrease dependence on fast or prepared food in low income communities.

She provided information on what other cities do - like Miami Beach, Duluth, Greenville, and Charleston.

The balancing act would be that the non-resident population would be paying for sales tax for transit, a prepared food and beverage tax, and hotel tax. Property owners would be paying sales tax for transit, and a prepared food and beverage tax.

She explained each of the following considerations for a path forward (1) hotel tax - align resources to impact; (2) ¼ cent sales tax for transit - County referendum (2020); and (3) prepared food and beverage tax - State allows City to hold referendum (2020).

The benefits of the tourism economy include (1) awarded $22 Million for City projects from the Tourism Product Development Fund (TPDF) ($7.1 Million for Riverfront Development, $2 Million for Pack Square Park; and $5.7 Million for the U.S. Cellular Center); (2) jobs for over 18,000 people in Buncombe County; and (3) $2 Billion in visitor spending in Buncombe County.

The use of occupancy tax in North Carolina generally falls into one of the following five categories: (1) Destination promotion; (2) Tourism-related expenditures, which includes uses varying from staging festivals and events to providing some municipal services in beach towns; (3) Funding or debt support for tourism-related capital projects such as convention centers and arenas or visitor attractions; (4) Tourism-related beach nourishment; or (5) General fund revenue and other non-tourism uses.

Regarding the hotel tax, the TPDF portion of the hotel tax is estimated at $5 Million per year and could leverage approximately $50 Million in bond proceeds. It could provide (1) downtown sidewalk improvements; (2) downtown placemaking opportunities; and (3) renovations to the Thomas Wolfe Auditorium. However, no increase is proposed. Staff will work with City Council and the TDA to develop a project during the timeframe of December 2018 through March 2019.

Regarding the ¼ cent sales tax for transit, $12 Million per year is estimated. This money would be for countywide transit related use. We would partner with the County to provide increased transit services. It could provide (1) implementation of the approved City of Asheville Transit Master Plan; and (2) expanded services into County including traditional bus services, expanded express service, and improved Mountain Mobility services. The Local Government Public Transportation Sales Tax Act must be approved in a referendum. She reviewed the definition of public transportation system. Wake County (2017), Durham County (2013), Orange County (2013) and Mecklenburg County (1999) have passed a ¼ cent sales tax for transit referendum. Actions needed would include (1) update Transit Plan - spring/summer 2019; (2) plan with the County - 2019; (3) Buncombe County take necessary action to add referendum to 2020 election ballot - spring/summer 2020; and (4) item on County referendum - fall of 2020.

Regarding the prepared food and beverage tax, benefits for the Asheville Independent Restaurants (AIR) include (1) serving community needs (a) 91% of members contribute to local nonprofits; (b) the average value of donations from AIR members in 2017 totalled $19,993; and (c) this represents $2.14 Million in charitable contributions; and (2) employing over 5,800 people at an average hourly wage of $13.75 for non-tipped and $19.46 for tipped restaurant employees. A 1% prepared food and beverage tax (City only) is estimated at $5 Million per year. Local restaurants are already making significant charitable contributions in the community. This tax increases revenue without increasing property tax. It could provide (1) increased cleanliness in business districts; (2) increased public safety; (3) increase sidewalk maintenance in business districts; and (4) improvements to Thomas Wolfe Auditorium. Portland Oregon has a Clean & Safe program. We might consider a similar program in our business districts. Wake County, Cumberland County, Dare County, Mecklenburg County, and the Town of Hillsborough have passed a 1% prepared food and beverage tax. Actions needed would include (1) work with local businesses to understand the impact and needs - winter/spring 2019; (2) direct legal staff to let lobbyists know we want to introduce a bill - spring 2019; (3) request to the General Assembly - spring 2019; (4) develop collection process - 2019; and (5) referendum - fall 2020.

As always, staff will continue to look at revenue options and bring them to Council as we identify new possibilities. If Council would like to move forward with the options recommended

today, there are 2 things that staff would need from you: (1) Council direct the City Manager to update the Transit Master Plan in cooperation with Buncombe County to include significant extensions into Buncombe County; and (2) Council direct the City Manager to engage the community on these alternatives: (a) Meeting with local partners like the Asheville Independent Restaurants Association, the Asheville Area Chamber of Commerce, Council of Independent Business Owners, Asheville Lodging Association, and Asheville Bed and Breakfast Association (January 2019 - June 2019); and (b) Develop and implement plan for community engagement. (January 2019 - November 2020).

Ms. Ball responded to various questions/comments from Council, and while all of Council were interested in having staff move forward with a deeper dive with pros and cons on each of the options, they did as for information on (1) splitting apart the food and beverage tax with only a tax on alcohol beverages; (2) investigate the possibility of legislation that would authorize the City alone to do a transit tax; and (3) the possibility of using some of the food and beverage tax to decrease property taxes or reduce increasing future property taxes.

Mayor Manheimer adjourned the worksession at 4:13 p.m.

Tuesday – November 27, 2018 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING NOVEMBER, 2018, AS "LOVE ASHEVILLE, BUY LOCAL MONTH"

Councilman Haynes read the proclamation proclaiming November, 2018, as "Love Asheville, Buy Local Month " in the City of Asheville. He presented the proclamation to Ms. Franzi Charen, and others, who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

At the request of Councilwoman Mayfield, Consent Agenda Item "L" was added to the Consent Agenda.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 13, 2018

B. ORDINANCE NO. 4708 - CAPITAL PROJECT BUDGET AMENDMENT ASSOCIATED WITH THE FISCAL YEAR 2018-19 PURCHASE OF TWO

REPLACEMENT FIRE ENGINES

Summary: The consideration of a budget amendment to the Fiscal Year (FY) 2018-19 budget in the General Capital Project Fund to budget $1,222,000 for the purchase of two replacement fire engines to be funded with installment financing proceeds, with the associated debt service to be paid through the City's multi-year capital and debt program.

In January 2018, City Council held a Capital Improvement Program (CIP) work session in which Finance staff presented a high level overview of the draft CIP that was being developed as part of the FY 2018-19 budget process. As a part of that presentation, staff indicated that the core service additions below were included in the draft five-year CIP.

Replacement Fire Apparatus		$2,737,436
Replacement Buses	$15,051,118	
Replacement Buses- Grant Revenue offset	-$12,040,895	
Replacement Buses, net cost		$3,010,223
AFD and APD Facility maintenance		$2,155,000
USCC Water intrusion mitigation		$590,000
Nature Center ADA and paving work		$550,000
Aston Park parking lot expansion		$445,000
Total core service additions to the capital plan		$9,487,659

At the meeting, City Council expressed their support for increasing the core service allocations as presented. The $2.7 million addition to the CIP for replacement fire apparatus was intended to be split across the five-year CIP in the following way:

	FY 2019*	FY 2020	FY 2021*	FY 2022	FY 2023*
Replacement apparatus	$1,442,000	$618,000	$636,540	$1,485,260	$656,896

*Please note - fiscal years shaded in blue represent "new funding" from the table above. As staff moved forward with developing the final CIP that was adopted by City Council in June, the planned investment in replacement fire apparatus was inadvertently not included in the FY 2018-19 Budget Ordinance that was presented and adopted by City Council. The budget amendment will provide the necessary authorization to move forward with the purchase of two fire engines in FY 2018-19. Also, please note that the amount needed for FY 2018-19 has been reduced from $1,442,000 to $1,222,000.

If the Finance and Human Resources Committee approves this item, it will move forward to City Council at its November 27, 2018, formal meeting.

Pros:

- Amends the FY 2018-19 budget to reflect the CIP plan that Council endorsed in January 2018.

- Allows the Fire Department to stay on its planned schedule for replacement of older fire engines.

Con:

- None

As noted above, this budget amendment will provide the necessary authorization to move forward with the purchase of two fire engines in FY 2018-19 with the associated debt service to be paid through the City's multi-year capital and debt program. The cash flows for these purchases are included in the existing capital plan; there is no additional fiscal impact.

City staff recommends City Council approve the budget amendment to the Fiscal Year (FY) 2018-19 budget in the General Capital Project Fund to budget $1,222,000 for the purchase of two replacement fire engines to be funded with installment financing proceeds, with the associated debt service to be paid through the City's multi-year capital and debt program.

ORDINANCE BOOK NO. 32 - PAGE 237

C. RESOLUTION NO. 18-294 - RESOLUTION SETTING A PUBLIC HEARING ON DECEMBER 11, 2018, TO CONSIDER AN ECONOMIC DEVELOPMENT INCENTIVE GRANT FOR BURIAL BEER COMPANY

Summary: The consideration of a resolution setting a public hearing on December 11, 2018, to consider an economic development incentive grant for Burial Beer Company.

City of Asheville has been requested by Asheville-Buncombe EDC for consideration of a performance based incentive grant under the City Economic Development policy to an existing Asheville manufacturing facility, operated by Burial Beer Company. The purpose of the City's participation would be to induce Burial Beer Company to make additional investments in the City for expenditures to acquire and install machinery/equipment, make facility improvements which increase the tax value as determined by the Buncombe County Tax Department in the amount of $1,800,000 and create 17 new median wage jobs (estimated to be $35,000 per year) with benefits. The company is Living Wage Certified. The City of Asheville is considering offering a performance based grant in an amount not to exceed $30,000. North Carolina state law requires a public hearing be held before an incentive grant can be officially awarded.

Pros:

- Performance driven grant that is distributed after job and investment is achieved or mutually agreed performance benchmarks are established;
- Supports capital investment in the City of Asheville;
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of a portion of the new incremental increase from property tax revenue generated by the project for a 5 year period.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive new incremental property tax revenues, as well as the existing property tax revenues from the project. After the grant period of 5 years, the City will henceforth receive 100% capture of all city taxes.

City staff recommends Council approve a resolution setting a public hearing on December 11, 2018, for an economic development incentive grant agreement to support existing industry expansion of Burial Beer Company.

RESOLUTION BOOK NO. 40 - PAGE 195

D. ORDINANCE NO. 4709 - ORDINANCE AMENDING CHAPTER 19 OF THE CODE OF ORDINANCES TO INCREASE THE PARKING FINES FOR STOPPING, STANDING AND PARKING VIOLATIONS

Summary: The consideration of an ordinance to amend Section A of Appendix B (Schedule of Civil Penalties) of the City of Asheville's Code of Ordinances in order to increase parking fines.

Parking enforcement is used to help manage on-street parking throughout Asheville. Most enforcement occurs in the central business district and is handled by the Transportation Department's Parking Services Division. Outside of the central business district, the Police Department is responsible for enforcement. Currently, the Parking Services Division has four Parking Enforcement Officers and one Senior Parking Enforcement Officer that provide the enforcement activities. In the near future, these positions will need to be increased as we consider expanding enforcement hours (for example, 8:00 am until 9:00 pm seven days per week instead of 8:00 am until 6:00 pm six days per week) and meter zones (for example, Biltmore Village, River Arts District, and Haywood Road in West Asheville).

With the exception of fines for Americans with Disabilities Act (ADA) handicapped parking and fire zone violations, parking fines are civil penalties and as a result, the revenues are kept by the city. Fines for ADA handicapped parking and fire zone violations are sent to the Buncombe County and City of Asheville school systems on a monthly basis. The last time parking fines were increased was June 22, 1999 via Ordinance # 2586 with an effective date of July 1, 1999, when parking meter rates were also increased from $0.25 per hour to $0.60 per hour (the current rate is $1.50 per hour). It is now cheaper for someone to take a chance and stay all day at a metered on-street parking space instead of paying a total of $15.00 for the entire enforcement period.

Transportation Department staff are currently working with a parking sub-committee of the Asheville Downtown Commission regarding parking in the central business district. One item that this sub-committee is beginning to review is loading/unloading zones and we have already discussed the importance of changing the fine from $10.00 to $30.00 for loading/unloading zone violations to help minimize the abuse of these zones.

If this action is approved, staff recommends that the effective date for enforcement purposes be February 1, 2019, in order to effectively communicate the changes to the public.

The proposed parking fine increases (E / P) are shown below.

- Overtime parking at metered or non-metered spaces = $10.00 / $20.00
- Second or subsequent violation within a 24-hour period = $20.00 / $40.00
- Loading/unloading zones = $10.00 / $30.00
- All other violations = $10.00 / $20.00

The Parking Sub-Committee of the Downtown Commission reviewed this action on September 4, 2018, and recommended that it move forward to the Multimodal Transportation Commission for review and consideration.

The Multimodal Transportation Commission reviewed this action on September 26, 2018, and recommended that it move forward to the Finance & Human Resources Committee for review and consideration.

The Finance and Human Resources Committee reviewed this action on October 23, 2018, and recommended that it move forward to City Council for review and consideration for approval.

Pros:

- Updates parking fines that were last increased on June 22, 1999
- Establishes a separate fine for parking in a loading / unloading zone
- Helps to minimize parking abuses
- Increases parking fine revenue

Con:

- Increases cost to the parking violator

During a typical year, the Parking Enforcement Officers issue about 20,000 parking citations resulting in gross revenue of $200,000 (before any adjustments are made). For Fiscal Year 2016-17 and 2017-18, the adjusted year end revenues were $173,000 and $167,000 respectively. With the proposed increases in the fine structure, the adjusted year end revenues could conceivably double.

Staff recommends that City Council approve an ordinance amending Section A of Appendix B (Schedule of Civil Penalties) of the City of Asheville's Code of Ordinances in order to increase parking fines with an effective date of February 1, 2019, for enforcement purposes.

ORDINANCE BOOK NO. 32 - PAGE 239

E. RESOLUTION NO. 18-295 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT THE CARBON DISCLOSURE PROJECT'S INVITATION TO PARTICIPATE IN THE 2018 CARBON DISCLOSURE PROJECT MATCHMAKER PROGRAM

Summary: The consideration of a resolution accepting the invitation for the City to participate in the Carbon Disclosure Project (CDP) Matchmaker Program and authorizing the City Manager to execute any and all documents necessary for the City's participation.

CDP is a not-for-profit organization that runs the voluntary global disclosure system for investors, companies, cities, states and regions to manage environmental impacts.

Over the past three years, The City of Asheville's Office of Sustainability has disclosed the City's climate and carbon metrics to the Carbon Disclosure Project global database. CDP selected the City of Asheville based on Asheville's 2017 Cities Questionnaire response, which indicated potential green project(s) in Asheville.

The Matchmaker program offers a deeper dive into developing the Matchmaker model and is supported by Wells Fargo and the National Fish and Wildlife Foundation Resilient Communities Program. CDP will work with cities to increase capacity for U.S. municipal leaders to identify and showcase equitable green infrastructure projects to investors to accelerate project financing.

CDP will partner with a select group of 18 U.S. cities to bring their urgently-needed green infrastructure projects through the Matchmaker service, increasing the quality and design of the projects and building capacity among city and community leaders to accelerate the timeline for their projects to be financed.

Specifically, CDP will work with the cities to:

1. Identify high potential investments in stormwater management, tree canopy and green space projects that help underserved communities build resilience,
2. Build capacity between the cities' sustainability teams and their economic development teams to develop and share more detailed project information than would otherwise be provided, and
3. Standardize project information and make it available on CDP's Matchmaker portal in a way that lays out pertinent information clearly and concisely to investors seeking to finance such projects.

The Office of Sustainability will work with Transportation's Greenway Coordinator and the City's Finance Director to create a proactive, equitable green space project centered around educational outreach and awareness, and to build community resilience in the WECAN Community.

Finance Committee reviewed the request at their October 2018 meeting, and unanimously agreed to forward onto City Council's consent agenda.

Pros:

- Supports the City's Greenway Master Plan
- Supports community resilience through the City's Climate Resilience Assessment
- Supports the City's Sustainability Master Plan
- Supports the City's long range financial goals by aiding in identifying and tracking green projects for bond issues
- Provides training and consulting services at no cost to the City

Con:

- None

There are no direct costs associated with participation in this project.

Staff recommends City Council adopt a resolution accepting the CDP's invitation for the City to participate in the 2018 CDP Matchmaker Program and authorizing the City Manager to execute any and all documents necessary for the City to participate.

RESOLUTION BOOK NO. 40 - PAGE 196

F. RESOLUTION NO. 18-296 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MEMORANDUM OF UNDERSTANDING WITH HOMEWARD BOUND FOR THE DEVELOPMENT OF 29 OAK HILL DRIVE AS SUPPORTIVE HOUSING FOR CHRONICALLY HOMELESS PERSONS

Summary: The consideration of a resolution to authorize the City Manager to sign a Memorandum of Understanding with Homeward Bound of Western North Carolina to create a development plan for 80 units of permanently affordable housing at 29 Oak Hill Drive.

In July 2018, the City acquired a 3.71 acre parcel at 29 Oak Hill Drive using $450,000 of Affordable Housing Bond funds for the purchase. The property is currently zoned RM16. Previous development plans for the site demonstrated that 72 units could be developed but previous owner was unable to secure financing needed for the project.

Homeward Bound of Western North Carolina has emerged to propose development of permanently affordable 80-unit multifamily project at 29 Oak Hill Drive. These units would be targeted to serve chronically homeless adults at or below 50% of Area Median Income (AMI).

These individuals are the City's most vulnerable, high-needs homeless with complex behavioral health concerns. Because they require more intensive housing interventions with on-site supports in order to remain housed, they are typically unable to succeed in traditional, scattered site housing placement.

At its November 15, 2018, meeting, the Housing and Community Development Committee approved a Memorandum of Understanding to detail a planning process by which Homeward Bound of Western North Carolina would create a conceptual site plan, develop building cost estimates and development and operating pro formas, and conduct a public engagement campaign. These activities would commence immediately on City Council's approval and conclude by September 2019. At the conclusion of that process, Homeward Bound would make a specific proposal to the City regarding their plans and the kind of support sought from the City to move the plan forward to implementation.

Pro:

- Provides 80 units of permanently affordable housing for households below 50% AMI; reduces chronic homelessness; environmental remediation of site.

Con:

- Infrastructure and environmental remediation costs.

There is no fiscal impact.

Staff recommends City Council authorize the City Manager to sign the proposed Memorandum of Understanding with Homeward Bound of Western North Carolina to plan for development of the project at 29 Oak Hill Drive.

RESOLUTION BOOK NO. 40 - PAGE 197

G. RESOLUTION NO. 18-297 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM THE FEDERAL EMERGENCY MANAGEMENT AGENCY FOR THE ASSISTANCE TO FIREFIGHTERS GRANT

ORDINANCE NO. 4710 - BUDGET AMENDMENT UTILIZING THE FEDERAL EMERGENCY MANAGEMENT AGENCY ASSISTANCE TO FIREFIGHTERS GRANT

Summary: The consideration of a resolution authorizing the City Manager to accept the Assistance to Firefighters Grant (AFG) and a budget amendment in the City's Special Revenue Fund in the amount of $36,000 to utilize the AFG funds.

On April 10, 2018, City Council passed a resolution to authorize the City Manager to apply for the three Federal Emergency Management Agency (FEMA) grants. One of these grants was the AFG grant.

The AFG program is focused primarily on the equipment required for firefighters to perform their duties in a more safe manner. Items such as Self Contained Breathing Apparatus (SCBA), protective equipment, and items to reduce cancer risks have been focused areas of the program in the past. AFD has applied every year except last year for this grant, but unfortunately we have not been successful. We did not apply last year due to the timing of the application window. However, this year AFD was successful in its application and was awarded $32,728.

The Asheville Fire Department was awarded the grant to provide personal protective equipment washers/extractors and dryers. Currently AFD has 3 extractors & dryers installed across its 12 fire stations. These units are specifically designed to clean soiled firefighter PPE. After a fire incident, 20-30 firefighters will need to clean their gear, currently utilizing the 3 systems that we have in place is a cumbersome task. The grant allows for the procurement of two extractors and two dryers.

The City is responsible for a 10% match of equipment costs which amounts to $3,272. The budget amendment reflects the FY18-19 grant award and match by the City.

This request will be presented to the Public Safety Committee on November 26, 2018 and the Finance and Human Resources Committee on November 27, 2018, and any response other than unanimous approval to move forward to the full City Council will be noted in those meetings.

Pros:

- Firefighter safety would be increased significantly
- AFD would not need to request total funds to be spent fund balance or operating budget for added equipment

Con:

- The City's one time match is $3,272

To receive the funds the City has a one-time match of $3,272 which will be taken from the adopted Fire Department FY 2018-19 operating budget.

Staff recommends City Council authorize (1) the City Manager to accept grant funds from Federal Emergency Management Agency (FEMA) for the Assistance to Firefighters Grant (AFG) and (2) a budget amendment in the City's Special Revenue Fund in the amount of $36,000 utilizing the $32,728 in grant funds and $3,272 in operating funds.

RESOLUTION BOOK NO. 40 - PAGE 198
ORDINANCE BOOK NO. 32 - PAGE 241

H. RESOLUTION NO. 18-298 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM THE FEDERAL EMERGENCY MANAGEMENT AGENCY FOR THE STAFFING FOR ADEQUATE FIRE AND EMERGENCY RESPONSE GRANT

ORDINANCE NO. 4711 - BUDGET AMENDMENT UTILIZING THE FEDERAL EMERGENCY MANAGEMENT AGENCY TO FULLY BUDGET THE STAFFING FOR ADEQUATE FIRE AND EMERGENCY RESPONSE FUNDS AND THE CITY'S THREE-YEAR GENERAL FUND MATCH

Summary: The consideration of a resolution authorizing the City Manager to accept the Staffing for Adequate Fire and Emergency Response Grant (SAFR) and a budget amendment in the City's Special Revenue Fund in the amount of $1,302,031 to fully budget the SAFR funds and the City's three-year General Fund match.

On April 10, 2018, City Council passed a resolution to authorize the CIty Manager to apply for the three Federal Emergency Management Agency (FEMA) grants. One of these grants was the SAFR grant.

The SAFER program is designed to help fire departments hire and retrain additional firefighters to provide for a safer emergency scene. Multiple studies over the past 10 years have shown that the overall effectiveness of emergency scene operations increase significantly as minimum fire company staffing increases up to a level of 4 firefighters per company. AFD has also applied for this grant every year it has been available, but our applications were at the bottom of those considered over the past few years as agencies that were confronted with reducing staffs were a priority for consideration.

The Asheville Fire Department was awarded the grant to provide funding for nine firefighters for a total of $1.3 million. The grant awards funding for the compensation and benefits of nine firefighters over this fiscal year and the following two fiscal years. In the current fiscal year, the federal grant funds are 75% of the total compensation and benefits and amount to $325,505.25. The City is responsible for a 25% match of compensation and benefits which amount to $108,501.75. In the second year, the grant funds 75% of the salary and benefits for the nine firefighters to equal $325,505.25. In the third year, the grant funds 35% of the salary and benefits for the nine firefighters to equal $151,902.45. The table below illustrates the amount of the funding sources throughout the life of the grant.

	FY 18-19	FY 19-20	FY 20-21	Total
Grant Funds	$325,505.25	$325,505.25	$151,902.45	$802,912.95
City Funds	$108,501.75	$108,501.75	$282,104.55	$499,108.05
Total	$434,007	$434,007	$434,007	$1,302,021

The budget amendment in the Special Revenue Fund reflects the full grant award and match from the City over the three year grant period. The City's match of $108,501.75 for this fiscal year will come from the Department's current overtime compensation budget. Savings in the Department's overtime budget will help to offset the costs of the City's match. For the remainder of the grant period, the Department and the Budget office will include the City's General Fund match as part of each year's annual budget process.

This request will be presented to the Public Safety Committee on November 26, 2018 and the Finance and Human Resources Committee on November 27, 2018, and any response other than unanimous approval to move forward to the full City Council will be noted in those meetings.

Pro:

- Firefighter and Citizen safety would be increased significantly

Cons:

- The City's match is $499,108.05
- Added outfitting and equipment costs to be realized in this fiscal year's operating budget
- Grant funding ends after FY20-21

The City's total share over the three year period will be at least $499,108.05. Furthermore, the Asheville Fire Department will utilize already budgeted funds in the General Fund to outfit and equip the nine new firefighter recruits. The grant does not require the City to maintain the higher level of staffing after year three. If Council direction at year four was to continue the higher staffing level, the City would be responsible for the full cost of the nine positions. If the direction was to return to current level staffing after year three, the firefighters

hired under the grant would be reassigned within the department and normal hiring in year four would be curtailed, with no ongoing staff or financial impact.

Staff recommends City Council authorize (1) the City Manager to accept grant funds from Federal Emergency Management Agency (FEMA) for the Staffing for Adequate Fire and Emergency Response (SAFR) Grant and (2) a budget amendment in the City's Special Revenue Fund in the amount of $1,302,021 to fully budget the SAFR funds and the City's three-year General Fund match.

RESOLUTION BOOK NO. 40 - PAGE 298
ORDINANCE BOOK NO. 32 - PAGE 243

I. ORDINANCE NO. 4712 - BUDGET AMENDMENT FROM UNC-ASHEVILLE FOR THE ASHEVILLE FIRE DEPARTMENT TO PROVIDE EMERGENCY STANDBY

Summary: The consideration of a budget amendment authorizing the City Manager to receive reimbursement funds from UNC-Asheville in the amount of $153,000 in the General Fund budget for the reimbursement.

The City was requested by UNC-Asheville for emergency standby to allow residents to occupy their residence halls until the university was able to address fire safety concerns. This amount represents the actual cost to the City in the form of overtime compensation and benefits.

Pro:

- Receiving reimbursement funds will reduce the impact this assignment had on the fire department's overtime compensation budget.

Con:

- None Identified

Upon City Council approval, a budget amendment will be made in the current fiscal year to accept this reimbursement and reduce the overtime impact to the Asheville Fire Department in the amount of $153,000.

Staff recommends City Council adopt the budget amendment authorizing the City Manager to receive reimbursement funds from UNC-Asheville in the amount of $153,000 in the General Fund budget for the reimbursement.

ORDINANCE BOOK NO. 32 - PAGE 245

J. RESOLUTION NO. 18-299 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM FM GLOBAL FOR THE REPLACEMENT OF THE SPARKY THE DOG COSTUME

ORDINANCE NO. 4713 - BUDGET AMENDMENT FOR THE REPLACEMENT OF SPARKY THE DOG COSTUME

Summary: The consideration of a resolution authorizing the City Manager to accept the FM Global Fire Prevention Grant and a budget amendment in the City's General Fund in the amount of $2,832 to utilize the grant funds.

On March 27, 2018, the Finance and Human Resources committee made a motion to allow the Asheville Department to request an FM Global Fire Prevention Grant to purchase a new

Sparky the Fire Dog Costume, and FM Global has awarded the City of Asheville the funds to complete the purchase of the costume.

"Sparky the Fire Dog" is the official mascot of the National Fire Protection Agency (NFPA). Fire and life safety educators across the country use "Sparky the Fire Dog" to help engage and educate preschool and elementary school children about fire prevention. The "Sparky the Fire Dog" costume currently used by the Department is over 20 years old with much wear and tear. Furthermore, the currently used costume is an outdated version of Sparky and does not look like the official mascot which is used by NFPA in all of the educational material and outreach material provided by NFPA. Funding from the grant, if received, would allow the purchase of the a new costume as outlined by the National Fire Protection Agency guidelines.

Pros:

- The Department will have an updated, safe "Sparky the Fire Dog" costume to continue its fire and life safety education and training.
- The City will not be responsible for supplying matching funds.

Con:

- None identified

The costume purchase will be fully funded by the grant proceeds. There is no match for the grant. There is no impact to the City's General Fund budget.

Staff recommends City Council authorize (1) the City Manager to accept grant funds from FM Global and (2) a budget amendment in the City's General Fund in the amount of $2,832.

RESOLUTION BOOK NO. 40 - PAGE 247
ORDINANCE BOOK NO. 32 - PAGE 200

K. ORDINANCE NO. 4714 - BUDGET AMENDMENT FROM INSURANCE RECOVERY FUNDS FOR A DAMAGED SANITATION VEHICLE

Summary: The consideration of a budget amendment in the Property & Liability Fund in the amount of $97,602.50 from insurance recovery funds, and pay the $100,000 deductible towards repair costs for a damaged sanitation vehicle.

On June 20, 2018, a City of Asheville (City) sanitation vehicle (Vehicle) was involved in a motor vehicle accident resulting in significant damage. Initial estimates to repair the Vehicle total $216,593.91 - $18,991.41 depreciated value = net repair costs of $197,602.50. The City filed a damage claim with the City's insurance carrier (Carrier) for the associated repair costs, above the City's deductible limit of $100,000 for vehicles valued above $250,000.00 and the Vehicle's current market value is $279,000. The Carrier determined the vehicle is repairable and issued partial payment to the City for said repairs in the amount of $97,602.50. Upon completion of the Vehicle repair, the City will file a claim for the $18,991.41 depreciated value withheld as City vehicles and equipment valued over $250,000 are insured for replacement cost. Currently, the Vehicle is awaiting repairs at an approved body shop and the City must purchase a new vehicle chassis prior to repairs are initiated on the Vehicle's body.

Pro:

- Provides funding to repair damaged City asset, less the deductible.

Con:

- None.

Upon City Council approval, expend $100,000 self-insured deductible from the City Property & Liability Fund and $97,602.50 received in insurance recovery funds and deposited into the City's Property & Liability Fund to utilize for Vehicle repairs.

City staff recommends City Council adopt the budget amendment in the Property & Liability Fund in the amount of $97,602.50 from insurance recovery funds, and utilize the $100,000 deductible towards the Vehicle repair.

ORDINANCE BOOK NO. 32 - PAGE 249

L. RESOLUTION NO. 18-300 - RESOLUTION REGARDING THE N.C. DEPT. OF TRANSPORTATION I-26 CONNECTOR TIP PROJECT -2513

Summary: "WHEREAS, the North Carolina Department of Transportation ("NCDOT") has recently issued maps that depict the design and impacts of the I-26 Connector Project, TIP Project I-2513 ("the project"); and WHEREAS, NCDOT is seeking public input on the maps at a public hearing to be held on December 4, 2018; and WHEREAS, the City of Asheville is providing comments to NCDOT on the maps through this resolution; and WHEREAS, the City of Asheville and NCDOT have worked together in the I-26 Working Group since 2016 to address a range of issues raised in Resolution 15-232, adopted by City Council on December 8, 2015; and WHEREAS, the City of Asheville appreciates the collaboration and hard work that NCDOT has put into the I-26 Working Group and NCDOT's willingness to adopt several changes to the project; and WHEREAS, the maps reflect a number of improvements to the project sought by the City of Asheville as a result of the I-26 Working Group's efforts, including a reduction in the overall size and impact of the project on neighborhoods and businesses in West Asheville due to the selection of a six-lane alternative for I-240, an improved Brevard Rd-Amboy-Rd interchange, and other design improvements that have reduced the number of houses and businesses taken by close to 50; and WHEREAS, other improvements include improved community connectivity through new and expanded bicycle and pedestrian infrastructure throughout the project corridor that will better and more safely connect people to downtown, West Asheville, the French Broad River, and numerous neighborhoods; and WHEREAS, there remain outstanding design elements along the Patton Avenue Corridor and the Jeff Bowen Bridge yet to be adopted by NCDOT that are reflected in a memo dated September 19, 2018 from Sam Schwartz Consulting LLC to Ken Putnam (the "Schwartz Memo"); and WHEREAS, securing NCDOT's commitment to incorporate the designs advanced in the Schwartz Memo is critical to achieving the City of Asheville's long-standing goal of turning the Patton Avenue Corridor into a dense, urban, multi-modal, mixed-use corridor; and WHEREAS, there remain other opportunities to tighten the footprint of all intersections between surface roads and the interstate throughout the project in order to make roads safer for cyclists and pedestrians and to possibly further reduce impacts on homes and businesses; and WHEREAS, the City of Asheville seeks a continued close working relationship with NCDOT and its design-build contractor on the ongoing design of this project and appreciates NCDOT's commitment to that ongoing relationship; NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: (1) The City of Asheville calls on NC DOT to adopt and incorporate into the final maps and Final Environmental Impact Statement the City's desired designs for the Patton Avenue Corridor and Jeff Bowen Bridge as reflected in the Schwartz Memo; and (2) The City of Asheville further calls on NCDOT to support the City's acquisition of available right of way in the Patton Avenue Corridor to further the redevelopment of that corridor as envisioned by the City; and (3) The City of Asheville further calls on NCDOT and its future design-build contractor to continue efforts to tighten the footprint of intersections throughout the project corridor."

Councilwoman Mayfield reminded Council that the NCDOT is holding a public hearing next week on the newest version and close-to-final maps for the I-26 Connector Project. The

other public hearing will be held early in 2019. Council thought it would be appropriate to make public comment on the maps, so this resolution will reflect the City's comments. She then reviewed the resolution. She thanked the NCDOT for working with the City, addressing a lot of the concerns and making a lot of the changes we asked for. But, now we are asking them to make this final set of changes as part of this project so that the City can really realize the full vision for this corridor and so that this project can fully benefit the people who live here opposed to those who are travelling through.

RESOLUTION BOOK NO. 40 - PAGE 201

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. HEALTH ENGAGEMENT LEADING TO PREVENTION

Mr. Kevin Rumley, Coordinator for the Buncombe County Veterans Treatment Court, and Ms. Kathey Avery, Project Manager representing the Health Engagement Leading to Prevention (HELP) reviewed the following PowerPoint. Interdisciplinary collaboration includes (1) The HELP Team includes physicians, clinicians, and allies from different realms of community service; (2) The HELP Team unites under the shared banner of health promotion to support our aging community; and (3) Empowering community members to become agents-of-change in their neighborhood. She then introduced the HELP Team.

Our homeless population are being found affordable housing, which addresses their immediate situation/needs, but we fail to provide follow-up support, nor address the chronic determinants that led to their homelessness. This generates what we call "a revolving door syndrome." Many homeless individuals live with severe mental, substance misuse and multiple health issues. Some individuals have significant cognitive and physiological dysfunctions that inhibit their capacity to successfully navigate important decisions. These contributing factors negatively impact all strata of their lives. Other residents that live in these complexes are the aging and elderly who need increased assistance with affordable housing, and/or who are disabled (who also need financial assistance.) These low-income affordable housing complexes serve as home to a mixture of our community's most high-need and high-risk populations. Despite these challenges, we find that the existing support is not adequate. This is an overwhelming situation for both the residents who are suffering and for the management of the housing developments and apartment complexes where they reside. Arrowhead Apartments is our pilot community. It is HUB subsidized; elderly - 62 and over; individuals with disabilities; increase in formerly homeless population moving in (1) untreated mental illness and substance abuse; (2) lack of "life skills" to maintain housing; and (3) no constant follow-up/case management by agencies that assist with placement.Asheville Terrace Apartments - Asheville Housing Authority community - a public housing community with all units dedicated to adults 65+ years of age and adults with disabilities.

With a problem as big as this, how does a small team generate change? As clinicians and community-based practitioners (HELP), we train community members to serve as health workers in their own communities. We empower the residents of Asheville Terrace and

Arrowhead to address their self-identified needs, and facilitate change/health-promotion from within (not externally). We empower training of the service coordinator, community health workers and volunteers. All of us deserve to live in a long and healthy life in a safe environment. To make this happen we must be willing to tackle the root causes of poor mental, and physical health among individuals within these communities. It takes a community.

Next steps include (1) create/implement a manualized training protocol (State supported) for Community Health Workers, with support from SCSEP; (2) pursue grant funding that pay for trainings (Train the Trainers, etc.); (3) explore grants with HUD; and (4) working in our "fields" to empower community members to address/support their self-determined community needs. Sustained and long-term interventions are critical to promote long-term health outcomes - fostering greater equity, connection and safety for everyone.

B. RESULTS OF DISPARITY STUDY

Neighborhood & Community Engagement Manager Brenda Mills said that BBC Research & Consulting will be presenting draft results of the Disparity Study for Fiscal Years 2012-2017 and recommendations for next steps in the program.

The Disparity Study Project included:

- Study of the City's contractual awards in construction, goods, services, architectural and engineering services for the period FY11 through FY2017.
- Determination of the effectiveness of the current program and recommending modifications and adjustments, if necessary, that are in compliance.
- Provide current legal guidance not only relative to new legislation, policies and procedures to meet any constitutional mandates, but also the programmatic needs of the constituencies of the City.

Draft results are scheduled to be provided to the public on November 28 to provide results to the community.

Pros:
- Study will replace outdated disparity study completed in 1993.
- The project will result in an updated Minority & Women Business Plan that is up to date with all current legal requirements and best practices.

Con:
- Implementation of the recommendations will require staff time to consider next steps.

The cost of the Disparity Study was $319,948 and was funded in a prior year's budget. There is no direct fiscal impact associated with the action of accepting the results of the study.

City staff will return to City Council for adoption of an updated Minority Business Program Plan which will include these results.

Ms. Mills then introduced Mr. Sameer Bawa, Managing Director of BBC Research & Consulting, who provided the results of the Disparity Study, who reviewed the objectives, study tasks, utilization analysis and results, availability analysis and results, disparity analysis, and results on all contracts and industry. His final key considerations include contract notification; local participation; prompt payment; contract-specific goals; and annual goal-setting.

Ms. Mills responded to Councilwoman Smith regarding our contract notification process.

Councilman Young gave a brief history of how the disparity study came about. When he suggested the disparity study be relocated to the Equity & Inclusion Department and research who it should report directly to, Acting City Manager Ball proposed deferring this suggestion to the new City Manager.

C. UPDATE ON TRANSIT MANAGEMENT COMPANY

Assistant Director of Transportation Jessica Morriss updated Council on (1) the new buses as follows: (a) Five New Proterra electric buses arriving between December and late February - 3 will arrive in mid december and the final 2 will arrive in late February; (b) RATP Dev staff, including drivers and mechanics will receive training on operating and maintaining the new buses between the arrival of the first 3 buses and revenue service, which is expected in March; (c) Training will include "shadow service" where drivers will practice routes with new buses while following regular buses, so they will be seen on the road before they will be put in use for the public; and (d) The five new buses will allow for us to put some of the older buses on reserve to act as spares; (2) a bus fire (a) On that note, the bus that caught on fire on Sunday, October 28th was our 2nd oldest bus and was expected to be put into reserve with the arrival of the new buses. There were no passengers on board at the time of the fire and the driver of the bus was able to pull off the road and exit the bus quickly. The cause of the fire is still unknown, but is currently being investigated by both the city and RATP Dev. We will keep the Transit Committee and the Council updated when new information becomes available; (3) Transit App and Staffing (a) The new Transit App, called Transit App, is up and running and we are now pushing out real-time information on bus locations through the app and through Google; (b) We are also now able to post status alerts about detours or service interruptions through the various apps and we are working with the Community and Public Engagement Division to identify ways to increase our communications reach; and (c) We have recently hired a new Transit Projects Coordinator, Marcela Moreno, who started in early November. This is a new position that was approved for this fiscal year. The Transit Planning Manager position is still being advertised; (4) Construction (a) We have two major construction projects that are coming up for the ART Station downtown. One is to replace some of the underground utilities at the station and the 2nd is the renovation of the station itself, which will include signage improvements, improvements to the restrooms and waiting room, and improvements to the dispatch room and driver breakroom. These are expected to occur in the early spring assuming that we receive bids within the budget; and (b) Bond bus shelters - Staff has completed the installation of 15 bus shelters as part of the bond project and is expected to put a bid out for another 10 shetlers in the coming weeks; and (5) Current Focus (a) Current focus is preparing for the new Proterra buses, including getting them here, getting chargers installed, and organizing training; (b) For operations, staff is focused on working with the management company to reduce early departures and increase bus stop and ART station maintenance; and (c) Most importantly, staff is looking at funding for future expansion as recommended in the Transit Master Plan adopted in July. The 1st year recommendations for the Transit Master Plan propose a 40% increase in service starting July 1st 2019, including new routes, increased frequency and extended service hours. Additional Operational funding in the range of $2.5 to $3 million annually will be necessary in order to implement the recommended service improvements. Additionally, in order to expand service this significantly by July 1st, RATP Dev would need to begin hiring additional staff in February of the coming year, which is prior to the Council budget process, therefore staff would like to discuss the timing and funding of service expansion with the council in the near future.

ART General Manager Joe Brooks updated the Council as follows: (1) we are currently fully staffed in maintenance with mechanics and mechanic helpers. This has allowed us to institute 3 shifts in our Maintenance Department; (2) we have 22 buses (Bus fire has been subtracted). We have 2 buses that need engine rebuilds (Bus 0602 which has 737,328 miles and Bus 1022 which has 353,292 miles). We are using our outside vendors to repair these buses. We are currently using two 12 passenger ADA cutaway buses to help with service; (3) the Transit

Center is cleaned 3 times a day, once in the morning, afternoon, and in the evening. If there is an issue in between these times, we will send someone there for cleanup; (4) We have cut down the missed trip considerably from 539 in July to 55 in August, 34 in September, and 25 in October; and (5) we have made strides with keeping the Union informed on progress through the system. I meet with the Union President the second Wednesday of the month, We have an employees meeting on the second Wednesday of the month, and we meet with the Union the fourth Wednesday of the month.

Mr. Brooks, along with Ms. Morriss, responded to various questions from Council, some being, but are not limited to, have there been any missed trips in the past three months due to the lack of spare buses; what is the benefit of the new Transit App; what is the status of the sign at the ART Center showing the bus schedule that is out of service; and what has been the solution to the bed bug problem on a bus.

D. FINANCIAL UPDATE

Summary: The financial information in this report reflects the City's overall financial position for the fiscal year through September 2018.

Amendments. There was only one budget amendment in the General Fund during the first quarter. The chart below shows that addition to the Adopted General Fund Budget.

Adopted General Fund Budget:	$124,394,311
Amendments:	
Repair Flood Damage at Recreational Facilities (Fund Balance)	$1,205,000
Amended General Fund Budget 9/30/2018	$125,599,311

Revenues. It is important to note that per North Carolina State accounting guidelines, the City accrues 90 days of revenue received from the State to the fiscal year that ended June 30, 2018. These revenues include sales and use taxes, utility taxes and ABC revenue received through September 30, 2018. As a result, first quarter estimates for these revenue for fiscal year 2018-19 are based on historic trends and economic forecasts.

Through September 30, 2018, the City has collected $11.1 million in General Fund revenue, which represents approximately 9% of the amended General Fund revenue budget. With so little collection data available through the first quarter, staff bases most of its FY 2018-19 revenue projections on prior year results and multi-year trends. Property and sales taxes make up over 70% of total General Fund revenue, and staff is currently projecting both of these revenues will end the year very close to budget estimates. Overall, Budget staff is currently projecting that ***FY 2018-19 General Fund revenue will finish the year at $124.4 million, which is $622,000 or 0.5% above the amended budget.***

Expenditures. General Fund expenditures through September 30, 2018 totaled $28.8 million or 23% of the amended budget, which is typical for this point in the fiscal year. Personnel expenses, the largest component of the General Fund budget, are on budget through the first

quarter. Overall, staff is projecting that ***FY 2018-19 expenditures will finish the year at $124.7 million.***

Fund Balance. The City began FY 2018-19 with an unassigned fund balance of $18.2 million, after subtracting out the $639,000 fund balance appropriation included in the adopted budget. Unassigned fund balance equated to 14.6% of the adopted FY 2018-19 budget. After the start of the fiscal year, City Council approved the additional $1,205,000 fund balance appropriation noted above. This additional appropriation is reflected in the amended 9/30/2018 budget, which shows an unassigned fund balance of $17.0 million or 13.5% of budgeted expenditures, 1.5% below Council's adopted 15% requirement. ***Based on current revenue and expenditure projections for FY 2018-19, staff is forecasting unassigned fund balance at June 30, 2019 will be $18.5 million or 14.8% of estimated expenditures. This is a preliminary estimate and staff will continue to closely monitor revenues and expenditures.***

As with projected revenues through the first quarter, the estimate for fund balance is based on historical trends and forecasting. While an early estimate is provided, it is important to understand that there is minimal performance data available as of September 30. Forecast confidence will increase when second quarter results are available and current estimates have been borne out by actual financial performance. Any budget amendments after September 30 that use fund balance will decrease this estimate as will changes in the revenue and expenditure performance. A fund balance below the 15% policy benchmark in a quarterly report does not necessarily indicate that the City will end the fiscal year below Council's fund balance policy; however, any additional allocations of fund balance will increase the likelihood that the end of year fund balance will be below the Council policy percentage.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. ORDINANCE NO. 4715 - ORDINANCE REGULATING THE USE OF E-SCOOTERS WITHIN CITY LIMITS

Transportation Director Ken Putnam said that this is the consideration of an ordinance adopting Chapter 19, Article I, Section 19-16 of the Code of Ordinances of the City of Asheville, regarding the use of e-scooters within the City.

Electric scooters, commonly called "e-scooters," have increased markedly in popularity over the past several years, with the emergence of e-scooter share programs greatly increasing the use of the devices since January 2017. As seen across the country, some of the companies operating e-scooter shares initially begin operating their systems without receiving appropriate permissions from local jurisdictions, whether through permits or licenses, and do so often without warning.

City Transportation Department staff commissioned a bike share study in mid-2017 which has been underway and originally did not include analysis or consideration of e-scooters. In September of 2018, staff determined that it was necessary to add e-scooters to the scope of the study, given that their popularity across the country was growing substantially and other North Carolina cities were currently either actively piloting e-scooter share programs or considering them. Additionally, many companies that offer bike shares also operate e-scooter share programs.

At the October 24, 2018, Multimodal Transportation Commission (MMTC) meeting, staff discussed the desire to add e-scooters to the scope of the bike share study and to postpone the release of the draft study in order to have additional opportunity to analyze potential e-scooter use in Asheville, as well as conduct additional public outreach. The MMTC supported the proposed addition of e-scooters to the study. Later the same evening, staff learned that the company Bird was planning to launch an e-scooter share operation in Asheville the next morning. Bird did not notify the City, nor pursue appropriate permits or licenses, and deployed approximately 200 e-scooters in downtown on October 25, 2018.

City staff contacted Bird immediately requesting that they cease operations due to public health, safety, and welfare concerns regarding their use, as well as the company's violation of several existing ordinances concerning the use of public right-of-way. Staff collected and stored the e-scooters, which representatives of Bird retrieved later the same evening. Despite verbally agreeing to postpone operations until the City determined next steps, Bird redeployed e-scooters Saturday, October 27th, at which time City staff again collected and stored the e-scooters.

While research into this relatively new form of transportation is limited, a 2017 Israeli study, published in the Journal of Traffic Injury Prevention, found a prevalence of e-scooter related injuries in that country, and raised questions regarding "the social and economic advantages of electric-powered 2-wheeled vehicles." Domestically, doctors at the following hospitals have raised concerns regarding the unregulated use of e-scooters: Cedars Sinai Medical Center, Zuckerberg San Francisco General Hospital, University of Utah Health, Eskenazi Health, Scripps Mercy Hospital, and the UCLA Medical Center. Taken together, the City's Transportation department believes that the unregulated use of e-scooters within City limits poses a threat to public safety.

Additionally, e-scooter share and/or rental programs rely on public sidewalks as the means of transfer of the vehicle from one rider to another. From the short time Bird was operating in Asheville, and based on the experience of other cities, it appears that without proper regulation, e-scooters will be left on the sidewalks in a manner that blocks the public right of way, poses a tripping hazard, and makes City sidewalks less safe for pedestrians.

The action proposed for City Council consideration is an ordinance that seeks to postpone the operation of any and all e-scooters, whether operated by a company or by an individual, within the City of Asheville until such time that the City Council may decide to allow and regulate them in a manner that seeks to ensure the public health, safety, and welfare of its citizens.

Transportation staff expects to complete the bike and e-scooter share study in early 2019, which will provide broad recommendations for the City to consider in terms of the regulation and permitting/licensing of bike and/or e-scooter share operators and the use of the vehicles themselves within the public right-of-way. Staff expects to simultaneously begin developing more detailed regulatory and policy recommendations for consideration that could be included in a Request for Proposals and subsequent permit/license application for bike and/or e-scooter share operators.

Pros:

- Will provide the City with time to review the results of its pending bike-share/e-scooter feasibility study before e-scooters are allowed to go into use.
- Will prevent the unregulated use of e-scooters from jeopardizing public safety if and until a more comprehensive regulatory scheme may be put in place with respect to e-scooters.

Con:

- Delays the use of e-scooters as a mode of transportation within the City.

While the proposed ordinance provides for a $100 fine per violation, it is unknown how many such fines might be assessed under the ordinance.

Staff recommends that City Council adopt the proposed Chapter 19, Article I, Section 19-16 of the Code of Ordinances of the City of Asheville.

Interim City Attorney Rockoff clarified that the ordinance does not require the fine to be paid in order for the e-scooter to be picked back up. It's a civil fine. If the e-scooter is taken, the owner can pick it up within 30 days. If they don't pick it up within the 30 days, it will be disposed of as abandoned property.

Mr. Jeff Kaplan supported the use of e-scooters as they will be employing people who live here and they can show others what startups are possible. He felt we need to be a progressive city.

Ms. Christy Winer felt the company is the only one who should pay a fine because it's not fair to fine the citizens and visitors for riding one because they may already have this program where they live.

Mr. Peter Landis felt we need to study this issue from a safety standpoint.

Mayor Manheimer said it is difficult to work with a company that won't honor their word. She agreed that the future will look different in terms of transportation and we are trying to be thoughtful on how to get there. She personally expressed to Bird that Asheville is not interested in another company here using our community for their purpose. If they have something to benefit our community then we might be interested.

Councilman Young felt we need to see how we can integrate these type services into our community and the study will help us get a handle on how to move forward.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4715. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 251

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

On behalf of City Council, Mayor Manheimer thanked Acting City Manager Cathy Ball for stepping up into the interim City Manager role. Because Council moved Ms. Ball into that interim position, she also thanked all the interims for shifting into their roles as well.

Ms. Dee Williams was not surprised about the disappointing numbers on the disparity study suggested a performance matrix to make sure that staff is working to meet those goals.

Ms. Delores Venable hoped that we move forward with a vision the people worked for with the appointment of a new Police Chief and with the implementation of new policies and procedures.

Ms. Ashley Cooper felt we need to work together for long-term plans to bridge the equity gap in our community. The oversight element is essential.

Ms. Christy Winer was frustrated that the Bowen Bridge closure/work has not been completed yet. Mayor Manheimer said that that is an NCDOT Project but the City is helping them with their communication plan. We will get an update from them and update our website.

Mr. Jonathan Wainscott spoke about district elections and how the lines do not create racial gerrymandering.

When Mr. Tony Walker spoke about job mistreatment as a contract employee, Acting City Manager Ball said that she would investigate his concern.

Mr. Reid Thompson was concerned about the lack of equity of enforcement on Maxwell Street.

Rev. Amy Canrell commented on the substantial disparity shown in the disparity study and asked Council for substantive action. She also asked for resources to fund the Transit Master Plan.

Closed Session

At 7:02 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit in the matter of custodial law enforcement recording sought by the City of Greensboro; and PHG Asheville, LLC vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:29 p.m., Mayor Manheimer to come out of closed session. This motion was seconded by Councilman Kapoor and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:29 p.m.

Magdalen Bowleson
CITY CLERK

Esther G. Manheimer
MAYOR

Tuesday – December 11, 2018- 3:00 p.m.

Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; and Deputy City Clerk Sarah Terwilliger

We have started the budget process differently this year by sharing with Council and the public detailed budget information for each department earlier in the process. Asheville has unique challenges around its cost of living, demographics, affordable housing, as well as significant daytime growth in the city population. At this worksession, Council will continue to hear about how these challenges are impacting departmental budgets. Council will also continue to hear about the impact of the national economy on the City as an employer, and also hear about our focus on equity and how that is changing our service delivery models.

The City also continues to experience significant community interest in planning and zoning as we address growth and the impact of non-residents. All of these and other factors demand changes in how services are delivered, in the kind of technology and the equipment needs that exist. Keeping pace with changes in these areas allows us to have the best facilities and equipment to provide quality services to our residents and visitors.

As important as our facilities, equipment and technology needs are, people are still the organization's most important resource. The people we hire here are integral to quality of the service delivery. Throughout the presentations last month, we noted that a large part of the budget is dedicated to the employees who provide the services.

Department Directors from the Community & Economic Development Department; the Transportation Department; and the Water Resources Department each reviewed their organizational chart; overview of core services; key partners; budget and Fiscal Year 2018-19 budget drivers; prior year spending trends; Fiscal Year 2018-19 budget changes; department challenges; and Fiscal Year 2018-19 department goals from their respective department.

Various staff responded to several questions/comments raised by Council, some being, but are not limited to: further explanation of the US Cellular Center Fund prior year trends; how do we examine (i.e., metrix, benchmarks, etc.) the effectiveness of the $100,000 contribution through the Chamber for the Economic Development Coalition; how much, if any, does Buncombe County participate in the Economic Development Coalition; request for profit and loss reporting functions for the Sports Commission and how the $45,000 helps the U.S. Cellular Center; what are the other sources and level of funding for the Economic Development Coalition; further explanation on economic incentive encumbrances; how many economic incentive grants are outstanding; what are we doing to address barriers to attracting entities relating to jobs and increase wages; how effective has the Economic Development Coalition been in bringing in higher wage jobs; update on Code Purple; clarification that if we transfer street lights back to Duke Energy, we will be saving maintenance costs not the power bill; are we maxing out what we can transfer from the Park Fund to Transit; what can citizens do regarding speeding in the neighborhoods and large trucks prohibited but still using neighborhood streets; are we still meeting the transit system certification standards and do we have any plans to get recertified; what is the City's relationship with the Conservation Trust of NC, Council of Independent Business Owners, and Riverlink regarding water; do we do all chemical testing for water in-house; confirmation that the Water Resources Department working with the Sustainability Office in looking for both renewable and efficiency options for electricity; and what is our current water loss rate.

For those questions not readily answered, and for any additional questions Council members submit, they will be provided to Council via a memorandum.

Mayor Manheimer and City Manager Campbell explained how the City continues to try to get the community engaged in the budget process.

Mayor Manheimer adjourned the worksession at 4:20 p.m.

Tuesday – December 11, 2018 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 27, 2018

B. RESOLUTION NO. 18-301- RESOLUTION ADOPTING THE 2019 CITY COUNCIL MEETING SCHEDULE

RESOLUTION BOOK NO. 40 - PAGE 203

C. RESOLUTION NO. 18-302 - RESOLUTION AUTHORIZING THE TRANSFER OF HOUSING TRUST FUND SECURITY INTEREST FROM 444 BEAUCATCHER ROAD TO THE CHAPEL PARK/MARIGOLD PROPERTIES

Summary: The consideration of a resolution authorizing the transfer of Housing Trust Fund Security Interest from 444 Beaucatcher Road to Marigold/Chapel Place Properties.

Beaucatcher Commons LLC borrowed $200,000 from the Housing Trust Fund (HTF) in November of 2010 to build 12 units of new affordable housing at 444 Beaucatcher, at 2% interest payable over 30 years. These units are made affordable to households at 60% AMI for a period of 30 years. The loan has been paid on a timely basis, and has a current principal balance of $166,219.19.

The developer has an opportunity to refinance the first mortgage on that property through the Freddie Mac Small Balance Fixed Loan program. This loan is a no-recourse loan and has a

fixed rate for 10 years and is amortized for 30 years. There can be no subordinate financing on the property which is the reason for the request to transfer the city's loan to another property. Therefore, Beaucatcher Commons has requested that the loan balances and security for the 444 Beaucatcher Property be transferred to the Marigold Street/Chapel Park Place loan.

The developer borrowed $150,000 from the HTF in June of 2013 to create a total of eight affordable units on Marigold Street and Chapel Park Place. $75,0000 was interest only at 2%, the other $75,000 was fully amortized over a 30 year term. There is a current total loan balance of $69,246.79 on the second loan. The Beaucatcher loan would then be added to those two loans as the total due of loans secured by the Marigold/Chapel properties.

The Housing & Community Development Committee approved this request on November 15, 2018.

Pros:

- The proposed interest transfer helps secure operating cost reducing refinancing on a property available to those with incomes under 60% of AMFI.
- The release of the security on the 444 Beaucatcher Road property would not release the affordability restrictions on that property, which will be in effect until 2041.

Con: None.

There is no fiscal impact associated with this action.

Staff recommends City Council approve the Beaucatcher Housing Trust Fund Security Interest transfer and authorize the City Manager to sign all documents necessary to give effect to this transaction.

RESOLUTION BOOK NO. 40 - PAGE 204

D. ORDINANCE NO. 4716 - BUDGET AMENDMENT IN EACH OF THE CITY'S ANNUAL OPERATING FUNDS TO APPROPRIATE FROM RESTRICTED AND ASSIGNED FUND BALANCE THE REQUIRED BUDGET AUTHORIZATION FOR PRIOR YEAR CONTRACTS, PURCHASE ORDERS, AND OTHER CARRY-OVER APPROPRIATIONS THAT ROLLED FORWARD TO FISCAL YEAR 2018-19

Summary: The consideration of a technical budget amendment in each of the City's annual operating funds to appropriate from restricted and assigned fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to Fiscal Year (FY) 2018-19.

As part of its ongoing operations, the City enters into various contracts and purchase order agreements throughout the fiscal year. When these contracts and purchase orders are entered into, budget funds are encumbered for the full amount of the expected purchase. Often these contract and purchase orders are not fully completed and paid in one fiscal year. North Carolina General Statutes provide authorization for local governments to reserve the unexpended portion of these prior year commitments and roll those budgets forward to the new fiscal year.

As a part of the FY 2017-18 annual audit, staff identified prior year commitments and carry-over appropriations to roll forward to FY 2018-19, and these dollar amounts were deducted from the unassigned fund balance amounts that were reported in the Comprehensive Annual

Financial Report. The technical budget amendment will provide authorization to officially appropriate these amounts in the FY 2018-19 budget for each of the City's annual operating funds.

It is standard practice for staff to bring forward this technical budget amendment each year at the same City Council meeting in which the external auditors present the annual audit results.

Pro:

- Provides budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2018-19.

Con:

- None.

As noted above this budget amendment simply provides budget authorization for prior year commitments which have already been restricted or assigned in the City's FY 2017-18 financial statements. There is no impact on unassigned/available fund balance in the City's operating funds.

City staff recommends City Council approve the technical budget amendment in each of the City's annual operating funds to appropriate from restricted and assigned fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2018-19.

ORDINANCE BOOK NO. 32 - PAGE 254

E. MOTION ADOPTING THE FISCAL YEAR 2019-20 BUDGET CALENDAR

Summary: The consideration of a motion to approve the Fiscal Year 2019-2020 Budget Calendar.

As a part of the Fiscal Year 2019-2020 Operating Budget development process, which began internally in late November, staff is proposing a budget schedule which encompasses the following:

- A series of budget worksessions with City Council beginning in March 2019,
- Formal presentation of the City Manager's Proposed Budget on May 14, 2019, and
- Budget adoption on June 11, 2019.

Staff recommends that City Council review the calendar and approve the motion to adopt the Fiscal Year 2019-2020 Budget Calendar.

F. ORDINANCE NO. 4717 - ORDINANCE AUTHORIZING THE CHIEF BUILDING OFFICIAL TO CAUSE THE REMOVAL OR DEMOLITION OF THE STRUCTURE LOCATED AT 26 LOWER GRASSY BRANCH ROAD

Summary: The consideration of an ordinance authorizing the Chief Building Official to cause the removal or demolition of the structure located at 26 Lower Grassy Branch Road.

The residential structure located at 26 Lower Grassy Branch Road was severely damaged in a fire on February 14, 2014. It has remained vacant in its burned out condition due to

inadequate staffing and a lack of resources to move forward with enforcement of the Unsafe Buildings Ordinance.

The Chief Building Official issued a Declaration of Unsafe Building on November 9, 2017 notifying the property owners that the structure is an unsafe building. On February 6, 2018 a hearing was held and the Chief Building Official subsequently entered an Order that found the structure to be unfit for human habitation.

The structure remains unsecured and accessible to the public. Debris from the structure remains scattered on the property, including the accumulation of additional debris due to attractiveness of the property for illegal dumping. Multiple efforts have been made to communicate with the property owners and compel them to clean up and secure the property. The owners and family members have been unwilling or unable to cooperate.

The property and structure are unfit for human habitation, remain a danger to the public, are an eyesore, and are a public nuisance. Due to the repeated failure of the owners to remedy the defective condition of the structure, the remaining option is for the City to move forward with demolition of the structure.

Pro:

- Demolition of the structure remedies an ongoing public safety and public nuisance condition.

Con:

- Demolition costs are absorbed by the City until such time as a real property lien is disbursed.

The estimated cost of this demolition is $18,000. The Development Services Department has a total of $20,000 allocated to demolition initiatives in FY19. This fund will be substantially depleted with the city initiated removal of this structure. However, the amounts incurred by the city for the removal or demolition of the structure shall be a lien against the real property upon which the cost was incurred.

Staff recommends City Council adopt an ordinance authorizing the Chief Building Official to cause the removal or demolition of the structure at 26 Lower Grassy Branch Road.

ORDINANCE BOOK NO. 32 - PAGE 256

G. RESOLUTION NO. 18-303 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT OVER A PORTION OF CITY-OWNED PROPERTY AT NORTH PACK SQUARE TO MHG ASHEVILLE R, LLC, FOR THE PURPOSE OF OUTDOOR DINING, ACCESS, AND LANDSCAPING

Summary: The consideration of a resolution authorizing the City Manager to convey an easement over a portion of City-owned property at North Pack Square to MHG Asheville Tr, LLC (MHG) for the purposes of outdoor dining, access, and landscaping.

The City of Asheville owns real property located at North Pack Square along the frontage of the Arras Residences and Hotel (formerly known as the BB&T building). In November 2017, the City entered into an Encroachment Agreement with MHG for outdoor dining, access and landscaping within this area owned by the City of Asheville. At this time, MHG has approached the City with a request to obtain an easement in this area in order to secure long-term permission for outdoor dining, access and landscaping.

The City received a similar request to modify long term permissions for outdoor dining as part of the recent approvals process associated with the Grove Arcade sublease in May 2018. Under the current policy, the City routinely grants encroachments for outdoor dining within the public right of way and reserves the right to rescind permission to use City property for outdoor dining with a 30 day notice. In certain cases, the City may elect to grant longer term permissions for outdoor dining based on request. With this specific request, it is reasonable to confirm that the improvements to the structure and exterior, including the improvements within the encroachment area, are considered long-term in nature and that a reasonable property right to reflect this relationship in the form of an easement is preferred. Additionally, the easement area does not lie within a traditional public right-of-way area (i.e. sidewalk, street) and therefore, there is no concern that the granting of the easement will impact public passage.

The proposed easement area includes 1,384 square feet. Based on the City's appraisal of the property, the fair market value of the easement is estimated at a price of $76,120 and MHG has agreed to pay this amount. The proposed easement would specify that certain uses, including outdoor dining, access and landscaping, are permitted activities within the easement area. The easement would be granted to the owner of the adjacent real property and run with the land in perpetuity.

Pros:

- Appropriate amount of compensation for the property.
- The easement relieves the City of liability associated with the use of property.

Con:

- The City would relinquish square footage for its future use.

The amount of revenue generated by the sale of the easement will be deposited into the General Fund.

Staff recommends that City Council approve a resolution authorizing the City Manager to convey the 1,384 square foot easement over a portion of City-owned property North Pack Square for the purchase price of $76,120 MHG Asheville Tr, LLC (MHG) for the purposes of outdoor dining, access, and landscaping.

RESOLUTION BOOK NO. 40 - PAGE 205

H. RESOLUTION NO. 18-304 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SOLE SOURCE LEASE AGREEMENT WITH PROTERRA INC. FOR FIVE CATALYST E2 BATTERIES FOR USE IN THE FIVE PROTERRA ELECTRIC BUSES

Summary: The consideration of endorsing a resolution authorizing the City Manager to enter into a sole source lease agreement for five Catalyst E2 batteries from Proterra Inc. for use in the five Proterra electric buses that have been procured.

In January 2018, City Council adopted a budget amendment to procure five Proterra electric buses, as well as the batteries that will be leased from Proterra for the buses. The Staff Report approved by City Council included language regarding the battery lease payment, which requires an "upfront" pre-payment for each battery and subsequent annual payments over a 12-year period. The battery lease agreement specifies an $118,000 per battery pre-payment, and an annual payment of $20,000 for each bus.

A separate agreement is necessary since the batteries will be leased from Proterra Inc.,

instead of purchased. Proterra Inc. is the only manufacturer to make Catalyst E2 batteries that can be used in the Catalyst E2 Proterra buses purchased by the City.

The decision to lease, rather than purchase, batteries with the overall bus procurement was made in order to reduce the upfront cost of the bus purchases and to ensure that the battery efficiency over the lifetime of the buses would be maintained, which is guaranteed by Proterra through the lease program. Part of this guarantee includes full battery replacement at mid-life, which is approximately year six of the lease. It should be noted, however that if a battery fails to perform per the specifications included in the agreement, Proterra is responsible for fixing or replacing the battery at any time during the lease period at no cost to the City.

The Finance Committee reviewed this action on November 27, 2018, and unanimously endorsed it to move forward to City Council for review and approval.

Pros:

- Proterra is a leading North America manufacturer of the Catalyst E2 Batteries.
- The battery lease pre-payment will reduce annual battery lease payments per bus from approximately $32,000 to $20,000, an operational savings of $60,000 per year for the five buses.
- The battery lease agreement includes battery mid-life battery replacement ensuring battery efficiency is maintained throughout the life of the agreement.
- This action ensures compliance with the federal transit Administration and the City of Asheville's procurement policy.

Con:

- None

The $118,000 per battery pre-payment is budgeted in the Adopted Capital Improvement Program (CIP) as part of the initial bus purchases. The annual $20,000 lease payments for each battery will be budgeted as part of future Transit Operating Fund budgets. The current action is administrative and does not affect the budget.

Staff recommends that the City Council adopt a resolution authorizing the City Manager to enter into a sole-source lease agreement for five Catalyst E2 batteries from Proterra Inc. for use in the five Proterra electric buses that have been procured.

RESOLUTION BOOK NO. 40 - PAGE 206

I. RESOLUTION NO. 18-305 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH CLARK PATTERSON LEE, P.C., FOR THE U.S. CELLULAR CENTER HVAC DESIGN & ENGINEERING SERVICES PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a Contract Amendment to the Professional Services Agreement with Clark Patterson Lee, P.C. in the amount of $132,400 for design and engineering services for the U.S. Cellular Center HVAC and Mechanical Renovation Project.

On November 3, 2017, the General Services Department issued a Request for Qualifications for Design and Engineering Services for the U.S. Cellular Center (USCC) HVAC and Mechanical Renovation project for professional services including design, planning, and construction administration services. Clark Patterson Lee, P.C. was selected as the most qualified firm. On February 6, 2018, the City Manager awarded the firm an initial phase and schematic

design contract in the amount of $50,000. On April 10, 2018, City Council authorized a contract amendment for $215,000 to fund the professional services for the first priority scope described below.

The project is partially funded by a 2016 Tourism Product Development Fund (TPDF) grant for $1,500,000 and City Capital Improvement Program funds that were authorized in the 2016-17 budget. The project is based on a 2015 building energy analysis, and the design and planning considerations are being coordinated with the Office of Sustainability.

The project's first priority was to use the limited construction funds available to replace the most critical HVAC equipment, which would increase system efficiency in the process. These improvements will reduce the U.S. Cellular Center's operating costs, provide moderate sustainability gains, and will provide greater flexibility for the venue to book a wider range of events. This first priority is currently underway with design nearing completion by the end of the year. Bidding is expected to begin this winter, and construction is anticipated to begin in the spring of 2019.

The project's second priority is to provide a more complete systems modernization plan for future improvements. This work will include scope development, biddable design documents, and cost estimation. This second priority work will provide the USCC general manager with the information needed for capital planning and to execute all or part of the remaining HVAC work in future phases as funding becomes available. A key sustainability item that will result from this work is a design for the addition of a solar array on the arena roof.

This contract amendment provides funding for the project's second priority.

Pros:

- Provides designs that will improve the sustainability of the U.S. Cellular Center, including the design for a solar array on the arena roof.
- Improves future facility capital planning.

Con:

- Utilizes portion of current construction funds to perform design needed for future capital improvements"

The funding needed for this agreement is currently allocated within the TPDF Theater Project (C1701) in the Capital Improvement Program (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Contract Amendment to the Professional Services Agreement with Clark Patterson Lee, P.C., for the amount of $132,400 for design and engineering services for the U.S. Cellular Center HVAC Design and Engineering Services, which yields a total contract amount of $397,400 for these professional services.

RESOLUTION BOOK NO. 40 - PAGE 207

J. RESOLUTION NO. 18-306 - RESOLUTION AUTHORIZING THE MAYOR TO AMEND THE MAY 15, 2018, AGREEMENT WITH THE TOWN OF BLACK MOUNTAIN TO TRANSFER WATER RESOURCES ASSETS WITHIN THE TOWN OF BLACK MOUNTAIN SERVICE AREA FROM THE CITY OF ASHEVILLE TO THE TOWN OF BLACK MOUNTAIN, AND EXPAND THE

AGREEMENT TO THREE PHASES WITH THE FIRST PHASE TO OCCUR ON OR BEFORE MAY 31, 2019

Summary: The consideration of a resolution authorizing the Mayor to amend the May 15, 2018, agreement with the Town of Black Mountain to transfer Water Resources assets within the Town of Black Mountain service area from the City of Asheville to the Town of Black Mountain, and expand the agreement to three phases with the first phase to occur on or before May 31, 2019.

The transfer of Water Resources assets has been in consideration for greater than 15 years. The transfer includes relinquishing ownership and future maintenance responsibilities of the City of Asheville's infrastructure within the Town of Black Mountain service area to the Town of Black Mountain over a two year period in three phases. This transfer allows the entities to be more efficient in the operation and maintenance of the water systems, which in many cases, occupy the same right of way. This also allows the Town of Black Mountain to increase their capacity through system expansion to serve their residents and proposed future commercial and industrial development.

This item was reviewed by the Finance & Human Relations Committee on April 23, 2018, and they recommended approval and that it move forward to the full Council.

Pros:
- The transfer will allow both entities to operate each water system more efficiently.
- The City will avoid future maintenance and infrastructure investments for these assets.

Con:
- Short-term revenue loss.

Although there will be a reduction in revenue for the City of Asheville, the increased water supplied to Black Mountain through the wholesale agreement will help offset this revenue loss. Additionally, the City will be able to reduce the maintenance activity of this system, which will need significant investment in the next 10 to 20 years. Black Mountain will be able to take advantage of the redundant infrastructure in some cases to minimize the maintenance and replacement costs that would be incurred by Asheville. Over time, the transfer of these assets is a good economic and customer service decision for both entities.

Staff recommends City Council adopt a resolution authorizing the Mayor to amend the May 15, 2018, agreement with the Town of Black Mountain to transfer Water Resources assets within the Town of Black Mountain service area from the City of Asheville to the Town of Black Mountain, and expand the agreement to three phases with the first phase to occur on or before May 31, 2019.

RESOLUTION BOOK NO. 40 - PAGE 208

K. RESOLUTION NO. 18-307 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AMENDMENT WITH DEWINE SEEDS - SILVER DOLLAR BASEBALL, LLC FOR CITY-OWNED LAND AT 30 BUCHANAN PLACE IN ORDER TO CONTINUE OPERATION OF THE ASHEVILLE TOURISTS MINOR LEAGUE BASEBALL STADIUM

Summary: The consideration of a resolution authorizing the City Manager to execute a lease amendment extending the current lease for six months between the City of Asheville and DeWine Seeds-Silver Dollar Baseball, LLC (DeWine Seeds) for City-owned land at 30 Buchanan Place in order to continue operation of the Asheville Tourists minor league baseball stadium.

- In 2012, the City of Asheville entered into a lease agreement with DeWine Seeds-Silver Dollar Baseball for the McCormick Field stadium facility and parking lot at 30 Buchanan Place (identified as PIN # 9648-47-8566-00000).
- The current lease is set to expire in December 2018.
- The current annual lease fee of $1.00 per year and all existing terms of the lease will continue.

Committee:
- Finance & Human Resources Committee - November 27, 2018 - approved unanimously

Pros:
- DeWine Seeds-Silver Dollar Baseball is committed to keeping minor league baseball in Asheville.
- Continues a successful use of city property with existing tenant.

Con:
- None

RESOLUTION BOOK NO. 40 - PAGE 209

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. SNOWSTORM RESPONSE

Mayor Manheimer thanked all City staff for working hard on the snowstorm response. City Manager Campbell also thanked the City staff, community, media and Buncombe County for their cooperation in this dangerous snow storm.

Fire Chief Scott Burnette updated City Council on the City's snowstorm response from the various City departments.

B. ARTSPACE AFFORDABLE HOUSING PROJECT UPDATE

Interim Assistant Planning & Urban Design Director Stephanie Monson-Dahl introduced Assistant Director for the Center for Craft Mike Marcus, and President/CEO of The Community Foundation of WNC Elizabeth Brazas.

Ms. Brazas explained that Artspace is a national nonprofit real estate developer for the arts with a mission to create, foster, and preserve affordable space for artists and art organizations.

Mr. Marcus explained their project partners and funders, along with project funding, the project leadership group, the timeline of the project, and fundraising which began in November,

2015, through Phase One of the Artspace Preliminary Feasibility Study & Report, through Phase Two of the Artspace Arts Market Survey & Market Study ending in May, 2018.

Mr. Marcus explained that for Phase One, their stakeholder engagement culminated in 250+ community members engaged via focus groups, community meetings, etc. It centered on cross-sector focus groups and an assessment of Asheville's creative sector housing needs. This included site visits to 10 potential project locations. For Phase Two, their stakeholder engagement culminated in 10,000+ engaged through launch event, rack card, posters, social media campaign, etc. Phase 2 built on the outcomes of Phase 1 and further developed the specifics of whether or not a new affordable housing space for the creative community was viable.

Mr. Marcus said that one key step in Phase 1 was assessing potential sites. Several of the properties visited were City-owned and already earmarked for affordable housing efforts. Phase 1 identified 91 Riverside Drive (the Ice House) as the priority site for this project by Artspace using their site selection matrix and scoring criteria. The property rankings centered on the presumed demand for an 80 unit affordable artist housing mixed use project. Phase 2 later affirmed the site as the top choice of survey respondents. He then showed the statistics on location preference.

Mr. Marcus then said that Phase 2 included surveys to assess the interested in a new, affordable space in Asheville and related space preferences of the local and regional creative sector. The result was 1,435 collected surveys.

Mr. Marcus said to achieve this level of engagement they developed strong partnerships with a diverse set of cultural organizations. Concerted outreach by all of our partnering organizations led to the impressive response for the survey. Of the respondents who indicated an interest in affordable spaces, 55% were between 21-40 years old, 67% of whom are female. Race percentages closely map 2016 census data with 16% identifying as other than caucasian. Regarding demographics, 40% of individual respondents indicated interest in affordable housing, which is the highest percentage that Artspace sees in communities across the country, with a typical range of 20-40%. The data also demonstrates significant demand for studio space and highlights the variety of our creative sector. From an income perspective, 59% reported an income below the 2016 Median Area Income of $46,443. These income statistics substantiate the need for affordable housing and other space solutions for our creative sector.

Mr. Marcus said it is important to note that 52.5% of respondents indicated their primary income comes from work outside of their creative practices, further demonstrating that Asheville's creative sector is representative of our entire community.

Ms. Brazas summed up by saying that to build on our joint success, and to take advantage of this unique opportunity to partner with Artspace, they request Council to affirm that 91 Riverside Drive be developed to support affordable housing for artists and creatives and that any and all of the City's affordable housing tools be used in support of this project, including innovative policies and funds from the bond referendum and affordable housing trust fund.

Mr. Marcus responded to Councilwoman Mayfield if Artspace has developed an affordable housing building that combines either shared or private studio space.

In response to Mayor Manheimer, Ms. Monson-Dahl said that staff will be presenting information later this meeting about this site and two other sites. With 91 Riverside Drive, staff will be recommending that Council allow staff to move forward with a Memorandum of Understanding, some private partners and also Artspace that will allow Council to receive a proposal which Council will evaluate within the probably next 18 months.

Mayor Manheimer thanked Ms. Brazas, Mr. Marcus and President and CEO of the Asheville Area Chamber of Commerce Kit Cramer for their work on this very thorough process.

C. ALCOHOLIC BEVERAGE CONTROL BOARD UPDATE

Mr. Lewis Isaac, Chair of the ABC Board, said their priority is responsible sales of spiritous liquor, commitment to excellent customer service, and efficiency - more resources back to our community. He then introduced Mr. Mark Combs, General Manager of the ABC Board, said that no taxes are used to operate the ABC Board. He showed a five-year chart of the sales, income from operations, distributions to the City & County, and profit % to sales. Of the 167 boards in North Carolina, Asheville's ABC is 8th in overall sales; third in commercial sales; orders 12-15% of all special orders in North Carolina; top tier in profitability; and top tier in efficiency. He explained their service to our community (1) 11 local alcohol and rehabilitation grants ($235,744) in Fiscal Year 2018-19; (2) Buncombe County Rehabilitation Services ($92,643); (3) N.C. Dept. of Health Services ($102,895); and (4) three alcohol enforcement agents. He then explained their warehouse/headquarters that are being renovated.

Mr. Isaac said that in the future they foresee (1) continued growth, especially in MXB sales; (2) national trend to legalize Cannabis - who will oversee sales and distribution?; (3) diligent staff "knowledge" training to aid customers choose higher quality spirits; (4) provide excellent customer service; and (5) continuous focus on efficiency, innovation and leadership to the N.C. ABC system.

Mr. Combs responded to various questions from Mayor Manheimer, noting that the majority increase in gross sales is the sale to hotels and restaurants purchasing the liquor.

On behalf of City Council, Mayor Manheimer thanked Mr. Isaac, Mr. Combs and the entire ABC Board for their dedication and hard work.

D. NEIGHBORHOOD ADVISORY COMMITTEE UPDATE

Mr. Phil Lenowitz, Chairman of the Neighborhood Advisory Committee (NAC), said that NAC consists of 9 members, all appointed by City Council, with representation from neighborhoods throughout the City. The Committee was established in 2012 to improve communications between neighborhoods and the City Council and to submit reports concerning issues facing neighborhoods. The Committee acts as a sounding board for neighborhood issues and is a conduit to bring these issues, along with strategies for improvement, to City Council. We held three Regional Meetings and a City-wide Festival of Neighborhoods this year. He then explained in detail the neighborhood citizen concerns and recommendations of traffic, sidewalks, rapid growth-inadequate infrastructure, housing, noise, greenways, neighborhood/small area plans, signage for neighborhoods, short term vacation rental enforcement, and bears. He asked City Council if there are any issues they would like for them to probe. He also asked for support for Neighborhood/Small Area Plans and for Vision Zero to reduce crashes. Finally, he asked for feedback if the NAC is relevant.

All of Council supported the efforts of NAC and felt they are an important part of our community, dealing with quality of life issues and providing an identity for neighborhoods.

Council responded to some of the recommendations, as follows: (1) the Planning & Economic Development Committee will look at requiring notification of development to registered neighborhood groups; (2) there is some discussion around revising the noise ordinance; (3) investigation into some top-of-the-street signs for neighborhood identification; (4) new City

Attorney will be looking at short term rental enforcement; and (5) Council's difficulty of balancing people who do not want infill housings vs. those that what housing close to workplaces.

Vice-Mayor Wisler felt the NAC could help Council by finding out ways the community wants to be engaged, i.e., how do they want to participate and how they want to be kept informed.

On behalf of City Council, Mayor Manheimer thanked Mr. Lenowitz and the entire Committee for their dedication and hard work.

E. FISCAL YEAR ENDED JUNE 30, 2018, AUDIT REPORT

Ms. Patricia Rosenberg, Internal Auditor introduced Mr. Robbie Bittner, representing RSM , who reported on the Fiscal Year ended June 30, 2018, audit report, summarizing that the City has received a unmodified "clean" (highest level of assurance) rating.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A PERFORMANCE BASED ECONOMIC DEVELOPMENT INCENTIVE GRANT FOR BURIAL BEER COMPANY, LLC

RESOLUTION NO. 18-308 - RESOLUTION APPROVING A PERFORMANCE BASED ECONOMIC DEVELOPMENT INCENTIVE AGREEMENT WITH BURIAL BEER COMPANY, LLC

Community & Economic Development Director Sam Powers said that this is the consideration of a resolution to approve an economic development incentive grant to Burial Beer Company, LLC. This public hearing was advertised on November 30, 2018.

City of Asheville has been requested by Asheville-Buncombe EDC to consider granting a performance based incentive agreement under the City Economic Development policy to an existing Asheville manufacturing facility, operated by Burial Beer Company, LLC. The purpose of the City's participation would be to induce Burial Beer Company, LLC to make additional investments in the City for expenditures to acquire and install machinery/equipment, make facility improvements which increase the tax value as determined by the Buncombe County Tax Department in the amount of $1,800,000 and create 17 new median wage jobs (estimated to be $35,000 per year) with benefits. The company is Living Wage Certified. The performance based agreement would be based on a grant reimbursement of 50% of new city taxes created by the project for a five year agreement term. Based on the $1,800,000 capital investment, the grant amount is estimated to be $3,842 annually each year of a five year performance contract for an estimated agreement total of $19,210, but in no case an amount not to exceed $30,000. North Carolina state law requires a public hearing be held before an incentive grant can be officially awarded.

Pros:

- Supports growth of existing manufacturing in the City of Asheville;
- Performance driven agreement that is distributed after job and investment is achieved or mutually agreed performance benchmarks are established;
- Supports capital investment in the City of Asheville;
- Supports regional and state cooperation in the project.

Con:

- The economic development incentive agreement is formulated based on use of a portion (50%) of the new incremental increase from property tax revenue generated by the project for a 5 year period.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive 50% of new incremental property tax revenues, estimated cumulatively at $19,210 at the current tax rate as well as the existing property tax revenues from the project. After the grant period of 5 years, the City will henceforth receive 100% capture of all city taxes.

City staff recommends Council approve a resolution authorizing a performance based economic development agreement to support the existing industry expansion of Burial Beer Company in the City of Asheville.

Mr. Doug Reiser, representing Burial Beer Company, spoke about their work in the community and thanked Council for their support.

Mayor Manheimer opened the public hearing at 6:22 p.m.

Ms. April Brown, representing the Asheville-Buncombe Economic Development Coalition, spoke in support of this economic development incentive agreement.

Mayor Manheimer closed the public hearing at 6:24 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-308. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 210

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 155, 137, 129 AND 123 BILTMORE AVENUE FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION DISTRICT/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A 56-ROOM HOTEL IN ONE NEW 5-STORY BUILDING AND THREE EXISTING BUILDINGS

At the petitioner's request, Councilman Young moved to continue this matter to March 26, 2019. This motion was seconded by Councilwoman Smith and carried unanimously.

C. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF PROPERTY AT 62 FAIRVIEW ROAD FROM COMMERCIAL INDUSTRIAL DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONE FOR THE DEVELOPMENT OF A SIX-STORY, 170 ROOM HOTEL WITH A RESTAURANT

Urban Planner Jessica Bernstein said that this is the consideration of conditionally zoning property at 62 Fairview Road from Commercial Industrial District to Lodging Expansion/ Conditional Zone for the development of a six-story, 170 room hotel, with a restaurant. This public hearing was advertised on November 30 and December 7, 2018.

The project site consists of a single parcel located at 62 Fairview Road with an area of approximately 3.7 acres (per plans). The site is currently zoned Commercial Industrial and

surrounding zoning includes CI to the east, west and south (across Fairview Road), and Urban Place (UP) across the railroad right-of-way to the north. Uses in the vicinity include a variety of commercial and light industrial uses as well as high-density residential. There is a building on the site that will be removed and a stream running along the eastern side. Additionally, the site is noted as a brownfield.

The applicant is proposing to construct a hotel building on the site with approximately 170 rooms, meeting/event rooms and a restaurant space with approximately 125 seats. The building is six stories (approximately 65'-8" according to plans) and a total of 117,130 square feet. The restaurant building is located between the hotel and the Fairview Road frontage and is two stories in height. There is an additional two-story portion of the development that houses ballroom spaces.

Vehicular access to the site is proposed via a single driveway from Fairview Road. Surface parking is provided to the side and rear of the building with approximately 140 spaces included on plans.

Sidewalks are shown along either side of the driveway on Fairview Road and are ten feet in width according to district standards, and continue into the site. The site is situated along the S5 transit route and the Transportation Department has requested that the applicant install a transit shelter to meet with standards in the Lodging Expansion District.

Landscaping is required for this project and includes street trees, parking lot landscaping, building impact landscaping and dumpster screening. Conceptual plans indicate the ability to comply with these standards.

Fifteen percent of the lot area is required for designated open space. Conceptual plans indicate a minimum of 24,000 square feet of open space provided in several areas throughout the site.

Standards relating to building orientation and fenestration in the requested zoning district are met with this proposal. Although the actual road frontage is limited, the restaurant use is placed close to Fairview Road.

Conditions - The project does not comply with the following standards in the requested zoning district:

1. Lot width standard - a minimum lot width of 100 feet is required. This lot has only approximately 47 feet of lot width. This is an existing condition dating back from the earliest plat recorded in 1944.

The applicant is required to undergo the conditional zoning due to the lodging use.

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on June 12, 2018. The project was approved with conditions by the Technical Review Committee on July 16, 2018.

The Planning and Zoning Commission discussed this proposal at their meeting on November 7, 2018, and ultimately voted unanimously to support approval of the project (6-0). Commissioners noted that this project had favorable elements such as the brownfield remediation, parking provided on the site, willingness to participate with a shuttle service for guests and public, and ground-floor activation with the restaurant use.

Staff has received comments of concern from citizens regarding increased traffic impact on Fairview Road from this development and the recent residential developments in the vicinity. A Traffic Impact Study (TIS) was required and has been reviewed and accepted by the Asheville Transportation Department and N.C. Dept. of Transportation (NCDOT). An Oakley neighborhood resident spoke at the Planning and Zoning Commission meeting in favor of the proposal but expressing concern at the overall increased traffic along the full extent of Fairview Road; requesting that a further study and improvements be made to Fairview Road.

Recent projects in the area include The District mixed-use development (14-11869 PZ), River Mill Lofts (14-13052 PZ) and a Level II hotel on Thompson Street (16-11738 PZ).

The proposal is compatible with the surrounding area. The site is just south of Biltmore Village and just north of I-40, making it easily accessible by vehicle. Sidewalk improvements proposed with this project and also improvements related to The District development facilitate pedestrian connectivity to transit and to Biltmore Village. The lodging use is buffered from the single-family neighborhood by the multi-family development adjacent to the east. The site is designed to pull the active building front up to Fairview Road and parking is provided to the side and rear of the building.

The Living Asheville plan identifies this location as a Town Center on the Future Land Use Map. The lodging use is considered appropriate in the Town Center category, which encourages multimodal access, placing buildings towards the street to enhance streetscape activity, and uses that can support not only the immediate area but also the region.

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community* – the project is aligned with the Future Land Use designation of town center; and (2) *Transportation and Accessibility* - the project contributes to pedestrian connectivity in the area by providing new sidewalks, and transit enhancements are possible with a new bus shelter.

Considerations:

- The uses complement the mixed-use intent for the area
- The proposal will complement the Biltmore Village Historic District and the Biltmore House by supporting the tourist use with a walkable product
- Over 500 residential units have been approved with over 300 completed in the vicinity of this project in recent years
- The project incorporates a transit shelter on site
- The location is within a designated opportunity zone
- There have been a number of new hotels recently approved within the general vicinity - two just north of Biltmore Village currently under construction (229 rooms) and two recently opened near the I-40 and Hendersonville Road interchange (236 rooms)

Staff recommends approval of the conditional zoning for the construction of a new lodging facility with a restaurant use based on policies in the Living Asheville Comprehensive Plan, Future Land Use map and City Council's 2036 Vision Considerations; however, staff also recommends the completion of the comprehensive plan policy that suggests a study of lodging uses, need and impact to aid in evaluating new lodging uses. At the October 23, 2018, City Council meeting, several Councilmembers made statements concerning the number of lodging facilities recently approved and that it may be out of balance with other City needs. Comments furthered that additional scrutiny and consideration is needed in how to evaluate these proposals and the impact to the City.

The Planning & Zoning Commission recommends approval of the conditional zoning for the construction of a new lodging facility based on policies in the Living Asheville Comprehensive Plan, Future Land Use map and City Council's 2036 Vision Considerations.

Ms. Bernstein said that primary concern from two people who spoke at the Planning & Zoning Committee related to the existing traffic volume on Fairview Road; however, they were pleased to see restaurant space. In addition to the standard conditions, the applicant has agreed to provide bus passes for staff and a shuttle service for guests to reasonable locations (i.e., the Airport and Downtown). He applicant has also agreed to three additional conditions regarding building materials and signage.

Mr. Derrick Allen, representing the developer, talked about hotels in general and the importance of looking at them on a case by case basis to see what is unique and what makes sense. He felt this is a unique project in this particular location. They are independent hotel operators and in each location they seek out the specific characteristics of that community. For Asheville, they feel it should be all things craft - craft restaurant, craft beer, craft coffee, etc. This is a 170 room hotel with 145 parking spaces. There will be a 125 seat restaurant and a coffee shop, along with 3,000 sq ft of meeting space. There will be 5,500 sq ft of ballroom/events/ conferencing space. The height is limited to 80 feet, about 20 feet higher than the existing retaining wall. There will be wide sidewalks throughout the site and on Fairview Road. It will employ 100-120 employees and the applicant has committed to a living wage for all their employees. Bus passes will be available for all employees. In addition, they have committed to a transit shelter and transit shuttle for guests. They held their neighborhood meeting in June and there was no opposition. The Technical Review Committee approved in July. They then held multiple meetings and new requirements from the NCDOT in terms of TIS and how those were reviewed. They have received the NCDOT's comments last week. They were not heard by the Planning & Zoning Commission until November and received unanimous approval. This project site is 35,000 sq feet of warehouse space, located down from the District apartment site. This location is in an opportunity zone. This is also a brownfields site and is not eligible for any long-term residential housing or multi-family without remediation to the site consistent with the brownfields agreement. The site is eligible for hotel use and restaurant use. This will help finish out the sidewalks that the District and the City are completing that connects the District Apartments and the neighborhood to the north of the District Apartments to Biltmore Village. The project is Comprehensive Plan compliant. We talked to a lot of the retailers in and around Biltmore Village. Our original thoughts were about the patrons that would be going to those shops, but it became clear that it was more than just that for them. There were concerns from some of the Biltmore Village merchants that that side of Biltmore Village lacks cohesiveness and lacks a hard edge. They looked at this as a way to give some definiteness and some comprehensive planning to that side of Biltmore Village. Regarding traffic issues, looking at the TIA and the comments from NCDOT, once those improvements go into place for the intersections involved below this project, traffic will improve in terms of its level of service. Other issues they heard about were density and parking on the site. Due to easement, floodplain, and setback, the building envelope is pretty small. They have tried to shield the parking from view. Another concern was the project did not meet all the elements of a town center as described in the Comprehensive Plan. This is too small of a site, but he explained how it does achieve the town center feel.

In response to Councilman Kapoor, Mr. Chris Day, representing Civil Design Concepts, said that seven intersections primarily in that area were evaluated, but not all the way up Hendersonville Road.

Ms. Bernstein responded to Councilman Kapoor when he asked what the Comprehensive Plan designates this area - town center designation.

In response to Councilwoman Mayfield, Ms. Bernstein felt this project complies with a number of the elements of the town center and lodging expansion.

Mayor Manheimer opened the public hearing at 6:50 p.m.

The following individuals spoke in support of this conditional zoning:

Mr. Benjamin Mitchell, an adjacent property owner
Mr. Karl Koon, owner of property adjacent to the property
Mr. Ashley Edwards

Ms. Dee Williams felt that more conversation was need on this project on how it benefits low income people as it is an opportunity zone.

Mayor Manheimer closed the public hearing at 6:58 p.m.

Councilman Kapoor stated that he does look at each hotel project on a case by case basis. He could not support his particular project as he is concerned about traffic, especially at the intersection of Sweeten Creek Road and Hendersonville Road. Another concern is that he felt we have an abundance of hotels (6 plus another one under construction) in that vicinity.

Councilwoman Mayfield also looks at all hotel projects on a case by case basis. There are a number of good aspects with this project; however, she felt this is not what a town center should look like. If other parcels were combined on this site, then perhaps we will see more of what a town center should be.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to recommend denial of the conditional zoning request for RB Hotel at 62 Fairview Road from Commercial Industrial to Lodging Expansion District Conditional Zone (LODG EXP CZ), and find that the denial is reasonable and is in the public interest because the proposal is not consistent with the City's comprehensive plan for the following reasons: (1) The development does not comply with lot frontage standards; (2) The district and land use category anticipates an active streetscape for the pedestrian with buildings up to the road but the proposed building is setback 100 feet from the street; and (3) While the lodging use may generally be appropriate per the future land use category of the Living Asheville Comprehensive Plan, there have already been multiple hotels recently approved in the general vicinity and the Comprehensive Plan encourages a diversity of uses built in a compact urban street grid. This motion was seconded by Councilman Young and carried on a 6-1 with Vice-Mayor Wisler voting "no."

D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE MAKING ALL SUBDIVISIONS IN HISTORIC OVERLAY DISTRICTS AND ON LOCAL HISTORIC LANDMARK PROPERTIES A MAJOR WORK

Because this will be reviewed by the Planning & Economic Development Committee, Councilman Young moved to continued this hearing until January 22, 2019. This motion was seconded by Councilman Kapoor and carried unanimously.

V. UNFINISHED BUSINESS:

A. UPDATE ON OUTCOMES OF THE FEASIBILITY STUDY TO CREATE AFFORDABLE, MIXED-INCOME COMMUNITIES ON THREE CITY-OWNED OR CITY-CONTROLLED PROPERTIES

Interim Assistant Urban & Planning Department Stephanie Monson-Dahl said that this is an update on outcomes of the feasibility study to create affordable mixed-income communities on three City-owned or City-controlled properties.

The 2016 general obligation bond program allocates $25 million for affordable housing over 7 years, of which $15 million is dedicated to the redevelopment of City-owned land. On February 7, 2017, City Council directed staff to perform due diligence for the redevelopment of three specific properties to support affordable housing redevelopment under this allocation. The sites identified include (1) 171-179 S. Charlotte Street, (2) 81-91 Riverside Drive and (3) 319 Biltmore Avenue. The City of Asheville is the owner of the properties located on S. Charlotte Street and Riverside Drive. The City has an option to purchase the property at 319 Biltmore Avenue, which is currently owned by Duke Energy.

The goal of the due diligence study - conducted by Lord Aeck Sargent in coordination with staff - was to assess the feasibility of achieving successful affordable housing developments on each of the selected sites. The study identified the physical opportunities and constraints with respect to development, a realistic number of housing units that can be developed on each site, the massing and conceptual improvements that could be built onsite and the market conditions for mixed use development. Additionally, the study tested specific financial scenarios to explore affordability options, including ranges of incomes and quantities of affordable units. The next step in this work is to create an implementation plan for the redevelopment of each property.

Over the past year, staff and consultants have engaged with the community around the redevelopment of these three sites. This engagement helped inform potential redevelopment scenarios and highlighted the importance of making other public investments at these sites while creating affordable housing. In November, staff and consultants had a public meeting and shared current market conditions, costs of development and number of potential units for these sites. Different income-level targets and the subsidies needed to produce affordable units were also presented. Overall, the community confirmed that they understand the need for additional housing and especially the need for units affordable to a variety of income levels. In addition, the community confirmed that important infrastructure improvements, such as sidewalks, pedestrian crossings, and open space, should occur around these sites as part of redevelopment that improve quality of life.

The results of the due diligence study are summarized below.

319 Biltmore Avenue - A solid opportunity to create housing options with a range of affordability and improve connectivity in a growing neighborhood that includes Lee Walker Heights; work to solicit developers for this site can begin immediately.

- A potential development program of 300-310 units on 5.5 acres; approx. 54-56 units / acre density; 470 +/- total parking spaces; approx. 12,000 square feet of commercial space.
- Estimated development cost of $49 million.
- Subsidy required per affordable unit depends on income levels served and ranges from $57,500 - $70,000 per unit.
- There is a market for some mixed-use development on or near the Biltmore Avenue frontage; the community would like a small format/urban grocery store but the market here may not be strong enough to support it.

- Housing unit sizes and affordability levels that complement what is already being created on adjacent parcels and speaks to the proximity of this site to Mission Hospitals should be taken into consideration when evaluating a preferred development program.
- Other investments that can be made to create a livable community include providing a connection between the neighborhoods and recreation areas on the east side of Biltmore with the this site and Lee Walker Heights; incorporating open space and a transit stop along Biltmore; and developing a connection from this development site south to Choctaw.
- The City should work with Duke Energy, Mission Hospitals (future HCA Healthcare), Buncombe County, NCDOT and other potential partners to maximize opportunities for this site.

171-179 South Charlotte Street - A significant opportunity to use housing development - in concert with the community - to plan and grow a neighborhood impacted by Urban Renewal. Future development can reconnect the East End community to the Central Business District and make S. Charlotte Street safer for residents, bicyclists and pedestrians. In order to realize this opportunity, existing City Operations must be relocated in a strategic and sustainable manner.

- A potential development program of approximately 540-550 units on 7.5 acres, approx. 72-73 units/acre density, 775 +/- total parking spaces, approx. 32,000 square feet of commercial space.
- The large size of the development would require the City to phase the project over time for three main reasons: to protect adjacent neighborhoods from negative impacts of rapid change; to secure labor in our region; and to absorb new housing units at a rate the market can handle.
- Estimated total development cost for Phase 1 (the ABC store / Fleet Maint Bldg) is approximately $31 million.
- Estimated development cost for Phase 2 (Public Works Garage, south of Beaumont but north of Phase I) is approximately $62 million (this does not include the potential cost to relocate city services).
- Subsidy required dependent on levels of income served and estimated to be between $70,000 and $80,000 per unit (for both phases).
- The development program considers capping a small brownfield site at the rear of the Fleet Maint Building and using it for connectivity and surface parking; and replacing the culverted section of Town Branch in order to facilitate development.
- There is a market for some commercial spaces at key nodes or intersections; creating commercial uses that align with the "Expand Equitable, Upward Mobility" goal of the recently adopted Living Asheville plan may be possible with additional public investment.
- The potential development program includes new open/green space as a connector and gathering space between East End and Downtown.
- Other investment priorities that could be made to create a livable community include developing safer and easier connections between East End, this site, and downtown; this could include significant investments in S. Charlotte Street, S. Market Street, and a new connection from MLK Jr. Drive to downtown.
- Acknowledging the history of this site as an intact African American neighborhood before urban renewal should be part of the context for redevelopment.
- The City should work with NCDOT, Buncombe County, and local small business and economic development partners to maximize opportunities on this site.
- Currently, redevelopment cannot occur unless the City relocates two major City service facilities - the Fleet Management Division and the Public Works Complex. Additionally, the City recently completed a Facilities Condition Assessment that concluded that the Fleet Management facility is near end-of-life. Staff recommends that the City perform an Operations & Maintenance Center Facilities Study to consider the service delivery models

and estimate costs required to relocate services to a new site, which have yet to be calculated.

91 Riverside Drive - An opportunity to create artist housing and strengthen the character and economic vitality of the River Arts District.

- The Riverside Drive Development Plan, adopted in 2014, recommends this site be redeveloped for a mix of uses including housing. Financial analysis from the plan showed that return on investment in the property will benefit from increased density, a mix of uses, and partnerships with adjacent landowners and private partners. This model suggested that 80+ housing units could be developed here.
- Within the current study, consultants and staff reported to HCD and the public in June that this site was not as well-suited as the other sites for a traditional affordable housing development. In addition to unique (riverfront-related) site constraints, the site lacks proximity to food services and transit; and this site's smaller size and narrow configuration significantly lowers its programming capacity.
- An Arts Market Study was commissioned from Artspace as part of a collaboration between the Center for Craft, the Chamber of Commerce and other partners, including the City. The Artspace market assessment found those artists desiring affordable housing made an average of $30,000 a year and work in the hospitality, education and retail sectors.
- After confirming that local demand exists for an 80-unit affordable housing concept for artists, the Artspace report recommends doing further analysis including financial feasibility for this unique affordable housing concept, with the River Arts District being the most preferred location.
- Staff continues discussions with adjacent property owners and stakeholders to determine if there is interest in partnering/expanding the development footprint in order to improve potential development programs and resulting outcomes in support of affordability.

Based on these findings, key next steps in this process include:

1. Pursue the development of 319 Biltmore Avenue first; create a development that complements Lee Walker Heights, includes a mix of affordable and market-rate housing and a small amount of commercial space. The next step in this process is to solicit proposals from qualified development partners. *An implementation plan and timeline would come to Council in January.*
2. Staff will release a Request for Qualifications (RFQ) for an Operations & Maintenance Center Facilities Study for 171-173 S. Charlotte Street; and staff will perform transportation planning related to the redevelopment of the site with affordable and mixed income housing. The appropriate next steps are to A) understand the facility costs and operational impacts associated with the relocation of City services, and B) begin discussions with NCDOT to improve the pedestrian character of S. Charlotte and its connection to the East End neighborhood. *A consideration to approve a budget amendment to fund the Facilities Study would come before Council in January 2019.*
3. Staff will proceed with negotiation a Memorandum of Understanding (MOU) with partners to explore the redevelopment of 91 Riverside Drive as aligned with Artspace findings and the Riverside Drive Development Plan. Partners could include Artspace and/or adjacent landowners and the term of the MOU would be time limited. *A Memorandum of Understanding would come to City Council in early 2019 for approval.*

The Housing and Community Development Committee of City Council reviewed the site findings at the November 15, 2018, meeting and requested that staff proceed to full City Council review and discussion. The Affordable Housing Advisory Committee reviewed these findings at

the December 6th meeting. Committee's actions were not available in time for this report and will be shared at the December 11th City Council Meeting.

In support of City Council's Strategic Priorities, these next steps comply with Goal 15 by performing analysis of specific City-owned properties with the intent to develop strategies to implement affordable housing. This action supports Council's 2036 Vision goal of achieving quality affordable housing within proximity to transportation options, local job centers and downtown Asheville or River Arts District. This action also aligns with the Comprehensive Affordable Housing Strategy and Policy Framework adopted by City Council in 2015 and is a key step in fulfilling the intent of the 2016 general obligation bond referendum for affordable housing. This action also helps implement goal 13 of the Living Asheville Plan- Increase and Diversify the Housing Supply.

Pros:

- Accepts key findings and next steps which are critical to implementing the Affordable Housing Bond Program on a deadline-driven timeline;
- Acknowledges that recommendations are the results of a cooperative and transparent process from consultants, committee, council and community as well as a multi-disciplinary staff team;

Con:

- Affordable housing community projects are complicated and will not likely be accomplished without a strong and innovative private sector partner or partnership.

There is no fiscal impact at this time. Council may consider fiscal impacts in January.

Next steps are as follows: (1) Pursue the development of 319 Biltmore and come to Council in January with an implementation plan; (2) Release an RFQ for an Operations & Maintenance Facilities Study as a first step in the potential development of S. Charlotte Street and come to Council in January with a budget amendment using existing /available funds; staff to perform transportation planning for S. Charlotte Street related to affordable housing redevelopment; and (3) Negotiate an MOU for 91 Riverside and come to Council in early 2019 with a proposed development agreement.

Ms. Monson-Dahl then introduced Bob Begle, representing Lord Aeck Sargent, who reviewed the approaches to community development and scenario building; their process; existing context analysis; individual site assessments; comparison matrix; design, massing and program studies for each of the three sites; development pro formas and affordability comparisons for each of the three areas; affordable housing trade offs. In summary, this means that (1) affordable housing is hard; (2) all three sites have opportunity, but they vary in timing and scope; (3) Riverside Drive is not a traditional affordable housing site; (4) South Charlotte Street is very important, but needs more evaluation; (5) Biltmore Avenue is the most ready to go; (6) starting point financial scenarios are generally too costly; (7) the City needs partners; and (8) affordable housing gap funding will require careful consideration of trade-offs. Next steps include (1) pursue the development of 319 Biltmore Avenue; come to Council in January with implementation plan; (2) release a Request for Qualifications for an Operations & Maintenance Facilities Study for S. Charlotte Street; come to Council in January with a budget; staff to begin transportation planning for S. Charlotte Street; and (3) negotiate a Memorandum of Understanding for 91 Riverside; come to Council in early 2019 with a proposed development agreement.

City Council was supportive of City staff continuing to work on (1) an RFQ for the facilities assessment; (2) on an RFQ for the Biltmore Avenue site; and (2) potential development partners for 91 Riverside Drive.

B. RESOLUTION NO. 18-309 - RESOLUTION AUTHORIZING THE CITY MANAGER TO MODIFY THE TERMS OF THE LOAN FOR AND DISBURSE THE REMAINING FUNDS TO EMP COMMERCIAL, LLC AND EMSDC FOR COMMERCIAL AND RETAIL SPACE IN THE DEVELOPMENT KNOWN AS EAGLE-MARKET PLACE

ORDINANCE NO. 4718 - BUDGET AMENDMENT TO FUND EAGLE-MARKET PROJECT PAYMENT

Assistant City Manager Cathy Ball said that this is the consideration of approving the terms of the loan to EMSDC for commercial space on the Block and approval of a Budget Amendment in the Section 108 Fund in the amount of $450,000 utilizing existing funding from the general Affordable Housing Capital Improvement Project (CIP).

- In 2013, City Council adopted a resolution approving a Section 108 Loan in the amount of $718,000 for the EMSDC for commercial office and retail space on the Block.
- $268,000 of the $718,000 was disbursed to the project in Fiscal Year (FY) 2017.
- Minutes from the 2013 meeting state that the purpose of the loan was to provide lower than market rental rates to Historically Underutilized Businesses (HUB) and create a minimum of 21 jobs in five years.
- A deed of trust was never recorded to secure the loan.
- A promissory note was signed only for the $268,000 that was disbursed in FY 2017. The terms of that promissory note now need to be modified to reflect the terms of the entire $718,000.
- The City paid back the Section 108 Loan in 2017 to save on the interest. The loan was repaid from the original Section 108 loan balance. The payment of the remaining $450,000 will be dispersed from the general affordable housing CIP account. This funding source has a balance of $2.6 M and is intended to support affordable mixed income/mixed use communities.
- EMP Commercial, LLC was created by Eagle-Market Street Development Corporation (EMSDC) in 2018 when the development was declared a condominium, separating units into residential and commercial use. EMP Commercial, LLC now owns the commercial unit at issue.
- EMSDC/EMP Commercial, LLC are requesting the remaining balance of $450,000 to pay the contractor for work completed.
- The terms of the loan are included as an attachment provided to Council, which consist of (1) 21 jobs within 5 years; (2) lower than market rate rents (a) 0 to 5 years - average 20% below market; and (b) 6-20 years - average 15% below market; (3) good faith efforts to rent to Historically Underutilized Businesses; (4) "up-fit" of space completed in two years of the final payment; (5) annual review; and (6) default clause.

Pro:

- The purpose and intent of the loan approved by City Council in 2013 are being met with the new terms of the loan.

Con:

- None

The fiscal impact, as noted above, funding for the $450,000 loan payment will come from the general Affordable Housing CIP. This CIP is not related to the GO Bond funds. The loan will be repaid as outlined in an attachment provided to Council.

Ms. Stephanie Swepson-Twitty, representing the Eagle-Market Street Development Corporation, said they are amenable to the terms outlined by Ms. Ball. She also thanked City Council for their support of this project.

Councilman Young asked that in order to revive the area and to meet the spirit and intent of the 2013 loan, can consideration given to lower the market rate rents from 0 to 5 years to an average of 25% below market and from 6-20 years to an average of 20% below market. Ms. Swepson-Twitty said that for the change they want to see, they have to be profitable. In order for them to meet their debt and business model, they need to keep the terms as outlined by Ms. Ball.

Councilman Young questioned why good faith efforts are to rent to Historically Underutilized Businesses rather than African American or Minority Businesses. Interim City Attorney Rockoff said that legally we can't say minority, but we can use the money for Historically Underutilized Businesses.

In response to Councilwoman Smith, Ms. Swepson-Twitty said that their target audience is to recruit healthy, underutilized (African American) businesses. 75-80% of all those businesses that will come into the project are African American businesses. We only have one business now that we are negotiating with that is a business of non-color. Those businesses that we have sought out are more than capable than meeting our rates. She said that in order for them to be able to meet the debt service on the project and to pay the City, we need to keep the rates as outlined by Ms. Ball.

When Vice-Mayor Wisler asked by the $718,000 was budgeted when the City committed to it in 2013, Ms. Ball said that the money was part of Section 108. In January of 2017, staff came before Council and requested to pay off that loan because we were continuing to pay interest. The original Section 108 money was borrowed in 2014 for the intent of re-doing something on The Block. There was an initial project that failed to move through. The City had continued to pay interest on that Section 108 loan for a number of years and we felt that it was in the City's best interest (savings of around $83,000 in interest payments) to pay the loan off sooner. That loan was paid off and then the intent was to use funding from the Capital Improvement Program to make the loan. Basically, when we paid off the loan, the City's didn't reserve for the Capital Improvement Program.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and ordinance and they would not be read.

Vice-Mayor Wisler moved to authorize the City Manager to modify the terms of the loan as set forth in Exhibits A and B and disburse the remaining funds to EMP Commercial, LLC and EMSDC for commercial and retail space in the development known as Eagle Market Place, to amend the Promissory Note dated February 2, 2017, to reflect the same terms as the loan on the remaining funds, and to agree to such other terms and execute such other documents as necessary and in accordance with the intent set forth herein. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 211

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4718. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 258

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Sarah Skinner and Ms. Dee Williams spoke to Council about the S. Charlotte Street and Biltmore Avenue plans regarding affordable housing.

Mr. Jonathan Wainscott urged Council to reconsider their position on the electoral structure.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:59 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Friday – December 14, 2018 - 1:00 p.m.

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilman W. Keith Young; and Deputy City Clerk Sarah Terwilliger

Absent: Councilwoman Sheneika Smith

Mayor Manheimer opened the special meeting.

At 1:00 p.m. Councilwoman Mayfield moved to go into closed session to consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee pursuant to N.C. Gen. Stat. sec. 143-318.11 (a)(6) and to prevent the disclosure of information that is confidential pursuant to N. C. Gen. Stat. sec. 160A-168, the Personnel Privacy Act, pursuant to N. C. Gen. Stat sec. 143.318.11 (a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

Mayor Manheimer announced that this special meeting will be to interview candidates for the City Attorney position.

At 5:11 p.m., Vice-Mayor Wisler to go out of closed session. This motion was seconded by Councilman Kapoor and carried unanimously.

Magdalen Bulleson
City Clerk

Esther E. Manheimer
Mayor

Tuesday – January 8, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council n the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Mayor Manheimer asked that a resclution authorizing the City Manager to enter into an agreement with the U.S. Tennis Association be included as an item on Consent "H".

At the request of Councilwoman Mayfield, Consent Agenda Item "F" was removed from the Consent Agenda for discussion and/or an individual vote.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 11, 2019

B. ORDINANCE NO. 4719 - BUDGET AMENDMENT FOR THE AUTOMATED BICYCLE AND PEDESTRIAN COUNTING EQUIPMENT

Action Requested: Adopt a budget amendment in the City's Special Revenue Fund in the amount of $60,000 to program funding from the French Broad River Metropolitan Planning Organization (MPO) for automated bicycle and pedestrian counting equipment in the amount of $48,000, and to approve a budget amendment in the amount of $12,000.

Background:

- On December 19, 2017 City Council adopted a resolution authorizing the City Manager to apply for and if awarded, accept funding from the French Broad River Metropolitan Planning Organization (MPO) for FY 2019 funding for automated bicycle and pedestrian counting equipment in the amount of $48,000. The French Broad River MPO selected this project for funding for FY 2019.
- The automated counters will provide needed data regarding greenway use. Existing construction grants such as the TIGER VI grant from the Federal Highway Administration require ongoing bicycle and pedestrian counts that would otherwise need to be collected using manual labor, and the extent of manual counts would not be as thorough or as regular as automated counters.
- The grant requires a 20% local match. The grant award is for $48,000. The local match of $12,000 is already programmed in the Transportation Department's FY 2019 General Fund budget. This budget amendment will move the matching funds from the operating budget to a project budget along with the grant funds.

Council Goal(s):
- Transportation and Accessibility.

Committee(s):
- None

Pro(s):
- Provides an automated system for bicycle and pedestrian user counts eliminating the need to collect the data manually.

Con(s):
- None

Fiscal Impact:
- The FY 2019 General Fund operating budget already includes the required $12,000 in local matching funds. This budget amendment moves the matching funds and the grant funds into a Special Revenue Fund budget. In addition, there will be minimal ongoing maintenance costs to keep the equipment in good operating order.

Motion: Move to adopt a budget amendment for automated bicycle and pedestrian counting equipment.

ORDINANCE BOOK NO. 32 - PAGE 260

C. RESOLUTION NO. 19-1 - RESOLUTION AUTHORIZING ADDITIONAL FUNDING FOR THE GENERAL SERVICES AGREEMENT WITH BBC RESEARCH & CONSULTING FOR THE 2016 DISPARITY STUDY PROJECT AND AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT

Action Requested: Adoption of a resolution to approve additional funding for the General Service Contract with BBC Research & Consulting for the 2016 Disparity Study Project.

Background:
- At its March 28, 2017 meeting, City Council approved a contract with BBC Research & Consulting in the amount of $319,948.
- The Disparity Study utilized the City's contractual awards in construction, goods, services, architectural and engineering services from fiscal years 2012 through 2017.
- The purpose of the study was to update the City's goals, market area and recommendations for changes in the current Minority Business Plan.
- BBC Research & Consulting costs exceeded the original budget by $9,950. This overage was not known to City staff until the end of the project.
- The Consultant dedicated substantially more hours than originally anticipated in the areas of data collection and compilation as well as meetings and presentations to conduct the study accurately and successfully. The additional funds includes:
  - Revise and finalize the disparity study report and help the City compile it for public dissemination;
  - Respond to additional questions and consult on the City's MBE Plan; and
  - Provide any additional analyses as it relates to finalizing the disparity study process.

Council Goal(s):
- Diverse Community
- Thriving Economy

Committee(s): None

Pro(s):

- Requires additional funding from the existing Community & Economic Development FY 2018-19 budget.

Con(s):

- None

Fiscal Impact:

- As noted above, the initial contract amount was $319,948
- The $9,950 amendment will bring the total amount to $329,898. Funding for the additional $9,950 will come from the existing Community & Economic Development FY 2018-19 budget.

Motion:

- Move to adopt a resolution authorizing approval of additional funding for the General Services Contract with BBC Research & Consulting Contract for the 2016 Disparity Study Project and authorizing the City Manager to execute an amendment to the contract increasing it by $9,950.

RESOLUTION BOOK NO. 40 - PAGE 214

D. RESOLUTION NO. 19-2 - RESOLUTION PLACING CONDITIONAL USE PERMIT FOR PROPERTY LOCATED AT 192 HAYWOOD STREET WITH BUNCOMBE COUNTY CLERK OF SUPERIOR COURT PURSUANT TO CONSENT STAY PENDING CITY'S APPEAL TO THE NORTH CAROLINA SUPREME COURT

Summary: WHEREAS, pursuant to the City's February 14, 2017 findings of fact and conclusions of law, the Asheville City Council voted to deny a request by PHG Asheville, LLC ("PHG") for a conditional use permit ("CUP") to construct an eight-story, 178,412 square foot hotel and on-site parking structure on 2.05 acres of land (PIN 9649-20-1616) located at 192 Haywood Street; and WHEREAS, PHG sought judicial review of the City Council's denial of the CUP, and the Buncombe County Superior Court on November 2, 2017 reversed the City Council's decision and remanded with an order for the City Council to issue the CUP; and WHEREAS, the City timely appealed the Superior Court order to the North Carolina Court of Appeals; and WHEREAS, pursuant to a December 6, 2017 agreement, the City and PHG agreed that PHG would not seek to enforce the Superior Court order during the appeal to the North Carolina Court of Appeals, and that the City would not issue the CUP before a final decision by that court; and WHEREAS, on November 6, 2018, the North Carolina Court of Appeals affirmed the Superior Court order and remanded the case to Buncombe County Superior Court for further remand to the City to issue the CUP to PHG (the "COA Opinion"); and WHEREAS, on November 14, 2018, legal counsel for the City notified legal counsel for PHG that the City intended to file a petition for discretionary review ("PDR") with the North Carolina Supreme Court, which would seek review of the COA Opinion; and WHEREAS, on November 26, 2018, PHG initiated enforcement proceedings in Buncombe County Superior Court for the purpose of obtaining the permit notwithstanding the City's PDR; and WHEREAS, in response to PHG's initiation of enforcement proceedings, the City on December 6, 2018 filed a motion with the Buncombe County Superior Court to stay or enjoin enforcement during the pendency of the City's PDR; and WHEREAS, in an effort to avoid further litigation between the parties about the status of the CUP while the City's PDR is pending with the Supreme Court, and to avoid unnecessary costs and expenses, the City and PHG have mutually agreed to a stay of the enforcement proceedings initiated by PHG, and

the City has agreed to deposit the CUP with the Buncombe County Clerk of Superior Court pursuant to N.C. Gen. Stat. § 1-291 while the City's PDR is pending before the North Carolina Supreme Court; and NOW, THEREFORE, the City Council hereby issues the CUP for the sole purpose of depositing it with the Buncombe County Clerk of Superior Court pursuant to N.C. Gen. Stat. § 1-291, and pursuant to the following agreement between the City and PHG: (1) If the City's PDR is denied by the Supreme Court, the CUP will be immediately released to PHG; (2) If the City's PDR is granted by the Supreme Court, the CUP shall remain with the Clerk of Superior Court pending a final decision from the Supreme Court, and upon a final decision from the Supreme Court, either party may petition the Buncombe County Superior Court for the release or revocation of the CUP.

RESOLUTION BOOK NO. 40 - PAGE 215

E. RESOLUTION NO. 19-3 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT AND SIGN A GREENWAY EASEMENT OVER PROPERTY LOCATED AT 53 TANGLEWOOD DRIVE FOR PUBLIC ACCESS TO THE FALCONHURST NATURE PRESERVE NEIGHBORHOOD

Action Requested: Adoption of a resolution authorizing the City Manager to accept an easement, and to execute the appropriate documents, that is granted by property owner/developer East West Craggy Development, LLC to provide a public trail access to the Falconhurst Nature Preserve from Tanglewood Drive in the Falconhurst neighborhood.

Background:

- The Falconhurst Nature Preserve is a 7.9 acre city-owned property (PIN 963-817-3304) in West Asheville within the Falconhurst neighborhood located north of Tanglewood Drive, south of Patton Avenue, east of Mitchell Avenue, and west of Louisiana Avenue.
- The City accepted donation of the Falconhurst Nature Preserve from the Conservation Trust for North Carolina in 2012, authorized by City Council Resolution 08-58, subject to deed restrictions to protect the site from development and maintain its integrity as a nature preserve, while still permitting appropriate public recreational use.
- In 2015, the East West Craggy Development, as a stipulation of their conditional zoning (CZ Ord 4390) of the Craggy Park subdivision, agreed to provide public access to the public via a walking trail on their property located at 53 Tanglewood Drive (PIN 963-816-3605), to the adjacent, Falconhurst Nature Preserve.
- The public access easement will be donated to the City at no cost. It will be a 20-foot wide easement that starts at Tanglewood Drive and ends at the property line where the Falconhurst Nature Preserve property begins and totals approximately 0.25 acres.
- The City is partnering with community partners including the Asheville Design Center, a program of Mountain True, to construct natural surface trails within the Falconhurst Nature Preserve.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- Multi-modal Transportation Commission - September 26, 2018 - approved unanimously.
- Greenway Committee - October 4, 2018 - approved unanimously.
- Planning & Economic Development Committee - December 18, 2018 - approved unanimously.

Pro(s):

- Provides legal access to the Falconhurst Nature Preserve, which is otherwise landlocked.
- Satisfies a condition of the 2015 Conditional Zoning Ordinance.

- No cost to the City to accept the easement.

Con(s):
- None.

Fiscal Impact:
- There is no fiscal impact to the city other than a sign that would be fabricated by the Transportation Department and installed at the trailhead at 53 Tanglewood Drive. Funds for the sign fabrication and installation are included in the current year operating budget.

Motion:
- Move to adopt a resolution authorizing the City Manager to accept an easement, and to execute the appropriate documents, that is granted by property owner/developer East West Craggy Development, LLC to provide a public trail access to the Falconhurst Nature Preserve from Tanglewood Drive in the Falconhurst neighborhood.

RESOLUTION BOOK NO. 40 - PAGE 217

F. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH MOUNTAIN TRUE TO CONSTRUCT AND MAINTAIN NATURAL SURFACE TRAILS WITHIN THE FALCONHURST NATURE PRESERVE

This action was removed from the Consent Agenda and will be voted on separately due to a conflict of interest by Councilwoman Mayfield.

G. RESOLUTION NO. 19-5 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION FROM THE PRESERVATION SOCIETY OF ASHEVILLE AND BUNCOMBE COUNTY TO BE APPLIED TOWARDS THE THOMAS WOLFE CABIN MASTER PLANNING PROJECT

ORDINANCE NO. 4720 - BUDGET AMENDMENT TO ACCEPT A DONATION FROM THE PRESERVATION SOCIETY OF ASHEVILLE AND BUNCOMBE COUNTY FOR THE WOLFE CABIN CABIN MASTER PLANNING PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to negotiate and enter into an agreement with the Preservation Society of Asheville and Buncombe for the donation of $7,500 for the Thomas Wolfe Cabin master planning project and adoption of a budget amendment in the General Fund in the amount of $7,500 to accept the donation.

Background:
- The City of Asheville released an RFC to solicit master planning and professional design services for the Thomas Wolfe Cabin at Azalea Park.
- The cabin was designated as a local historic landmark in 1983 for its association with local author Thomas Wolfe who stayed at the cabin upon his return to Asheville after the successful publication of his controversial novel, *Look Homeward Angel* in 1929.
- A consultant team, led by Lord Aeck Sargent, was selected as the most qualified team to complete the project. Their proposal exceeded the original project budget.
- Staff negotiated a contract, which required supplemental funds and reached out to the Preservation Society of Asheville and Buncombe County, the city's partners on the

project, for the supplemental funding, which they agreed to provide so that the project could move forward.

Council Goal(s):
- A Smart City

Committee(s):
- Planning and Economic Development Committee - December 18, 2018 - Update

Pro(s):
- The additional funding will allow the project to move forward, which is the next step in the rehabilitation of the cabin.
- The master plan will include a comprehensive assessment of the cabin and site, including infrastructure improvements and connectivity of the site to surrounding destinations, trails and the Swannanoa Greenway.

Con(s):
- None

Fiscal Impact:
- The project has an overall cost of $75,000, supported by funding from the following sources:
  - City of Asheville Planning and Urban Design Department's operating budget ($30,000);
  - City of Asheville Parks and Recreation Department operating budget ($30,000);
  - City of Asheville Community and Economic Development Department operating budget ($7,500); and,
  - the Preservation Society of Asheville and Buncombe County, $7,500.

Motion:
- Move to approve: 1) a resolution authorizing the City Manager to negotiate and enter into an agreement to accept $7,500 from the Preservation Society of Asheville and Buncombe County; and 2) a budget amendment in the General Fund in the amount of $7,500 from the Preservation Society of Asheville and Buncombe County for the Thomas Wolfe Cabin master planning project.

H. RESOLUTION NO. 19-11 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION FROM THE U.S. TENNIS ASSOCIATION FOR IMPROVEMENTS AT ASTON PARK TENNIS CENTER

ORDINANCE NO. 4721 - BUDGET AMENDMENT TO ACCEPT GRANT FROM THE U.S. TENNIS ASSOCIATION FOR IMPROVEMENTS AT ASTON PARK TENNIS CENTER

Action Requested: Budget Amendment to accept funding from the USTA.

Background:
- USTA Fed Cup 2018 was held at US Cellular Center in February 2018.
- USTA pledged $35,000 for a "Legacy Grant".

- The Legacy Grant is intended to fund a retractable awning and some tables and chairs at the Aston park Tennis Center.

Council Goal(s):
- Financially Resilient Community

Committee(s):
- None

Pro(s):
- A retractable awning and tables and chairs can be installed at the Aston Park Tennis Center.

Con(s):
- None

Fiscal Impact:
- Restricted revenue of $35,000; no City match required.

Motion:
- Move to Authorize City Staff to accept $35,000 from USTA.

RESOLUTION BOOK NO. 40 - PAGE 226
ORDINANCE BOOK NO. 32 - PAGE 264

I. RESOLUTION NO. 19-6 - RESOLUTION AUTHORIZING THE PURCHASING MANAGER TO DISPOSE OF SURPLUS CITY-OWNED PROPERTY (2010 JOHN DEERE 410J BACKHOE) VALUED AT $30,000 OR MORE

Action Requested: Approval of a resolution authorizing the sale of one (1) 2010 John Deere 410J Backhoe deemed surplus City personal property.

Background:
- The City's Water Resources Department -- Maintenance Division, identified a 2010 John Deere 410J Backhoe as surplus personal property, with no anticipation of utilization by the City.
- Pursuant to N.C.G.S. §160A-266, the Sale and Disposal of Personal Property valued at $30,000 or more must be approved by City Council. The City's Purchasing Manager has authority to dispose of personal property valued at less than $30,000 by private negotiation and sale.
- The estimated wholesale value of the 2010 John Deere 410J Backhoe is listed at $30,000+, $1000 - $10,000 above wholesale, depending on condition. Bids will be solicited through Public Surplus online auction.

Council Goal(s):
- n/a

Committee(s):
- None

Pro(s):
- Promotes City of Asheville fiscal responsibility of disposing of surplus property which generates revenue
- Space utilization eliminates the need to store large, unused equipment

- Competitive process yielded market price

Con(s):
- None

Fiscal Impact:
- The backhoe is fully depreciated and the Water Resources Fund will recognize the entire amount as revenue from the sale of assets.

Motion:
- Move to adopt a resolution authorizing the sale of one (1) 2010 John Deere 410J Backhoe deemed surplus City personal property.

RESOLUTION BOOK NO. 40 - PAGE 220

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda without Consent Agenda "F". This motion was seconded by Councilman Young and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTE

F. RESOLUTION NO. 19-4 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH MOUNTAIN TRUE TO CONSTRUCT AND MAINTAIN NATURAL SURFACE TRAILS WITHIN THE FALCONHURST NATURE PRESERVE

Councilman Young moved to recuse Councilwoman Mayfield from participating in this matter due to a conflict of interest. This motion was seconded by Vice-Mayor Wisler and carried unanimously (Councilwoman Mayfield did not vote).

Action Requested: Adoption of a resolution authorizing the City Manager to enter into an agreement with Mountain True to construct and maintain natural surface trails within the Falconhurst Nature Preserve.

Background:
- The Falconhurst Nature Preserve is a 7.9 acre city-owned property (PIN 9638-17-3304-00000) in West Asheville located north of Tanglewood Drive, south of Patton Avenue, east of Mitchell Avenue, and west of Louisiana Avenue within the Falconhurst neighborhood.
- The City accepted the donation of the Falconhurst Nature Preserve from the Conservation Trust for North Carolina in 2012, authorized by City Council Resolution 08-58. The conservation agreement is subject to deed restrictions to protect the site from development and maintain its integrity as a nature preserve while still permitting appropriate public recreational use. The deed restrictions allow for low impact improvements such as natural surface trails.
- An access easement from East West Craggy Development, LLC from Tanglewood Drive in the Falconhurst neighborhood iis on the January 8, 2019 agenda.
- The Asheville Design Center (ADC), a program of MountainTrue, has designed a natural

surface trail system for the Falconhurst Nature Preserve and within the donated public access easement granted to the City by East West Craggy Development, LLC.
- Mountain True intends to coordinate volunteers of the Falconhurst neighborhood to construct and maintain the natural surface trails.
- The Conservation Trust of North Carolina is supportive of the project.
- The trails would be constructed and maintained at no expense to the City.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- Multi-modal Transportation Commission - September 26, 2018 - approved unanimously.
- Greenway Committee - October 4, 2018 - approved unanimously.
- Planning & Economic Development Committee - December 18, 2018 - approved unanimously.

Pro(s):
- Provides a unique opportunity for the neighborhood to enjoy natural surface trails in a natural setting.
- Provides a neighborhood connection to the proposed Smith-Mill Greenway corridor once it is constructed.
- Provides an opportunity for community members to help construct and maintain a nature area and walking trails.

Con(s):
- None

Fiscal Impact:
- There is no fiscal impact to the city. Mountain True will provide the labor and materials to construct the tails.

Councilman Young moved to adopt a resolution authorizing the City Manager to enter into an agreement with Mountain True to construct and maintain natural surface trails within the Falconhurst Nature Preserve. This motion was seconded by Vice-Mayor Wisler and carried unanimously (Councilwoman Mayfield was recused from this vote).

RESOLUTION BOOK NO. 40 - PAGE 218

III. PRESENTATIONS & REPORTS: None

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE 2018-19 ANNUAL ACTION PLAN FOR THE REALLOCATION OF AN ESTIMATED $1,396,100 IN FEDERAL HOME INVESTMENT PARTNERSHIP PROGRAM FUNDS

RESOLUTION NO. 19-7 - RESOLUTION AMENDING THE 2018-19 ANNUAL ACTION PLAN FOR THE REALLOCATION OF AN ESTIMATED $1,396,100 IN FEDERAL HOME INVESTMENT PARTNERSHIP PROGRAM FUNDS

Community Development Director Michael Blair said that this is the consideration of a resolution authorizing the City Manager to submit an Amendment to the 2018-2019 Consolidated Action Plan for the HOME Investment Partnership Program, enabling the City of Asheville and the

Asheville Regional Housing Consortium to reallocate $1,396,100 of HOME funding from the U.S. Department of Housing and Urban Development. This public hearing was advertised on December 28, 2018, and January 4, 2019.

Background:

- The City has $1,396,100 in HOME funds available for reallocation.
- The Asheville Regional Housing Consortium received applications for unallocated HOME funding totalling $2,055,000 and made recommendations.
- HOME funds must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties)
- Federal HOME Program and HUD regulations require a public hearing be held before substantial plan amendments can be adopted by the HOME Lead Entity, the City of Asheville.

Council Goal(s):

- Expand Asheville's supply of quality, affordable homes for current and future residents, including promoting affordable housing located close to the CBD, jobs, and transportation.

Committee(s):

- The Asheville Regional Housing Consortium approved this reallocation of funds on November 1, 2018.

Pro(s):

- The proposed reallocation of $1,396,100 commits and puts toward viable projects federal HOME Program funding and amends the Fiscal Year 2018-19 Annual Plan.
- An additional 170 affordable rental units will be created, and 12 homeowners will be assisted with down payment assistance, in the Asheville Regional Housing Consortium jurisdiction.
- Reflects the carefully considered recommendations of the Asheville Regional Housing Consortium.

Con(s):

- None.

Fiscal Impact:

- The Action Plan is fully funded from federal CDBG and HOME entitlement grants, unused funds from previous completed projects, and estimated program income. There is no other fiscal impact associated with this action.

Mayor Manheimer opened the public hearing at 5:11 p.m., and when no one spoke, she closed the public hearing at 5:11 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Young moved to approve a resolution authorizing the City Manager to submit an Amendment to the 2018-2019 Consolidated Action Plan for the HOME Investment Partnership Program. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 221

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 275 AND 281 HAZEL MILL ROAD

FOR CHANGES TO A RESIDENTIAL DEVELOPMENT ZONED RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONE

ORDINANCE NO. 4722 - ORDINANCE TO AMEND THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 275 AND 281 HAZEL MILL ROAD FOR CHANGES TO A RESIDENTIAL DEVELOPMENT ZONED RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONE

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to amend a previously approved conditionally zoning of property located at 274 and 281 Hazel Mill Road for changes to a residential development zoned RM-16 Residential Multi-Family High Density District/Conditional Zone. This public hearing was advertised on December 28, 2018, and January 4, 2019.

Background:

- The subject property at 275 and 281 Hazel Mill Road (PINs 9638-39-9131 and 9638-39-6188) is currently owned by Berltex Real Estate Holdings, LLC; the applicant and contact is Bob Grasso.
- The project was previously approved as a conditional zoning from Residential Multi-Family Medium Density District (RM-8) to Residential Multi-Family High Density District (RM-16 CZ) by City Council on June 23, 2015, under Ordinance No. 4430.
- The development includes 113 residential units (one and two bedroom units) housed in 10 buildings with a maximum of 222 surface parking throughout the site with 10% of the units being affordable.
- The development includes compliant landscaping and open space amenities as shown on the site plans and required by code.
- The overall project is generally the same as the original conditional zoning approval but the following changes have been proposed by the applicant and are detailed in the B.1 conditions list:
    - Sidewalk realignment to preserve existing trees along Hazel Mill Road (eight foot sidewalk/walkway set back from Hazel Mill Road up to approximately 30 feet from the road)
    - Sidewalk changed from six foot back of curb to a five foot planting strip and five foot sidewalk along Clayton
    - Removal of on-street parking along Clayton Avenue and relocation to a new internal parking area
    - New entrance from Clayton Avenue to access relocated parking (increase to three driveways)
    - Pavers eliminated from parking area and flexibility requested for building materials
    - Bus passes offered for two years instead of in perpetuity
    - The developer will be required to submit a report on the number of bus passes issued in the two year period

Council Goal(s):

- A Well-Planned and Livable Community
- Quality Affordable Housing
- Transportation and Accessibility

Committee(s):

- Technical Review Committee - November 5, 2018 - approved with conditions

- Planning & Zoning Commission - December 5, 2018 - recommended approval (7-0)

Pro(s):
- The project has previously been approved by City Council and the proposed modifications do not substantially change the overall project details
- The project includes 10% of the dwelling units dedicated as affordable
- The development is aligned with the designated Future Land Use category of the Living Asheville Comprehensive Plan for this area (residential neighborhood when proximate to a growth area)

Con(s):
- Staff recommends the sidewalk along Hazel Mill Road follow the previous approval of six-foot back of curb rather than what the applicant is proposing

Fiscal Impact:
- If constructed, the project would have a positive fiscal impact on tax revenues received by the city.

Ms. Bernstein said that the applicant has requested the sidewalk along Hazel Mill Road be eight feet in width and setback up to 35 feet from the edge of the road, to preserve a line of white oak trees along the stretch of the frontage. Staff was not supportive of that request as they want the sidewalk to be six foot back of curb as approved in 2015.

Councilwoman Mayfield supported the sidewalk amendment proposed by the applicant, noting that the Chair of the Tree Commission also supports the applicant's amendment.

In response to Councilwoman Mayfield regarding annual bus passes, Mr. Harry Pilos, applicant, said that he would be agreeable to provide annual bus passes for at least 10 years for any resident of affordable units.

Mayor Manheimer opened the public hearing at 5:21 p.m.

Ms. Sarah Skinner thanked Council for recognizing the need for affordable housing. She hoped that Council would consider lower AMI levels as the City's standards for affordability.

Mr. Tracy DeBruhl suggested the applicant contact representatives from different agencies, i.e., the Veterans Quarters, to help where needed to move the project forward.

Mayor Manheimer closed the public hearing at 5:25 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to recommend approval of the conditional zoning amendment (with the amendment to the B.1 conditions that the developer shall provide annual bus passes for at least 10 years for any resident of affordable units) for White Oak Grove Apartments at 275 and 281 Hazel Mill Road from Residential Multi-Family High Density District Conditional Zone to Residential Multi-Family High Density Conditional Zone and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the amendment does not substantially deviate from the project details previously approved other than the changes to the site plan; (2) the development is located with close access to commercial uses, transit and employment opportunities; (3) the project includes dedicated affordable residential units; and (4) the proposal is aligned with the

Future Land Use map in the Living Asheville Comprehensive Plan. This motion was seconded by Councilman Kapoor and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 266

C. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 99999 FERRY ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO COMMERCIAL EXPANSION DISTRICT/CONDITIONAL ZONE FOR UP TO 15,000 SQUARE FEET OF COMMERCIAL USES AND TO RESIDENTIAL EXPANSION DISTRICT/CONDITIONAL ZONE FOR A MIX OF HOUSING TYPES TOTALLING 418 UNITS, RESULTING IN A SPLIT-ZONED PARCEL; AND AMENDMENT TO THE FUTURE LAND USE MAP TO CHANGE FROM TRADITIONAL NEIGHBORHOOD AND NEIGHBORHOOD CENTER TO RESIDENTIAL NEIGHBORHOOD, NEIGHBORHOOD CENTER AND PARKS/OPEN SPACE

ORDINANCE NO. 4723 - ORDINANCE TO CONDITIONAL ZONE PROPERTY LOCATED AT 99999 FERRY ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO COMMERCIAL EXPANSION DISTRICT/CONDITIONAL ZONE FOR UP TO 15,000 SQUARE FEET OF COMMERCIAL USES AND TO RESIDENTIAL EXPANSION DISTRICT/CONDITIONAL ZONE FOR A MIX OF HOUSING TYPES TOTALLING 418 UNITS, RESULTING IN A SPLIT-ZONED PARCEL AND AMENDMENT TO THE FUTURE LAND USE MAP TO CHANGE FROM TRADITIONAL NEIGHBORHOOD AND NEIGHBORHOOD CENTER TO RESIDENTIAL NEIGHBORHOOD, NEIGHBORHOOD CENTER AND PARKS/OPEN SPACE

Urban Planner Vaidila Satvika said that this is the consideration of an ordinance to conditionally zone property located at 99999 Ferry Road from RM-16 Residential Multi-Family High Density District to Commercial Expansion District/Conditional Zone for up to 15,000 square feet of commercial uses and to Residential Expansion District/Conditional Zone for a mix of housing types totalling 416 units, resulting in a split-zoned parcel; and amendment to the Future Land Use Map to change from Traditional Neighborhood and Neighborhood Center to Residential Neighborhood, Neighborhood Center and Parks/Open Space. This public hearing was advertised on December 28, 2018, and January 4, 2019.

Background:

- Property PIN is 9636-10-3860, also known as 99999 Ferry Road; owned by Buncombe County.
- The 137 acre city-owned property was rezoned from industrial to residential last year and was then sold to Buncombe County.
- The proposed project includes up to 15,000 square feet of commercial uses and a mix of housing types totaling 416 units.

Council Goal(s):

- A Well-Planned Livable Community

Committee(s):

- Planning & Zoning Commission: Approved unanimously on December 5, 2018

Pro(s):

- Provides a well-planned and livable community by offering a mix of housing units that will help to meet the housing demand while respecting the existing neighborhood and surrounding natural environment.
- Compatible with current and desired future land uses as identified in the Living Asheville Comprehensive Plan.
- Helps preserve environmentally sensitive land adjacent to the French Broad River.
- Aligns with the community character for this area as specified in the Living Asheville Comprehensive Plan.
- Developer will provide open area for future greenway.

Con(s):

- Encouraging a higher density in areas not currently served by transit.

Fiscal Impact:

- If constructed, the project would have a positive fiscal impact on tax revenues received by the city.

Mr. Satvika said that there are two access points off Ferry Road. There are three buildings that will provide 36 condos and 188 duplexes. He revised the site plan, pointing out there are 820 trees being added, stormwater capture ponds, a dog park, greenway easement for the entire perimeter, and 105 parking spaces distributed throughout the site. He said that the developer has agreed to a condition of at least 5% of the total number of units to be affordable to people at or below 100% of AMI. The other amendment to the conditions is that the total number of units shall not exceed 416 units by may be reduced, depending on market conditions.

In response to Councilwoman Mayfield, Mr. Satvika said that we needed this conditional zoning split parcel because they wanted to include some small commercial (8-15,000 sq feet) activity and that is not allowed in residential expansion.

Ms. Jennifer Lanning, Real Estate Agent representing the developer, said the 5% of affordable units are geared toward workforce housing. The area lends itself nicely for single-family homes. The units range from approximately $450,000 down to $200,000. The housing crisis in Asheville is not just in the lower level, but also in the middle level. We hope to address that as well. Lower levels are more for apartments, but these are a for-sale level. We have been in discussions with Habitat for Humanity and they might be able to fit into their project. She said their intention is that every unit, except the condo units, will have a one or two car garage.

Ms. Christy Stout, Traffic Engineer, said they did and submitted a Traffic Impact Study to the City and the N.C. Dept. of Transportation (NCDOT). The NCDOT will be making a final determination on any improvement needs shortly. In the study they looked at the amount of vehicles that would be generated by this development. The a.m. trips are about 225 (about 170 are exiting in the morning - about 3 per minute). The p.m. trips are about 295. Entering in the p.m. will be about 3 per minute as well. The driveways and intersections are Level of Service C or better under existing and projected movements, except for the exiting movements (from Ferry Road to Brevard Road) in the p.m. and that is a Level of Service D.

In response to Councilwoman Mayfield, Ms. Lanning said that the build-out is 2-5 years, starting this year.

Mayor Manheimer gave a brief history of the site.

Mayor Manheimer opened the public hearing at 5:49 p.m.

Mr. Michael Bowman, adjoining property owner, requested more than 20 feet buffer in his backyard that adjoins the project.

Mr. Solesby, adjacent property owner, suggested deleting the commercial piece and reducing the number of units. The commercial piece will bring commercial traffic in the residential area. In addition, traffic in the area is already congested.

Mr. Casey Campfield felt this project is out of reach for the low and moderate income community and hoped the City would negotiate a better number of affordable units.

Mr. Amber Banks felt we need to look at lowering the Area Median Income, and ask the developer to hire locals for the construction.

Ms. Leah Carter, adjacent property owner, felt that the project will bring in too much density in the area and will impact traffic.

Mayor Manheimer closed the public hearing at 5:59 p.m.

In response to Councilwoman Mayfield, Mr. John Kinnaird, Land Planner, said that there is a 20 foot minimum buffer along every property line and in some places the buffer is 50 feet or more.

When Councilwoman Mayfield asked about the commercial piece, Ms. Lanning said that their intention is to have neighborhood support for the commercial piece for people who live in the area.

In response to Councilwoman Mayfield, Ms. Lanning said that they may be able to get closer to 8-10% of the total number of units to be affordable, but they don't want to commit more than 5% at this time until they see the economy. They want to be on the conservative for-sale market side.

Councilman Young said it was difficult for him to support this project as he felt nothing in this project is affordable; however, he does understand that there are other income levels that require housing. He hoped that a higher percentage of affordable units could be negotiated.

After a brief discussion, Ms. Lanning said that she was confident that 8% affordable units can be reached, but was not sure about beyond that.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to recommend approval of the conditional zoning request for the Ferry Road subdivision (with the amendment to the condition that at least 8% of the total number of units at initial sale will be affordable to people at or below 100% of AMI as published annually by the Dept. of HUD. City shall be notified of sales price prior to final CO of unit to ensure the initial sales price is at this affordability price point) from Residential Multi-Family High Density District (RM16) to Commercial Expansion District (COM EXP) and Residential Expansion District (RES EXP) and declare that this approval is also deemed an amendment to the Future Land Use Map within the Living Asheville Comprehensive Plan, and find that the request and resulting Future Land Use Map amendment from Traditional Neighborhood and Neighborhood Center to Residential Neighborhood, Neighborhood Center and Parks/Open Space is reasonable, is in the public interest, meets the development needs of the community and is consistent with the city's comprehensive plan in that this Project: (1) provides a mix of housing units that will help to meet the demand for housing in Asheville; (2) is compatible with current and desired future land

uses; (3) helps to preserve environmentally sensitive land adjacent to the French Broad River; and, (4) aligns with the community character for this area as specified in the Living Asheville Comprehensive Plan. This motion was seconded by Councilman Kapoor and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 277

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 19-8 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROPERTY TAX BILLING AND COLLECTION FEE AGREEMENT WITH BUNCOMBE COUNTY

Director of Finance Barbara Whitehorn said that the action requested is to authorize the City Manager to Execute a Property Tax Billing and Collection Fee Agreement between the City of Asheville and Buncombe County

Background:

- A new agreement with Buncombe County replacing the 2005 agreement that established the fee charged to the City at 1.5% of total tax levy. The City saw a significant increase in costs with revaluation; the 2016-17 cost for billing was $895,000.
- Effective July 1, 2019
- Three year agreement
- Year 1: $815,000; 2.5% annual increase

Council Goal(s):

- Financially Resilient Community

Committee(s):

- Finance and HR Committee, November 27, 2018: unanimously recommended authorization

Pro(s):

- Billing for tax collections will be predictable and not linked to taxable values of property. Over the three year contract, the billed amount remains below the 2017 level of $895,000.

Con(s):

- None

Fiscal Impact:

-

FY 2019-20	FY 2020-21	FY 2021-22
$815,000	$835,375	$856,259

- Option to add Special Assessment District(s) at $7,500 set up fee and $18.50/bill
- The approximate annual savings to the City is $100,000

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to authorize the City Manager to Execute a Property Tax Billing and Collection Fee Agreement between the City of Asheville and Buncombe County. This motion was seconded by Councilwoman Smith and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 223

B. BOARDS & COMMISSIONS

Regarding the Board of Electrical Examiners, no one applied for the layman seat; therefore, City Council instructed the City Clerk to continue advertising.

Regarding the Citizens-Police Advisory Committee, the Citizens-Police Advisory Committee recommended the seats be re-advertised in order to get a more diverse applicant pool. Therefore, it was the recommendation of the Boards & Commissions Committee and the consensus of Council, to readvertise for the two seats in order to get a more diverse applicant pool.

RESOLUTION NO. 19-9 - RESOLUTION APPOINTING A MEMBER TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Affordable Housing Advisory Committee.

There is currently an unexpired term left by Mr. Scott Dedman until September 1, 2019.

The following individuals applied for the vacancy: Bob Ray, Natalie Kramer, Teresa Kirkwood, Kerri McCoy, Grace Barron-Martinez, Andy Barnett, J.V. Farr, Margie Bukowski and Amber Banks.

It was the consensus of the Boards & Commissions Committee to appoint Andy Barnett.

Vice-Mayor Wisler moved to appoint Andy Barrett to fill the unexpired term of Mr. Dedman,term to expire September 1, 2019, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 224

RESOLUTION NO. 19-10 - RESOLUTION APPOINTING AN ALTERNATE MEMBER TO THE BOARD OF ADJUSTMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing an Alternate member to the Board of Adjustment.

There is currently an unexpired term left by Ms. Christine Longoria until January 21, 2019.

The following individuals applied for the vacancy: Ken Sherlin, Paul Harkrider and Robert Carroll.

It was the consensus of the Boards & Commissions Committee to appoint Robert Carroll.

Vice-Mayor Wisler moved to appoint Robert Carroll to fill the unexpired Alternate term of Ms. Longoria, term to expire January 21, 2019, and then a full three-year Alternate term until January 19, 2022, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 225

RESOLUTION NO. 19-12 - RESOLUTION APPOINTING MEMBERS TO THE DOWNTOWN COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Downtown Commission.

The terms of Brent Campbell, Franzi Charen, Dane Barrager and Pamela Winkler expired on December 31, 2018.

The following individuals applied for the vacancy: Carleton Collins, Kelly Prime, Richard Winchell, Jane Mathews, Rebecca Huber-Brown, Greg Hoffman, Aaron Ryba, Sarah Craycraft, Jody Kuhne, Vernon Robinson, John Kledis, Peter Landis, Stu Helm and Claudette Silver.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Campbell, Ms. Charen, Mr. Barrager and Ms. Winkler.

Vice-Mayor Wisler moved to reappoint Brent Campbell, Franzi Charen, Dane Barrager and Pamela Winkler to each serve an additional three-year term respectivefully, terms to expire December 31, 2021, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 227

RESOLUTION NO. 19-13 - RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Homeless Initiative Advisory Committee.

Mr. Gene Bell has resigned, thus leaving an unexpired term until January 19, 2019.

The following individuals applied for the vacancy: David Nash and Amber Banks.

It was the consensus of the Boards & Commissions Committee to appoint David Nash.

Vice-Mayor Wisler moved to appoint David Nash to serve the unexpired term of Mr. Bell, term to expire January 19, 2019, and then a full three-year term, term to expire January 19, 2022, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 228

RESOLUTION NO. 19-14 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Metropolitan Sewerage District Board.

The term of Chris Pelly expires on January 19, 2019.

The following individuals applied for the vacancy: None.

It was the consensus of the Boards & Commissions Committee to waive the rules and reappoint Mr. Pelly to a third term.

Vice-Mayor Wisler moved to reappoint Chris Pelly to serve an additional three-year term , term to expire January 19, 2022, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 229

RESOLUTION NO. 19-15 - RESOLUTION APPOINTING MEMBERS TO THE MOUNTAIN COMMUNITY CAPITAL FUND OPERATING COMMITTEE AND CREDIT UNDERWRITING SUBCOMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Mountain Community Capital Fund Operating Committee and Credit Underwriting Subcommittee.

On September 11, 2018, City Council adopted Resolution No. 18-241 authorizing the City Manager to execute the Mountain Community Capital Fund and Technical Assistance Program Allocation of Services and Duties Agreement. The by-laws of the organization asks that two community stakeholders be appointed by the City of Asheville. The Operating Committee shall also be comprised of (1) two members of City staff to be appointed by the City of Asheville; (2) two members of County staff be appointed by Buncombe County; (3) two community stakeholders be appointed by Buncombe County; and (4) representatives of Participating Lenders.

The following individuals applied for the vacancy: Lynn Smith, Jacob Blass, Grant Millin and Dee Williams.

It was the consensus of the Boards & Commissions Committee to appoint Lynn Smith and Dee Williams.

Vice-Mayor Wisler moved to appoint Lynn Smith and Dee Williams to each serve a two-year term respectively, terms to expire two years after the entire Committee is established. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 230

RESOLUTION NO. 19-16 - RESOLUTION APPOINTING A MEMBER TO THE RIVERFRONT REDEVELOPMENT COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Riverfront Redevelopment Commission.

The term of Jane Mathews (design professional) expired on January 1, 2019.

The following individuals applied for the vacancy: Shelly Schenker, Brent Starck, Stuart Cowles, Emily Boyd, Daniel Brown, Michael McDonough and Greg Hoffman.

It was the consensus of the Boards & Commissions Committee to reappoint Ms. Mathews.

Vice-Mayor Wisler moved to reappoint Jane Mathews (design professional) to serve an additional three-year term , term to expire January 1, 2022, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 231

RESOLUTION NO. 19-17 - RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABILITY ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Sustainability Advisory Committee on Energy & the Environment.

The terms of Anna Priest, Keith McDade and John O'Connor expired on December 31, 2018.

The following individuals applied for the vacancy: Amy Smith, Ursula Jorch, Susan Bean, Michelle Myers, Dave Penrose, Carol Ann Lyndon, Greg Jennings, Steve Linton, Lynn Pace and Ashley Ray Edwards.

It was the consensus of the Boards & Commissions Committee to reappoint Ms. Priest, Mr. McDade and, at the request of the Committee, to re-advertise for the third seat.

Vice-Mayor Wisler moved to (1) reappoint Anna Priest and Keith McDade to each serve an additional three-year term respectivefully, terms to expire December 31, 2021, or until their successors have been appointed; and (2) re-advertise for the third seat. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 232

RESOLUTION NO. 19-18 - RESOLUTION APPOINTING MEMBERS TO THE TREE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Tree Commission.

The terms of Stephen Hendricks and Amy Smith expired on December 31, 2018.

The following individuals applied for the vacancy: Chip Hood, Patrick Gilbert and Jonathan Watterson.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Hendricks and Ms. Smith.

Vice-Mayor Wisler moved to reappoint Stephen Hendricks and Amy Smith to each serve an additional three-year term respectivefully, terms to expire December 31, 2021, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 233

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Tom Halladay and Mr. Casey Campbell both spoke in opposition of redistricting Asheville.

Mr. Jonathan Wainscott spoke about the redistricting map and its demographic make-up.

Ms. Susan B. Loftis presented Council with the following draft resolution regarding I-26: "Whereas, the City of Asheville has worked hand in hand with NCDOT; and Whereas, the NCDOT has developed in good faith the current plan based on the wishes of the City; and Whereas, the City and its citizens have only recently been in a position to realize fully the consequences of the large land taking and the 4b flyovers; and Whereas, the citizens of Asheville attended the Tuesday, Dec. 4 meeting and overwhelming expressed concern and opposition to the current plans. The City of Asheville acknowledges the need for an I-26 connector project but opposes the current layout and requests that NCDOT project team meet with Julie Mayfield, Debra Campbell, the new city manager, and a small group of citizens to address our concerns in an effort to improve the project."

Mr. Tracy DeBruhl spoke about the Citizens-Police Advisory Committee and his interest in being appointed to this Committee.

Mr. Ben Williamson commented on future housing developments. He felt there is not a housing shortage for people making far above the AMI, but a shortage for those who are at or especially below the AMI. He hoped Council will be firm with future developers to challenge them to do much more to truly address affordable housing.

Mr. Reid Thompson commented about the number of zoning violations related to the commercial activity of Greenlife on Maxwell Street. Mayor Manheimer said that a memorandum has been prepared regarding Maxwell Street enforcement and will be provided to City Council as well as Mr. Thompson.

Closed Session

At 6:42 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee pursuant to N.C. Gen. Stat. sec. 143-318.11 (a)(6) and to prevent the disclosure of information that is confidential pursuant to N. C. Gen. Stat. sec. 160A-168, the Personnel Privacy Act, pursuant to N. C. Gen. Stat sec. 143.318.11 (a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 6:51 p.m., Councilman Kapoor to come out of closed session. This motion was seconded by Councilwoman Smith and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:51 p.m.

Magdalen Bouleson
CITY CLERK

MAYOR

Tuesday – January 22, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: Councilman Brian D. Haynes (out of town)

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JANUARY 22, 2019, AS "NATIONAL DAY OF RACIAL HEALING"

Mayor Manheimer read the proclamation proclaiming January 22, 2019, as "National Day of Racial Healing " in the City of Asheville. She presented the proclamation to Equity & Inclusion Director Kimberlee Archie, who introduced her team, and who introduced Ms. Phyllis Utley and Mr. DeWayne Barton to accept the proclamation. Mr. Barton briefed City Council on some activities taking place during the day.

B. PROCLAMATION PROCLAIMING FEBRUARY 4-10, 2019, AS "CELEBRATE TENNIS WEEK"

Councilwoman Mayfield read the proclamation proclaiming February 4-10, 2019, as "Celebrate Tennis Week" in the City of Asheville. She presented the proclamation to Mr. Demp Bradford, Executive Director of the Asheville-Buncombe Regional Sports Commission, and others, who briefed City Council on some activities taking place during the week.

C. INNOVATION IN SUSTAINABILITY AWARD

Mr. Jason Walls, District Manager of Duke Energy in Asheville, presented the City of Asheville with Duke Energy's 25th Annual Power Partner Award 2018 for Innovation in Sustainability. He explained this is the 25th consecutive year, Duke Energy has selected six outstanding organizations to receive the company's prestigious Power Partner award. Duke Energy established the Power Partner award in 1992 to honor businesses and other organizations that achieve exemplary results in categories that include solutions innovation, community excellence, economic development, sustainability innovation and storm restoration. In citing the City and County for the award, he said in 2016, the City of Asheville and Buncombe County worked with Duke Energy to convene the Energy Innovation Task Force aimed at achieving three goals: (1) Avoid or delay the need for a new peaking power plant in western North Carolina; (2) Promote energy efficiency and demand-side management; and (3) Create programs through close community engagement. The Energy Innovation Task Force's Blue Horizons Project, for example, is a coordinated effort to engage all customers (residential, commercial and industrial) in helping build a cleaner and smarter energy future for the region.

II. CONSENT AGENDA:

A. **APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 8, 2019**

B. **RESOLUTION NO. 19-19 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH THE HARPER CORPORATION FOR THE NORTH FORK WATER TREATMENT PLANT SODIUM BICARBONATE SILO REPLACEMENT PROJECT**

Action Requested: Adoption of a resolution authorizing the City Manager to execute a construction agreement with The Harper Corporation for the North Fork Water Treatment Plan (NFWTP) Sodium Bicarbonate Silo Replacement Project.

Background:

- On December 13, 2018, the Water Resources Department (WRD) received bids for the subject project.
- The scope of the project includes replacement of the sodium bicarbonate storage silo, mixing and feed equipment at the NFWTP.
- The Lead & Copper Rule requires that the City treat the drinking water with sodium bicarbonate as part of corrosion control programs for the water distribution system. The project will replace equipment installed in 1996.
- In response to the Advertisement for Bids, the department received three bids from:
  1. The Harper Corporation, Greenville SC - $968,000 ($909,000 base bid, $59,000 Alternate #1);
  2. J.S. Haren, Etowah TN - $1,007,000 ($957,000 base bid, $50,000 Alternate #1); and
  3. Brushy Mountain Builders, Lenoir NC - $1,042,000 ($997,000 base bid, $45,000 Alternate #1).
- Following a review of the bids by City staff and the project engineer, Brown and Caldwell, The Harper Corporation was selected as the lowest responsible, responsive bidder.
- The WRD requests authorization to contract with The Harper Corporation for the bid amount of $968,000 ($909,000 base bid + $59,000 potential Alternate #1) plus a 15% contingency in the amount of $145,200 for a total project budget in the amount of $1,113,000.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- N/A

Pro(s):

- This project will replace the existing equipment that reached the end of its functional life cycle.
- Ensure the City meets EPA Lead & Copper requirements.
- Supports capital investment in the City of Asheville.

Con(s):

- None.

Fiscal Impact:

- The Water Resources Department currently has the funds needed for this construction agreement budgeted in the "Water Treatment Plant Project" in the Capital Improvement Program Fund.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a construction agreement with The Harper Corporation for the North Fork Water Treatment Plan (NFWTP) Sodium Bicarbonate Silo Replacement Project.

RESOLUTION BOOK NO. 40 - PAGE 234

C. RESOLUTION NO. 19-20 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND A CONTRACT WITH MCGUIRE, WOOD & BISSETTE FOR LEGAL SERVICES

ORDINANCE NO. 4724 - BUDGET AMENDMENT TO FUND CONTRACT AMENDMENT WITH MCGUIRE, WOOD & BISSETTE AND ADDITIONAL OUTSIDE LEGAL SERVICE EXPENSES

Action Requested: Adoption of a resolution authorizing the City Manager to amend a contract with McGuire, Wood & Bissette for legal services; and the associated budget amendment, from General Fund unassigned fund balance, in the amount of $300,000 to fund the contract amendment and additional outside legal service expenses.

Background:

- On September 11, 2018, the City entered into an agreement with McGuire, Wood & Bissette for legal services.
- Sabrina Rockoff has been maintaining office hours in City Hall and serving as Interim City Attorney until a new City Attorney is hired.
- Peter Kanipe, in addition to other staff with McGuire, Wood & Bissette have been assisting as needed.
- The original contract had a not to exceed amount of $200,000, and due to the delay in hiring a new City Attorney a contract amendment is necessary to the not to exceed $200,000 section of the contract.
- In addition, due to the delay in hiring a new City Attorney along with other outside legal service expenses that have exceeded initial estimates, a budget amendment is necessary, in the amount of $300,000, from General Fund unassigned fund balance. ($100,000 outside legal services and $200,000 for interim City Attorney services.)

Council Goal(s):

- N/A

Committee(s):

- N/A

Pro(s):

- Provides much needed resources to the City during this interim period.

Con(s):

- None identified

Fiscal Impact:

- As noted above, the funding for this budget amendment will come from unassigned General Fund fund balance. Based on year-end revenue and expense estimates from the first quarter of Fiscal Year 2018-19, coupled with this additional fund balance appropriation, staff is projecting that unassigned fund balance will end the year at 14.6%.

A complete update to revenues and expenses and fund balance projections will be provided to City Council as part of the Q2 Financial Report in February.

Motion:

- Move to adopt a resolution authorizing the City Manager to amend a contract with McGuire, Wood & Bissette for legal services; and the associated budget amendment, in the amount of $300,000 to fund the contract amendment and additional outside legal service expenses.

RESOLUTION BOOK NO. 40 - PAGE 235
ORDINANCE BOOK NO. 32 - PAGE 283

D. RESOLUTION NO. 19-21 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE PROFESSIONAL SERVICES AGREEMENT WITH FIELDS CONSULTING GROUP RELATED TO THE PROMOTIONAL PROCESSES IN THE ASHEVILLE POLICE DEPARTMENT

Action Requested: Adoption of a resolution authorizing an amendment to the Fields Consulting Group contract.

Background:

- In 2016, the Asheville Police Department (APD) contracted with the Fields Consulting Group to provide professional services related to the promotional processes for the ranks of Sergeant, Lieutenant and Captain. The contract has been renewed 3 times and is currently at a funding level of $89,000.
- The 2018 promotional process has been concluded. Fields Consulting Group has submitted their final invoice. The total charge exceeds the contract encumbered balance by $3,000. APD agrees that the total charge is correct. The contract cannot be renewed beyond the current balance without City Council approval.
- The Fields Consulting Group contract needs to be amended by $3,000 to a total of $92,000 to allow for payment of the vendor's final invoice.

Council Goal(s):

- Connected and Engaged Community

Committee(s):

- Finance & Human Resources Committee – January 22, 2019 meeting.
- Did not go through Public Safety Committee since their January meeting was cancelled.

Pro(s):

- Funding allows for a professional promotion process at APD.

Con(s):

- None.

Fiscal Impact:

- An additional $3,000 will be charged to APD's fiscal year 2019 operating costs. Funding will come from the existing Fiscal Year 2018-19 Police Department operating budget.

Motion:

- Motion to adopt a resolution authorizing an amendment to the Fields Consulting Group contract.

RESOLUTION BOOK NO. 40 - PAGE 236

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. REVIEW OF BUDGET PRIORITIES & COMMUNITY FEEDBACK

Chief Financial Officer Barbara Whitehorn said that the goals of the project is (1) to improve community access to budget process; (2) improve staff understanding of community profiles; and (3) provide community input for Council consideration in budget process.

During the process and engagement portion, staff (1) held four community meetings (budget overview, check-in on neighborhood survey results, and on-site staff); (2) held Council education sessions (monthly discussions of departmental budgets); and (3) had an on-line Open City Hall Survey.

She used a chart showing the citizen survey results in which we received 343 responses. Results were public safety - 90%; environmental protection & sustainability - 88%; affordable housing development - 85%; sidewalks, bikeways & greenways - 84%; improving roads - 83%; public transportation - 77%; food security - 71%; youth recreational programs - 70%; City parks - 68%; maintenance of public buildings - 68%; adult recreational programs - 51%; and recreation centers - 50%.

For the budget Open City Hall we had 441 visits and received 79 responses. She used a chart showing the budget Open City Hall which ranged from environment to City Parks and Recreation. Other priorities included homelessness; mitigating impact of tourism and development, especially in low-income communities; rideshare and alternative transit options; City employee pay and retaining talented workforce; better paying jobs in the community; improving downtown parking options; and traffic congestion. Benefits and lessons learned include (1) community input is valuable to staff in developing recommendations and is also valuable to Council for decision-making; (2) inclusive community outreach to people less likely to use an online survey; (3) feedback opportunities at public meetings need more structure; (4) include community education on the City's role and limitations; and (5) meet people where they are.

Potential strategies for Fiscal Year 2021 include (1) continued education on City role, responsibilities and resources (informational videos and other resources; and (2) more impactful engagement (develop a more effective way of collecting input; outreach to community leaders; additional meeting locations and times; and piggyback on existing community meetings).

IV. PUBLIC HEARINGS:

28

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE MAKING ALL SUBDIVISIONS IN HISTORIC OVERLAY DISTRICTS AND ON LOCAL HISTORIC LANDMARK PROPERTIES A MAJOR WORK

Councilman Young moved to table this public hearing. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING A PORTION OF PROPERTY LOCATED AT 252 PATTON AVENUE AND A PORTION OF PROPERTY LOCATED AT 28 KNOXVILLE PLACE FROM CENTRAL BUSINESS DISTRICT AND RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/CONDITIONAL ZONE TO CONSTRUCT AN ELECTRIC UTILITY SUBSTATION

ORDINANCE NO. 4725 - ORDINANCE TO CONDITIONALLY ZONE A PORTION OF PROPERTY LOCATED AT 252 PATTON AVENUE AND A PORTION OF PROPERTY LOCATED AT 28 KNOXVILLE PLACE FROM CENTRAL BUSINESS DISTRICT AND RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/CONDITIONAL ZONE TO CONSTRUCT AN ELECTRIC UTILITY SUBSTATION

At this time, Interim City Attorney Rockoff left the Council dais due to a conflict of interest, and in her place Senior Assistant City Attorney John Maddux sat in for her during this item.

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to conditionally zone a portion of property located at 252 Patton Avenue and a portion of property located at 28 Knoxville Place from Central Business District and RM-8 Residential Multi-Family Medium Density District to Central Business District Expansion/Conditional Zone to construct an electric utility substation. This public hearing was advertised on January 11 and 18, 2019.

Background:

- The project area includes portions of two separate lots - one zoned CBD and one zoned RM-8. The balance of the two properties, along with three additional residential lots to the south, are proposed to be graded in conjunction with the utility substation project to prepare the surrounding property for future development.
- A typical air-insulated substation is a permitted use in all zoning districts and is not subject to special design requirements.
- Duke Energy is proposing to construct a gas-insulated switchgear (GIS) substation on the property.
- The GIS is proposed to be enclosed within a single two-story building that will be 25-feet tall and 5,200 square feet.
- The unique operational needs of the building prevents normal compliance with the downtown design standards and several conditions modifying design standards are included in the proposal.

Council Goal(s):

- A Well-planned and Livable Community.
- A Connected and Engaged Community.

Committee(s):

- Technical Review Committee - September 17, 2018 - approved with conditions.
- Downtown Commission - October 12, 2018 - approved unanimously.
- Planning & Zoning Commission - December 5, 2018 - approved unanimously.

Pro(s):

- Proposes the use of a GIS substation resulting in a much smaller impact leaving room for future development that will help screen the substation from view.
- Includes the dedication of additional land as right-of-way along Patton Ave. and Clingman Ave. to allow for future transportation improvements (to be done by others);
- The owner/developer utilized a thorough public input and community engagement process that resulted in a community supported design;
- Provides a critical service need in an area targeted for significant growth.
- The development is aligned with the designated Future Land Use category of the Living Asheville Comprehensive Plan for this area (utility service to support growth)

Con(s):

- Adjacent property may not be suitable for some uses that are sensitive to the external effects of a substation;
- Results in a visual impact on a key gateway property into the downtown.

Fiscal Impact:

- There is no direct fiscal impact, however, the substation will directly support, and is necessary for, current and future development in and around the downtown area. This future development will have a positive fiscal impact.

In response to Councilwoman Mayfield, Mr. Walls said the difference between an gas-insulated facility is it's about the insulation needed to keep the electrical components insulated from one another. He thanked the community for their commitment and willingness shown throughout this process to come up with a solution that fits Asheville.

In response to Mayor Manheimer, Mr. Walls said the site is large enough to levering those two out parcels will allow us to sell it back into the market to help offset the increased cost of technology. There is a gas-insulated substation in Chapel Hill but this is the first one in the state that Duke Energy Progress has built.

Mayor Manheimer opened the public hearing at 5:47 p.m., and when no one spoke, she closed the public hearing at 5:47 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning request from Central Business District and Residential Multi-family Medium Density to Central Business District - Conditional Zone (CBD- CZ) to allow for the construction of a 5,200 square foot, one-story, gas-insulated substation and find that the request is reasonable, is in the public interest and is consistent with the comprehensive plan in that the project: 1) minimizes land use impacts through innovative design; 2) utilized a thorough public input and community engagement process; and, 3) provides a critical service need in an area targeted for significant growth. This motion was seconded by Councilwoman Smith and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 285

V. UNFINISHED BUSINESS:

A. CONSIDERATION TO SUPPORT OPTION 1 AS THE NEXT STEPS FOR THE HAYWOOD/PAGE REDEVELOPMENT PLANNING

RESOLUTION NO. 19-22 - RESOLUTION AUTHORIZING THE CITY MANAGER TO IDENTIFY A MULTI-YEAR FUNDING STRATEGY TO COMPLETE THE SITE DESIGN AND IMPLEMENTATION PLAN FOR HAYWOOD STREET AND PAGE AVENUE REDEVELOPMENT PROJECT

Director of Planning & Urban Design Todd Okolichany said that this is consideration to authorize City Manager to Identify a Multi-Year Funding Strategy to Complete the Site Design and Implementation Plan for City-Owned Property on Haywood Street and Page Avenue

Background:

- In 2016, the Asheville City Council approved a community visioning process for the future use of city-owned properties located at 68-76 Haywood Street and 33-39 Page Avenue.
- The Haywood Street Visioning Project Advisory Team Final Report ("Vision Report") was created by the Asheville Design Center and an Advisory Team comprising of community members. The report was presented to and accepted by City Council on March 28, 2017.
- On September 12, 2017, City Council approved the release of a Request for Qualifications (RFQ) and an associated timeline to create a final preferred plan for city-owned properties located at 68-76 Haywood Street and 33-39 Page Avenue.
- A team led by Nelson Byrd Woltz Landscape Architects was identified (through the RFQ process) as the top-ranked firm.
- The Finance and Human Resources Committee reviewed the negotiated project budget of approximately $324,000 on April 23, 2018, and asked staff to come back later in 2018 with recommendations on alternative funding strategies that would keep the project a priority. An additional $16,000 was identified by staff as a budget impact for an updated survey of these properties.
- Staff presented an update on the project to the Planning and Economic Development (PED) Committee of Council on December 10, 2018.

Council Goal(s):

- Council Strategic Priority Goal #8: Develop a plan for Haywood Street land use and implement as appropriate.
- Living Asheville, Asheville's Comprehensive Plan #18: Facilitate Real Estate Development That Maximizes Public Benefit.

Committee(s):

- The Planning and Economic Development Committee of City Council recommended the following to Council at their December 10, 2018, meeting:*"...request that the City Manager, in support of option 1 , identify possible funding to move forward with the Haywood St / Page Ave Site Planning project".*
- The Asheville Downtown Commission voted unanimously at their January 11, 2019, meeting to recommend "*that Council fund the work of the consultant team led by Nelson Byrd Woltz to develop a final design plan, building on the Vision Plan completed in 2017 by the Haywood Street Advisory Team*".

Pro(s):

- This direction would help staff continue exploring options to implement Council Strategic Priority #8 and further the vision outlined in the Vision Report.
- This project aligns with the Living Asheville Plan by investing in the downtown.

Con(s):

- None

Fiscal Impact:

- As noted above, the estimated cost for this project is $340,000, which is not included in the current adopted budget. Once staff identifies a funding strategy for the project, Council would need to amend the current budget to fund the project or include funding in future year adopted budgets. A multi-year funding strategy was discussed at the December 10, 2018 PED meeting.

Mr. Okolichany said that Option 1 is to hire the Nelson Byrd Woltz Landscape Architects with that money to be allocate over two fiscal years. The option would include identifying funding for up to $340,000 but splitting the work over the current fiscal year and Fiscal Year 2019-20. At this time, no funding has been allocated for this project unless this initiative is re-prioritized against other current City Council priorities. Based on the results of the Fiscal Year 2018 Comprehensive Annual Financial Report, the Finance Department does not recommend using Fund Balance as a revenue source at this time. Staff is also looking for opportunities to fund the new survey for the properties as part of existing planned capital improvements for Haywood Street. Alternately, the entire funding request could be made as part of the Fiscal Year 2019-20 budget process.

Option 1's pro is this option would provide City Council with the most data in order to make an informed decision about the long-term, sustained use and programming of 68-76 Haywood Street and 33-39 Page Avenue and the surrounding area, while continuing a previous process that was supported by the community and City Council.

Option 1's con is this is the most costly option and budget budget has been identified to date. Splitting the scope of work over two fiscal years gives uncertainty to the final outcome and deliverables.

Councilwoman Mayfield said that at the Finance & HR Committee, she learned that the City have a little over $114,000 available from the sale of a piece of property that was going to be for a study related to affordable housing. She said if that money doesn't have to go into that pot where we already have designated monies for affordable housing, that City staff consider using those proceeds to at least fund a portion of this.

The following individuals spoke in support of Option 1 with most supporting Elder & Sage Community Gardens being an integral part of whatever design is created for this area:

Mr. David Nutter
Mr. Wanda Lovejoy
Ms. Clare Hanrahan
Mr. David Johnson
Ms. Amber Banks
Mr. Chris Joyell
Ms. Mary Everest
Mr. Craig Cline
Mr. Scott Owen
Ms. Rachel Bliss
Mr. Andrew Fletcher

Mr. David Madden spoke in support of allowing some space to a small museum

Mr. Roy Harris hoped that somewhere on the site there will be an African American element.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to adopt a resolution authorizing the City Manager to identify a multi-year funding strategy to complete the Site Design and Implementation Plan for city-owned properties on Haywood Street and Page Avenue. This motion was seconded by Councilwoman Smith and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 237

VI. NEW BUSINESS:

A. ORDINANCE AMENDING PROVISIONS OF CHAPTER 10, ARTICLE IV OF THE CODE OF ORDINANCES CONCERNING NOISE REGULATION

Senior Assistant City Attorney John Maddux said that this is the consideration of amending provisions of Chapter 10, Article IV of the Code of Ordinances concerning noise regulation.

Background:

- City staff have identified certain inefficiencies and structural problems in the City's noise ordinances. For that reason, staff are proposing revisions to those ordinances with the intention of promoting better and more efficient enforcement, eliminating administrative challenges related to collecting civil penalties and making ordinance language clearer.
- These changes include
    - Removing the Noise Ordinance Appeals Board (NOAB) as an enforcement mechanism;
    - Punishing violations as an infraction rather than a misdemeanor;
    - Providing Development Services with authority to regulate construction noise through a permitting process;
    - Regulating animal noise solely through the animal ordinance; and
    - Eliminating redundant and confusing provisions. Complaints currently pending before the Noise Ordinance Appeals Board will be provided a window in which they will be heard and concluded.
- The City Manager has expressed an interest in undertaking a more comprehensive review of the City's noise regulations with the intention of making more substantive changes if necessary. These revisions, therefore, should be considered a first-step in a longer-term effort aimed at identifying how noise will be regulated in Asheville.

Council Goal(s): A well-planned and livable community.

Committee(s): On December 17, 2018, the Public Safety Committee voted unanimously to recommend the City Council adopt the proposed revisions.

Pro(s):

- Reduces inefficiencies; allocates enforcement authority to city personnel best positioned to achieve compliance;

Con(s):

- Does not address commercial noise, which is a frequent source of complaints

Fiscal Impact: The City has collected approximately $13,050 for violations of the City's Noise Ordinance since 2009. This amount has fallen off significantly in the past three years, however, so the fiscal impact would be quite minimal under current trends.

Mr. Maddux further explained the current ordinance inefficiencies and deficiencies in the way the ordinance regulates noise. He then reviewed the current ordinance's exceptions, police enforcement, and Noise Ordinance Appeals Board (NOAB).

He then reviewed the proposed changes:

(1) The collection of unpaid civil penalties is impractical, and as a result, violating the noise ordinance carries no practical, enforceable consequences.

Proposed Solution - Punish violations as infractions instead of civil penalties. The person committing the infraction may be punished by a fine of not more than $100.00 per violation, plus court fees, unless they are waived by the court.

Under North Carolina law, cities may punish ordinance violations as misdemeanors, non-criminal infractions or civil penalties. Misdemeanors and infractions are administered by the courts, and courts may impose very real sanctions if they are not paid. Revisiting the ordinance so that a violation is punished as an infraction would, therefore, help ensure that violating the ordinance carries real consequences.

(2) The NOAB is inefficient and largely unsuccessful method for resolving noise disputes between residents. In addition, the NOAB would be unable to issue citations for infractions.

Proposed Solution - Disband NOAB.

Citations for infractions may only be issued by sworn law enforcement officers, and as a result, this revision would require disbanding the NOAB. Eve if that were not the case, however, staff would recommend eliminating the NOAB as it is rarely used for hearing appeals from police officer issued citations. In addition, the NOAB's adversarial citizen complaint process has proven an efficient and largely unsuccessful method for resolving noise disputes. As such, eliminating the NOAB process would not negatively impact enforcement, and could actually incentivize residents to mediate their disputes, which staff has found to be a far better process for resolving noise issues. In addition, in situations where police do not hear the noise or simply disagree that the noise rises to the level of a violation, citizens would be able to seek enforcement through the magistrate's office.

(3) The ordinances do not effectively address noise concerns caused by building construction.

Proposed Solution - Amend code to provide Development Services with authority to regulate construction noise.

Construction noise has been a major source of citizen complaints over the past several years, however, the noise ordinances have proven ineffective at regulating this particular concern. Police officers called to respond to citizen complaints about construction noise are often not in the best position to balance one party's right to the quiet enjoyment of their property against another's right to engage in construction. In addition, the ordinance contains a confusing provision pertaining to "after-hours" permit for construction enforcement authority. For these reasons, staff proposes amending the City Code to provide the City's Development Services Department with authority to regulate construction noise as a component of the building permit process, and further amending the code to exempt construction performed pursuant to a permit from regulation under the

noise ordinances. These revisions would provide the City with far more authority than it currently possesses to regulate construction noise while also placing that authority with the City department best positioned to effectively use that authority.

(4) Noise caused by barking dogs is currently regulated by both the City's animal ordinance and the City's noise ordinance, which can lead to confusion.

Proposed Solution - Amend the City Code so that animal noise is solely regulated under the animal ordinances contained in Chapter 3.

Staff proposes exempting animal noise, which is otherwise regulated by the City's animal ordinances contained in Chapter 3 of the City Code, from regulation under the noise ordinances. This revision would help clear up confusion regarding the proper source of authority for issuing citations for barking dogs, but more importantly, it would allow animal control officers, who are not sworn law enforcement officers, to continue issuing civil penalties for barking dogs despite the revision to make violations of the noise ordinance infractions.

(5) The noise ordinance contains a number of redundant and confusing sections.

Proposed Solution - Amend ordinances to eliminate redundant language.

The noise ordinances contain a list of "frequent sources of complaint," which does not aid enforcement, and that often leads to confusion. For example, the list of 19 activities includes "yelling, shouting," as well as "parties" as activities "tending to produce unreasonably loud and raucous sounds," but whether those activities constitute a violation still depends on whether they are being conducted in a manner that "disturbs a person of reasonable sensitivity." This list, therefore, does not aid enforcement, but often leads to a misperception that certain activities are absolutely prohibited. For that reason, staff recommends that the list be removed.

Councilman Kapoor moved to adopt an ordinance amending provisions of Chapter 10, Article IV of the Code of Ordinances of the City of Asheville concerning noise regulation. This motion was seconded by Vice-Mayor Wisler.

In response to Mayor Manheimer, Councilman Young said that when you get an infraction, it's up to the District Attorney's Office or Assistant District Attorney if they want to dismiss the charge. Court costs for infractions is $188, and this fine would be $100. If you miss the court date, there is an additional $200 penalty for failure to appear. And, if they don't take care of the court case by a certain amount of time, their license could be suspended. Once their license is suspended, he felt this noise ordinance could be used in some various adverse ways. You can pay the infraction online. There is no automatic referral to the Mediation Center.

City Manager Campbell said that staff will be undertaking a more comprehensive review of the noise regulations. The recommended changes are more structural changes. They do not address the substantive issues related to noise, particularly those that impact residential areas, in particular noise from commercial establishments, light nightclubs, bars, restaurants, etc. We would like to have another phase of community engagement and public dialogue with involvement by our Planning & Urban Design staff, as well as Development Services to address some of these more broader issues. There has to be balance. We are a community that has a large sector of our economy related to tourism, but we also have an incredibly livable community where we want our residential areas to be protected as much as possible. We are trying to find that balance of maintaining the vibrancy that we have in our community, but also to protect the ability to sleep and enjoy life in your home. With this particular issue, we want a sense of reasonableness and

clear lines of "if you do these infractions, there will be consequences in terms of penalties." We are trying to clarify as much as possible the steps. This next phase will be related to clarity of the ordinance language.

Mr. Maddux said that there are some existing complaints. The NOAB will be in place for 90 days and those existing complaints will be heard within that timeframe. No new complaints will be heard.

In response to Councilwoman Smith, Mr. Maddux said that it is the Asheville Police Department's practice to give a warning first.

The following individuals spoke in opposition of the noise ordinance revisions until the comprehensive review is undertaken with public engagement:

Mr. Andrew Fletcher
Mr. Peter Landis
Ms. Martha Salyers
Mr. Casey Campfield
Ms. Diana Davidson
Mr. Philip Lenowitz
Mr. Jonathan Wainscott

Mayor Manheimer said that Council mostly receives complaints around commercial activity and would support continuing the process until we look at a more comprehensive approach.

Vice-Mayor Wisler, liaison to the NOAB, agrees that we need to look at the noise regulations in a comprehensive manner, but supported adopting these revisions, with the idea that the comprehensive piece will proceed quickly.

Councilman Young could not support these revisions as he felt they were not looked at through an equity lens. He felt this ordinance can affect other people's lives in an adverse way and did not support opening up pathways to the criminal justice system.

Councilman Kapoor withdrew his motion to adopt the noise ordinance revisions.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Jonathan Wainscott spoke in favor of City elections being in the even year cycle.

Matilda Bliss, Casey Campfield and Kim Roney spoke about redistricting and the overwhelming numbers of Asheville citizens who voted against district. Mayor Manheimer explained that the City is soliciting some legal advice on their options regarding redistricting.

Rupa Russe spoke about zoning code enforcement.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:58 p.m.

Magdalen Bowlerson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – February 12, 2019 - 3:00 p.m.

Capital Improvement Program Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; and City Clerk Magdalen Burleson

City Manager Campbell said that this will be an update on the Capital Improvement Program. She said that like most communities, Asheville has historically been challenged to fund capital needs. Recent investments have improved the overall quality of our capital assets. Continued investments are required to maintain our momentum.

Chief Financial Officer Barbara Whitehorn provided an overview of the capital planning and budgeting. A capital asset is land;buildings and improvements; infrastructure (streets, sidewalks); and equipment and machinery. Capital assets are separate from operating because of scale of investment, longer time horizon, use of debt, and project based not program based.

She then reviewed our history of capital investments. Our last GO Bond referendum was approved in 1986, and the last attempt unsuccessful was in 1999.

Ms. Whitehorn then reviewed the current status of projects (1) GO Bond Projects where the initial phase has been completed; (2) GO Bond Projects that are under construction; (3) GO Bond Projects that are in design; and (4) GO Bond Projects that are in planning. Using maps, she showed the geographic investments of Bond Projects and other CIP Projects. Using charts, she reviewed the projected capital spend. She explained the road resurfacing and condition impact; and playground improvements. She explained leveraging limited resources, such as FTA grants, MPO grants, MSD partnership; and others.

Ms. Whitehorn then reviewed future needs and costs, showing a citizen survey of investment priorities with public safety being 90% and recreation centers coming in last at 50%. She then talked about the community feedback that was sought.

The current CIP Total (FY 20-23) is $60 Million; and the requested by Departments (FY 20-24) is $330 Million. Existing CIP (ongoing allocations) include computer replacement; facility maintenance and roof replacement; fleet (General, Fire Department, Transit); park facilities and turf replacement; new sidewalk construction; and road resurfacing. Existing CIP (new projects) include public safety radio replacement; Chunn's Cove Bridge Rehabilitation; Hazel Mill Road sidewalk; I-26 Connector; and NC-191 sidewalk.

She then detailed the different types of department requests (1) planned projects with additional needs; (2) additional maintenance needs; and (3) unfunded projects. Unfunded projects include (1) Transit Master Plan recommendations (a) Facility replacement - $50 Million; and (b) service expansion - $12 Million; (2) Transit expansion - $76 Million; (3) Thomas Wolfe Renovation - $60 Million; (4) McCormick Field Infrastructure Upgrades - $5 million; and Greenway System expansions - $26 Million.

City Manager Campbell said that as we work on what Council's strategic priorities can be categorized as short, medium and long-term, we will have a better approach on how we can address these needs. These are our priorities and we will look at our financing toolbox so that we can hopefully reduce that gap between need and our ability to address those needs.

Ms. Whitehorn said that next steps include (1) provide information to Council about

requests and available resources (February); (2) staff continue to review and develop recommended CIP based on strategic priorities and financial capacity (February/March); (3) Council review draft of preliminary 5-year CIP (March/April); and (4) proposed CIP budget adoption (May/June).

Ms. Whitehorn responded to various questions/comments from Council and those which could not be readily answered would be sent to Council via a memorandum. Some questions/comments were: what is the plan to begin the maintenance facility replacement from the transit master plan recommendations; is there funding included for the facilities study included in the transportation budget; request to see list of projects that total the $330 Million of unfunded projects, along with potential partnerships and grants and what kind of debt they would be eligible for; confirmation that the three high impact sites identified, along with oak hill and cedar hill affordable housing properties are not included in the unfunded projects.

At 3:46 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – February 12, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer, along with a member of the Boy Scouts, led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 22, 2019

B. ORDINANCE NO. 4726 - ORDINANCE TO CHANGE THE SPEED LIMIT ALONG SECTIONS OF LYMAN STREET AND RIVERSIDE DRIVE FROM 30 MPH TO 25 MPH

Action Requested: Adoption of an ordinance changing the posted speed limit along sections of Lyman Street and Riverside Drive from 30 mph to 25 mph.

Background:

- N.C. Gen. Stat. § 20-141 gives the City the authority to regulate speed limits within its corporate limits.
- Posted speed limits are typically based on an engineering and traffic investigation.
- The River Arts District Transportation Improvement Project (RADTIP), currently under construction, has a design speed of 30 mph.
- During the design phase, the target speed was determined to be 25 mph and according

to the Policy on Geometric Design of Highways and Streets, 2018 7th Edition (The Green Book), the target speed is intended to be used as the posted speed limit.

Council Goal(s):
- Transportation and Accessibility.

Committee(s):
- None

Pro(s):
- Meets the design criteria of an ongoing project.
- Complements the multi-modal aspects of an ongoing project.

Con(s):
- None

Fiscal Impact:
- Cost of installing and maintaining speed limit signs included in the current operating budget.

Motion:
- Motion to approve an ordinance enacting a 25 mph speed limit on Lyman Street from SR 3556 (Amboy Road) to Riverside Drive and on Riverside Drive from Lyman Street to Hill Street.

ORDINANCE BOOK NO. 32 - PAGE 293

C. RESOLUTION NO. 19-23 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH COOPER CONSTRUCTION COMPANY INC. FOR THE NORTH FORK BRIDGE TRANSMISSION LINE BYPASS PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a construction agreement with Cooper Construction Company, Inc., for the North Fork Bridge Transmission Line Bypass Project.

Background:
- On January 7, 2019, the Water Resources Department (WRD) issued an Advertisement for Bids for the North Fork Bridge Transmission Line Bypass Project.
- The scope of work for this project includes the installation of approximately 1,700 Linear Feet (LF) of 36-inch transmission line and appurtenances along North Fork Road with tie-ins to the existing 36 and 24-inch transmission lines to the north and south of the bridge crossing the North Fork of the Swannanoa River.
- This proposed project has been determined to be a critical installation that will provide a redundant water transmission line bypass feed to a section of existing transmission mains, which are highly susceptible to failure during flooding events on the North Fork of the Swannanoa River.
- In response to the Advertisement for Bids, the WRD received three bids on January 29, 2019. Companies responding were:
    1. Cooper Construction Company, Inc.; Flat Rock, NC – Bid: $1,850,740.00
    2. McClam & Associates, Inc..; Little Mountain, SC – Bid: $2,629,021.25
    3. Piedmont Utility Group, Inc.; Mooresboro, NC – Bid: $8,898,171.94

- Following a review of the bids by City Staff and the project engineers, McGill Associates,the firm Cooper Construction Company, Inc., was selected as the lowest responsible, responsive bidder.
- The WRD requests authorization to contract with Cooper Construction for the bid amount of $1,850,740 plus a 15% contingency in the amount of $277,611 for a total project budget in the amount of $2,128,351.

Council Goal(s):
- A Financially Resilient City.

Committee(s):
- Not Applicable.

Pro(s):
- This project will add a redundant water transmission line in an area where the existing transmission lines are at high risk of failure due to flooding. By adding the redundant transmission line, our ability to continue to provide water service to our customers during flooding events along North Fork of the Swannanoa River are greatly enhanced.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con(s):
- None.

Fiscal Impact:
- The Water Resources Department currently has the funds needed for this construction agreement budgeted in the "Master Plan / Large Waterline Replacement" project in the Capital Improvement Program Fund.

Motion:
- Move to adopt a resolution authorizing the City Manager to execute a construction agreement with Cooper Construction Company, Inc., for the North Fork Bridge Transmission Line Bypass Project.

RESOLUTION BOOK NO. 40 - PAGE 238

D. RESOLUTION NO. 19-24 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AMENDED GRANT AGREEMENT WITH THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY REDUCING A PREVIOUS AWARD OF $1,000,000 TO $25,000 IN TOURISM PRODUCT DEVELOPMENT FUNDS

Action Requested: Adoption of resolution authorizing the City Manager to sign an amended grant agreement with Buncombe County Tourism Development Authority reducing a previous award of $1,000,000 to $25,000 in Tourism Product Development Funds.

Background:
- Beaucatcher Greenway is an unbuilt segment of the proposed River to Ridge Greenway and Trail Network that is part of the Greenway Master Plan adopted in 2009 and updated in 2013. It was added to the Capital Improvement Plan (CIP) in 2012.
- The City was awarded $1,000,000 from the Tourism Development Authority (TDA) through the Tourism Product Development Fund (TPDF) in 2015 - $975,000 was for

construction of the original design of Beaucatcher Greenway, and $25,000 was for a crossing and amenities on Amboy Road.

- The Amboy Road project was completed, but the Beaucatcher Greenway project was put on hold when bids came in over budget.
- The grant contract with TDA for $975,000 for Beaucatcher Greenway has expired.
- Subsequent community input has shown support for a modified, more natural version of the greenway with some paved areas for parking and accessibility, which staff is now exploring and expects to complete by 2022.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- Greenways Committee was provided an update at their February 2019 meeting.

Pro(s):

- The City will continue to remain in good standing with the TDA by resolving this expired grant agreement.
- Once the modified grant is signed, the City can invoice for the Amboy Road project.
- The modified version of Beaucatcher Greenway is scheduled to be completed by 2022.

Con(s):

- The City's budget to build Beaucatcher Greenway will be reduced by $975,000.

Fiscal Impact:

- This will reduce budget due to expired grant contract and change to Beaucatcher Greenway project scope.
- This adjustment will allow us to receive the $25,000 grant for the completion of the Amboy Road project.

Motion:

- Motion to adopt a resolution authorizing the City Manager to sign an amended grant agreement with Buncombe County Tourism Development Authority reducing a previous award of $1,000,000 to $25,000 in Tourism Product Development Funds.

RESOLUTION BOOK NO. 40 - PAGE 239

E. RESOLUTION NO. 19-25 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH NHM CONSTRUCTORS OF ASHEVILLE FOR THE IMPROVEMENT TO THE STORM DRAINAGE, SIDEWALK AND BUS TRAVEL LANES AT THE ART BUS STATION ON COXE AVENUE

Action Requested: Adoption of resolution authorizing the City Manager to execute a contract for the improvement to the storm drainage,sidewalk and bus travel lanes at the ART Bus Station on Coxe Avenue.

Background

- The ART Bus Station has failing storm drainage infrastructure that is in need of repair.
- The failing drainage infrastructure has caused damage to the travel lanes for the buses and the building is subject to flooding during heavy rains. This project will help eliminate these problems.

- The sidewalks are not in compliance with ADA regulations. This project will also bring the ART Bus Station site back into compliance with ADA standards.
- The lowest responsible bidder was NHM Constructors,LLC of Asheville NC in the amount of $271,301.00 plus a 10% contingency of $27,130.00, for a total of $298,431.
- The project was advertised on September 24,2018, and bids were opened on October 23, 2018. The results were as follows:
    - Patton construction group. of Arden, NC $580,600.00
    - Thomas construction, Inc. of Johnson City, TN $398,310.00
    - NHM constructors, Inc. of Asheville, NC $271,301.00

Council Goal(s):
- A Well-Planned and Livable Community

Committee(s):
- NA

Pro(s)
- Will add to pedestrian safety with improved sidewalks.
- Make an improved and durable travel lane for buses.
- Correct existing drainage problems.

Con(s):
- Work will cause minor inconvenience to ART users.
- Project costs exceeded the initial estimates requiring the use of $195,000 from the CIP contingency budget.

Fiscal Impact:
- The initial budget for this project totaled $170,000; funded with a mix of Federal Transit Administration grant funds and City funds. In order to fully execute the contract with NHM Constructors,LLC plus the contingency, the project requires additional funding of $195,000 for a new total budget of $365.035. The additional funding will come from the CIP contingency that was included in the Adopted FY 2019-20 Budget.

Motion:
- Motion to authorize the City Manager to execute a contract for the improvement to the storm drainage,sidewalk and bus travel lanes at the ART Bus Station on Coxe Avenue.

RESOLUTION BOOK NO. 40 - PAGE 240

F. RESOLUTION NO. 19-26 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, GRANT FUNDING FROM THE N.C. DEPARTMENT OF ENVIRONMENTAL QUALITY FOR THE PURPOSE OF REDUCING CONTAMINATION IN THE RECYCLING STREAM AND IMPROVE MATERIAL QUALITY

Action Requested: Adoption of a resolution authorizing the City Manager to apply for, and accept funding if awarded, from the NCDEQ for the CWRAR Grant.

Background:
- Apply for grant funds, in the amount of $30,000, for outreach efforts to reduce contamination in the recycling stream and improve material quality.
- Outreach efforts will include:
    - Radio and newspaper ads,

  - Annual mailers, brochures, magnets and posters,
  - In-home recycling bins, and
  - Indoor standing banner displays.
- CWRAR Grant recipients are required to provide a cash match equal to or exceeding 20% of the requested grant funds.

Council Goal(s):
- A Clean and Healthy Environment

Committee(s):
- Finance Committee - January 22, 2019 - approved

Pro(s):
- Helps support City's waste reduction goal while leveraging state funding

Con(s):
- None

Fiscal Impact:
- If awarded, the City will be required to provide a cash match of $6,000, or 20% of the requested grant funds of $30,000, totaling $36,000 for the project.

Motion:
- Motion to approve a resolution authorizing the City Manager to apply for and accept funding if awarded from NCDEQ.

Councilman Haynes outlined some of the outreach efforts. He then read the following statement from Asheville Greenworks "With a mission to *inspire, equip and mobilize individuals and communities to take care of the places we love to live,* Asheville GreenWorks prioritizes waste reduction and litter prevention in the City of Asheville and throughout Buncombe County. From our on-the-ground experience, we witness firsthand the obstacles to waste reduction in our community, such as misconceptions about what can and cannot be recycled. When items that cannot be recycled, such as plastic shopping bags, paper towels, aluminum foil and hard plastics, wind up in residential recycling bins, they can contaminate the whole load. Contamination of plastic recycling is a major issue facing recyclers across the country, as China -- a country that once accepted 30 to 40 percent of U.S. paper, plastic and metal recyclables -- banned many types of plastics it would accept and made the standards for plastic cleanliness impossibly high. As a result of these rule changes, local recyclers are unable to sell their recyclables and the U.S. recycling industry is at risk. GreenWorks recognizes education as an essential component of reducing plastic contamination at the curb. We are working with the City of Asheville, Curbside Recycling and Land of Sky Regional Council to conduct recycling outreach and education aimed at reducing confusion and contamination throughout the city. Funding from NC DEQ for the City to carry out more education on plastic recycling is timely and imperative to address the issue at its roots."

RESOLUTION BOOK NO. 40 - PAGE 241

G. RESOLUTION NO. 19-27 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING TO CLOSE AN UNOPENED RIGHT-OF-WAY OFF FAIRFAX AVENUE

Action Requested: Adoption of a resolution to set a public hearing for March 12, 2019, for the closure of unopened right of way off Fairfax Ave.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Christopher D. Meyer has petitioned the closure and owns both adjacent properties, 700 Haywood Rd. (PIN # 9638-24-3333) and 12 Fairfax Ave. (PIN # 9638-24-3235)
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - November 28, 2018 - Recommendation to move it forward with no vote.

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):

- There are property owners who are concerned about accessing the property. However, the access is not via the right of way being considered to be closed but rather along the property line between the two properties.

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Motion:

- Motion to adopt resolution of intent to set a public hearing, March 12, 2019.

RESOLUTION BOOK NO. 40 - PAGE 242

H. RESOLUTION NO. 19-28 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENT AGREEMENT WITH GHD FOR PROFESSIONAL ENGINEERING SERVICES FOR WATER RESOURCES DEPARTMENT TREATMENT IMPROVEMENTS & RESIDUALS DISPOSAL OPTIONS

Action Requested: Adoption of a resolution authorizing the City Manager to execute a Supplemental Agreement with GHD Consulting, Inc., for professional engineering services for the Treatment Improvements and Residuals Disposal Options Project.

Background:

- The Water Resources Department (WRD) has a current Master Agreement with GHD Consulting Services, Inc., for on-call professional engineering services for water treatment plant (WTP) projects. GHD was selected in response to City RFQ No. 298-WTPOnCallEng for On-Call Engineering Services issued on August 11, 2014. Specific projects are authorized under a separate Supplemental Agreement.
- The WRD desires to enter into a Supplemental Agreement with GHD for the subject project.

- For many years, the WRD has taken the water treatment residuals, also known as "sludge", from all three water treatment plants to the Metropolitan Sewerage District (MSD) to be treated.
- MSD can no longer accept residuals from water treatment facilities due to their new Air Quality Title V permit and renewed National Pollutant Discharge Elimination System (NPDES) permit.
- Buncombe County landfill has agreed to take the residuals for a period of two years while we analyze other treatment and/or disposal option.
- The WRD requests authorization to contract with GHD for the proposed amount of $218,500 plus a 15% contingency in the amount of $32,775 for a total project budget in the amount of $251,275.
- The scope of services to be performed by GHD include: project meetings, data collection, full scope residuals analysis that contains bench scale testing, regulatory review, and a climate study.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- N/A

Pro(s):
- This project will develop an alternative solution for disposal of water treatment plant residuals.

Con(s):
- None

Fiscal Impact:
- The Water Resources Department currently has the funds needed for this consulting agreement budgeted in the "Water Treatment Plant Project" in the CIP Fund.

Motion:
- Move to adopt a resolution authorizing the City Manager to execute a Supplemental Agreement with GHD Consulting, Inc., for professional engineering services for the Treatment Improvements and Residuals Disposal Options Project.

RESOLUTION BOOK NO. 40 – PAGE 244

I. RESOLUTION NO. 19-29 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR THE HILL STREET AND BINGHAM ROAD SIDEWALK PROJECT

Action Requested: Adoption of resolution authorizing the City Manager to execute a contract with Patton Construction Group Inc. for the construction of one sidewalk on Hill Street and the other sidewalk on Bingham Road in the amount of $260,667 plus a 10% contingency of $26,066.75.

Background:
- The City of Asheville passed a General Obligation Bond in 2016 and within this Bond money was budgeted to construct new sidewalks.

- Hill Street was identified as one of the sidewalks for construction as part of the bond referendum.
- This new construction will complete the sidewalk connection from Courtland Avenue to Riverside Drive.
- Bingham Road sidewalk is part of the neighborhood sidewalk program.
- The neighborhood sidewalk program identifies sidewalk connectivity opportunities throughout the city and is funded through the capital budget.
- The section bid with this project will make the connection along Bingham Road and fill the gaps that currently exist near Pearson Bridge Road
- Both of these sidewalks improve connectivity and improve pedestrian safety in their respective areas.

Council Goal(s):
A Well-Planned and Livable Community

Committee(s):
- NA

Pro(s)
- Will fill in sections of missing sidewalk that add to pedestrian safety.
- Project works towards fulfillment of the General Obligation Bond.

Con(s):
- Work will cause some traffic delays during construction.

Fiscal Impact:
- The project is funded by a combination of the General Obligation Bond from 2016 and the Neighborhood Sidewalks Program, with the breakdown of Hill Street being 100% bond funded and Bingham Road being 100% General Fund.

Motion:
- Motion to authorize the City Manager to execute a contract with Patton Construction Group Inc. for the construction of one sidewalk on Hill Street and the other sidewalk on Bingham Road in the amount of $260,667 plus a 10% contingency of $26,066.75.

RESOLUTION BOOK NO. 40 - PAGE 245

J. ORDINANCE NO. 4727 - BUDGET AMENDMENT FOR THE SCOPE OF WORK AMENDMENT TO THE BIKE SHARE FEASIBILITY STUDY

Action Requested: Adoption of a budget amendment in the amount of $14,500 to move funds from the General Fund to the Special Revenue Fund to allow addition of e-scooters to the existing consultant contract for the Bike Share Feasibility Study.

Background:
- City of Asheville and it's consultant, Alta Planning + Design, have been working on a feasibility study for bike share potential and direction.
- As reported to Council late last year, based on the emergence of e-scooters as another form of shared mobility devices, Transportation staff proposed to expand the scope of the study to add e-scooters and potentially other shared micro-mobility devices, and add a proposed request for proposals (RFP) for an initial pilot share program and suggested regulations for e-scooters.

- The initial project was funded in part with a grant, so the project has its own budget in the special revenue fund, which must be amended in order to amend the study scope.
- The amendment would allow an addition of up to $14,500 to the initial $49,949 contract amount.
- This amendment moves funding from one budget to another, it does not seek new city funding.

Council Goal(s):
- Equitable and Diverse Community
- Clean and Healthy Environment

Committee(s):
- None

Pro(s):
- Addresses emerging issue of e-scooters

Con(s):
- Expands study budget and extends timeline

Fiscal Impact:
- Redirects up to $14,500 funding in the Transportation Planning General Fund budget to the expanded study scope.

Motion:
- Motion to adopt the budget amendment to increase funding for the Bike Share Feasibility Study.

ORDINANCE BOOK NO. 32 - PAGE 294

K. RESOLUTION NO. 19-30 - RESOLUTION AUTHORIZING THE CITY MANAGER TO UTILIZE EXCESS LIABILITY INSURANCE RECOVERY FUNDS FOR PROPERTY AND LIABILITY CLAIMS

ORDINANCE NO. 4728 - BUDGET AMENDMENT OF INSURANCE RECOVERY FUNDS RECEIVED TO BE UTILIZED TOWARDS PROPERTY AND LIABILITY CLAIMS

Action Requested: Adoption of a budget amendment and resolution authorizing reimbursed Insurance Recovery funds to be utilized for Property and Liability claim expenses.

Background:
- This fiscal year, City of Asheville (City) excess liability carriers reimbursed $301,592.38 for two (2) liability claims that exceeded the City's self-insured retention limit.
- One claim was an automobile liability claim involving a Parks & Recreation vehicle; and the other was for a law enforcement liability claim.
- The City's Property and Liability Fund incurred the claims expenses to resolve the claims.
- City staff requests Council authorization to budget the reimbursed funds for property and liability claims expenses.

Council Goal(s):

- Vision - Smart City; striving to control City costs and provide the highest possible level of service.

Committee(s):
- N/A

Pro(s):
- Reimburses the City Property & Liability Fund for expenses incurred above the retention limit.
- Provides budget authorization to resolve liability claims.

Con(s):
- None.

Fiscal Impact:
- The $301,592.38 in Insurance Recovery Revenue was received and recorded in the City's Property and Liability Fund. Budgeting this revenue will reimburse funding to pay claims expenses.

Motion:
- Motion to adopt a budget amendment and resolution authorizing $301,592.38 of Insurance Recovery funds be utilized for property and liability claim expenses.

RESOLUTION BOOK NO. 40 - PAGE 246
ORDINANCE BOOK NO. 32 - PAGE 296

L. RESOLUTION NO. 19-31 - RESOLUTION IN SUPPORT OF A STATEWIDE INITIATIVE FOR LEGISLATIVE FUNDING TO RE-ESTABLISH A PASSENGER RAIL CONNECTION FOR WESTERN NORTH CAROLINA

Summary: Through the adoption of this resolution, the City of Asheville fully supports the creation of a comprehensive bus-rail system to serve Western North Carolina, that includes sufficient funding by the North Carolina General Assembly to the North Carolina Department of Transportation Rail Division for the proposed Amtrak Thruway bus service between Asheville and Salisbury. This service will be evaluated after two years by Amtrak, the North Carolina Department of Transportation Rail Division, the Western North Carolina Rail Committee Inc and the communities served by the Salisbury-Asheville bus-rail connection.

Former Representative Ray Rapp said this is an opportunity to re-establish the passenger rail service connection from Asheville to Salisbury. He then gave a brief history of the project and hoped Council will endorse this unique opportunity for Asheville.

RESOLUTION BOOK NO. 40 - PAGE 247

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. **PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONS OF ORDINANCE NO. 4722 FOR THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 275 AND 281 HAZEL MILL ROAD**

ORDINANCE NO. 4729 - ORDINANCE AMENDING ORDINANCE NO. 4722 TO AMEND THE CONDITIONS FOR THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 275 AND 281 HAZEL MILL ROAD

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to amend the conditions of Ordinance No. 4722 for the conditionally zoning of property located at 274 and 281 Hazel Mill Road. This public hearing was advertised on February 1 and 8, 2019.

Action Requested: Wording correction on the amendment to a previously approved conditional zoning at 275 and 281 Hazel Mill Road.

Background:

- The amendment to the conditional zoning was approved by City Council on January 8, 2019; however the condition regarding the sidewalk along Hazel Mill Road was not adopted with the correct wording.
- Pursuant to the intent of both the developer and City Council as discussed at that public hearing, and as illustrated on the site plan, the condition (number 10) should be amended as follows:
    - "The sidewalk along Hazel Mill Road will be eight feet in width and setback up to 35 feet from the edge of the road as shown on the attached site plan. An easement will be granted by the developer/property owner for public use of the sidewalk but the sidewalk will be privately maintained."

Council Goal(s):

- A Well-Planned and Livable Community
- Quality Affordable Housing
- Transportation and Accessibility

Committee(s):

- Technical Review Committee - November 5, 2018 - approved with conditions
- Planning & Zoning Commission - December 5, 2018 - recommended approval (7-0)

Pro(s):

- The project was approved by City Council with the intention for the sidewalk as proposed by the applicant, and as shown on the site plan map.

Con(s):

- None noted

Fiscal Impact:

- If constructed, the project would have a positive fiscal impact on tax revenues received by the city.

Mayor Manheimer opened the public hearing at 5:22 p.m.; and when no one spoke, she closed the public hearing at 5:22 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve the conditional zoning amendment to ordinance 4722 for White Oak Grove Apartments at 275 and 281 Hazel Mill Road from Residential Multi-Family High Density District Conditional Zone to Residential Multi-Family High Density Conditional Zone with the corrected condition regarding the sidewalk (Condition #10) , and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the amendment does not substantially deviate from the project details previously approved other than the changes to the site plan; (2) the development is located with close access to commercial uses, transit and employment opportunities; (3) the project includes dedicated affordable residential units; and (4) the proposal is aligned with the Future Land Use map in the Living Asheville Comprehensive Plan. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 298

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION ADOPTING THE DOWN PAYMENT ASSISTANCE POLICY

Mayor Manheimer announced that this will be considered at the February 26, 2019, meeting. Staff is making technical adjustments to the language in the proposed policy to make it as easy to understand as possible. The intent and substance of the proposed policy will remain the same.

B. BOARDS AND COMMISSIONS

Regarding the Board of Electrical Examiners, no one applied for the layman seat; therefore, City Council instructed the City Clerk to continue advertising.

RESOLUTION NO. 19-32 - RESOLUTION APPOINTING MEMBERS TO THE CITIZEN-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Citizens-Police Advisory Committee.

There is currently an unexpired term left by Sir Charles Gardner (resident of property owned by the Housing Authority) until June 30, 2019. In addition, there is an unexpired term left by Mr. Cliff Joslin (South Asheville representative) until June 30, 2020.

The following individuals applied for the vacancy for the South representative: Robert Woolley, Kaaren McNulty and Tracey DeBruhl.

It was the consensus of the Boards & Commissions Committee to readvertise for the resident of the Housing Authority property seat since no one applied; and to appoint Kaaren McNulty as the South Asheville representative.

Vice-Mayor Wisler moved to appoint Karen McNulty (South Asheville representative) to fill the unexpired term of Mr. Joslin, term to expire June 30, 2020, or until her successor has been appointed. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 249

RESOLUTION NO. 19-33 - RESOLUTION APPOINTING A MEMBER TO THE SUSTAINABILITY ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Sustainability Advisory Committee on Energy & the Environment (SACEE).

The term of Josh O'Connor expired on December 31, 2018.

The following individuals applied for the vacancy: Susan Bean, Michelle Myers, Dave Penrose, Carol Ann Lydon, Greg Jennings, Steve Linton, Lynn Pace, Ashley Ray Edwards, Ron Edgerton, Chris Pelrine, Daniel Falkenstein, Paul Schulman, Andrea Baty and Patricia Williams.

At the recommendation of SACEE, It was the consensus of the Boards & Commissions Committee to appoint Chris Pelrine.

Vice-Mayor Wisler moved to appoint Chris Pelrine to serve a three-year term, term to expire December 31, 2021, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 250

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mayor Manheimer gave a brief update of the Vance Elementary softball field noting that one of our Parks Bond would help co-fund the softball improvements at Vance Elementary. This is a project in partnership with the Asheville school system. She used a drawing to show where the current outfield fence is located, where the proposed outfield fence is located, and the proposed baseline fences. On February 18, 2019, the School Board will hold their regular meeting and they will invite members of the Vance community to speak at the meeting. We will have our Parks & Recreation Director at that meeting to answer questions and provide information. The school will also host an evening meeting at Vance Elementary about the proposal. The project has not been finalized. The City committed to a community-oriented process for all our bond funded projects, but this was unusual because of the partnership process with the school system and it's being built on school grounds.

Ms. Tracey Wold spoke about transit system and the need to ensure the Transit Master Plan is funded, implemented and monitored.

Mr. Timothy Poulton, parent of child in Vance Elementary School, explained why the Vance Elementary softball field project relates closely to the City's desire to partner with the schools to close our achievement gap. He was concerned about seeing a pattern of approach to communication in trying to close those gaps. He hoped that we would encourage collaboration and communication with everyone.

Ms. Leigh Coward urged City Council to take action against districts.

Mr. Devinceo Priester felt we need to build up the Housing Authority and work together as a team to fight crime and homelessness.

Ms. Sara Munro was concerned about policing in schools.

Closed Session

At 5:45 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit, or potential lawsuit. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:02 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:02 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

52

Monday – February 18, 2019 - Noon

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; and City Clerk Magdalen Burleson

Mayor Manheimer opened the special meeting.

At Noon, Councilwoman Mayfield moved to go into closed session to consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee pursuant to N.C. Gen. Stat. sec. 143-318.11 (a)(6) and to prevent the disclosure of information that is confidential pursuant to N. C. Gen. Stat. sec. 160A-168, the Personnel Privacy Act, pursuant to N. C. Gen. Stat sec. 143-318.11 (a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 6:06 p.m., Councilman Young go out of closed session. This motion was seconded by Councilman Kapoor and carried unanimously.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Monday – February 26, 2019 - 2:30

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; and City Clerk Magdalen Burleson

Mayor Manheimer opened the special meeting.

At 2:30 p.m., Vice-Mayor Wisler moved to go into closed session to consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee pursuant to N.C. Gen. Stat. sec. 143-318.11 (a)(6) and to prevent the disclosure of information that is confidential pursuant to N. C. Gen. Stat. sec. 160A-168, the Personnel Privacy Act, pursuant to N. C. Gen. Stat sec. 143-318.11 (a)(1). This motion was seconded by Councilman Kapoor and carried unanimously.

At 4:59 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

Tuesday – February 26, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING FEBRUARY, 2019, AS "NATIONAL 211 MONTH"

Mayor Manheimer proclaimed February 2019 as "National 211 Month" in the City of Asheville. She presented the proclamation to Ms. Marla Browne, Director of NC 211, and others, who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING MARCH 10, 2019, AS "ZELDA FITZGERALD DAY"

Vice-Mayor Wisler proclaimed March 10, 2019, as "Zelda Fitzgerald Day" in the City of Asheville. She presented the proclamation to Mr. Jim Mackenzie, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 12, 2019; AND THE SPECIAL MEETING HELD ON FEBRUARY 18, 2019

B. ORDINANCE NO. 4730 - BUDGET AMENDMENT TO REDUCE BEAUCATCHER GREENWAY BUDGET FROM EXPIRED TOURISM PRODUCT DEVELOPMENT FUNDS GRANT

Action Requested: Adoption of a budget amendment, in the amount of $975,000, to reduce Beaucatcher Greenway budget from expired Tourism Product Development Funds grant.

Background:

- City Council adopted a resolution on February 12, 2019, authorizing the City Manager to sign an amended grant agreement with Buncombe County Tourism Development Authority reducing a previous award of $1,000,000 to $25,000 in Tourism Product Development Funds.
- The City's budget now must be amended to remove the $975,000.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None.

Pro(s):

- The City's budget will accurately reflect the reduction of funds approved on February 12, 2019.

Con(s):

- None.

Fiscal Impact:

- Reduces funding for Beaucatcher Greenway project in the budget due to expired grant contract and change to Beaucatcher Greenway project scope.

Motion:

- Motion to adopt a budget amendment, in the amount of $975,000, to reduce Beaucatcher Greenway budget from expired Tourism Product Development Funds grant.

ORDINANCE BOOK 32 - PAGE 309

C. RESOLUTION NO. 19-34 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A THREE-YEAR GENERAL SERVICES AGREEMENT WITH AN OPTION FOR TWO ONE-YEAR RENEWALS WITH CAROLINA MANAGEMENT TEAM FOR THE WATER STORAGE TANK AND PIPE COATING AND MAINTENANCE PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a three-year General Services Agreement with an option for two (2) one-year renewals with Carolina Management Team for the Water Storage Tank and Pipe Coating and Maintenance Project.

Background:

- The Water Resources Department (WRD) issued a Request for Proposals (RFP) for the Water Storage Tank and Pipe Coating and Maintenance Project on November 6, 2018.
- The project scope includes cleaning, preparing, and recoating of seven pump station/storage tanks sites.
- In response to the RFP, the WRD received two proposals from:
    1. Carolina Management Team (CMT), Asheville NC - $300,496.00
    2. SE Diving Services LLC, Greenville SC - $139,888.10
- SE Diving Services had several, major mathematical errors on their cost proposal form, they primarily specialize in interior tank cleaning, and planned to subcontract most, if not all, of the work. Due to those factors, SE Diving Services is considered non-responsive.
- CMT is a local, woman-owned company that the WRD has contracted with before for similar projects. They are known for their high quality of work across NC and the US.
- The contract amount for Year 1 will be for the proposed amount of $300,496 plus a 10% contingency. Years 2-5 will follow the WRD's 5-year CIP budget of $250,000 annually for this project. At the end of the five year period, the total amount expected for this project should not exceed $1,330,546.00.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- N/A

Pro(s):

- Approval of the project will allow the WRD to complete necessary rehabilitation and repair on approximately 10 locations per year, depending on locations and size of work to be done. The project will also extend the sustainability of the assets.
- The project will provide a local WMB company with work for several years.

Con(s):

- None

Fiscal Impact:

- The Water Resources Department currently has the funds needed for Year 1 of this agreement budgeted in the "Pump Station/Storage Tank Projects" in the CIP Fund. Years 2-5 will follow the WRD's 5-year CIP budget of $250,000 annually.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a three-year General Services Agreement with an option for two (2) one-year renewals with Carolina Management Team for the Water Storage Tank and Pipe Coating and Maintenance Project.

RESOLUTION BOOK NO. 40 - PAGE 251

D. RESOLUTION NO. 19-35 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH FRENCH BROAD PAVING INC. FOR THE FISCAL YEAR 2019 ASPHALT RESURFACING PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with French Broad Paving Inc. in the amount of $1,875,353.00

plus a 15 % contingency of $281,303.00 ($2,156,656.00 total) for the contract known as Asphalt Resurfacing FY 19.

Background:

- A list of warranted streets was assembled to be addressed by this contract. The work will include milling of existing pavement, patching, resurfacing, application of new pavement markings, installation of curb, and sidewalk repairs. These streets were selected by our Agile Assets pavement management software based upon the condition of the existing asphalt. City staff visually confirmed the results generated by the software.
- The project was advertised on November 30, 2018, and bids were opened on December 18, 2018. The results were as follows:
    - French Broad Paving, Inc. of Marshall, NC $1,875,353.00
    - Rogers Group, Inc. of Nashville, TN $2,133,118.60
    - Harrison Construction, Inc. of Asheville, NC $2,880,310.50
- A 15% contingency ($281,303.00) has been added to allow payment of any unforeseen costs that typically arise during construction. The work produced from this contract will address a number of roads that are in need of repair.
- The preservation contract calls for an approximately ⅛" microsurface treatment to be applied to roads with asphalt that is still in good condition. This treatment extends the service life of the existing asphalt.

Council Goal(s):

- Transportation and Accessibility
- Smart City

Committee(s):

- n/a

Pro(s):

- Will repair approximately 3.8 miles of roadways within the Asheville City limits.
- Will improve mobility and safety on city streets.

Con(s):

- None

Fiscal Impact:

- The total budget for the Fiscal Year 2019 Streets Program is $2.8 million. This funding is our annual repaving project and is not bond funded. The total cost of this contract, including contingency, is $2,156,656. The remaining funds in this budget will be used for our Fiscal Year 2019 Asphalt Preservation contract.

Motion:

- Motion to adopt a resolution awarding the contract to French Broad Paving, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,875,353 plus a 15% contingency of $281,303.00 ($2,156,656.00 total) for the contract known as FY19 Asphalt Resurfacing, City of Asheville Project K1901.

RESOLUTION BOOK NO. 40 - PAGE 252

E. RESOLUTION NO. 19-36 - RESOLUTION AUTHORIZING THE CITY

MANAGER TO ENTER INTO A MULTI-YEAR CONTRACT WITH MOTOROLA FOR MAINTENANCE AND SUPPORT OF PUBLIC SAFETY RADIO SYSTEM

Action Requested: Adoption of a resolution clarifying annual expenses related to an agreement with Motorola, Inc. to provide maintenance coverage for the City's radio system.

Background:

- In February 2018, the City adopted a maintenance agreement with Motorola Solutions to provide maintenance on the City's radio communications systems.
- Funding for the agreement is to be appropriated annually in the City budget process.
- The initial term of the agreement runs from December 1, 2017, to June 30, 2022.
- The agreement also includes an option to renew for an additional 60 months as requested in the original request for proposals for the purchase of the radio system.
- Per direction from City Attorney, this resolution serves to clarify fixed expenses for this contract.

Council Goal(s): Smart City

Committee(s):

- **n/a**

Pro(s):

- The primary benefit of this agreement is to keep the City's radio system reliable and operational for public safety officers.
- By keeping the radio system in optimal condition the City is also able to provide communication services to several outside agencies, thereby improving interagency communications.

Con(s):

- None noted.

Fiscal Impact:

- The maintenance agreement annual expenses for the initial term of the agreement are as follows:

FY-18	$226,366	FY-19	$388,053
FY-20	$394,529	FY-21	$401,568
FY-22	$410,171		

- Funding for each year of the contract will be included in the annual budget process.

Motion:

- Motion to adopt a resolution clarifying radio maintenance coverage expenses for the term of December 1, 2017, through June 30, 2022.

RESOLUTION BOOK NO. 40 - PAGE 253

F. RESOLUTION NO. 19-37 - RESOLUTION AMENDING THE 2019 CITY COUNCIL MEETING SCHEDULE TO ADD THE CITY COUNCIL ANNUAL RETREAT ON MARCH 8, 2019, BEGINNING AT 8:30 A.M. IN THE BUNCOMBE COUNTY ADMINISTRATIVE BUILDING, LOCATED AT 200 COLLEGE STREET, ASHEVILLE, N.C.

RESOLUTION BOOK NO. 40 - PAGE 254

G. RESOLUTION NO. 19-38 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NEGOTIATE AND EXECUTE A LEASE AGREEMENT WITH THE MEN'S GARDEN CLUB OF ASHEVILLE FOR A GREENHOUSE OPERATION ON A PORTION OF CITY-OWNED REAL PROPERTY AT 80 HARDESTY LANE

Action Requested: Approval of a resolution authorizing the City Manager to negotiate and execute a lease agreement between the City of Asheville (City) and the Men's Garden Club of Asheville, for a greenhouse operation on a portion of City-owned real property at 80 Hardesty Lane.

Background:

- The Men's Garden Club of Asheville is a non-profit organization that seeks to serve and inspire the community through area beautification projects that feature horticultural and gardening expertise. Each year, the Men's Garden Club cultivates a large variety of plant material to sell to the public to fund their projects for young people in the City.
- Beginning in 2000, the Club leased a 0.50 acre portion of City owned property at 80 Hardesty Lane and they established a greenhouse and storage sheds to support that operation. To benefit the community, the club proposed to revitalize and re-establish the ornamental gardens at the Azalea Soccer Complex. The group has worked closely with Parks Maintenance to maintain those gardens.
- The property at 80 Hardesty Lane is approximately 33 acres in total and is located at the back of the Azalea Park, between the Swannanoa River and the railroad. The following uses also take place on that parcel: beneficial landfill, organic farm and an industrial composting operation.
- The members of the Men's Garden Club had a five year lease that expired in 2018. Staff working in Parks Maintenance and Real Estate met with club officers and revisited the previous agreement. The current lease proposal includes in-kind services provided by the Men's Garden Club in the form of grounds and landscape maintenance of the ornamental gardens at the John B. Lewis Soccer Complex, in exchange for continued use of the greenhouse and sheds at 80 Hardesty Lane. The term is for a period of 5 years with an option to renew for an additional 4 year period.
- These proposed terms are in compliance with the City's "Real Estate Lease Guidelines for City-owned Real Property."

Council Goal:

- Well Planned and Liveable Community

Committee:

- N/A.

Pro(s):

- Continues a long standing community partnership with the Men's Garden Club.
- Beautification of John B. Lewis Soccer Complex.
- Lessee will pay all utilities.
- Lessee will be responsible for routine maintenance of all improvements.
- Leveraging limited resources by partnering with a community non-profit.

Con(s):

- No monetary compensation will be received.
- Parks & Recreation staff time will be needed to monitor their compliance.

Fiscal Impact: The General Fund will not receive rental income.

Motion:

- Motion to adopt a resolution authorizing the City Manager to negotiate and execute a lease agreement with the Men's Garden Club of Asheville with a term of 5 years, allowing for one renewal of four years.

RESOLUTION BOOK NO. 40 - PAGE 255

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. UPDATE ON HOMESTAY PERMITS AND SHORT TERM RENTALS

Principal Planner Shannon Tuch provided the following report on homestay permits and short term rentals:

"This is one in a series of regular and periodic updates to City Council regarding short-term rental activity.

Background:

- Rental of a property within the City of Asheville for a duration of less than one month is considered "short-term" and the rental of an entire home/apartment on a short-term basis has never been allowed in Asheville's residential districts.
- Short-term vacation rentals, while not allowed in residential districts, were allowed in most commercial districts.
- The following timeline describes council actions regarding Homestays & STVRs over recent years:
  - Homestays were added as a new land use in 2006 (originally called Bed & Breakfast Homestay)
  - August 2015 - Ordinance No. 4445 is adopted, which increases the penalty for unpermitted/illegal lodging.
  - November 2015 - Ordinance No. 4470 is adopted, which expands opportunities for Homestays and relaxes permit requirements.
  - May 2016 - Ordinance No. 4505 is adopted, which clarifies residency requirements for Homestays.
  - January 2018 - Ordinance No. 4637 is adopted, which removes short-term vacation rentals as a permitted use in most non-residential or commercial districts and establishes an annual permit requirement. This ordinance also removes hotels and other forms of lodging as permitted uses, establishes

definitions for different forms of lodging in addition to establishing a definition for *Kitchen*.
  - July & August 2018, the Planning & Economic Development Committee holds meetings to explore the definition of *Kitchen* and other clarifications intended to support enforcement.
- The last report before the full City Council was October 2018.

Permit Metrics (2018):
- 272 Homestay permits were issued
- 394 Homestay permits were renewed
- 666 Homestay permits are active

Enforcement Metrics (2018):
- 204 enforcement actions were performed (NOVs + Citations for STVRs only).
- 68 properties remain out of compliance.
- 19 illegal STVR legal cases are in review or have action pending.
- $16,700 in fines has been collected.

- 3775 rental listings in Asheville (includes multiple listings for individual properties).
- 1179 short-term units are identified, a little over half (56%) are properties with homestay permits. The balance of units are unpermitted rentals, lawful short term units which include Bed & Breakfast rooms, Inns, and some Hotels.
- 117 short-term units are unidentified (approx. 10%). This represents the best identification rate to date.

- 120 (approx.) lawful, nonconforming STVRs have been identified.
- Approximately 60 additional lawful, nonconforming STVRs have been permitted and/or are under construction.

Other items of note:
- As part of the ordinance amendment adopted in January of 2018, the city now requires an annual permit for all lawful but nonconforming STVRs. This new annual permit is available online and is currently active and in use. Before strictly enforcing this requirement, however, a period of time to identify all STVR properties and provide mailed notification to all owners was needed. Notification is planned to go out within the next few weeks providing information on the need to obtain the permit and instructions on how to apply. Active enforcement will begin sometime after that."

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE ADOPTION OF THE TREE AND RIPARIAN ENHANCEMENT PLAN AS A STAND ALONE PLAN AND AS AN AMENDMENT TO THE 2004 WILMA DYKEMAN RIVERWAY MASTER PLAN

RESOLUTION NO. 19-39 - RESOLUTION ADOPTING THE TREE AND RIPARIAN ENHANCEMENT PLAN AS A STAND ALONE PLAN AND AS AN AMENDMENT TO THE 2004 WILMA DYKEMAN RIVERWAY MASTER PLAN

Assistant Planning & Urban Design Director Stephanie Monson said that this is the consideration of a resolution adopting the Tree and Riparian Enhancement Plan as a stand alone plan and as an amendment to the 2004 Wilma Dykeman Riverway Master Plan. This public hearing was advertised on February 15 and 22, 2019.

Action Requested: Adoption of Tree & Riparian Enhancement Plan as a small area plan for the River Arts District and an update to the 2004 Wilma Dykeman RiverWay Master Plan

Background:

- The plan was funded by a grant from the Duke Water Resources Foundation and was completed in 2018.
- It includes detailed suggestions for the City's RADTIP Project Area in the form of stream buffer improvements, stream and stormwater enhancements, pollinator improvements, invasive management, art and education, and habitat structures on city-owned property (only); cost estimates are provided for each project.
- There are no regulatory changes proposed in this plan, and the plan does not address private property.
- The plan contents were guided by community input from the Riverfront Commission, the Tree Commission, the general public, and meetings with dozens of potential partners.
- The total cost to implement the plan - without partnership/outside assistance - is estimated at $485,000.
- The plan includes a few "Big Ideas" to help implement the plan, including formalizing a collaborative between the City and key stakeholders on a long-term commitment to partner on implementing the plan.
- Adopting this plan would not bind the City to using any public funds on projects, but staff estimates the City could reasonably expect to invest $80,000 (of not currently dedicated monies) to help implement the plan.
- The plan suggests using partnerships, grant funding, community involvement and the leveraging of the City's current capital projects to implement the plan with the least amount of fiscal impact to the City's budget and creating a financial strategy to make sure the large financial investments made by the City and private property owners in this area are well-maintained and continue providing returns on the investments.

Council Goal(s):

- Strategic Priority # 19: RADTIP
- A Well Planned and Livable Community Vision
- Clean and Healthy Environment Vision

Committee(s):

- The Asheville Area Riverfront Redevelopment Commission - September 2018 and unanimously recommended that Council adopt the plan.
- Council's Planning and Economic Development Committee - July 2018 and recommended Council consider it for adoption.
- The Planning and Zoning Commission - January 14, 2019, and unanimously supported it's adoption.

Pro(s):

- Addresses Council and community vision for riverfront in a cost effective manner that encourages community engagement.

Con(s):

- None.

Fiscal Impact:

- Adopting the plan will have no fiscal impact. Council or future Councils can choose whether or not to support City matches or seed funding to support grant applications for major projects. Staff notes that several of the projects in the plan are already being implemented at no cost to the City (Artful Wildlife Habitat, Capt Bowen Bridge Ecology Murals, Water Quality Educations/Recycled Material Sculpture and Signage).

Mayor Manheimer opened the public hearing at 5:24 p.m.

Mr. Devinceo Priester spoke in support of the Plan.

Ms. Dawn Chavez, Executive Director of Asheville Greenworks, spoke in support of the Plan.

Mayor Manheimer closed the public hearing at 5:26 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to adopt the Tree & Riparian Enhancement Plan as a small area plan for the River Arts District and as an update to the Wilma Dykeman RiverWay Master Plan in that the plan: (1) Supports Council's desire to create a cleaner, healthier environment, and a well-planned and livable community, as adopted in their 2036 Vision; (2) Promotes a best practice of periodically updating existing adopted plans so they remain relevant and help guide community interest in partnering with the City to implement plans; (3) Supports improvement of water quality, an important part of the emerging river recreation economy; and (4) Aligns with the *Living Asheville Comprehensive Plan*, supporting goals contained in the Harmony with the Natural Environment theme. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 256

B. **PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 130 AND 99999 ROCK HILL ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO COMMUNITY BUSINESS I/CONDITIONAL ZONE FOR THE REUSE OF AN EXISTING BUILDING FOR AN ACUPUNCTURE CLINIC AND WELLNESS USE; AND AMENDMENT TO THE FUTURE LAND USE MAP FROM RESIDENTIAL NEIGHBORHOOD TO NEIGHBORHOOD CENTER**

Vice-Mayor Wisler moved to continue this public hearing until March 12, 2019. This motion was seconded by Councilwoman Smith and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. **RESOLUTION NO. 19-40 - RESOLUTION ADOPTING A CITY DOWN PAYMENT ASSISTANCE POLICY THAT INCLUDES $1 MILLION IN FUNDING FROM THE HOUSING BOND AND $400,000 IN FUNDING IN PARTNERSHIP WITH THE FEDERAL HOME LOAN BANK OF ATLANTA'S COMMUNITY HEROES DOWN PAYMENT ASSISTANCE INITIATIVE**

Mr. Paul D'Angelo, Housing Development Specialist said that this is the consideration of a resolution to adopt a Down Payment Assistance Policy.

Action Requested: Adoption of the Down Payment Assistance Policy

Background:

- The City of Asheville has $1 Million of bond funds allocated for down payment assistance (DPA) to support homeownership opportunities for households making 80% or less of the area median income (AMI).
- Staff has been working with the Affordable Housing Advisory Committee (AHAC) presenting potential partnerships for DPA funds, including the Housing Authority in support of their Housing Choice Voucher (HCV) Homeownership program, OnTrack WNC, Mountain Housing Opportunities (MHO) and Habitat for Humanity to fully understand how our funding can work with local partners and families in-need.
- The North Carolina Housing Finance Agency provided guidance on best practices in a DPA policy.
- The City of Asheville has another stream of funding in partnership with the Federal Home Loan Bank of Atlanta (FHLBA) that will provide a combined total of $400,000 in Down Payment Assistance to eligible full time employees of the City of Asheville and Asheville City Schools with between 80% and 120% of AMI adjusted for household size and meet the requirements as outlined in the Policy. $300,000 is coming from our own Housing Trust Fund while the FHLBA is providing $100,000.
- The Policy was passed unanimously by the Affordable Housing Advisory Committee (AHAC) at their January 3, 2019, meeting.
- The Housing & Community Development Committee (HCD) asked for a few clarifications to the policy at their January 15, 2019, meeting and voted to move it forward to full council for a vote.

Council Goal(s):
- Quality Affordable Housing
- Equitable and Diverse Community

Committee(s):
- Affordable Housing Advisory Committee - January 3, 2019
- Council's Housing and Community Development Committee - January 15, 2019

Pro(s):
- This DPA Policy targets moderate and lower income families and provides homeownership opportunities which is a key goal of our affordable housing initiatives
- This Policy begins utilizing Housing Bond funding that was passed in November, 2016
- This Policy was vetted thoroughly with local stakeholders, banks, mortgage lenders, and other experts on DPA

Con(s):
- The funding is limited
- Time limitations
    - Bond Funds must be spent by October, 2023
    - FHLBA Funds may have to be spent by March, 2020

Fiscal Impact:
- Up to $1M from the Affordable Housing Bond as needed; $300,000 from Housing Trust Fund as needed with the program balance of $100,000 provided by the Federal Home Loan Bank.

He explained the purpose of the Policy is to provide residents of the City of Asheville and those who want to become residents of the City of Asheville with affordable homeownership financing opportunities. He then explained the two funding sources, along with the property requirements, first-time homebuyer requirement, down payment requirement, and counseling requirement. He said eligible borrowers that meet all requirements will have funds reserved once their qualified bank/lender contacts the City of Asheville requesting DPA and provides the completed loan application, including a copy of the Offer to Purchase and Contract.

Regarding the repayment of the DPA loan (1) there are no monthly payments or interest associated with the DPA Program loans; (2) the loan will be a 30-year loan; (3) unless otherwise noted, repayment of the DPA loan is required when the home is sold, refinanced, title is otherwise transferred, or the home ceases to be the borrower's primary residence; and (4) in addition to the repayment of the original DPA loan amount, the borrower will be required to pay a percentage of the original DPA loan amount based upon the Appreciation Value of the home. He then explained some repayment examples. He then reviewed the external and internal marketing.

He said that working with Community Development Finance, our underwriting will assist in providing guidance on the policy, set standards, and provide direction to bankers/lenders and homeowners. It is the intention that this DPA Policy be a living document that can be evaluated and adjusted as needed to be fully effective in its efforts to provide residents of the City of Asheville and those who want to become residents of the City of Asheville with affordable homeownership financing opportunities.

Mr. Devinceo Priester spoke in support of this policy.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to adopt the Down Payment Assistance Policy. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 257

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Devinceo Priester suggested a community parade consisting of the Asheville Police Department, Asheville Fire Department, Council members, etc. to reach out to the community.

Closed Session

At 5:45 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit, or potential lawsuit. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Councilman Kapoor and carried unanimously.

At 7:23 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:23 p.m.

Magdalen Bourneson
CITY CLERK

Esther G. Manheimer
MAYOR

66

Friday – March 8, 2019 - 9:00 a.m.
200 College Street

Annual Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Mayor Manheimer welcomed everyone to the City Council Annual Retreat.

Mayor Manheimer then convened the retreat. She said the purpose of the retreat is to help inform the City Manager and staff about Council priorities and aligning those priorities in the budget process.

City Manager Campbell provided an overview of the day. She said that this retreat will give staff a better understanding of Council's priorities and will direct staff to focus on our limited resources on those things that will have the greatest impact to 1-3 years, in particular. We will exercise prioritization to ensure the work staff has done is consistent with the types of projects they need to work on. She said that Council will then talk about strategies and priorities and how to align them as part of the budget process. Staff will then provide Council detailed information about not only challenges for this year, but longer term of a 5 year budget process. She then introduced Mr. Ed Manning, Executive Director of Leadership Asheville, who would be facilitating the treat. Mr. Manning explained the guidelines that maximize Council's success as an elected body.

Assistant City Manager Cathy Ball reviewed with Council some of their major accomplishments from the strategic plan.

City Manager Campbell said that staff wants to make sure Council's goals are implemented in an effective and efficient manner. Therefore, our objectives are (1) build on great work that has been done to date; (2) further refine and clarify organizational and community priorities; (3) opportunity to link budgetary and staff resources to priorities; (4) development clear performance metrics and schedules for completion of work (ultimately link department and employee work plans to enhance accountability and impact on the community.)

She said that at the Management Team retreat and work groups they (1) maintained vision statement and themes; (2) revised goals - shortened and clarified, noting that some goals became strategies; (3) added timeframe for completion (short-term, medium-term, long-term); and (4) are seeking direction today to finalize and align with budget.

She said they took the goals and revised, shortened them, made some strategies, and then identified some things on-going, short-term (1-3 years), medium-term (4-7 years) and long-term (8+ years). Council's exercise is to define the revised strategies and timeframe. She reminded them to think about resources (funding and staff) noting that ongoing strategies is a resource drain as well. She asked that Council narrow the strategies down to 10-15 things. Staff wants to do good for the community, but in order to do that we need to align our resources with Council's priorities to be as impactful as possible.

Council then prioritized their strategies, along with the timeframes, as outlined below. City Manager Campbell said the revised Council goals, with alignment to strategies, along with the timeframe will then be linked into the budget process.

Short 1-3 years	12	E.2 Implement phase one recommendations of the Transit Master Plan.
	11	D.2 Develop a strategy for sale or lease of city-owned land to incentivize affordable housing development.
	10	A.5 Expand partnership opportunities with Asheville City Schools through the Equity Collaborative to eliminate disparities in access to quality schools and other educational resources.
	9	B.1 Develop specific implementation plan and schedule to amend the UDO and ordinances to reflect recommendations in the Comprehensive Plan.
	8	F.1 Develop a business inclusion program to increase minority contractor participation in response to the Disparity Study.
	7	D.1 Review and update Comprehensive Housing Affordability Strategy with a goal of assessing the effectiveness of the tools and encouraging development of mixed income communities.
	6	A.6 Develop and implement a strategy based on the NLC report to foster economic mobility.
		H.11 Identify opportunities to develop new tax revenue
		H.8 Participate in the BCTDA management and planning initiative to develop a capital investment plan for high priority projects.
		H.9 Identify opportunities to fund transit service via a dedicated revenue stream.
	5	B.3 Complete corridor studies and other plans for identified transit-corridors to encourage supportive development that will be sensitive and complement adjacent neighborhoods.
	4	B.4 Develop a plan for use of city-owned property on Haywood Street.
		D.3 Market and implement down payment assistance and other housing programs for low/moderate income residents.
	3	H.6 Complete a comprehensive classification and compensation study.
		H.7 Review and revise human resource policies.
	1	B.5 Complete a plan for the North Charlotte Street Innovation District.
		B.6 Complete a plan for the South Slope Extension Innovation District.
		C.1 Implement energy efficiency and demand-side management programs that will reduce energy consumption in Asheville and Buncombe County based on recommendations from the Energy Innovation Task Force.

City Manager Campbell also provided Council with a list of recommendations from some of our various boards & commissions. She said that Council can consider these, if they wish, as part of the budget process.

Deputy Finance Director Tony McDowell reviewed with Council's operating budget financial forecast of the Quarter 2; the five-year forecast (purpose, assumptions, inclusions and structural gap); and the Mission/HCA investment options. He, along with other budget staff, responded to questions/comments from Council.

Chief Financial Officer Barbara Whitehorn reviewed the Capital Improvement Plan review regarding the Council the historic level of community investment; future needs and costs; and Mission/HCA investment options. He, along with other budget staff, responded to questions/comments from Council.

City Council then gave feedback on this retreat.

At 2:12 p.m., Mayor Manheimer adjourned the meeting and announced that City Council will gather later in the evening for dinner.

Magdalen Bowlesson
City Clerk

Esther E Manheimer
Mayor

Monday – March 12 , 2019 - 4:30 p.m.
Council Chamber - 2nd Floor of City Hall

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Mayor Manheimer opened the special meeting to appoint a new City Attorney.

RESOLUTION NO. 19-41 - RESOLUTION APPOINTING BRAD R. BRANHAM AS CITY ATTORNEY

Mayor Manheimer was pleased to announce that after a competitive nationwide search, they are pleased to announce that they have named Brad R. Branham as Asheville's next City Attorney. Mr. Bradham brings a depth of knowledge on topics such as transit, affordable housing, complex redevelopment of city-owned land, and other legal challenges that must be tackled to continue to deliver a better quality of life for all of Asheville's residents.

On behalf of Council, Mayor Manheimer thanked Interim City Attorney Sabrina Rockoff, Mr. Peter Kanipe and other attorneys in Ms. Rockoff's firm to help fill in during this transition period. She also thanked the City Attorney's Office staff for their patience during this transition.

Councilwoman Mayfield moved to appoint Brad R. Branham as City Attorney effective April 8, 2019. This motion was seconded by Councilman Kapoor and carried unanimously.

Mr. Branham thanked City Council for giving him this opportunity. He said he was truly honored at being offered this position. He appreciated Council's support.

RESOLUTION BOOK NO. 40 - PAGE 264

At 4:36 p.m., Mayor Manheimer adjourned the special meeting and said the regular formal meeting will begin at 5:00 p.m.

Tuesday – March 12, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

Councilman Haynes said that he regrets that at the last Council meeting he didn't publicly voice his support for Buncombe County Sheriff Quentin Miller's policy on ICE cooperation and detention. This is exactly the kind of leadership he expected from our new Sheriff and he applauds him in this effort.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 26, 2019

B. MOTION APPROVING THE BOARD OF ALCOHOLIC BEVERAGE CONTROL'S TRAVEL POLICY ADOPTED JANUARY 26, 2016

Summary: Each year the N.C. ABC Commission, in compliance with Chapter 18-B700, Article 7, g (2), requires its ABC boards to get annual approval of board travel policies from their appointing authorities. Section g (2) of 18B-700 states, "The local board shall annually provide the appointing authority's written confirmation of such approval...".

The ABC Board formally requests the City of Asheville's written confirmation of the Asheville Board of Alcoholic Control Travel Policy.

C. RESOLUTION NO. 19-42 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT ADDITIONAL GRANT FUNDS UNDER THE EXECUTIVE OFFICE OF THE PRESIDENT, OFFICE OF NATIONAL DRUG CONTROL POLICY, FOR THE HIGH INTENSITY DRUG TRAFFIC AREA 2018 GRANT

ORDINANCE NO. 4731 - BUDGET AMENDMENT FOR THE HIGH INTENSITY DRUG TRAFFIC AREA 2018 GRANT

Action Requested: Adoption of (1) a resolution authorizing the City Manager to accept additional grant funds for the Asheville HIDTA 2018 Grant; and (2) a budget amendment in the City's Special Revenue Fund in the amount of $238,789.

Background:

- On October 23, 2018, the City Council approved resolution 18-276 authorizing the City Manager to enter into an agreement to accept grant funds under the Executive Office of the President, Office of National Drug Control Policy in the amount $106,627. This new modification of $238,789 is an increase to the previously approved amount for a new total of $345,416.
- The purpose of the Asheville HIDTA program is to reduce drug trafficking and production in the United States, specifically in places where drug related activities are having a significant harmful impact.
- The Asheville HIDTA is comprised of members of the United States Drug Enforcement Agency, Asheville Police Department, and the Sheriff Office's of Buncombe, Henderson, Swain and McDowell Counties. The Asheville Police Department acts as fiduciary for the program.
- The additional funds will be used for overtime, services and supplies, such as intelligence and surveillance software, mobile phones and pagers, desktop, laptop and notebook computers, cameras and office supplies. The expenditure of all funds are tracked and audited by local and Federal authorities.

Council Goal(s):
- Connected and Engaged Community

Committee(s):
- Public Safety Committee - February 25, 2019
- Finance & Human Resources Committee – February 26, 2019

Pro(s):
- Federal HIDTA funds will be used for investigative purposes and program expenses.
- Continue to foster partnerships with Federal and local law enforcement agencies.

Con(s):
- Funding from the Office of National Drug Control is awarded annually.

Fiscal Impact:
- There is no impact to the City's General Fund Budget. Any amount spent by the City is reimbursed in total by the Federal government.

Motion:
- Motion to adopt (1) a resolution authorizing the City Manager to accept grant funds and (2) a budget amendment in the amount of $238,789 through the Office of National Drug Control Policy to modify the Asheville HIDTA 2018 Grant.

RESOLUTION BOOK NO. 40 - PAGE 265
ORDINANCE BOOK NO. 32 - PAGE 311

D. RESOLUTION NO. 19-43 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH BRYANT LAND AND DEVELOPMENT INC. FOR THE FISCAL YEAR 2019 ASPHALT PATCHING PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $175,030.00 plus a 20% contingency of $35,006.00 ($210,036.00 total) for the contract known as FY 19 Asphalt Patching.

Background:
- Asphalt preservation is a process that applies a ⅛" thick layer of asphalt to the existing asphalt surface. This layer helps protect the existing asphalt and will extend its service life before milling and full resurfacing is required.
- This contract is for preparatory work to be accomplished before the work covered by the Fiscal Year 2019 Asphalt Preservation contract.
- A list of streets will be addressed by this contract. The project was advertised on December 17, 2018, and the bid opening was January 10, 2019. We received the following bids.

Bryant's Land and Development, Inc. of Burnsville, NC	$175,030.00
WSH Construction of Charlotte, NC	$179,200.59
French Broad Paving of Marshall, NC	$443,650.00

- A 20% contingency ($35,006.00) has been added to allow payment of any unforeseen costs that may arise during construction.

Council Goal(s):
- Transportation & Accessibility

- Smart City

Committee(s):
- n/a

Pro(s):
- This work prepares 5.4 miles of roadways for the application of an asphalt preservation treatment. The preservation treatment will add to the lifespan of the existing pavement and will delay full resurfacing of the streets.
- Will improve mobility and safety on city streets.

Con(s):
- None

Fiscal Impact:
- The total budget for the Fiscal Year 2019 Streets Program is $2.8 million. Funding for this contract is coming partly from the Fiscal Year 2019 budget and from partly unused funds from previous fiscal years.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a contract in the amount of $175,030.00 and a 20% contingency of $35,006.00 ($210,036.00 total) for the contract known as Fiscal Year 2019 Asphalt Patching, City of Asheville Project K1901 to Bryant Land and Development, Inc.

RESOLUTION BOOK NO. 40 - PAGE 266

E. RESOLUTION NO. 19-44 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH SLURRY PAVERS INC. FOR THE FISCAL YEAR 2019 ASPHALT PRESERVATION PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $418,359.40 plus a 15% contingency of $62,754.00 ($481,113.40 total) for the contract known as Fiscal Year 2019 Asphalt Preservation.

Background:
- Asphalt preservation is a process that applies a ⅛ inch thick layer of asphalt to the existing asphalt surface (as opposed to a full overlay which is 1 inch to 1 ½ inch thick). This layer helps protect the existing asphalt and will extend its service life before milling and full resurfacing is required.
- The list of attached streets will be treated as part of this contract. The project was advertised on December 17, 2018, and the bid opening was scheduled January 10, 2019. The City did not receive the minimum number of bids required to open bids at the first bid opening. The contract was re-advertised and a second bid opening was scheduled for January 18, 2019.
  Slurry Pavers, Inc. of Richmond, Virginia was the only bidder at $418,359.40.
- A 15% contingency ($62,754) has been added to allow payment of any unforeseen costs that may arise during construction.

Council Goal(s):
- Transportation and Accessibility
- Smart City

Committee(s):
- n/a

Pro(s):
- Will apply a preservation treatment to approximately 5.4 miles of roadways within the Asheville City limits. The preservation treatment will add to the lifespan of the existing pavement and will delay full resurfacing of the streets.
- Will improve mobility and safety on city streets.

Con(s):
- None.

Fiscal Impact:
- The total budget for the Fiscal Year 2019 Streets Program is $2.8 million. Funding for this contract is coming partly from the Fiscal Year 2019 budget and from unused funds from previous fiscal years.

Motion:
- Motion to adopt a resolution authorizing the City manager to execute a contract with Slurry Pavers, Inc. in the amount of $418,359.40 and authorize the City Manager to approve upto a 15% contingency of $62,754.00 ($481,113.40 total) for the contract known as Fiscal Year 2019 Asphalt Preservation, City of Asheville Project K1901.

RESOLUTION BOOK NO. 40 - PAGE 267

F. RESOLUTION NO. 19-45 - RESOLUTION AUTHORIZING THE SUEZ OZONE SYSTEM AS A PREFERRED BRAND ITEM FOR THE MILLS RIVER OZONE FACILITY EQUIPMENT REFURBISHMENT PROJECT

Action Requested: Adoption of a resolution to: (1) approve the written justification for the use of Suez as the preferred brand item for the Mills River Miscellaneous Plant Upgrades Project, Phase I: Mills River Ozone Equipment Refurbishment; (2) approve the specifications for Suez ozone feed equipment and control modules; and (3) add Suez as an independent line item in the "Unit Price Work" Bid Form when the construction portion of the project is bid.

Background:
- Ozone is used at the Mills River Water Treatment Plant (MRWTP) as part of the water treatment process.
- The existing ozone equipment at the MRWTP is 20 years old and at the end of its useful life.
- The Water Resources Department's Mills River Water Treatment Facility Ozone Equipment Refurbishment will soon be ready to bid.
- The total project is estimated to cost $898,000 and will include: Replacement of ozone dielectrics and generator internal components, and PLC-based controls.
- Once completed, the system's disinfectant feed system is anticipated to better remove source water contaminants from the drinking water supply as well as reduce the need for secondary disinfectants (chlorine).
- NCGS 133-3 allows the City to specify a preferred brand item based on performance standards if the preferred item will provide cost savings, maintain or improve the functioning of any process or system affected by the preferred item, or both and a justification identifying these criteria is made available in writing to the public.
- The attached Exhibit "A" is a memorandum from the project engineers CDM Smith outlining the justification to maintain the existing Asheville Suez Ozone System. This is

being presented and requested for approval in order to meet the requirements of NCGS 133-3.

Council Goal(s):
- Financially Resilient City.

Committee(s):
- N/A

Pro(s):
- Designating Suez as a preferred brand reduces the total project cost by maintaining the existing Suez brand ozone system rather than total replacement.
- An upgraded system will provide greater removal of bacteria, viruses, cryptosporidium and may help reduce the use of chlorine.
- This project is aligned with the City's and The Water Resources Department's goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.
- Approving Water Resources to use Suez may avoid additional costs of bidding the removal and replacement of the entire feed system at a future time.

Con(s): None

Fiscal Impact:
- There is no fiscal impact to this action. The Suez ozone feed equipment and control modules will be added as an independent bid item to the total construction cost of the entire Project.

Motion:
- Adopt a resolution to: (1) approve the written justification for the use of Suez as the preferred brand item for the Mills River Miscellaneous Plant Upgrades Project, Phase I: Mills River Ozone Equipment Refurbishment; (2) approve the specifications for Suez ozone feed equipment and control modules; and (3) add Suez as an independent line item in the "Unit Price Work" Bid Form when the construction portion of the project is bid.

RESOLUTION BOOK NO. 40 - PAGE 268

G. RESOLUTION NO. 19-46 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NEGOTIATE AND AMEND AN INTERGOVERNMENTAL AGREEMENT WITH BUNCOMBE COUNTY TO IMPLEMENT THE SECOND YEAR OF A GRANT FUNDED WEATHERIZATION PROGRAM WITH A CITY MATCH

Action Requested: Adopt a resolution to authorize the City Manager to negotiate and execute an amendment to the Inter-Local Agreement with Buncombe County to implement the 2nd year of a grant funded weatherization program (Energy Upgrade Program) to include a $15,000 match already budgeted from the Fiscal Year 2019 Budget for Energy Innovation Task Force (EITF) Initiatives.

Background:
- Last year, the City partnered with the County to apply for a grant through the Southeast Sustainable Communities Fund (SSCF).

- The City and County entered into an Interlocal Agreement on November 21, 2017, to implement a weatherization program called Energy Upgrade Program effective from November 30, 2017, to January 31, 2020.
- The first year of the program leveraged $150,000 from the SSCF grant, $15,000 from the City, $60,000 from the County and $27,800 in in-kind support from Duke Energy and the North Carolina Sustainable Energy Association (NCSEA).
- The first year of the program provided weatherization services to 31 homes.
- The SSCF approved a second year of funding of $150,000 and the County has agreed to provide an additional $60,000 match. The City is now being asked to provide a $15,000 match.

Council Goal(s):
- A Clean and Healthy Environment
- Quality Affordable Housing

Committee(s):
- Finance and Human Resources Committee - January 22, 2019 - recommended approval.

Pro(s):
- SSCF approved a second year of funding totalling $150,000 and the County has agreed to supply a $60,000 match.
- Council approved $205,000 in the FY19 budget to support Energy Innovation Task Force (EITF) initiatives.

Con(s):
- None

Fiscal Impact:
- $15,000 already budgeted from the Fiscal Year 2019 budget for EITF Initiatives

Motion:
- Adopt a resolution to authorize the City Manager to negotiate and execute an amendment to the Inter-Local Agreement with Buncombe County, entered into on November 21, 2017, to implement the 2nd year of a grant funded weatherization program (Energy Upgrade Program) to include a $15,000 match already budgeted from the Fiscal Year 2019 Budget for Energy Innovation Task Force (EITF) Initiatives.

RESOLUTION BOOK NO. 40 - PAGE 307

H. RESOLUTION NO. 19-47 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH APPALACHIAN PAVING & CONCRETE INC. FOR THE EAST CHESTNUT STREET BRICK SIDEWALK REHABILITATION PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Appalachian Paving & Concrete Inc. in the amount of $276,250.00 plus a 15% contingency of $41,437.50 ($317,687.50 total) for the contract known as E. Chestnut Street Brick Sidewalk Rehabilitation.

Background:
- East Chestnut Street is scheduled to be resurfaced in spring of 2019.
- While surveying the current ADA ramps on E. Chestnut staff determined that the entire brick sidewalk had deteriorated to the point that it needs to be replaced. The Public

Works Department collaborated with the City's Historic Resources staff to ensure that our project preserves the historic character of the street.

- The scope of this project is from Merrimon Avenue to Charlotte Street on the south side of the street.
- This project was advertised on January 16, 2019, and bids were opened on January 30, 2019. They results were as follows:

    - Appalachian Paving & Concrete, Inc. of Swannanoa, NC
      $276,250.00
    - Patton Construction Group of Arden, NC
      $412,300.00

- A 15% contingency ($41,437.50) has been added to allow payment of any unforeseen costs that arise during construction.

Council Goal(s):

- Transportation and Accessibility
- Smart City

Committee(s):

- n/a

Pro(s):

- Will rehabilitate approximately 1,200 linear feet of brick sidewalk. The section from Central Avenue to the western end of the brick sidewalk is especially hazardous because the existing bricks have been worn smooth by use.
- Will improve mobility and safety on city sidewalks.

Con(s):

- None

Fiscal Impact:

- The funding for this project is from savings from previous asphalt resurfacing projects. Resurfacing funds have historically been used to repair sidewalks along roads that are scheduled to be resurfaced. This project is funded with CIP funds. The total cost of this contract, including contingency, is $317,687.50.

Motion:

- Motion to adopt a resolution awarding the contract to Appalachian Paving & Concrete, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $276,250.00 plus a 15% contingency of $41,437.50 ($317,687.50 total) for the contract known as East Chestnut Street Brick Sidewalk Rehabilitation, City of Asheville Project K1901.

RESOLUTION BOOK NO. 40 - PAGE 308

I. ORDINANCE NO. 4732 - ORDINANCE ENACTING A THROUGH TRUCK PROHIBITION ALONG SYCAMORE DRIVE FROM SWEETEN CREEK ROAD TO HENDERSONVILLE ROAD

Action Requested: Adoption of an ordinance enacting a through truck prohibition along Sycamore Drive in South Asheville.

Background:

- The City of Asheville Code of Ordinances Section 19-60 regulates trucks traveling along designated residential streets.
- Large trucks are routinely using Sycamore Drive as a "shortcut" between Sweeten Creek Road and Hendersonville Road.
- Large trucks are not able to safely navigate the limited horizontal clearance at the Norfolk Southern railroad trestle, resulting in the trucks getting stuck.
- These events cause delay to the traveling public, require resources to help them clear the area, and sometimes damage the public infrastructure and private property.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- n/a

Pro(s):

- Prohibits through trucks from using Sycamore Drive.
- Keeps through trucks on US numbered routes.
- Eliminates delay to the traveling public.

Con(s):

- None

Fiscal Impact:

- The cost of installing and maintaining truck prohibition signs is included in the current operating budget.

Motion:

- Motion to approve an ordinance enacting a through truck prohibition along Sycamore Drive from Sweeten Creek Road to Hendersonville Road in South Asheville.

ORDINANCE BOOK NO. 32 - PAGE 313

J. MOTION ADOPTING A REVISED 2019-20 OPERATING BUDGET SCHEDULE

K. **RESOLUTION NO. 19-48 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SIDEWALK MAINTENANCE AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO ACCEPT MAINTENANCE RESPONSIBILITIES FOR A NEW SIDEWALK AND A BUS SHELTER PAD ALONG THE SOUTHBOUND APPROACH OF HENDERSONVILLE ROAD FROM OVERLOOK ROAD TO HOME TRUST BANK**

Action Requested: Adoption of a resolution authorizing the City Manager to 1) execute a sidewalk maintenance agreement with the N.C. Dept. of Transportation (NCDOT), 2) for the City to accept maintenance responsibility for a new sidewalk and a bus shelter pad constructed by the NCDOT along the southbound approach of US 25 (Hendersonville Road) from SR 3503 (Overlook Road) to Home Trust Bank, and 3) to reimburse the NCDOT 100% of the actual cost for bus shelter improvements estimated to be $2,200.

Background:
- The NCDOT has identified a need to make improvements at the intersection of US 25 (Hendersonville Road) and SR 3503 (Overlook Road).
- The City approved a resolution supporting the project on March 13, 2018.
- According to NCGS 160A-296 and NCDOT policy, the City must maintain the sidewalk.

Council Goal(s):
- Transportation and Accessibility
- A Well Planned and Livable Community

Committee(s):
- None

Pro(s):
- A new section of sidewalk will be constructed
- Bus shelter improvements are included in the project.

Con(s):
- The City is responsible for maintaining the new sidewalk and bus shelter.

Fiscal Impact:
- The estimated $2,200 cost of constructing a bus shelter pad is included in the current operating budget.

Motion:
- Motion to approve a resolution authorizing the City Manager to 1) execute a sidewalk maintenance agreement with the North Carolina Department of Transportation (NCDOT, 2) for the City to accept maintenance responsibility for a new sidewalk and a bus shelter pad constructed by the NCDOT along the southbound approach of US 25 (Hendersonville Road) from SR 3503 (Overlook Road) to Home Trust Bank, and 3) to reimburse the NCDOT 100% of the actual cost for bus shelter improvements estimated to be $2,200.

RESOLUTION BOOK NO. 40 - PAGE 309

L. **RESOLUTION NO. 19-49 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION (FBRMPO) FOR SECTION SECTION 5310 FUNDS, AND IF SUCCESSFUL, TO ACCEPT THE GRANTS AND SIGN ALL**

THE APPROPRIATE AGREEMENTS WITH THE FBRMPO, FEDERAL, AND/OR STATE AGENCIES

Action Requested: Adoption of a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (FBRMPO) for Section 5310 Funds, and if successful, to accept the grants and sign all the appropriate agreements with the FBRMPO, Federal, and/or State agencies.

Background:

- The FBRMPO has opened a call for projects to use Federal Transit Administration Section 5310 Funds and they will be distributed via a competitive process.
- Section 5310 Funds provide enhanced mobility to seniors and individuals with disabilities.
- The application deadline is March 29, 2019.
- Staff is pursuing funding in the amount of $187,500 to help offset the annual cost of paratransit service.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- Finance & HR Committee - February 26, 2019 - approved unanimously

Pro(s):

- Enables the use of Federal Funds to help provide needed assistance.
- Enables the City to offset part of the annual operating cost to provide paratransit service.

Con(s):

- The City is responsible for the 20% local match which equates to $37,500.

Fiscal Impact:

- The local match of $37,500 will be included in the proposed FY 2019-20 operating budget.

Suggested Motion:

- Motion to approve a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization and to execute appropriate agreements with the French Broad River Metropolitan Planning Organization, Federal, and/or State agencies.

RESOLUTION BOOK NO. 40 - PAGE 310

M. RESOLUTION NO. 19-50 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH BUNCOMBE COUNTY FOR FIRE PROTECTION AND AMBULANCE AND RESCUE SERVICES

Action Requested: Adoption of resolution authorizing the City Manager to enter into an agreement with Buncombe County for fire protection and ambulance and rescue services.

Background:

- The Asheville Special Fire Protection & Ambulance and Rescue Service District of Buncombe County was established and created effective July 1, 2016. It is comprised of the Biltmore Estate property, and portions of the Haw Creek District. It is served by the Asheville Fire Department for fire protection, ambulance, and rescue services.

- The Biltmore Estate has been served by the City of Asheville Fire Department since 1995 and Haw Creek has been served by the City of Asheville Fire Department since 2009 through contracts with Buncombe County.
- The County levies a special tax in the Asheville Special Fire Protection & Ambulance and Rescue Service District and appropriates those funds to the City of Asheville.
- The funds collected by the County as a result of the tax collected and the corresponding sales tax revenue due the District will be paid to the City by the last day of each month in twelve equal monthly installments.
- At the end of the fiscal year, the County will reconcile the monthly payments made to the City and the actual amounts collected to make a final adjusted payment in July of the following fiscal year.
- The Asheville Fire Department will furnish fire protection and other emergency services as part of the Buncombe County EMS System in the Asheville Special Fire Protection & Ambulance and Rescue Service District and will provide the necessary equipment and personnel.
- The term of the current agreement will end June 30, 2021.

Council Goal(s):
- Connected and Engaged Community

Committee(s):
- Finance & Human Resources Committee - February 26, 2019 approved unanimously
- Public Safety Committee - February 25, 2019 approved unanimously

Pro(s):
- This contract provides revenue for the City of Asheville that is greater than the cost of services.

Con(s):
- None

Fiscal Impact:
- The agreement has an overall positive fiscal impact on tax revenues received by the city.
- The fire tax rate for the Haw Creek area of the District is $8.60, and the fire tax rate for the Biltmore Estate area of the District is $8.50
- In FY19-20, property, sales, and DMV tax revenues generated by the district and appropriated to the City are estimated at $385,578.
- In FY 18-19, service provided in these districts cost approximately $2,000.

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into an agreement with Buncombe County for fire protection and ambulance and rescue services.

RESOLUTION BOOK NO. 40 - PAGE 311

N. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH FLETCHER HOSPITAL INC. (D/B/A ADVENT HEALTH HENDERSONVILLE) FOR PHYSICIAN SERVICES AT THE EMPLOYEES HEALTH CENTER

Dr. Paul Martin felt that this proposal did not meet the minimal requirements of the RFP, the RFP received no input from stakeholders in developing the RFP requirements, the submission process was rushed, there was no true recruiting efforts on venus frequented by physician

candidates, Park Ridge did not receive a vote of approval from the selection committee; and local physicians were not recruited. He asked that this item be pulled for further review.

Interim Assistant City Manager Peggy Rowe said that we are under a temporary agreement with Park Ridge. We did do an RFP and we did invite Dr. Martin to participate in the RFP but he declined to do so. We believe Park Ridge is a good provider of the services that we need for our employees. It includes not only the physician on site, but also other services provided by Park Ridge.

Staff was directed by the majority of Council to provide Council with a memorandum addressing Dr. Martin's concerns.

O. RESOLUTION NO. 19-52 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, THE 2020 DWI TASK FORCE GRANT

Action Requested: Adoption of a resolution authorizing the City Manager to apply for and accept a grant from the North Carolina Governor's Highway Safety Program (NCGHSP). This grant will fund one (1) year of the multi-jurisdictional DWI Task Force that includes the Asheville Police Department (APD) and the Buncombe County Sheriff's Office (BCSO).

Background:

- Impaired drivers are a serious concern to public safety. The NCGHSP has funded the DWI Task Force since October, 2013 and continues to award funding to combat impaired driving within Buncombe County.
- The DWI Task Force is to focuses efforts on educating the public to the dangers of driving while impaired. This education is done through partnership with other agencies including local high schools and non-profit organizations.
- The DWI Task Force is comprised of four APD officers and two BCSO deputies. APD will continue to assign one sergeant and three officers while BCSO will continue to assign two deputies. APD acts as fiduciary for the program.
- The total of the grant is $465,689.00 and requires a 75% local match. The City of Asheville's portion of the match is $237,440.75. The Buncombe County match is $111,826.00. This represents a slight increase from the previous fiscal year program.
- The City's match is higher than the County's match because the City has more staff covered by the grant. The City has four police officers paid out of the grant while the County has two deputies.

Council Goal(s):

- Connected and Engaged Community

Committee(s):

- Public Safety Committee - February 25, 2019 meeting. Approved unanimously.
- Finance & Human Resources Committee – February 26, 2019 meeting. Approved unanimously.

Pro(s):

- Grant funds are used to pay for 25% of officer salaries, benefits and training costs.
- Potential reduction of impaired driving collisions, injuries and deaths.

Con(s):

- Funding from the NCGHSP is evaluated annually and is only available for a one year period.

Fiscal Impact:

- The City of Asheville match for Fiscal Year 2020 is $237,440.75. This amount will be included in the APD proposed Fiscal Year 2020 budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to apply for and accept grant funds from the North Carolina Governor's Highway Safety Program.

RESOLUTION BOOK NO. 40 - PAGE 313

P. RESOLUTION NO. 19-53 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON APRIL 23, 2019, TO CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS COMMERCE STREET

Action Requested: Adoption of a resolution to set a public hearing for April 23, 2019, for the closure of an unopened right of way known as Commerce St.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Biltmore Iron and Metal has petitioned the closure and owns one adjacent property, 1 Meadow Rd. (PIN # 9648-50-7911 and 9648-51-6002). Adjoining the petition is Asheville Area Habitat for Humanity, 33 Meadow Rd. (Pin # 9648-51-6002 and 9648-50-4827)
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - January 23, 2019 - Recommended closing the right of way and working with the property owner to secure a greenway easement along the river.

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources.

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Motion to adopt resolution of intent to set a public hearing, April 23, 2019.

RESOLUTION BOOK NO. 40 - PAGE 314

Q. RESOLUTION NO. 19-54 - RESOLUTION AUTHORIZING THE CITY MANAGER TO GRANT AN EASEMENT TO DUKE ENERGY

PROGRESS FOR ELECTRICAL UTILITY IMPROVEMENTS AT RICHMOND HILL PARK

Action Requested: Adoption of a resolution authorizing the City Manager to grant an easement to Duke Energy Progress for electrical utility improvements at Richmond Hill Park.

Background:

- Richmond Hill Park is a 150 acre park in West Asheville. The park lacks supporting amenities and planned improvements include new restrooms, a picnic shelter and site lighting. These improvements were funded as part of the 2016 bond program and the project is now moving forward.
- Electrical power will need to be extended into the park in order to provide these improvements. DEP has agreed to provide the extension of electrical services if the City provides the requested easement.
- An exhibit is attached showing where the electric line will be located. The easement will be 20 feet wide around the electrical infrastructure and 10 feet on all sides of the foundation of any DEP enclosure. The amount of permanent easement is approximately 13,000 square feet. The electrical line and conduit will be buried between the curb and sidewalk. The pad mounted transformer enclosure and manholes will be visible from the surface.

Council Goal(s):

- A Well Planned and Liveable Community

Committee(s):

- Recreation Board on January 14, 2019

Pro(s):

- The park improvements will increase community resources by adding new amenities and providing restrooms.
- Improves safety for users after dark, as additional site lighting is programmed.

Con(s):

- This project will generate a new, continuing electric bill after the improvements are constructed.

Fiscal Impact:

- City general funds will be used to pay the electric bill after the improvements are constructed.

Motion:

- Motion to approve a resolution authorizing the City Manager to convey an electrical easement to Duke Progress Energy (DEP) at Richmond Hill Park.

RESOLUTION BOOK NO. 40 - PAGE 316

R. RESOLUTION NO. 19-55 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON APRIL 23, 2019, TO CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS ROSE STREET

Action Requested: Adoption of a resolution to set a public hearing for April 23, 2019, for the closure of an unopened right of way known as Rose St.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Pet Vet Properties, LLC has petitioned the closure and owns two adjacent properties, 2 Hansel Ave. (PIN # 9638-48-8500) and 100 Rose St. (PIN # 9638-48-7515)
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - January 23, 2019 - MMTC unanimously supported the closure.

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):

- None

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Motion:

- Motion to adopt resolution of intent to set a public hearing, April 23, 2019.

RESOLUTION BOOK NO. 40 - PAGE 317

S. RESOLUTION NO. 19-56 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, THE NORTH CAROLINA GOVERNOR'S HIGHWAY SAFETY PROGRAM 2020 BIKESAFE NC GRANT, YEAR 1

Action Requested: Adoption of a resolution authorizing the City Manager to apply for and accept a grant from the North Carolina Governor's Highway Safety Program (NCGHSP) for Year 1 of the Bike/Safe NC program to allow the promotion of motorcycle safety within the Western Region.

Background:

- The Bike/Safe NC program is a partnership with the Governor's Highway Safety Program and the North Carolina State Highway Patrol that is aimed at reducing motorcycle fatalities.
- The primary goal of the BikeSafe NC program is to decrease statewide motorcycle fatalities by 25 percent from the 2013-2017 average of 179.4 to 134.00 by the end of September 2020.
- Grant funds will be used to promote awareness by contacting motorcycle dealers, clubs and associations to discuss current highway safety activities, training opportunities like Rider Skills Days and to provide legal updates. The City of Asheville, via the Asheville Police Department, will act as fiduciary for the program.
- The total of the grant is $5,000 and does not require local matching funds.

Council Goal(s):
- Connected and Engaged Community

Committee(s):
- Public Safety Committee - February 25, 2019 meeting. Passed unanimously.
- Finance & Human Resources Committee – February 26, 2019 meeting. Passed unanimously.

Pro(s):
- Grant funds are used to pay for travel and training.
- Potential reduction of statewide and regional motorcycle fatalities.

Con(s):
- None

Fiscal Impact:
- There is no impact to the City of Asheville's General Fund budget.

Motion:
- Motion to adopt a resolution authorizing the City Manager to apply for and accept grant funds from the North Carolina Governor's Highway Safety Program.

RESOLUTION BOOK NO. 40 - PAGE 319

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda "N". This motion was seconded by Councilman Haynes and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. DO THE WRITE THING CHALLENGE

Ms. Tanya Presha, Academic and Program Support Coordinator, along with Ms. Kaylee Pearce, 2018 National Ambassador of the Do the Write Thing Challenge (which is an initiative of the National Campaign to Stop Violence) spoke about her experience and encouraged City Council to the reading and scoring the upcoming essays on the March 21st and 22nd.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 130 AND 99999 ROCK HILL ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO COMMUNITY BUSINESS II/CONDITIONAL ZONE FOR THE REUSE OF AN EXISTING BUILDING FOR AN ACUPUNCTURE CLINIC AND WELLNESS USE; AND AMENDMENT TO THE FUTURE LAND USE MAP FROM RESIDENTIAL NEIGHBORHOOD TO NEIGHBORHOOD CENTER

Mayor Manheimer announced that the applicant has withdrawn his request for conditional zoning.

B. PUBLIC HEARING TO CONSIDER PERMANENTLY CLOSING AN UNOPENED RIGHT-OF-WAY OFF FAIRFAX AVENUE

RESOLUTION NO. 19-57 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY OFF FAIRFAX AVENUE

Streets Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way off Fairfax Avenue. This public hearing was advertised on February 15, 22, March 1 and 8, 2019.

Action Requested: Adoption of a resolution for the permanent closure of an unopened right of way off Fairfax Ave.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Christopher D. Meyer has petitioned the closure and owns both adjacent properties, 700 Haywood Rd. (PIN # 9638-24-3333) and 12 Fairfax Ave. (PIN # 9638-24-3235)
- This closure allows maximum land use potential for further development complying with the Living in Asheville Comprehensive Plan..

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - October 24, 2019, September 26, 2018, and November 28, 2018 - Recommendation to move it forward with no vote.

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):

- West Asheville Presbyterian Church currently accesses its propane tanks and fellowship hall via the former bank drive-through if the petitioner would allow the Church to continue to access the propane tank through the parking lot.

Fiscal Impact:

- None to the City.

Councilwoman Smith noted that not only will the Church's access to their propane tanks be restricted, but if the right-of-way is closed, their handicapped access to the fellowship hall will also be restricted because they drive over the right-of-way.

In response to Councilwoman Mayfield, Mr. Bandy said that the property owner owns both sides of the right-of-way and would like to combine them into one parcel. He believes the property owner would like to build a veterinary clinic on his property but he was not aware of any site specifics, e.g., the footprint of the building.

Mr. Tom Holman attorney representing the owners of the property at 700 Haywood Road, are excited about improving their property and adding a neighborhood small animal veterinary practice to serve the community. The final closure of this unopened alley will not in any way change the manner in which this property has been used in over 75 years. N.C. Gen. Stat. sec. 160A-299 grants the Council the power to close any street or road or portion thereof if the closure will not impair the access to any other property owner (which it won't); and the closure will not be contrary to the public interest (it will benefit the public interest). The closure will allow for more efficient use of the property without any artificial impediment that presently splits the parcel and benefits no one. Likewise, the closure will also help encourage improvements to the property that will help enhance it consistent with the zoning designation. He then showed some pictures that this alley was never intended to serve anything other than 700 Haywood Road. In 1920, 700 Haywood Road consisted of 4 parcels which fronted Haywood Road. All those lots are now owned by the applicant, as is the rear lot. There is no evidence that the alley has ever been opened to the public or used in any way other than access to the 4 front parcels. Consistent with that, he showed the recombination of the 4 properties in 1945 which a home on two of the parcels had a garage in their back on the alley which serviced the two parcels. He then showed a survey of the specific location of the alley. He appreciated the Church's concern that it has had the benefit of the use of this adjacent property during the last 2+ years since the bank has been closed. And, before then he understands there was an accommodation provided for by the bank because due to the bank's hours. The property owners want to be good neighbors, but they can't agree at this point what level of accommodation they can provide for this property, but it's not likely to be a drive-through just like any other property owner. Since purchasing the property, the property owners worked with the Church to agree to some form of accommodation, but that was not able to happen. All the accommodations would be entirely voluntary. The owners want to cooperate with the church.

In response to Councilman Kapoor, Interim City Attorney Rockoff said that the question before Council is that under N.C. Gen. Stat. sec. 160A-299, it grants the governing body of a municipality to close any street or road or portion thereof upon the following conditions: notification by registered mail to the adjoining property owners, publication of the notice, and determination by the governing body that the closing of said road is not contrary to the public interest and that no individual owning property in the vicinity of said street or road or in the subdivision in which is located said street or road will thereby be deprived of reasonable means of ingress and egress to his property.

Councilwoman Mayfield felt that if we close this alley, then it deprives the Church of access to two parts of their building that they currently use.

Mr. Holman said that the Church is asking for continued use of the alley which prohibits the property owners functional use of their property.

At 5:44 p.m., Mayor Manheimer opened the public hearing.

Mr. Billy Robinson, representing the West Asheville Presbyterian Church, said he disagreed that the closing will not deprive any individual owning property in the vicinity any reasonable means of ingress or egress. Over 61 years the congregation has had access via the alley. If the alley is closed, handicapped people will have to park on Haywood Road or Fairfax Avenue and walk to the fellowship hall. If the alley is closed, it will also impede the servicing of the propane trucks and they would have to move the children's playground to the front yard of the Church at Haywood Road, which they are not eager to do. He understood that the property owner talked to the Minister of the Church, and the Treasurer, but the Minister has no voice in the operation of a congregation. Therefore, he has not entered into any conversations with the congregation. The Multimodal Transportation Commission said they would like to have some time to negotiate an agreement but there has been no substantial movement by the property

owner to do so. He said that they also did not receive any notification of this closing, and found about about the closing by a sign being posted on the corner.

Mr. Patrick Price, member of West Asheville Presbyterian Church, said that Mr. Meyer (the property owner) approached the Minister in June of 2018 and the Minister died shortly thereafter. Then their Secretary retired. Mr. Meyer then approached the Treasurer of the Church. He, Mr. Price, then talked with Mr. Meyer and asked him to show them what his plans were for the property and he never got back to him. He felt that Mr. Meyer has no plan for the property. He said that the property is still owned by the bank. We have no objection to close the alley as long as we have access to the fellowship hall.

Mayor Manheimer closed the public hearing at 5:43 p.m.

Mr. Bandy explained that under the statutes, the only required mailings are to the adjacent property owners of the alley who would receive half ownership of the alley and since the property owner owns both properties on each side of the alley, no mailing was required.

Mr. Holman said that it is is not fair or accurate to say that his clients have not been acting in good faith. There has been over a year of communication and he sent a letter to the attorney he was told represented the Church on October 31, 2018, with a detailed proposal. His client has had this property under contract since October 2017 and they are the owners of the property. He restated that the final closure of this unopened alley will not in any way change the manner in which this property has been used in over 75 years

Mayor Manheimer said her understanding is part of the requirements around this closure are to meet the zoning requirements for the Haywood Road Corridor Overlay. She understands that the investor does not want to spend a lot of money on a plan until they know they can get the alley closed. She hears that the Church is making a prescriptive easement claim to be able to continue to access their property the way they have been doing for a very long time. That is not something Council can get involved in. We cannot negotiate property claims between two property owners. She was sympathetic to both sides and hoped some resolution can be reached about access.

Councilwoman Mayfield said she has no problem ultimately supporting the closure of the alley, but her interest is in seeing the two parties try to come together to create some sort of access agreement.

Vice-Mayor Wisler said this is a dispute between two property owners and she felt Council does not have the authority to be involved.

Councilman Young felt that the two property owners need to work together for some type of easement for the Church.

Councilwoman Smith said a portion of residents attend this Church who are not able-bodied to readily access the fellowship hall.

Councilman Kapoor felt that we have to abide by our statutes. He has sympathy for the Church but our requirements as a Council is to apply the law.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to permanently close an unopened right-of-way off Fairfax Avenue. This motion was seconded by Councilman Kapoor and carried on a 4-3 vote, with Councilwoman Mayfield, Councilwoman Smith and Councilman Young voting "no".

RESOLUTION BOOK NO. 40 – PAGE 320

C. **PUBLIC HEARING TO CONTINUE CONSIDERATION OF THE CONDITIONAL ZONING OF 324 BILTMORE AVENUE FROM REGIONAL BUSINESS DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A 7-STORY, 103 ROOM HOTEL**

ORDINANCE NO. 4733 - ORDINANCE TO CONDITIONALLY ZONE 324 BILTMORE AVENUE FROM REGIONAL BUSINESS DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A 7-STORY, 103 ROOM HOTEL

Urban Planner Jessica Bernstein said that this is the continued consideration of the conditional zoning of 324 Biltmore Avenue from Regional Business District to Lodging Expansion/Conditional Zone for the construction of a 7-story, 103 room hotel. This matter was originally heard on October 23, 2018, but withdrawn. This public hearing was advertised on March 1 and 8, 2019.

Action Requested: Approval of a conditional zoning request at 324 Biltmore Avenue from Regional Business (RB) to Lodging Expansion Conditional Zone (LODG EXP CZ)

Background:

- The project site consists of a 0.78 acre parcel located at 324 Biltmore Avenue (PIN 9648-46-4336) and owned by Milan Asheville, LLC. The contact for the project is Warren Sugg.
- The proposal is to construct a new 88,593 square foot lodging facility with 103 rooms. The building is seven stories in height, except for within a 100 foot radius of nearby residential zoning, where the building height is reduced to 25 feet.
- There is a single vehicular access point from Biltmore Avenue that provides access to a maximum of 106 structured parking spaces.
- Ten foot wide sidewalks are provided along both frontages. A transit shelter will be provided at the corner of Biltmore Avenue and White Fawn Drive.
- The site will be improved with landscaping and open space as required by code with the conditions noted below.
- The design complies with design and operational standards as required by the proposed zoning district, Lodging Expansion Conditional Zone (LODG EXP CZ).
- The area is currently identified as an Employment / Anchor Institution Center on the Future Land Use Map in the Living Asheville Comprehensive Plan, where limited lodging uses are seen as complementary and supportive of nearby employment clusters.
- The applicant is requesting the following conditions be approved for this proposal:
    - Zero-foot setbacks along the front and side; three foot on the corner side and 10 feet for the rear. District standards are five feet for the front, 15 feet for the side and 25 feet for the rear,
    - Reduction in rear property line buffer to 10 feet in some areas (but increases up to 23 feet in other areas) where 15 feet is required,
    - Provision of large planters along Biltmore Avenue in lieu of street trees due to conflicts with utility lines and Department of Transportation prohibitions, and
    - Increase in impervious surface standards to 82 percent where 80 percent is allowed.

Council Goal(s):
- A Well-Planned and Livable Community
- Transportation and Accessibility

Committee(s):
- Technical Review Committee - September 17, 2018 - approved with conditions
- Planning & Zoning Commission - October 3, 2018 - recommended approval (6-0)
- City Council originally heard this request on October 23, 2018, but the applicant requested a continuance prior to a vote to be re-considered at a later date

Pro(s):
- The use and development is aligned with the designated Future Land Use category of the Living Asheville Comprehensive Plan for this area
- The applicant has included wide sidewalks, bike parking and a transit shelter on the site as well as an offer to provide bus passes to any guest or employee
- The applicant met on multiple occasions with members of the adjacent neighborhood and altered several site plan elements to better meet their requests and mitigate impacts such as noise, trash and access
- The proposal would support visitors to the Mission Hospital campus and other nearby medical uses

Con(s):
- The proposal does not expressly comply with all development standards as noted above

Fiscal Impact:
- None noted.

Ms. Bernstein said the only change from staff's perspective since this was before Council in October is a condition that the signage will comply with the allowances for similar uses in the Regional Business District.

In response to Councilwoman Mayfield, Ms. Bernstein said that there is one house immediately behind the proposed hotel but she has not spoken with that property owner about this hotel. She said the zoning district has a 100 foot radius from single-family or residential zoning, and the height is restricted to the height of that zoning district, which is 40 feet. She said they have actually reduced the height adjacent to that house is 25 feet, noting the grade change too. The tallest portion of the building (7-story) is at Biltmore Avenue. The applicant is asking for a reduction in the rear buffer, but in that particular section, the buffer is actually wider than the required 15 feet width.

Mr. Wyatt Stevens, representing Milan Asheville LLC, said that his applicant has had a series of neighborhood meetings and at one of the meetings Mr. Patel met with the owner of the house behind the hotel project. To his knowledge, she has no objection to this project with the reduced height and increased buffer. In his opinion, the only house whose view would be affected by the hotel is the house behind the hotel project. Higher up White Fawn there are additional houses but they are not oriented to the west and he didn't think that any of those homes will have their views affected by this 90-foot hotel. He said this is a good project from a good local family and they have proven to be good corporate citizens. He is convinced that this hotel will anchor all kind of important development in that location. This project is aligned with the future land use category in the Living Asheville Comprehensive Plan. He felt this project will also make safer that part of the City by a full-time security guard, security cameras and eyes on the street. On extended stay hotels of this type, 70-75% of the room nights go to business travelers,

families, patients, people who are visiting Mission Hospital, and tourists on the weekends. Asheville needs a pro-business development and this hotel meets that. Changes from the October meeting include the elimination of 163 hotel rooms on Smoky Park Highway - this hotel will have 103 hotel rooms. Also another change is that the Tourism Development Authority is going to look at how tourists impact our infrastructure. They have reached out to Mission Hospital and offered preferential pricing to families of patients at the Hospital, along with preferential pricing to the families of children in the Caiyalynn Burrell Child Crisis Center across the street. They have talked with Rev. Scott Rogers of the Asheville-Buncombe Community Christian Ministry (ABCCM) about opportunities to provide more jobs for veterans and other beneficiaries of ABCCM. They talked with Mountain Housing Opportunities and the Housing Authority of the City of Asheville regarding the revitalization of Lee Walker Heights. They will be able to provide a job training program (similar to ABCCM) for the residents of Lee Walker Heights. In addition, they will provide free bus passes to the residents of Lee Walker Heights, all of their staff and all of the hotel guests who would like one. They have also committed $125,000 for a playground at Lee Walker Heights upon approval of this zoning application. They understand that affordable housing is our number one problem in Asheville. He explained that it doesn't make sense to put affordable housing on a ¾ acre piece of property. But, because they want to be good community partners, they have agreed to make a contribution of $100,000 a year for 5 year to the Affordable Housing Trust Fund, once the hotel receives their Certificate of Occupancy and they are open for business. This property currently pays approximately $3,500 a year in taxes to the City. This will be a significant $18-20 Million investment so the taxes to the City will be in the range of $85-90,000 a year. He said this is a good project and asked for Council's approval.

Mr. Stevens, and Mr. Monark Patel, responded to Councilman Haynes regarding the job training program, why the site cannot be used for any kind of housing development, and how many full-time employees will the hotel hire, along with their pay.

Mayor Manheimer opened the public hearing at 6:31 p.m.

The following individuals spoke in support of the conditional zoning of property at 324 Biltmore Avenue, for several reasons, some being, but are not limited to: hotel is adjacent to Mission Hospital and will serve serious lodging needs for families visiting patients; fits into our aspirations of the success of the Lee Walker Heights transformation; recommendation of a new traffic signal be installed at Biltmore Avenue and White Fawn Drive; Monark Patel is a native businessman and good employer with many investments into the community; good to have a park for Lee Walker Heights; preferential pricing for families for Mission Hospital patients is a need; and hotel will have a positive impact on the community:

David Nutter
Pastor Ronald Gates, Greater Works Church of God and Christ
Luella Whitmire
Pastor James E. Roberts, Fairmont Baptist Church
Amber Banks
Kate Briggs, resident on Florence Street
Downtown resident and property owner in the area

The following individuals spoke against the conditional zoning of property at 324 Biltmore Avenue in its current form for several reasons, some being, but are not limited to: this is a very small lot and if it's not big enough for housing, why is it big enough for a hotel; Oakhurst is part of downtown and Council should not add another hotel to downtown; the $625,000 Mr. Patel is being asked to commit should not be a reason why the zoning should change; hotel should comply with the height standards; very few jobs would be created; negative impact on the surrounding neighborhood; hotels crowd out other opportunities; will block the views of the Oakhurst neighborhood; majority of Mission's patient population are Medicaid/Medicare recipients

and will not be able to afford an extended stay hotel room; this hotel will be one of the top 20 tallest buildings in Asheville and will change the look of this corridor; a 92-foot solid hotel 10-feet from Biltmore Avenue is not a good precedent for this area; there is already a Residence Inn on the other side of Mission Hospital; just because Mr. Patel is a nice person is no reason we should approve this project; hotel should activate the ground floor with business space; owner of the house directly behind the hotel has not given their support the hotel; hotel is not in keeping with the neighborhood; and the neighborhood has no resources as the closest grocery store is 1.9 miles away:

Kristen Daniels, Secretary of Oakhurst Neighborhood Association
Joel Atyas
Seay Stephens, resident of Oakhurst neighborhood
Resident of the Oakhurst neighborhood

Mayor Manheimer closed the public hearing at 7:08 p.m.

Vice-Mayor Wisler viewed this hotel as part of the downtown area. Within one mile of Mission Hospital we have 181 rooms and within 2 miles of Mission Hospital we have 1,430 rooms, so she did not see the need for another extended stay hotel close to Mission Hospital.

Councilwoman Smith wondered where the rally cry was when the community behind this area was all African American owners. No one stood up to protect and preserve the historic richness of their community. And now that a hotel is coming forward, everyone is speaking for the preservation of something they call rich. Comforts, such as a scenic view of Mt. Pisgah, were not considered. Not to shame and blame, but there has been a lot lost in that community.

Councilman Haynes was opposed to the project.

Councilwoman Mayfield said that she looks at each hotel on a case by case basis. She looks at what are the community benefits the development brings, and in this case $500,000 to the Affordable Housing Trust Fund, $125,000 for a playground at Lee Walker Heights, and the job training program are community benefits enough for her to support this project. In her view, this does have a pretty minimal impact on the adjacent neighborhood. What happens on that corridor is not really so much about the neighborhood behind. Biltmore Avenue is a commercial corridor. The steps to reduce the impact of the house immediately behind the hotel is to be commended. This is also the improvement of a vacant lot. In our Living Asheville Comprehensive Plan, Asheville is moving down Biltmore Avenue. This development is more consistent with what will be coming from downtown, with buildings close to the sidewalk. There are three transit lines that go on this street, and the hotel is also providing a bus shelter. Even though she always wants to see more housing, there will be hundreds of housing and affordable housing across the street.

Mayor Manheimer said that because of the tax structure in North Carolina, we are not able to harness visitor taxes very well and we are left with a deficiency in the funding we need to improve the City's services, e.g., paving a street, building a new sidewalk, etc. Shortly after the October meeting when this was originally discussed, the Tourism Development Authority contacted her and said they have engaged a consultant to look at a multi-year plan to fund capital through the room tax in conjunction with the City. Personally, that is the kind of change she wanted to see before she could move forward with considering another hotel. The City will also continue to look at revenue diversification. She recalled conversations about better managing hotel growth in the City. One significant change that has happened is that this Council changed the entire process for hotel applications. It used to be that many hotel applicants didn't need to come before Council for consideration and now all of them do. That gives Council the opportunity to have a discussion about each application on its own merit. Because of that process change, we are seeing a lot more community benefits from hotel applications.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve the conditional zoning for 324 Biltmore Avenue from Regional Business (RB) to Lodging Expansion Conditional Zone (LODG EXP CZ) and find that the request is reasonable, is in the public interest and is consistent with the city's comprehensive plan in that: (1) the proposal is aligned with the Future Land Use map in the Living Asheville Comprehensive Plan; and (2) the development is located within close proximity to medical and commercial uses that would be well served by the proposed use; (3) the project is walkable to downtown and directly accessible to transit; and 4) the proposed hotel is an active use that would contribute to the vibrancy of this area of the city. This motion was seconded by Councilwoman Mayfield and carried on a 4-3 vote, with Councilman Haynes, Vice-Mayor Wisler and Councilman Young voting "no".

ORDINANCE BOOK NO. 32 – PAGE 314

D. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 1 SOUTH TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO MIXED USE EXPANSION/CONDITIONAL ZONE TO ALLOW A MIXED-USE DEVELOPMENT THAT INCLUDES RESIDENTIAL, RETAIL, SERVICE AND ENTERTAINMENT USES

At this time, Interim City Attorney Rockoff left the dais due to a conflict of interest with her law firm. In her place, Associate City Attorney Eric Edgerton presided over this matter.

Principal Planner Shannon Tuch said that this is the consideration to conditionally zone 1 South Tunnel Road from Regional Business District to Mixed Use Expansion/Conditional Zone to allow a mixed-use development that includes residential, retail, service and entertainment uses. This public hearing was advertised on March 1 and 8, 2019.

Action Requested: Request to conditionally rezone a portion of 1 S. Tunnel Rd. from Regional Business District to Mixed Use Expansion District/Conditional Zone for the purpose of constructing a mixed-use development.

Background:

- The subject property includes a single 15.88 acre lot zoned Regional Business (RB) that is part of the larger Asheville Mall property but is owned and operated separately from the rest of the mall.
- The request is to rezone from Regional Business (RB) to Mixed Use Expansion - Conditional Zone (MXD EXP - CZ).
- The area is identified as Town Center on the Future Land Use Map which describes multi-story, high density, mixed use development in a compact urban form with strong relationship to the public realm and effective multi-modal transportation connections.
- The existing Sears department store is proposed to be demolished while the existing automotive center will be renovated and adaptively reused.
- In addition to the one-story renovated automotive center, the development will include the construction of six new buildings. Five of the six new buildings are one-story commercial buildings ranging in size from 1,300-5,000 square feet. The sixth building, building "B" is six stories, approximately 92 feet in height, and over 320,000 square feet in size.
- The first story of building B will be a 72,000 square foot commercial space including a multi-screen movie theater. Above the commercial ground level is five additional stories containing 205 residential units.

- Connected to Building B is a 2 ½ story parking structure with approximately 145 parking spaces.
- The existing surface parking lot will be partially demolished and rebuilt to accommodate the new construction and to incorporate additional landscaped improvements. Approximately 707 surface parking spaces are provided.
- Vehicular access to the property is unchanged and accommodated through three different access points (White Pine Dr., Tunnel Rd. & S. Tunnel Rd.). The primary entrance is from S. Tunnel Rd.
- Sidewalks varying in width from 5 feet to 10 feet are added throughout the project area.
- The project has been revised to address conditions and other comments from the Planning and Zoning Commission meeting including a full landscape buffer, a sidewalk along Brackettown Rd., 10% (21) of the units to be affordable, and pervious paving for the surface parking on the east side (front) of the project area.
- In response to the Traffic Impact Analysis, numerous traffic related site changes are required by NCDOT as part of their approval.

Council Goal(s):

- A Well-planned and Livable Community.

Committee(s):

- Technical Review Committee - September 17, 2018 - approved with conditions.
- Planning & Zoning Commission - January 14, 2019 - approved 5-2.

Pro(s):

- Provides a mix of uses, including residential units, in a strategic and locationally efficient area of the city
- Aligns with the Future Land Use Map, Town Center designation, in the Living Asheville Comprehensive Plan, in that the proposal allows for a mix of uses, higher density residential and buildings up to 10 stories high.
- Pedestrian and bike access is improved with the addition of sidewalk and sharrows.
- The landscape buffer along the western property boundary between the project area and the adjacent single family neighborhood will be widened to comply and will be enhanced with additional plant material. A fence is also proposed.
- Reduces the amount of impervious surface on the property.
- Provides a prominent, hardscaped public gathering area in front of buildings "B" and "A".
- 10% of the residential units (21 units) will be affordable to individuals earning at or below 80% AMI for a minimum period of 20 years.

Con(s):

- Requires a number of modifications to basic development and design standards in the UDO, including some standards central to successful, well designed urban centers:
  - Buildings are not oriented and fronting on the primary corridor.
  - Parking is located between the front building face and pedestrian zone.
  - Building B exceeds the maximum building size, footprint size and height for buildings in the Mixed Use Expansion District (this is offset by the provision of affordable units).
- Does not align with the Future Land Use Map, Town Center designation, in the Living Asheville Comprehensive Plan, in that the proposal does not meet the goal of a minimum of two-story building construction and a compact urban street grid to help guide future growth to a more efficient, urban form.
- A significant portion of the project design reflects a one-story, suburban form with extensive surface parking and is being driven by leasing requirements of national retail and entertainment tenants.

Fiscal Impact:

- There is no direct fiscal impact.

After Ms. Tuch reviewed the background, along with the pros and cons, she noted some of the exceptions to the Mixed-Use Expansion and UDO, such as it doesn't meet all of the landscape requirements, particularly for the parking lot and building impact, there are a number of sidewalks that are not 10-feet wide, the overall massing and height exceed what is normally allowed for Building B, and a number of the buildings are set back more than 25-feet from the primary corridors. In addition to evaluating a project for its ability to comply with the UDO, staff also looks at the project's ability to support the Living Asheville Comprehensive Plan. This project has a lot of positive features and to some degree it does align with the vision for Town Center which is described in the Future Land Use Map, particularly in that it re-energizes a commercial center, it provides some vertical density in Building B, it provides some improved multi-modal access with the sidewalks, and it designates 10% (or 21 units) to be affordable. Despite this, staff continues to have concern and does not support the project primarily because it does not include what we believe to be the most defining characteristic of a Town Center project - to incorporate a compact urban street grid with smaller blocks and pedestrian facilities for more walkability with multi-story buildings fronting the streets. The project as it is currently designed appears to be more consistent with the Urban Corridor designation in the Living Asheville Comprehensive Plan opposed to Town Center designation in that it is more focused on moving cars and has a more suburban design. The Town Center designation is a vision but it describes a compact urban street environment, very walkable, up to 10 stores depending on the surrounding context, very vibrant and lively.

In response to Mayor Manheimer, Ms. Tuch showed a grid on the site plan of the property that would fit the Living Asheville Comprehensive Plan. Sometimes we expect Town Center properties to evolve over time so what is critical at this stage is to establish that compact urban grid pattern.

Ms. Tuch said that the applicant has made numerous changes since the Planning & Zoning Commission. Two of the four conditions, the applicant agreed to in the meeting. The other two they have since agreed to which was the affordable housing component and the sidewalk along Brackettown Road. The new site plan which staff received this morning does include a micro-park (a small green space area).

Regarding the height of the project, Ms. Tuch said the Mixed-Use Expansion District caps height at 80 feet and we measure height from the main point of entry to the ceiling of the highest occupiable floor. This project would be 92 feet. There is also some additional equipment on top. The Town Center description describes 2-10 stories depending on the surrounding context. That is a little subjective. When a development project proposes to exceed a standard in some way we look to see what is the public benefit or what are the merits of the project that might help balance that impact. In this particular case it provides some affordable units.

In response to Mayor Manheimer, Ms. Tuch said the project triggered a Traffic Impact Study, which was also reviewed and approved by the N.C. Dept. of Transportation (NCDOT). The NCDOT recommended a number of changes that would have to occur as it relates to this project, which most occurring within their right-of-way. To some degree, the Traffic Impact Study and the NCDOT did look at the connection to Brackettown Road, but it did not recommend any particular improvements or other changes to that intersection with White Pine Drive.

Mr. W. Louis Bissette, attorney representing Seritage Growth Properties, said this is a great project. This is a mixed use project with entertainment, retail, and 205 multi-family units which 21 will be dedicated to affordable housing for 20 years. The pre-application for this project

began in November of 2017 and they met with the neighborhood in December of 2017. They have continued to do revisions to this project since then, e.g., widened buffer, an 8-foot fence along the rear of the property, a 5-foot walking path which will connect with the dog park, redesign of the parking in the front, took out angle parking and put in parallel parking, etc. He felt this is a great adaptive reuse project for the abandoned Sears store. The Living Asheville Comprehensive Plan was adopted mid-way through their project, noting they were designing their project at least 9 months before the Plan was adopted. However, they feel still feel they comply. He asked Council to not let the perfect be the enemy of the good. The project can't be perfect for a lot of reasons. They are not starting from a square piece of land; they are reusing part of the Auto Center and part of the base of the old Sears building; there are retaining walls on the property; topographical problems; and there are agreements with the Mall that they have to abide by. The Sears building is now valued on the tax rolls at $11 Million but this is a $40 Million project. They have already signed a lease with a movie theatre, there will be restaurants, and 205 mid-range apartments plus the affordable housing. He urged Council to approve this project.

Mr. Paul D'Arelli, Senior Vice-President of Seritage Growth Properties, briefly spoke about his company. Their mission is to redevelop and own revitalized shopping, dining, entertainment and mixed-us destinations that provide enriched experiences for consumers and local communities, and that create long-term value for their shareholders. He reiterated some of the adjustments and accommodations that were important to the neighbors and staff as outlined by Mr. Bissette. He said the grid concept has just been brought to their attention in the last few days so it's challenging for them to re-think re-gridding out the access lines, but if Council looks at their plan, they do have a grid. He asked for Council's approval.

Mayor Manheimer was excited to have a redevelopment of the Sears site. We hope we will see more reuse of older properties in the City. She felt positive about the project but was concerned as we have outstanding issues not meeting the Living Asheville Comprehensive Plan, in which this area includes building development with a grid-like pattern. That Plan was adopted last summer after a lot of input from the citizens. She wondered if the applicant would be willing to postpone this for at least a month to go back to the drawing board to see if a grid concept would work for the site and if so, what that might look like. We want to make sure that this first development sets the stage for future development.

Mr. D'Arelli said this is a challenging proposition for them as they have a signed lease. They have been working with staff after the Planning & Zoning Commission meeting and the grid concept was not focused on. He said he was not sure he could come back with any meaningful changes based on the existing site constraints.

Councilman Kapoor also wanted to see the project move forward, noting that this is a complex project. However, he felt we are not at an impasse and thought there might be a good opportunity for the developer to get closer to the Living Asheville Comprehensive Plan vision.

Councilwoman Mayfield agreed with Mayor Manheimer and Councilman Kapoor in that Council is excited about this vast improvement to the site, but unfortunately this development is in the unfortunate position to redevelop in one of our Town Centers and there is a particular vision for that.

Mayor Manheimer opened the public hearing at 8:25 p.m.

Several Kenilworth Forest residents and a representative of the Coalition of Asheville Neighborhood supported the project; however, there were still outstanding issues they would like to have addressed and encouraged a delay until those issues have been addressed. As the stated their issues/concerns, they also offered possible solutions. Those issues/concerns are, but are not limited to: neighborhood not notified of recent changes, e.g., dog park; increase traffic

impact on White Pine Drive and need for internal signage to direct traffic away from Brackettown Road; mechanical equipment noise abatement; need for rear parking lot tree islands for abatement of light and sound; need to lower height to 80-feet to confirm with existing ordinance.

David Nutter spoke in support of the project in that this is a case of long range comprehensive planning and short-term current planning which both are necessary for the life of communities. This proposal offers the community very valuable improvements to the Asheville Mall and hoped additional additional design improvements can be negotiated with the developer.

Mayor Manheimer closed the public hearing at 9:01 p.m.

Councilman Young was concerned about the affordable housing aspect and asked the developer to increase the affordable housing component to 40% at 60 AMI for 30 years. He noted that the chairman of Seritage Growth Properties is also chairman of the company that shut Sears and KMart stores nationwide, leading to tens of thousands of job losses, including in those in Asheville.

Mr. D'Arelli said that while Sears did close on this project, this development will bring back retail jobs.

Mr. D'Arelli then asked Council to continue this public hearing until April 23, 2019.

Vice-Mayor Wisler then moved to continue this public hearing until April 23, 2019. This motion was seconded by Councilman Kapoor and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

B. BOARDS & COMMISSIONS

Regarding the Asheville City Board of Education, the following individuals applied for the vacancies, met the requirements and submitted essays: Martha Geitner, John Mosconi, Pepi Acebo, Shaunda Sandford, W. Scott Powell, James C. Carter and Melissa Kledis. It was the consensus of the Boards & Commissions Committee, and consensus of Council to interview all seven individuals.. Those interviews will take place on Tuesday, March 26, 2019,beginning at 9:45 a.m. in the Council Chamber with appointments made at the formal meeting on that same evening.

Regarding the Citizens-Police Advisory Committee, there was no applications for the seat for a Housing Authority representative. Therefore, it was the recommendation of the Boards & Commissions Committee and the consensus of Council, to readvertise for the seat for a Housing Authority resident.

RESOLUTION NO. 19-58 - RESOLUTION APPOINTING A MEMBER TO THE BOARD OF ELECTRICAL EXAMINERS

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Board o f Electrical Examiners.

Mr. Kenneth Frisbee (layman) has resigned, thus leaving an unexpired term until July 1, 2018.

The following individual applied for the vacancy: Roger Vaught

Vice-Mayor Wisler moved to appoint Roger Vaught, as layman to the Board of Electrical Examiners, to serve a three-year term, term to expire July 1, 2021, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 322

RESOLUTION NO. 19-59 - RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Homeless Initiative Advisory Committee.

Marcia Bacoate has resigned as a member of the Homeless Initiative Advisory Committee, thus leaving an unexpired term until November 1, 2010.

The following individuals applied for the vacancy: Amber Banks, James Hartye, Josh Ivey, Annie Carpenter, Karen George, Shannon Watkins, Ellenore Holbrook, Sarah Tarpey, Patrick Casale and Patrick Gensert.

Vice-Mayor Wisler moved to appoint James Hartye to serve the unexpired term of Ms. Bacoate, term to expire November 1, 2020, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 323

RESOLUTION NO. 19-60 - RESOLUTION APPOINTING MEMBERS TO THE HUMAN RELATIONS COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Homeless Initiative Advisory Committee.

John Christiansen has resigned as a member of the Human Relations Commission, thus leaving an unexpired term until June 1, 2021. In addition, there is a vacancy for a seat never filled.

The following individuals applied for the vacancy: Yvonne Cook-Riley, Gretchen Gudites, Margaret Small, Tracy Elliott, Allison Scott, Greta Byrd, Matilda Bliss, Stephanie Krucher, Ingrid Kalwitz, Grant Millin, J. Vann Vogel, Carol Buffum, Ivan Melchor, Celeste Fletcher, Michael Hayes, Britni Ness, Bettie Council and Nicole Townsend.

Vice-Mayor Wisler moved to (1) appoint Nicole Townsend to serve the unexpired term of Mr. Christiansen, term to expire June 1, 2021, or until her successor has been appointed; and (2) appoint Ingrid Kalwitz to serve a two-year term, term to expire June 1, 2021, or until her has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 324

RESOLUTION NO. 19-51 - RESOLUTION APPOINTING A MEMBER TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Recreation Board.

Tiffany De'Bellott has resigned as a member of the Recreation Board, thus leaving an unexpired term until June 30, 2020.

The following individuals applied for the vacancy: Lucious Wilson and Craig Ruhland.

Vice-Mayor Wisler moved to appoint Lucious Wilson to serve the unexpired term of Ms. De'Bellott, term to expire June 30, 2020, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 312

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Two individuals spoke about Council's need to fight the state on redistricting.

An individual spoke about the lack of minority support in Asheville, in particular as it relates to the Asheville School System.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:35 p.m.

Magdalen Bowleson
CITY CLERK

Esther G. Manheimer
MAYOR

Tuesday – March 26, 2019 - 3:00 p.m.

Annual Operating Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

City Manager Campbell said that at this worksession it is her goal to (1) provide an update of the General Fund budget process; (2) share information on resource alignment with Council strategic and ongoing priorities; and (3) receive direction on key strategic priorities and resource allocation. At the April 9 worksession, the discussion will surround Enterprise Funds and the Capital Improvement Program.

Chief Financial Officer Barbara Whitehorn reviewed the City's fiscal health, outlining that (1) policies supporting good fiscal management; (2) long-term capital planning; (3) Government Financial Officers Association Awards; and (4) highest bond rating (AAA).

She reviewed with Council the budget worksessions, community budget information meetings, and department presentations to Council which included a deep-dive into department budgets with a focus on core service delivery. She then recapped Council's retreat which was a (1) Council review of strategic goals; (2) budgeting; (3) financial forecast; and (4) Capital Improvement Program review.

She then reviewed the 2018 citizen survey which ranged from 90% public safety to 50% recreation centers. She then reviewed the Council priorities for the timeframe of short 1-3 years.

Regarding the General Fund budget development are (1) organizational challenges which themes were identified in the department presentations (a) capacity to meet programmatic needs with existing staffing resources; (b) rising cost of service and project delivery; and (c) requests exceed revenue; (2) structural gap (a) a structural gap does not mean that the City's fiscal health is at risk; (b) Asheville's structural gap is not unique; and (c) resources required to maintain quality city services exceed revenue growth; (3) structural gap is estimated at $1.1 Million with the base budget assuming zero additional revenue from Mission/HCA sale; (4) update on the Mission/HCA revenues which estimate is $2.5 Million for Fiscal Year 2019-20 and $5 Million for Fiscal Year 2020-21; and (5) forecast chart (baseline + Mission/HCA).

Continuing with the General Fund budget development are guiding principles (1) enhancing customer value - ensuring efficient service delivery that improves the customer experience; (2) essential service delivery - ensuring departments have the resources required to meet service delivery expectations; and (3) strategic alignment - aligning resources (new and existing) to achieve community, Council and staff goals.

Regarding a continuation budget (1) base budget is core service focused; (2) assumes no significant additions; and (3) adjustments for strategic priorities (a) population; (b) service demand; and (c) costs. Included in the base is (1) increase in LGERS (retirement system) contribution; (2) across-the-board pay increase (2.5%); and (3) flat health care costs - no increase.

She reviewed the core services alignments with various Council's goals.

She then explained the budget drivers of (1) estimated new Mission/HCA revenue; and (2) key investments (a) transit; and (b) structural gap.

She then reviewed investment of new funds which include (1) Transit investment of $1.2 Million; (2) structural gap coverage of $1.1 Million; and (3) options in three categories of projects (a) projects; (b) plans; or (c) staff resources. Using a chart, she reviewed each of the options.

Council then discussed the options which they felt best aligns with their short-term (1-3 year) top priorities.

Ms. Whitehorn responded to various questions/comments from Council, some being, but are not limited to: how important is the pay and classification study; what are the route re-configurations and when would they take place; what is needed to fully fund the Transit Master Plan and if it were fully funded, can we achieve the expectations; are there other groups or partners that are other doing small business training that can help get entrepreneurs and minority businesses into our system; is funding for vacancies in the City Attorney's Office in place; do we anticipate any excess of revenue over expectures with vacancies; are there any partners to help with the Haywood/Page Plan and can in-house staff help with some of the scope of work with that Plan; is the Fire Department small capital a placeholder fund going forward; can we use the comprehensive pay study done in 2015 as a benchmark; and what are some of the other projects from staff or the community that might be contentious that didn't reach the Manager's budget. For those questions not readily answered, a memorandum would be provided to Council. In addition, Council will be provided with a short paragraph on the details and impact of each of the options.

At 4:20 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – March 26, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; Interim City Attorney Sabrina Rockoff; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MARCH 30, 2019, AS "ARBOR DAY"

Councilwoman Mayfield read the proclamation proclaiming March 30, 2019, as "Arbor Day" in the City of Asheville. She presented the proclamation to Dawn Chavez, Executive Director of Greenworks, and others, who briefed City Council on some activities taking place during the day..

B. TREE CITY USA AWARD

Mr. Robert (Dillan) Michael of the NC Forest Service presented the City of Asheville with the Tree City USA Award for accomplishments in 2018. Asheville is one of 87 cities and towns in North Carolina and one of over 3,400 in the nation to receive this recognition for 2018, which also marks the 39th year that Asheville has earned this national designation.

On behalf of Council, Mayor Manheimer thanked Mr. Michael for this Award and the Tree City USA Flag.

C. NORTH CAROLINA FINANCIAL LITERACY COUNCIL

Mayor Manheimer was pleased to announced that Dewana Little has been appointed by Governor Roy Cooper as Chairperson of the North Carolina Financial Literacy Council. She said that Dewana will be a strong voice on the council as we have known her to be here in Asheville. She has devoted countless hours of volunteer work to help make Asheville a better place.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE RETREAT HELD ON MARCH 8, 2019; AND THE REGULAR MEETING HELD ON MARCH 12, 2019

B. RESOLUTION NO. 19-61 - RESOLUTION ADOPTING THE MARCH 1, 2019, MUNICIPAL RECORDS AND DISPOSITION SCHEDULE ISSUED BY THE N.C. DEPT. OF NATURAL AND CULTURAL RESOURCES

Action Requested: Adoption of the March 1, 2019, Municipal Records and Disposition Schedule issued by the N.C. Dept. of Natural and Cultural Resources.

Background:

- N.C. Gen. Stat. sec. 121-5 mandates that records defined under Chapter 132 may be disposed of only in accordance with an official records retention schedule.
- This updated schedule provides that records listed may be destroyed after the specific retention periods without further approval, provided the governing body has authorized the records listed for destruction to be destroyed through its blanket approval of the Municipal Records and Disposition Schedule.
- The N.C. Dept. of Natural and Cultural Services has issued a new Municipal Records and Disposition Schedule.

Council Goal(s):

- n/a

Committee(s):

- n/a

Pro(s):

- Promotes good municipal records management

Con(s):

- n/a

Fiscal Impact:

- None

Motion:

- Move to adopt the March 1, 2019, Municipal Records and Disposition Schedule issued by the N.C. Dept. of Natural and Cultural Resources.

RESOLUTION BOOK NO. 40 - PAGE 325

C. RESOLUTION NO. 19-62 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONTINUE AN AGREEMENT WITH TYLER TECHNOLOGIES FOR CONTINUED SUPPORT OF THE TYLER/MUNIS ENTERPRISE FINANCIAL SYSTEM

Action Requested: Adoption of a resolution clarifying annual expenses related to an agreement with Tyler Technologies to provide maintenance and support for Munis, the City's financial system.

Background:

- In July 2018, the City adopted a maintenance agreement with Tyler Technologies to provide maintenance for the City's financial systems.
- Funding for the agreement is to be appropriated annually in the City budget process.
- The initial term of the agreement runs from April 2018- April 2023.
- This maintenance will support core city financial and other key functions.

Council Goal(s):

A Financially Resilient City

Committee(s):

- n/a

Pro(s):

- The City has been using Tyler/Munis Enterprise System since January of 2010 and staff is familiar with its strengths, limitations, and support process.
- Allows for updates to the Tyler/Munis Enterprise System, which enables new features and improved underlying technologies; upgrade licensing is included with support & ongoing fixes.

Con(s):

- None

Fiscal Impact:

- The maintenance agreement annual estimated expenses for the term of the agreement are as follows:

2019/2020	$189,700.00
2020/2021	$198,700.00
2021/2022	$208,200.00
2022/2023	$218,120.00

- Funding for each year of the contract will be included in the annual budget process.

Motion:

- Motion to adopt a resolution authorizing the City Manager to continue the remaining term of the general services agreement with Tyler Technologies, and to expend the remaining total estimated base amount of $814,720.00, and further authorizing the City Manager to

execute any contract amendments obligating the City to pay up to 15% in excess of the total estimated base cost of the contract for the remaining term if necessary and proper.

RESOLUTION BOOK NO. 40 - PAGE 327

D. RESOLUTION NO. 19-63 - RESOLUTION AMENDING THE BY-LAWS OF THE AFFORDABLE HOUSING ADVISORY COMMITTEE TO ADD TWO ADDITIONAL MEMBERS FOR THE PURPOSE OF INCREASING DIVERSITY AND DEVELOPMENT EXPERTISE

Action Requested: Approval of a proposed amendment to the AHAC Bylaws to add two (2) additional Committee Members for a total Committee membership of 11 members and also amending this section to add a banker/lender with affordable and/or commercial loan experience to the list of desired members.

Background:

- The Affordable Housing Advisory Committee was established in June, 2011, with a 9 member board.
- As the difficulty of developing and building affordable housing continues, AHAC would like to add additional members to the Committee to represent expertise needed to help address our affordable housing crisis.
- AHAC envisions an additional development expert and an additional banker with affordable and/or commercial loan experience.

Council Goal(s):

- A Connected & Engaged Community

Committee(s):

- Affordable Housing Advisory Committee - January 3, 2019 - recommended unanimously
- Boards & Commissions - March 12, 2019 - recommended unanimously

Pro(s):

- Additional diversity on the AHAC Committee, adding expertise in development, banking & affordable housing

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Move to amend Article III, Section 1, of the Bylaws of the AHAC to add two (2) additional Committee Members for a total Committee Membership of 11 Members; and to amend this section to add a banker/lender with affordable and/or commercial loan experience to the list of desired members.

RESOLUTION BOOK NO. 40 - PAGE 328

E. RESOLUTION NO. 19-64 - RESOLUTION AUTHORIZING THE STANDARDIZATION PURCHASE OF PLYMOVENT SYSTEMS FOR

VEHICLE EXHAUST EXTRACTION IN THE CITY'S FIRE STATIONS FOR CONSISTENCY IN OPERATION AND FUNCTIONALITY

Action Requested: Adoption of a resolution authorizing the standardization purchase of Plymovent exhaust removal systems for consistency in operation and functionality in Asheville Fire Department stations.

Background:

- Plymovent systems extract hazardous vehicle exhaust emitted by fire trucks in fire station bays when they start.
- The Asheville Fire Department has been using Plymovent systems in fire stations since 1993.
- Exhaust removal from the bays allows for cleaner, more breathable air.
- City Council has approved CIP funds to be utilized for upgrading all 11 vehicle exhaust removal systems currently in use and installing a new system in one station.
- Exhaust removal technology does not currently exist that allows systems from different vendors to be interchangeable.
- If approved, the City's authorization for standardization shall be effective until the Asheville Fire Department considers technology has improved enough to request a change of systems for fire stations.

Council Goal(s):

- A Clean and Healthy Environment
- Smart City

Committee(s):

- Human Resources and Finance Committee - March 26, 2019 - Pending
- Public Safety Committee - March 25, 2019 - Pending

Pro(s):

- Standardization of Plymovent systems for vehicle exhaust removal will ensure consistency and compatibility among fire apparatus and across the fire stations out of which they operate.

Con(s):

- If standardization is not authorized, and a bid for exhaust removal systems is issued, the lowest bidder may not be Plymovent systems. The Department would have to shift operations in order to accommodate apparatus and stations with the same exhaust removal systems.
- Fire companies would need to find work arounds for apparatus at different stations, such as parking fire trucks outside of bays.
- The current system is installed in 11 fire stations and 30 fire trucks. If standardization is not authorized and vendors changed, demolition would need to be performed to remove the current system in all stations and on all apparatus.

Fiscal Impact:

- The budget has already been approved for purchases and upgrades to the current Plymovent Systems and costs associated with upgrades and installations will fit within the allocated budget amount.

Motion:

- Motion to adopt a resolution authorizing the standardization purchase of Plymovent exhaust removal systems for consistency in operation and functionality in Asheville Fire Department stations.

RESOLUTION BOOK NO. 40 - PAGE 329

F. RESOLUTION NO. 19-65 - RESOLUTION APPROVING THE ISSUANCE OF UP TO $22,500,000 MULTI-FAMILY HOUSING REVENUE BONDS TO PROVIDE FINANCING FOR REDEVELOPMENT OF LEE WALKER HEIGHTS TO SATISFY SECTION 147(F) OF THE INTERNAL REVENUE CODE

Action Requested: Adoption of a resolution approving the issuance of bonds by the Housing Authority of the City of Asheville for the redevelopment of Lee Walker Heights (LWH) into a new, affordable, multi-family residential development.

Background:

- Maple Crest, LLC, has requested that the Asheville Housing Authority issue up to $22,500,000 in multi-family housing revenue bonds for the redevelopment of LWH, currently consisting of 96 affordable apartments, located off of SouthSide Avenue. Maple Crest, LLC, is seeking to replace the existing 96 public housing units with 212 new affordable mixed-income units, 7 residential buildings, serving families earning between 10% and 60% of Area Median Income (AMI), 96 of which will continue to have deep subsidies, serving families below 50% of AMI.
- Maple Crest, LLC, will be the new tax credit entity for the Lee Walker Heights redevelopment. The LLC is made up of a managing member, Maple Crest Management, Inc., and a tax credit investor member, which will be affiliated with the National Equity Fund and will make the private equity investment in the property. Maple Crest Management, Inc., which will manage the property, is a North Carolina non-profit that also has two members: Mountain Housing Opportunities, Inc. and Maple Crest Affordable Housing, Inc., a non-profit affiliated with the Housing Authority.
- This redevelopment is being financed by a combination of 4% Low Income Housing Tax Credits, bond debt, HUD Funds, Housing Authority funds, including grants to the Housing Authority from Buncombe County and the City of Asheville.
- The IRS Code Section 147(f) requires that any bonds issued by the Housing Authority for developments such as this have the approval of the plan of financing by City Council, following a public hearing with respect to such plan. On March 20, 2019, the Housing Authority held a public hearing, and there were no comments.This approval by City Council does not obligate the City in any way to issue or pay for the bonds, or for any other debt undertaken by Maple Crest LLC in connection with this project.

Council Goal(s):

- An Equitable and Diverse Community
- A Well-Planned and Livable Community
- Quality Affordable Housing

Committee(s):

- None

Pro(s):

- 212 new affordable units serving individuals and families below 60% of AMI

Con(s):

- None
-

Fiscal Impact:

- As noted above, the approval of this bond issuance does not require City investment. In a separate City initiated approval, $4.2M in City Funds are being granted to assist in the redevelopment of LWH.

Motion:

- Motion to adopt the resolution approving in principle the issuance by the Housing Authority of the City of Asheville of up to $22,500,000 in multi-family housing revenue bonds for the redevelopment of Lee Walker Heights into a new, affordable, multi-family residential development.

RESOLUTION BOOK NO. 40 - PAGE 330

G. RESOLUTION NO. 19-66 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A LEASE WITH THE ASHEVILLE-BUNCOMBE YOUTH SOCCER ASSOCIATION FOR THE LEASE OF FOUR SOCCER FIELDS, THE CONCESSIONS AND MEETING ROOM AT THE JOHN B. LEWIS SOCCER COMPLEX

Action Requested: Authorize the City Manager to sign a lease for the John B. Lewis Soccer to the Asheville Buncombe Soccer Association

Background:

- The City owns property at 439 Azalea Park known as the John B. Lewis Soccer Complex.
- The John B. Lewis soccer complex was constructed utilizing public and private funding.
- ABYSA utilizes and schedules use of the soccer fields for youth and adult play including practices, games and tournaments.
- ABYSA will lease the fields, concession and meeting room of the building for $1 per year for a period of 12 years, with a 180-day termination clause that may be exercised by either party.
- The lease agreement will include the terms of the lease, responsibility for ongoing maintenance, responsibility for repairs after flooding events or other acts of God and long-term replacement of the fields.

Council Goal(s):

- A Financially Resilient City
- A Connected and Engaged Community

Pro(s):

- The terms of the lease define the responsibilities of the City and ABYSA for short, medium and long term recommendations.
- The terms of the lease agreement creates a capital fund supported by ABYSA and the City for the long-term replacement of the fields.

Con(s):

- None

Fiscal Impact:

- The City of Asheville will pay a maximum of $50,000 a year for the repair of fields due to flood events or acts of God. Additionally, the City will place $15,000 per year into a

capital fund to be utilized for the replacement of the soccer fields for a total of $150,000 over a ten year period. The total operating budget impact is $65,000 per year for the twelve-year duration of the lease.

Motion:

- Motion to authorize the City Manager to negotiate and sign a lease agreement with ABYSA for the lease of four soccer fields, the concessions and meeting room at the John B. Lewis Soccer Complex.

RESOLUTION BOOK NO. 40 – PAGE 332

H. RESOLUTION NO. 19-67 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR THE PARKING GARAGES ELEVATORS RENOVATION PROJECT

ORDINANCE NO. 4734 - BUDGET AMENDMENT TO FULLY FUND ELEVATION RENOVATION IN THE RANKIN AVENUE AND WALL STREET PARKING GARAGES

Action Requested: Adoption of a resolution authorizing the City Manager to: 1) execute a contract with Patton Construction Group, Inc. for an amount not to exceed $395,990 and 2) further authorizing the execution of any contract amendments up to 10% above the contract price, which may arise during execution of the Parking Garages Elevators Renovation Project; and 3) adoption of the associated budget amendment in the amount of $300,000 from the Parking Services fund balance to fully fund elevator renovation in the Rankin Avenue and Wall Street parking garages.

Background:

- The Rankin Avenue and Wall Street parking garages are 30 years old.
- The elevators in the parking garages have reached the end of their service lives.
- The Wooten Company has prepared specifications and designs and will provide construction management.
- The renovation includes elevator car replacement, mechanical room refurbishment, and updating to current fire and building codes.
- A project was budgeted in FY 2016 in the Parking Capital Fund for renovation of the elevators in the Civic Center, Rankin Avenue, and Wall Street garages. Renovation of the Civic Center garage elevator was completed in spring 2018.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- Finance & HR Committee - March 26, 2019 - pending

Pro(s):

- Updates 30-year old elevators ensuring continued safe use.
- Enhances the customer experience.
- Helps extend the service life of two of the parking garages.

Con(s):

- None

Fiscal Impact:

- As noted above, a budget amendment in the amount of $300,000 is needed from the Parking Services fund balance to fully fund the construction contract. The Parking Services Fund balance was approximately $2.2 million above the City's fund balance policy goal at the end of FY 2017-18. Following the $300,000 appropriation, the fund balance will be $1.9 million above the City's policy goal. Staff anticipates making an additional appropriation from fund balance for capital needs in the upcoming FY 2020 budget.

Motion:

- Motion to approve a resolution authorizing the City Manager to: 1) execute a contract with Patton Construction Group, Inc. for an amount not to exceed $395,990, and 2) further authorizing the execution of any contract amendments up to 10% above the contract price, which may arise during execution of the Parking Garages Elevators Renovation Project; and 3) move to approve the associated budget amendment in the amount of $300,000 from the Parking Services fund balance to fully fund elevator renovation in the Rankin Avenue and Wall Street parking garages.

RESOLUTION BOOK NO. 40 - PAGE 344
ORDINANCE BOOK NO. 32 - PAGE 321

I. RESOLUTION NO. 19-68 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT ON CITY-OWNED PROPERTY AT MCCORMICK PLACE TO DUKE ENERGY PROGRESS FOR ELECTRICAL INFRASTRUCTURE TO SUPPORT THE NEIGHBORING TOWNHOME DEVELOPMENT

Action Requested: Adoption of a resolution to authorize the City Manager to convey an easement on City-owned property at 30 Buchanan Place (McCormick Field property) to DEP for electrical infrastructure to support the neighboring townhome development.

Background:

- Private developers are building the Bauhaus Townhomes on a parcel located at 72 McCormick Place, adjacent to McCormick Field. Construction has begun on the units and the main electricity for the units is coming from the North side of the property.
- The developers are now asking that DEP extend electricity in order to connect street lights. In order to so, DEP plans to consolidate existing poles located across the street at the City's fueling station and extend service.
- No additional easement is needed on the fueling station property, however a small easement is needed where the Bauhaus property meets the City's property at McCormick Field. Duke plans to install the electrical conduit underneath the sidewalk along the southern edge of the Bauhaus development utilizing a 2,500 square foot area of City property for utility easement purposes.
- This easement does not interfere with operations at McCormick Field. Parks & Recreation and Streets have been consulted for input and neither has objections.

Council Goal(s):

- Well Planned and Livable Community

Committee(s):

- None.

Pro(s):
- DEP is agreeing to consolidate poles in the City's right of way at the City Fueling Station located at 45 McCormick Place.

Con(s):
- A minor easement for utilities on City property.

Fiscal Impact:
- DEP is offering no compensation for this easement.

Motion:
- Motion to adopt a resolution that authorizes the City Manager to sign an easement with Duke Energy Progress for an electrical easement on City-owned property at McCormick Place.

RESOLUTION BOOK NO. 40 - PAGE 345

J. RESOLUTION NO. 19-69 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH FLETCHER HOSPITAL INC. (D/B/A ADVENT HEALTH HENDERSONVILLE) FOR PHYSICIAN SERVICES AT THE EMPLOYEES HEALTH CENTER

Action Requested: Adoption of resolution approving contract with Fletcher Hospital, Inc. (d/b/a Advent Health Hendersonville) for physician services for the Employee Health Center.

Background:
- The City of Asheville maintains an Employee Health Center providing basic medical services.
- The Health Center is staffed by medical staff with professional oversight by a physician.
- Physician serves as Medical Director for the City.
- Cost of the service is $114,00/year.

Council Goal(s):
- A Connected and Engaged Community

Council Committee(s):
- n/a

Pro(s):
- Access to a licensed physician who provides oversight to medical care both personal and workers compensation-related
- Cost-avoidance to health plan expenses

Con(s):
- n/a

Fiscal Impact:
- $114,000/year which is budgeted in the Health Insurance Internal Service Fund.

Motion:

- Motion authorizing the City Manager to enter into a contract with Fletcher Hospital, Inc. (d/b/a Advent Health Hendersonville) for physician services for the Employee Health Center.

Dr. Paul Martin reiterated his concerns from the March 23, 2019, meeting, stating that the current physicians provided by Fletcher Hospital have had no formal training in specialized requirements demanded by Workers Comp, Fire, Police and Public Works. He felt the RFP should be redesigned and re-posted.

RESOLUTION BOOK NO. 40 - PAGE 346

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 155, 137, 129 AND 123 BILTMORE AVENUE FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION DISTRICT/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A 56-ROOM HOTEL IN ONE NEW 5-STORY BUILDING AND THREE EXISTING BUILDINGS

ORDINANCE NO. 4735 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 155, 137, 129 AND 123 BILTMORE AVENUE FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION DISTRICT/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A 56-ROOM HOTEL IN ONE NEW 5-STORY BUILDING AND THREE EXISTING BUILDINGS

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to conditionally zone property located at 155, 137, 129 and 123 Biltmore Avenue Central Business District to Central Business District Expansion District/Conditional Zone for the construction of a 56-room hotel in one new 5-story building and three existing buildings. This public hearing was advertised on November 30 and December 7, 2018. On December 11, 2018, the petitioner requested this matter be moved to this date.

Action Requested: Consider a conditional rezoning petition from property currently zoned Central Business District (CBD) to Central Business District Expansion/Conditional Zone (CBD EXP CZ).

Project Location:

- The project site consists of four parcels totalling 1.56 acres known as 155, 137, 129 and 123 Biltmore Avenue and PINs 9648-48-3860, 9648-48-3740, 9648-48-3611, and 9648-49-2474 ("155 Biltmore Avenue").

Petitioner/Agent/Contact:

- Warren Sugg

112

Summary of Petition:

- The proposal is to construct a lodging facility (called Family Lodge) of 56 rooms spread across four buildings. One new building will contain 50,207 square feet and 36 rooms, while three existing historic houses with include a total of 20 rooms.
- The new building is five stories tall and has a parking structure in the basement (S. Lexington entrance). There is also a restaurant on the ground floor of the new building facing Biltmore Avenue.
- Vehicular access is from S. Lexington Avenue for both the northern parcels (existing surface parking) and southern parcel (new building). One historic driveway on Biltmore in front of 123 Biltmore will be left for service use, but does not connect to the rear parking lot.
- The new building will have fully compliant sidewalks (12 feet on Biltmore, 10 feet on S. Lexington). Sidewalks at the historic houses will not be compliant (seven feet on Biltmore, seven to 10 feet on S. Lexington).
- The applicant is requesting the following conditions be approved for this proposal:
    - Some sidewalks are narrower than normally required due to historic walls or trees. Staff is generally supportive of this condition.
    - Courtyard - the site plan shows a deeper courtyard than usually allowed. Both staff and the Downtown Commission is supportive of this modification.
    - Number of driveways - the Unified Development Ordinance (UDO) allows one driveway per development and this project will have three driveways (two existing and one proposed). The front entrance on Biltmore is a historic drive and will not be a primary driveway for guests. This development is also separated by another building that is not part of the project; therefore, staff feels this request is reasonable.

Staff Recommendation:

- Staff supports the proposed rezoning in that it 1) meets most standards of the Unified Development Ordinance (UDO), 2) meets the intent of the Downtown Design Review Guidelines, and 3) will help preserve the three historic houses and carriage house. The hotel and restaurant will also bring visitors to an area of downtown that has been less vibrant than other areas.

Comprehensive Plan Consistency:

- In the newly adopted Living Asheville Comprehensive Plan, the Future Land Use Map identifies this area as Downtown. Living Asheville reinforces downtown as the city and regional center for a mix of uses, including hotels, residential, and a wide variety of commercial uses. It also states, *"Lodging is essential to the mix of uses downtown and while additional lodging uses may be appropriate, they must be considered in context with other development so that the variety and mix of uses, which give downtown its distinctive character is not compromised."*

Compatibility Analysis:

- The new building at 155 Biltmore is an appropriate scale for this area and will be much smaller than the adjacent future building at 145 Biltmore (currently under construction).
- The design complies with design and operational standards as required by the proposed zoning district with the exception of the deeper courtyard. The materials and composition of the new building help to provide visual interest while breaking up large expanses of the facade vertically and horizontally.
- The front courtyard of 155 Biltmore reduces its impact and will help activate the ground floor. The rear of the building on S. Lexington also has habitable space lining the parking garage.

- The project will preserve the three historic houses, which are important to downtown's history.
- Traffic is largely limited to two driveways on South Lexington, and two driveways are being eliminated from Biltmore Avenue.
- Residents of Lexington Station have voiced concerns about trash pickup, noise, light and the landscaping along the S. Lexington side of the project. The developer has increased the landscaping behind 137 Biltmore to help address this issue.
- The location of this lodging facility is in a part of downtown where there are fewer hotels; the majority of downtown hotels are located to the north of the subject site.

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Technical Review Committee - October 8, 2018 - approved with conditions
- Downtown Commission - October 12, 2018 - recommended denial (5-3)
- Planning & Zoning Commission - November 7, 2018 - recommended approval (5-2)

Mr. Chris Day, with Civil Design Concepts, reviewed with Council some of the technical points. This developer has recently completed a project at 45 Asheland Avenue, and the project next door at 145 Biltmore Avenue is underway. They are also working with the developer and Mountain Housing Opportunities on a mixed-use project in the Central Business District to provide retail, office and affordable housing. We appreciate that the three houses now have a permanent preservation easement on them and the project project will preserve those historic structures. He reviewed the site layout noting they are eliminating some curb-cuts. The historic wall will be retained. All concerns expressed by the Downtown Commission have been addressed. While the 18 parking spaces now is private parking, they are proposing that it become publicly accessible parking, which will be reflected in the conditions.

In response to Vice-Mayor Wisler, Mr. Day said that he understands that his applicant was responsible for working out the permanent preservation easement with the Preservation Society.

Mr. Gene Ellison, attorney representing the applicant, felt this is a great project for the corridor coming in from the south. They will be saving the 3 historic houses that have a permanent preservation easement on them. They will also be providing the 18 public spaces. The developer is also working on another project at the corner of Hilliard and Clingman showing their commitment to our City. This project will bring something different to downtown. It also improves on the pedestrian experience. The developer is committed to paying a living wage, including their contractors and subcontractors.

Regarding the three historic houses, Ms. Robin Raines, with Rowhouse Architects, said that they will keep as much of the interior space as is. The houses will be restored back to as much to the historical originality as possible. She said the two most southern houses are in bad shape and need more work. The State has strict rules and regulations on what you can do to a historic structure to receive tax credits and that is the goal. Whatever is done to fix the houses will have to adhere to the State's strict rules and regulations.

In response to Vice-Mayor Wisler, Mr Al Sneeden, developer, said that the three historic homes may have a kitchen for a small family or a if a meeting is held in them, they can cater a meal. Kitchens are not in the individual rooms.

Ms. Raines responded to Councilman Haynes regarding the amenities in the rooms in the new construction. They will be a one-bedroom format with a living room area with a fold-out couch. There will be a very small kitchen in each room and each room can possibly accommodate four people.

Mayor Manheimer opened the public hearing at 5:43 p.m.

Mr. David Nutter spoke in support of the conditional zoning as it will (1) help us to define a workable hotels policy based on special benefits that cannot be achieved in any other way; (2) expand the cause of downtown revival; (3) help bring a now desultory Biltmore Avenue to life along a weak stretch; (4) abet healthy pedestrian and biking activity; (5) help carry out a working vision for the South Slope and Southside by providing a new gateway to and from Biltmore; (5) make historic preservation more a part of the main game of the city; and (6) be a refreshing burst of mixed use, design, preservation and economic vitality.

Mr. Peter Landis, downtown resident, was curious about how much noise the stage in the event space will generate.

Mr. Chris Smith, Vice-President and part owner in Beverly-Grant, spoke in support of the conditional zoning as they have been working with the developer in the community and they hire local staff and pay a living wage.

Mayor Manheimer closed the public hearing at 5:50 p.m.

Mr. Chis Day said that the intention of the stage is intended more for smaller events, like weddings and small family events. The whole project is family based.

In response to Councilman Haynes, Mr. Sneeden said that they looked at a lot of alternatives for this site and a hotel was the best one. They would not have built luxury condominiums on this site because they wanted to support the three historic houses. With the level of repair and upkeep of the houses, the hotel was the best option.

Ms. Vrtunski said that the applicant has agreed to the condition that the project will provide 18 spaces on S. Lexington Avenue and they will be publicly available. That condition will be added to the B.1 Conditions.

Councilman Haynes noted that anytime we add another luxury hotel in downtown, all we're doing is making affordability continue to rise. He felt that people can't afford to live here and Council isn't doing much to combat that.

Vice-Mayor Wisler applauded the applicant's interest in preserving the three historic homes; however, not at the expense of building another hotel.

Councilwoman Smith agreed with Vice-Mayor Wisler, noting that we just approved a hotel right up the street on Biltmore Avenue.

Councilwoman Mayfield stated that she looks at each project individually to see what kind of benefits they bring to the community in exchange for doing business in our community. For her, the benefits of the preservation of the three historic houses, public parking and a private developer who seems well capitalized who is interested in building affordable housing in our City.

Councilman Kapoor said that this project complies with the Living Asheville Comprehensive Plan. He is also pleased with the preservation of the three historic homes, noting that it will take a lot of money to preserve them and in order to do so, they have to make money to

pay for the costs of upkeep. He felt this is a unique piece of property and a good project on this stretch of Biltmore Avenue.

Councilman Young felt we need to look at each individual project on its own merits. He appreciated the preservation of the three historic homes. But, what he is looking for is the aspect of what is the developer doing in the community. He has some issues with some aspects of the project but he also sees that the developer is working hand in hand with the City and not needing funds to build affordable housing.

Mayor Manheimer said that Council struggles each time a hotel comes forward and they make the best decision they know how on each one. Her final capstone issue continues to be the pressure that generally speaking the tourism industry places on the City balanced with the benefits that it brings. We are a tourist town but continuing to grow and balance that tension is a trick for Council. She continues to be encouraged by the Tourism Development Authority's overtures to the City to work with us on a long-term plan to better fund the City's needs for the people that live here as well as the people that visit here.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the rezoning request from Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ) for a lodging facility at 155, 137, 129 and 123 Biltmore Avenue with the requested conditions and find that the request is reasonable, is in the public interest and is consistent with the city's comprehensive plan in that the project: 1) encourages historic preservation and adaptive reuse; 2) is compatible with the surrounding context; 3) will improve pedestrian access and infrastructure; and, 4) is aligned with the Future Land Use map in the Living Asheville Comprehensive Plan. This motion was seconded by Councilman Kapoor and carried on a 4-3 vote, with Councilman Haynes, Councilwoman Smith and Vice-Mayor Wisler voting "no."

ORDINANCE BOOK NO. 32 - PAGE 323

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING ON PROPERTY LOCATED AT 3 AVON ROAD FROM COMMERCIAL BUSINESS I DISTRICT TO COMMERCIAL BUSINESS I/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A NEW BUNCOMBE COUNTY EAST ASHEVILLE LIBRARY BRANCH BUILDING

Councilman Kapoor moved to continue this public hearing until April 9, 2019. This motion was seconded by Councilwoman Mayfield and carried unanimously.

C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO (1) CHAPTER 7, ARTICLES V AND XV OF THE CODE OF ORDINANCES MAKING ALL SUBDIVISIONS IN HISTORIC OVERLAY DISTRICTS AND ON LOCAL HISTORIC LANDMARK PROPERTIES SUBJECT TO REVIEW BY THE HISTORIC RESOURCES COMMISSION; AND (2) CHAPTER 7, ARTICLE IX TO MAKE MINOR CORRECTIONS

ORDINANCE NO. 4736 - ORDINANCE TO AMEND (1) CHAPTER 7, ARTICLES V AND XV OF THE CODE OF ORDINANCES MAKING ALL SUBDIVISIONS IN HISTORIC OVERLAY DISTRICTS AND ON LOCAL HISTORIC LANDMARK PROPERTIES SUBJECT TO REVIEW BY THE HISTORIC RESOURCES COMMISSION; AND (2) CHAPTER 7, ARTICLE IX TO MAKE MINOR CORRECTIONS

Urban Planner II Alex Cole said that this is the consideration of an ordinance to amend (1) Chapter 7, Articles V and XV of the Code of Ordinances making all subdivisions in historic overlay districts and on local historic landmark properties subject to review by the Historic Resources Commission; and (2) Chapter 7, Article IX to make minor corrections. This public hearing was advertised on March 15 and 22, 2019.

Action Requested: Consideration of zoning text amendments to 1) require the review of proposed subdivisions of property located within locally designated historic districts or individual local landmarks by the Historic Resources Commission (HRC) as part of the overall city subdivision review process; and 2) to make minor corrections to sections pertaining to Certificates of Appropriateness application and review procedures for clarification purposes.

Background:

- As infill development continues to occur in the City, staff has noted an increase in subdivision applications, including applications for subdivision of land in local historic districts or of properties designated as local historic landmarks.
- As there is no formal process for review of subdivisions that impact historically designated properties, several subdivisions have occurred where the lots created will face difficulty in meeting the respective historic district or local landmark design review guidelines, specifically those guidelines relating to the siting of new structures so that they are similar to the historic pattern in terms of orientation, setback, retention of green space and spacing between structures.

Summary of Petition:

- (UDO) Chapter 7, Articles V, IX, XV to require the review of proposed subdivisions of property located within locally designated historic districts or individual local landmarks by the HRC as part of the overall City subdivision review process; and to make minor corrections to sections pertaining to Certificates of Appropriateness application and review procedures.
- This wording amendments include two primary components:
    1. The addition of new standards requiring all lots in subdivisions proposed within historic overlay districts and local historic landmarks to be reviewed by the Historic Resources Commission for congruence with the historic character of the district, prior to final subdivision approval by the Development Services Department.
    2. The correction and/or clarification of existing sections of the code as it pertains to Certificates of Appropriateness applications and approval.
- The proposed amendment would require that any subdivision of land, designated as a local historic landmark or located in one of the four local historic districts, submit their proposal for review by the HRC, prior to final subdivision plat approval.
- The extent of the HRC's review and preliminary approval or denial of the proposed subdivision would be an assessment of the proposed lots and their ability to support potential development that would be congruous with the historic district guidelines regarding building setbacks, orientation and consistency with the historic development pattern.
- The HRC review process would be quasi-judicial and the decision would be based on the adopted guidelines of the historic district (or historic landmark standards) in which the proposed subdivision is located.

Staff Recommendation:

- Staff recommends approval of the wording amendments for the following reasons:
    - It will ensure that the city does not allow a subdivision of land that is in conflict with the historic district zoning overlay or local historic landmark ordinance.

- It may help the city to avoid potential legal challenges that might result from the HRC denying a certificate of appropriateness for development on a newly created parcel that is incongruous with the historic character of the neighborhood.
- It will provide more certainty to property owners earlier in the planning and development process.

Comprehensive Plan Consistency:

- This wording amendment supports the Living Asheville Comprehensive Plan by enhancing creative placemaking through preservation of neighborhood character and historic resources and ensuring new housing remains compatible with and contributes to the overall character of the existing neighborhood fabric (pp. 128-129, 152-154).

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Planning & Zoning Commission - October 3, 2018 - approved unanimously
- Historic Resources Commission - October 12, 2018 - approved unanimously
- Planning & Economic Development Commission - February 11, 2019 - recommended in favor of review by City Council

In summary, this would provide more certainty to property owners/applicants earlier on in the subdivision review process and ensure that new development is compatible with other buildings in the historic district.

Mayor Manheimer opened the public hearing at 6:16 p.m., and when no one spoke, she closed the public hearing at 6:16 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the wording amendments to UDO Articles V, IX and XV to expand standards for subdivisions and subdivision plat approvals to require review by the HRC and to clarify the process for obtaining Certificates of Appropriateness, and find that the request is reasonable, is in the public interest, and is consistent with the city's comprehensive plan in that it: 1) helps to sustain a livable built environment by enhancing creative placemaking through preservation of neighborhood character and historic resources; and, 2) ensures new housing remains compatible with and contributes to the overall character of the existing neighborhood fabric. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 337

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 19-70 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NEGOTIATE AND ENTER INTO A GRANT AGREEMENT WITH THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE IN THE AMOUNT OF $4.2 MILLION FROM SEVERAL CITY FUNDING SOURCES AND ACCORDING TO VERIFIABLE, PERFORMANCE BASED DISBURSEMENT SCHEDULE, WITH THE FIRST $1.4 MILLION DISBURSED TO HACA IN EARLY MAY 2019

ORDINANCE NO. 4737 - BUDGET AMENDMENT TO APPROPRIATE FUND BALANCE RESERVED FOR THE LEE WALKER HEIGHTS PROJECT

Mr. Paul D'Angelo, Housing Development Specialist said that this is the consideration of a resolution to

Action Requested: Staff recommends that City Council authorize the City Manager to negotiate and enter into a grant agreement with the Housing Authority of the City of Asheville (HACA) in the amount of $4.2 million from several city funding sources and according to a verifiable, performance based disbursement schedule, with the first $1.4 million of that amount disbursed to HACA in early May 2019; and further authorizing approval of a Budget Amendment in the amount of $1,380,000 to appropriate fund balance reserved for the project.

Background:

- The Lee Walker Heights Redevelopment will replace the existing 96 public housing units with 212 new affordable mixed-income units serving families earning between 10% and 60% of Area Median Income (AMI). The total project cost is estimated at approximately $39.7 Million, and the project will be funded through a combination of 4% Low Income Housing Tax Credit (LIHTC) funds, HUD Funds, Housing Authority Funds, Buncombe County grant funds in the amount of $4.2 million and City grant funds in the amount of $4.2 million.
- 96 of the 212 units will continue to have deep subsidies, serving families well below 50% of AMI. HACA's current families have an average income of just over $10,000 or 20% of AMI.
- On April 26, 2016, City Council passed Resolution 16-98 that committed an amount not to exceed $4.2M in the Lee Walker Heights (LWH) Redevelopment.
- Potential funding sources considered in 2016:

HUD Section 108 Loan	$1,750,000
General Fund Fund Balance (assigned)	$1,380,000
HUD 2016-2017 HOME Funds	$400,000
HUD 2016-2017 CDBG Funds	$135,700
City CIP Funds	$534,300
TOTAL	$4,200,000

- In order to allow future CDBG & HOME funds to remain for future community needs, a cross-departmental committee recommends new funding sources to replace US Department of Housing and Urban Development (HUD) funding with other sources and satisfy the City's commitment of $4.2M.
- The General Obligation (GO) funding will be used for demolition, site work improvements and infrastructure improvements for the benefit of 319 Biltmore, adjacent to the Lee Walker Heights property, which is a City identified "High Impact Site", and for which the City has an Option to Purchase for use as a potential mixed-income, mixed-use development. The funding will support construction of a new City street to connect to LWH and building pad sites at 319 Biltmore, therefore contributing to the long term redevelopment of both properties. $15,000,000 in GO Housing Bonds were set-aside for use at these City identified High Impact Sites.
- The City's full funding of $4.2 million will fund "eligible project costs" including such costs as demolition of buildings, site work, and infrastructure improvements at both the Lee Walker Heights and 319 Biltmore properties.
- HACA has requested that the City's funds be structured as a grant to HACA, which HACA will invest in the project consistent with Low Income Housing Tax Credit requirements. City staff agrees based on the following:
    - The project budget requires spending of at least $1,820,000 (which represents the GO Housing Bond funds) of the $4.2 million exclusively on eligible project

costs, as defined below, for the benefit of the 319 Biltmore property, a City identified "High Impact Site" on which the City has an Option to Purchase.
    - $4.2 million for 212 units at LWH is a subsidy of $19,811 per unit (which aligns with subsidy level typically approved for the City's HTF loans); however, taking into consideration the $1.82 million of infrastructure work on 319 Biltmore, the price per unit subsidy is effectively reduced on the Lee Walker property to $11,321 per unit.

Council Goal(s):

- An Equitable and Diverse Community
- A Well-Planned and Livable Community
- Quality Affordable Housing

Committee(s):

- Affordable Housing Advisory Committee - February 7, 2019
    - Board unanimously recommended the funding streams and grant be approved
- Housing & Community Development - February 19, 2019
    - Individual presentation by David Nash, Chief Operating Officer of HACA
- Finance & Human Resources Committee - February 26, 2019
    - Action - Recommended to move forward to Council and that the funds be approved as a grant

Pro(s):

- This funding supports 212 new affordable and replacement units that will be permanently affordable, a subsidy of $19,811 per unit ($11,321 per unit, after deducting investments at 319 Biltmore).
- HACA has stated it will seek no other sources of City funding for this redevelopment project.
- Replacing HOME & CDBG funding with other funding sources allows continued use of CDBG & HOME funds for community investment.
- Replacing Section 108 loan payments with other funding sources allows future CDBG & HOME funds to remain for future community needs.
- Aligns with the purpose of GO Housing Bonds in making improvements to a City identified "High Impact Site: and in other ways, and will show progress on Affordable Housing Bond Projects.
- The redevelopment of 319 Biltmore and Lee Walker Heights, when considered as a whole, will generate affordable mixed-income housing and maximize the community connection.
- City funds will be used for eligible costs including infrastructure improvements, site grading and a new street that connects to Biltmore Avenue as well as demolition and this funding is vital to the success of the redevelopment of both the Lee Walker Heights and 319 Biltmore Avenue properties.
- This redevelopment aligns with the City of Asheville's Consolidated Plan goals of prioritizing development of one bedroom units (96) and rental housing affordable to 60% AMI and below.
- While the funding is structured as a grant, draw requests, after the initial disbursement, will only be disbursed when sufficient work has been completed and verified by the City.

Con(s):

- None

Fiscal Impact:

- The funding sources for the $4.2 million payment are outlined below:

- General Fund Balance (reserved) $1,380,000
- Affordable Housing CIP (General CIP) $1,000,000
- General Obligation (GO) Housing Bond, High Impact Sites $1,820,000

TOTAL $4,200,000

- The $1,380,000 coming from General Fund fund balance (requested Budget Amendment) has already been assigned for this use, thus there will be no impact on General Fund unassigned fund balance. The Affordable Housing CIP and GO Bond funding for this project has already been budgeted.
- Disbursement Schedule, approximate, to be based on draw requests and verified work completion:

On or around May 7, 2019	$1,400,000
On or around July 1, 2019	$1,400,000
On or around October 1, 2019	$1,200,000
After January 1, 2020	$ 200,000
TOTAL	**$4,200,000**

Mr. David Nash, Chief Operating Office of the Housing Authority of the City of Asheville, thanked Council for working with them on this project. They are excited about the opportunity to replace 96 of their oldest public housing units with 212 new affordable units within walking distance to jobs.

Mr. Tara Irby, Lee Walker Heights site manager, spoke about the employment training opportunities and was pleased to note that the relocation process is complete.

Ms. Margie Rhinehardt- Bukowski, with Weaver Cooke Construction Company, said they were pleased to work with the Housing Authority, Mountain Housing Opportunities, A-B Technical Community College (A-B Tech) and Green Opportunities. They will be holding job fairs for students and the community for the construction of Lee Walker Heights. They are hopeful that some of the people that will actually be living in Lee Walker Heights will help construct Lee Walker Heights. They are committed to paying a living wage to candidates that are certified through A-B Tech and Green Opportunities.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and ordinance and they would not be read.

Vice-Mayor Wisler moved to authorize the City Manager to negotiate and enter into a grant agreement with the Housing Authority of the City of Asheville in the amount of $4.2 million according to the terms and conditions described in the Staff Report and Resolution. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 347

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4737, budget amendment in the amount of $1,380,000 to appropriate fund balance reserved for the project. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 347

VI. NEW BUSINESS:

A. RESOLUTION NO. 19-71 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE CITY BOARD OF EDUCATION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville City Board of Education.

The terms of Martha Geitner and Shaunda Sandford will expire on April 1, 2019. In addition, James Lee has resigned, thus leaving an unexpired term until April 1, 2021.

The following individuals applied for the vacancy and met all requirements: Martha Geitner, John Mosconi, Pepi Acebo, Shaunda Sandford, W. Scott Powell, James C. Carter and Melissa Kledis. On March 12, 2019, it was the consensus to interview all seven applicants.

After commenting on the excellent qualifications of all candidates, each Council member voted on the two four-year terms. Martha Geitner and Shaunda Sandford each received 7 votes. Therefore, Martha Geitner and Shaunda Sandford were reappointed as members of the Asheville City Board of Education to each serve an additional 4-year term, terms to expire April 1, 2023, or until their successors have been appointed.

Each Council member then voted on the vacant seat, with a term expiring on April 1, 2021. John Mosconi received 0 votes, Pepi Acebo received 2 votes, W. Scott Powell received 0 votes, James C. Cater received 5 votes, and Melissa Kledis received 0 votes. Therefore, James Carter was appointed as a member of the Asheville City Board of Education to serve the unexpired term of Mr. Lee, term to expire April 1, 2021, or until his successor has been appointed.

RESOLUTION BOOK NO. 40 - PAGE 349

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Sarah Benoit and Mr. Jonathan Wainscott spoke about district elections.

Closed Session

At 6:41 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit, or potential lawsuit involving the following parties: The Estate of Jai Lateef Solveig Williams v. Sgt. Tyler Kelly Radford, et al; and The City of Asheville vs. Bird Rides, Inc. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 6:56 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilman Haynes and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:56 p.m.

Magdalen Burleson
CITY CLERK

Edward E. Mann
MAYOR

Tuesday – April 9, 2019 - 3:00 p.m.

Enterprise Funds and Capital Improvement Program Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; and City Clerk Magdalen Burleson

City Manager Campbell said that the goal of this worksession will be to (1) follow-up from the operating worksession; (2) update on the status of the Capital Improvement Program (CIP); (3) share information on planned investments in CIP and enterprise funds; and (4) receive direction on resource allocation.

Chief Financial Officer Barbara Whitehorn explained that an enterprise fund is (1) City functions that should be completely supported by fees; (2) provide public service financed through charges to users or customers; and (3) shows the degree to which service is self-supporting. She then provided Council with a review of the following enterprise funds: Transit; U.S. Cellular Center, Water Resources, Stormwater, Parking Services, and Street Cut Utility.

She then provided Council with the Capital Investment Program update. She said that a capital asset is land; buildings and infrastructure; infrastructure (streets, sidewalks); and equipment and machinery. She explained that capital is separate from operating due to the (1) scale of investment; (2) longer time horizon; (3) use of debt; and (4) project based not program based. She then reviewed the Capital Budget funding sources, along with the historic capital spending. She then outlined the projects completed in the last 5 years; projects under construction; projects in design; and projects in planning. Maintenance projects underway include the ART Transit Center renovations, Shiloh Roof replacement, City Hall maintenance, USCC HVAC/Boiler, and Asphalt preservation. With the current CIP Total (Fiscal Year (FY) 2020-23) of $60 Million, along with the additional requests for FY 2020-24 of $330 Million, there is a total identified amount of $390 Million. She reviewed the deferred maintenance challenges, along with construction challenges (Fire Station 13, Jake Rusher Park, Wesley Grant Center, Walton Street Park/Pool, Richmond Hill Park). To strike a balance, (1) construction costs/bids coming in well over budget; (2) designing projects within budget (a) value engineering; and (b) scope limitations; (3) value for residents/customers versus cost; (4) community needs and expectations; and (5) sustainability goals and related costs.

Ms. Whitehorn then reviewed the proposed FY 2020 CIP investments. She outlined the proposed ongoing allocations along with the FY 2020 proposed project additions.

Using a chart, she outlined the projected capital spending and need. A need for an ongoing bond program is necessary for several reasons (1) additional investment in capital is essential to effective service provision; (2) a routine bond program addresses the gap between capital investment and resources; and (3) routine investment in existing assets enhances the customer experience. Communities with regular General Obligation (GO) Programs include Raleigh, Charlotte, Durham, Greensboro, Winston-Salem, Hickory, Holly Springs, High Point and Wilmington.

Asheville is challenged to meet identified needs within existing financial capacity. Many communities have utilized GO bonds on a regular cycle to address capital needs. A regular GO bond cycle and/or new revenue streams could provide the opportunity to address these needs.

She then reviewed the projects, plans and staff resources from the March 26, 2019, worksession, along with the budget process calendar.

Ms. Whitehorn responded to various questions/comments from Council, some being, bur are not limited to: why are we not looking at expanding parking metered spaces in downtown, Biltmore Village and west Asheville; do we have tentative schedules on the projects in design; request that Walton Street Park/Pool be completed with Parks & Rec Bond funds; how many computers are in the computer replacement allocation; could the Fire Station 13 construction be done in phases; are other community needs incorporated in the Fire Station 13 construction and allocation; how long has Fire Station 13 been in the CIP; regarding the U.S. Cellular Center, what did we spend this last fiscal year; can we get a list of improvements still pending that require funding, excluding Thomas Wolfe; can Thomas Wolfe be broken out separately; how much is being budgeted this upcoming fiscal year in funding towards improvements at the U.S. Cellular Center; are there any pending request from SoCon to make improvements at the U.S. Cellular Center and if so, what are they specifically with costs; what was the naming rights money used for the previous years regarding the U.S. Cellular Center and was the money earmarked for specific projects; should Council provide the City Manager with an affirmative statement that they want to get on a regular GO bond program; can staff provide Council with the last CIP chart; regarding the small business training, have we talked with any of our partners to see if this is something that they are already doing or could easily incorporate; is there any support by Council to increase property taxes; need to talk about other options to find revenue to fund important projects; list of agreements and partnerships that don't go through the formal process to get funding from the City; and how many city employees on all levels have received raises beyond the annual increase that City Council approves, specifically in the last 18 months. For those questions not readily answered, staff will provide Council with a memorandum.

City Manager Campbell said that Council can provide her direction on the projects, plans and staff resources prior to the development of the City Manager's budget on May 14, 2019.

At 4:12 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – April 9, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mr. Aiden McAbee from Troop 75 led City Council in the Pledge of Allegiance.

ADDITION TO AGENDA

Mayor Manheimer added an update on parking at Memorial Stadium/McCormick Field to the agenda.

I. PROCLAMATIONS:

A. WALK FRIENDLY COMMUNITY AWARD

Ms. Grace Curry, and other members from the Bike/Pedestrian Task Force, presented the City of Asheville with the Walk Friendly Community Award.

On behalf of the City of Asheville, Mayor Manheimer thanked Ms. Curry for the award and thanked everyone responsible to make our city a more inviting and walkable community. She understood that Asheville was the first city in North Carolina to earn the award at any level above bronze, and remains one of only two such cities in the state. She recognized that we have a long way to go in the battle of keeping pedestrians safe and comfortable, and we need to be reminded of the importance of doing something every day to make Asheville a better place to live and walk.

B. PROCLAMATION PROCLAIMING APRIL, 2019, AS "PARKINSON'S DISEASE AWARENESS MONTH"

Vice-Mayor Wisler read the proclamation proclaiming April, 2019, as "Parkinson's Disease Awareness Month" in the City of Asheville. She presented the proclamation to Bob and Beth Pape, and others, who briefed City Council on some activities taking place during the month.

C. PROCLAMATION PROCLAIMING APRIL 22, 2019, AS "EARTH DAY"

Councilwoman Mayfield read the proclamation proclaiming April 22, 2019, as "Earth Day " in the City of Asheville. She presented the proclamation to Sophie Mullinax from the Blue Horizons Project, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 26, 2019

B. RESOLUTION NO. 19-72 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AND EXECUTE A VEGETATION MAINTENANCE AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE CITY TO ACCEPT THE RESPONSIBILITY TO PROVIDE VEGETATION CONTROL ON PROPERTY ADJACENT TO THE INTERSECTION OF WEST HAYWOOD STREET AND PARK AVENUE NORTH

RESOLUTION NO. 19-73 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AND EXECUTE A VEGETATION MAINTENANCE AGREEMENT WITH THE WEST END CLINGMAN AVENUE NEIGHBORHOOD (WECAN) FOR WECAN TO ACTUALLY PERFORM VEGETATION CONTROL ON PROPERTY ADJACENT TO THE INTERSECTION OF WEST HAYWOOD STREET AND PARK AVENUE NORTH ON BEHALF OF THE CITY

Action Requested: Adoption of two resolutions - (1) a resolution authorizing the City Manager to enter into and execute a vegetation maintenance agreement with the North Carolina Department of Transportation (NCDOT) for the City to provide vegetation control on a property adjacent to the intersection of West Haywood Street and Park Avenue North; and (2) a resolution authorizing the City Manager to enter into and execute a vegetation maintenance agreement with the West End Clingman Avenue Neighborhood (WECAN) for WECAN to perform vegetation control on the property on behalf of the City.

Background:

- WECAN requested to perform vegetation control on the property as an aesthetic improvement for their neighborhood.
- The property is owned by the NCDOT. NCDOT prefers to enter into maintenance agreements with another governmental entity.
- The City agrees to be that governmental entity and partner with WECAN to provide the appropriate vegetation control (i.e. mowing, trimming, planting, removal of weeds, trash and debris)
- WECAN agrees to perform vegetation control properly and continually in accordance with generally accepted horticultural practices.
- The Transportation Department is the primary point of contact for the community.
- As the owner of the property, the NCDOT has the right to periodically inspect the maintenance practices being used and they would notify the City regarding any issues. The Transportation Department would then notify WECAN to make the appropriate changes.
- If WECAN does not perform vegetation control properly and continually in accordance with generally accepted horticultural practices including all costs, the agreement between the NCDOT and the City and the agreement between the City and WECAN would be terminated with 30 days written notification. After the 30 days, NCDOT would be responsible for the maintenance.

Council Goal(s):

- A Connected and Engaged Community

Committee(s):

- None

Pro(s):

- This action enables a partnership between the NCDOT, the City, and WECAN.
- This action enables WECAN to make an aesthetic improvement in their neighborhood.

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Motion to (1) approve a resolution authorizing the City Manager to enter into and execute a vegetation maintenance agreement with the North Carolina Department of Transportation (NCDOT) for the City to provide vegetation control on a property adjacent to the intersection of West Haywood Street and Park Avenue North; and (2) approve a resolution authorizing the City Manager to enter into and execute a vegetation maintenance agreement with the West End Clingman Avenue Neighborhood (WECAN) for WECAN to perform vegetation control on the subject property on behalf of the City.

RESOLUTION NO. 19-72 - RESOLUTION BOOK NO. 40 - PAGE 350
RESOLUTION NO. 19-73 - RESOLUTION BOOK NO. 40 - PAGE 351

C. RESOLUTION NO. 19-74 - RESOLUTION AUTHORIZING THE SALE OF ONE 2010 CAT 305C CR MINI EXCAVATOR DEEMED SURPLUS CITY PERSONAL PROPERTY

Action Requested: Approval of a resolution authorizing the sale of one (1) 2010 CAT 305C CR Mini Excavator deemed surplus City personal property.

Background:

- The City's Water Resources Department -- Maintenance Division, identified a 2010 CAT 305C CR Mini Excavator as surplus personal property, with no anticipation of utilization by the City.
- Pursuant to N.C.G.S. §160A-266 the Sale and Disposal of Personal Property valued at $30,000 or more must be approved by the City Council. The City's Purchasing Manager has authority to dispose of personal property valued at less than $30,000 by private negotiation and sale.
- The estimated wholesale value of the 2010 CAT 305C CR Mini Excavator is listed at $30,000+, $1,000 - $10,000 above wholesale, depending on condition. Bids will be solicited through Public Surplus online auction.

Council Goal(s)

- N/A

Committee(s)

- None

Pro(s):

- Good fiscal and asset management
- Space utilization eliminates the need to store large, unused equipment
- Competitive process yielded market price

Con(s):

- None

Fiscal Impact:

- The mini excavator is fully depreciated and the Water Resources Fund will recognize the entire amount as revenue from the sale of assets.

Motion:

- Move to adopt a resolution authorizing the sale of one (1) 2010 CAT 305C CR Mini Excavator deemed surplus City personal property.

RESOLUTION BOOK NO. 40 - PAGE 352

D. RESOLUTION NO. 19-75 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH EARL SWENSSON ASSOCIATES INC. FOR PHASE ONE DESIGN OF THE THOMAS WOLFE AUDITORIUM RENOVATIONS

Action Requested: Adoption of a resolution authorizing the City Manager to execute a phase one professional services contract for programming, conceptual design and cost estimating with Earl Swensson Architects for the Thomas Wolfe Auditorium Renovation.

Background:

- The City of Asheville released an RFQ in October, 2018 to solicit architectural design teams to study multiple improvement design options and associated cost estimating.
- Fourteen separate firms submitted qualifications, and a selection committee interviewed four teams in December, 2018. The design team led by ESa was unanimously selected as the highest qualified firm.
- A contract and scope was negotiated within the existing established budget.
- The scope for this design contract is intended to produce a programming and conceptual design with various levels of improvements that will be used for budgeting purposes.

Council Goal(s):
- A well-planned and livable community; Thriving local economy, Connected and Engaged Community, Smart City.

Committee(s):
- Civic Center Commission - 2/5/2019 - unanimous vote for Earl Swensson Architects

Pro(s):
- This is a phase one preliminary design and will help support project estimating and funding.
- The results from the study will evaluate options for the building improvements in the future.

Con(s):
- No additional funding is allocated for the next phase of the project.

Fiscal Impact:
- The capital improvement design fee of $339,300 plus a 10% contingency is already included in the adopted capital improvement program (CIP) budget.

Motion:
- Move to approve a resolution authorizing the City Manager to execute a design contract with Earl Swensson Associates, Inc. for a professional services contract for phase one design of the Thomas Wolfe Auditorium Renovation for an amount not to exceed $339,300.00, and further authorizing the execution of any contract amendments up to 10% ($33,930.00) above the contract price, for additional services which may arise during execution of said project.

RESOLUTION BOOK NO. 40 - PAGE 353

E. RESOLUTION NO. 19-76 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH SUNDANCE POWER SYSTEMS INC. FOR THE SOLAR ARRAY PROJECT ON THE ART TRANSIT CENTER

ORDINANCE NO. 4738 - BUDGET AMENDMENT FOR THE SOLAR ARRAY PROJECT ON THE ART TRANSIT CENTER

Action Requested: Adoption of a resolution authorizing the City Manager to: 1) adopt a budget amendment in the amount of $230,000 in the General Capital Projects Fund to move budget from the Sustainability Fund to the ART Station Solar Array Project for the solar array installation; 2) execute a contract with Sundance Power Systems, Inc. in the amount of $121,882.08; and 3) execute contract amendments up to the established budget amount of $230,000.

Background:

- This will be the first solar photovoltaic installation in the City's history.
- A 64 kilowatt solar array will be installed on the ART Transit Station bus canopy.
- The Clark Patterson Lee company has designed the plans and specifications and will provide construction management.
- The construction schedule is dependent on approval from Duke Energy Progress which may require infrastructure improvements to integrate the solar panels.
- The request for the City Manager to have the ability to increase the contract up to the budgeted amount is to allow for any unforeseen infrastructure improvements and the option to increase capacity and warranty of solar array.
- Funds not used on this project will be used for future renewable energy projects.

Council Goal(s):

- A Clean and Healthy Environment

Committee(s):

- Finance and Human Resources Committee on March 26, 2019

Pro(s):

- This is the first renewable energy project that will support Resolution 18-279 which established a 100% renewable energy goal for municipal operations.
- Supports Resolution 11-77 reducing the City's carbon emissions by 80%. This system is estimated to offset 0.25% of our annual 4% carbon reduction goal.
- The revenue generated from the solar energy will fund the operations and maintenance of the PV system and future renewable energy installations.

Con(s):

- None

Fiscal Impact:

- $230,000 from the Fiscal Year 2019 Office of Sustainability budget for the Energy Innovation Task Force Initiative in combination with savings from the Green Revolving program. Funding is already budgeted and available in the Sustainability Fund; this budget amendment will simply move the budget from that fund to the General Capital Projects Fund. The $230,000 will be used to fund the contract and any additional costs associated with the installation. Any savings will remain in the General Capital Projects Fund for future renewable energy projects.

Motion:

- Motion to approve a resolution authorizing the City Manager to: 1) execute a budget amendment in the amount of $230,000 redirected from the Fiscal Year 2019 Office of Sustainability budget for the Energy Innovation Task Force Initiative in combination with savings from the Green Revolving Program to the General Capital Projects Fund to support renewable energy projects; 2) execute a contract with Sundance Power Systems, Inc. in the amount of $121,882.08; and 3) execute contract amendments up to the established budget amount of $230,000.

RESOLUTION BOOK NO. 40 - PAGE 354
ORDINANCE BOOK NO. 32 - PAGE 349

F. RESOLUTION NO. 19-77 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH ALLISON CONTRACTORS LLC FOR THE BUS SHELTERS - PHASE 2 BOND PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Allison Contractors, LLC for the construction of bus shelters, concrete pads and attached sidewalk at some locations in the amount of $116,969.00 plus a 10% contingency of $11,696.00.

Background:

- The City of Asheville passed a General Obligation Bond in 2016 which included the budget to construct new bus shelters with some attached sidewalks.
- The bus shelters identified for the project help to ensure that the City of Asheville remains compliant with current City standards and Americans with Disabilities Act (ADA).
- Some of the new shelters will be built to replace older shelters that are in disrepair.
- The shelters will be constructed in areas with a large ridership and where no bus shelters are currently available.
- The added sidewalk will make connection to ADA ramps helping with pedestrian safety.
- Bids received were:
  - Allison Contractors of Hendersonville, NC for $116,969.00
  - Patton Construction Group of Asheville, NC for $228,400.00

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- NA

Pro(s)

- Improve mobility and safety on city streets
- Project works towards fulfillment of the General Obligation Bond.

Con(s):

- None

Fiscal Impact:

- The project is funded by the General Obligation Bond from 2016.

Motion:

- Motion to authorize the City Manager to execute a contract with Allison Contractors, LLC for the construction of bus shelters, concrete pads and attached sidewalk at some locations in the amount of $116,969.00 plus a 10% contingency of $11,696.00.

RESOLUTION BOOK NO. 40 - PAGE 355

G. RESOLUTION NO. 19-78 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ALLOW MOUNTAIN HOUSING OPPORTUNITIES TO REFINANCE THE DEVELOPMENT KNOWN AS EAGLE MARKET PLACE BY MODIFYING THE LIEN POSITIONS AND MATURITY DATES OF CITY OF ASHEVILLE LOANS, AND AMENDING DEED RESTRICTIONS EXISTING ON AFFORDABLE HOUSING UNITS

RESOLUTION NO. 19-79 - RESOLUTION AUTHORIZING THE SUBORDINATION OF THE CITY'S COMMERCIAL LOAN WITH EMP COMMERCIAL INC.

Action Requested: Approval of Loan Modifications requested by Mountain Housing Opportunities ("MHO") to allow them to borrow new funds to refinance the Eagle Market Place Project and authorization for the City Manager to negotiate and execute all documents necessary to give effect to this approval.

Background:

Residential

- The Eagle Market Place property developed by MHO is divided into separate entities for the residential and commercial components. The residential entity (Eagle Market Place, LLC) currently possesses eleven sources of debt financing as listed below.
    1. *TD Bank ($3,440,303)*
    2. *NCHFA ($930,000)*
    3. *City of Asheville Urban Redevelopment and Loan Agreement (* URLDA*) ($3,867,618)*
    4. *Buncombe County ($1,500,000)*
    5. *City of Asheville Housing Trust Fund ($800,000)*
    6. *Buncombe County ($300,000)*
    7. *NCHFA ISHP ($750,000)*
    8. *NCHFA ($1,168,338)*
    9. *MHO ($1,500,000)*
    10. *MHO ($462,600)*
    11. *JBM Community Resources, Inc. ($1,000,000)*
- The TD Bank construction loan is due in full on June 2, 2019, and the JBM Community Resources loan was due in January of 2019. MHO has secured a financing commitment of $3,313,000 through Bellwether Enterprise Real Estate Capital, LLC. Upon closing of this loan, MHO is also receiving a scheduled equity payment from CAHEC. The combined funding from Bellwether and CAHEC will be used to pay off the remaining balance of the TD Bank and JBM Community Resources, Inc. loans.
- Bellwether requires that their new loan be placed in the first lien position, which requires that the City of Asheville's URL and Housing Trust Fund loans be subordinated to it.
- Bellwether also requires that existing loans possess a maturity date for a certain period of time after the date that their loan is due in full. The current maturity dates of the Housing Trust Fund and URL loans are January 10, 2033 and December 10, 2033, respectively. To comply with Bellwether's conditions, the maturity date for both loans will have to be changed to December 10, 2034.
- The proposed new lien priorities (Bellwether Loan replaced TD Bank Loan):
    1. *Bellwether ($3,313,000)*
    2. *NCHFA ($900,000)*
    3. *City of Asheville URL ($3,867,618)*
    4. *Buncombe County ($1,500,000)*
    5. *City of Asheville Housing Trust Fund ($800,000)*
    6. *Buncombe County ($300,000)*
    7. *NCHFA ISHP ($750,000)*
    8. *NCHFA ($1,168,338)*
    9. *MHO ($1,500,000)*
    10. *MHO ($462,600)*
- Per City Council vote on November 10 2015, the Eagle Market Place project was modify the amount and type of its affordable housing units.
    - The original agreement included 62 units for households at or below 60% of AMI.

- The new agreement reduced that amount to 32 units at 60% AMI and 30 units for workforce housing at 120% AMI. NCHFA's Declaration of Land Use Restrictive Covenants for Low-Income Housing Tax Credits, needs to be updated to reflect this change in the percentage of affordable (60% AMI) units, and the City will need to consent (i.e. subordinate) to this change.

- In summary, the modifications to the City Loans requested by MHO in order to enter into the new loan with Bellwether are as follows: 1) HTF Loan-Extend the maturity date by 11 months to December 10, 2034, and keep this loan in 5th place lien position (rather than it moving up to 4th lien position as required by City Resolution No. 14-253 and 2) URLA Loan-Extend the maturity date by 12 months to December 10, 2034 and keep this loan in a 3rd place lien position (rather than the 2nd place lien position contemplated via Resolution No. 14-253).
- The documents which are anticipated to be executed by the City in order to give effect to these changes are as follows:
  - Two subordination agreements with Bellwether (one for the HTF Loan and one for the URL);
  - Third Loan Modification to the HTF to reflect the change in maturity date and lien position;
  - Second Loan Modification to the URL to reflect the change in maturity date and lien position; and,
  - Subordination Agreement for the NCHFA Amended and Restated Land Use Restrictive Covenants to reflect the percentage change in affordable units from 100% to 51.6%.

Commercial

- The Eagle Market Place property developed by MHO is divided into separate entities for the residential and commercial components. The commercial entity (EMP Commercial LLC) currently possesses four sources of debt financing as listed below.
  1. *Carolina Small Business Development Fund ($1,700,000)*
  2. *Buncombe County ($500,000)*
  3. *City of Asheville ($718,000)*
  4. *Mountain Housing Opportunities ($1,000,000)*
- The existing Buncombe County loan of $500,000 is a portion of a greater $2,000,000 loan that shares security interests on both the residential and commercial entities associated with the property. The new lender on the residential entity requires that the $2,000,000 Buncombe County loan be replaced with a separate, single $500,000 loan. The County will agree to this change if it can be secured in the same priority status (2nd lien position) as its current $500,000 Deed of Trust.
- In order for the County loan to remain in its same lien position, the City must sign a subordination agreement consenting to the revised County loan.
- The City of Asheville's loan of $718,000 secured by a Deed of Trust will remain in the existing third repayment position.

Council Goal(s):

- An Equitable and Diverse Community
- Quality Affordable Housing
- A Well-Planned and Livable Community

Committee(s):

- None

Pro(s):

- The Eagle Market Place project will be able to restructure its debt in a manner that improves the project's long-term financial stability.
- The legal restrictions on the property will be formally modified to accurately reflect prior binding agreements by Asheville City Council.
- The separation of Buncombe County's Deeds of Trust will offer legal clarity and protect the City of Asheville's interests should a default event occur.

Con(s):

- There is a short extension of the maturity dates for both City of Asheville loans which pushes back a prospective payoff date for each.
- The City of Asheville residential loans will be placed in a lower lien position and have additional debt ahead of its security interest than was anticipated after the Council Resolution which approved the amendment of loan terms in November 2014.

Fiscal Impact:

- There is limited fiscal impact. None of the City of Asheville loans are amortizing and will not affect regular payments. In the event of a default or payoff, the City would be in a lower position than previously agreed upon in Resolution 14-253.

Motion:

- Move to approve the loan modifications requested by MHO for the Eagle Market Place development and to authorize the City Manager to negotiate and execute any and all documents necessary to give effect to this approval.

THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT BEER CITY CUP

RESOLUTION NO. 19-85 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING provision FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE CHOW CHOW ASHEVILLE CULINARY FESTIVAL

RESOLUTION NO. 19-86 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING provision FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ZERO PROSTATE CANCER 5K RUN/WALK

RESOLUTION NO. 19-87 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING provision FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT BREWS & BEARS

Action Requested: Adoption of resolutions to permit the possession and consumption of malt beverages and/or unfortified wine at the Asheville City Market, The Aspire Experience, Asheville City Soccer Club Games, Asheville VeganFest, Beer City Cup, Chow Chow Asheville Culinary Festival, Zero Prostate Cancer 5K Run/Walk, and Brews & Bears events.

Background:

- The following organizations have requested that City Council permit them to serve beer and/or unfortified wine at their events and allow for consumption at the events:
    - Asheville Sustainable Agriculture Project for the Asheville City Market, to occur on Market Street weekly on Saturdays, April 13 - December 21, 2019, from 8:00 a.m. - 12:00 p.m.
    - AIA Asheville for The Aspire Experience, to occur at Pack Square Park on April 14, 2019, from 6:00 p.m. - 10:00 p.m.
    - Asheville Brewers Alliance for the Asheville City Soccer Club Games, to occur at Memorial Stadium on April 26, 27, May 7, 10, 16, 18, 25, June 7, 8, 12, 18, 25, 28, 29, July 5, 6, 7, 2019 from 6:00 p.m. - 10:00 p.m.
    - Brother Wolf Animal Rescue for Asheville VeganFest, to occur at Pack Square Park on June 9, 2019, from 11:00 a.m. - 6:00 p.m.
    - WNC Soccer Foundation for the Beer City Cup, to occur at Memorial Stadium on September 1, 2019, from 12:00 p.m. - 10:00 p.m.
    - Asheville Culinary Festival for the Chow Chow Asheville Culinary Festival, to occur at Pack Square Park on September 13 from 11:00 a.m. - 5:00 p.m., September 14 from 9:00 a.m. - 5:00 p.m., and September 15, 2019, from 11:00 a.m. - 5:00 p.m.
    - ZERO - The End to Prostate Cancer for the ZERO Prostate Cancer 5K Run/Walk, to occur at Carrier Park on August 24, 2019, from 7:00 a.m. - 11:00 a.m.
    - Friends of the WNC Nature Center for Brews & Bears, to occur at the WNC Nature Center on May 11, June 14, July 12, and August 9, 2019, from 5:30 p.m. - 8:00 p.m.

- Alcohol boundaries are defined for each request as per the accompanying event site maps.

Council Goal(s):
- These actions have no direct connection with the City Council 2036 Vision.

Committee(s):
- None

Pro(s):
- Allows fundraising opportunities for the sponsoring nonprofit organizations

Con(s):
- None

Fiscal Impact:
- None

Motion:
- Motion to permit the possession and consumption of malt beverages and/or unfortified wine at the Asheville City Market, The Aspire Experience, Asheville City Soccer Club Games, Asheville VeganFest, Beer City Cup, Chow Chow Asheville Culinary Festival, Zero Prostate Cancer 5K Run/Walk, and Brews & Bears events.

I. RESOLUTION NO. 19-88 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NEGOTIATE AND ENTER INTO A LICENSE AGREEMENT WITH DUKE ENERGY PROGRESS INC. AND MAPLE CREST LLC FOR DEMOLITION, IMPROVEMENTS AND OTHER CONSTRUCTION RELATED ACTIVITIES AT 319 BILTMORE AVENUE

Action Requested: Adoption of a resolution to authorize the City Manager to negotiate and enter into a license agreement with Duke Energy Progress, Inc. and Maple Crest LLC for demolition, improvements and other construction related activities on property at 319 Biltmore Avenue.

Background:
- The City entered into a Memorandum of Understanding with Duke Energy in January 2017 for property located at 319 Biltmore Avenue and later entered into an Option to Purchase the property in October 2017 in order to redevelop the property for an affordable, mixed income community.
- In 2018, the City developed site concepts and performed pro-forma analysis for affordable housing on 319 Biltmore and is taking next steps to market the site for

redevelopment. The site is one of the "High Impact Sites" included within the Affordable Housing Bond program.

- The adjoining property is known as Lee Walker Heights and the Housing Authority, in partnership with Mountain Housing Opportunities, Inc, is currently in the process of commencing construction for the major redevelopment of the site. The Housing Authority and MHO have collectively formed Maple Crest, LLC for this endeavor.
- A new roadway is planned to connect Lee Walker to Biltmore Avenue through the property at 319 Biltmore. As part of the Lee Walker Heights Redevelopment, Maple Crest will demolish the existing car dealership on 319 Biltmore, perform significant grading on the property, construct a new roadway on the property and perform related construction activities on the 319 Biltmore property. These improvements were outlined in the original Option Agreement between the City and Duke.
- At this time, the City, Duke and Maple Crest would like to enter into an agreement that clarifies the details of this arrangement for the 319 Biltmore site. Maple Crest will be performing the improvements on the property at 319 Biltmore, using the site for a construction office and lay down area, and installing a fence around the perimeter of the 319 Biltmore property. The City will provide oversight in order to protect its future interest in the redevelopment of 319 Biltmore. Duke, as the underlying property owner, will be protecting its interest in the property.

Council Goal(s):

- Well Planned and Livable Community
- Quality Affordable Housing

Committee(s):

- None.

Pro(s):

- Agreement will facilitate the redevelopment of Lee Walker Heights
- Agreement will protect City's interests in 319 Biltmore

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Motion to adopt a resolution that authorizes the City Manager to negotiate and enter into a license agreement with Duke Energy Progress, Inc. and Maple Crest LLC for demolition, improvements and other construction related activities on property at 319 Biltmore Avenue.

RESOLUTION BOOK NO. 40 - PAGE 383

J. RESOLUTION NO. 19-89 - RESOLUTION AMENDING THE HOMELESS INITIATIVE ADVISORY COMMITTEE BY-LAWS

Action Requested: Approval of proposed one-time exception to Article IV A. 2 of the HIAC Bylaws regarding the maximum term of service for the Committee Chair, and amendments to the Bylaws to allow non-HIAC members to serve on subcommittees, and to adopt Robert's Rules of Order as procedural guidance in cases where the Bylaws do not specify a procedure.

Background:

- By Resolution 08-227 November 11, 2008, as amended by Resolution 18-20, January 23, 2018, the Homeless Initiative Advisory Committee was established as a joint City and Buncombe County Committee to advise on issues related to homelessness.
- Article IV A. 2. of the HIAC Bylaws limits the terms of Committee Officers (Chair and Vice Chair) to no more than two consecutive terms. Currently, HIAC has an experienced Chair who would be prevented by this rule from serving beyond May 2019. The Committee is requesting that Council approve a one-time exception to this rule to allow the current Chair to continue to serve for an additional year to May 2020.
- Article VI of the HIAC Bylaws limits subcommittee composition to HIAC members only. HUD Continuum of Care funding regulations encourage participation from specific sectors not currently represented at any level in HIAC (i.e. major healthcare systems, behavioral health providers, business leaders, law enforcement etc.) HIAC proposes to amend this section of the Bylaws to allow the appointment of non-HIAC members to subcommittees in order to increase community participation in the work of the Committee. This amendment was previously approved via Resolution No. 18-20, however, the Bylaws were not updated at that time.
- Currently, the HIAC Bylaws specify only a handful of procedures for the Committee to follow. The Committee proposes amending its Bylaws to replace the provision in Article VIII with a new provision regarding Parliamentary Authority. This will require the adoption of Robert's Rules of Order, Newly Revised as parliamentary authority and procedural guidance in situations in which the Bylaws do not specify a particular procedure to be followed. This provision regarding Bylaw Amendments moves to a new Article IX.

Council Goal(s):

- A Connected and Engaged Community

Committee(s) and/or workgroups(s):

- Homeless Initiative Advisory Committee, February 26, 2019 and March 26, 2019 - approved unanimously
- City Council Boards & Commissions Committee March 12, 2019 - approved unanimously

Pro(s):

- Provides continuity of leadership when needed by allowing an otherwise term-limited individual to serve as chair; enables greater community input to subcommittee work by expanding composition to include non-HIAC members; and establishes the use of a widely accepted parliamentary process for more efficient conduct of meetings.

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Move to approve a one-time exception to Article IV, Section A (2), the rule that limits the term of a Committee Chair, to allow the current Chair to serve for an additional one year period to May 2020; to amend Article VI of the HIAC Bylaws to allow participation of non-HIAC members in subcommittees; and to add a new Article VIII to the HIAC Bylaws which will require that Robert's Rules of Order, Newly Revised, be used as parliamentary

authority and procedural guidance in situations where the existing Bylaws do not contain a specific procedural requirement.

RESOLUTION BOOK NO. 40 - PAGE 385

K. RESOLUTION NO. 19-90 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH J. BRADY CONTRACTING INC. TO COMPLETE THE HVAC & MECHANICAL MODERNIZATION PHASE FOR THE U.S. CELLULAR CENTER FACILITY RENOVATION & HVAC MODERNIZATION PROJECT

ORDINANCE NO. 4739 - BUDGET AMENDMENT FOR THE U.S. CELLULAR CENTER FACILITY RENOVATION & HVAC MODERNIZATION PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to amend the contract with J. Brady Contracting, Inc. in the amount of $3,378,130 to complete the HVAC & Mechanical Modernization phase for the U.S. Cellular Center (USCC); and Adoption of a budget amendment in the amount of $1,200,000 from the USCC fund balance.

Background:

- This three phase project provides 1) flexible theater seating in the arena, a sound and lighting package, 2) converts a storage room into a press/meeting room with additional supporting projects including the expansion of storage for the displaced room, and 3) modernization of the building's 1970's era HVAC system.
- The project was included in the City's 2016-17 fiscal year capital improvements budget for the amount of $3,290,600. The project is partially funded by a $1,500,000 grant from the 2016 Tourism Product Development Fund.
- The first two phases of the project are complete with the HVAC Modernization phase remaining.
- On August 28, 2018, City Council authorized a contract amendment to begin the facility renovation (press/meeting room renovation and storage expansion). This phase was completed in November 2018.
- The City is using the Construction Manager at Risk (CMAR) delivery method, and is contracted with J. Brady Contracting, Inc. to complete the facility renovations and HVAC modernization.
- The CMAR delivery method groups the work into smaller "bid packages".
- The minority business participation (MBE) for the CMAR contract will exceed $396,250. This amount is 10.1% of the overall construction value of this contract.

Council Goal(s):

- A Thriving Local Economy
- A Clean and Healthy Environment

Committee(s):

- Finance Committee March 26, 2019 - approval to move forward to Council

Pro(s):

- Improves the venue's ability to host a wider range of events.
- Reduces energy consumption with new efficient equipment or with upgrades to existing equipment with intelligent controls.
- Capital investments will provide reliable building infrastructure, reducing repair costs, and downtime associated with broken HVAC equipment.
- Achieves MBE participation exceeding 10% of the construction value.

Con(s):

- Redirecting budget from other capital maintenance projects means that less funding is available in the short term for other deferred maintenance needs.

Fiscal Impact:

- Funding for this contract amendment will come from the existing US Cellular Capital Maintenance Project budget and USCC fund balance. An additional $1,875,000 is needed to fully fund this project.
- $675,000 from the existing USCC Capital Maintenance Fund budget will be redirected to this project, and $1.2 million will come from USCC fund balance.
- The USCC Operating Fund has performed better than budgeted in each of the last two fiscal years. As a result, USCC fund balance was approximately $1.4 million above the City's fund balance policy goal at the end of Fiscal Year 2017-18. After the $1.2 million appropriation being proposed for this project, USCC fund balance will be $200,000 above the City's fund balance policy goal. Staff recommends leaving that amount in fund balance to cushion against potential future downturns in performance.

Motion:

- Motion to adopt a resolution authorizing the City Manager to amend the contract with J. Brady Contracting, Inc. in the amount of $3,378,130 to complete the HVAC & Mechanical Modernization phase of the U.S. Cellular Center Improvements project; and to adopt the associated budget amendment.

RESOLUTION BOOK NO. 40 - PAGE 387
ORDINANCE BOOK NO. 32 - PAGE 351

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. WATER SYSTEM UPDATE

Director of Water Resources David Melton provided Council with an update on the water discoloration test results, noting communication improvements moving forward. He encouraged anyone who would like to receive updates and communications to sign up for AVLAlert on the City's website. This will send out alerts during significant events and clearly state what to do.

B. PARKING AT MEMORIAL STADIUM/MCCORMICK FIELD/MOUNTAINSIDE PARK

Director of Parks and Recreation Roderick Simmons and Transportation Director Ken Putnam provided Council with an update on parking at Memorial Stadium/McCormick Field, and responded to Council's questions raised.

The following individuals spoke about inadequate parking at Memorial Stadium/

McCormick Field/Mountainside Park due to the Asheville Tourists games, pushing some vehicles to park on the turf at Memorial Stadium and others to park in surrounding neighborhood streets:

Representatives of Asheville Ultimate Club
Michael Stratton
Representatives of the soccer community
Jonathan Wainscott
A gentleman

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING ON PROPERTY LOCATED AT 3 AVON ROAD FROM COMMERCIAL BUSINESS I DISTRICT TO COMMERCIAL BUSINESS I/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A NEW BUNCOMBE COUNTY EAST ASHEVILLE LIBRARY BRANCH BUILDING

ORDINANCE NO. 4740 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 3 AVON ROAD FROM COMMERCIAL BUSINESS I DISTRICT TO COMMERCIAL BUSINESS I/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A NEW BUNCOMBE COUNTY EAST ASHEVILLE LIBRARY BRANCH BUILDING

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located at 3 Avon Road from Community Business I District to Community Business I District/Conditional Zone for the construction of a new Buncombe County East Asheville Library Branch building. This public hearing was advertised on March 15 and 22, 2019, for the March 26, 2019, meeting; however, on March 26, 2019, this public hearing was continued to this date.

Project Location and Contacts:

- The project site consists of a 1.8 acre portion of a single parcel located at 3 Avon Road (PIN 9658.87-7320) that is owned by the City of Asheville.
- Owner: City of Asheville; Petitioner: Buncombe County; Contact: Gary Davis.

Summary of Petition:

- The proposal is for the construction of a new approximately 15,000 square foot Buncombe County East Asheville Branch library building with associated parking, recreation, access and landscaping improvements. The new building will be a single story in height.
- The proposed CB1 CZ zoning would be applied to only the rear portion of the site and excludes the frontage along Tunnel Road, which contains the Fire Station No. 8 building.
- The project includes resurfacing the basketball court in its existing location, relocating the playground amenity within the site and providing new play equipment.
- Vehicular access generally remains in the existing locations, with the single driveway cut from Avon Road and a single cut from Lynnstone Court. 50 parking spaces will be provided.
- The subject site is located along the E2 and I70 lines of the ART bus system and there is an existing transit shelter at the corner of Tunnel Road and Avon Road.
- There are existing sidewalks along Avon Road that lead to the transit shelter. A new five foot sidewalk will be provided behind a grass strip along the entire length of Lynnstone Court.
- There have been ongoing public meetings to solicit input from users of the library to best design the building and site for the needs of the community.

- Staff has recommended the following condition and the applicant has agreed:
    - An enhanced pedestrian crossing at Tunnel Road will be provided at a location to be determined through coordination with the City's Transportation Department and the North Carolina Department of Transportation. The enhanced pedestrian crossing may include a pedestrian activated signalized crossing maximizing use of the existing emergency access traffic signal as well as minor sidewalk, ramps, and signage/pavement markings as needed.
- The applicant is requesting the following conditions to be approved for this project (staff is supportive of these conditions):
    - Increase in footprint and gross floor area (maximum allowed per code is 6,000 SF footprint and 12,000 SF gross floor area).
    - Parking closer to the street than the edge of the structure on Lynnestone due to existing basketball courts and open space use.
    - Decreased channelized storage for the parking lot entrances to Avon Road to 33 feet and on Lynnstone Court to 15 feet (standard is 45 feet for 50 or more parking spaces).
    - Grading will occur within a portion of the buffer near the new building site and will be replanted according to the requirements of Unified Development Ordinance (UDO) Section 7-11-3 but will have areas where the slope is 2:1 (maximum allowed is 3:1). Additionally, the roof overhang will encroach approximately 18 inches into the buffer area.

Comprehensive Plan Consistency:

- The Living Asheville Comprehensive Plan Future Land Use Map identifies this area as a Traditional Corridor, where community-based service uses such as this are anticipated. Tunnel Road is identified as a transit-supportive corridor, in which development should support transit, and vice-versa. This project includes improved pedestrian connectivity and an existing bus shelter. Living Asheville also notes the need to continue to serve a growing, diverse population, which the library will help achieve.

Compatibility Analysis:

- The new single story library building is compatible with the surrounding building types and uses.
- The library, basketball courts and playground are existing on the site (and will be improved and/or relocated), while all existing uses will remain.
- Preservation of existing landscaping material will maintain the existing buffer against the adjacent residentially-zoned properties.
- While the size of the building exceeds the standard for the zoning district, the justifications result from extensive community input and result in a structure that functions in a more usable and accessible way.

Council Goal(s):

- A Well-Planned and Livable Community
- Transportation and Accessibility

Committee(s):

- Technical Review Committee - February 18, 2019 - approved with conditions
- Planning and Zoning Commission - March 6, 2019 - recommended approval (5-0)
- Recreation Board - March 11, 2019 - presentation made

Staff Recommendation:

- Staff supports the proposed rezoning in that: 1) it meets most of the standards of the UDO and the deviations from the standards are due to programming that better meets the

needs of the entire community; 2) is an improvement to existing uses in place; 3) the existing zoning district is appropriate and supportive of community-based uses; and, 4) the site plan includes landscaping improvements and enhanced pedestrian connectivity.

Maggie DeLap, project architect for the east Asheville Library, said the east Asheville community has been very involved throughout this process. There have been numerous meetings with the community and the Library's Advisory Board. A one-story building of this size is truly the ideal form to economically build and operate and the best way to serve this community.

Mayor Manheimer opened the public hearing at 6:51 p.m.

An east Asheville resident spoke in support of the conditional zoning.

Mayor Manheimer closed the public hearing at 6:52 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning request for the East Asheville Library from Community Business I (CBI) to Community Business I Conditional Zone (CBI CZ) for the construction of a new library building and site upgrades and find that the request is reasonable, is in the public interest and aligns with the city's comprehensive plan in the following ways: 1) this is an improvement to existing uses in place; 2) the existing zoning and Future Land Use category in place are appropriate and supportive of these community-based uses; 3) upgrades to parking and landscaping will enhance the site; and, 4) the proposal is aligned with strategies found in the City's comprehensive plan regarding activating the pedestrian experience, siting uses along corridors that are supported by transit, providing spaces available to all members of the community and upgrading community facilities to serve a growing city population. This motion was seconded by Councilwoman Smith and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 353

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 19-91 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A GROUND LEASE WITH BUNCOMBE COUNTY FOR THE EAST ASHEVILLE LIBRARY LOCATED ON CITY-OWNED PROPERTY AT 902 TUNNEL ROAD

Real Estate Program Director Nikki Reid said that this is the consideration of a resolution authorizing the City Manager to execute a ground lease with Buncombe County for the East Asheville Library.

Background:

- The City of Asheville owns a 2.76 acre parcel at 902-904 Tunnel Road and several uses are contained within the site (PIN 9658-87-7320-00000). At this property, Buncombe County has operated the existing East Asheville Library for many years based on a verbal agreement. Asheville Fire Station #8 is located in front of the library on the property.

- The property includes a former City recreation center that has been leased to LEAF for offices. The lease with LEAF will expire at the end of June 2019. The site also has a City maintained public playground, basketball court and parking.
- Buncombe County has developed plans to construct a new $5.8M library facility on a 1.8 acre portion of the property (the "Leased Premises"). The existing library and community center would be demolished and new facilities rebuilt within the proposed lease area.
- The new library would be a 14,800 square foot, one story complex and would include multi-use areas for different age groups, staff offices, a large meeting room, parking and a cafe.
- A new playground is included as part of the library improvements and the existing basketball court will be resurfaced. A parking lot would separate the library use from the existing fire station. The County will also construct an enhanced pedestrian crossing at Tunnel Road as detailed in the associated Conditional Zoning petition.
- Buncombe County has requested a 99 year lease at $1.00 per year and will take responsibility for all maintenance of improvements and grounds within the lease area, to include the playground and basketball courts. The library improvements will serve as a community meeting space for East Asheville in place of the City's recreation center. The Leased Premises will have an address of 3 Avon Road.
- The City's fire station will retain the ability to expand toward Lynnstone Court in an easterly direction.
- Buncombe County desires to commence demolition and construction in Summer 2019. The City's lease with LEAF expires in June 2019 and LEAF will relocate to the Del Cardo Building on Eagle Market Place. City staff and Buncombe County staff will coordinate with LEAF to ensure a smooth transition as construction / relocation efforts come together.

Council Goal(s):
- Well Planned and Livable Community
- Connected and Engaged Community

Committee(s):
- None

Pro(s):
- The existing improvements have reached end of life
- New East Asheville Library will substantially benefit city and county residents.
- Strengthens the City's partnership with Buncombe County.
- Buncombe County performed extensive community engagement and support for the new library.
- The County will be fully responsible for the operation and maintenance of all improvements on the leased premises, including the renovated basketball courts and the new playground.

Con(s):
- None

Fiscal Impact:
- The rental consideration is a nominal amount.
- Improvements will be made at no cost to the City.

When Councilwoman Mayfield asked if the City considered selling that portion to Buncombe County, Ms. Reid said that they did not because they felt the lease was a good mechanism to show the partnership and to allow for an ongoing partnership.

When Councilman Kapoor asked if this will continue to be a library, Ms. Reid said that the conditional zoning governs the use as a library.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to approve a resolution authorizing the City Manager to execute a ground lease with Buncombe County for the East Asheville Library. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 388

B. ORDINANCE NO. 4741 - ORDINANCE ADOPTING THE FISCAL YEAR 2019-20 FEES & CHARGES

Assistant Finance Director of Budget and Forecasting Tony McDowell said that this is the consideration of an ordinance amending the fees and charges manual for Fiscal Year (FY) 2019-20.

Background:

- Fees and charges comprise 35% of City-wide revenue and 10% of General Fund revenue. Fees generally fall into three categories: general user fees, regulatory fees, and public enterprise fees.
- Fees and charges are reviewed throughout the year.
- Proposed fee adjustments for FY 2019-20 include minor adjustments in the General Fund, along with continued incremental annual increases to Water and Stormwater rates.
- All of the proposed fee adjustments would become effective July 1, 2019, with the exception of changes to the charges on the combined utility bill for water and stormwater, which will become effective September 1, 2019. This ensures that only services provided at the new rate are being billed.
- Staff may bring additional fee adjustments forward as part of the recommended budget presentation in May. Please note that there is one additional fee for small wireless facilities added since the March 26 review by the Finance & Human Resources Committee.

The proposed fee adjustments would generate estimated revenue as follows:

General Fund	$30,275	Water Capital Reserve Fund	$98,000
Stormwater Fund	$304,036	US Cellular Center Fund	$9,000
Water Operating Fund	$894,086	Street Cut Fund	$13,000

Council Goal(s): A Financially Resilient City

Committees: Finance & Human Resources Committee - March 26, 2019

Pros:

- Provides opportunity to recover the cost of services from those that directly utilize or benefit from the service where appropriate, reducing the financial burden of City services on taxpayers.
- Provides additional revenue to help balance the FY 2019-20 budget.

- Allows staff to begin communicating fee changes to citizens, customers, and stakeholders so they are aware of changes that will be implemented on July 1.

Con:

- Small increase in the annual costs to Asheville residents and customers.

Fiscal Impact to Residents:

- The annual impact to the typical single family household would be as follows:

Water		$6.60		
Stormwater		$1.80		
	Annual impact	$8.40	Monthly impact	$0.70

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve an ordinance amending the fees and charges manual for Fiscal Year 2019-20. This motion was seconded by Councilwoman Smith and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 362

C. RESOLUTION NO. 19-92 - RESOLUTION AMENDING THE ASHEVILLE STANDARD SPECIFICATIONS & DETAILS MANUAL ADDING MICROCELL TECHNOLOGY AND AESTHETIC STANDARDS

Principal Planner Shannon Tuch said that this is the consideration of a resolution to amend the *City of Asheville Standard Specifications and Details Manual* to add a new "Section 11. Small Wireless Facilities" with said section establishing new standards and details for the installation of small wireless facilities, including equipment boxes, cables and antennae, attached to public utility infrastructure, as well as the establishment of new poles for the purpose of supporting these facilities.

Background:

- The City has maintained a technical manual that includes construction standards and details that establishes minimum standards for private and public infrastructure improvements related to developing, redeveloping, and subdividing land, as well as providing necessary rights-of-way, transportation and utility services.
- The current manual was adopted May 13, 2014 and most recently revised and updated June 14, 2016.
- House Bill 310/Session Law 2017-159 was adopted July 21, 2017 and broadly establishes opportunities for new emerging small cell wireless facilities to be added to existing utility (poles) infrastructure, and to install new pole infrastructure where needed. It is anticipated that most small cell wireless installations will occur in public rights-of-way.
- HB 310/SL 2017-159 is a legislative mandate that prohibits municipal regulation that would unduly regulate small cell wireless facilities on public infrastructure but does allow opportunity for some limited "aesthetic" standards to be adopted by cities.
- The Federal Communications Commission's Order number 18-133, which went into effect January 14, 2019, establishes the deadline of April 15, 2019 by which municipalities may publish aesthetic standards for small cell wireless installations.

- While FCC Order number 18-133 is currently being challenged in court by a number of municipalities across the county, City staff believes prudence requires that the City issue its aesthetic standards prior to the April 15, 2019 deadline.

Council Goal(s):
- A Well-Planned and Livable Community

Committee(s):
- N/A

Pro(s):
- Allows the City to comply with the FCC's April 15 deadline for publishing small wireless facility aesthetic standards.
- Proposes basic standards that would "conceal" installations designed to improve aesthetics over what could occur if left unregulated.

Con(s):
- Impact is limited due to the constraints established by the State legislation and Federal regulations.

Fiscal Impact:
- Legislation imposes a limit on fees at a maximum of $500 per application, with up to 25 sites included in a single application. Cost recovery for a typical application is not yet known. A new fee has been added to the City's Fees & Charges.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to adopt a resolution amending the *City of Asheville Standard Specifications and Details Manual* to add a new "Section 11. Small Wireless Facilities" with said section establishing new standards and details for the installation of small wireless facilities attached to public utility infrastructure, as well as the establishment of new poles for the purpose of supporting these facilities. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 389

D. BOARDS & COMMISSIONS

RESOLUTION NO. 19-93 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Citizens-Police Advisory Committee.

Mr. Jayden Gurney (resident of Housing Authority property) resigned, thus leaving an expired term until June 30, 2019.

The following individual applied for the vacancy and meets the requirements: Sandy Aldridge..

Vice-Mayor Wisler moved to appoint Sandy Aldridge (resident of Housing Authority property) to serve the unexpired term of Mr. Gurney, term to expire June 30, 2019, and then a full three-year term, term to expire June 30, 2022, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 390

RESOLUTION NO. 19-94 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Public Art & Cultural Commission.

Jay Miller resigned as a member of the Public Art & Cultural Commission, thus leaving an expired term until June 30, 2020.

The following individuals applied for the vacancy: Mariana Avila Llorente, Karen Depew, Karin Peterson, Travis Smith, Jasmine Washington, Nadita Vyas, Honor Moor and Anne Manner-Mclarty.

Vice-Mayor Wisler moved to appoint Jasmine Washington to serve as a member of the Public Art & Cultural Commission, to serve the unexpired term of Mr. Miller, term to expire June 30, 2020, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 391

RESOLUTION NO. 19-95 - RESOLUTION APPOINTING A MEMBER TO THE TREE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Tree Commission.

Shawn Swartz resigned as a member of the Tree Commission, thus leaving an expired term until December 31, 2019.

The following individuals applied for the vacancy: Chip Hood, Patrick Gilbert, Jonathan Watterson, Tommy Masters and Robert Brown.

Vice-Mayor Wisler moved to appoint Patrick Gilbert to serve as a member of the Tree Commission, to serve the unexpired term of Mr. Swartz, term to expire December 31, 2019, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 392

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Lt. Colonel of the NC Army National Guard Chris Castro explained that in his role with the NC National Guard, he works at the behest of the Selective Service System in Washington, D.C.. The Selective Service System reimburses the Army Guard for their salaries, in exchange for Guard members performing a recruiting function for Local Board members. Most people are not aware of the fact that counties throughout the nation have Local Boards comprised of citizen volunteers. These volunteers fulfill a vital role in ensuring that our draft system is ready, in case

the need were to arise for a draft. Of course, as you are aware, our military is functioning just fine with an all-volunteer force. However, the Selective Service System exists in case of national emergency. His job is to staff each local board with five civilian volunteers, and to provide those volunteers with training. Currently, there are two openings in Buncombe County for Local Board members. The wonderful thing about the position is that the particular volunteer really has no job requirement – as the draft is not in place. Once they are selected, we send to them, via email, a Power Point training package to complete at their leisure. Furthermore, this is a Presidential appointment. The appointment is routed through the Governor's office, but is completed by the Governor on behalf of the President. In his recruitment process, he meets with the potential board member and discusses the position. They complete an application, which is then analyzed by the Selective Service System Regional Office. The Regional Office then forwards the application to the Governor of North Carolina for their approval. Once approved, the new Board Member receives a certificate from the Governor's office. To be eligible, a person has to be eighteen years of age, and cannot be in law enforcement or in a prosecutorial role. They also cannot be a retired member of the military. Veterans, of course, are welcomed – they just cannot be receiving retirement pay from a branch of the military.

Deanna Williams spoke about potential $1 Million funding from the U.S. Dept. of Housing and Urban Development for homeless youth.

Sharon Sumrall spoke to Council about the need for an urban forester.

Amy Kemp spoke to Council about her concerns related to development and aesthetics of the boundaries of downtown.

Rob and Zach Hebb spoke against abortion.

Reid Thompson and Velvet Hawthorne spoke to Council about truck violations and noise on Maxwell Street.

Jonathan Wainscott spoke to Council regarding district elections.

An east Asheville resident urged Council to oppose turning the Flat Iron Building into a hotel.

Closed Session

At 7:36 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to a lawsuit, or potential lawsuit. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilwoman Mayfield and carried unanimously.

At 8:23 p.m., Councilman Kapoor to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:23 p.m.

Magdalen Bullock
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – April 23, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. CITY OF ASHEVILLE YOUTH LEADERSHIP ACADEMY

Mayor Manheimer said that since its creation in 2007, the City of Asheville Youth Leadership Academy prepares Asheville's youth for future employment. The program focuses on leveraging relationships with nonprofit agencies, businesses and the community to provide meaningful, career-oriented internships for students. The majority of CAYLA students will be the first in their families to attend college, and many have overcome significant barriers to reach that goal.

CAYLA's vision is that all Asheville's youth have opportunities to learn the career demands, skill sets, and qualifications necessary for future employment. In short, our purpose is to support students as they find their purpose. Long-term, we hope to encourage our talented young people to return to Asheville after college, while inciting their passion to grow our entire community. To support this goal, the City has now developed a three-month fellowship program intended for CAYLA alumni who have earned a college degree, and are back in town to launch their career.

She thanked the entire group of students and noted that they have balanced the demands of a rigorous course load, held part time jobs that supported their family, earned honors in athletics and extracurriculars, and applied - and were accepted - to colleges across the state and region.

Ivah Tyson and Yenifer Silva Romero spoke about their experiences with the CAYLA program and thanked Council for supporting this program.

On behalf of City Council, Mayor Manheimer applauded the students and recognized the hard work and dedication of Founding Director of the City of Asheville Youth Leadership Academy Erika Germer.

Ms. Germer provided Council with CAYLA Social Justice Visioning documents.

B. PROCLAMATION PROCLAIMING MAY, 2019, AS "BUILDING SAFETY MONTH"

Councilman Young read the proclamation proclaiming May, 2019, as "Building Safety Month " in the City of Asheville. He presented the proclamation to Ben Woody, Director of Development Services, who recognized his team and briefed City Council on some activities

taking place during the month. Mayor Manheimer also recognized Mark Matheny for being named the Building Official of the Year by ICC Region VIII.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 9, 2019

B. RESOLUTION NO. 19-96 - RESOLUTION OPPOSING OFF-SHORE DRILLING

Councilman Haynes read the following resolution: "WHEREAS, the City of Asheville is a climate leader and understands the importance of transitioning away from fossil fuels to a renewable energy economy for climate stability; and WHEREAS, we in Western North Carolina value the Atlantic Ocean for recreational, commercial, and educational activities, all of which support our state's economy; and WHEREAS, North Carolina's ocean economy contributed $2.1 billion to GDP in 2013, and an estimated 43,385 jobs. (Sea Grant & Duke, 2017); and WHEREAS, our city's residents value our state's ocean and coastal waters, which provide habitat to a vast array of wildlife, including endangered mammals, fish, sea turtles, and birds that depend on a healthy and clean environment; and WHEREAS, offshore oil and gas drilling and seismic exploration off the Atlantic coast put these coastal resources, and the communities and industries that depend on them, at risk from oil spills, intense ocean noise, and other damage; and WHEREAS, expanding offshore oil and gas drilling and seismic exploration threatens coastal stakeholders, marine wildlife, human health and climate; and WHEREAS, the Trump administration has proposed to dramatically expand offshore oil and gas leasing in all US oceans; and WHEREAS, several cities and states have taken a stand against new federal offshore oil, seismic blasting, and gas leases off the Atlantic coast; and WHEREAS, expanding offshore drilling anywhere will deepen the country's dependence on fossil fuels and undermine its efforts to address climate change by reducing greenhouse gas emissions and moving toward renewable energy; and WHEREAS, the U.S. Department of Interior develops and implements a nationwide offshore oil and gas leasing program that determines the size, timing and location of lease sales for the Outer Continental Shelf; NOW, THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The City of Asheville supports (1) a ban on new offshore oil and gas drilling and seismic oil exploration in federal and state waters off the Atlantic coast, and (2) no new federal oil and gas leasing in all U.S. waters, including off the Atlantic Coast. The Clerk shall forward a copy of this proclamation to acting Secretary David Bernhardt; Governor Roy Cooper; U. S. Senators Thom Tillis and Representative Richard Burr; U.S. Representatives Mark Meadows and Patrick McHenry; and any other interested parties."

Ms. Michelle Myers, representing the Center for Biological Diversity, spoke in support of the resolution.

RESOLUTION BOOK NO. 40 - PAGE 393

C. RESOLUTION NO. 19-97 - RESOLUTION ESTABLISHING GREEN OPPORTUNITIES AS THE FISCAL AGENT FOR FISCAL YEAR 2018-19 SUPPORTING PEOPLE'S ACCESS TO RELIABLE CARE (SPARC) FOUNDATION COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS

Action Requested: Adoption of a resolution to establish Green Opportunities, Inc. as fiscal agent for The SPARC Foundation for the 2018-2019 CDBG Contract.

Background:

- On June 19, 2018, City Council approved the 2018-2019 Consolidated Annual Action Plan, which is submitted annually to the US Department of Housing and Urban

Development (HUD) to allocate CDBG funds and HOME Investment Partnerships Program Funds (HOME).

- As part of the 2018-2019 Consolidated Annual Action Plan, The SPARC Foundation was awarded $43,000 in CDBG funds for their Employment and Life Skills Initiative program under the eligible activity of "Economic Development".
- In order to carry out program activities as an economic development project and remain in compliance with HUD, The SPARC Foundation must either certify as a Community Based Development Organization (CBDO), or receive funding through a fiscal agent that qualifies as a CBDO.
- The SPARC Foundation will initiate a Memorandum of Understanding (MOU) with Green Opportunities, Inc, ("GO") a local agency that is already certified as a CBDO, which will allow GO to act as fiscal agent for SPARC and accept the awarded 2018-2019 CDBG funds on its behalf.
- Without the MOU to allow Green Opportunities to proceed as a fiscal agent, The SPARC Foundation will be unable to access CDBG funding.

Council Goal(s):

- A Diverse Community
- Connected and Engaged Community
- Thriving Local Economy

Committee(s):

- Asheville City Council - Adoption of Fiscal Year 2018-19 Consolidated Action Plan - June 19, 2018

Pro(s):

- An approved MOU allowing Green Opportunities, Inc. to serve as a fiscal agent to SPARC will allow the organization to draw on awarded funds needed to support the operation of their mission of providing job-training and placement to at-risk populations in Asheville.
- The City of Asheville Community Development department and its community partners will be able to deploy community development funding in a compliant and timely manner.

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Move to approve granting a CDBG contract to Green Opportunities on behalf of the SPARC Foundation for the 2018-2019 award of $43,000 and to authorize the City Manager to execute any and all documents necessary for approval.

RESOLUTION BOOK NO. 40 - PAGE 395

D. RESOLUTION NO. 19-98 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH BASELINE SPORTS CONSTRUCTION LLC TO PROVIDE CONSTRUCTION SERVICES FOR THE ASHEVILLE MIDDLE SCHOOL FIELD IMPROVEMENTS

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Baseline Sports Construction, LLC, to provide construction services for Asheville Middle School Field Improvements.

Background:

- The City of Asheville and Asheville City Schools (ACS) have developed a collaborative working partnership to maximize opportunities for equitable access to recreation & athletic programming.
- The purpose of the City's participation would be to make facility improvements to the Asheville Middle School Athletic Field. These improvements provide the opportunity for Asheville Parks & Recreation to expand recreation programming at a currently under-utilized facility.
- The project will involve the conversion of a natural turf field to synthetic turf field.
- A community meeting was co-sponsored by the City of Asheville and Asheville City Schools on April 2. At the meeting, ACS and City staff presented all current and future projects including the turf replacement and lighting. The residents that attended expressed no concerns related to the projects.
- The bidders were:
    - Baseline Sports Construction, LLC from Knoxville, TN: $612,000
    - AstroTurf Corporation from Dalton, GA: $685,500

Council Goal(s):

- An equitable and diverse community
- A well planned and liveable community

Committee(s):

- Recreation Advisory Board, January 14, 2019

Pro(s):

- Supports local partnerships to maximize capital investments in the City of Asheville
- Maximizes opportunities for equitable access to recreation & athletic programming for the citizens of Asheville
- Supports the Parks, Recreation, Cultural Arts Master Plan (2009)
- Asheville City Schools will maintain the facility
- Asheville Parks & Recreation Department will have priority scheduling
- Provides temporary space for programs displaced during Memorial Stadium Renovations

Con(s):

- Work will need to be completed during the Asheville City School summer break

Fiscal Impact:

- Funding for this contract exists within the approved Capital Improvement Program (CIP) Budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a contract with Baseline Sports Construction, LLC, to provide construction services for Asheville Middle School Field Improvements.

RESOLUTION BOOK NO. 40 - PAGE 396

E. RESOLUTION NO. 19-99 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN INTERLOCAL AGREEMENT WITH THE LAND-OF-SKY REGIONAL COUNCIL FOR THE COMPLETION OF CORRIDOR STUDIES ON TUNNEL ROAD AND HENDERSONVILLE ROAD

Action Requested: Adopt a resolution authorizing the City Manager to sign an interlocal agreement with Land of Sky Regional Council to provide matching funds in the amount of $25,593 over a two-year period for the completion of corridor studies on Tunnel Road and Hendersonville Road.

Background:

- As part of the City's participation in the French Broad River Metropolitan Planning Organization, the MPO Board adopted a work program that includes two corridor studies of transportation and land use in Buncombe County.
- The funding is programmed for studies on Tunnel Road and Hendersonville Road and totals $350,000 over a two year period. The majority of the funding is federal.
- The federal funding requires a 20% local match which will be shared by the City of Asheville and Buncombe County and will be split over the two-year period.
- The City and the County were each asked to select a corridor for study. Buncombe County chose Hendersonville Road. The City of Asheville selected Tunnel Road, and declared this selection in a resolution adopted on September 25, 2018.
- The Land of Sky Regional Council/French Broad River MPO will manage the studies and execute all associated contracts. City Transportation and Planning and Economic Development Department staff will work with the MPO and consultant staff throughout the projects.
- The projects are expected to kick-off simultaneously in Summer of 2019 and each study will take about 18 months to complete.

Council Goal(s):

- Transportation and Accessibility; A Well Planned and Livable Community

Committee(s):

- None

Pro(s):

- Aligns with the City's Living Asheville Comprehensive Plan and multimodal transportation planning efforts.

Con(s):

- None

Fiscal Impact:

- The Fiscal Year 2019 General Fund operating budget already includes funding for the first year. The remaining matching funds will be included in the Fiscal Year 2020 General Fund Proposed Budget that is presented to City Council in May.

Motion: Move to adopt a resolution authorizing the City Manager to sign an interlocal agreement with Land of Sky Regional Council.

RESOLUTION BOOK NO. 40 - PAGE 397

F. **RESOLUTION NO. 19- 100 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LOAN MODIFICATION REQUESTED BY MOUNTAIN HOUSING OPPORTUNITIES TO ALLOW THEM TO MAINTAIN AFFORDABILITY AT THE RIVER GLEN APARTMENTS PROPERTY AND AUTHORIZATION FOR THE CITY MANAGER TO NEGOTIATE AND EXECUTE ALL DOCUMENTS NECESSARY TO GIVE EFFECT TO THIS APPROVAL**

Action Requested: Approval of Loan Modification requested by Mountain Housing Opportunities ("MHO") to allow them to maintain affordable housing units at the River Glen Apartments property and authorization for the City Manager to negotiate and execute all documents necessary to give effect to this approval.

Background:

- MHO developed the River Glen Apartments in Arden in 1998 with the assistance of Low-Income Housing Tax Credit equity ("LIHTC") and the City of Asheville HOME financing. The conditions of the $268,800 HOME loan were a 20-year term at 0% interest maturing in September 2018.
- The property contains thirty-eight (38) apartments maintained for households at or below the 60% Area Median Income ("AMI") level. MHO has committed to extending the affordability of these units for an additional 20-year term intended to run with the HOME loan maturing on September 1, 2038.
- Currently the property contains three (3) sources of debt. The sources are listed below, with the expectation that MHO will refinance their loan with First Citizens Bank before 2021. They have requested a 20-year extension with the same terms from NCHFA. The project has positive but limited cash flow that's incapable of supporting more than the current payments along with routine operating and maintenance costs.
    - First Citizens Bank: $253,042
    - NCHFA: $672,896
    - City of Asheville HOME: $268,800
- The City of Asheville HOME loan is intended to remain in the third loan position.
- The HOME loan term expired in August 2018, and has been extended while awaiting necessary approval from the Asheville Regional Housing Consortium and the City of Asheville. In November the Asheville Regional Housing Consortium approved extension of the loan for an additional 20-year period with the same terms based on MHO's renewed commitment to maintaining affordability.

Council Goal(s):

- A Diverse Community
- Quality Affordable Housing
- A Well-Planned and Livable Community

Committee(s):

- Asheville Regional Housing Consortium - November 1, 2018 Approval

Pro(s):

- The River Glen Apartments project will be able to restructure its debt in a manner that maintains the project's long-term financial stability.
- The property will continue to manage its thirty-eight (38) affordable housing units for an additional 20-year period.

Con(s):

- None.

Fiscal Impact:

- The loan balance was scheduled for payment at the conclusion of the original term. Should an extension not receive approval, these funds would be returned to the Asheville Regional Housing Consortium HOME account to be redeployed towards other affordable housing projects.

Motion:

- Move to approve the loan extension requested by MHO for the River Glen Apartments development and to authorize the City Manager to negotiate and execute any and all documents necessary to give effect to this approval.

RESOLUTION BOOK NO. 40 - PAGE 398

G. RESOLUTION NO. 19-101 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE 2019 FEDERAL TRANSIT ADMINISTRATION LOW OR NO EMISSION VEHICLE PROGRAM IN ORDER TO PURCHASE 2 HYBRID BUSES AND IF SUCCESSFUL, TO ACCEPT THE GRANT AND SIGN ALL THE APPROPRIATE AGREEMENTS TO RECEIVE THE FUNDS

Staff Resource(s): Ken Putnam, Transportation Department Director; Jessica Morriss, Assistant Transportation Department Director

Action Requested: Adopt a resolution authorizing the City Manager to apply to the 2019 Federal Transit Administration (FTA) Low or No Emission Vehicle Program in order to purchase two hybrid buses, and if successful, to accept the grant funds and execute a grant agreement.

Background:
- FTA's 2019 FTA Low No program has authorized $85 million in competitive grant funding for the purchase or lease of zero-emission and low-emission transit buses.
- Transportation staff proposes to apply for two hybrid electric buses for a total cost of approximately $1,500,000
- The required local grant match is 15%, or approximately $225,000.
- The grant application is due May 14, 2019.

Council Goal(s):
- Transportation and Accessibility; Clean and Healthy Environment

Committee(s):
- Transit Committee - April 16, 2019 - approved unanimously.

Pro(s):
- Grant award would help fund continued transit rolling-stock investments to secure a healthy fleet.
- Contributes to the city's carbon reduction and climate mitigation goals.

Con(s):
- If awarded, commits the city to fund the local match for Fiscal Year (FY) 2021 or FY 2022.

Fiscal Impact:
- If awarded, this grant funding would allow the City to continue to purchase necessary replacement and expansion buses consistent with the Transit Master Plan fleet schedule.
- The current 5-year Capital Improvement Program (CIP) includes matching funds for planned bus purchases in FY 2021, FY 2022, and FY 2023 (assuming grant funds are awarded). These matching funds are planned for those fiscal years and included in the CIP/debt model projections.

Motion:
- Motion to adopt a resolution authorizing the City Manager to apply to the 2019 FTA Low or No Emission Vehicle Program in order to purchase two hybrid buses, and if successful, to accept the grant funds and execute a grant agreement.

Ms. Kim Roney urged Council to continue to make steps towards the City's goals on sustainability.

When Councilwoman Mayfield asked if we are investigating electric 30-foot buses, Director of Transportation Ken Putnam said that we are; however, there is one company that does build them but the cities who have been getting them have been sending them back.

RESOLUTION BOOK NO. 40 - PAGE 399

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 1 SOUTH TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO MIXED USE EXPANSION/CONDITIONAL ZONE TO ALLOW A MIXED-USE DEVELOPMENT THAT INCLUDES RESIDENTIAL, RETAIL, SERVICE AND ENTERTAINMENT USES

At the applicant's request, Councilman Young moved to continue this public hearing until May 28, 2019. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

B. PUBLIC HEARING TO CONSIDER PERMANENTLY CLOSING AN UNOPENED RIGHT-OF-WAY KNOWN AS COMMERCE STREET

RESOLUTION NO. 19-102 - RESOLUTION TO PERMANENTLY CLOSE THE UNOPENED RIGHT-OF-WAY KNOWN AS COMMERCE STREET

Streets Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way known as Commerce Street. This public hearing was advertised on March 29 and April 5, 12 and 19, 2019.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Biltmore Iron and Metal has petitioned the closure and owns one adjacent property, 1 Meadow Rd. (PIN # 9648-50-7911 and 9648-51-6002). The other adjoining property owner, Asheville Area Habitat for Humanity, 33 Meadow Rd, supports the petition. (Pin # 9648-51-6002 and 9648-50-4827)
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - January 23, 2019 - Recommended closing the right of way and working with the property owner to secure a greenway right of way along the river.

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill development that makes efficient use of existing resources

Con(s):

None

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 5:41 p.m.

Mr. Robert W. Oast Jr., attorney working with the applicant and adjacent property owner, said he was not aware of any opposition to the closing .

Mayor Manheimer closed the public hearing at 5:42 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Young moved to permanently close the unopened right-of-way known as Commerce Street. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 400

C. PUBLIC HEARING TO CONSIDER PERMANENTLY CLOSING AN UNOPENED RIGHT-OF-WAY KNOWN AS ROSE STREET

RESOLUTION NO. 19-103 - RESOLUTION TO PERMANENTLY CLOSE THE UNOPENED RIGHT-OF-WAY KNOWN AS ROSE STREET

Streets Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way known as Rose Street. This public hearing was advertised on March 29 and April 5, 12 and 19, 2019.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Pet Vet Properties, LLC has petitioned the closure and owns two adjacent properties, 2 Hansel Ave. (PIN # 9638-48-8500) and 100 Rose St. (PIN # 9638-48-7515)
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - January 23, 2019 - MMTC supported the closure

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill development that makes efficient use of existing resources

Con(s):

- None

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 5:44 p.m. and when no one spoke.

Mr. Robert W. Oast Jr., attorney representing property owners, said they have been working with adjacent property owners and was not aware of any opposition to this closing.

Mayor Manheimer closed the public hearing at 5:45 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Young moved to permanently close the unopened right-of-way known as Rose Street. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 402

D. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 20 BATTERY PARK AVENUE AND KNOWN AS THE FLAT IRON BUILDING FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/CONDITIONAL ZONING FOR THE RENOVATION OF AN EXISTING BUILDING TO INCLUDE A RESTAURANT, RETAIL SPACES, AND 80 LODGING UNITS

At the petitioner's request, Councilman Young moved to continue this public hearing until May 14, 2019. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

When a woman asked why the developer has requested a continuance, Mayor Manheimer explained that a developer can request a continuance if they are not ready to present.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION TO ADOPT A POLICY FOR DEVELOPING CITY-OWNED LAND FOR AFFORDABLE HOUSING

Mayor Manheimer announced that this item will not be considered at this meeting.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

When Mr. Crawford Murphy, architect, asked Council to provide feedback on a pre-application for a 55-unit proposal, minus a sidewalk, Mayor Manheimer suggested he work

with City staff to see what they need in order to support the proposal. She also noted that City Council may not have the authority to waive a technical requirement.

Mr. Jonathan Wainscott advocated a raise has reflects hazard pay for first responders, and a better retirement package for firefighters.

Councilman Kapoor noted that one year ago Derrick Lee Jr. was shot and killed. He urged the public to contact the Asheville Police Department if they know of anything that might help investigators apprehend the killer.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 5:55 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – May 14, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MAY, 2019, AS "TICK-BORNE DISEASES AWARENESS MONTH"

Mayor Manheimer read the proclamation proclaiming May, 2019, as "Tick-Borne Diseases Awareness Month" in the City of Asheville. She presented the proclamation to Ms. Janet Dooley and Mr. Rick Cormier, who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING MAY, 2019, AS "JANE'S WALK MONTH"

At the requester's request, this proclamation has been moved to the May 28, 2019, meeting.

C. PROCLAMATION PROCLAIMING MAY 19-25, 2019, AS "PUBLIC WORKS WEEK"

Councilman Young read the proclamation proclaiming May 19-25, 2019, as "Public Works Week " in the City of Asheville. He presented the proclamation to Public Works Director Greg Shuler, who in turn introduced Amanda Ayers from Fleet Management; Gordon Jerome from Sanitation; Nicholas Boyle from Stormwater; Rick Gath from Streets; and Sarah Sheldon and Alisha Carroll in Administration.

D. RECEIPT OF THE G. HEBERT STOUT AWARD FOR VISIONARY USE OF GIS BY A NORTH CAROLINA CITY

Mr. Tim Johnson, Director, Center for Geographic Information and Analysis of the North Carolina Department of Information Technology, was pleased to award the City of Asheville with the G. Hebert Stout Award for Visionary Use of GIS by a North Carolina City. He presented the very prestigious award given every two years to Christen McNamara and Scott Barnwelk from our Information Technology Department.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 23, 2019

B. MOTION SETTING A PUBLIC HEARING ON MAY 28, 2019, TO CONSIDER ADOPTION OF THE FISCAL YEAR 2019-20 ANNUAL OPERATING BUDGET

Action Requested: Set May 28, 2019 as the date to conduct the public hearing on the City of Asheville Fiscal Year (FY) 2019-20 Proposed Annual Operating Budget.

Background:

- The 2019-20 Proposed Annual Operating Budget is scheduled to be presented to City Council on May 14, 2019, and adopted on June 11, 2019.
- In accordance with the North Carolina Local Government Budget and Fiscal Control Act (G.S. 159-12), the board is required to hold a public hearing on the Proposed Budget prior to adoption of the annual budget ordinance.
- The action tonight will set that public hearing date for May 28, 2019.

Council Goal(s):

- A Financially Resilient City

Pros:

- Provides the opportunity for the public to comment on the Proposed Annual Operating Budget for FY 2019-20.

Cons:

- None

Fiscal Impact:

- Non

Motion:

- Move to set a public hearing on the Proposed Annual Operating Budget for FY 2019-20 for May 28, 2019.

C. RESOLUTION NO. 19-104 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH TRANSPORTATION PLANNING AND DESIGN TO CONDUCT THE FOLLOW MASTER PLANS: PEDESTRIAN PLAN, GREENWAY PLAN; AND AMERICANS WITH DISABILITIES ACT TRANSITION PLAN

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Transportation Planning and Design (TPD) not to exceed $275,000 to conduct the following master plans: Pedestrian Plan, Greenway Plan and ADA Plan in City Rights of Way Transition Plan.

Background:

- In 2018, the City received a Surface Transportation Block Grant funding from the N.C. Dept. of Transportation (NCDOT) to conduct the Pedestrian and ADA Transition Plan, which will assess ADA accessibility of facilities in the public right of way and recommend improvements. The grant totaled $140,000 with a $35,000 City match for a total of $175,000.

- An ADA transition plan for the public right of way identifies barriers that prevent people with disabilities from using facilities in the public right of way and sets forth steps necessary to complete modifications to remove these barriers.
- With adoption of the Fiscal Year 2018-19 Budget, City Council approved an additional $100,000 City contribution to be used for the Greenway Master Plan concurrently with the Pedestrian Plan and ADA Transition Plan.
- A selection committee comprised of staff and representatives of all stakeholder boards and commissions selected Traffic Planning and Design, Inc. and their team of subconsultants from a competitive procurement process initiated by a request for statement of qualifications.
- Our current ADA Transition Plan (1998) and Pedestrian Master Plan (2004) are out of date.
- The Greenway Master Plan was partially updated in 2013 to assist in the City's conversations with NCDOT about the impacts of I-26 on the greenways. This plan needs a comprehensive update that includes design guidelines.

Council Goal(s):
- A Well-Planned and Livable Community
- Transportation and Accessibility

Committee(s):
- Greenway Committee - March 7, 2019 - approved unanimously
- Multimodal Transportation Commission - March 22, 2019 - approved unanimously
- Planning and Economic Development Committee - April 8, 2019 - approved unanimously

Pro(s):
- The plans will provide guiding principles and infrastructure recommendations for the respective programs.
- Developing the various plans concurrently will provide assurance that the resulting plans establish a connected multimodal network of facilities.
- Developing the various plans concurrently will result in a cost savings.

Con(s):
- None

Fiscal Impact:
- The cost of the project is $275,000. The project funding, which includes the federal grant and the City contribution is already budgeted in the City's Special Revenue Fund.

Motion:
- Move to adopt a resolution authorizing the City Manager to execute a contract with Transportation Planning and Design (TPD) not to exceed $275,000 to conduct the following master plans: Pedestrian Plan, Greenway Plan and ADA Plan in City Rights of Way Transition Plan.

RESOLUTION BOOK NO. 40 - PAGE 404

D. RESOLUTION NO. 19-105 - RESOLUTION TO WAIVE PERMIT FEES FOR RESIDENTIAL AND COMMERCIAL STRUCTURES AFFECTED BY THE APRIL 19, 2019, FLOOD EVENT

Action Requested: Adoption of resolution to waive permit fees for residential and commercial structures affected by the April 19, 2019, flood event.

Background:

- Flooding of the French Broad and Swannanoa Rivers, as well as many of the tributaries to these 2 major rivers within our jurisdiction occurred on April 19th and 20th, 2019.
- Permits are required for the repair of any flood damaged structures by FEMA and the City of Asheville.
- In an effort to assist residents and property owners that incurred flood damage to structures during this event the Development Services Department proposes to waive all permit fees for these structures.
- Based on the post flooding site visits, it's estimated that approximately 25 structures were affected by flood waters with less than half needing a permit for repairs. Staff is trying to remove hurdles for recovery from the flood, while also remaining in compliance with state and local requirements.
- City Council, on April 9, 2019, adopted the 2019-20 Fees & Charges Manual, which included City Manager authorization to waive permit fees in the event of a natural disaster. The ability of the City Manager to waive the fees is not effective until July 1, 2019.
- In review of the proposed change and based on information provided to us from Dan Brubaker at the NC Department of Public Safety, it is common for communities to waive permit fees, post disaster. In the past the City of Asheville has had a practice of waiving fees for these types of events, the most recent being the 2004 major event.

Council Goal(s):

- Thriving Local Economy

Committee(s):

- None

Pro(s):

- Facilitate repair and recovery for flood damaged structures, and remain in compliance with the building code, NFIP, and FEMA regulations.

Con(s):

- None

Fiscal Impact:

- The City would not receive fees for the permits associated with the repair of flood damage. This fee revenue is not included in budget projections, as the work completed is due to an unexpected natural disaster.

Motion:

- Motion to adopt a resolution to waive permit fees for residential and commercial structures affected by the April 19, 2019, flood event.

RESOLUTION BOOK NO. 40 - PAGE 405

E. RESOLUTION NO. 19-106 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH MCGILL & ASSOCIATES FOR DESIGN AND ENGINEERING MECHANICAL, ELECTRICAL, PLUMBING AND RELATED PROFESSIONAL SERVICES UNDER A MASTER SERVICES AGREEMENT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a professional services contract with McGill Associates, P.A. for design and engineering

Mechanical, Electrical, Plumbing and related professional services under a Master Services Agreement.

Background:

- City staff requires design and engineering services to complete projects throughout the City related to mechanical, electrical, plumbing, fire protection (MEP-FP), and other related services.
- On-call services are allowed in North Carolina and are used Statewide as a best practice.
- Tasks under this contract may include but are not limited to: professional design, engineering assessments and analysis, regulatory reviews, preparation of estimated quantities, probable construction cost estimates, bidding, award of bid, and construction administration
- A qualifications based selection process was followed to procure these services. A request for qualifications was advertised on October 1, 2018, and six (6) firms submitted packages. A list of these firms and the offices submitting qualifications are listed below:

Firm	Office Location
Clark, Patterson, Lee	Greenville, South Carolina
Facility Strategies Group, PLLC	Fort Mill, South Carolina
McCracken & Lopez, P.A.	Charlotte, North Carolina
McGill Associates, P.A.	Asheville, North Carolina
Sud Associates, P.A.	Asheville, North Carolina
RMF Engineering	Charlotte, North Carolina

- The City's review team utilized a scoring matrix to assess the qualifications of the proposed firms. The review team rated McGill Associates, P.A. as the best qualified firm to perform this work.
- The City's standard procedure for on-call contracts is to enter into a no cost contract (i.e. Master Agreement) with the intent of entering into individual contracts (i.e. Supplemental Agreement) to perform specific activities and distinct work.
    - Each supplemental agreement for on-call professional services will be negotiated by staff based on the scope of work, contracted cost framework and specific project needs.
    - The majority of services rendered through supplemental agreements under this on-call contract will stay within the City Manager's authority individually, but cumulatively will exceed $90,000.
    - Supplemental agreements that exceed the City Manager's authority for professional services contracts of $90,000 will be brought to council for individual approval.
    - The duration of the Master Agreement for on-call professional services will be for an initial term of two years with an option to renew for up to three additional one-year periods.

Council Goal(s):

- Financially Resilient City
- Clean and Healthy Environment

Pro(s):

- A well-qualified firm will perform services in support of design services and engineering needs.
- These services will be available to support various programs and projects within the City's portfolio, including capital improvement projects, facilities construction and renovation projects.

Con(s):
- None

Fiscal Impact:
- Supplemental agreements for specific projects will be awarded based on existing budget plans for those projects.

Motion:
- Motion to adopt a resolution authorizing the City Manager to continue entering into a professional services contract with McGill Associates, P.A. for design and engineering professional services under the on-call services Master Agreement described herein.

RESOLUTION BOOK NO. 40 - PAGE 406

F. ORDINANCE NO. 4742 - BUDGET AMENDMENT FOR THE FISCAL YEAR 2018-19 SENIOR CENTER GENERAL PURPOSE FUND GRANT

Action Requested: Budget amendments in the amount $3,565 for Senior Opportunity Center and $3,565 for Harvest House for an appropriation from the State of North Carolina, Department of Health and Human Services, Division on Aging and the Land of Sky Regional Council through the Senior Center General Purpose Funding.

Background:
- The Land of Sky Regional Council Area Agency provides funds to be used by senior centers in North Carolina to support and develop programming and general operations of senior center facilities.
- One hundred seventy-two senior centers across the state are funded through this program.
- Asheville Parks and Recreation receives an appropriation of the funds each year.
- Funds will be used to support facility improvements and equipment at Senior Opportunity Center and Harvest House.

Council Goal(s):
- A Diverse Community

Committee(s):
- Recreation Advisory Board - March 11, 2019 - unanimously adopted

Pro(s):
- Purchases and improvements will enhance the customer experience and expand programming opportunities.

Con(s):
- None

Fiscal Impact:

- The allocation will increase the City's General Fund budget by $7,130 in accounts designated for the Senior Opportunity Center and Harvest House. The 25% local match will be provided through in-kind services of staff time to manage the projects.

Motion:

- Move to approve the budget amendment authorizing the City Manager to establish a budget in the amount of 1) $3,565 for Senior Opportunity Center, and 2) $3,565 for Harvest House for facility improvements and equipment.

ORDINANCE BOOK NO. 32 - PAGE 368

G. RESOLUTION NO. 19-107 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH GREEN BUILT ALLIANCE TO IMPLEMENT THE BLUE HORIZONS PROJECT FOR AN ADDITIONAL TWO YEARS, TO EXPAND THE SCOPE OF THE WORK AND TO AUTHORIZE THE CITY MANAGER TO EXECUTE THE CONTRACT AMENDMENT

Action Requested: Adoption of a resolution to amend the contract with Green Built Alliance to 1) implement the Blue Horizons Project for an additional two years, 2) expand the scope of work and
3) authorize the City Manager to execute the amendment in an amount not to exceed a total contract amount of $100,000.

Background:

- The Blue Horizons Project is the result of the Energy Innovation Task Force, a partnership between the City of Asheville, Buncombe County and Duke Energy.
- The Blue Horizons Project was launched in 2018 as a community-wide effort dedicated to creating a clean energy future for Asheville and Buncombe County as well as avoiding or delaying the construction of a 190 megawatt natural gas plant planned for 2027.
- City Council and the Buncombe County Commission dedicated funding to the implementation of the Blue Horizons Campaign in Fiscal Year 2018 and Fiscal Year 2019.
- The current contract amount for fiscal year 2018 totalled $24,725. This contract amendment is for $30,000 from the Fiscal Year 2019 Office of Sustainability budget for the Energy Innovation Task Force Initiative with an option to renew the contract for a third year not to exceed a total contract amount of $100,000 pending Council approval in the Fiscal Year 2020 budget.
- The contract amendment will provide continued engagement and education opportunities on energy efficiency and renewable energy programs to neighborhood associations, community groups, and our local business community.

Council Goal(s):

- A Clean and Healthy Environment
- Connected and Engaged Community

Committee(s):

- None

Pro(s):

- The Blue Horizons Project focuses on community engagement, increasing access to low-income weatherization, energy efficiency and energy demand programs, workforce development and provides information on solar energy program opportunities.
- On April 18, 2019, Duke Energy Progress announced that the 190 megawatt natural gas plant planned for 2027 has been delayed to 2034 at a minimum and issued a call to action to expand the Blue Horizons Project.

Con(s):
- None

Fiscal Impact:
- The current contract amount for fiscal year 2018 totalled $24,725. This contract amendment is for $30,000 from the Fiscal Year 2019 Office of Sustainability budget for the Energy Innovation Task Force Initiative. Funding is already budgeted and available. The total contract amount for Fiscal Year 2019 will total $54,725. The contract amendment for a third year, for an additional $45,275 (bringing the total contract amount not to exceed $100,000) is included in the Proposed Fiscal Year 2020 budget.

Motion:
- Motion to adopt a resolution to amend the contract with Green Built Alliance to 1) implement the Blue Horizons Project for an additional two years, 2) expand the scope of work, and 3) authorize the City Manager to execute the contract amendment in an amount not to exceed a total of $100,000.

RESOLUTION BOOK NO. 40 - PAGE 407

H. RESOLUTION NO. 19-108 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BLANCHARD, MILLER, LEWIS AND ISLEY, P.A. FOR GOVERNMENT RELATION SERVICES

Action Requested: Approval of a resolution authorizing the City Manager to enter into a contract for two years with Blanchard, Miller, Lewis, and Isley, P.A. in the amount of $144,000 for government relation services for two years.

Background:
- Approval of this contract will allow the City's Lobbyist to continue their legislative services.
- Original contract was for $72,000 annually, and the renewal will continue at this same annual rate. The city has the option to renew the contract yearly for up to two years.
- Original contract was amended with a two month extension on April 17, 2019.

Council Goal(s):
- Connected and engaged community

Committee(s):
- None

Pro(s):
- Will allow for continued legislative services in the North Carolina General Assembly.

Con(s):
- None

Fiscal Impact:
- The City of Asheville will pay $72,000 annually to renew the government relations contract for up to two years. Funding for the contract is included in the General Fund Budget.

Motion:

- Move to adopt a resolution for the purposes of renewing the government relations contract with Blanchard, Miller, Lewis, and Isley, P.A., annually for up to two years.

RESOLUTION BOOK NO. 40 - PAGE 408

I. RESOLUTION NO. 19-109 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENTAL AGREEMENT WITH MATTERN & CRAIG INC. OF ASHEVILLE FOR THE BOND SIDEWALK DESIGN SERVICES CONTRACT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract amendment to an existing sidewalk design contract with Mattern & Craig, Inc., of Asheville, North Carolina (Mattern & Craig), for the amount of $106,650 for the project known as Bond Sidewalk Bundle B Design, City of Asheville Contract #91800177.

Background:

- Mattern & Craig were originally selected to complete this project using a qualifications based selection process.
- This contract was awarded to complete site investigation and design work associated with various bond sidewalks, including Johnston Blvd, New Haw Creek Rd. and Onteora Blvd.
- The budgets for these three projects have been supplemented with an additional $4,000,000 in federal STBG grants through the metropolitan planning organization. These supplemental funds were necessary to fully fund the projects as proposed.
- The use of federal funding requires additional design effort in permitting/environmental review and easement acquisition services that were not anticipated when the original design agreement was executed.
- Unrelated to the federal funding, designers found an unexpected conflict between the storm drainage system that supports the sidewalk design and construction and the sanitary sewer. In order to resolve this conflict, a relocation of a portion of the sanitary sewer system will be necessary. This conflict was introduced by the recent development of an open residential parcel.
- The breakdown of work is below:
    - Easement acquisition services resulting from the addition of federal funding ($69,400)
    - Environmental permitting resulting from the addition of federal funding ($32,250)
    - Sewer design ($5,000)

Council Goal(s):

- Smart City
- Well-planned and livable community

Pro(s):

- Design of sidewalk that will meet City and National standards
- Improve mobility and safety on city streets.

Con(s):

- Construction will be disruptive to adjacent residences and businesses

Fiscal Impact:

- The total cost of the contract amendment is $106,650. These projects were initially funded using the City's capital reserve funds, and later reimbursed through the issuance of bonds and supplemental federal funding. The remaining funds in this budget will be

used for construction of sidewalks in the project. These construction contracts will be presented to Council during a later meeting.

Motion:

- Motion to adopt a resolution adopting a contract amendment to an existing sidewalk design contract with Mattern & Craig, Inc., of Asheville, North Carolina (Mattern & Craig), for the amount of $106,650 for the project known as Bond Sidewalk Bundle B Design.

RESOLUTION BOOK NO. 40 - PAGE 409

J. RESOLUTION NO. 19-110 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH MCCRACKEN & LOPEZ P.A. FOR DESIGN AND ENGINEERING BUILDING COMMISSIONING, TESTING, ADJUSTING, BALANCING AND RELATED ENGINEERING PROFESSIONAL SERVICES UNDER A MASTER SERVICES AGREEMENT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract for professional services with McCracken & Lopez, P.A. for design and engineering Building Commissioning, TAB and Related engineering professional services under a Master Services Agreement.

Background:

- City staff requires design and engineering services to complete projects throughout the City related to building commissioning, TAB, and other related engineering services.
- Commissioning occurs any time the performance of a building system is confirmed by the owner. Testing, Adjusting, and Balancing ("TAB") are services required as part of normal system maintenance and operations.
- On-call services are allowed in North Carolina and are used Statewide for securing professional services.
- Tasks under this contract may include professional design, engineering assessments and analysis, regulatory reviews, preparation of estimated quantities, construction cost estimates, award of bid, and construction administration
- Projects that may require these services include but are not limited to, construction support, renovation, repair or modernization.
- A qualifications based selection process was followed to procure these services. A request for qualifications was advertised on October 1, 2018, and six (6) firms submitted packages. A list of these firms and the offices submitting qualifications are listed below:

Firm	Office Location
Clark, Patterson, Lee	Greenville, South Carolina
Facility Strategies Group, PLLC	Fort Mill, South Carolina
McCracken & Lopez, P.A.	Charlotte, North Carolina
McGill Associates, P.A.	Asheville, North Carolina
Sud Associates, P.A.	Asheville, North Carolina
RMF Engineering	Charlotte, North Carolina

- The City's review team utilized a scoring matrix to assess the qualifications of the proposed firms based on submitted qualifications and experience of the firm and project team, relevant past projects, and the firm's ability to respond to on-call projects. The review team rated McCraken & Lopez, P.A. as the best qualified firm to perform this work.

- The City's standard procedure for on-call contracts is to enter into a no cost contract (i.e. Master Agreement) with the intent of entering into individual contracts (i.e. Supplemental Agreement) to perform specific activities and distinct work.
    - Each supplemental agreement for on-call professional services will be negotiated by staff based on the scope of work, contracted cost framework and specific project needs.
    - Staff anticipates that the majority of services rendered through the supplemental agreements will stay within the City Manager's approval authority. Cumulatively the contracts will exceed $90,000.
    - Supplemental agreements that exceed the City Manager's authority for professional services contracts of $90,000 will be brought to council for approval.
    - The duration of the Master Agreement for on-call professional services will be for an initial term of two years with an option to renew for up to three additional one-year periods.

Council Goal(s):
- Financially Resilient City
- Clean and Healthy Environment

Pro(s):
- A well-qualified firm will perform services in support of design services and engineering needs.
- These services will be available to support various programs and projects within the City's portfolio, including capital improvement projects, facilities construction and renovation projects.

Con(s):
- None

Fiscal Impact:
- Supplemental agreements for specific projects will be awarded based on existing budget plans for those projects.

Motion:
- Move to adopt a resolution authorizing the City Manager to continue entering into a professional services contracts with McCracken & Lopez, P.A. for design and engineering professional services under the on-call services Master Agreement described herein.

RESOLUTION BOOK NO. 40 - PAGE 410

K. RESOLUTION NO. 19-111 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND AND RENEW A CONTRACT WITH WASTE PRO OF NORTH CAROLINA, INC., TO PROVIDE BULK REFUSE AND RECYCLING COLLECTION FOR CITY FACILITIES

Action Requested: Adoption of resolution authorizing the City Manager to amend and renew Bulk Refuse and Recycling Collection Service for City Facilities with Waste Pro of North Carolina - Contract #91900046

Background:

- The City contracts collection of bulk waste (trash and recycling) with Waste Pro of North Carolina for various City facilities. The contractor provides and services receptacles (dumpsters, trash compactors) as needed by each facility.
- The original one-year contract in an amount not-to-exceed $89,999 ends 6/30/19, with the option of four (4) one (1) year renewals. This contract will be renewed and amended to reflect a new maximum amount to be paid to the vendor as not-to-exceed $360,000 over the next four optional annual renewal periods.
- This contract will also be amended to reflect a rate increase in Fiscal Year 2020 of 3.5% for all services; to update numbers of receptacles needed and frequency of service required; and to update the method by which annual CPI increases may be calculated.

Council Goal(s):
- A Clean and Healthy Environment

Committee(s):
- None

Pro(s):
- Provides for continuation of reliable waste services

Con(s):
- None

Fiscal Impact:
- Numerous individual departments have budgeted and allocated funding for their specific needed levels of service. Total Fiscal Year 2020 expenditures are estimated to be between $67,000 and $90,000, depending on the frequency of collection needed per department.

Motion:
- Motion to adopt a resolution authorizing the City Manager to amend and renew Bulk Refuse and Recycling Collection Service for City Facilities with Waste Pro of North Carolina for an amount not to exceed $360,000 over the next four (4) one-year optional renewal periods, and further authorizing the execution of any contract amendments up to 6% above the contract price for each annual renewal period.

RESOLUTION BOOK NO. 40 - PAGE 411

L. **RESOLUTION NO. 19-112 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE DOWNTOWN AFTER FIVE EVENTS**

RESOLUTION NO. 19-113 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT HAUTE ROUTE ASHEVILLE

RESOLUTION NO. 19-115 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE HALF MARATHON

RESOLUTION NO. 19-116 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT XPAND FEST

RESOLUTION NO. 19-117 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT HOLA ASHEVILLE

RESOLUTION NO. 19-118 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT CIDERFEST NC

Action Requested: Adoption of resolutions to permit the possession and consumption of malt beverages and/or unfortified wine at Downtown After 5, Haute Route Asheville, Beer City Festival, Asheville Half Marathon, Xpand Fest, Hola Asheville, and CiderFest NC.

Background:

- The following organizations have requested that City Council permit them to serve beer and/or unfortified wine at their events and allow for consumption at the events:
    - Asheville Downtown Association for Downtown After 5, to occur on Lexington Avenue on Fridays, May 17, June 21, July 19, August 16, and September 20, 2019, from 5:00 p.m. - 10:00 p.m.
    - Asheville Buncombe Regional Sports Commission for Haute Route Asheville to occur at Pack Square Park on May 17 and 18, 2019, from 11:00 a.m. - 5:00 p.m.
    - Asheville Brewers Alliance for Beer City Festival, to occur at Pack Square Park on June 1 from 12:00 p.m. - 5:00 p.m.
    - Asheville Running Collective for Asheville Half Marathon to occur at Pack Square Park on June 8, 2019, from 7:00 a.m. - 12:00 p.m.
    - Xpand Your Vision for Xpand Fest, to occur at Coxe and Buxton Avenues on June 8, 2019, from 12:00 p.m. - 10:00 p.m.
    - Hola Community Arts for Hola Asheville, to occur at Pack Square Park on June 22, 2019 from 12:00 p.m. - 10:00 p.m.
    - Green Built Alliance for CiderFest NC to occur at Carrier Park on October 12, 2019, from 12:00 p.m. - 5:00 p.m.
- Alcohol boundaries are defined for each request as per the accompanying event site maps.

Council Goal(s):

- These actions have no direct connection with the City Council 2036 Vision.

Committee(s):

- None

Pro(s):

- Allows fundraising opportunities for the sponsoring nonprofit organizations

Con(s):
- None

Fiscal Impact:
- None

Motion:
- Motion to permit the possession and consumption of malt beverages and/or unfortified wine at Downtown After 5, Haute Route Asheville, Beer City Festival, Asheville Half Marathon, Xpand Fest, Hola Asheville, and CiderFest NC.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. PRESENTATION OF THE FISCAL YEAR 2019-20 ANNUAL OPERATING BUDGET

City Manager Campbell was pleased to present the Fiscal Year 19-20 Annual Operating Budget. She thanked the Finance & Budget Department, Department Directors, those in the community who participated in the budget development process, and City Council. The budget document can be accessed on-line.

City Manager Campbell then explained that the budget process which began in August of 2018. In developing the budget, we were guided by the following overall principles of (1) essential service delivery; (2) enhancing customer value; and (3) strategic alignment. She said this is a balanced budget and reflects what we heard from the community, City staff and City Council.

Assistant Director of Finance Budget and Forecasting Tony McDowell reviewed the process drivers; financial outlook and forecast; next year investments; and what's ahead.

He reviewed the projected revenue growth, along with the five-year financial forecast.

The Fiscal Year 2019-20 proposed budget continues funding for existing services with minor enhancements that align with the community, City Council and staff goals. The budget

maintains a property tax rate of $42.89. The total proposed budget is $190.3 Million. He then provided a fund summary of the General Fund, along with the enterprise funds.

Investments in essential service delivery include (1) in-sourcing sidewalk repair and stormwater pipe replacement to enhance infrastructure maintenance impact and flexibility; (2) allocation for replacement of aging Asheville Fire Department equipment and station furnishings; and (3) body-worn and vehicle camera equipment, software and maintenance.

Investments in people include (1) 2.5% employee pay raise; (2) additional retirement contribution of 1.2%; (3) no additional healthcare contribution; (4) Class and Compensation Study; and (5) full year of funding for 6% 457 firefighter retirement program.

Investments to enhance customer value include (1) water system maintenance and security to minimize customer impact during service interruptions; (2) U.S. Cellular Center staffing reorganization and in-sourcing; and (3) Sanitation Code enforcement officer to identify and address sanitation issues.

Mr. McDowell also reviewed the Council's strategic priorities along with their strategic alignment.

Transit investments include (1) $20,000 service hours to increase frequency and realign existing routes (Purple, Green and Yellow options); (2) staffing to improve quality, on-time performance and customer experience; (3) bus maintenance to improve reliability; and (4) maintenance facility study.

Regarding capital investments (1) construction of Fire Station 13; (2) facility maintenance; (3) computer replacement; and (4) Walton Street pool and Grant center.

City Manager Campbell explained the next steps for the budget adoption. She said that planning for future years include (1) continue to improve and innovate operations; (2) review strategic partnership process; (3) continue community outreach and engagement efforts; (4) strengthen link between priorities and budget; and (5) evaluate capital funding options,i.e. possibility of a General Obligation Bond.

City Manager Campbell said that the Buncombe County Manager is recommending raising all County employees to $15/hour - which is approximately 13 individuals totalling $27,000. When she looked at raising all City employees to $15/hour, she said there were approximately 134 employees (including Fire Department employees) at a cost of approximately $489,591. She was in an awkward predicament in that she strongly wants to advocate for a salary adjustment for those individuals; however, we have not had the time to comprehensively look this change. If Council gave her direction to raise all employees to $15/hour, it would impact the entire organization and we would have to either reduce some other things, in particular reducing the 2.5% cost of living adjustment for all employees. Her recommendation was to make adjustments based on the results and findings of the upcoming Class and Compensation Study. She definitely wants to make salary adjustments; however, she wants to do it in a more holistic way which is also looking at benefits in addition to salary. If we don't look at it holistically, the compression will be a significant morale issue. The City employees currently earn a living wage and after the Class and Compensation Study is complete in the next fiscal year, she will bring forward her recommendations for Council consideration.

City Manager Campbell responded to Vice-Mayor Wisler regarding the timeframe and project scope for the $150,000 to be used for enhancing outreach services for people experiencing homelessness.

Councilman Young strongly advocated that in the Fiscal Year 2019-20 budget City Council should raise all employees up to $15/hour. He suggested the $489,591 come out of the proposed 2.5% cost of living raise to all employees, and then what is left over could be the cost of living adjustment to all employees. The individuals who are below $15/hour would get whatever would be greater - the $15/hour or the left-over adjustment. He didn't feel we needed to address the compression issue at this point. He reviewed the past year's cost of living increases to City employees and noted from 2012 to the present there have been cost of living adjustments. He was not saying he did not want to give employees a raise, but felt the employees under $15/hour should be brought up to $15/hour and then take whatever is left over and give that as the cost of living increase.

There was discussion regarding including raising employees to $15/hour in the Fiscal Year 2019-20 budget vs. giving the City Manager the opportunity to work through this holistically and bring back a recommendation to Council for the Fiscal Year 2020-21 budget.

Mayor Manheimer said that the public hearing on the budget will be held on May 28, 2019, and the final adoption will be held on June 11, 2019.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 20 BATTERY PARK AVENUE AND KNOWN AS THE FLAT IRON BUILDING FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/CONDITIONAL ZONING FOR THE RENOVATION OF AN EXISTING BUILDING TO INCLUDE A RESTAURANT, RETAIL SPACES, AND 80 LODGING UNITS

Planning & Urban Design Director Todd Okolichany said that this is the consideration of an ordinance to conditionally zone property located at 20 Battery Park Avenue and known as the Flat Iron Building from Central Business District to Central Business District Expansion /Conditional Zone for the renovation of an existing building to include a restaurant, retail spaces, and 80 lodging units. This public hearing was advertised on April 12 and 19, 2019. At the April 23, 2019, meeting, at the petitioner's request, the public hearing was continued to this date.

Action Requested: Consider a conditional zoning petition for property currently zoned Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ)

Project Location and Contacts:

- The project site consists of a 0.13 acre parcel located at 20 Battery Park Avenue (PIN 9649.30-3481) that is owned by Midtown Development Association LLC.
- Petitioner: Russell Thomas and Philip Woollcott; Contact: Chris Day.

Summary of Petition:

- The proposal is for the renovation of the iconic Flatiron building, an existing eight floor structure built in 1926 and designated as a local historic landmark. There is a small rooftop addition proposed and activation of the street level along Wall Street.
- The uses proposed are 80 lodging guestrooms with retail and restaurant spaces on the ground level.
- The petition includes a rezoning via conditional zoning from Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ) due to the lodging use, which is prohibited in the CBD.
- The project includes widening the sidewalk along Battery Park Avenue from between 15.5 and 25.5 feet with a maintained clear pedestrian path of at least eight feet.
- Streetscape improvements proposed along Battery Park Avenue include the conversion

of six existing angled on-street parking spaces to one (ADA) accessible parallel space and one enlarged loading zone (net loss of five metered parking spaces).

- The City will grant a license agreement at fair market value to the Applicant for the loading zone area, so that it may be used exclusively by the Applicant for hotel valet parking during specified periods of time.
- Plans also include relocating a crosswalk and creating a bulb-out in front of the flat iron sculpture for public gathering.
- Accessible pathways will be provided from activated entrances/exits along Wall Street (similar to other businesses along the block) but otherwise no streetscape or pedestrian improvements along this facade are included so as not to disrupt the cohesive aesthetic streetscape design in place along the entire length of Wall Street.
- Parking needs for lodging guests and visitors to the restaurant uses is proposed to be managed by a valet service.
- At the Planning and Zoning Commission hearing the applicant offered to donate two dollars per occupied room per night in perpetuity on an annual basis to the City to offset the lost revenue from the parking spaces that would be removed.
- The applicant is requesting the following conditions to be approved for this project:
    - Provision of a loading zone which would otherwise not be permitted on a Key Pedestrian Street or primary access corridor (Battery Park Avenue).
    - While the Unified Development Ordinance (UDO) requires that guest drop off areas shall be located at the interior of the site and not along the primary access corridor, the placement of this existing building results in the Applicant not being able to comply. The Applicant proposes to obtain an easement or license agreement from the City for fair market value in order to create a loading zone on Battery Park Avenue that could be used exclusively by the hotel during specified times. This proposal and condition have changed since the project was reviewed by the Planning and Zoning Commission.
    - A minimum of 40 parking spaces are required to be provided for the lodging use; however, the applicant cannot comply on-site due to their reuse of the existing structure. Off-site spaces will be secured at various locations that are likely to exceed the maximum distance allowed for remote parking (500 feet).
    - The sidewalk does not meet the district's minimum width of 12 feet along Wall Street and existing materials do not comply with accessibility standards.
- The applicant has submitted documentation that both parking and vehicle trip generation impacts for the proposed uses are projected to be less than the current uses housed in the Flatiron Building.
- The applicant has also offered free bus passes for all employees and hotel guests.

Comprehensive Plan Consistency:

- This proposal is largely consistent with the Living Asheville Comprehensive Plan in that the Future Land Use Section and Map encourages prioritizing pedestrian infrastructure and the adaptive reuse of historic buildings in Downtown. The plan also acknowledges that while lodging and hotels are part of what makes Downtown the primary commercial center of the city, they *"must be considered in context with other development so that the variety and mix of uses, which give downtown its distinctive character is not compromised."*
- There are at least 10 lodging facilities within less than ½ mile radius from this site and 2 hotels located directly across the street on the same block.
- While the goal of maintaining a balanced mix of uses downtown was noted in the list of concerns forwarded by the Downtown Commission and by several City Council members during public hearings for other lodging proposals over the past year, staff does not have objective criteria to use in making this determination for this proposal.

Compatibility Analysis:

- The historic building would be preserved with high quality upgrades completed according to the Secretary of the Interior's Standards and include essential life safety upgrades and the retention of active uses along the street-level of Battery Park Avenue.
- The use is compatible in a downtown setting; however, there are at least 10 lodging facilities within less than a half mile radius from this site with two hotels directly across the street on the same block.
- While the proposed on-street loading space and its use to support valet service for (off-site) parking management may add to congestion in the immediate area where double-parking and large amounts of loading/deliveries exist, parking impacts for lodging are projected to be less than the current office use.
- Proposed streetscape enhancements provide an enhanced pedestrian experience and enlarged public gathering spaces but come with a loss of 5 metered on street (public) parking spaces. This prioritizes the pedestrian as encouraged in the Comprehensive Plan.
- Trash collection is currently managed with roll-out bins on Wall Street; refuse impacts may increase with the new uses and impacts will be largely dependent on management by owners.

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Historic Resources Commission - November 14, 2018 - certificate of appropriateness issued
- Technical Review Committee - February 4, 2019 - approved with conditions
- Downtown Commission - February 8, 2019 - approved design review (7-3)
- Planning and Zoning Commission - April 8, 2019 - recommended approval (4-2)

Staff Recommendation:

- Staff finds that the public benefits of the project - including needed life safety upgrades and the overall rehabilitation and preservation of an iconic historic building in downtown, coupled with the conditions proposed by the Applicant that minimize impacts stemming from this change of use - outweigh staff concerns, and can recommend approval for this project.
- Staff notes that although this use may be well represented in the immediate area (with ten hotels within less than a half a mile of this site) that the City has not adopted specific criteria to determine when additional lodging will detract from the mix of uses that give it its "distinctive character" as described in the Comprehensive Plan.
- Additionally, while the parking and guest drop-off standards required by UDO for this use are an effective tool for minimizing impacts in new construction projects, it is not feasible for adaptive re-use projects, especially those in our dense, urban core.
- That the project proposal will displace small businesses from existing office spaces is also a concern, as the Comprehensive Plan places emphasis on "Promoting Small and Independent Business, Entrepreneurship, and the Maker Economy". Staff acknowledges that this displacement could occur with the advent of any rehabilitation proposal for this building, and is not tied to the proposed use.

Mr. Wyatt Stevens, attorney representing the Flatiron Preservation Group, said that this team has hired the very best experts they could hire to do the very best project. He showed a video which showed individuals talking about adaptive reuse, need to restore and preserve the historic building, cost of necessary repairs, etc. The Flatiron Building (1) has the original electrical system since 1926 which is not safe nor sustainable; (2) has an HVAC system that is at least 30 years old (boiler estimate that broke over the winter was $35,000). Fortunately Mr. Russell

Thomas, owner of the Flatiron Building, was able to get it working again; (3) has two human operated elevators (same as City Hall Building) but when they break down, parts must be custom-made and are expensive; (4) does not have an Americans with Disabilities Act handicapped accessible elevator; and (5) does not have a no sprinkler system. They had Beverly-Grant give them an estimate of what it would cost to keep the building as offices, even if it's not turned into a hotel, and their estimate is $10.5 Million. They can't economically sustain this building with office uses. The building has 24,179 square feet of rental office space. There is 6,600 of retail space. The owner is getting almost $30/sq foot for many of those offices; and $35/sq foot for the retail. If you maximize the income for the building, you get approximately $1 Million a year. Then you look at the basic costs to run the building and it's almost half of the revenue which generates roughly $500,000 in net income. The bottom line is the building can sustain itself for awhile, but this building needs help. No reasonable investor would purchase this building for offices. If the building remains as offices, renovations in the coming years will need to be done and the tenants will be displaced. Under this proposal, every existing tenant 6 months or longer will get the equivalent of a lump sum of 6 months to relocate. If they have been there for less than 6 months, then they would get a comparable amount of money. In the coming years he doesn't know where they would relocate, but now there is available and comparable space for them in downtown Asheville. If they spend the money for renovations, they can't rent it for what they are currently now charging. Regarding parking, a hotel would improve the parking situation - approximately 98 spaces needed in office use to 55 spaces for a hotel use. The developer has a contract for 25 spaces of surface lots, one of which is right behind the Sears alley deck (within 500 feet of the building). He has another total of 25 spaces in another surface lot just beyond the 500 feet limit. He has also secured 40 spaces for valet parking. There is less traffic associated with a hotel use. Currently there are 120 vehicle trip during the a.m. peak and 192 going back and forth in the afternoon. With a hotel, bar and restaurant, the vehicle trips drop to 103 during the a.m.peak and 115 in the afternoon. The reality is that parking and traffic go down with a hotel use. The property taxes currently paid on the building is $132,000/year and they anticipate $2.1 Million in 20 years. The $2 per night per room over 20 years, reduced to present value, generates over $500,000 for the City of Asheville. He felt this project makes business sense and common sense and asked for Council's vote in favor of the conditional zoning.

In response to Vice-Mayor Wisler, Mr. Thomas said the current rent per square foot in the building is blended at $27.43.

When Councilman Haynes asked how long has Ms. Thomas owned the building, Mr. Thomas replied 33 years.

In response to Mayor Manheimer, Mr. Thomas said his occupancy rate is approximately 85-87%.

In response to Vice-Mayor Wisler, Mr. Thomas said the building has been for sale for 2-2.5 years and they have received only one offer. He feels this offer will support the historic aspect of the building, which is extremely important to him.

Mayor Manheimer opened the public hearing at 6:48 p.m.

The following individuals spoke in support of the conditional zoning for several reasons, some being, but are not limited to: there is office availability in other buildings; to save the Flatiron Building will cost millions and only a hotel can cover that cost; this is an investment to restore an old building; this will assure the long-term health and viability of the beautiful and historic structure; displaced tenants will receive a check from the developer for their rent based on how long the business has been in the Flatiron Building; there are not a lot of developers willing or capable to take on a preservation project like this one; the developer will provide bus passes to employees and guests; downtown businesses need tourists to visit their shops; is in compliance

with the Living Asheville Comprehensive Plan; developer will hire locals for project; and unless there are massive fundraising efforts, rents will have to go up in the Flatiron Building to cover costs as historic preservation is very expensive:

Linda Stills, downtown business owner
Michael Faulkner, tenant in the Flatiron Building for almost 30 years
Evan Turnau, tenant in the Flatiron Building for 10 years
Chris Smith, Vice-President and Part Owner of Beverly-Grant
Karen Ramshaw, Public Interest Projects
John Kloeckner, employee at the Flatiron Building
Shannon Van Etten
Ken Jackson, local real estate builder and developer

The following individuals spoke in opposition of the conditional zoning for several reasons, some being, but are not limited to: loading issues; traffic issues; there are enough hotels in downtown Asheville; need to keep building that offers space for local businesses and offices; lack of off-site parking for guests and employees; displacing 80 small local business tenants; the City should do more to bring locals downtown instead of hotels; allowing another hotel downtown looks like locals don't matter; other historic buildings have survived and did not have to be converted into a hotel; we want a downtown where residents feel at home; the only option to convert this to a hotel for upkeep and maintenance is not credible; need to have a mixed-use building, with offices, housing and retail; other Flatiron Buildings around the country are not hotels and are still vibrant; if this hotel project is approved, within one block there will be 260 hotel rooms; and don't support this conditional zoning so that other options can be explored:

Andrew Fletcher, Downtown Commission member, but not speaking on their behalf
Casey Campfield, downtown business owner
Nina Tovish
Elizabeth Schell, downtown business owner
Abby Roach, Asheville Buskers Collective
Jerri Jackson
Ben Williamson, WNC Green Party and Asheville Democratic Socialist of America
Kathy Wienberg, representing 39 residential and 9 commercial owners at 21 Battery Park
Rik Schell, downtown business owner
Jan Zehr, who lives across from the Flatiron Building
Matilda Bliss
Pam Winkler, downtown resident and property owner
Sarah Benoit, business owner
Justin Neeman
A gentlemen
Deanna Williams
Kim Roney
Jane Hatley

Jonathan Wainscott suggested Council explore using the hotel tax for the preservation of the Flatiron Building.

Mayor Manheimer closed the public hearing at 8:32 p.m.

Mr. Stevens said that in the 1980's downtown Asheville was dead. Then the City invested in the Pack Place and the Grove Arcade and tried to preserve these historic buildings. Other groups came together and said we needed to resurrect our historic architecture. Then private investment followed. People started to renovate old buildings and putting their capital at risk. They invested in downtown and now in 2019 we have a vibrant downtown. People now

want to live downtown. This developer has offered a solution, at no cost to the City of Asheville, to restore an old building.

Councilman Kapoor supported the conditional zoning because he believed this is the best way to preserve this icon historic building for generations to come. Long term he could not see how the Flatiron Building can stay an office building with low rents. The building needs a sprinkler system and this put tenants as well as first responders at risk. The two elevators are so old the parts need to be custom made. The building is not Americans with Disabilities Act compliant and the building's heating and cooling system is nearing the end of its usable life. These items are necessary to fix and are expensive. Even if the building is renovated to offices, he couldn't see how the small businesses could pay the increased rent needed to fund the renovations. He would like to see this building be preserved long-term, and using it as a hotel is consistent with the Living Asheville Comprehensive Plan. The developer is willing to make these renovations and willing to provide the City $2 per night for occupied rooms in order to compensate for the loss of parking spaces and other parking impacts. All of this is without a dime of taxpayer dollars. Some are concerned with the oversaturation of hotels in the area. If it wasn't for his concern about the Flatiron Building preservation, he would have likely opposed a similar proposal. Some also are concerned about the parking. Currently all of the small businesses and their guests are parking somewhere now. In this case, the traffic engineer shows that this area would likely see a decrease in traffic for a hotel use. In addition, he feels there is a deliberate attempt to vilify people who earn their living in the tourist and hotel industry. People who work in tourism or have businesses who benefit from it aren't part of some machine. They are not a faceless entity, but are human beings. Hotel and restaurant workers and owners in Asheville are our neighbors. There are many issues that tourism raises, some are positive and some are negative. We need to be thankful of the many positive aspects and deal rationally with its negative aspects using facts and data.

Councilwoman Mayfield believes it is everyone's goal to preserve the Flatiron Building. This is a very difficult decision for her. She appreciates the developer using a local team and is a big fan of adaptive reuse. However, she is concerned about the other two hotels across the street; the conversion of public parking spaces to private use for loading and unloading; the off-site parking and valets running on our congested sidewalks; and displacement of small businesses. She hoped that the developer will look at pulling together people who don't agree with the proposal and find a path forward. She did not feel that the only way to make money in downtown is for property owners and developers to build hotels or convert buildings into hotels. Looking at other Flatiron buildings, she noted that a hotel is not the only use. She also felt that if the City values preservation, we should dedicate some funds for it.

Councilwoman Smith understood that this building has a sentimental value to our City; however, she didn't think that it aligns with our Living Asheville Comprehensive Plan. She felt there is an abundance of hotels in that section of the City, there is a loss of parking, and she did not want to displace any business owners.

Councilman Haynes felt that our downtown character will be further compromised with more hotels. He felt this project doesn't match the City's vision, nor does it following the Living Asheville Comprehensive Plan.

Councilman Young saw this as an opportunity for leadership, knowing that we want to preserve our community and also preserve the Flatiron Building. He agreed with Councilwoman Mayfield's comments and could not support this conditional zoning.

Mr. Stevens withdrew the application. He said they will talk as a community and reach out to their opponents to see if there is another way to save this building.

Mayor Manheimer struggled personally that a lot of people took a chance on Asheville a long time ago to buy a building in downtown Asheville and it doesn't seem fair to the people who made early investments not to let them make the most of those investments.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. DISCUSSION AND DIRECTION REGARDING CITY COUNCIL TRAVEL & TRAINING BUDGET AND PRACTICE

Mayor Manheimer said that the City has a City Council Travel Policy adopted in August of 2008. She said City Council has a total of $16,000 in their travel budget, which breaks down to approximately $1,900 for Councilmembers with a little more for the Mayor. This is being considered to possibly amend the policy and/or increase the travel budget for Councilmembers. In addition, Councilman Young asked for a specific request.

Councilman Young presented a resolution requesting additional funds for training purposes, pursuant to Resolution No. 08-175 of the City Council Travel Policy and Procedures. He said that he has been accepted into the Implementing Public Policy masters level certificate course at Harvard University. His implementation challenge is bonds, current and future, because the City of Asheville is looking at implementing a rolling bond program, and the political impacts to overcome. He said this is a 7-month program, with on-line learning and learning at Cambridge, along with an on-hands implementation process that happens in the City. He would come back and put together a team of individuals and work through some of the questions he has as an elected official in tackling some of the political aspects of the policy implementation and other barriers we may see to the success of that implementation challenge. He has been awarded a $4,000 scholarship from Harvard University; however, it does not cover the remaining $7,900. After completion of the course, the City will be able to use the productive network of professionals committed to improving public policy implementation around the world. Therefore, he requested additional funds for training in the amount of $7,900. Per Resolution No. 08-175, the quality of life for the citizens is improved through an informed and educated elected and administrative body and the expense of such training, including the associated travel is an appropriate municipal expense.

Vice-Mayor Wisler asked that the City's policies be kept up-to-date and to rename it, as it's not just a travel policy. She was not sure its the elected official's job to implement a policy. It's our job to make policy and staff's role to implement policy. And while she is sure this program is great and congratulated Councilman Young from being accepted, she didn't think was an appropriate use of funds for an elected official. When she asked staff if they felt this policy would cover this actual expense, she was told no. In addition, the dollar value of the expense is one that she didn't think City employees are allocated per year. She could not support the request.

Councilman Kapoor felt this is an educational reimbursement. The question is whether we, as Councilmembers, should have a policy that would provide for educational reimbursement. He can see some benefits and respected Councilman Young for wanting to better his education. He did not; however, feel comfortable in spending taxpayer dollars for. During our retreat where we did the five-year planning, we talked about this is the time to "close the bank". If we are asking other organizations to abide by this, we need to abide by that as well.

Councilman Young said this is not about him personally. It is a great benefit to the City. The City can utilize Harvard University and it's tools as well as well-educated individuals who not only create policy but know how to create policy that is not going to cause some severe cunumberances that we are dealing with now.

Councilwoman Mayfield felt that if this is not covered by the policy, we need to look at revising the policy. If we are going to make funding for this kind of thing available at this level, that needs to be an opportunity that becomes available to all Council and she didn't think we can afford that amount. She would like to increase the Council travel budget a little bit. She didn't see how this proposal is necessarily fair, in particularly for future councils unless we look at the policy comprehensively.

Councilwoman Smith felt this is a sensible ask. Personally, the part-time pay that Council is offered is not enough for the time we spend and the drain and strain on our families. But, it's a sacrifice we make. We do not have administrative support like other organizations and do not have an office space to even meet with constitutes or staff. There are a lot of disadvantages with serving, noting that City Council did not accept a raise last year. She sees this as a one-time payment with a long-term benefit of having Harvard as a resource for us to pull information and pull implementation strategies. She didn't agree that the same amount needed to be set aside for each Councilmember. There should be an amount of money set aside for these types of specialty trainings. It takes a lot of effort to reach the learning curve to be a leader of great affect. She felt we need to revisit the policy and factor in some type of set aside for this type of expense for personal professional leadership development for Councilmembers. She supported the additional funds requested.

Ms. Kim Roney said that even though our Council has really powerful conversations about living wage, they are not setting a good example if they don't paying themselves one.

Councilman Young moved to approve $7,900 additional funds for his training purposes. This motion was seconded by Councilwoman Smith and failed on a 3-4 vote, with Mayor Manheimer, Vice-Mayor Wisler, Councilman Kapoor and Councilwoman Mayfield voting "no".

At the suggestion of Vice-Mayor Wisler, it was the consensus of Council to have the Governance Committee revisit the City Council travel policy. Councilwoman Mayfield also suggested looking at the kinds of conferences and educational opportunities that are available to Councilmembers. Councilman Kapoor also noted that we can use some of this money to bring people to Council for a more cost effective way, like training in development roles.

Councilman Young could not think of a better university than Harvard to have a relationship with and agreed the City should revisit their training policy.

B. BOARDS & COMMISSIONS

RESOLUTION NO. 19-119 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Citizens-Police Advisory Committee.

Gene Bell (representative of the Housing Authority) has resigned from the Citizens-Police Advisory Committee, thus leaving an unexpired term until June 30, 2021.

The following individual applied for the vacancy: Robert Hooper.

Vice-Mayor Wisler moved to appoint Robert Hooper as a member of the Citizens-Police Advisory Committee (representative of the Housing Authority) to serve the unexpired term of Mr. Bell, term to expire June 30, 2021, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 433

RESOLUTION NO. 19-120 - RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Homeless Initiative Advisory Committee.

Donna Ball has resigned from the Homeless Initiative Advisory Committee, thus leaving an unexpired term until November 1, 2019.

The following individuals applied for the vacancy: Amber Banks, Josh Ivey, Annie Carpenter, Karen George, Shannon Watkins, Ellenore Holbrook, Sarah Tarpey, Patrick Casale, Patrick Gensert, Parker Smith, Rachael Bliss and Kelby Hartson Carr.

At the request of the Homeless Initiative Advisory Committee and the Boards & Commissions Committee, Vice-Mayor Wisler moved to appoint Parker Smith as a member of the Homeless Initiative Advisory Committee, to serve the unexpired term of Ms. Ball, term to expire November 1, 2019, and then a full three-year term, term to expire November 1, 2022, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 434

RESOLUTION NO. 19-121 - RESOLUTION APPOINTING A MEMBER TO THE HUMAN RELATIONS COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Human Relations Commission.

Ashley Cooper has resigned from the Human Relations Commission, thus leaving an unexpired term until June 1, 2020.

The following individuals applied for the vacancy: Stephanie Krucher, Grant Millin, J. Vann Vogel, Carol Buffum, Ivan Melchor, Celeste Fletcher, Michael L. Hayes, Britni Ness, Bettie Council and Ellenore Holbrook.

At the request of the Human Relations Commission and the Boards & Commissions Committee, Vice-Mayor Wisler moved to appoint Ivan Melchor as a member of the Human Relations Commission, to serve the unexpired term of Ms. Cooper, term to expire June 1, 2020, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 435

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Reid Thompson spoke about the commercial traffic in front of his house on Maxwell Street.

Ms. Deanna Williams expressed disappointment that the City of Asheville did not support her applying for the HUD Youth Homelessness Demonstration Program Grants.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:41 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – May 28, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RECOGNITION OF NEIGHBORHOOD HERO

Councilman Kapoor, liaison to the Neighborhood Advisory Committee, was pleased to present Ms. Sophie Dixon with the 2019 Neighborhood Volunteer of the Year Award. He said that this award was initiated in 2017 by the Neighborhood Advisory Committee. The award is designed to recognize and honor a city resident who has demonstrated significant and positive contribution toward a neighborhood association and/or commitment to strengthening city neighborhoods through volunteer time, talents and service, an unsung hero.

Ms. Sophie Dixon has resided in the Shiloh Community as an active resident and the Shiloh Community Association's president. At 81 years, in 2018 Ms. Dixon has tirelessly lead and facilitated: (1) Shiloh Community Association (SCA) Administrative meetings, Community meetings, SCA Executive board, the EW Pearson Collaborative Project meetings and the Community Marker meetings; and (2) An an intentional effort to build community between generational residents and new residents, she has been involved in welcoming Habitat for Humanity new homeowners into the community at their key ceremonies.

Under her leadership the community at large has benefitted from the efforts of the SCA which include many efforts, some being: (1) Installation of Stream Critters Mural and a "critter" mural project using field guides through the NC Arboretum; (2) Establishment of a Roadside Stand at the Shiloh Community Garden; and (3) Completion of the Shiloh Social Justice Mural.

Ms. Dixon is the perfect example of active retirement. She has shown us how you can make a large impact by simply offering your time and talents were you live, work, play and pray.

Ms. Dixon thanked for all the support she receives and was so thankful for this recognition.

B. PROCLAMATION PROCLAIMING MAY, 2019, AS "JANE'S WALK MONTH"

Councilman Haynes read the proclamation proclaiming May, 2019, as "Jane's Walk Month" in the City of Asheville. He presented the proclamation to Hanan Shabazz and Octavia Boozier who briefed City Council on some activities taking place during the month.

C. PROCLAMATION PROCLAIMING JUNE, 2019, AS "POLLINATION

CELEBRATION MONTH"

Councilman Young read the proclamation proclaiming June, 2019, as "Pollination Celebration Month" in the City of Asheville. He presented the proclamation to Dawn Chavez, Executive Director of Asheville Greenworks, and Phyllis Styles, who briefed City Council on some activities taking place during the month.

D. PROCLAMATION PROCLAIMING JUNE 3-9, 2019, AS "HEMP HISTORY WEEK"

Vice-Mayor Wisler read the proclamation proclaiming June 3-9, 2019, as "Hemp History Week" in the City of Asheville. She presented the proclamation to Timothy Sadler,and others, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 14, 2019

B. RESOLUTION NO. 19-122 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE THE INSTALLMENT LOAN CONTRACT WITH PNC BANK FOR THE ACQUISITION OF VEHICLES AND EQUIPMENT

Action Requested: Authorization of a resolution authorizing execution of an installment financing contract for Fiscal Year (FY) 2019 Capital Improvement Program (CIP) vehicles and equipment in an amount not to exceed $4,330,000.

Background:

- In April, the City distributed a Request for Proposal (RFP) seeking competitive bids for the installment loan financing to several money-center and local banks.
- Six proposals were received and reviewed. The most favorable proposal was submitted by PNC Bank with an interest rate of 2.28% per annum and a term of 59 months.

Council Goal: Financially Resilient City

Committee(s):

- Finance and HR Committee, April 23 & May 28, 2019 - recommendation to approve resolution

Pro(s):

- Provides funding of capital expenditures at a favorable interest rate.
- Spreads capital costs over several years of the purchased asset life.

Con(s):

- Increases the lifetime cost of the acquisition through interest and cost of issuance expenses.

Fiscal Impact:

- The annual debt service payments for this financing range between approximately $970,000 in the first year to approximately $882,000 in the fifth year. Funds are included in the City's debt service budget to cover the cost.

Motion:

- Motion to adopt the resolution authorizing the City Manager to execute the installment loan contract with PNC Bank for the acquisition of vehicles and equipment.

RESOLUTION BOOK NO. 40 - PAGE 436

C. RESOLUTION NO. 19-123 - RESOLUTION AN AMENDMENT TO THE ECONOMIC DEVELOPMENT AGREEMENT AND PURCHASE OPTION AGREEMENTS FOR WHITE LABS LOCATED AT 172 AND 174 S. CHARLOTTE STREET, ASHEVILLE N.C.

Action Requested: Adoption of a resolution to amend Economic Development Agreement and Purchase Option Agreement with White Labs, Inc.

Background:

- In January 2015, the City entered into an economic development incentive agreement with White Labs, Inc., a world leader in fermentation sciences for the brewing and winemaking industries, to open a new Asheville facility on City-owned property at 172 S. Charlotte Street under a five-year lease agreement.
- At the same time, White Labs executed a five-year option to purchase the property for 80% of the fair market value on the condition that jobs creation and investment numbers set forth in the economic development agreement were met.
- White Labs, Inc. has exceeded the jobs creation and investment numbers set forth in the agreement. As of 2018, White Labs employs 53 people and has invested over $11 million in the Asheville facility.
- In 2019, White Labs plan to add a Phase 2 to the Production Capacity at the existing facility to almost double production.
- As part of the overall economic development agreement, White Labs, Inc. also entered into shorter term option to purchase the adjacent City site at 174 S. Charlotte Street.
- The option for 174 S. Charlotte Street expired on May 1, 2019 and White Labs desires to extend for another year. The existing terms of the option state that White Labs has the exclusive option to purchase the adjacent 1.67 acre City-owned parcel for 80% of the fair market value if substantial additional improvements and jobs are committed to by White Labs, or for fair market value if no additional economic benefits are committed.
- White Labs, Inc. plans to purchase both sites in 2020 and bundle their financing to accomplish the transaction. They have created a company known as 172 S. Charlotte, LLC to purchase the real estate. This company will need to be included as a party to the economic development and option agreements with the City. During the one year extension, White Labs will determine if they are able to perform additional improvements and add jobs to obtain the 80% purchase price of the adjacent site, or if not, they will purchase the site with no additional commitments at fair market value.
- The property at 174 S. Charlotte Street includes land the City purchased in the 1970's and land that was part of Urban Renewal of East End. A portion of the revenue from the sale of the land at 174 S. Charlotte will go to the City's Community Development Block Grant (CDBG) Program as Program Income and be made available to the next funding cycle for eligible CDBG activities and the remainder of the funds will benefit the City's General Fund.

Council Goal(s):
- A Thriving Local Economy.

Committee(s):
- None.

Pro(s):
- Supports existing manufacturing in the City of Asheville.
- Leverages City-owned property to achieve job creation, capital investment and revenue from the sale of land to benefit the General Fund and the CDBG fund.

Con(s):
- None

Fiscal Impact:
- An additional non-refundable option fee of $10,000 will be paid upon execution of the amendment and will benefit the City's General Fund. If the Option is exercised on 174 S. Charlotte Street, then the City will receive the fair market value of the property or 80% of the fair market value plus economic development impact. Part of this revenue will go to the Community Development Block Program and part will go to the City's General Fund.

Motion: Move to approve an amendment to the Option Agreement for 174 S. Charlotte St. to extend it for an additional year to June 30, 2020 for an additional option fee of $10,000; to amend the Option Agreements for both 174 and 172 S. Charlotte Street and the Economic Development Agreement to include 172 S. Charlotte St. LLC as a party to these agreements; and to authorize the City Manager to execute any and all documents necessary to give effect to this resolution.

RESOLUTION BOOK NO. 40 - PAGE 438

D. RESOLUTION NO. 19-124 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH RSM US LLP FOR AUDITING CITY ACCOUNTS FOR FISCAL YEAR 2018-2019

Action Requested: Adoption of a resolution authorizing the Mayor to execute a contract with RSM US LLP for auditing City accounts for fiscal year ending June 30, 2019.

Background:
- North Carolina General Statute §159-34 requires that local governments have its accounts audited each fiscal year and submit a copy of the audit report and financial statements to the Local Government Commission. Staff recommends retaining the services of RSM US LLP to conduct an audit of the City's accounts for the fiscal year ending June 30, 2019.
- The estimated fee for fiscal year 2018-2019 audit is $95,760.
- Execution of this contract complies with the Audit Policy portion of City Council's Financial Policies which states that the City "shall enter into multi-year agreements of not more than five years in duration through a series of single-year contracts as consistent with applicable legal requirements."
- This will be the second consecutive year of contracting RSM US LLP to perform the City's audit.
- No competitive bid process was conducted this year.

Council Goal:
- Financially Resilient City

Pro:

- Contracting with RSM US LLP aligns with City Council's financial policy and will help ensure the timely and successful completion of the annual audit.

Con:

- None

Fiscal Impact:

- Fees of $95,760 for the annual audit are budgeted in the Internal Audit operating budget (Fiscal Year 2018-19).

Motion:

- Move to adopt a resolution authorizing the Mayor to execute a contract with RSM US LLP for auditing City accounts for fiscal year ending June 30, 2019.

RESOLUTION BOOK NO. 40 - PAGE 439

E. RESOLUTION NO. 19-125 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A RENEWAL ON-CALL CONTRACT WITH WOOD GROUP USA INC. FOR PROFESSIONAL GEOTECHNICAL AND ENVIRONMENTAL ENGINEERING SERVICES

RESOLUTION NO. 19-126 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A RENEWAL ON-CALL CONTRACT WITH S&ME INC. FOR PROFESSIONAL GEOTECHNICAL AND ENVIRONMENTAL ENGINEERING SERVICES

RESOLUTION NO. 19-127 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A RENEWAL ON-CALL CONTRACT WITH WES COLE LAND SURVEYING P.A. FOR PROFESSIONAL SURVEYING SERVICES

Action Requested: Adoption of a resolution authorizing the City Manager to renew on call contracts for professional engineering and land surveying services.

Background:

- On April 10, 2018, City Council authorized the City Manager to enter into on call professional service contracts for Geotechnical Engineering, Environmental Engineering, and Land Surveying services.
- On-call services are allowed in North Carolina and are used Statewide as a best practice for securing professional services.
- Tasks under this contract may include:
    - Geotechnical Engineering: Subsurface assessments, foundation testing, and other geotechnical services related to real property and/or redevelopment of real property; and
    - Environmental Services: Phase I and Phase II Environmental Site Assessments, Asbestos and Lead Paint Assessments, Remediation Design, Indoor Air Quality Assessments, Groundwater Testing and other Environmental services related to

real property and/or the redevelopment of real property.

- Land Surveying

- A qualifications based selection process was followed to procure these services.The following firms were selected as the best qualified for the respective professional services discipline listed below:
  - Wood Group, USA, Inc. (Asheville, NC Office, and formerly known as AMEC Foster Wheeler) was awarded Geotechnical Engineering and Site Environmental Engineering Services.
  - S&ME, Inc. (Asheville, NC Office) was awarded Building Environmental Engineer Services.
  - Wes Cole Land Surveying, PLS (Asheville, NC) was awarded Land Surveying.
- The City's standard procedure for on-call contracts is to enter into a no cost contract (i.e. Master Agreement) with the intent of entering into individual contracts (i.e. Supplemental Agreement) to perform specific activities and distinct work.
- The duration of each on-call service contract will be for one year with an option to renew for up to two additional one-year periods. This is the first renewal (second year) of the contract term.
- For this term, the total expenditure of the (individual supplemental agreements, and the cumulative sum of each) contracts will not exceed $250,000 for the Wood Group, and S&ME contracts, and $100,000 for the Wes Cole Land Surveying contract.

Council Goal(s):
- Financially Resilient City and Clean and Healthy Environment

Committee(s):
- None

Pro(s):
- A well-qualified firm will perform services in support of design services, analysis, and engineering needs.
- Well-qualified surveying firm will perform needed services in support of ongoing City real estate and facilities management.
- These services will be available to support various programs and projects within the City's portfolio, including capital improvement projects, facilities construction and renovation projects, and acquisition of real estate to support Council's strategic goals.

Con(s):
- None

Fiscal Impact:
- For the renewal term, these contracts will be established at a not-to-exceed amount of $250,000 for the engineering contracts, and $100,000 for the surveying contract. At the point in which a project, scope of work, and task cost are identified, the funds must be programmed and/or budgeted within the annual operating or capital project budget.

Motion:

- Move to adopt a resolution authorizing the City Manager to enter into professional services contracts with Wood Group, USA, Inc., and S&ME, Inc, for design and engineering professional services under the on-call services Master Agreement described herein.
- Move to adopt a resolution authorizing the City Manager to enter into professional services contracts with Wes Cole Land Surveying, PA professional land surveying services under the on-call services Master Agreement described herein.

RESOLUTION NO. 19-125 - RESOLUTION BOOK NO. 40 - PAGE 440
RESOLUTION NO. 19-126 - RESOLUTION BOOK NO. 40 - PAGE 441
RESOLUTION NO. 19-127 - RESOLUTION BOOK NO. 40 - PAGE 442

F. RESOLUTION NO. 19-128 - RESOLUTION AMENDING THE MEMBERSHIP OF THE CITIZENS-POLICE ADVISORY COMMITTEE

Action Requested: Adoption of a resolution amending the membership of the Citizens/Police Advisory Committee.

Background:
- The current CPAC membership includes the Chief of Police and APD Sergeant in Community Relations.
- The Chief may at times need to delegate important projects to other members of the leadership team and, therefore, requests the ability to designate a representative in his/her stead to help ensure the committee has the support required.
- Divisions within the department often change and officers often get promoted or change assignments. Specifying the rank and division of the representative not only would require multiple resolutions every time an officer or division changes, but limits the Chief's ability to designate the most appropriate person.

Council Goal(s):
- Connected and engaged community

Committee(s):
- The Citizens/Police Advisory Committee - April 3, 2019 - recommended adoption
- Boards & Commissions Committee - May 14, 2019 - recommended adoption

Pro(s):
- Provides flexibility for the Chief of Police in assigning appropriate police representatives to provide non-voting support to CPAC.

Con(s):
- None

Fiscal Impact:
- None

Motion:
- Move to adopt the resolution amending the membership of the Citizens/Police Advisory Committee to make the two non-voting Asheville Police Department (APD) representatives on the committee to be the Chief of Police or his/her designee and another member of the APD designated by the Chief of Police.

RESOLUTION BOOK NO. 40 - PAGE 443

G. RESOLUTION NO. 19-129 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH IBI GROUP, PC, TO PERFORM A FACILITY STUDY FOR THE CITY'S OPERATIONS & MAINTENANCE SERVICE CENTERS

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a professional services contract with IBI Group, PC to perform a Facilities Study for the City's Operations & Maintenance Centers in the amount of $278,000.

Background:

- The affordable housing bond study has identified that affordable and mixed-income housing is feasible on City-owned property located at 171-179 South Charlotte Street. Onsite, there are two major City service facilities - the Fleet Management Division and the Public Works Complex. In order to evaluate relocating these facilities, the City needs to understand the costs.
- The City recently completed a Facilities Condition Assessment that concluded that the Fleet Management facility would require significant investment to address deferred maintenance. Additionally, the Public Works department is quickly outgrowing the current complex in response to the needs of a growing City.
- Staff recommends that the City perform a Facilities Study for its Operations & Maintenance (O&M) Centers.
- Departments included in this study are Public Works, Fleet Management, the Fuel Station, Facilities Maintenance, and Parks Maintenance.
- The study will inform the City of the potential cost of relocation of O&M centers, help consider various service delivery models, and life cycle costs associated with a new site.
- A facilities study of this type would determine the space requirements for the existing O&M centers, identify future growth needs, analyze the operational and service delivery impacts of relocation, and provide the tools needed to evaluate new sites, along with the funding requirements and budgetary cost estimates for a new location(s).
- This firm was selected by a staff committee using a qualifications based selection process.

Council Goal(s):

- Quality Affordable Housing & A Financially Resilient City

Committee(s):

- Finance & Human Relations Committee - 1/8/2019 - Present to full Council - Fully funded through Affordable Housing Capital Improvement Program (CIP)

Pro(s):

- Funds a key study critical to implementing the Affordable Housing Bond Program.
- Performs a key planning task essential for an organization with a large facilities portfolio.

Con(s):

- None

Fiscal Impact:

- Total contract for the study is a negotiated fee of $278,000. Funding would be allocated from the existing budget of the Affordable Housing CIP funds. The need for the Operations and Maintenance Facilities Study has been created by the feasibility of affordable housing development on 171-179 S Charlotte Street site and therefore qualifies as an eligible expense.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a professional services contract with IBI Group, PC to perform a Facilities Study for the City's Operations & Maintenance Service Centers in the amount of $278,000. .

RESOLUTION BOOK NO. 40 - PAGE 444

H. RESOLUTION NO. 19-130 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND A PROFESSIONAL SERVICES CONTRACT WITH THE WOOTEN COMPANY TO ADD THE MODERNIZATION OF CITY HALL ELEVATOR #2

Action Requested: Adoption of an amendment to the professional services contract with The Wooten Company to add the modernization of City Hall Elevator # 2 (center elevator) up to an added cost of $29,820 for design fee and contingency, bringing the total project budget to $122,320.

Background:

- The elevators currently do not meet modern safety codes and have inoperable parts.
- City Hall historic elevators currently operate using custom fabricated parts that are no longer made and require costly maintenance.
- The historic elevators are protected as a part of the local landmark "Asheville City Building" designated by City Council Ordinance No. 1709 on September 20, 1988.
- The City of Asheville has completed the architectural design for the modernization of Elevators #1 and #3 through Contract # 91600198 with The Wooten Company.
- Originally, design of the modernization of Elevator #2 was not considered due to budgetary concerns.
- After reevaluating City Hall projects it was determined that money could be available to complete this work.
- The Contract Amendment requested will allow the City to bid Elevator #2 as an Alternate to the Base Bid to be considered for construction if the budget allows.

Council Goal(s):

- Financially Resilient City

Committee(s):

- None

Pro(s):

- Modernization of all three historic elevators will reduce overall operational lifecycle costs.
- Modernizing Elevator #2 at the same time as the other elevators will reduce the construction cost.
- There will be fewer elevator service interruptions over time if all three elevators are modernized.
- Elevator #2 may be bid as an Alternate, but does not have to be constructed.

Con(s):

- None

Fiscal Impact:

- The contract amendment and contingency for the entire contract totals $29,820. With this addition, the total design contract amount for the City Hall elevators will be $122,320, which is within the total design budget of $200,000.

Motion:

- Move to authorize the City Manager to amend the professional services contract with The Wooten Company to add the modernization of City Hall Elevator # 2 (center elevator) up to an added cost of $29,820 for design fee and contingency, bringing the total project budget to $122,320.

RESOLUTION BOOK NO. 40 - PAGE 445

I. RESOLUTION NO. 19-131 - RESOLUTION ACCEPTING THE ANNUAL FLOOD MITIGATION ACTIONS REPORT WHICH IS PART OF THE REPETITIVE LOSS AREA ANALYSIS, AND AUTHORIZING THE CITY MANAGER TO SUBMIT THE REPORT FOR THE COMMUNITY RATING SYSTEM PROGRAM

Action Requested: Adoption of a resolution accepting the annual Repetitive Loss Area Analysis report which identifies actions staff has taker over the past year as a member of the Community Rating System (CRS) Program.

Background:

- The City of Asheville joined the Community Rating System (CRS) program, a program through the Federal Emergency Management Agency (FEMA), and administered by the Insurance Services Office (ISO) in 2014. As required by the CRS program, a Repetitive Loss Area Analysis (RLAA) was prepared in 2014 by the consultation firm of Brown and Caldwell to supplement the Buncombe County-wide All Hazards Mitigation Plan.
- A Repetitive Loss Area (RLA) is defined as an area that contains one or more repetitive loss structures (two or more claims of more than $1,000 that have been paid by the National Flood Insurance Program (NFIP) within any 10-year period since 1978).
- CRS provides lower insurance premiums under the National Flood Insurance Program. The premium reduction is in the form of a CRS Class, City of Asheville is currently a Class 8. The classes are obtained by actions that are above and beyond the requirements of the National Flood Insurance Program administered by FEMA. Currently, property owners in Asheville receive a 10 percent reduction in their flood insurance premiums through participation in the CRS program.
- In order to maintain the current status in the CRS program, staff is required to provide to council the annual report of the Flood Mitigation Actions Items that were part of the RLAA report from Brown anc Caldwell adopted by Council on December 10, 2013.

Summary of Flood Mitigation Action Report:

- Flood hazard mitigation public outreach efforts include:
  - Extensive information on the city's website with links to interactive tools, properties, Biltmore Village Flood Response Plans, and searchable database of elevations certificates.
  - Outreach through CAPE prior to and during flood events, through social media.
  - DSD outreach to Flood Action Plan email list when under flood watch & warning, with links to FIMAN.

  - DSD staff regularly meets with residents and property owners whom have questions about flooding, impacts to their property, and options for flood mitigation.
- Public Works Department has teamed with the Army Corps of Engineers on a flood mitigation project at the Biltmore Avenue bridge which is currently in the design phase.
- Public Works Department has two projects addressing localized flooding. Edwin/Celia which is currently in the design phase, and the Morris Street stormwater improvement project which is in the final construction phase.
- The Public Works Department, Development Services Department and the Asheville Fire Department is utilizing the FIMAN website to assist in advance warnings for flooding. The City team utilizes the projections and can send out key messages to residents.

Council Goal(s):
- A Clean and Healthy Environment
- Thriving Local Economy

Committee(s):
- None

Pro(s):
- Property owners in Asheville will continue to receive a 10% reduction on their flood insurance.
- Provides higher level of protection through the current flood ordinance.
- Promotes public education of the Special Flood Hazard Areas.

Con(s):
- Considerable amount of staff time is necessary to maintain these requirements

Fiscal Impact:
- There is no additional fiscal impact to continuing the efforts necessary for the CRS program, staff time is currently programmed into the annual operating budget.

Motion:
- Motion to approve a resolution accepting the report prepared by City staff for the flood mitigation action associated with the repetitive loss area analysis report.

RESOLUTION BOOK NO. 40 - PAGE 446

J. ORDINANCE NO. 4743 - BUDGET AMENDMENT FROM THE N.C. DEPT. OF ENVIRONMENTAL QUALITY FOR WASTE REDUCTION OUTREACH

Action Requested: Adoption of a budget amendment in the City's Special Revenue Fund in the amount of $36,000 to program funding from the N.C. Department of Environmental Quality (NCDEQ) for waste reduction outreach in the amount of $30,000, and the City's match of $6,000 from the Green Savings program.

Background:
- On February 12, 2019, City Council adopted Resolution No. 19-26 authorizing the City Manager to apply for, and accept if awarded, grant funding from NCDEQ for the purpose of reducing contamination in the recycling stream and improving material quality in the amount of $30,000.
- NCDEQ selected the City of Asheville proposal for funding for Fiscal Year 2020.

- This Community Waste Reduction and Recycling grant requires a 20% match. The grant award is for $30,000. The match of $6,000 will come from the Office of Sustainability Green Savings. This budget amendment will move the matching funds from the Sustainability Fund to a project budget along with the grant funds.

Council Goal(s):
- A Clean and Healthy Environment

Committee(s):
- Finance Committee - January 22, 2019 - approved to apply and accept grant

Pro(s):
- Helps support the City's waste reduction goal while leveraging state funding.

Con(s):
- None

Fiscal Impact:
- A cash match of $6,000, or 20% of the requested grant funds of $30,000, will be provided from Green Savings. This budget amendment moves the matching funds and grant funds into a Special Revenue Fund budget.

Motion:
- Move to adopt a budget amendment in the City's Special Revenue Fund in the amount of $36,000 to program funding from the N.C. Dept. of Environmental Quality for waste reduction outreach in the amount of $30,000, and the City's match of $6,000 from the Green Savings program.

ORDINANCE BOOK NO. 32 - PAGE 370

K. RESOLUTION NO. 19-132 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A GENERAL SERVICES AGREEMENT WITH BIO-NOMIC SERVICES INC. FOR THE WATER TREATMENT PLANT SLUDGE REMOVAL PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a three-year General Services Agreement with Bio-Nomic Services, Inc. for the WTP Sludge Removal Project.

Background:
- The Water Resources Department (WRD) has historically taken WTP residuals, also known as "sludge" from all three water treatment plants to the Metropolitan Sewerage District (MSD) to be treated.
- MSD can no longer accept residuals from any water treatment facilities due to their new Air Quality Title V and renewed National Pollutant Discharge Elimination System (NPDES) permits.
- Buncombe County Landfill agreed to take the residuals for a period of two years while WRD and the consulting engineering firm (GHD) vet other treatment and/or disposal options.
- On March 4, 2019, the WRD issued a Request for Proposals (RFP) for work.
- The scope of services include, but are not limited to: pumping, dredging, conditioning, and dewatering of water treatment residuals (sludge) and the removal and disposal of produced solids from the North Fork, William DeBruhl, and Mills River Water Treatment Facilities.

- This project will dispose of water treatment plant residuals utilizing land application, which has a high nutrient value and can condition soil for improved fertilization and water retention.
- In response to the RFP, two proposals were received on March 25, 2019:
    1. Bio-Nomic Services, Inc. (Belmont, NC) - estimated total $257,180
    2. P&H Senesac, Inc. (Milton, VT) - estimated total $408,119.30
- The WRD requests authorization to contract with Bio-Nomic Services, Inc. for the estimated amount of $257,180 plus a 15% contingency in the amount of $38,577 for a total project budget in the amount of $295,757.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- This project will dispose of water treatment plant residuals utilizing land application, which has a high nutrient value and can condition soil for improved fertilization and water retention.
- Ability to continue to treat and deliver drinking water to COA customers.

Con(s):
- None

Fiscal Impact:
- The Water Resources Department currently has the funds needed for Year 1 of this agreement budgeted in the Water Resources - Water Production Operating Budget. Years 2-3 will follow the WRD's operating budget allocation of approximately $200,000 annually.

Motion:
- Move to adopt a resolution authorizing the City Manager to execute a three-year General Services Agreement with Bio-Nomic Services, Inc. for the WTP Sludge Removal Project.

RESOLUTION BOOK NO. 40 - PAGE 450

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. STATE OF THE AIRPORT

Mr. Lew Bleiweis, Airport Director, briefly updated City Council on the State of the Airport. He stated that 2018 was a milestone year for the Asheville Regional Airport. In 2018, they experienced record-breaking growth. The airport surpassed all projections and expectations,

exhibiting 19% of growth and contributing nearly $1.5 Billion to our local economy. For the first time in their history, the airport served over 1 Million passengers.

As they look to 2019, their dedicated team remains committed to upholding their mission to provide an exceptional airport experience with a focus on people, service, commercial and general aviation, and contribute to the regional economy.

Mayor Manheimer thanked Mr. Bleiweis and the entire Board for their hard work and efforts.

B. ASHEVILLE CITY SCHOOLS FOUNDATION - IN REAL LIFE AFTER-SCHOOL PROGRAM

Ms. Tiffany DE'Bellott and Brian Randall, In Real Life Co-Directors, and two students, updated City Council about the In Real Life (IRL) After-School Program. Ms. DE'Bellott said that in the summer of 2008 middle school students were involved in a shooting that left one student paralyzed. Research showed that many students during that time had nothing to do after school. The Asheville City Schools Foundation, the City of Asheville, Asheville City Schools District and the community at large came together for a listening project. IRL started in the fall of 2010 with 144 students. All students have access to opportunities after school, with over 10 options for students to choose from each day. The programs are inclusive and diverse. Forty-seven percent of students received free or reduced lunch. Parents can use one online portal, sign a form, call it in, and/or go through the school office to register for any program. They also provide transportation home and to offsite programs. Ninety percent of families in public housing rely on IRL transportation. The results of the City's investment include (1) removing the barriers to high quality programs; (2) decreased the opportunity gap - connected students to our city's organizations and industries; (3) kept our children safe while enhancing social/emotional and academic outcomes; and (4) recruit and retain providers of color to work with all youth.

They then showed the IRL demographics: 229 students attended for the 2018-19 school year; 184 students demonstrated social emotional growth; over 75% of students participating in academic based courses demonstrated growth; 44% of students of color enrolled in student school day support services; 25 service providers of color ran individual classes; and 20 service providers of color received a stipend.

Regarding cost effectiveness (60% of our families attend for free), (1) IRL operating costs are $1,000 per student ($3,178 National Average); (2) reduce the child care burden for working families; (3) partnership with ACS reduces overhead and transportation costs; and (4) the City of Asheville's investment increases training opportunities, leverages community resources, and stipends providers of color.

IRL partners and collaborates with over 45 community partners each year. IRL service providers develop, design, and disseminate their program of choice.

C. MANAGER'S REPORT

Charlotte Street Road Diet and Safety Improvements

Director of Transportation Ken Putnam explained that the purpose of this presentation is to update City Council and the community on the progress of the Charlotte Street Road Diet Project. As background, he said (1) on April 24, 2018, City Council adopted Resolution No. 18-93 authorizing the City Manager to direct staff to move forward with Charlotte Street improvements Option 1 (road diet) and Option 3 (spot safety improvements), as well as a review of zoning and land use along the corridor to identify possible changes that would enhance a multimodal

pedestrian-oriented experience; and (2) on November 13, 2018, City Council adopted Resolution No. 18-286 authorizing the City Manager to execute the design contract for the road diet and safety improvements on Charlotte Street. As outlined in the 2016 Asheville in Motion Mobility Plan, "with surrounding traditional neighborhood land uses, Charlotte Street needs a safer, walkable environment." The overall objective of the Charlotte Street Road Diet is to create a "more" complete street given the existing project constraints that could have a transformative impact on the safety and connectivity of the community. One hundred and seventy-four members of the public attended the first public meeting on February 19, 2019. Fifty members of the public attended the second public meeting on May 1, 2019. He then reviewed the corridor plan and what the public can expect. He showed a chart of the Corridor Plan feedback received from the community response survey.

Next steps include in June of 2019 (1) final plans complete; (2) continued property owner conversation; and (3) bid (advertise project for construction). In July-August of 2019, (1) bidding and contractor selection; (2) contractor coordination; and (3) online project updates. In September-December of 2019, (1) construction, schedule to be determined during contractor coordination; (2) construction administration; and (3) online project updates.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING ON THE FISCAL YEAR 2019-20 OPERATING BUDGET

City Manager Campbell said that this is a public hearing on the City of Asheville Fiscal Year 2019-20 Proposed Annual Operating Budget and inclusion of public input in City Council's consideration of the budget. This public hearing was advertised on May 17, 2019.

Background:

- The 2019-20 Proposed Annual Operating Budget was presented to City Council on May 14, 2019, and was balanced with an ad valorem tax rate of $0.4289 per $100 of assessed valuation (no change from the current rate).
- A copy of the Proposed Budget is available for public review in the City Clerk's office, as well as on the City's website (www.ashevillenc.gov).
- In accordance with the North Carolina Local Government Budget and Fiscal Control Act (G.S. 159-12), a summary of the Proposed Budget along with a notice of the public hearing was published on May 17, 2019. Adoption of the Fiscal Year 2019-20 Budget Ordinance is scheduled for June 11, 2019 at the regularly scheduled City Council meeting.
- The Proposed Budget may be changed by City Council in any way before adoption.
- It may also be changed by budget amendment after adoption, with the only exception being the ad valorem tax rate, which cannot be changed once the budget is adopted.

City Manager Campbell gave a brief process overview of the budget process, which started in August of 2018. The guiding principles were (1) essential service delivery - ensuring departments have the resources required to meet service delivery expectations; (2) enhancing customer value - ensuring efficient service delivery that improves the customer experience; and (3) strategic alignment - aligning resources (new and existing) to achieve community, Council and staff goals. The Fiscal Year 2019-20 proposed budget (1) continues funding for existing services with minor enhancements that align with community, City Council and staff goals; (2) maintains property tax rate (42.89-cents); and (3) totals $190.3 Million.

City Manager Campbell then did a brief review of major operating investments. For transit investments (1) 20,000 service hours to increase frequency and realign existing routes (Purple, Green and Yellow options); (2) staffing to improve quality, on-time performance and customer experience; (3) bus maintenance to improve reliability; (4) maintenance facility study; and (5) the 2020 estimate is an increase of $1.56 Million which is 30% over the current year. For investments in people (1) employee pay raise (2.5%); additional retirement contribution (1.2%); no additional healthcare contribution; (4) Class & Compensation Study; and (5) full year of funding for 6% 457 firefighter retirement program. In addition to employee pay raise, she recommended (1) Council direct staff to study compensating City of Asheville employees a base annual full-time salary of $31,200 (which is equivalent to $15/hour based on a 40 hour work week); (2) Apply this threshold to all permanent full-time, permanent part-time, and temporary/seasonal employees; (3) have staff direct the classification and compensation study consultant, in the first phase of the study, to provide the City with recommendations and costs for implementing this directive including any adjustments needed to address salary compression issues; and (4) have City Manager Campbell identify funding within this year's budget to begin implementation based on study recommendations.

For capital investments, there is (1) construction of Fire Station 13; (2) facility maintenance; (3) computer replacement; and (4) Walton Street Pool and Grant Center.

In summary, she said that planning for future years include (1) continuing to improve and innovate operations; (2) review strategic partnership process; (3) continue community outreach and engagement efforts; (4) strengthen link between priorities and budget; and (5) evaluate capital funding options.

Mayor Manheimer opened the public hearing at 6:15 p.m.

Many individuals spoke regarding the budget, with various comments, some being, but are not limited to: (1) fully funding the Transit Master Plan with extended hours; (2) funding the Urban Forest Master Plan and hiring an Urban Forester; (3) raise all City employees to $15/hour and pay current fair market value wages; (4) not removing a traffic lane on Charlotte Street; and (5) funding for staffing in Community & Economic Development to improve Minority Women Business Enterprise results related to the 2018 Disparity Study.

Mayor Manheimer closed the public hearing at 8:05 p.m. and said that adoption of the ordinance adopting the Fiscal Year 2019-20 Annual Operating Budget will be held on June 11, 2019, at which time no further public comment will be taken.

Closed Session

At 8:06 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit or potential lawsuit involving the following parties: PHG Asheville LLC vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:35 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 99999 VERDA VISTA CIRCLE FROM COMMERCIAL INDUSTRIAL DISTRICT TO RESIDENTIAL EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A 56-UNIT MULTI-FAMILY RESIDENTIAL BUILDING

ORDINANCE NO. 4744 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 99999 VERDA VISTA CIRCLE FROM COMMERCIAL INDUSTRIAL DISTRICT TO RESIDENTIAL EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A 56-UNIT MULTI-FAMILY RESIDENTIAL BUILDING

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located on 99999 Verda Vista Circle from Commercial Industrial District to Residential Expansion/Conditional Zoning for the construction of a 56-unit multi-family residential building. This public hearing was advertised on May 17 and 24, 2019.

Action Requested: Consider a conditional zoning petition for property currently zoned Commercial Industrial (CI) to Residential Expansion District Conditional Zone (RES EXP CZ)

Project Location and Contacts:

- The project site consists of a 3.21 acre parcel located at 99999 Verde Vista Circle (PIN 9658.52-9309) that is owned by Pike Real Estate Development, LLC.
- Petitioner: Mission Properties; Contact: Warren Sugg.

Summary of Petition:

- The proposal is for the construction of a new multi-family residential apartment building as an expansion of an existing development.
- The petition includes a rezoning via conditional zoning from Commercial Industrial (CI) to Residential Expansion District Conditional Zone (RES EXP CZ) due to the limited residential density permitted in the underlying zoning district.
- The proposed four-story building contains 56 dwelling units and is approximately 66,941 square feet in size.
- The project utilizes an internal connection to the existing development, which is accessed from Bleachery Boulevard via River Ford Parkway.
- Plans include a surface parking lot with 84 vehicular spaces which is within the range required based on the number of one and two-bedroom units.
- The project includes 10-foot wide walkways around the building and five-foot wide paths with stairs to connect this phase to the existing development as well as to Bleachery Boulevard.
- A five-foot wide sidewalk will be provided behind the existing street trees along the project frontage on Bleachery Boulevard to connect into existing sidewalk to the north and will extend in the opposite direction to the intersection with River Ford Parkway.
- The applicant will provide a transit stop with a pad, shelter and bench along the project frontage on Bleachery Boulevard.
- Landscaping and retaining wall screening as required by code will be provided on the site.
- The applicant is requesting the following conditions to be approved for this project:
    - Sidewalks and walkways are required to be 10 feet wide; the stairs that connect to the existing development and to Bleachery Boulevard are proposed to have a width of five feet; five feet is also the width proposed for the sidewalk along Bleachery Boulevard to match into the existing sidewalk along this corridor and to preserve street trees.
    - Open space requirements are satisfied via the amenities in the existing

development.
- Parking is not permitted between a building and the primary access corridor; the layout shows parking closer to Bleachery Boulevard due to topography and existing infrastructure, including a 42 inch storm pipe running through the site.

Comprehensive Plan Consistency:
- The Living Asheville Comprehensive Plan identifies this location as an Urban Corridor on the Future Land Use Map. This designation anticipates mixed-use development including higher density residential and emphasizes multi-modal access, sidewalks and transit facilities to enhance connectivity and the pedestrian experience. This project aligns with these goals.

Compatibility Analysis:
- The expansion of the existing residential development is compatible with the area as the form and layout is similar to other multi-family developments in the vicinity and is well sited proximate to a variety of commercial uses, employment and transit.
- The applicant has provided a pedestrian connection to and along Bleachery Boulevard and extended the sidewalk connection from River Ford Parkway down to the retail center. The applicant has also agreed to relocate and upgrade a transit stop.

Council Goal(s):
- A Well-Planned and Livable Community
- Transportation and Accessibility

Committee(s):
- Technical Review Committee - February 15, 2019 - approved with conditions
- Planning and Zoning Commission - May 1, 2019 - recommended approval (7-0)

Staff Recommendation:
- Staff supports this expansion of the existing residential development including the upgrades to pedestrian connectivity and transit. The conditions requested by the applicant are supportable as the sidewalk location preserves existing street trees and extends the existing streetscape layout in the vicinity of the site. Additional activation of Bleachery Boulevard is not practical due to the grade differential on the site.

Mr. Robert W. Oast Jr., attorney representing the developer, provided Council with a packet of information, in which he outlined some of the major features (1) one additional building of 56 units - 10% (6 units) affordable for 20 years; (2) 84 parking spaces; (3) sidewalks internal and connecting to Bleachery Boulevard; (4) provide transit stop and shelter on site; (5) use of River Ford Parkway by City vehicles; and (6) new units use all amenities. He said this is a good, uncomplicated project and urged Council to support it.

When Vice-Mayor Wisler pointed out that the 10% affordable units is not contained in the B.1 conditions, Mr. Oast said that they are agreeable to having that included in the B.1 conditions.

Councilwoman Mayfield noted that Phase 1 also contains 10% affordable units.

At 8:48 p.m., Mayor Manheimer opened the public hearing, and when no one spoke, she closed the public hearing at 8:48 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning request for Verde Vista Phase 2 from Commercial Industrial (CI) to Residential Expansion District Conditional Zone (RES EXP CZ) for the construction of a new building and site upgrades with an amendment to the B.1 conditions to include 10% (6 units) affordable for 20 years; and find that the request is reasonable, is in the public interest and aligns with the city's comprehensive plan in the following ways: (1) this is an expansion of an existing residential development; (2) the Future Land Use category is appropriate and supportive of this higher density residential use; (3) the project provides pedestrian connections along Bleachery Boulevard and an upgraded transit stop; and, (4) the proposal is aligned with strategies found in the city's comprehensive plan regarding activating the pedestrian experience, siting uses along corridors that are supported by transit and locating residential density proximate to other commercial uses, contributing to a mixed-use corridor. This motion was seconded by Councilman Haynes and carried on a 6-1 vote, with Councilman Young voting "no".

ORDINANCE BOOK NO. 32 - PAGE 372

C. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 1 SOUTH TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO MIXED USE EXPANSION/CONDITIONAL ZONE TO ALLOW A MIXED-USE DEVELOPMENT THAT INCLUDES RESIDENTIAL, RETAIL, SERVICE AND ENTERTAINMENT USES

At the applicant's request, Councilman Young moved to continue this public hearing until July 23, 2019. This motion was seconded by Councilman Haynes and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 19-133 - RESOLUTION APPROVING HARRAH'S CHEROKEE RESORT, AN ENTERPRISE OF THE EASTERN BAND OF CHEROKEE INDIANS, AS THE NAMING RIGHTS PARTNER FOR THE CIVIC CENTER (CURRENTLY THE U.S. CELLULAR CENTER)

Mr. Chris Corl, General Manager of the U.S. Cellular Center, said that he is requesting the selection of one of two bidding companies - U.S. Cellular Inc. or Harrah's Cherokee Resort, an Enterprise of the Eastern Band of Cherokee Indians - as the Naming Rights Partner for the Asheville Civic Center and to authorize the City Manager to direct City staff to initiate the necessary steps to enter into a naming rights license agreement with this company.

Background:

- November 22, 2011, City Council passed Resolution No. 11-228 approving the Mayor to execute a naming rights licensing agreement with U.S. Cellular Inc.
- U.S. Cellular Inc. naming agreement was valued at $150,000 annually with a total term value of $1,350,000.
- 100% of the funds generated from naming rights are used towards debt services from arena & common spaces renovations completed in 2011-14. The debt service on this renovation project sunsets in 2031. All naming license fee revenues must stay with the Center's enterprise funds.
- The agreement with U.S. Cellular expires on December 31, 2019, and all possible extensions have been executed.
- In compliance with the City's Naming Rights Policy adopted in March 2014, staff was authorized to issue a "call for interest" and begin the process of developing a new naming

rights contract by the Finance and HR Committee on July 24, 2018.

- Subcommittee Goals of the Naming Rights Agreement were provided to Council, with the mission being "to contract a licensing agreement with a notable company or individual that is culturally and socially compatible with the local community."
- The process included:
  - Informing U.S. Cellular Inc. of the planned naming rights process
  - Working with the Civic Center Commission and sharing information with the public, including holding a public meeting
- Staff communicated with (14) companies, and received two written proposals.
  - An extension proposal from U.S. Cellular Inc.
  - A new proposal from Harrah's Cherokee Resort, an enterprise of the Eastern Band of Cherokee Indians.

Proposal #1: U.S. Cellular Inc. Extension

- U.S. Cellular Inc. proposes a three (3) year initial term with a (2) year mutually agreeable extension opportunity.
- The annual licensing fee rate calculation continues the current agreement utilizing a 2% annual escalator for the duration of the term.
- Includes annual attendance bonuses equal to 5% of annual naming fee.
- Contract with U.S. Cellular Inc.

U.S. Cellular -	
Year 1	$ 168,858
Year 2	$ 172,235
Year 3	$ 175,680
Year 4	$ 179,194
Year 5	$ 182,777
Subtotal	$ 878,745
3 Year Initial Term	
2 Year Mutually Agreeable Extension	
*Does NOT include request for Naming of Civic Center Garage	
Naming Rights 'fee' subject to a 2% annual escalator	
Includes attendance bonuses annual if target attendance is met. Equal to 5% of annual naming fee. total term potential of $43,937	
Total Term Potential Value:	$ 922,682

Pros Proposal #1:

- Continues the brand of the facility that staff, venue partners and U.S. Cellular have been actively growing and promoting for nearly 9 years.
- Facility name is widely accepted throughout the community and the region.
- U.S. Cellular, as a naming partner has not historically required a significant amount of dedicated staff time annually.
- Does not require renaming of the Civic Center parking garage.
- Ability for strong marketing assistance regionally

Cons Proposal #1:

- Does not create any new revenue for the U.S. Cellular Center enterprise fund.
- Does not meet the goal annual naming fee mark of $500,000 per year
- Full funding of a video board and other necessary infrastructure will be significantly more challenging to secure.
- If U.S. Cellular Inc. offer is selected, Council should be prepared to support staff in aggressively pursuing other sources of funding towards the Thomas Wolfe renovation project.

Fiscal Impact Proposal #1:

- Relative to the existing agreement, this proposal would bring in an additional $128,745 in revenue over the next five years.

Proposal #2: Harrah's Cherokee Resort

- Harrah's Cherokee Resort proposes a five (5) year initial term with a five (5) year mutually agreeable extension opportunity.
- The annual licensing fee rate shall be $500,000 annually for the duration of the term.
- Includes a total of $750,000 in addition to the licensing fee in the first year for fan experience improvements and video board installation.
- Harrah's Cherokee Resort will reimburse the City for all signage, wayfinding, uniform etc. change outs associated with the name change up to $250,000. Any costs over and above $250,000 would be that of the City.
- Contract with, Tribal Casino Gaming Enterprise, a wholly owned instrumentality of the Eastern Band of Cherokee Indians.

Harrah's Cherokee Resort - an Enterprise of the Eastern Band of Cherokee Indians	
Year 1 - 5 ($500,000 annually)	$ 2,500,000
Years 6 - 10 ($500,000 annually)	$ 2,500,000
Subtotal	$ 5,000,000
5 Year Initial Term	
5 Year Mutually Agreeable Extension	
*Includes request for Naming of Civic Center Garage	
Year 1 - Additional $250,000 for 'fan friendly' Mutually agreeable improvements	
Year 1 - Additional $500,000 towards Video Board installation; USCC to cover remaining ~$550,000	
Year 1 - Additional up to $250,000 (capped) reimbursables for signage, uniform change outs etc.	
Total Term Potential Value:	$ 5,750,000
Total 5 Year Potential Value (direct comparison to U.S. Cellular)	$ 3,250,000

Pros Proposal #2:

- Approximately $3,000,000 in new funding, earmarked specifically for capital improvements at the Thomas Wolfe Auditorium

- $750,000 in 'new' funding, fan experience improvements including video boards.
- Greatly increases the total intellectual property value of the facility for future potential naming partnerships.
- The Enterprise has significant impact to WNC.
- Support in staff training.
- Ability for strong marketing assistance regionally.

Cons Proposal #2:

- Requires re-education of community, business clients, artists and promoters who utilize the facility related to the branding and advertising of events.
- Requires staff time to manage signage and brand exchange.
- Unknown amount of dedicated staff time to relationship.

Fiscal Impact Proposal #2:

- Relative to the existing agreement, this proposal would bring in an additional $3,000,000 in revenue over the next five years, and another $1,750,000 in years 6-10.

Council Goals

- A Thriving Local Economy
- A Connected and Engaged Community
- A Smart City

Committees

- On April 2, 2019, the Civic Center Commission voted 3 - 2 in favor of support for the U.S. Cellular contract extension.
- On April 12, 2019, the Downtown Commission was informally presented information concerning Civic Center naming rights. No action was taken. On May 23 the Downtown Commission held a called meeting to discuss naming rights of the venue and voted 6-1 in favor of accepting Harrah's Cherokee.

Mr. Corl said that you will see the name on (1) exterior signage: monument sign, pole banners, street and wayfinding signage; (2) receipts, ticket stock, uniforms; (3) credits/mentions etc. on local, regional, national and webstream broadcasts; (4) all event advertising; (5) venue website, City of Asheville website and the Asheville App; and (6) naming of the Civic Center parking garage (if approved by Council).

Mr. Chris Stokes, Director of Sales with U.S Cellular, spoke about U.S. Cellular and provided Council with the following PowerPoint. U.S. Cellular is the fifth largest full-service wireless carrier in the United States. It offers coverage where other carriers don't and a wide range of communication services that enhance consumers' lives, increase the competitiveness of local businesses and improve the efficiency of government operations. U.S. Cellular's business model, the Dynamic Organization, starts with leadership excellence which creates passionate associates, who in turn deliver the best customer service, leading to customer advocacy that produces superior business results. U.S. Cellular maintains one of the industry's highest customer satisfaction and loyalty ratings. Regarding community outreach, U.S. Cellular strives to build a connection with our communities that extends beyond its business by supporting a cause that strengthens every neighborhood where we live and work. We are committed to enhancing the learning experience for children and communities by championing K-12 and STEM educational programs. In 2019, U.S. Cellular announced a $1 Million donation to the Boys & Girls Clubs of America to provide K-12 STEM educational opportunities to youth for the fifth consecutive year. More than $38,000 has been donated to the Salvation Army Boys & Girls Club of Buncombe County for afterschool and academic enrichment programs. In 2019, U.S. Cellular donated $300,000 to JASON Learning, a STEM curriculum dedicated to helping students learn

how to become better "scientific thinkers" in their future careers. Shines a light on hundreds young humanitarians, under the age of 16, who go above and beyond to better their communities, by connected to the good in all of us. In 2019, U.S. Cellular awarded $160,000 to 16 young humanitarians to further their cause. Celebrates elementary to high school coaches who go above and beyond for their teams, schools, and communities, connecting to the good in all of us. In 2018, U.S. Cellular awarded $225,000 to 15 coaches and $80,000 in school grants. Coach Chris Metzger of Pinecrest High School in Southern Pines, N.C., was this year's winner. U.S. Cellular awarded his school a $50,000 grant. U.S. Cellular's naming rights sponsorships are only aligned with properties that enhance and strengthen their communities - U.S. Cellular Community Park in Medford, Oregon; U.S. Cellular Soccer Complex in Knoxville, Tennessee; U.S. Cellular Center in Asheville, North Carolina; and U.S. Cellular Center in Cedar Rapids, Iowa.

Mr. Brian Saunooke, Vice-President of Marketing for the Harrah's Cherokee Casinos spoke about Harrah's Cherokee and provided Council with the following PowerPoint. The Harrah's Cherokee brand is (1) Locally owned by the Eastern Band of Cherokee Indians; (2) A top southeastern tourism destination and one of the largest and most successful gaming operations in the country; and (3) a Corporate Citizenship. Regarding supporting the wellbeing of our employees, guests and local communities (A) Job Creation - 9,000 direct and indirect jobs, 3,600+ direct employees, $129M annual wages, and 5,400 indirect jobs; (B) Education - Fully paid scholarships for all tribal members for any institution and degree program, New K-12 school campus, Harrah's offers tuition reimbursement program for all employees, Harrah's paid Internship program, and Harrah's Cherokee Tribal Scholarship Fund; (C) Social/Health - Employee Benefits (Medical & dental insurance; Retirement/401K; and Free employee health clinics, employee wellness coordinator and programs); New hospital complex; Crisis stabilization unit; and Dialysis Center; and (D) Community Partner - Buncombe County partners include Alzheimer Association, American Red Cross, Asheville Area Chamber of Commerce, Blue Ridge Health Foundation., Blue Ridge National Heritage, Blue Ridge Pride, Care Partners Asheville, Children's Welfare League, Eliada Children's Home, Highland Brewing, Homeward Bound, Manna Food Bank, March of Dimes, No Barriers USA, Rotary Club of Asheville South, Project Sanctuary, and UNC- Asheville. Caring for our environment to preserve the quality of life on earth are CODE GREEN Initiatives - Property-wide recycling & composting; Energy saving LED swap, electric grounds equipment, housekeeping opt out incentive; Solar farm providing 10% of Murphy, NC property electricity; and Responsible meetings and events certification. Industry leads Responsible Gaming program - Operation Bet Smart; Project 21; National Helpline; and Self Exclusion. He presented the following two naming options - Harrah's Cherokee Center – Asheville; or Harrah's Cherokee Arena at Asheville.

Vice-Mayor Wisler moved to adopt a resolution approving the selection of Harrah's Cherokee, an Enterprise of the Eastern Band of Cherokee Indians as the naming rights partner for the Asheville Civic Center and authorizing the City Manager to direct City Staff to initiate the steps necessary to enter into a naming rights license agreement with them pursuant to N.C.G.S. 160A-272. This motion was seconded by Councilman Young.

The following individuals spoke in support of approving the selection of U.S. Cellular Center Inc. as the naming rights partner for the Civic Center:

Mr. Bill Jones, a member of the Civic Center Commission
Mr. Barney Bryant
Mr. Paul Van Heden
Mr. Dennis Justice

Mr. David Nutter spoke in support of approving Harrah's Cherokee Resort, an enterprise of the Eastern Band of Cherokee Indians, as the naming rights partner for the Civic Center.

Ms. Nina Tovish questioned if we have exhausted all opportunities to get others to bid on the naming rights.

Mr. Roy Harris suggested Harrah's build a museum beside the Civic Center to tell the history of Native Americans.

Mr. Jonathan Wainscott thought we should name the Civic Center after a native of Asheville or Buncombe County and suggested the Brad Daugherty Center.

There was discussion, initiated by Councilman Haynes, about possibly extending the U.S. Cellular Center contract for a year. Mr. Corl said that that extension was not on the table and also one that didn't generate enough value given City staff would have to restart the naming rights process again next month.

In response to Councilman Haynes, Mr. Corl said that if Council declines both offers, the process for removing the U.S. Cellular signage would begin in January of 2020 with an estimated cost of $200,000. In addition, the City would have to find other revenue sources to fund the Thomas Wolfe renovations and pay down debt service.

Councilwoman Mayfield felt that the name of the Civic Center matters a lot. The Civic Center Commission recognized that by including the language in their mission to contract a licensing agreement with a notable company or individual that is culturally and socially compatible with the local community. Asheville is a progressive City. Asheville celebrates the natural environment, arts, music, food, southern Appalachian culture and local. We also now celebrate beer; however, there is not an equivalency between Harrarh's and beer. The reason is that we are Beer City USA is because we have created a craft of making beer here. It is not about drinking. She would be happy to partner with the tribe in some way. The tribe is absolutely part of our culture in Asheville and Western North Carolina and it's a partnership we should work hard to build and develop. She would have supported naming the Civic Center something that reflected some aspect of Native American culture. She wanted to reject both offers because neither of them meet the criteria set out; however, her recommendation is that we go with the shorter term - the U.S. Cellular Center - and we try again to find a corporate partner that is compatible with our community and with our culture. Her recommendation has nothing to do with her seat on the Buncombe County Tourism Development Authority (TDA).

Vice-Mayor Wisler said that she is basing her decision on the generous payments that will help with the Thomas Wolfe Auditorium renovations. She felt the brand of Harrah's Cherokee will not confuse visitors that the Civic Center is a casino. The Cherokee organization is very visible already in this community and she hasn't seen any adverse effects from that highly visible presence. She thought it was disingenuous of local nonprofits to accept the very generous money from the Cherokke organization, but yet they don't want that name on a building.

Mr. Corl responded to Councilman Kapoor when he asked what this extra revenue will go towards and how he felt how either sponsor would feed into the larger need to raise additional dollars to renovate the entire building.

Councilman Kapoor was concerned about how we fund the Thomas Wolfe Auditorium renovations. He noted that if we sponsor with Harrah's Cherokee, then at the end of five years term, the City or Harrah's Cherokee can decide whether or not to extend the term another five years.

Councilman Young said that the City of Asheville is the economic driver of all of Western North Carolina (WNC) and municipalities in WNC have economic success based on tourism that comes to Asheville. So, he felt that everyone piggy-backs off the success of Asheville.

Regarding the TDA weighing in on the naming rights sponsor after two bids were received, he felt they should have put in a bid. He felt there is no moral superiority on what Asheville's brand is, because when you go around the country and you say "Asheville" people automatically say "Beer City USA." He felt that having naming rights of a venue is about money and being able to put our facilities in good working conditions so we can continue to have events and renovate the Thomas Wolfe Auditorium. He felt the amount of financial support that Harrah's will be able to provide and our ability to keep future programs in the City and will be beneficial in the long-run.

Mayor Manheimer appreciated both entities for putting in a bid for the naming rights. She is satisfied that we have exhausted all opportunities. Staff has taken this through a very thorough and professional process. We are not as big a player in the naming rights business so we are fortunate to have some options to pick between. When you hear the budget discussions, these facilities take great subsidy to continue to keep it operating, even though it hosts all the events and people pay for tickets to attend there - there is still a great cost to run a facility like this. We must continue to offer amenities in our community as they are gathering places for people to see each other, spend time together and bring great quality of life. Since Asheville property tax payers have to help subsidize some of our facilities we are trying to be creative in looking for other ways to provide funding to keep those facilities up. We want to start to address the Thomas Wolfe Auditorium.

The motion made by Vice-Mayor Wisler and seconded by Councilman Young carried on a 6-1 vote, with Councilwoman Mayfield voting "no".

On behalf of the City of Asheville, Vice-Mayor Wisler thanked U.S. Cellular for coming forward years ago to help us start the process of naming rights. They have been a great partner over these years and she thanked them for their relationship with the City and the U.S. Cellular Center.

RESOLUTION BOOK NO. 40 – PAGE 451

B. REQUEST TO NAME POLICE HEADQUARTERS IN MEMORY OF FORMER POLICE LIEUTENANT WALTER ROBERSON

Action Requested: Announcement of a request to name Police Headquarters located at 100 Court Plaza in memory of former Police Lieutenant Walter Robertson.

Background:

- Pursuant to the City's public property naming policy, Councilman Keith Young has requested Police Headquarters be named in memory of former Police Lieutenant Walter Robertson.
- Mr. Robertson was an Asheville native and graduated from Lee Edwards High School.
- Mr. Robertson was a decorated Army veteran of the Vietnam War in which he earned several campaign medals, including the Purple Heart;
- Mr. Robertson was the first African American Lieutenant in the history of the Asheville Police Department.
- Mr. Robertson dedicated 30 years to law enforcement, diligently serving Asheville residents with pride and honor.
- Mr. Robertson was well respected and admired by the community.
- Mr. Robertson was a mentor to many and was actively involved in the program "Getting Back to Basics," to assist economically disadvantaged families.

Council Goal(s):

- Well-Planned and Livable Community

- Diverse Community

Committee(s):
- None

Pro(s):
- Honor a mentor to current and former Police officers alike.
- Recognize Mr. Robertson's leadership as a good servant of the public's well-being and safety

Con(s):
- None

Fiscal Impact:
- It is estimated that a plaque and installation may cost up to $10,000. Funding will come from the City Manager's Contingency budget.

Councilman Young moved to solicit input from the public on naming Police Headquarters located at 100 Court Plaza in memory of former Police Lieutenant Walter Robertson. This motion was seconded by Councilwoman Smith and carried unanimously.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Reid Thompson, Ms. Velvet Hawthorne and Mr. Joe Minicozzi spoke regarding commercial traffic on Maxwell Street and the City's lack of issuing Whole Foods a Notice of Violation.

Mr. Todd Stimson spoke about the medicinal benefits of hemp.

Ms. Lowell Sopcisak spoke about health issues faced by the City and urged Council to stop the rollout of 5G and not allow it in Asheville.

Ms. Kim Roney suggested Council consider moving their meeting to a larger room when they anticipate large crowds with child care, Spanish and Russian translation services.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 10:29 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – June 11, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

At the request of Mayor Manheimer, a motion to allow the electronic attendance of Mayor Esther Manheimer at the June 25, 2019, City Council meeting was added to the Consent Agenda.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 28, 2019

B. RESOLUTION NO. 19-135 - RESOLUTION AUTHORIZING THE CITY MANAGER TO DIRECT STAFF TO PREPARE AND SUBMIT APPROPRIATE INFORMATION TO THE N.C. DEPT. OF TRANSPORTATION TO BE FORWARDED TO THE FEDERAL HIGHWAY ADMINISTRATION FOR CONSIDERATION AND APPROVAL OF ACTIVITY CATEGORY A LAND USE DESIGNATION FOR RIVERSIDE CEMETERY

Action Requested: Adoption of a resolution authorizing the City Manager to direct staff to prepare and submit appropriate information to the N.C. Dept. of Transportation (NCDOT) to be forwarded to the Federal Highway Administration (FHWA) for consideration and approval of Activity Category A land use designation for Riverside Cemetery.

Background:

- Procedures for noise studies and noise abatement measures are intended to help protect the public's health, welfare, and livability.
- The FHWA Noise Standard (23 CFR 772) and the NCDOT Traffic Noise Policy applies to any highway project that is funded by federal-aid highway funds in North Carolina.
- A traffic noise analysis is completed for each alternative under detailed study and for each noise abatement criteria activity category listed in Table 1 of the federal noise standard.
- Activity Category A includes lands on which serenity and quiet are of extraordinary significance and serve an important public need and where the preservation of those qualities is essential if the area is to continue to serve its intended purpose.
- The FHWA makes the final determination regarding Activity Category A designations.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- Recreation Board - May 13, 2019 - approved unanimously
- Planning & Economic Development Committee - May 13, 2019 - approved unanimously

Pro(s):
- Places a more restrictive traffic noise level threshold on the property.
- Would apply to the I-26 Connector project.

Con(s):
- This designation has been given to only two locations in the United States so it is very difficult to achieve.

Fiscal Impact:
- There is no known fiscal impact.

Motion:
- Staff recommends that City Council adopt a resolution authorizing the City Manager to direct staff to prepare and submit appropriate information to the NCDOT to be forwarded to the FHWA for consideration and approval of Activity Category A land use designation for Riverside Cemetery.

RESOLUTION BOOK NO. 40 - PAGE 454

C. RESOLUTION NO. 19-136 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH TAG CONTRACTING INC. FOR THE VICTORIA ROAD SLOPE STABILIZATION PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with TAG Contracting, Inc. in the amount of $168,387.00 and authorize the City Manager to approve an additional contingency amount of $33,677.40 (20%) for a total of $202,064.40, for the Victoria Road - Slope Stabilization Project.

Background:
- The contract was advertised on April 30, 2019, with an original Bid Opening scheduled for May 13, 2019.
- Bids were not opened on May13, 2019, due to only receiving one bid.
- With advertising this contract as a formal contract, the requirement per city policy and general statute is that we cannot open bids on the first advertisement unless we receive three bids. The contract must then be re advertised for a minimum of seven days.
- During the second bid opening, according to general statute the city may open bids with even one bid received.
- We then re-advertised the contract on May 14, 2019, and with only receiving one bid for the second opening, the City could legally open the bids with only receiving one bid.
- Bid was opened on May 22, 2019, after receiving one bid - TAG Construction, Old Fort, NC.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):

- The contract will complete the stabilization work required to stabilize the slope adjacent to Victoria Road a main road used by AB Tech, Mission Hospital, Asheville High School and other residents and business owners in the area.
- The contract is to prevent a much larger slide that would likely require the closing of part or all of Victoria Road.

Con(s):
- Construction will be disruptive to adjacent residences and businesses. Efforts will be made to minimize disruptions.

Fiscal Impact:
- Funding for this contract is budgeted in the Stormwater Utility Fund Capital Improvement Program.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a contract with TAG Contracting, Inc. in the amount of $168,387.00 and authorize the City Manager to approve an additional contingency amount of $33,677.40 (20%) for a total of $202,064.40, for the Victoria Road - Slope Stabilization Project.

RESOLUTION BOOK NO. 40 - PAGE 455

D. RESOLUTION NO. 19-137 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH GHD CONSULTING SERVICES INC. FOR THE MILLS RIVER WATER TREATMENT PLANT ROOF PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a change order for GHD's engineering services on the Mills River Roof Replacement Project.

Background:
- The Mills River WTP was completed in 1999.
- During construction the need for replacement of five (5) indoor air handling units and their associated outdoor condensing units was identified
- Replacement for 20 year old air handling units is not "in kind" replacements. Staff required guidance on the specifications.
- Additional design of access ladders with platforms at the Intake Structure and Raw and Finish Water Pumping Building was also added to the project for staff safety and maintenance accessibility.
- GHD Consulting service was originally hired to supervise this work.
- The original contract requires an extension as a result of delays due to inclement weather.
- Additional construction management and inspection services are required to provide oversight for above items that have been added to the original scope of work resulting in a request for a change order at a cost of $96,720.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):

- This project will finish repairs that needed to be made to the Mills River Water Treatment Plant in order to operate the plant efficiently, reliably, ensure sustainability and safety.

Con(s):
- None

Fiscal Impact:
- Water Resources Department currently has funds set aside in the Capital Improvement Program budget for this project and contingency.

Motion:
- Move to adopt a resolution authorizing the City Manager to execute a change order with GHD Engineering for $96,720.

RESOLUTION BOOK NO. 40 - PAGE 456

E. RESOLUTION NO. 19-138 - RESOLUTION AMENDING THE CITY COUNCIL RULES ON BOARDS AND COMMISSIONS TO PROVIDE CITY COUNCIL DISCRETION TO ALLOW MEMBERS OF CERTAIN BOARDS, APPOINTED BY THE CITY COUNCIL, TO SERVE MORE THAN TWO TERMS UNDER CERTAIN CIRCUMSTANCES

Action Requested: Adoption of a resolution amending the City Council Rules on Boards and Commissions to provide City Council discretion to allow members of certain boards, appointed by the City Council, to serve more than two terms under certain circumstances.

Background:
- Per the City Council's Rules on Boards and Commissions, a term of service on all City boards shall be limited to three years or less, unless otherwise provided by law; and, a length of service on all boards and commissions shall be limited to two full successive terms.
- Certain boards are creations of state laws which mandate two-year terms for board members. Boards created by state law often exercise quasi-judicial functions that require expertise and experience, and can be difficult to fill.
- The proposed amendment would allow City Council to waive the limit of two-full successive terms, for board members appointed by the City Council, for boards created by statute after weighing the following factors: 1) term lengths; 2) level of desired board expertise and experience; 3) matters pending before the board; and 4) additional terms would contribute to board stability and continuity.

Council Goal(s):
- Connected and engaged Community

Committee(s):
- Boards and Commission Committee - June 11, 2019

Pro(s):
- Limit vacancies on certain boards.
- Ensure board stability and consistency.

Con(s):
- Potential for a member to serve an extended period of time at the cost of recruiting a new member.

Fiscal Impact:
- None

Motion:
- Motion to adopt resolution to revise the Boards and Commissions Rules of Procedure to allow City Council the discretion to allow members of boards to serve more than two terms under certain circumstances.

RESOLUTION BOOK NO. 40 - PAGE 457

F. ORDINANCE NO. 4745 - BUDGET AMENDMENT RELATED TO ASHEVILLE POLICE DEPARTMENT AUTO INSURANCE RECOVERY FUNDS

Action Requested: Adoption of a budget amendment in the General Capital Projects Fund in the amount of $15,074.59 from insurance funds received from damaged Asheville Police Department (APD) vehicles to utilize towards APD vehicle or equipment replacement.

Background:
- Since July 1, 2018, the City of Asheville Risk Management Division (City) has recovered $15,074.59 form 3rd party at-fault motor vehicle accidents with APD vehicles.
- The City seeks to allocate these insurance recovery funds to APD to utilize towards APD vehicle replacement or equipment.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- Allocate APD auto insurance recovery funds to APD for utilization.

Con(s):
- None

Fiscal Impact:
- Transfer $15,074.59 in reimbursed insurance claims revenue received in the Property & Liability Fund into the General Capital Project Fund for APD vehicles/equipment.

Motion:
- Move to adopt a budget amendment in the General Capital Projects Fund in the amount of $15,074.59 from insurance funds received from damaged APD vehicles to utilize towards APD vehicle replacement or equipment.
-

ORDINANCE BOOK NO. 32 - PAGE 379

G. RESOLUTION NO. 19-139 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BRYANT'S LAND AND DEVELOPMENT SERVICES INC. FOR THE PHASE 3 BOND RESURFACING PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Bryant's Land and Development Industries, Inc. in the

amount of $2,487,426.50 plus a contingency of $497,485.30 (20%) for a total of $2,948,911.80 for Phase 3 Bond Resurfacing.

Background:

- Brooklyn Road, Cisco Road and Kenilworth Road were chosen for resurfacing under Phase 3 of the Bond Resurfacing Program. These roads were chosen because their condition and length made the roads too costly to fully repair under the City's annual resurfacing program. Brooklyn Road and Kenilworth Road will also receive sidewalk repairs.
- The contract was advertised on April 26, 2019, and bids were opened on May 16, 2019. The results were as follows:

Bryant Land and Development Services, Inc. of Burnsville, NC	$2,487,426.50
French Broad Paving, Inc. of Marshall, NC	$2,492,350.00
Harrison Construction, Inc. of Asheville, NC	$2,789,833.50

Council Goal(s):

- Transportation and Accessibility
- Smart City

Committee(s):

- None

Pro(s):

- The contract will resurface approximately 3.1 miles of City streets.
- The contract provides repairs for sidewalks on Brooklyn and Kenilworth Roads.

Con(s):

- Construction will be disruptive to adjacent residences and businesses. Efforts will be made to minimize disruptions.

Fiscal Impact:

- Funding is coming from the 2016 General Obligation Bond approved in November, 2016. The total maximum cost of this contract, including contingency, is $2,948,911.80 .

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Bryant Land and Development Services, Inc. in the amount of $2,487,426.50 plus a contingency of $497,485.30 (20%) for a total of $2,948,911.80 for Phase 3 Bond Resurfacing.

RESOLUTION BOOK NO. 40 - PAGE 463

H. ORDINANCE NO. 4746 - BUDGET AMENDMENT TO ALLOW ADDITIONAL EXPENSES RELATED TO NEW PROTERRA ELECTRIC BUS PURCHASES

Action Requested: Adoption of a budget amendment in the amount of $216,000 from the General Capital Projects Fund to the Transit Capital Projects Fund to allow for additional expenses related to new Proterra electric bus upfitting.

Background:

- The Transit Services Capital Fund includes $3.63M or the purchase of 5 new Proterra electric buses, including battery (lease), chargers, and charging station installation.
- An additional $216,000 is needed to fund items that were not included in the original budget and/or that have exceeded the initial estimate.

- The additional funding is needed to purchase 5 fareboxes and software that were not originally included in the budget because staff thought fareboxes from the old buses could be reused in the new buses.
- Additional funding is also needed for vehicle registration fees and design/construction costs for the charger installation slightly exceeded the original estimate.
- Additional funding to add acceleration and brake pedal extenders to all 5 buses.
- Additional funding to purchase and install Swiftly GPS trackers on all 5 buses.
- Staff is recommending that the additional funding be taken from the FY 2018-19 General Capital Projects CIP contingency. Since this budget change involves moving funds from one fund to another, Council action is required to approve the budget amendment

Council Goal(s):
- A Financially Resilient City

Committee(s):
- Finance & Human Resources Committee - February 26, 2019 - approved unanimously

Pro(s):
- Provides the needed funding to complete the upfitting of 5 new Proterra electric buses and put those buses into service.

Con(s):
- Requires the use of $216,000 in funding from the FY 2018-19 CIP contingency.

Fiscal Impact:
- As noted above, staff is proposing to transfer $216,000 in funding from the FY 2018-19 CIP contingency to cover the additional costs associated with this project.

Motion:
- Motion to adopt a budget amendment in the amount of $216,000 from the General Capital Projects Fund to the Transit Capital Projects Fund to allow for additional expenses related to new Proterra electric bus upfitting.

ORDINANCE BOOK NO. 32 - PAGE 380

I. **RESOLUTION NO. 19-140 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A NEW ONE-YEAR MEMORANDUM OF UNDERSTANDING WITH THE FRIENDS OF THE NATURE CENTER**

Action Requested: Adopt a resolution authorizing the City Manager to execute a new one year Memorandum of Understanding with the Friends of the WNC Nature Center, Inc. ("Friends"), on behalf of the City of Asheville.

Background:
- Since 2005 the City of Asheville and the Friends of the Nature Center have participated in a Memorandum of Understanding (MOU) that describes the relationship between the two parties.
- The purpose of the agreement was for the City, as the owner of the Nature Center, to establish the respective roles of the Friends as the official membership and support organization for the Nature Center as approved by City Council.
- The City retained ownership of the membership program and designated the Friends as the official fundraising support organization supporting the mission of the Nature Center.
- In 2017, the City of Asheville entered into a lease agreement with Friends of the WNC

Nature Center.

- The primary role and responsibility of the Friends is to assist the Nature Center raising funds for financing education and conservation programs, development, expansion, renovation, and operation of the Nature Center facilities.
- The Fiscal Year (FY) 2018-19 funding levels provided by Friends is $175,000.
- Both parties evaluate the relationship as part of the annual process to renew the MOU. Both parties are in agreement to renew the MOU for the next 12 month period.
- The current agreement is set to expire June 30, 2019.
- The FY 2019-20 funding level provided by the Friends will be $150,000.
- The only change in terms of this MOU as compared to last year's is the aforementioned reduction in operating funding provided by the Friends and a change clarifying that City of Asheville/WNC Center, not the Friends, is an AZA accredited member.
- This is a one-year Memorandum of Understanding.

Council Goal(s):

- This action aligns with the 2036 Council Vision of a thriving local economy and a connected and engaged community.

Committee(s):Council Finance Committee April 23, 2019

Pro(s):

- Continued operational support from the Friends through a new Memorandum of Understanding for one additional year which allows staff to include this agreement in the analysis of agreements and partnerships planned for FY 2019-20.

Con(s):

- None

Fiscal Impact:

- The amendment includes a new annual allocation from the Friends of $150,000, a decrease of $25,000 over FY 2018-19. This decrease is not expected to impact the performance of the Nature Center; increased attendance is driving higher anticipated revenue that can cover the reduction.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a new one year Memorandum of Understanding with the Friends of the WNC Nature Center, Inc. on behalf of the City of Asheville.

Mr. Timothy Sadler wanted to make sure that the WNC Nature Center is still public, which it is.

RESOLUTION BOOK NO. 40 - PAGE 464

J. MOTON SETTING A PUBLIC HEARING FOR JUNE 25, 2019, TO CONSIDER A STREET NAME CHANGE OF THE MOST SOUTHERN PORTION OF PARK AVENUE NORTH TO ARTFUL WAY

Action Requested: Set a June 25, 2019, public hearing date to consider a street name change of the most southern portion of Park Avenue North to Artful Way.

Background:

- Park Ave N is a duplicated street name in the same emergency response area. The Haywood Road bridge was constructed in the 1970's and Park Avenue North was split

into two different street segments. The most northern segment is planned to remain the same Park Avenue North street name. The southern segment is being considered to be renamed to eliminate the duplicate street name confusion.
- Timing for eliminating the duplicate street name is right as there are no occupied structures on the street to endure a street address change.
- Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing advertised with state open meeting laws. The Notice will be posted prominently along the street, published at least once in a newspaper and mailed to all property owners adjoining the affected right-of-way.

Council Goal(s):
- A well-planned and livable community

Committee(s):
- Public Safety Committee - May 23, 2019 - supported the street renaming

Pro(s):
- Potential emergency response enhanced with a new unique street name.

Con(s):
- Cost and labor of replacing one street name sign.

Fiscal Impact:
- Material, fabrication and installation costs of the new street sign is included in the Transportation Department annual operating budget.

Motion:
- Motion to consider changing the of the most southern portion of Park Avenue North to Artful Way and authorize the City Manager to set a public hearing on June 25, 2019.

K. MOTION SETTING A PUBLIC HEARING FOR JUNE 25, 2019, TO CONSIDER A STREET NAME CHANGE OF WILBAR AVENUE TO LEE GARDEN LANE

Action Requested: Set a June 25, 2019, public hearing date to consider a street name change of Wilbar Avenue to Lee Garden Lane

Background:
- The Lee Walker Heights property was rezoned to allow for a complete redevelopment of an existing housing development. The developer requested to name the proposed new access drive Lee Garden Ln. There is a short portion of what appears to be platted public right-of-way that connects Wilbar Ave to Short Coxe Ave. Since that portion of right-of-way appears to be public then only City Council can consider a street name change.
- Timing for changing the street name is right as there are no occupied structures on Wilbar Avenue to endure a street address change.
- Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing advertised with state open meeting laws. The Notice will be posted prominently along the street, published at least once in a newspaper and mailed to all property owners adjoining the affected right-of-way.

Council Goal(s):
- A Well-Planned and Livable Community

Committee(s):
- Public Safety Committee - May 23, 2019 - subsequently supported the street renaming after hearing input from Asheville Housing Authority on how the proposed new name originated

Pro(s):
- Potential emergency response enhanced with a new unique street name before new construction. occurs.

Con(s):
- Cost and labor of replacing one street name sign.

Fiscal Impact:
- Material, fabrication and installation costs of the new street sign is included in the Transportation Department annual operating budget.

Motion:
- Motion to consider changing the street name of Wilbar Avenue to Lee Garden Lane and authorize the City Manager to set a public hearing on June 25, 2019.

L. RESOLUTION NO. 19-134 - RESOLUTION NAMING POLICE HEADQUARTERS IN MEMORY OF FORMER POLICE LIEUTENANT WALTER ROBERTSON

Action Requested: Adoption of a resolution naming Police Headquarters located at 100 Court Plaza in memory of former Police Lieutenant Walter Robertson.

Background:
- Pursuant to the City's public property naming policy, Councilman Keith Young has requested Police Headquarters be named in memory of former Police Lieutenant Walter "Walt" Robertson.
- Mr. Robertson was an Asheville native and graduated from Lee Edwards High School; and
- Mr. Robertson was a decorated Army veteran of the Vietnam War in which he earned several campaign medals, including the Purple Heart; and
- Mr. Robertson was the first African American Lieutenant in the history of the Asheville Police Department.
- Mr. Robertson dedicated 30 years to law enforcement, diligently serving Asheville residents with pride and honor.
- Mr. Robertson was well respected and admired by the community.
- Mr. Robertson was a mentor to many and was actively involved in the program "Getting Back to Basics," to assist economically disadvantaged families.
- Community input was solicited through Open City Hall and neighborhood networks. As of June 5, 456 people visited the Open City Hall page, 105 people commented which translates into 5.3 hours of public comment. The majority of the responses supported naming police headquarters in honor of former Lieutenant Robertson. All responses remain accessible through the Open City Hall web page.

Council Goal(s):
- Well-Planned and Livable Community
- Diverse Community

Committee(s):
- None

Pro(s):
- Honor a mentor to current and former Police officers alike.
- Recognize Mr. Robertson's leadership as a good servant of the public's well-being and safety.

Con(s):
- None

Fiscal Impact:
- It is estimated that a plaque and installation may cost up to $10,000. These funds are available in the City's operating budget.

Motion:
- Adopt a resolution to name Police Headquarters located at 100 Court Plaza in memory of former Police Lieutenant Walter Robertson.

RESOLUTION BOOK NO. 40 – PAGE 453

M. MOTION TO ALLOW ELECTRONIC ATTENDANCE

Action Requested: Pursuant to N. C. Gen. Stat. sect. 143-318.13, move to allow for the electronic attendance of Mayor Esther Manheimer at the June 25, 2019, meeting of the Asheville City Council so that she may participate fully in said meeting by phone, including any public hearing and vote.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS: None.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO SOLICIT COMMENTS FOR THE COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS ANNUAL ACTION PLAN FOR FISCAL YEAR 2019-20

RESOLUTION NO. 19-141 - RESOLUTION AUTHORIZING SUBMISSION OF THE COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS ANNUAL ACTION PLAN FOR FISCAL YEAR 2019-20 TO THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT

Community Development Director Paul D'Angelo said that this is the consideration of a resolution authorizing submission of the Community Development Block Grant and HOME

Investment Partnership Act funds Annual Action Plan for Fiscal Year 2019-20 to the U.S. Dept. of Housing & Urban Development. This public hearing was advertised on May 31 and June 7, 2019.

Action Requested: Authorization from the City Manager to submit the 2019-20 Consolidated Action Plan for Community Development Block Grants (CDBG) and the HOME Investment Partnerships Program (HOME) programs to the U.S. Department of Housing and Urban Development (HUD) and to sign all documents necessary to implement the plan.

Background:

- The City will have $1,098,176 in CDBG funds and $1,269,322 in HOME funds available for the fiscal year beginning July 1, 2019. The HUD entitlement grant funding is 12.5% lower for HOME and approximately 3% lower for CDBG entitlement level funding from 18/19:
  - CDBG 19/20 $1,009,176 18/19 $1,037,798
  - HOME 19/20 $1,229,155 18/19 $1,383,695

  The City's Housing and Community Development (HCD) Committee has made recommendations for the use of CDBG funds, which must be used in housing & community development programs within the City of Asheville.
- The Asheville Regional Housing Consortium Board has recommended uses for HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties).
- Funds are awarded based on HUD, CDBG & HOME guidelines as well as the Priorities listed in the City's 5 Year Consolidated Plan which was approved by the Asheville City Council on April 28, 2015, and HUD on July 22, 2015.

Council Goal(s):

- A Diverse Community
- Quality Affordable HOusing
- Thriving Local Economy

Committee(s):

- Housing & Community Development Committee - March 29 2019 - Unanimously approved
- Asheville Regional Housing Consortium Board - March 27 2019 - Unanimously approved
- Asheville Regional Housing Consortium Board - April 30 2019 -Unanimously approved

Pro(s):

- Approval of the Consolidated Action Plan paves the way for HUD funding to be utilized by partners in the City of Asheville and the region, with funds to be used to create affordable housing, jobs and impact in our moderate and lower income communities.

Con(s):

- It is not possible to fund all of the applications received, and many agencies funded will receive less than the amounts requested.

Fiscal Impact:

- The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and the region, creating and sustaining employment and impacting moderate and low income communities

Mayor Manheimer opened the public hearing at 5:10 p.m.

Mr. Timothy Sadler questioned how many units are dedicated for the homeless in the grant funds.

Mayor Manheimer closed the public hearing at 5:12 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to adopt the resolution authorizing submission of the City's Consolidated Annual Action Plan for 2019-2020 to the U.S. Department of Housing and Urban Development and authorizing the City Manager to sign all contracts or agreements required for the implementation of the Consolidated Annual Action Plan. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 465

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 19-142 - RESOLUTION APPROVING THE RECOMMENDATIONS FOR THE FISCAL YEAR 2019-20 STRATEGIC PARTNERSHIP FUND GRANTS

Community Development Director Paul D'Angelo said that this is the consideration approval and adoption of 2019-20 Strategic Partnership Fund grant recommendations.

Background:

- The Housing & Community Development Committee received applications from 31 eligible organizations for Strategic Partnership Fund grants for 2019-20 for a total of $234,500, with an additional $7,500 set aside for agency capacity building.
- The Committee considered these applications at their meeting on March 29, 2019, in accordance with the Strategic Partnership Fund purpose of directly supporting the Asheville City Council's 2036 Vision and now recommends 27 applications for funding.
- Total recommended funding for Strategic Partnership Fund grants and capacity building set-aside is $242,000.
- The recommendations are:

AGENCY	AWARD
Asheville Writers Communities in Schools-Word on the Street	$7,500
Aspire Youth and Family-Kids at Work	$5,000
Council on Aging Buncombe County-Service Coordinator for the City of Asheville	$7,500
Hola Community Arts-Latino Partnership Program	$3,333
Mt Zion Community Development-Project Empower	$5,000
My Daddy Taught Me That-Youth in Public	$21,667

Housing Disparities	
YMI Cultural Center-Restoring the YMI	$10,838
YWCA-Swim Equity	$8,335
Asheville Art Museum Association-Early Literacy Through Art	$1,667
Asheville Museum of Science-Closing the Achievement Gap through STEM Learning for Students and Families	$10,000
Children First/Communities in Schools-Claxton Student Support Specialist and Pisgah View	$13,333
The Christine Avery Learning Center-CWA Early Learning Program	$20,000
One Youth at a Time-Tutoring, Mentoring, and Education	$2,662
Partners Unlimited-Academic Enhancement	$16,667
Getting Back to the Basics-Community Summer Day Camp	$3,167
Read to Succeed-Read to Succeed	$9,667
Youth Transformed for Life-R.O.S.E.S and M.O.S.S	$21,667
Buncombe Partnership for Children-Early Childhood Workforce Development	$10,667
Pisgah Legal Services-Tenant Eviction Response Program	$13,333
Green Opportunities-GO YouthBuild Community Improvement Projects	$13,333
YWCA-Getting Ahead in a Just Getting By World	$3,333
Aspire Youth and Family-Employ Youth	$3,333
Community Action Opportunities-Life Works for the Justice Involved	$4,000
Just Economics-Removing Barriers to Income Mobility	$2,833

OnTrackFinancial Education & Counseling-Volunteer Income Tax Assistance	$7,333
River Front Development Group-African American Cultural Heritage Project	$5,000
Bountiful Cities-Community Garden Network Support	$3,333

Council Goal(s):

- A Diverse Community
- Quality Affordable Housing
- Thriving Local Economy

Committee(s):

- Housing & Community Development Committee-March 29 2019

Pro(s):

- Approval of the Strategic Partnership Fund provides operating support to Asheville-based organizations that are providing direct services for Asheville residents.
- The Strategic Partnership Fund reflects the recommendations of the City's Housing & Community Development Committee.

Con(s):

- Budget constraints continue to curtail the availability of funds; supported organizations will need to find alternate sources of program support.
- All worthy proposals could not be funded.

Fiscal Impact:

- Strategic Partnership Funds are funded from the City's general fund and included in the Fiscal Year 2019-20 budget.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to adopt a resolution approving the 2019-20 Strategic Partnership Fund grants as outlined above. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 468

B. ORDINANCE NO. 4747 - ORDINANCE ADOPTING THE FISCAL YEAR 2019-20 ANNUAL OPERATING BUDGET

Action Requested: Adoption of an ordinance to adopt the Fiscal Year 2019-20 Annual Budget.

Background:

- The Fiscal Year (FY) 2019-20 Proposed Annual Operating Budget was presented to City Council on May 14, 2019. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 13, 2019.
- City Council conducted a public hearing on the Proposed Budget on May 28, 2019.

- The Proposed Budget is balanced with an ad valorem tax rate of $0.4289 per $100 of assessed value, which is unchanged from the current rate. All essential City services are continued in the Proposed Budget.
- There have been no fiscal changes to the Proposed Operating Budget since it was presented to Council on May 14, 2019.
- The Proposed Capital Budget has been updated to include the up to $1.5 million that the U.S. Cellular Center will be receiving over the next 12-18 months from the new Harrah's Cherokee naming rights agreement. The U.S. Cellular Center Capital Fund budget also includes the $1.6 million that will be received in July of this year from the new Ticketmaster Agreement.
- As part of Budget Adoption, Council is directing staff to study compensating all City employees at a base annual full-time salary of $31,200 (which is equivalent to $15/hour based on a 40 hour work week). This threshold would apply to all permanent full-time, permanent part-time, and temporary/seasonal employees.
- Staff will direct the classification and compensation study consultant in the first phase of the study to provide the City with recommendations and costs for implementing if applicable. Adjustments would include those needed to address salary compression issues. The City Manager will identify funding within the proposed budget to begin implementation based on study recommendations

Council Goal(s):

- A Financially Resilient City

Pro(s):

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance by July 1 of each year.
- General Fund budget is balanced for ongoing operating expenses and all essential City services are continued.

Con: None.

Fiscal Impact:

- As noted above, the Proposed FY 2019-20 General Fund budget is balanced with an ad valorem tax rate of $0.4289 per $100 of assessed value, which is unchanged from the current rate.

City Manager Campbell explained her approach to addressing the funding issues raised at the public hearing. In summary, regarding the Urban Forest Master Plan and position, she said that over the next several months, an interdepartmental team will work with the Tree Commission and nonprofit groups to review current tools and our authority to regulate trees on private property as well as propose any needed changes. The Development Services Department has the capability to manage the current requirements and any near-term regulatory changes intended to enhance tree protection without additional staff. Regarding the support for the Minority Business Program and Manager, the Fiscal Year 2019-20 budget includes $60,000 to develop a small business training program that will increase access to contracting opportunities with the City and address barriers to success for small businesses. The requested programming includes implementation of a Train-the-Trainer program to increase capacity in minority contracting. Regarding fully funding the first year of the Transit Master Plan, the Fiscal Year 2019-20 budget includes a $1,559,000 increase in General Fund support for the Transit Fund, $1 Million of which is for operational improvements (route reconfigurations to include additional 20,000 service hours, and 6 additional staff. Implementation of the first year of the Transit Master Plan in January 2020 or sooner isn't just an issue of having enough funding, and she explained the other challenges. Staff is committed to reviewing and assessing implementation of the proposed enhancements

and will report back to Council on our progress and proposed budgetary changes, if any, that may be needed to accelerate the first full year of implementation. And, regarding a salary adjustment of $31,200/$15.00 (40 hour work week equivalent), Council directed her to study compensating employees a base annual full-time salary of $31,200 (which is equivalent to $15/hour based on a 40 hour work week). The threshold would apply to all permanent full-time, permanent part-time, and temporary/seasonal employees. Staff will direct the classification and compensation study consultant, in the first phase of the study, to provide the City with recommendations and costs for implementing this directive including any adjustments needed to address salary compression issues. She will identify funding within next year's budget to begin implementation based on study recommendations.

Vice-Mayor Wisler confirmed that the issues raised and addressed by City Manager Campbell are included in the budget before Council for adoption.

Councilwoman Mayfield was pleased with the direction regarding Urban Forest Master Plan and position. Regarding transit, she appreciated City Manager Campbell looking mid-year at trying to start the full implementation of the Transit Master Plan as soon as there is funding and stability.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to adopt the Fiscal Year 2019-20 Annual Budget. This motion was seconded by Councilman Kapoor and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 381

C. **RESOLUTION NO. 19-143 - RESOLUTION REPEALING AND REPLACING RESOLUTION NO. 18-287 WITH THIS RESOLUTION AUTHORIZING THE SALE OF CITY OWNED PROPERTY AT 360 HILLIARD AVENUE AND 99999 MERRITT PARK LANE TO THE KASSINGER DEVELOPMENT GROUP (KDG DBA HILLIARD PARK APARTMENTS, LLC) FOR AN AFFORDABLE HOUSING DEVELOPMENT**

RESOLUTION NO. 19-144 - RESOLUTION REPEALING AND REPLACING RESOLUTION NO. 18-288 WITH THIS RESOLUTION APPROVING A LOAN FROM THE CITY'S HOUSING TRUST FUND

RESOLUTION NO. 19-145 - RESOLUTION REPEALING AND REPLACING RESOLUTION NO. 17-117 WITH THIS RESOLUTION APPROVING A NEW LAND USE INCENTIVE GRANT AGREEMENT FOR KASSINGER DEVELOPMENT GROUP (DBA HILLIARD PARK APARTMENTS, LLC) FOR PROPERTY LOCATED AT 360 HILLIARD AVENUE

Community Development Program Director Paul D'Angelo said that this is consideration of support of the revised proposal from Kassinger Development Group for the development of a mixed-income rental community at the City-owned property at 360 Hilliard Avenue.

Background:

- On June 13, 2017, City Council approved a 50 year ground lease to the Kassinger Development Group (KDG) for a 64-unit rental development on the City-owned "Parks Maintenance" site located at 360 Hilliard Avenue. The terms of the agreement were:
  - Commitment of a $1,280,000 loan from the City's Housing Trust Fund (HTF).
  - Land Use Incentive Grant (LUIG) award estimated at $291,430.

- 33 of the 64 units to individuals and families at or below 80% of Area Median Income (AMI) for a period of 50 years; and,
- 13 of the 33 affordable units rented at or below 60% AMI.

- Throughout 2017 and 2018, the developer sought and eventually received HUD-guaranteed financing for the project. However, rising construction costs during that interim increased the project budget to a level that made the development of the 64 units infeasible.
- KDG submitted a second proposal that converted the apartment complex to a for-sale mixed-income condominium community. The terms of this agreement were:
  - $1,280,000 HTF commitment and a purchase of the property for $375,000 (half of the appraised value of $750,000);
  - 33 of the 64 units to individuals and families at or below 80% AMI;
  - 13 of the 33 affordable units sold to households at or below 60% AMI;
  - A deed restriction placed on the individual for-sale units would guarantee affordability to the units for a 50-year period; and,
  - A shared parking lot at the rear of the tennis center for park patrons and residents, with the City paying for half of the construction costs for the parking lot.
  - City Council approved this proposal on November 13, 2018.
- After attempting to implement this for-sale proposal with the City's legal team, staff couldn't legally find a way to ensure permanent affordability in a for-sale product outside of a community land trust. In order to maintain affordability, the sale price of the units must be capped to meet the ongoing AMI requirements of the deed restrictions, which staff, along with local realtors and bankers, felt could be problematic from a buyer, seller and lender perspective.
- Staff was also concerned about the difficulty of the long term monitoring of affordability from a capacity standpoint and with no partner agency to assist with the process.
- The developer also found challenges in securing financing from their bank and equity lenders under the framework of this for-sale mixed-income product.

Revised Proposal:

- Kassinger Development Group, to move forward and past the challenges of a for-sale product and rising construction costs, has updated their proposal to the following:
  - The development of an affordable mixed-income rental community of 86 units with 34 affordable units (or 39.5% affordable units in the Project). Of the 34 affordable units, 18 are to be made available to 60% AMI households and 16 to 80% AMI households. 50 Year Affordability Period.
  - KDG requests to expand the site footprint for additional surface parking for a total site area of approx. 1.75 acres (see enclosed map).
  - Fee simple purchase of the land for a total price of $475,000 which is below the market value for the property. An update to the existing appraisal is underway.
  - KDG requests a $1,400,000 Housing Trust Fund loan with interest only payments for a 3-year period to ensure adequate cash flow during construction and lease up. At the expiration of this 3-year period, principal and interest payments will begin.
  - KDG seeks a Land Use Incentive Policy (LUIP) incentive grant applied under the policy effective as of September 11, 2018. The project as scored under that policy is valued at 110 points, or 11 years. The estimated value of award per year is $50,913, which results in a total estimated award of $560,043.
  - KDG will install a public parking lot at the rear of the tennis courts, with the City to pay for half of the construction costs. KDG will install the trailhead and approximately 400 feet of the Bacoate Branch Greenway as well as the associated stormwater improvements. The value of these public improvements is estimated at $225,000.
  - If approved, KDG is ready to begin construction in late summer.

- The chart below reflects the various iterations and modifications proposed by Kassinger Development Group. The May 2019 column reflects the current proposal.

	June 2017	November 2018	May 2019
Project Type	Mixed Income Rental	Mixed Income For-Sale	Mixed Income Rental
Unit Count	64 Units (33 Affordable)	64 Units (33 Affordable)	86 Units (34 Affordable)
Affordability Levels	13 Units at 60% AMI 20 Units at 80% AMI	13 Units at 60% AMI 20 Units at 80% AMI	18 Units at 60% AMI 16 Units at 80% AMI
Affordability Term	50 Years	50 Years	50 Years
City Investment	$1,280,000 HTF Loan $291,430 LUIP Award Long-Term Land Lease	$1,280,000 HTF Loan Discounted Land Sale ($375,000 Sales Price / Revenue)	$1,400,000 HTF Loan $560,043 LUIP Award Discounted Land Sale of Two Parcels ($475,000 Sales Price / Revenue)
Additional Details	Developer Constructs Shared Parking	Developer Constructs Shared Parking	Developer Constructs Public Parking, Portion of Greenway, and Trailhead

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- Housing and Community Development Committee - May 28, 2019. The Committee voted 2-1 in support of the proposal, with direction to staff to work with the developer to consider adding 10 more affordable units to the project to reach a total of 51% affordable units. Staff analyzed the committees recommendation to add ten (10) additional units. The per unit cost of the additional units are significantly higher and therefore staff would not recommend increasing the number of affordable units as part of this development proposal.

Pro(s):
- The approval of the revised proposal will allow the developer to move forward and finalize their other sources of financing necessary to close on the property and begin construction.
- The City will gain 34 new affordable housing units under 80% AMI for a period of 50 years, with 18 of the units for individuals and families at or below 60% AMI.
- Utilizes City affordable housing tools, including City-owned land, HTF & LUIG, in producing affordable housing in a public/private partnership with a for-profit developer.

- The subsidy per affordable unit is estimated at $71,000 per unit; however, with the HTF loan being paid back the subsidy would be estimated at $30,000 per affordable unit which aligns closer with City policies.

Con(s):

- None

Fiscal Impact:

- The developer is requesting additional Housing Trust Fund debt, an updated Land Use Incentive Grant award, and a discounted purchase price of the City-owned land. The estimated value of City investment in the project -
    - HTF - $1,400,000 loan, amortizing at 2% interest and paid back monthly. Payments are scheduled to begin approximately 3 years after the start of construction, when project has leased up and stabilized.
    - LUIG - Value will total at least $560,043 with the first rebate payment tentatively occuring in fiscal year 2023.
    - Land discount of approximately $475,000.
- Revenue from the sale of land will total $475,000 and will benefit the Affordable Housing CIP.

In response to Councilman Kapoor, Mr. D'Angelo felt that any development issues before have been resolved.

Councilman Young could not be supportive of this project as he is not confident of the developer's ability to make this development happen.

When Mayor Manheimer asked for public comment, no one spoke.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolutions and they would not be read.

Councilman Kapoor moved (1) to repeal and replace Resolution No. 18-287 with this resolution authorizing the sale of City-owned property at 360 Hilliard AVenue and 99999 Merritt Park Lane to the Kassinger Development Group (k/d/g d/b/a Hilliard Park Apartments, LLC) for an 86 unit rental community with 34 affordable units; (2) repeal and replace Resolution No. 18-288 with this resolution approving a loan from the City's Housing Trust Fund; and (3) repeal and replace Resolution No. 17-117 with this resolution approving a new Land Use Incentive Grant agreement for Kassinger Development Group (d/b/a Hilliard Park Apartments, LLC) for property located at 360 Hilliard Avenue. This motion was seconded by Councilwoman Mayfield and carried on a 6-1 vote, with Councilman Young voting "no." .

RESOLUTION NO. 19-145 - RESOLUTION BOOK NO. 40 – PAGE 473

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Multimodal Transportation Commission, the following individuals applied for the vacancy: Ritchie Rozzelle, Pat Katz, Kenneth Armstrong, Dennis Wencel and Michael Stratton. It was the consensus of the Boards & Commissions Committee, it was the consensus of Council to re-advertise for the seats and postpone appointments until the Multimodal

Transportation Commission has an opportunity to review the applicants and make a recommendation to City Council.

RESOLUTION NO. 19-146 - RESOLUTION APPOINTING A MEMBER TO THE AFRICAN AMERICAN HERITAGE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the African American Heritage Commission.

The term of S. Antanette Mosley will expire on July 1, 2019.

No one applied for the vacancy.

It was the consensus of the Boards & Commissions Committee to reappoint Ms. Mosley.

Vice-Mayor Wisler moved to reappoint Antanette Mosley to serve an additional three-year term, term to expire July 1, 2022, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 475

RESOLUTION NO. 19-147 - RESOLUTION APPOINTING MEMBERS TO THE CITIZEN-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Citizens-Police Advisory Committee.

The terms of Allison Scott (at-large representative) and Shana McDowell (at-large representative) will expire on June 30, 2019.

The following individuals applied for the vacancy: Robert Woolley, Tracey DeBruhl, Gretchen Gudites, Celeste Fletcher, Frederic G. Arnold, Jason Martin, S. Elizabth Snyder, Jacob Haug, Shannon Watkins and Cathy Banks.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Shana McDowell (at-large representative) and (2) appoint Grethen Gudites (at-large representative).

Vice-Mayor Wisler moved to (1) reappoint Shana McDowell (at-large representative) to serve an additional three-year term, term to expire June 30, 2022; and (2) appoint Grethen Gudites (at-large representative) to serve a three-year term, term to expire June 30, 2022. Both appointments are until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 476

RESOLUTION NO. 19-148 - RESOLUTION APPOINTING A MEMBER TO THE CIVIC CENTER COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Civic Center Commission.

The term of Bill Jones will expire on June 30, 2010.

The following individuals applied for the vacancy: Shelia Surrett, John W. Ellis and David Nutter.

It was the consensus of the Boards & Commissions Committee to reappoint Bill Jones.

Vice-Mayor Wisler moved to reappoint Bill Jones to serve a three-year term, term to expire June 30, 2022, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 477

RESOLUTION NO. 19-149 - RESOLUTION APPOINTING MEMBERS TO THE CIVIL SERVICE BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members and Chair to the Civil Service Board.

The terms of Carol Goins and Carter Webb expired on May 21, 2019.

The following individuals applied for the vacancy: Stephen Hayleck and Travis Smith.

Pursuant to Resolution No. 19-138, adopted on June 11, 2019, City Council has the discretion to allow members of certain boards to serve more than two terms under certain circumstances. Carol Goins has served two full two-year terms on the Civil Service Board. The Boards & Commissions Committee has weighed the following factors and has determined that reappointing Ms. Goins to another two-year term is in the best interests of the City of Asheville: (1) term lengths; (2) level of desired board expertise and experience; (3) matters pending before the board; and (4) additional terms would contribute to board stability and continuity. Therefore, it was the consensus of the Boards & Commissions Committee to reappoint Carol Goins and Carter Webb.

After City Council weighed the factors, Vice-Mayor Wisler moved to reappoint Carol Goins and Carter Webb to each serve an additional two-term, term to expire May 21, 2021, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 478

RESOLUTION NO. 19-150 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville-Buncombe Historic Resources Commission.

The terms of Craig Cline and Woody Farmer will expire on July 1, 2019.

The following individuals applied for the vacancy: Will Hornaday, Linden Ontjes, Mike Kennedy, Wayne Wheeler and Gordon McKinney.

It was the consensus of the Boards & Commissions Committee to reappoint Craig Cline and appoint Gordon McKinney.

Vice-Mayor Wisler moved to (1) reappoint Craig Cline to serve an additional three-year term , term to expire July 1, 2022; and (2) appoint Gordon McKinney to serve a three-year term, term to expire July 1, 2022. Both appointments are until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 479

RESOLUTION NO. 19-151 - RESOLUTION APPOINTING MEMBERS TO THE HUMAN RELATIONS COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Human Relations Commission.

The terms of Michael Carter, Gabrielle Fricke, Anne Greene, Christine Longoria, DeLores Venable and Sarah Williams expire on July 1, 2019.

The following individuals applied for the vacancy: Bettie Council, Ellenore Holbrook, Lisa Lemons, Tanya Rodriquez, Isaiah Green, Daniele Martin and Nieva Arana.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Anne Greene and DeLores Venable; and (2) appoint Bettie Council, Isaiah Green, Daniele Martin, Nieva Arana and Tanya Rodriguez.

Vice-Mayor Wisler moved to (1) reappoint Anne Greene and DeLores Venable to each serve a two-year term, terms to expire July 1, 2021; and (2) appoint Bettie Council, Isaiah Green, Daniele Martin, Nieva Arana and Tanya Rodriguez to each serve a two-year term respectively, terms to expire July 1, 2021. All appointments are until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 480

RESOLUTION NO. 19-152 - RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Neighborhood Advisory Committee.

The terms of Pat Deck (at-large seat), Billie Buie (at-large seat) and Anna Sexton (representing 28806 or 28728 zip code), expire on July 1, 2019.

The following individuals applied for the vacancy: Bob Swanson, Gretchen Gudites, Nan Huebner, Steven Rasmussen, Grace Davidson, Geoff Grant, Lee Arevian, Bobbette Mays, Diane Dankert and Greta Bush.

It was the consensus of the Boards & Commissions Committee to reappoint Anna Sexton and appoint Greta Bush and Bobette Mays.

Vice-Mayor Wisler moved to (1) reappoint Anna Sexton (representing 28806 or 28728) to serve a three-year term, term to expire July 1, 2022; and (2) appoint Greta Bush (at-large) and Bobette Mays (at-large) to each serve a three-year term respectively, terms to expire July 1, 2022. All appointments are until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 481

RESOLUTION NO. 19-153 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Public Art & Cultural Commission.

Ron Laboray has resigned, thus leaving an unexpired term until June 30, 2020.

The following individuals applied for the vacancy: Karin Peterson, Travis Smith, Nandita Vyas, Honor Moor, Anne Manner-Mclarty, Pete Perez, Marsha Almodovar and Daniele Martin.

It was the consensus of the Boards & Commissions Committee to appoint Pete Perez.

Vice-Mayor Wisler moved to appoint Pete Perez to serve the unexpired term of Mr. Laboray, term to expire June 30, 2020, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 40 - PAGE 483

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Karen MacNeal presented City Council with a petition containing over 750 signatures in favor of an urban forester.

Mr. Michael Stratton urged Council to ask our state legislators for occupancy tax money from the Tourism Development money.

Mr. John Miall, representing several City of Asheville retirees, urged City Council to send a resolution to the State Treasurer and the State Legislature supporting a Cost of Living Adjustment to retired employees. It was the consensus of Council to ask the Finance & Human Relations Committee to consider this request.

Mr. Ryan Schulze urged Council not to move forward with the Charlotte Street road diet.

Ms. Matilda Bliss urged City Council to continue funding transit.

Ms. Sarah Benoit and Ms. Darlene Azarmi urged City Council to take a stand against redistricting.

Ms. Susan Loftis thanked City Council for moving forward with designating Riverside Cemetery as a place of serenity and quiet.

Ms. Vicki Meath, Director of Just Economics, hoped City Council would seek quarterly or monthly reports on what is needed to implement the Transit Master Plan and that City Manager Campbell will follow through on her commitments regarding transit.

Mr. Timothy Sadler wondered if City Council can require contractors to pay their subcontractors a living wage.

Mr. Jonathan Wainscott supported redistricting.

Ms. Jan Howard stated that Mr. Reid Thompson was arrested today for standing on the sidewalk.

Mayor Manheimer updated the public on the redistricting legislation. It was the consensus of Council to ask City Attorney Branham to attend the July 9, 2019, Governance Committee to explain the City's legal options on district elections, with the opportunity for public comment.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:40 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – June 25, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer (participating via speaker phone); Vice-Mayor Gwen C. Wisler, Presiding; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Vice-Mayor Wisler led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

At the request of Councilman Haynes, Consent Agenda "O" was added to the Consent Agenda.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 11, 2019

B. ORDINANCE NO. 4748 - BUDGET AMENDMENT TO MOVE THE REMAINING BALANCES FROM THE ANNUAL CAPITAL MAINTENANCE ALLOCATIONS FOR FACILITY MAINTENANCE AND TRAFFIC CALMING FROM THE GENERAL FUND TO THE GENERAL CAPITAL PROJECTS FUND

Action Requested: Adoption of a technical budget amendment in the amount of $1,489,327 to move the remaining balances from the annual capital maintenance allocations for facility maintenance and traffic calming from the General Fund to the General Capital Projects Fund.

Background:

- In fiscal year 2012-13, the City moved certain annual capital maintenance budgets from the Capital Improvement Program (CIP) to the annual General Fund operating budget. This included capital maintenance allocations for facility maintenance and traffic calming, among others.
- Since that time, any available budgets in those accounts at year end have been reported as Assigned Fund Balance on the General Fund Balance Sheet in the Comprehensive Annual Financial Report (CAFR). Once the CAFR is complete each year, staff rolls those available budgets to the new fiscal year for departments to utilize.
- Over time those balances, especially the facility maintenance allocation, have grown and now represent a significant assignment of fund balance on the General Fund Balance Sheet.
- For this reason, staff is recommending that current remaining balances from the facility maintenance and traffic calming allocations be moved from the General Fund to the General Capital Projects Fund.

Council Goal(s):

- A Financially Resilient City

Pro(s):

- Reduces the amount of assigned fund balance reported as "Various Projects" on the General Fund Balance Sheet portion of the CAFR.
- Provides a higher level of transparency about the purpose of the funds.
- Provides formal access to those remaining budgets prior to completion of the FY 2018-19 CAFR.

Con(s):

- None.

Fiscal Impact:

- Since these capital maintenance allocations were assigned in the FY 2017-18 CAFR, this budget amendment will have no impact on the City's unassigned fund balance.
- The amount being moved for facility maintenance totals $1.2 million and the amount for traffic calming is $289,327. Staff anticipates utilizing the facility maintenance funding in FY 2019-20 to fund or partially fund City Hall projects including boiler replacement and elevator modernization. Traffic calming funds will be used in FY 2019-20 to install speed humps along street sections approved for traffic calming that are now going through the petition process.

Motion:

- Motion to adopt a budget amendment in the amount of $1,489,327 to move the remaining balances from the annual capital maintenance allocations for facility maintenance and traffic calming from the General Fund to the General Capital Projects Fund.

ORDINANCE BOOK NO. 32 - PAGE 388

C. **RESOLUTION NO. 19-154 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE INDEPENDENCE DAY CELEBRATION**

RESOLUTION NO. 19-155 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BIG CRAFTY

RESOLUTION NO. 19-156 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE NORTH CAROLINA CERAMIC ARTS FESTIVAL

RESOLUTION NO. 19-157 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT LEAF DOWNTOWN AVL

Action Requested: Adoption of resolutions to permit the possession and consumption of malt beverages and/or unfortified wine at the Independence Day Celebration, the Big Crafty, LEAF Downtown AVL, and the NC Ceramic Arts Festival.

Background:

- The following organizations have requested that City Council permit them to serve beer and/or unfortified wine at their events and allow for consumption at the events:
  - Asheville Downtown Association for the Independence Day Celebration, to occur at Pack Square Park on July 4, 2019, from 2:00 p.m. - 10:00 p.m.
  - Asheville Area Arts Council for the Big Crafty to occur at Pack Square Park on July 14, 2019, from 12:00 p.m. - 7:00 p.m.
  - NC Ceramic Arts Festival to occur at Pack Square Park on September 21, 2019, from 11:00 a.m. - 5:00 p.m.
  - LEAF Community Arts for LEAF Downtown AVL, to occur at Pack Square Park on August 2, 2019, from 3:00 p.m. - 10:00 p.m. and August 3, 2019, from 9:00 a.m. - 10:00 p.m.
- Alcohol boundaries are defined for each request as per the accompanying event site maps.

Council Goal(s):

- These actions have no direct connection with the City Council 2036 Vision.

Committee(s):

- None

Pro(s):

- Allows fundraising opportunities for the sponsoring nonprofit organizations

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Motion to permit the possession and consumption of malt beverages and/or unfortified wine at the Independence Day Celebration, the Big Crafty, LEAF Downtown AVL, and the NC Ceramic Arts Festival.

D. RESOLUTION NO. 19-158 - RESOLUTION AMENDING THE 2019 CITY COUNCIL MEETING SCHEDULE TO ADD A WORKSESSION ON JULY 2, 2019, AT 5:00 P.M. IN THE BANQUET HALL AT THE U.S. CELLULAR CENTER, TO DISCUSS LEGAL OPTIONS REGARDING ELECTION DISTRICTS

At the July 2 worksession, a motion is anticipated to suspend the rules and allow public comment.

RESOLUTION BOOK NO. 41 - PAGE 13

E. ORDINANCE NO. 4749 - BUDGET AMENDMENT FROM THE N.C. DEPT. OF PUBLIC SAFETY FOR HURRICANE FLORENCE REIMBURSEMENT

Action Requested: Adoption of a budget amendment in the General Fund in the amount of $110,000 for reimbursements to the City of Asheville by the North Carolina Department of Public Safety that exceeded initial budget estimates.

Background:

- In September 2018, the Asheville Fire Department (AFD) was requested by the N.C. Dept. of Public Safety to support the response and coordination of rescue efforts for Hurricane Florence.
- In response to the request, AFD deployed staff, apparatus, and equipment to areas of North Carolina that were impacted by the hurricane.
- This response included:
    - Critical Incident Stress Management team to aid responders at the event
    - Communications trailer and appropriate staff to provide remote communications for the event
    - North Carolina Helo Aquatic Response Team to assist in rescues via helicopter
    - Staff to support the Overall Incident Management Team
    - Staff and Medical bus to evacuate hospitals
    - And the Department's Type I Swiftwater Rescue Response Team

Council Goal(s):

- Smart City

Committee(s):

- Finance & Human Resources Committee - June 25, 2019

Pro(s):

- Reduction of overtime impact on Asheville Fire Department's overtime budget

Con(s):

- None

Fiscal Impact:

- Upon City Council approval, a budget amendment will be made in the current fiscal year to accept reimbursement and reduce the overtime impact to the Asheville Fire Department.

Motion:

- Motion to adopt a budget amendment in the General Fund in the amount of $110,000 for reimbursements to the City of Asheville by the North Carolina Department of Public Safety that exceeded initial budget estimates

ORDINANCE BOOK NO. 32 - PAGE 389

F. RESOLUTION NO. 19-159 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A GENERAL SERVICES AGREEMENT WITH

HARPER CORPORATION FOR THE MILLS RIVER WATER TREATMENT PLANT MISCELLANEOUS IMPROVEMENTS PHASE I PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a construction contract with the Harper Corporation for the Mills River Miscellaneous Improvements

Background:

- The Mills River Water Treatment Plant (WTP) was completed in 1999. The life cycle of many assets important to the treatment of drinking water need to be rehabilitated and/or replaced.
- This project includes the following components:
  - Replacement of the bulk and day tanks for sodium hypochlorite (disinfectant);
  - Rehabilitation and upgrade to the Ozonia ozone diffusers, dielectrics and associated Programmable Logic Controllers;
  - Replacement of seven Variable Frequency Drives for pump operation; and,
  - Improvements to the ventilation system in one chemical feed room for air quality.
- The Water Resources Department (WRD) received two bids on May 30, 2019
  - Harper Corporation: Greenville, SC $1,917,000.00
  - Gilbert Engineering: Statesville, NC $3,138,921.82
- Following a review of the bids, the Harper Corporation, was selected as the lowest responsible, responsive bidder for the bid amount of $1,917,000. A 15% contingency amount of $287,550 has been added for a total project budget in the amount of $2,204,550.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. Harper is not a minority or woman owned business. They will be self-performing most of the project; however, they will be reaching out for local labor and subs for certain tasks and plan on reaching out to local minority businesses.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None

Pro(s):

- These improvements will ensure the Mills River WTP can continue to create high quality drinking water for our customers.

Con(s):

- None

Fiscal Impact:

- Water Resources Department currently has funds budgeted in the CIP for this project.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a contract with the Harper Corporation to perform the work per the specifications and drawings provided by CDM Smith and the City of Asheville in the amount of $917,000 with a 15% contingency amount of $287,550 for a total project budget in the amount of $2,204,550.

RESOLUTION BOOK NO. 41 - PAGE 14

G. **RESOLUTION NO. 19-160 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH H&M CONSTRUCTORS INC. FOR THE CITY HALL BOILER REPLACEMENT PROJECT**

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with H&M Constructors, Inc. in the amount of $772,500.00, for the City Hall Boiler Replacement project; and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $77,250 (10%).

Background:

- City Hall is heated with two large steam boilers. They are 35 years old, and have had recent repairs (2015) to keep them in service.
- This project replaces the two (2) large steam boilers with four (4) "modular" more efficient boilers. The design allows for increased reliability and redundancy. One boiler can be taken down for service, while the other three continue running.
- The boiler replacement will occur during the summer, and will be reinstalled before the start of the heating season.
- Bids were initially advertised on May 3rd, 2019. Only two bids were received at the bid opening deadline on May 30, 2019. The City could not open due to city policy and general statues.
- The project was readvertised on June 3, 2019, and the City received and opened bids on June 10, 2019. Three bids were submitted, their names and bid amounts are listed below:
    - H&M Constructors, Inc., Asheville, NC $ 772,500.00
    - Johnson Controls, Inc., Asheville, NC Office. $ 891,400.00
    - Nor-Well Company, Inc., Elizabethton, TN. $ 566,090.00
- The Nor-Well bid was determined to be non-responsive, and could not be accepted per City policy and general statutes. Their bid was non-responsive because the bid documents required a NC General Contractor "Unlimited" License. Nor-Well only holds a NC "Limited"/Mechanical license.
- H&M Constructors, Inc. was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. No MWBE firms submitted bids with this prime contractor and all work will be self performed by the prime contractor.

Council Goal(s):

- A Clean and Healthy Environment & A Financially Resilient City

Committee(s):

- None.

Pro(s):

- The resulting boilers will be more efficient and reliable.
- The work will occur during the off season for heating, and the majority of the work will occur in spaces that will not disrupt City Hall operations.

Con(s):

- None

Fiscal Impact:

- Funding for this contract is already included in the adopted Capital Improvement Program (CIP).

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with H&M Constructors, Inc. in the amount of $772,500.00, for the City Hall Boiler Replacement project; further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $77,250 (10%).

RESOLUTION BOOK NO. 41 - PAGE 15

H. RESOLUTION NO. 19-161 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH THE PRESERVATION SOCIETY OF ASHEVILLE AND BUNCOMBE COUNTY FOR CITY-OWNED PROPERTY LOCATED AT 324 CHARLOTTE STREET

Action Requested: The approval of a resolution authorizing the City Manager to execute a lease agreement between the City of Asheville (City) and the Preservation Society of Asheville and Buncombe County (PSABC) for the historic E.W. Grove Office located at 324 Charlotte Street.

Background:

- The PSABC is a non-profit organization whose mission is to "sustain the heritage and sense of place that is Asheville and Buncombe County through preservation and promotion of the unique historic resources of the region." (https://psabc.org/mission/)
- The City and PSABC entered into a lease for the historic E.W. Grove Office located at 324 Charlotte Street in Asheville, for use of PSABC's administrative offices, on November 1, 2007.
- This lease ended on September 30, 2017 and PSABC has continued to occupy the space on a month to month tenancy since that time.
- When PSABC initially leased the property, the building was in disrepair and needed significant improvements. In accordance with the former lease agreement, PSABC agreed to accept the building "as is" and to make all repairs necessary to obtain a Certificate of Occupancy. The lease allowed for "rent credit" in exchange for these repairs.
- Based on PSABC's initial investment in repairs to the building, PSABC represents that $114,309 is still outstanding as available rent credit.
- The City obtained an appraisal of the property, which took into consideration the existing conditional zoning restrictions on the building which limit occupancy to non-profit entities. The appraisal concluded an opinion of the fair rental value at $600 per month.
- Based on this information, the following terms have been negotiated between the City of Asheville and PSABC:
    - Premises: 324 Charlotte Street, 720 square feet of office space
    - New Lease Term: 10/1/2017 to 12/31/2030
    - Rent: $600.00 per month, escalation at 3% (based on City's MAI appraisal)
    - Rent Credit Balance: $114,309.00, will be exhausted at the end of the lease in 2030
    - Term: 13 years, 2 months
    - No additional rental credit for any future tenant improvements

- PSABC is amenable to these terms.

Council Goal(s):
- A Well-Planned and Livable Community

Committee(s):
- None

Pro(s):
- Continued partnership with the Preservation Society of Asheville and Buncombe County through a lease of City-owned property.
- This lease contains specific insurance requirements to protect the City's liability.
- PSABC will be responsible for all maintenance to the building and adjacent landscaped beds.

Con(s):
- None noted.

Fiscal Impact:
- None noted.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a lease agreement with the PSABC for City-owned property known as the historic E.W. Grove Office at 324 Charlotte Street for the PSABC business office.

RESOLUTION BOOK NO. 41 - PAGE 16

I. RESOLUTION NO. 19-162 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH E. LUKE GREENE COMPANY INC. FOR THE CITY HALL 7TH FLOOR ASBESTOS ABATEMENT PROGRAM

Action Requested: Adopt a resolution authorizing the City Manager to enter into a contract with E. Luke Greene Company, Inc. in the amount of $175,345, for the City Hall 7th Floor Asbestos Abatement project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $35,069 (20%).

Background:
- Testing for asbestos containing materials (ACM) was performed in support of the various City Hall renovation projects.
- ACM was confirmed in floor tiles, mastic (glue) and other materials on the 7th and 8th floors, and in mechanical areas related to the boiler replacement project.
- Select demolition and ACM removal must be performed prior to the start of the 7th floor renovation project, and in support of the boiler replacement project.
- ACM will be removed with safe methods, and under the supervision of the City's environmental consulting engineer, S&ME.
- The work will be performed at night to minimize disruption to City Hall operations.
- Bids were advertised on May 7th, 2019 and the City received and opened on May 30th, 2019. Five (5) firms submitted bids, their names and bid amounts are listed below:
  - Contaminant Control, Inc., Salsbury, NC $ 365,285
  - Eastern Environmental, Inc., Charlotte, NC $ 327,720
  - E. Luke Greene Co, Inc., Strawberry Plains, TN $ 175,345

- NEO Corporation, Cantor, NC $ 175,495
- Target Contractors, LLC, Landson, SC $ 215,950

- The E. Luke Greene Company was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. E. Luke Greene Company is registered with the North Carolina Historically Underutilized Business (HUB) office as a woman owned business.

Council Goal(s):

- A Clean and Healthy Environment & A Financially Resilient City

Committee(s):

- None

Pro(s):

- The project prepares the 7th floor for the future renovation project, and makes the future project less expensive.
- The work will be performed at night, to minimize disruption to City Hall operations.
- The project will be awarded to a registered HUB firm.

Con(s):

- None

Fiscal Impact:

- Funding for this contract is already included in the adopted Capital Improvement Program (CIP).

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with E. Luke Greene Company, in the amount of $175,345, for the City Hall 7th Floor Asbestos Abatement project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $35,069 (20%).

RESOLUTION BOOK NO. 41 - PAGE 17

J. ORDINANCE NO. 4750 - BUDGET AMENDMENT FROM A DONATION FROM THE FRIENDS OF THE NATURE CENTER TO SUPPORT THE NATURE CENTER NEW FRONT ENTRANCE CAPITAL IMPROVEMENT PROJECT

Action Requested: Budget amendment, in the amount of $177,000, from a donation from the Friends of the Nature Center to support the Nature Center new front entrance capital improvement project.

Background:

- Renovation of the Nature Center front entrance was complete in September 2018.
- The total cost for the renovation was $1,197,000
- The funding sources for the project was TDA ($313,000) and The Friends of the Nature Center ($884,000)

- In 2015 the Friends of the Nature Center donated $627,000 to support the construction of the Nature Center new front entrance.
- The Friends of the Nature Center increased its donation by $80,000 for a new total of $707,000 to support increased construction cost of the Nature Center new front entrance.
- In 2018 the Friends of the Nature Center increased its donation again by $177,000 for a new total of $884,000 to support increased construction cost of the Nature Center new front entrance.
- Budget amendment for the first two Friends of the Nature Center donations were completed prior to starting construction of the Nature Center front entrance.
- The budget amendment of $177,000 is the final budget amendment to complete the Friends of the Nature Center donations for the Nature Center front entrance.

Council Goal(s):
- A Well-Planned and Livable Community

Committee(s):
- Recreation Board unanimously approved on May 13, 2019

Pro(s):
- Increases the amount of contribution from the Friends of the Nature Center to support construction cost of the Nature Center front entrance capital project, resulting in reducing the cost to the City's capital improvement budget.

Con(s):
- None

Fiscal Impact:
- The donation increases the City's capital improvement budget for the Nature Center front entrance.

Motion:
- Motion to approve a budget amendment to increase the capital budget of the Nature Center front entrance in the amount of $177,000.

ORDINANCE NO. 32 - PAGE 390

K. RESOLUTION NO. 19-163 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW THE EXISTING AGREEMENT WITH A&B CLEANING SERVICES FOR CUSTODIAL SERVICES

Action Requested: Adoption of a resolution authorizing the City Manager to renew a custodial services agreement with A&B Cleaning Services for a period of one year, retroactively authorize the renewal and expenditures for the past year of service, and authorize changes to the contract that will set a limit for providing these services to no more than five consecutive years.

Background:
- The City Hall Operations (CHO) Division of the Capital Projects Department provides a variety of services including custodial work at multiple locations. CHO in-house custodians service City Hall, the Municipal Building, and the Public Works Building.
- CHO is a lean operation with limited resources, and contracting work to third-party firms is needed to maintain current key performance measures.
- Remote facilities cleaned under the City's existing contract with A&B include six police sub-stations, the City Gas Station, Fleet Management Building, and the Armory.

- This contract was originally signed in October 2016 for a term to extend through June of 2017.
- The contract was renewed on July 1, 2017 for a period of one year by the City Manager.
- The contract was not officially renewed in 2018.
- The aggregate value of this contract currently exceeds $90,000, so approval by the City Council is required with retroactive approval of the expenses and services provided in the past year.
- The original contract also did not establish a limit for renewal and the suggested changes set a limit of no more than 5 years.
- While there is no way to confirm it, A&B's company profile states that they offer benefits and competitive wages to their employees.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. A&B Cleaning is a certified Historically Underutilized Business (HUB) identified on the HUB website as a black owned business out of Greenville NC. Although this company is not located in Asheville, it is anticipated that the majority of the employees will be hired locally.

Council Goal(s):

- Smart City

Committee(s):

- None

Pro(s):

- Allows third-party service work to continue as a supplement to in-house staff.
- Provides flexibility in service delivery without significant capital investment (e.g., vehicle, equipment, etc.).
- Allows the Division to maintain key performance measures.

Con(s):

- None

Fiscal Impact:

- Costs for these services are included in the General Fund allocation to City Hall Operations in Capital Projects for the current fiscal year. The contract is contingent on budget appropriations in future fiscal years.

Motion:

- Motion to adopt a resolution authorizing the City Manager to renew the existing agreement and authorize expenditures of $39,178.04 for the upcoming year of service, retroactively authorize the renewal and expenditures for the past year of service, and authorize changes to the contract that will set a limit for providing these services to no more than five consecutive years.

RESOLUTION BOOK NO. 41 - PAGE 18

L. RESOLUTION NO. 19-164 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES AGREEMENT WITH STANTEC CONSULTING SERVICES TO COMPLY WITH THE

AMERICA'S WATER INFRASTRUCTURE ACT (AKA SENATE BILL 3021)

Action Requested: Adoption of a resolution authorizing the City Manager to execute a Professional Services Contract with Stantec Consulting Services to comply with America's Water Infrastructure Act (AWIA) Senate Bill 3021

Background:

- The AWIA was signed into law on October 23, 2018. The Act requires that organizations like the City of Asheville conduct and certify a Risk and Resilience Assessment (RRA).
- The RRA will analyze the vulnerabilities and the effectiveness of existing countermeasures and develop the baseline, or draft risk analysis. The assessment will consider: malevolent acts, resilience of infrastructure, monitoring practices, financial infrastructure, use, storage, or handling of chemicals, and operation & maintenance of the system.
- Within six months an Emergency Response Plan must be submitted to address the RRA findings and establish plans, strategies, and procedures associated with potential hazards. The deadline for the RRA is March 31, 2020.
- In January of 2019, the Water Resources Department (WRD) issued a Request for Qualifications (RFQ) for the project.
- The scope of services include meetings, coordination, data collection, workshops, field investigations, development of the RRA, update water system management plan, training, and an operational sustainability plan.
- Stantec was the only firm responding to the RFQ. Their total estimate to complete the work is $382,502.36.
- Staff recommends entering into a Professional Services Contract with Stantec Consulting Services to comply with the AWIA Senate Bill 3021.
- Staff requests authorization to contract with Stantec Consulting Services for the estimated amount of $382,502.36 plus a 10% contingency in the amount of $38,250.24 for a total project budget in the amount of $420,752.59.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None

Pro(s):

- This project allows WRD to comply with the AWIA - Senate Bill 3021 in a timely manner in order to meet the regulatory deadlines.

Con(s):

- None

Fiscal Impact:

- Water Resources Department has funds in the Fiscal Year 2019-2020 CIP budget for this project and contingency.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a Professional Services Contract with Stantec Consulting Services for compliance with the America's Water Infrastructure Act - House Bill 3021 in the amount of $382,502.36 plus a 10% contingency in the amount of $38,250.24 for a total project budget in the amount of $420,752.59.

RESOLUTION BOOK NO. 41 - PAGE 19

M. **RESOLUTION NO. 19-165 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT TO DUKE ENERGY PROGRESS INC. FOR THE PURPOSE OF INSTALLING ELECTRIC SERVICE TO A WATER TANK ON CITY-OWNED PROPERTY ON CHARLOTTE HIGHWAY**

Action Requested: Adoption of a resolution authorizing the City Manager to grant an easement to Duke Energy Progress, Inc. for electrical utility improvements at the Water Tank site on Charlotte Highway (PIN #967721747100000).

Background:

- The Water Resources Department has recently built a new water tank on property located on Charlotte Highway in Fairview and has requested that electricity be extended to the new water infrastructure.
- Duke Energy is the provider of electrical service in this location and requests an easement to install additional electric infrastructure on City property.
- These electrical improvements include both underground lines and overhead power lines. The easement will be 30 feet wide for the overhead portion and 20 feet wide for the lines below ground. The amount of permanent easement is approximately 2,121 square feet.

Council Goal(s):

- A Well Planned and Liveable Community

Committee(s):

- None

Pro(s):

- The City will continue to provide safe and abundant water services.

Con(s):

- None.

Fiscal Impact:

- No compensation is offered for the easement and the Water Department Enterprise funds will be used to pay the ongoing electric costs after the improvements are constructed.

Motion:

- Motion to approve a resolution authorizing the City Manager to convey an electrical easement to Duke Progress Energy, Inc. (DEP) at the City water tank on Charlotte Highway.

RESOLUTION BOOK NO. 41 - PAGE 20

N. **RESOLUTION NO. 19-166 - RESOLUTION RATIFYING INTERLOCAL AGREEMENT WITH THE BUNCOMBE COUNTY SHERIFF'S OFFICE CONCERNING BUNCOMBE COUNTY ANTICRIME TASK FORCE EQUITABLE SHARING**

Action Requested: Ratification of an inter-local agreement and approval of an amendment to that agreement concerning distribution of forfeited funds seized by the Buncombe County Anti-Crime Task Force between the Buncombe County Sheriff's Office and the City.

Background:

- In August of 2015, the Asheville Police Department (APD) and Buncombe County Sheriff's Office (BCSO) entered into an agreement to operate a joint anti-crime task force (BCAT) charged with high-level drug interdiction.
- BCAT investigations sometimes lead to the seizure and forfeiture of money and property, which is then available to the agencies according to federal equitable sharing guidelines.
- In the past, seized funds have remained with BCAT as the fiduciary, however, due to recent federal guideline changes, those funds may not be maintained by an interagency task force, and must be redistributed to the overarching agencies.
- Recently, the BCSO and City have agreed to amend the agreement to share the forfeited funds, with the BCSO receiving 68.44 % and Asheville Police Department (APD) receiving 31.56%.
- Funds transferred to APD will be placed in a project fund within APD and used for furthering illegal drug investigations and related crime activities.
- Per N.C. Gen. Stat. § 160A-461, inter-local agreements must be ratified by the City Council.
- This action includes ratification of the original 2015 agreement, as well as the amendment concerning equitable sharing.

Council Goal(s):

- Connected and engaged Community

Pro(s):

- Will maintain compliance with federal equitable sharing guidelines.

Con(s):

- None

Fiscal Impact:

- None. Funds that previously were held by BCAT will be transferred to a BCAT project fund maintained by the Asheville Police Department.

Motion:

- Motion to adopt resolution ratifying the 2015 inter-local agreement concerning the Buncombe County Anti-Crime Task Force as well as an amendment concerning the distribution forfeiture funds between the Buncombe County Sheriff's Office and the City of Asheville

RESOLUTION BOOK NO. 41 - PAGE 21

O. RESOLUTION NO. 19-169 - RESOLUTION ASKING GOVERNOR COOPER TO VETO HOUSE BILL 370 AND INDICATING OUR SUPPORT OF THIS ACTION AND OUR ELECTED SHERIFF QUINTIN MILLER

Councilman Haynes read the following resolution: "WHEREAS, we are mandated to provide the service of public safety for all residents of the City of Asheville; and WHEREAS, we are grateful for our neighbors and all the gifts that they bring to the City of Asheville; and WHEREAS, we recognize the strength we have as a community when all of our residents in all of our neighborhoods can live without fear; and WHEREAS, the people of Asheville and Buncombe County duly elected Sheriff Quentin Miller under the mandate to fulfill his promise to keep the full community safe and to not cooperate with the Immigration and Customs Enforcement; and WHEREAS, N.C. HB370 would make it mandatory for NC Sheriffs to do something the Federal Government has said is voluntary (to cooperate with ICE detainers); and WHEREAS, because these detainers are not tied to criminal cases, they would require local sheriffs to hold individuals

without probable cause, in violation of their constitutional rights; and WHEREAS, forcing sheriffs to act as an extension of ICE diverts much needed taxpayer resources away from education, healthcare, childcare, housing, and other resources needed by every person in Asheville; and WHEREAS, making sheriffs comply erodes the community trust in local law enforcement, decreases the voluntary reporting of crime, and spreads fear throughout our immigrant communities; and WHEREAS, we believe that the best of our humanity and the best of local government happens when we support the full worth and dignity of all people and their families by helping to keep them safe in our community and together; and WHEREAS, we as a community are committed to protecting each other and to making Asheville a safe place in which to live; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: An official request be sent from this body to Governor Roy Cooper asking him to veto HB370 and indicating the support of this body for that action."

A gentleman and Rev. Amy Cantrell spoke in support of the resolution and thanked City Council for its adoption.

RESOLUTION BOOK NO. 41 - PAGE 24

Vice-Mayor Wisler said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Haynes and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT

APD Update on Gun Violence

City Manager Campbell updated Council on the press conference held on June 24, 2019, by Attorney General Josh Stein, in coordination with the Asheville Police Department (APD), Our Voice, Buncombe County Sheriff's Department and the District Attorney's Office. The conference was held to bring attention to the need for funding to address the backlog of sexual assault kits that need to be processed and tested. Of the total number of kits that are awaiting testing, the APD has submitted the most kits of all the communities in the state. That means that all kits currently in the possession of the APD have been reviewed and either already sent in for testing or are ready to be processed.

City Manager Campbell then asked Deputy Police Chief Jim Baumstark to provide a brief update on a disturbing trend that is occurring in Asheville related to gun violence that is affecting our city and communities. She noted that prior to coming to Asheville, she was in Charlotte, and according to the Charlotte Observer, as of June 20, 2019, there were 56 homicides committed in just 6 months, which is just short of the 58 homicides committed for the entire year of 2018. Unfortunately we cannot answer why these types of crimes are increasing in Asheville and in other communities. More importantly she wished we could say we have a solution. But, what we know for sure is that these acts of violence can't be solved by APD alone. It will take a community-wide effort to both own and help address this complex issue in our community.

Deputy Chief Baumstark It is important to note that the data discussed tonight is only as it relates to gun violence and not all violent crimes. Using a table, he highlighted the number of violent gun crimes reported with the percentage change from 2018 to 2019 year-to-date January 1 through June 23 each year.

Using a chart, he showed the visual month-by-month breakdown for the same data on violent gun crimes. Violent Gun Crimes in 2018 total 72: Homicide 5, Robbery - 23, and Aggravated Assault - 44. For 2018 they total 82: Homicide 2, Robbery 29; and Aggravated Assault - 51. May was an especially violent month for our community.

As of June 23rd this year, the Asheville Police Department (APD) responded to a total of 360 gun calls - that is calls for gun discharges, gunshot wounds, and persons with a gun. That is a 15% increase over 2018. The first quarter started off in line with 2018 while we've seen double-digit percentage increases in April, May, and through the 23rd of June.

He showed a density map which shows the Top 10 locations to which APD responded for gun calls. I need to note that 5 of these locations are in and around public housing communities. Of the top 10 locations for calls, people who live in and around Pisgah View, Deaverview, and Hillcrest areas combined for more than half of all calls for gunshot wounds, gun discharges, and persons with gun.

To put things in a historical perspective, since at least 2014 - other than 2016, each year we have seen an increase in gun crimes year over year. 2019 year-to-date, we have had an increase of 15% over 2018. Since 2016, gun crimes have increased 55%.

He explained that crime prevention and reduction must be a community effort. He said that this is bigger than APD and cannot be addressed by APD alone. It will take a community wide effort to address the complex issues of violence in our community.

APD efforts include: (1) Formed a Special Task Force working with state & federal partners; (2) Using data to deploy resources to areas experiencing violence & gun crimes; (3) Increased presence and engagement of residents, business owners & property owners in impacted areas; and (4) Collaborating with community organizations to identify and respond to the root causes of violent crime.

Regarding community efforts, (1) Encourage input and open dialogue about increased violence, drug epidemic, and gang violence; (2) Be aware of what's happening in your neighborhood; and (3) Take an active stance against violence - if you see or hear something, say something.

In summary, (1) Violent gun crime is up 14% year-to-date with an overall 55% increase since 2016; (2) Homicides are down 60% from the previous year to date; (3) Robberies are up 26% and aggravated assaults are up 16% from the previous year to date; (4) 5 of the top 10 locations to which APD received gun calls are in and around public housing communities, including the top 3 locations; and (5) We can and must work together to address this complex issue.

The APD alone cannot prevent gun violence. We must work together to provide the most accurate information in a timely and efficient manner. We can and must work together to address this complex issue.

Deputy Chief Baumstark responded to various questions/comments from Council and those questions he could not readily answer, he would prepare a memorandum for Council.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A STREET NAME CHANGE OF THE MOST SOUTHERN PORTION OF PARK AVENUE NORTH TO ARTFUL WAY

RESOLUTION NO. 19-167 - RESOLUTION TO CHANGE THE STREET NAME OF THE MOST SOUTHERN PORTION OF PARK AVENUE NORTH TO ARTFUL WAY

Emergency Address Coordinator Stuart Rohrbaugh said that this is the consideration of a resolution to change the street name of the most southern portion of Park Avenue N to Artful Way. This public hearing was advertised on June 14, 2019.

Action Requested: Public hearing date to consider a street name change of the most southern portion of Park Avenue North to Artful Way.

Background:

- Park Avenue North is a duplicated street name in the same emergency response area. The Haywood Road bridge was constructed in the 1970's and Park Avenue North was split into two different street segments. The most northern segment is planned to remain the same Park Avenue North street name. The southern segment is being considered to be renamed to eliminate the duplicate street name confusion.
- Timing for eliminating the duplicate street name is right as there are no occupied structures on the street to endure a street address change.
- Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing advertised with state open meeting laws.
- The Notice was posted prominently along the street, published at least once in a newspaper and mailed to all property owners adjoining the affected right-of-way.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Public Safety Committee - May 23, 2019 - supported the street renaming

Pro(s):

- Potential emergency response enhanced with a new unique street name.

Con(s):

- Cost and labor of replacing one street name sign.

Fiscal Impact:

- Material, fabrication and installation costs of the new street sign is included in the Transportation Department annual operating budget.

Vice-Mayor Wisler opened the public hearing at 5:37 p.m. and when no one spoke, she closed the public hearing at 5:37 p.m.

Vice-Mayor Wisler said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Haynes moved to adopt a resolution changing the name of the most southern portion of Park Avenue North to Artful Way. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 22

B. **PUBLIC HEARING TO CONSIDER A STREET NAME CHANGE OF WILBAR AVENUE TO LEE GARDEN LANE**

RESOLUTION NO. 19-168 - RESOLUTION TO CHANGE THE STREET NAME OF WILBAR AVENUE TO LEE GARDEN LANE

Emergency Address Coordinator Stuart Rohrbaugh said that this is the consideration of a resolution to change the street name of Wilbar Avenue to Lee Garden Lane. This public hearing was advertised on June 14, 2019.

Action Requested: Public hearing to consider a street name change of Wilbar Avenue to Lee Garden Lane

Background:

- The Lee Walker Heights property was rezoned to allow for a complete redevelopment of an existing housing development. The developer requested to name the proposed new access drive Lee Garden Ln. There is a short portion of what appears to be platted public right-of-way that connects Wilbar Ave to Short Coxe Ave. Since that portion of right-of-way appears to be public then only City Council can consider a street name change.
- Timing for changing the street name is right as there are no occupied structures on Wilbar Avenue to endure a street address change.
- Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing advertised with state open meeting laws.
- The notice was posted prominently along the street, published at least once in a newspaper and mailed to all property owners adjoining the affected right-of-way.

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Public Safety Committee - May 23, 2019 - subsequently supported the street renaming after hearing input from Asheville Housing Authority on how the proposed new name originated

Pro(s):

- Potential emergency response enhanced with a new unique street name before new construction. occurs.

Con(s):

- Cost and labor of replacing one street name sign.

Fiscal Impact:

- Material, fabrication and installation costs of the new street sign is included in the Transportation Department annual operating budget.

Vice-Mayor Wisler opened the public hearing at 5:39 p.m., and when no one spoke, she closed the public hearing at 5:39 p.m.

Councilman Young said that his family was one of the first families to move into Lee Walker Heights and he felt that changing this street name will erase the history of Lee Walker Heights.

Councilwoman Smith said that at the Public Safety Committee meeting, she asked the developer to make sure they reached out to the community on the proposed name change. She didn't want a street name change to be perceived as an indicator of displacement. Lee Garden Lane is a name that was chosen and endorsed by the community to commemorate the name "Lee Walker" and also a garden that was very beautiful at the base of Lee Walker Heights.

Vice-Mayor Wisler said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Smith moved to adopt a resolution to change the street name of Wilbar Avenue to Lee Garden Lane. This motion was seconded by Councilman Haynes and carried on a 6-1 vote, with Councilman Young voting "no".

RESOLUTION BOOK NO. 41 – PAGE 23

C. PUBLIC HEARING TO CONSIDER REZONING 990 SWEETEN CREEK ROAD FROM INDUSTRIAL DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT

ORDINANCE NO. 4751 - ORDINANCE TO REZONE 990 SWEETEN CREEK ROAD FROM INDUSTRIAL DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to rezone 990 Sweeten Creek Road from Industrial District to Commercial Industrial District. This public hearing was advertised on June 14 and 21, 2019.

Action Requested: Rezone the property located at 990 Sweeten Creek Rd. (PIN 9657-22-7697) from Industrial (IND) to Commercial Industrial (CI) for the purpose of supporting commercial development compatible with adjacent industrial and commercial industrial uses.

Background:

- The subject property includes a single 0.33 acre lot zoned Industrial (IND) located on the southeast corner of Sweeten Creek Rd. and Sweeten Creek Industrial Park.
- The property has high visibility and is easily accessed from both Sweeten Creek Rd. and Sweeten Creek Industrial Park with driveway entrances on each.
- The subject property is currently developed with a small commercial structure (approx. 2,000 s.f.) along with a small parking area, and is directly adjacent to existing warehousing and distribution uses.
- The existing structure is currently vacant but had most recently been used as an office.
- The subject property is bordered by Commercial Industrial (CI) zoned properties to the north, across Sweeten Creek Industrial Park; and to the west, across Sweeten Creek Rd. The property is also directly adjacent to IND zoned properties to the east and south.
- The purpose of the IND zoning district is to reserve land for existing and future industrial activities and for land uses that support industrial activities. The IND zoning designation does not allow for more common commercial uses (i.e. retail, entertainment, restaurants, etc.).
- The purpose of the CI zoning district is to provide areas for a wide range of commercial and industrial uses.
- The 0.33 acre parcel is very small and unlikely to be used for an industrial purpose.
- The area is identified as Industrial/Manufacturing on the Future Land Use map, which describes what are typically larger tracts of land located near existing transportation and utility infrastructure. These properties may require some separation of heavier industrial uses from more sensitive uses but can generally be appropriate neighbors to other commercial or mixed-use areas (p. 344-345).

Council Goal(s):
- A Thriving Local Economy.

Committee(s):
- Planning & Zoning Commission - June 5, 2019 - unanimously to support the request

Pro(s):
- Supports the adaptive re-use of an existing structure.
- Aligns with the Future Land Use Map, Industrial/Manufacturing, in the Living Asheville Comprehensive Plan, in that the proposal allows for a broader range of uses that can be compatible with the existing and future industry in the area.
- The proposed zoning, if adopted, would allow for commercial and service uses that may directly support and serve the surrounding businesses, employees and residents (i.e. coffee/sandwich shop).

Con(s):
- Results in the loss of IND zoned property that could be combined with adjacent properties for new or expanded industry.
- Not all permitted uses in the CI zoning district may be compatible with the existing industrial uses.

Fiscal Impact:
- None

Vice-Mayor Wisler opened the public hearing at 5:45 p.m.,and when no one spoke, she closed the public hearing at 5:45 p.m.

When Councilman Haynes asked what the plans were for this building, Ms. Vrtunski said that she was not sure; however, she was aware that the building would not be demolished. She also noted that whatever uses are allowed in the Community Industrial District would be allowed on this property, if rezoned.

Vice-Mayor Wisler said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve the rezoning request from Industrial District (IND) to Commercial Industrial District (CI) thereby assigning a zoning designation that is compatible with the surrounding properties and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the rezoning will, 1) support the adaptive reuse of the existing structure; and, 2) will allow for a broader range of uses that will support and serve the surrounding businesses, employees and residents. This motion was seconded by Councilman Haynes and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 391

D. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 20 BATTERY PARK AVENUE AND KNOWN AS THE FLAT IRON BUILDING FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/CONDITIONAL ZONING FOR THE RENOVATION OF AN EXISTING BUILDING TO INCLUDE A RESTAURANT, RETAIL SPACES, COMMERCIAL OFFICE SPACE ON THE 2ND FLOOR AND 71 LODGING UNITS ON FLOORS 3-8

ORDINANCE NO. 4752 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 20 BATTERY PARK AVENUE AND KNOWN AS THE FLAT IRON BUILDING FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/CONDITIONAL ZONING FOR THE RENOVATION OF AN EXISTING BUILDING TO INCLUDE A RESTAURANT, RETAIL SPACES, COMMERCIAL OFFICE SPACE ON THE 2ND FLOOR AND 71 LODGING UNITS ON FLOORS 3-8

Planning & Urban Design Director Todd Okolichany said that this is the consideration of an ordinance to conditionally zone property located at 20 Battery Park Avenue and known as the Flat Iron Building from Central Business District to Central Business District Expansion /Conditional Zone for the renovation of an existing building. On May 14, 2019, the petitioner withdrew his application (which requested 80 lodging units and no office space) in order for the applicant to have further dialog with the community about the proposal. The petitioner has revised is application to include a restaurant, retail spaces, commercial office space on the 2nd Floor and 71 lodging units on Floors 3-8. This public hearing was advertised on June 14 and 21, 2019.

Action Requested: Consider a conditional zoning petition for property currently zoned Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ)

Project Location and Contacts:

- The project site consists of a 0.13 acre parcel located at 20 Battery Park Avenue (PIN 9649.30-3481) and owned by Midtown Development Association LLC.
- Petitioner: Russell Thomas and Philip Woollcott; Contact: Chris Day.

Summary of Petition:

- The proposal is for the renovation of the iconic Flatiron building, an existing eight floor structure built in 1926 and designated as a local historic landmark. There is a small rooftop addition proposed and activation of the street level along Wall Street.
- The uses proposed have been revised from the previous submittal and now include 71 lodging guestrooms (*reduced from 80*), a floor of office space (*previously not included*) and the retail and restaurant spaces on the ground level.
- The petition includes a rezoning via conditional zoning from Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ) due to the lodging use, which is prohibited in the CBD zoning district.
- The Future Land Use category is Downtown, where lodging uses are permitted as described in the Comprehensive Plan Consistency section of this report.
- The project includes widening the sidewalk along Battery Park Avenue from between 15.5 and 25.5 feet with a maintained clear pedestrian path of at least eight feet.
- Streetscape improvements proposed along Battery Park Avenue include the conversion of six existing angled on-street parking spaces to one (ADA) accessible parallel space and one enlarged loading zone (net loss of five metered parking spaces). The City will grant an easement/license agreement at fair market value to the Applicant for the loading zone area, so that it may be used exclusively by the Applicant for hotel valet parking. Plans also include relocating a crosswalk and creating a bulb-out in front of the flat iron sculpture for public gathering.
- Accessible pathways will be provided from activated entrances/exits along Wall Street (similar to other businesses along the block) but otherwise no streetscape or pedestrian improvements along this facade are included so as not to disrupt the cohesive aesthetic streetscape design in place along the entire length of Wall Street.
- Parking needs for lodging guests and visitors to the restaurant uses is proposed to be managed by a valet service.
- The applicant is requesting the following conditions to be approved for this project:

- Provision of a loading zone which would otherwise not be permitted on a Key Pedestrian Street or primary access corridor (Battery Park Avenue).
- While the UDO requires that guest drop off areas shall be located at the interior of the site and not along the primary access corridor, the placement of this existing building results in the Applicant not being able to comply. The Applicant proposes to obtain an easement or license agreement from the City for fair market value in order to create a loading zone on Battery Park Avenue. This proposal and condition changed since the project was reviewed by the Planning and Zoning Commission.
- A minimum of 36 parking spaces are required to be provided for the lodging use; however, the applicant cannot comply on-site due to their reuse of the existing structure. Off-site spaces will be secured at various locations that are likely to exceed the maximum distance allowed for remote parking (500 feet).
- The sidewalk does not meet the district's minimum width of 12 feet along Wall Street and existing materials do not comply with accessibility standards.

Comprehensive Plan Consistency:

- This proposal is largely consistent with the Living Asheville Comprehensive Plan in that the Future Land Use Section and Map encourages prioritizing pedestrian infrastructure and the adaptive reuse of historic buildings in Downtown. The plan also acknowledges that while lodging and hotels are part of what makes Downtown the primary commercial center of the city, they *"must be considered in context with other development so that the variety and mix of uses, which give downtown its distinctive character is not compromised"*. While the goal of maintaining the right mix of uses downtown was noted in the list of concerns forwarded by the Downtown Commission and by several City Council members during public hearings for other lodging proposals over the past year, staff does not have evidence that this specific proposal will detract from downtown's vitality.

Compatibility Analysis:

- The historic building would be preserved with high quality upgrades completed according to the Secretary of the Interior's Standards and include essential life safety upgrades and the retention of active uses along the street-level of Battery Park Avenue.
- The use is compatible in a downtown setting; however, there are at least 10 lodging facilities within less than a half mile radius from this site with two hotels directly across the street on the same block; future lodging proposals in this area may be incompatible.
- While the proposed on-street loading space and its use to support valet service for (off-site) parking management may add to congestion in the immediate area where double-parking and large amounts of loading/deliveries exist, parking impacts for lodging are projected to be less than the current office use.
- Proposed streetscape enhancements provide an enhanced pedestrian experience and enlarged public gathering spaces but come with a loss of 5 metered on street (public)parking spaces. This prioritizes the pedestrian as encouraged in the Comprehensive Plan.
- Trash collection is currently managed with roll-out bins on Wall Street; refuse impacts may or may not increase with the new uses and impacts will be largely dependent on management by owners.

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Historic Resources Commission - November 14, 2018 - certificate of appropriateness issued

- Technical Review Committee - February 4, 2019 - approved with conditions
- Downtown Commission - February 8, 2019 - approved design review (7-3)
- Planning and Zoning Commission - April 8, 2019 - recommended approval (4-2)

Staff Recommendation:

- Staff finds that the public benefits of the project- including needed life safety upgrades and the overall rehabilitation and preservation of an iconic historic building in downtown, coupled with the conditions proposed by the Applicant that minimize impacts stemming from this change of use- outweigh identified concerns, and can recommend approval of this project. Staff notes that although this use may be well represented in the immediate area (with ten hotels within less than a half a mile of this site) that the City has not adopted specific criteria to determine when additional lodging will detract from the mix of uses that gives its "distinctive character" as described in the Comprehensive Plan. Additionally, while the parking and guest drop-off standards required by the UDO for this use are an effective tool for minimizing impacts in new construction projects, it is not feasible for adaptive re-use projects, especially those in our dense, urban core. That the project proposal will displace small businesses from existing office spaces is also a concern, as our Comprehensive Plan places emphasis on "Promoting Small and Independent Business, Entrepreneurship, and the Maker Economy". Staff acknowledges that this displacement could occur with the advent of any rehabilitation proposal for this building, and is not tied to the proposed use. Also, office uses have been added to the revised development proposal so the impact on small businesses may not be as significant as anticipated in the earlier proposal.

Upon inquiry of Councilman Haynes about the May 14 meeting and whether it was a continuance or a withdrawal (as the applicant requested), Mr. Okolichany said that even though the applicant's attorney did say he wanted a withdrawal, it was his intent to go back to the community for more dialog as Council requested. That was how staff interpreted the request. In the future, staff will make sure that the applicant understands and uses the correct wording so that Council is aware exactly what the applicant is requesting.

Councilman Kapoor noted that there was a similar project on Biltmore Avenue where this withdrawal/continuance occurred so we are not changing the process with this applicant.

Mr. Wyatt Stevens, attorney representing the Flatiron Preservation Group, apologized to Councilman Haynes for any confusion he created with the words that he used at the May 14 public hearing, but he did appreciate to be back before Council. At the May 14 meeting they heard from voices on all sides of this issue. One common theme was that the Flatiron Building is an icon and important building and we need to preserve it. Councilwoman Mayfield asked that they sit down with their opponents, experts in the field of historic renovation, experts in the field of real estate development, people who understand the financing of projects of this nature, and see if they could collectively come up with the best decision for the Flatiron Building. They did that. Over the last six weeks they had meetings, telephone calls, and e-mails. They met with people that understand the history of this building even before it was purchased by Midtown Development Group in 1985. They met with folks like Doug Ellington, whose name is associated with a lot of the famous architecture in Asheville. They met with bankers who understand financing. They asked if there were any philanthropists that would be willing to put the necessary money in to purchase, preserve and protect this building - no one came forward. They asked if there was a bank willing to lend the money necessary to protect and preserve this building - no one offered to lend money to keep this building as commercial office space. Along the way there were questions asked about the estimated amount of $10.5 Million that it would take to protect and preserve the building. It is true that a sprinkler system is not required because the building is grandfathered. However, if you are going to do the kind of renovations you need to do to protect and preserve the building long-term, you will need a sprinkler system. The renovation will also

include an Americans with Disabilities Act elevator; a new HVAC system; substantial upgrades to the plumbing system; and an entirely new electrical system. The biggest concern from their outreach was the loss of commercial office space. He said there is ample commercial office space in downtown Asheville; however, they went back to the drawing board and now their proposal has an entire floor of office space and they can still make the project work financially. They feel that this project will be better for preserving a core part of what the building has always been and that is commercial office space. They have already agreed to preserve retail space on the main level, which will be earmarked for local businesses. They hope that local businesses will occupy the commercial office space. At the end of this project, the building will be restored, safe, accessible and will be there for future generations at no cost to the City of Asheville. The City will still collect $2 per night per room, which present value of that over 20 years is over $500,000. The property tax revenue for the City is anticipated at 2.1 Million over 20 years. The building will employ more than 30 people and be a living wage certified business. They have already reached out to Green Opportunities and hope to use this as a training ground for employees to work their way up through the system. This will be a local owner, local architect and local contractors. He saw an article in the paper that says new information has been uncovered about one of the owners and his criminal background - Marshall Kanner. Evidently Mr. Kanner is a convicted felon and served time and he is now out of prison. He is a minority/passive owner of Midtown Development Associates, LLC. He is not a manager of that LLC and he is not a manager of the Flatiron Project. That fact is totally irrelevant to the issue before Council as to whether to approve a conditional zoning request. It is legally and factually irrelevant. If the conditional zoning is approved, Mr. Kanner will have no involvement in the project. The decision to approve this project is the right thing to do.

Upon inquiry of Vice-Mayor Wisler, City Attorney Branham said that any land use issue is a legislative one and one made by the Council based upon certain factors which are prescribed by state law. N.C. Gen. Stat. sec. 160A-383 provides the authority for Council to make these decisions and specifically prescribes the factors to be considered of whether or not the proposed plan is consistent with the approved area plans, whether or not the proposed use is reasonable and in the public interest. That is the limited factors that can be considered pursuant to state statute. Some relevant case law that could be considered as a limiting factor suggests that your decisions should be based on a regulation of the use of the property not of specific activity or ownership of the property. That encompasses primarily what is listed on both the state statutes and relevant case law with regard to your decision-making process. The word "reasonable" is not further defined in the statutes and that is left up to a certain amount of discretion of the legislative body.

Councilman Young said that at the May 14 meeting the applicant was asked how long he owned the building. Mr. Russell Thomas replied that it was about 33 years. He was then asked a question about deferred maintenance and before Mr. Thomas could answer, Mr. Stevens said that the project has not cashed flowed enough to perform maintenance and Mr. Thomas said it takes too much money to do the maintenance. He was curious as to once the ownership began and the property in 1985, what was the immediate maintenance schedule on the building shortly thereafter. Mr. Stevens responded that he represents the Flatiron Preservation Group (the prospective buyer) of the property. He did not represent Mr. Thomas or Midtown Development Group LLC (the seller). From the public records, a general partnership called Midtown Development Associates purchased the property in 1985 and there was some question raised in a newspaper article referring a Citizen-Times article from that timeframe questioning whether there was bond money. It was his understanding after talking with Mr. Thomas, that the Flatiron Building and Midtown received no dollars from the City, and no dollars from any governmental source. According to the deed of trust, they borrowed $600,000. He doesn't know if they borrowed anymore than that and he doesn't know what their specific maintenance schedule was. In talking with various people over the last 6 weeks, one of the things they learned was that building, according to the broker Chuck Tessier who was involved in the sale, it had 10%

occupancy rate in 1985. Mr. Thomas has told him it required a lot of work to get it into shape before he could even rent it again and open it backup to commercial tenants. He suspected that the money they borrowed went into acquisition and simply getting it back up to speed. When you look at the numbers since then, the building has enabled Mr. Thomas to make a living, but he works every day to keep that building together. Now in 2019 we can second-guess whether Mr. Thomas and his partners could have invested more into the building over the years, but that issue is behind us. Now you have a development group who is prepared to buy this building and put the necessary money in to fix it up in the way it needs to be fixed up.

Councilman Young said that what he has heard was part of the reason we should approve this is because of the deferred maintenance. On May 14 when the owner was asked about the deferred maintenance, no answer was given. The question of what was the maintenance schedule on the building in 1985 is not being answered. In light of the recent information that has come before Council, we have a newspaper article that says there possibly were some funds given. He read a quote from the City Attorney Bradham "While we have been unable to locate the original MOU between the City and Sunbelt, the Resolution authorizing that MOU as well as the third Amendment to the MOU (which we do have a copy of, and which is attached) suggest that the focus of the Wall Street redevelopment project was on the construction of the Wall Street parking deck, the repaving of Wall Street, and the performance of smaller-scale improvements to both the Anderson Building and the Flat-Iron building. Given that Sunbelt conveyed the Flat-Iron building to Midtown shortly before the start of the Wall Street redevelopment project, and given that there is no separate agreement between the City and Midtown, it seems likely that, if work was in fact performed on the Flat-Iron building, it was likely performed by Sunbelt pursuant to the MOU between the City and Sunbelt. Although we do not know what work on the Flat-Iron building was planned or if it was ever performed, we have confirmed through a title search that no deed or use restrictions were placed on the Flat-Iron building in relation to the Wall Street redevelopment project of the mid-80's." He said that tells him that there was some money somehow exchanged to do some sort of work on this building, whether the City was a pass through or not. Based on our conversations this afternoon, Mr. Stevens acknowledged that he hasn't yet reviewed the title to see if they borrowed any money on that building other than the $600,000 in the deed of trust in 1985. If there was money given to do maintenance on this building, he wanted to know what maintenance was done in 1985 and what was the maintenance schedule. In light of not knowing that and the newspaper article said that the City possibly gave almost $1 Million, he was not comfortable moving forward without getting definitive answers about if the City did put money into the project, if maintenance was done, and what their deferred maintenance schedule was.

Mr. Stevens said what he understands as a lawyer is that there is nothing in the chain of title, and nothing in the City archives to suggest that the City of Asheville or any governmental authority gave money to the entity that has owned this building for the last 33 years. No evidence. The Amendment, which he has not read, states that money went to a predecessor in title, which is legally different than going to the entity that Councilman Young is critical of for not maintaining the building in his view of the last 33 years. He thought that area needed a lot of help and there was money used to build the Wall Street Parking Deck, money used to improve Wall Street and he was not aware of any evidence to suggest that the Flatiron Building received any improvements during the period of time that Midtown Development Associates, a general partnership which included Russell Thomas, owned it. Mr. Thomas assured him that they received no such money. There is no evidence to suggest they did and he would say that even if there were, and there isn't, what relevance does that have to a rezoning decision in June of 2019? It is not legally or factually relevant.

Councilman Young moved, pursuant to Rule 19 (h) of the Asheville City Council Rules of Civil Procedure, to postpone consideration of a motion considering the conditional zoning request for the Flatiron Building from Central Business District to Central Business/Expansion

District/Conditional Zoning to the next regular meeting of the City Council on July 23, 2019, at 5:00 p.m. so that Council may have adequate time to consider all relevant information prior to a final vote. This motion was seconded by Councilwoman Smith.

Councilman Kapoor asked if potential City dollars being used (which they have found no evidence of that occurring) and the issue of deferred maintenance are relevant considerations to the use decision that Council must make. City Attorney Branham said that at this point the City Attorney's Office focus was to determine whether or not any land use restrictions or security interests from any previous potential donation, grant or bond money existed on this property such that it would be relevant to any consideration by Council. We have determined definitively that that is not the case. We cannot say specifically what arrangement did occur - the detailed documents simply do not exist that we are able to discover. We can say that there were arrangements with a predecessor of interest to do some work in the area. We cannot speak to exactly what that scope was at this point. Previous monies were expended likely were spent on a construction project per the memo involving the construction in the parking deck that is adjacent to the property and some additional infrastructure and streetscape improvements that may or may not have included some limited tie-in work to the buildings, including the Flatiron Building. At this point, he did not believe that there are any land use restrictions or security interests that would weigh on any decision Council would make. Regarding deferred maintenance, he said that as a legislative determination, there is a certain amount of subjectivity the Council should be able to consider. He would say from a legal standpoint that he has not seen anything in the search that his office has performed that he believed would rise to the level of a legal factor to be considered under the statute as read.

The motion made by Councilman Young and seconded by Councilwoman Smith failed on a 3-4 vote, with Mayor Manheimer, Vice-Mayor Wisler, Councilman Kapoor and Councilwoman Mayfield voting "no".

Vice-Mayor Wisler opened the public hearing at 6:26 p.m.

Four individuals spoke in support of the conditional zoning to the Flatiron Building, for many reasons, but the common theme was that there is now one floor dedicated to commercial office space and the Flatiron Building has served the purpose of a business incubator and it's time to let them repurpose the building.

Twenty-three individuals spoke in opposition of the conditional zoning to the Flatiron Building, for many reasons, but the common theme was that the downtown does not need any more hotels, local businesses will be displaced and increase traffic with no additional parking.

Vice-Mayor Wisler closed the public hearing at 7:34 p.m.

Councilman Kapoor appreciated everyone reaching out the Council. About a year ago someone reached out to him to tell him they were considering turning the Flatiron Building into a hotel. He thought there would be no way he could support that. What changed his mind was repeated meetings with the developers and asking hard questions to really understand what the project was and what the other options were. The facts are (1) there currently is no sprinkler system in the building; (2) they have elevators similar to City Hall and when they break down they have to have special made parts; (3) they need a new HVAC unit; and (4) they have to redo their electrical system. That costs an incredible amount of money; and to turn that into office space is $10.5 Million, on top of the purchase price. All of Council has had the ability to ask the developer to show them the numbers and ask questions for months. That is why he didn't see any reason to postpone the vote. He is incredibly sympathetic to the concerns about the small businesses, but long-term he does not see this building being able to continue in the way it is now. He is now

convinced that the proposal before Council is in the long-term best interest of preserving this building for the City of Asheville.

Vice-Mayor Wisler noted that she voted for less hotels than any other member of Council, other than Councilman Haynes. She strives to look at each zoning decision individually. She focuses on our plans, congestion, neighborhood compatibility, the project's potential enhancement to the City and preservation, along with other factors. This project, including the retention of one floor of office space and developing a solution for parking has improved since it was originally presented. She also has looked at the cost to renovate the building and the potential income from office tenants. She doesn't believe that office rents can support the cost of renovation, to have viable heating, cooling and health/safety infrastructure. People may say that the owner's should have been keeping the building up and we shouldn't be in this position of having significant costs facing them. But we are where we are. She wants to see the Flatiron Building remain. She doesn't want to look back 10 years from now watching the building get torn down because it wasn't kept up or that the results of it's poor health/safety infrastructure caused harm to tenants or our first responders. While she would love to see another use for this building, she didn't think the numbers work out. Losing the building doesn't seem the right answer.

Councilwoman Mayfield agrees that the goal that everyone shares about this project is the preservation of this historic and iconic building. She wishes that could happen with the building remaining in its current use as offices for local businesses. That would absolutely be the best outcome. At the last hearing, Council raised a number of concerns starting with the fundamental question of whether there were other options for the future of the building. The developer did meet our request and met with both opponents and mutual parties to determine if there were other viable options and none emerged. Nor have any emerged from any other source in the six weeks this has been part of the public dialogue. The developer also partially addressed our concern about displacement of local businesses by dedicating one floor for offices. Not as much as we might have wanted, but it is an improvement over the previous proposal. They have also met her concerns around parking and valet issues. With these requests having been met and concerns having been addressed and there being no clear path to a different future use for the Flatiron Building, she is now compelled to support this project. She is not happy about this decision but she cannot keep moving the goal-posts just to avoid a vote she doesn't like. She stands by her statement that we are sunk if the only way for property owners in downtown to be successful is to build a hotel. But this building is different for many reasons and she can understand how the only path forward for this building involves the high return that comes only with a hotel. She does not like it, but she understands it. Based on the information available to her, she is choosing a certain future of adaptive reuse and preservation of the Flatiron over an uncertain future that includes continued decline. She wanted to walk-back something she said at the May 14 meeting, that this building represents the sole of the City. Even though others have said the same, upon reflection, the sole of our City is not embodied in a building, even one as special as the Flatiron. Instead it is in the beautiful, messy, complex mix of our highly engaged people and businesses who disagree and fight but who also come together and work hard on a daily basis to make our City a better place. That is the sole of this City.

Councilman Young said that we have continued work to do as it pertains to the issues of tourism and hotels in Asheville and how we move forward on a case-by-case basis. He believed there is an aspect of public interest that has not been met. Someone made a statement about how many rooms is enough, what do we determine is a saturation in downtown, how do we make these specific stipulations on what we do and do not want in our downtown core, and how that shapes the way that Asheville fundamentally will look - not only in the next six months, but the next 60 years. The City Manager has challenged us to do so and we have not met that challenge. This is a good opportunity to go back to the drawing board and figure it out. The public should be a big part of that. How that moves forward he doesn't know but he does know this is not working for developers or people who have an interest that Asheville grows in a way

that they can remain here and their way of life is not greatly affected. As elected officials we are challenged to please everyone, but what we can do is keep the public's interest at heart and make sure that we shape our City moving forward with everyone having a seat at the table.

Vice-Mayor Wisler said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve the conditional zoning request for the Flatiron Building from Central Business District (CBD) to Central Business Expansion District (CBD EXP CZ) for the renovation of the existing building for lodging and ancillary uses and find that the request is reasonable, is in the public interest and is consistent with the Asheville Living Comprehensive Plan because: (1) the Downtown Future Land Use category of the Living Asheville Comprehensive Plan allows for hotels; (2) rehabilitation and adaptive reuse of the iconic Flatiron Building will preserve this historic landmark and will be done under close and appropriate review; (3) the project provides much needed life safety upgrades; and (4) proposed streetscape enhancements will improve the public realm by activating the area and allowing for more flexibility of the use of Battery Park Avenue. This motion was seconded by Mayor Manheimer and carried on a 4-3 vote, with Councilman Haynes, Councilwoman Smith and Councilman Young voting "no".

ORDINANCE BOOK NO. 32 – PAGE 394

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Reid Thompson, Ms. Brandee Boggs and Mr. Joe Minicozzi showed videos while expressing their concerns of commercial trucks on the residential Maxwell Street.

Ms. Sandy Aldridge urged Council to put domestic violence on the forefront again.

Ms. Sarah Benoit spoke about the election districts and the worksession on July 2, 2019.

Mr. Jonathan Wainscott spoke in support of election districts.

Mr. John Brigham spoke about the need for an independent School Board for the Asheville City School system.

VIII. ADJOURNMENT:

Vice-Mayor Wisler adjourned the meeting at 8:11 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – July 2, 2019 - 5:00 p.m.

Worksession to Discuss Legal Options regarding Election Districts

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Vice-Mayor Wisler moved to suspend the rules and allow public comment. This motion was seconded by Councilwoman Mayfield and carried unanimously.

City Attorney Branham informed the Council that this presentation is intended to provide information regarding the effect of Senate Bill 813 on our local election system and our legal options for addressing it. In preparation for the presentation, he reviewed the relevant law and consulted with legal and subject matter experts in the field. He is not personally an expert in election law, but does feel competent to address this issue. He will provide details about our legal and legislative options, but will not offer opinions or recommendations about legal strategy. This will allow for the protection of the necessary attorney-client privilege in the future.

City Attorney Branham explained in detail the following presentation, starting off with the following are powers of municipalities in North Carolina. Under the North Carolina Constitution, cities and counties are essentially creatures of the state. Article VII gives the General Assembly the power to "provide for the organization and government and fixing the boundaries of counties, cities and towns." Municipalities have no inherent powers; they have only such powers as are delegated to them by legislative enactment.

Where we were before Senate Bill 813: (1) All City Council Members elected at large; (2) Elections were nonpartisan with primaries; (3) City Council elections in odd numbered years; and (4) All terms were four years and staggered.

Where we are today: (1) City is divided into 5 Districts' (2) One Council Member shall be elected from each district, and one and the mayor from the city at-large; (3) Elections will be nonpartisan plurality method with no primary; (4) Elections will be in even numbered years; and (5) All terms remain four years, staggered

This means for City Council elections: (1) The next election for City Council Members will be held in 2020, and then again in 2022. No primaries will be held; (2) 5 Candidates will be elected from the District in which they reside by the voters in those respective Districts; (3) The Mayor and 1 at-large member will be elected from the City as a whole; and (4) No Effect on duration of terms, except for initial extension of 1 year. (* *Bill Ratified June 29th, 2018)*

Council's legal options include (1) Do Nothing; (2) Amend City's Charter; (3) File a Claim Challenging the Law; or (4) Combination of Options.

Council's legal options include; (1) do nothing; (2) amend City's Charter; (3) file a claim challenging the law; and (4) combination of options.

Option 1. Do Nothing. By taking no action, the City's Charter will remain changed by SB 318. This means:

- Next Council elections in 2020
- Plurality Method (No primaries)

- The five districts will remain in effect
- But the City maintains its right to amend its Charter in the future
- City also maintains its right to file a claim until June 2021

Option 2. Amend the Charter. The City may amend its Charter unilaterally (NCGS § 160A-102). By Amending, City may select its own form of government including the following options (NCGS § 160A-101):

- Election of ALL Council Members at large, or
- Elections based upon variety of district formats
- Partisan or nonpartisan
- With or without a primary

No option is provided for a City to opt for elections in odd-numbered years. **Statutory silence on this suggests that such action would like be legally invalid. UNC School of Government agrees that a local act would be needed.*

Two Primary Amendment Options

1. Reinstate all Council positions to at large elections using the Nonpartisan Primary and Election method. (NCGS § 163A-1618)
   - *This would provide nearest possible return to previous election process. Elections would remain in even years.*

2. Maintain Districts, but reinstate primaries. (NCGS § 163A-1618)
   - *Districts can also be modified to allow for candidates to be nominated in primaries and finally elected by voters within their districts, or from the City at-large.* (NCGS § 160A-101 (6),(7))

Important Considerations

- Any Charter amendment must remain in force for at least two years following the election of any Council Member under the new format. (NCGS § 160A-107)
- Any amendment must be adopted at least 90 days before the first election for any member of Council. (NCGS § 160A-109)
- Council may require the amendment to be subject to a public referendum, but shall be subject to a proper referendum petition. (NCGS § 160A-102)
- Any Charter amendment is subject to potential action by the General Assembly.

Pros

- City can act unilaterally
- Action can address as much or as little as desired
  - *Excluding a change to odd year elections*
- Avoids significant costs of litigation

Cons

- An amendment can be undone by the State

- May result in less goodwill and additional provocation from the Generally Assembly

Option 3 . File a Claim.

Comparing Asheville to other Municipalities that have filed claims against State action regarding local elections....

- City of Greensboro v. Guilford County BOE
  - Districts already existed, but were redrawn by State.
  - State also temporarily removed the right of Greensboro voters for a referendum to change the election format.
  - Court held that the removal of referendum was a violation of the 14th Amendment, because these citizens were stripped of a right which others had without a rational basis.
  - No defense from BOE or State; No ruling on the District issue.

Comparing Asheville to other Municipalities that have filed claims against State action regarding local elections....

- Raleigh Wake Citizens Association v. Wake County BOE
  - Districts also previously existed in this case.
  - State law altered County and School Board districts.
  - Court held this particular redrawing was a violation of the Equal Protection clause of the14th Amendment (One Person, One Vote doctrine).
  - Population deviations in the new Districts were based upon "illegitimate reapportionment factors."
  - Districts populations should be within 10% deviation.
  - No racial gerrymandering found.

Option 3 - 3 Primary Potential Claims for the City **All Claims arise from the 14 Amendment of the U.S. Constitution, and similar provisions in the North Carolina State Constitution.*

A. Equal Protection Claim (*ex. Greensboro)*

Equal Protection Claim ("General Discrimination")

- Legal Standard - City must prove that it has been treated differently from others similarly situated as a result of intentional or purposeful discrimination.
- If this is proved, State must show that it had a rational basis for the disparity. (The action is *rationally related to a legitimate government purpose*).
- Rational Basis test is a very low bar
- Higher standard (Strict Scrutiny) only applies if a fundamental right or a suspect class is affected.

Projected Legal Costs: $500,000

B. One Person, One Vote Claim (*ex. Wake Co.)*

One Person, One Vote Claim ("Diluting the Votes")

- Legal Standard - Districts with less than **10% population deviation** are presumed valid. If our Districts are within 10%,City must prove that improper or illegitimate considerations predominate the reasons for the new Law.
- This is judged on a preponderance of the evidence standard (More probable than not).
- Courts have said that "attacks on deviations under 10% will succeed only rarely, in unusual cases."
- Population counts were based on the 2010 Census. Updated figures won't be available until 2021.

Projected Legal Costs: $100,000 - $500,000

C. Racial Gerrymandering/Voting Rights Act Claim

Gerrymandering/Voting Rights Act Claim ("Racial Discrim.")

- City must show that race was the predominant factor motivating the Districts' shape and/or demographics.
- In addition, City must prove that the legislature subordinated traditional race-neutral districting principles to racial considerations.
- Once this burden is met, Court will apply Strict Scrutiny.
    - (Law must be narrowly tailored to advance a compelling State interest.)
- Even partisan advantage and political motivation can defeat an allegation of racial gerrymandering.
- The test under the Voting Rights Act (Art. 2) requires that the minority group is sufficiently large and geographically compact to constitute a majority. (Difficult to do Asheville)
- In addition, legal damages under the Voting Rights Act are typical based on results of elections.
- This would be very difficult to prove in advance of an election under the new system
- These cases require very specialized experts to provide necessary evidence.

Projected Legal Costs: $500,000 - $2,000,000

Pros

- City can challenge all aspects of the law, including change to even years under a constitutional challenge
- If successful, some changes by the State could be barred from future action. (*Ex. Referendum in Greensboro*)

Cons

- Likely Remedy for all claims is limited to redrawn districts
    - Unless City can determine a constitutional flaw in the legislation itself (not just the districts' specifics)
- Substantial Legal Cost/No guaranteed outcome
- Election format still subject to future State changes

Option 4. Combination of Options.

- Amending our Charter does not preclude our ability to file a lawsuit.
    - However, it may eliminate most or all of any legal damages rendering a lawsuit

unnecessary.

- Any additional or subsequent action by the legislature would revest the City with the same legal options to react.
    - Unless the legislature removed our ability to amend the City's Charter. (*This is what occured in Greensboro.*)
    - Such action was ruled invalid by Federal Court.
- Filing a lawsuit will not preclude later Charter amendments.

Timing Concerns:

- Amending the Charter requires at least three Council Meetings.
    - Must be completed 90 days prior to election.
    - Amendment is subject to referendum petition
    - Petition requires 10% of registered voters of 5,000 signatures, whichever is less, within 30 days of publication of ordinance adoption.
- There is a 3 year Statute of Limitations for these types of lawsuits (tolls in June 2021), but there may also be a Laches issue. A final decision on any claim could take a very long time, and a stay of the current law is very uncertain.

Final legal considerations:

- The law affecting Asheville is very different from those in Greensboro and Wake County.
- In a lawsuit, the likely remedy in our situation would not be to restore at-large elections, but only to redraw the Districts.
- The City can potentially accomplish more by amending its Charter, with less cost. However, this remains subject to future State action.
- The one element where almost no recourse lies is elections being held in even years.

Throughout the presentation, City Attorney Branham responded to various questions of Council.

Index cards were handed out to members of the audience in order for them to write their questions down regarding the presentation. Communication & Public Information Director Dawa Hitch said that the City of Asheville will create a project page and have this presentation posted, along with all questions written down. City Attorney Branham said that his office will research the questions before the answers are posted on-line, noting that he will not be able to go into strategies. He then responded to several requestions raised.

At 7:22 p.m., Mayor Manheimer asked for public comment.

Approximately 14 people urged Council to file a claim against the state because the referendum showed 75% of the residents were opposed to redistricting. They asked Council to reinstate the primary, and begin a Charter amendment.

Approximately five people supported districts and didn't want Council to spend taxpayer dollars on filing a claim against the state.

At 8:36 p.m., Mayor Manheimer closed public comments.

Mayor Manheimer said that City Council will review with the City Attorney future strategic analysis surrounding this issue in an upcoming closed session. Any decision of Council will be voted on in open session with opportunity for public comment.

Councilman Young asked for responses to Council and public questions prior to the next formal meeting on July 23, 2019.

Mayor Manheimer also noted that she spoke with some non-profit groups who take on litigation claims in redistricting cases; however, none were willing to take on Asheville's case.

At 8:39 p.m., Mayor Manheimer adjourned the meeting

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – July 23, 2019 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Gwen C. Wisler, Presiding; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: Mayor Esther E. Manheimer

PLEDGE OF ALLEGIANCE

Vice-Mayor Wisler led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING ASHEVILLE AS A BREASTFEEDING FAMILY FRIENDLY COMMUNITY

Vice-Vice-Mayor Wisler read the proclamation proclaiming Asheville as a "Breastfeeding Family Friendly Community." She presented the proclamation to Jan Shepard, Buncombe County Health Director.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 25, 2019; AND THE WORKSESSION HELD ON JULY 2, 2019

B. RESOLUTION NO. 19-170 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION CONTRACT WITH WTAPS OF ASHEVILLE FOR THE RICHMOND HILL PARK RESTROOM FACILITY AND PICNIC SHELTER

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a construction contract with WTAPS of Asheville in the amount of $305,662 and to further authorize change orders up to the contingency amount of $30,566 (10%) for Richmond Hill Park restroom facility and picnic shelter.

Background:

- Richmond Hill Park is a heavily utilized park for dog walkers, bicyclists and disc golfers.
- The park lacks supporting amenities such as restroom facilities and picnic shelters.
- Quotes were initially requested on January 23, 2019. Two quotes were received and reviewed on February 20, 2019 at 4 p.m. Both quotes exceeded the available budget.
- Project was rebid on May 22, 2019, and three quotes were received and reviewed on June 17, at 3 p.m. The high quote exceeded the available funds and the remaining two quotes were deemed non-responsive due to one being submitted late and one not completing the required Minority Business forms.
- The project was rebid on June 24, 2019. Quotes were received and reviewed on July 2nd at 3 p.m. There were three bidders for the project.
    - Dosan Corp, Charlotte, $347,000 base quote plus add alternate $12,300 - $359,300
    - The Construction and Maintenance Company LLC, Mills River, $374,526 base quote plus add alternate $21,935 - $396,461

- WTAPS, Asheville, $299,878 base quote plus add alternate $5,875 - $305,662
- WTAPS submitted the lowest responsive responsible bid for the project.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. WTAPS (Asheville, NC) and their 2 subcontractors, CJE Contracting (Arden, NC) and JHS Contracting (Weaverville, NC) are all local minority business enterprises.

Council Goal(s):

- A Clean and Healthy Environment & a Well-Planned and Livable Community.

Committee(s):

- January 14th meeting - Parks Advisory Board Parks & Recreation - project status update

Pro(s):

- Permanent restroom facilities will expand the park user base to include families with small children.
- Improvements will improve the park experience for Asheville residents.
- These amenities respond to citizen input in regards to desired park improvements.
- Supports the Parks, Recreation, Cultural Arts Master Plan (2009).

Con(s):

- None

Fiscal Impact:

- Funding for this contract exists within the approved GO Bond Capital Budget.

Motion:

- Authorize the City Manager to enter into a construction contract with WTAPS of Asheville in the amount of $305,662 and to further authorize change orders up to the contingency amount of $30,566 (10%) for Richmond Hill Park restroom facility and picnic shelter.

RESOLUTION BOOK NO. 41 - PAGE 26

C. RESOLUTION NO. 19-171 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH CAROLINA SPECIALITIES CONSTRUCTION LLC, FOR THE ART STATION FACILITY RENOVATION PROJECT

ORDINANCE NO. 4753 - BUDGET AMENDMENT FOR THE ART STATION FACILITY RENOVATION PROJECT

Action Requested: Adoption of a resolution: 1) authorizing the City Manager to execute a contract with Carolina Specialties Construction, LLC in the amount of $678,299.95 and further authorize the City Manager to execute any change orders that may arise during the project up to the contingency amount of $101,745 (15%); and 2) adoption of a budget amendment in the amount of $1,080,045 from Federal Transit Administration grant funds and General Fund Assigned Fund Balance to fully fund the contract and the contingency and all other costs associated with completing the ART Transit Facility Renovation Project.

Background:

- This project was identified in the 2009 Transit Master Plan, which recommended updating the facility every 10 years. The original facility was constructed in 1996, which included only the ticketing and dispatch office, and passenger restrooms. The passenger waiting area was added around 2001.
- The project will renovate the ticketing and waiting areas to improve transit operations, and safety conditions, update finishes and lighting, and improve accessibility on the loading platform and at the intersections at Coxe and Ashland Avenue.
- Renovation will require the temporary closure of the passenger loading area, and the ticketing and dispatch office. Temporary offices and restroom facilities will be provided on an adjacent lot. When the passenger loading area is being renovated, passenger loading will occur on Ashland Avenue.
- Bids were initially advertised on May 16, 2019. Only one bid was received at the bid opening deadline on May 6, 2019. The City could not open due to city policy and general statues.
- Bids were readvertised on June 11, 2019, and the City received and opened bids on June 26, 2019. Three bids were submitted, their names and bid amounts are listed below:
    - Carolina Cornerstone, Inc., Asheville, NC $ 710,700.00
    - Carolina Specialties Construction, LLC, Hendersonville, NC $ 678,299.95
    - H&M Constructors, Inc., Asheville, NC $ 760,750.00
- The budget amendment for this project will fund both construction, and non-construction items required to outfit the facility. Non-construction items include "furniture, fixtures, and equipment", such as new static/wayfinding signs, digital signage, passenger seating, public WiFi, etc.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Disadvantaged Business Enterprises (DBE) service providers for subcontracted services. Carolina Specialties will include two subcontractors - Carolina Flooring Contractors (Forest City, NC) and EZ Striping (Naples, NC), which are qualified local disadvantaged business enterprises.

Council Goal(s):

- Transportation and accessibility
- Financially Resilient City

Pro(s):

- The renovation project will improve the passenger experience, safety in the waiting area, transit operations spaces, and accessibility for passengers and pedestrians.
- The contract leverages federal grant funds.
- The contract will include participation by Disadvantaged Business Enterprises.

Con(s):

- Renovation will require temporary accommodations for passenger loading and transit operations staff.

Fiscal Impact:

- As noted above, the total amount of the budget amendment is $1,080,045. $213,911 will come from a Federal Transit Administration grant, and $866,134 will come from the $1.1

million Infrastructure Reserve that was set aside in the General Fund Assigned Fund Balance in fiscal 2016. The amendment will have no impact on the City's unassigned (available) fund balance. The remaining funds in the Infrastructure Reserve ($233,866) will likely be used later in fiscal 2020 for other facility maintenance projects.

Motion:

- Adoption of a resolution: 1) authorizing the City Manager to execute a contract with Carolina Specialties Construction, LLC in the amount of $678,299.95 and further authorize the City Manager to execute any change orders that may arise during the project up to the contingency amount of $101,745 (15%); and 2) adoption of a budget amendment in the amount of $1,080,045 from Federal Transit Administration grant funds and General Fund Assigned Fund Balance to fully fund the contract and the contingency and all other costs associated with completing the ART Transit Facility Renovation Project.

RESOLUTION BOOK NO. 41 - PAGE 27
ORDINANCE BOOK NO. 32 - PAGE 400

D. RESOLUTION NO. 19-172 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AND EXECUTE A MUNICIPAL AGREEMENT WITH BETTERMENTS WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE CITY TO ACCEPT MAINTENANCE RESPONSIBILITY FOR A NEW SIDEWALK THAT WILL BE CONSTRUCTED AS PART OF AN I-26 WIDENING PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into and execute a municipal agreement with betterments with the N.C. Dept. of Transportation (NCDOT) for the City to accept maintenance responsibility for a new sidewalk that will be constructed as a part of an I-26 widening project and to reimburse the NCDOT 40% of the actual cost which is estimated to be $12,000.

Background:

- The NCDOT has plans to widen I-26 from NC 280 (Airport Road) to I-40.
- The City has requested that a new sidewalk be constructed along the south side of Long Shoals Road from the I-26 Eastbound on-ramp to the I-26 Westbound off-ramp.
- The NCDOT has agreed to the subject request in accordance with their Pedestrian Policy Guidelines.
- The project is anticipated to go to the construction phase during Fiscal Year 2019-20 and this section of the project should be completed during Fiscal Year 2022-23 or Fiscal Year 2023-24.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- A new section of sidewalk will be constructed that will provide an important pedestrian connection along the south side of NC 146 (Long Shoals Road).
- The City only pays 40% of the concrete line item for the new sidewalk.

Con(s):

- The City is responsible for maintaining the new sidewalk when the project is completed.

Fiscal Impact:

- The financial impact is estimated to be $12,000 and the NCDOT will invoice the City when the project is completed. Although the funds are not needed at this time, they are available in the balance of the sidewalk fee-in-lieu-of project (Project K1001).

Motion:

- Motion to authorize the City Manager to enter into and execute a municipal agreement with betterments with the NCDOT for the City to accept maintenance responsibility for a new sidewalk that will be constructed as part of an I-26 widening project and to reimburse the NCDOT 40% of the actual cost which is estimated to be $12,000.

RESOLUTION BOOK NO. 41 - PAGE 28

E. RESOLUTION NO. 19-173 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AND EXECUTE A TRAFFIC - REVIEW AND INSPECTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE NCDOT TO PERFORM DESIGN REVIEW AND INSPECTION OF THE ADDITION OF PEDESTRIAN PHASING AT THREE SIGNALIZED INTERSECTIONS ALONG AIRPORT ROAD

Action Requested: Adoption of a resolution authorizing the City Manager to enter into and execute a review and inspection agreement with the N.C. Dept. of Transportation (NCDOT) for the NCDOT to perform design review and inspection of the addition of pedestrian phasing at three signalized intersections along NC 280 (Airport Road) and to submit payment in the amount of $15,000 upon partial execution of the agreement by the City.

Background:

- The City has plans to construct a new sidewalk along NC 280 (Airport Road) from US 25 (Hendersonville Road) to the western end of Wal-Mart through the bond program.
- This sidewalk will tie into an existing sidewalk recently constructed by the NCDOT.
- The project includes pedestrian phasing and crosswalks at three signalized intersections.
- The City has prepared the appropriate designs to add pedestrian phasing and will be furnishing and installing the equipment and crosswalks.
- The NCDOT will review and approve the designs and inspect the work during the construction phase which is currently scheduled to begin during Summer 2020.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- A new section of sidewalk will be constructed that will provide an important pedestrian connection between Hendersonville Road and the airport.

- The pedestrian experience will be enhanced and made safer through signalized intersections with pedestrian phasing and crosswalks.
- The NCDOT will own and control the traffic signal (and associated equipment) and maintenance will be accomplished according to their current policies and procedures.

Con(s):
- None

Fiscal Impact:
- The financial impact is estimated to be $15,000 and the City must submit payment upon partial execution of the agreement by the City. The funds are included in the bond program.

Motion:
- Motion to authorize the City Manager to enter into and execute a traffic - review and inspection agreement with the NCDOT for the NCDOT to perform design review and inspection of the addition of pedestrian phasing at three signalized intersections along NC 280 (Airport Road) and to submit payment in the amount of $15,000 upon partial execution of the agreement by the City.

RESOLUTION BOOK NO. 41 - PAGE 29

F. RESOLUTION NO. 19-174 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND AN EXISTING CONTRACT AND EXECUTE A ONE-YEAR EXTENSION WITH S&S MANAGEMENT GROUP LLC FOR SECURITY COVERAGE IN THE PARKING GARAGES

Action Requested: Adoption of a resolution authorizing the City Manager to amend an existing contract with S&S Management Group, LLC for an amount not to exceed $108,000 for Fiscal Year 2018-19 and authorizing the City Manager to execute a one-year extension with S&S Management Group for an amount not to exceed $160,000 for Fiscal Year 2019-20 for security coverage in the parking garages.

Background:
- Contract # 91900235 was approved for a maximum amount of $88,000 for a six-month period from January 1, 2019. through June 30, 2019 and the amendment is needed to cover outstanding invoices.
- The purpose of the contract extension, which is currently on hold since the contract ended on June 30, 2019, is to supplement existing in-house security (2 FTEs) in order to provide 24/7 security in the parking garages including the public restrooms at 29 Haywood Street to accommodate late night hours, weekend hours, and city-approved holidays.

Vendor Outreach Efforts:
- A request for proposals (RFP) was issued on September 14, 2018, on the City's website for purchasing opportunities.
- The deadline for proposals was October 12, 2018, and six vendors submitted proposals.
- No MWBE firms submitted proposals.
- A team of five staff members reviewed the proposals and determined that S&S Management Group, LLC submitted the lowest responsible proposal.
- S&S Management Group, LLC is not sub-contracting any of the work.

Council Goal(s):

- Transportation and Accessibility

Committee(s):
- Finance & Human Resources Committee - June 25, 2019 - unanimously approved

Pro(s):
- Improves the parking customer's experience.
- Provides coverage during late night hours, weekend hours, and city-approved holidays.
- Provides coverage when existing in-house security is on vacation or out sick.

Con(s):
- A contract cannot require that a living wage be paid.

Fiscal Impact:
- The financial impact of an additional $20,000 for Fiscal Year 2018-19 and $160,000 for Fiscal Year 2019-20 are included in the respective parking services operating budgets.

Motion:
- Motion to authorize the City Manager to amend an existing contract with S&S Management Group, LLC for an amount not to exceed $108,000 for Fiscal Year 2018-19 and authorizing the City Manager to execute a one-year extension with S&S Management Group for an amount not to exceed $160,000 for Fiscal Year 2019-20 for security coverage in the parking garages.

RESOLUTION BOOK NO. 41 - PAGE 30

G. RESOLUTION NO. 19-175 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT STREETS AND RIGHTS-OF-WAY THAT HAVE BEEN DEDICATED TO THE CITY, AND RECOMMENDING FOR ACCEPTANCE BY THE DIRECTORS OF THE CITY'S TRANSPORTATION AND PUBLIC WORKS DEPARTMENTS, BY EXECUTING A MEMORANDUM OF ACCEPTANCE FOR EACH STREET SO ACCEPTED

Action Requested: Adoption of a resolution authorizing the City Manager to accept streets and rights of way that have been dedicated to the City, and recommended for acceptance by the Directors of the City's Transportation and Public Works departments, by executing a formal Memorandum of Acceptance for each street so accepted.

Background:
- Developers and other land owners regularly dedicate streets to the City, which the City then has the option of accepting.
- There is no formal street-acceptance process specified under state statutes, which can create ambiguity as to whether a dedicated street has been formally accepted by the City.
- The Transportation and Public Works departments are the primary departments that analyze whether a dedicated street meets City standards and should be accepted.
- The Transportation and Public Works departments recommend that the City adopts a practice of executing a Memorandum of Acceptance for each dedicated street that is accepted by the City in the future, so as to better clarify which streets are owned and maintained by the City, as opposed to private entities.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- Multimodal Transportation Committee - June 26, 2019 - unanimously approved

Pro(s):
- Allows the City to more accurately document the streets it maintains and owns.
- Allows the City to define the terms of its acceptance of streets through the use of a formal Memorandum of Acceptance.

Con(s):
- None

Fiscal Impact:
- This action has no fiscal impact since it is a procedural change that will not impact the number of streets accepted and maintained by the City. It simply formalizes and streamlines the acceptance process.

Motion:
- Motion to authorize the City Manager to accept streets and rights of way that have been dedicated to the City and recommended for acceptance by the Directors of the City's Transportation and Public Works departments, by executing a formal Memorandum of Acceptance for each street so accepted.

RESOLUTION BOOK NO. 41 - PAGE 31

H. RESOLUTION NO. 19-176 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH OWEN JOSEPH LLC FOR THE CITY HALL GARAGE STRUCTURE IMPROVEMENT PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Owen Joseph, LLC in the amount of $159,693.00, for the City Hall Garage Structure Improvement Project; and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $15,969.00 (10%).

Background:
- Investigation of moisture in the City Hall parking garage ceiling in May 2019 showed deterioration of the steel structure above the ceiling.
- Shoring was installed to temporarily supplement the structure.
- Improvements include installation of permanent supplemental steel structure, a new fire rated ceiling and sealant of the joints between the marble slabs of the floor of the City Hall Entry Loggia above.
- Request for Bids was initially advertised on June 10, 2019. Only one bid was received at the bid opening on June 27, 2019. Request for Bids was re-advertised on July 1, 2019. The following Bids were received on July 16, 2019:
  - Owen Joseph, LLC — Asheville, NC — $ 159,693.00
  - Lesco Restorations, Inc — Spartanburg, SC — $ 218,816.91
- Owen Joseph, LLC was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. No MWBE firms submitted bids with this prime contractor.

Council Goal(s):
- A Clean and Healthy Environment & A Financially Resilient City

Committee(s):
- None.

Pro(s):
- Garage Structure Improvements will be completed in Fall 2019
- Rented shoring will be removed
- Parking will be available in the garage for identified staff and City Council members

Con(s):
- None

Fiscal Impact:
- Funding for this contract is already included in the adopted Capital Improvement Program (CIP).

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into a contract with Owen Joseph, LLC in the amount of $159,693.00, for the City Hall Garage Structure Improvement Project; and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $15,969.00 (10%).

RESOLUTION BOOK NO. 41 - PAGE 32

I. RESOLUTION NO. 19-177 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A UTILITY CONSTRUCTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR WATERLINE RELOCATION COST REIMBURSEMENTS ASSOCIATED WITH IMPROVEMENTS TO FANNING BRIDGE ROAD AT THE I-26 CROSSING

Action Requested: Adoption of a resolution authorizing the City Manager to execute a Utility Construction Agreement with the N.C. Dept. of Transportation (NCDOT) for the estimated amount of $279,508.10 plus a 10% contingency for a total budget of $307,458.91 for the I-4400C Project.

Background:
- I-4400C is one project phase of the NCDOT I-26 widening effort. A portion of the I-4400C project involves the reconstruction of the Fanning Bridge Road crossing over I-26.
- The City of Asheville owns and maintains municipal water lines within the right-of-way of the project area.
- As a condition of the installation, operation and maintenance of the waterlines within the NCDOT right-of-way, the City of Asheville Water Resources Department is responsible for 100% of the cost associated with adjustment or relocation of said waterlines should the need arise.
- The City of Asheville Water Resources Department wishes to enter into this Utility Construction Agreement with NCDOT, which allows the waterline utility work to be performed as part of the NCDOT's construction contract.

- NCDOT has estimated that the cost of the relocation and adjustment of municipally owned water lines for this project will be $279,508.10.

Vendor Outreach Efforts:
- Not Applicable

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- Execution of the agreement allows the City of Asheville Water Resources Department to meet its obligations to NCDOT for the adjustment or relocation of municipal water lines within the NCDOT right-of-way.
- Execution of the agreement allows the required adjustment or relocation of municipal water lines to be performed under the NCDOT construction contract, which will provide construction efficiencies producing cost savings and allow construction schedules to be met.
- This project is aligned with the City and the Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con(s):
- None

Fiscal Impact:
- The funding needed for this agreement is currently allocated within the NCDOT Project in the Water Resources Capital Improvement Projects Fund.

Motion:
- Move to adopt a resolution authorizing the resolution authorizing the City Manager to execute a Utility Construction Agreement with the NCDOT for the estimated amount of $279,508.10 plus a 10% contingency for a total budget of $307,458.91 for the I-4400C Project.

RESOLUTION BOOK NO. 41 - PAGE 33

J. **RESOLUTION NO. 19-178 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE HIWIRE 6TH ANNIVERSARY PARTY**

RESOLUTION NO. 19-179 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE FARM TO VILLAGE DINNER

RESOLUTION NO. 19-180 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BLUE RIDGE PRIDE FESTIVAL

Action Requested: Adoption of resolutions to permit the possession and consumption of malt beverages and/or unfortified wine at the HiWire 6th Anniversary Party, Farm to Village Dinner, and Blue Ridge Pride Festival.

Background:

- The following organizations have requested that City Council permit them to serve beer and/or unfortified wine at their events and allow for consumption at the events:
    - WNC Soccer Foundation for the HiWire 6th Anniversary Party, to occur at Huntsman Place on July 27, 2019, from 3:00 p.m. - 11:59 p.m.
    - Manna Food Bank for the Farm to Village Dinner to occur at Boston Way on September 5, 2019, from 6:00 p.m. - 9:00 p.m.
    - Blue Ridge Pride Center for the Blue Ridge Pride Festival, to occur at Pack Square Park on September 28, 2019, from 11:00 a.m. - 7:00 p.m.
- Alcohol boundaries are defined for each request as per the accompanying event site maps.

Council Goal(s):

- These actions have no direct connection with the City Council 2036 Vision.

Committee(s):

- None

Pro(s):

- Allows fundraising opportunities for the sponsoring nonprofit organizations

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Motion to permit the possession and consumption of malt beverages and/or unfortified wine at the HiWire 6th Anniversary Party, Farm to Village Dinner, and Blue Ridge Pride Festival.

RESOLUTION NO. 19-178 - RESOLUTION BOOK NO. 41 - PAGE 34
RESOLUTION NO. 19-179 - RESOLUTION BOOK NO. 41 - PAGE 37
RESOLUTION NO. 19-180 - RESOLUTION BOOK NO. 41 - PAGE 40

K. RESOLUTION NO. 19-181 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH HAZEN AND SAWYER TO INCREASE THE WATER SYSTEM MASTER PLAN UPDATE

Action Requested: Adoption of a resolution authorizing the City Manager to execute a change order with Hazen and Sawyer in the amount of $99,900 to increase the Water System Master Plan Update Professional Services Contract from a total of $570,360 to $670,260.

Background:

- On February 14, 2017, a resolution was adopted to authorize the City Manager to execute a professional services contract with Hazen and Sawyer for an update to the Water System Master Plan.

- The original total contract was for an amount not to exceed $570,360. The project work included: a hydraulic model update, field tests, model calibration, evaluation of the existing system, population and demand projections, evaluation of the future system, master plan report and training, project administration, and other optional services as needed.
- Throughout the course of the project it was determined that some areas of the system were operating in a critical state that would require additional detailed analysis to determine solutions.
- In April and May of 2019 a chain of events occurred including major line breaks and inoperable valves resulting in several days of issues with discolored water in the system.
- Water Resources staff determined that the expertise needed to find solutions to these issues was closely related to the modeling and analysis work being performed under the ongoing System Master Plan Update. The consultant, Hazen and Sawyer has expertise in these areas.
- In an effort to quickly and efficiently address these recent issues, staff requested that the consultant provide an amended scope of work with additional tasks.

Vendor Outreach Efforts:
- Not applicable, change to an existing contract

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None.

Pro(s):
- This project is aligned with the City and the Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects.

Con(s):
- None

Fiscal Impact:
- The funding needed for the professional services agreement is currently allocated within the Water Resources Capital Improvements Project Fund in the Water Model & Master Plan Update Project.

Motion:
- Move to adopt a resolution authorizing the City Manager to execute a change order with Hazen and Sawyer in the amount of $99,900 to increase the Water System Master Plan Update Professional Services Contract from a total in the amount of $570,360 to $670,260.

RESOLUTION BOOK NO. 41 - PAGE 43

L. RESOLUTION NO. 19-182- RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH APPALACHIAN PAVING AND CONCRETE INC. FOR THE WOOD AVENUE NEIGHBORHOOD SIDEWALK PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Appalachian Paving and Concrete, Inc. in the amount of $498,740 for the Wood Ave.

Neighborhood Sidewalk project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $74,811 (15%).

Background:

- Bids were advertised on May 23, 2019, but the City did not receive the required number of bids for a formal bid opening. The project was re-advertised on June 24, 2019.
- Bids were opened on July 8, 2019. Two (2) firms submitted bids, and the firms' names and bid amounts are included below:
  - Appalachian Paving & Concrete, Inc., Asheville, NC $498,704.00
  - Patton Construction Group Inc., Asheville, NC $710,420.00
- Appalachian Paving & Concrete, Inc. was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- For the construction phase of the project, staff performed outreach to minority and women-owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to MWBE service providers for subcontracted services. Appalachian Paving & Concrete, Inc. of Asheville will be utilizing the services of BAG Hauling of Asheville, a MWBE service provider, for the project.

Council Goal(s):

- Transportation and accessibility

Committee(s):

- None

Pro(s):

- Improved connectivity and accessibility for the neighborhoods southeast of the Asheville Mall area.

Con(s):

- None

Fiscal Impact:

- Funding is coming from the Neighborhood Sidewalk Program. The total maximum cost of this contract, including contingency, is $573,515.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Appalachian Paving & Concrete Inc. in the amount of $498,704.00 plus a contingency of $74,811 (15%), for a total of $573,515.

RESOLUTION BOOK NO. 41 - PAGE 44

M. RESOLUTION NO. 19-183 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A RENEGOTIATED LEASE AGREEMENT WITH THE ASHEVILLE-BUNCOMBE YOUTH SOCCER ASSOCIATION FOR THE LEASE OF FOUR SOCCER FIELDS, THE CONCESSIONS AND MEETING ROOM AT THE JOHN B. LEWIS SOCCER COMPLEX

Action Requested: Authorize the City Manager to sign a renegotiated lease agreement for the John B. Lewis Soccer Fields to the Asheville Buncombe Soccer Association

Background:

- On March 26, 2019 the City Council authorized the City Manager to enter into a lease with ABYSA for the use of the soccer fields located at 439 Azalea Road known as the John B. Lewis Soccer Complex.
- The lease was executed allowing for the fields to be repaired due to flooding events. The cost of the original contract was $1,075,000. Per the lease, the City agreed to pay $875,000 and ABYSA agreed to pay $200,000.
- Prior to the work being completed, another significant rain event occurred damaging the fields on April 19, 2019.
- Of the $1,075,000 contract amount, only $925,000 was paid to the contractor leaving a remaining balance of $150,000. This balance was a result of the changed conditions in cleaning the fields due to the new flood damage on April 19, 2019.
- The following significant elements have changed from the March 26, 2019 lease agreement:
    - The fields will be accepted by ABYSA "as is". The March 26, 2019 agreement stated that the fields would be completely restored prior to ABYSA accepting the fields;
    - ABYSA will be responsible for paying $50,000 of the original clean up as opposed to $200,000 because the City did not expend the full amount of the funds in the original clean up;
    - The City will contribute $50,000, as stated in the original lease, in FY 2020 for the clean up of fields 1 and 4; and,
    - The agreement will be for ten years instead of twelve years.

Council Goal(s):

- A Financially Resilient City
- A Connected and Engaged Community

Pro(s):

- The terms allow ABYSA to utilize the fields sooner.
- The City's repair costs for future potential flooding is capped annually.
- The terms of the lease agreement creates a capital contribution supported by ABYSA and the City for the long-term replacement of the fields.

Con(s):

- None

Fiscal Impact:

- The City of Asheville will pay a maximum of $50,000 a year for the repair of fields due to flood events or acts of God. Additionally, the City will place $15,000 per year into a capital project to be utilized for the replacement of the soccer fields for a total of $150,000 over a ten year period. The total operating budget impact is $65,000 per year for the ten-year duration of the lease.

Motion:

- Motion to authorize the City Manager to negotiate and sign a new lease agreement with ABYSA for the lease of four soccer fields, the concessions and meeting room at the John B. Lewis Soccer Complex.

RESOLUTION BOOK NO. 41 – PAGE 45

N. RESOLUTION NO. 19-184 - RESOLUTION AMENDING RESOLUTION NO. 19-142 TO REPLACE THE PROGRAM NAME OF "CWA EARLY LEARNING PROGRAM" WITH "BLACK CULTURE ENRICHMENT AND COLLEGE TOUR" FOR THE 2019-20 STRATEGIC PARTNERSHIP FUND GRANT

Action Requested: Adoption of amended resolution to replace program name of "CWA Early Learning Program" with "Black Culture Enrichment and College Tour"

Background:

- On June 11, 2019, City Council approved Strategic Partnership Funding for the 2019-2020 fiscal year, based on funding recommendations made by the Housing & Community Development Committee on March 29, 2019 .
- An administrative error was made in Resolution 19-142, listing the incorrect program name for The Christine Avery Learning Center's Strategic Partnership Fund program. The correct program name is "Black Culture Enrichment and College Tour". No programmatic or funding changes are being requested.
- This correction is necessary to move forward with contracting the grant and making the funds available to the agency.

Council Goal(s):

- Thriving Local Economy

Committee(s):

- None

Pro(s):

- This will correct an administrative error made in the original resolution.
- This correction will allow the City to move forward with a contract for the Strategic Partnership Fund grant allocated to the CWA learning center.

Con(s):

- None

Fiscal Impact:

- No fiscal impact is associated with this administrative correction.

Motion:

- Motion to correct an administrative error on Resolution No. 19-142 which replaces the program name of "CWA Early Learning Program " with "Black Culture Enrichment and College Tour" for The Christine W. Avery Learning Center's Strategic Partnership award.

RESOLUTION BOOK NO. 41 - PAGE 46

O. RESOLUTION NO. 19-185 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PURCHASE NON-HEALTH-BENEFIT-RELATED INSURANCE POLICIES AND TO ISSUE PROPERTY CLAIM-RELATED PAYMENTS

Action Requested: Adoption of a resolution authorizing the City Manager to purchase non-health-benefit-related insurance policies; and to issue property claim-related payments.

Background:

- Annually, the City of Asheville (City) renews policies to provide coverage against risk exposures, including but not limited to: excess workers' compensation and liability (general liability, public officials, employee practices, and law enforcement), dam liability, property (structures/vehicles/equipment), crime, cyber, flood, and builder's risk, when necessary.
- All policies are quoted via the City's Insurance Broker of Record (Broker) to ensure appropriate coverages are obtained from the commercial insurance market.

- Annually, Asheville City Council approves policy premium costs budgeted within the City's Workers' Compensation and Property & Liability Funds.
- Staff is seeking authorization for the City Manager to (1) purchase policies (up to $500,000 per policy); and (2) pay City property claim-related expenses.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- June 25, 2019, Finance and Human Resources Committee recommended for Council approval.

Pro(s):
- Ensures no policy lapse that may financially expose City employees and assets.
- Timely insurance policy renewals and good standing with City insurance carriers.
- Ensures timely property claim-related payments to expedite City asset repair/replacement.

Con(s):
- None.

Fiscal Impact:
- No additional funds being requested. In Fiscal Year 2020, projected City insurance policy premiums totalling approximately $1,250,000 are included in the annual budget approved by City Council. Property claim payments utilize funds received from City insurance carriers to repair/replace damaged City assets, less related deductibles.

Motion:
- Recommend Asheville City Council move to adopt a resolution authorizing the City Manager to (1) issue payments for non-health-benefit-related insurance premiums up to $500,000 per policy and; (2) make City property insurance claim-related payments.

RESOLUTION BOOK NO. 41 - PAGE 47

Vice-Mayor Wisler asked for public comments on any item on the Consent Agenda, but received none.

Vice-Mayor Wisler said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 2360 SWEETEN CREEK ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO RESIDENTIAL EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF THREE MULTI-FAMILY STRUCTURES TOTALING 81 RESIDENTIAL UNITS

ORDINANCE NO. 4754 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 2360 SWEETEN CREEK ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO RESIDENTIAL EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF THREE MULTI-FAMILY STRUCTURES TOTALING 81 RESIDENTIAL UNITS

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to conditionally zone property located on 2360 Sweeten Creek Road from RM-16 Residential Multi-Family High Density District to Residential Expansion/Conditional Zoning for the construction of three multi-family structures totalling 81 residential units. This public hearing was advertised on July 12 and 19, 2019.

Action Requested: Adoption of a conditional zoning petition for property located at 2360 Sweeten Creek Road (Givens Estate Friendship Park) currently zoned Residential Multi-Family High Density District (RM16) seeking to be rezoned to Residential Expansion District Conditional Zone (RES EXP CZ).

Project Location and Contacts:

- The project site consists of 4.3 acres located at 2360 Sweeten Creek Road (PIN 9655-47-7393) owned by the Givens Estate, LLC.
- Petitioner: G. Thomas Jones, III on behalf of John C. Cowan, Jr, Executive Director of the Givens Estates

Background:

- The Givens Estates is a 215-acre property of 411 independent living units located near their Gerber Park project of 262 affordable apartment units (Tax credit apartments serve people at 60% of the area median income and below. Of those, 78 apartments are HUD subsidized and serve those with extremely low incomes. The rent in HUD apartments is adjusted to be less than 30% of area median income) that together help people of different means to age in place.
- The project proposes to demolish 86 outdated housing units in 11 structures to replace them with 80 units in two buildings.
- Proposed structures measure between two and four stories in height, and approximately 20,000 square feet each.
- The proposed density of 19 units per acre is below the maximum permitted 20 units per acre.
- 98 parking spaces will be provided for cars, including four that are handicapped accessible.

Comprehensive Plan Consistency:

- The project is most-closely aligned with the following goals from the Living Asheville Comprehensive Plan: Goal #1: Encourage Responsible Growth, as it will replace outdated housing units with newer buildings that will provide better, safer and more energy efficient housing for seniors; and, Goal #13: Increase and Diversify the Housing Supply in that new buildings will allow seniors to age in place.
- The Future Land Use category, Residential Neighborhood, also aligns with the proposed development.

Compatibility Analysis:

- The proposed use is compatible with the neighborhood and the type of development typical within the Givens Estates. The project will lead to a reduction in the number of living units (from 86 to 80) so it will reduce the overall impact on the community.

Council Goal:

- Encourage Responsible Growth

Committee(s):

- Planning & Zoning Commission - May 1, 2019 - Unanimous approval

Ms. Tuch said that an additional condition has been added, which reads "A 5-9' wide sidewalk/greenway and associated retaining wall and storm drainage will be provided, as shown on the landscape map as incorporated herein by reference, resulting in a net reduction of impervious surface located within the required 30' wide protected aquatic buffer." The applicant has agreed to this condition.

Mr. John Cowan, Executive Director of Givens Estates, said they are replacing 86 existing residences in 11 buildings and there are no residents in those 11 structures, so no one will be displaced.

Mr. Tom Jones, civil engineer, spoke about the site development and their neighborhood meeting. He said Givens Estate does good things for seniors and builds quality projects.

Vice-Mayor Wisler opened the public hearing at 5:17 p.m.

When Mr. Timothy Sadler asked if public art is part of this new development, Vice-Mayor Wisler replied no.

Vice-Mayor Wisler closed the public hearing at 5:18 p.m.

Vice-Mayor Wisler said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve of the conditional zoning request for the Givens Estates Friendship Park located at 2360 Sweeten Creek Road from Residential Multi-Family High Density District (RM16) to Residential Expansion District Conditional Zone (RES EXP CZ) for the demolition of 11 buildings (86 housing units) to be replaced with the construction of two buildings comprising 80 housing units (with the inclusion of the additional condition referred to above) and find that the request is reasonable, is in the public interest and is consistent with the city's comprehensive plan in that (1) the Future Land Use category allows for multifamily structures and is consistent with the proposed Residential Expansion zoning district; and (2) the project will improve the quality and safety of housing units within a senior living community. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 401

B. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 1 SOUTH TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO MIXED USE EXPANSION/CONDITIONAL ZONE TO ALLOW A MIXED-USE DEVELOPMENT THAT INCLUDES RESIDENTIAL, RETAIL, SERVICE AND ENTERTAINMENT USES

At the request of the applicant's attorney, Councilman Young moved to continue this public hearing until August 27, 2019. This motion was seconded by Councilman Haynes and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 19-186 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A HOUSING TRUST FUND LOAN AGREEMENT WITH HOMEWARD BOUND TO ACQUIRE AND REHABILITATE 296 SHORT MICHIGAN AVENUE

Community Development Program Director Paul D'Angelo said that this is the consideration of a resolution to approve a request by Homeward Bound for a Housing Trust Fund loan to acquire and rehabilitate a multifamily property located at 296 Short Michigan Avenue.

Background::

- The multifamily property located at 296 Short Michigan Avenue is on a 0.97 acre site with 5 buildings containing 11 (8 one bedroom and 3 two bedroom) separate apartment units.
- The current owner partners with Homeward Bound and the Asheville Housing Authority to accept Permanent Supportive Housing (PSH) and Housing Choice vouchers.
- At the present time, 6 of the 11 units are occupied by voucher holders. The remaining 5 units are unoccupied and require rehabilitation to be brought up to HUD habitability standards.
- The owner has informed Homeward Bound of his intention to sell, putting the property's long-term affordability in jeopardy. In order to prevent this, Homeward Bound has negotiated a contract to purchase the property for the sum of $545,000.
- Homeward Bound has intentions to increase their capacity as a developer and operator of supportive housing in the Asheville area. This project is a reflection of that strategy, and will allow them to offer more direct and efficient service to their clients.

Proposal:

- The Agreement for Purchase and Sale is valid until October 31, 2019. Homeward Bound requires that financing be in place before executing that purchase.
- They have presented a $910,000 project budget to Community Development staff, which includes a $530,000 loan request from the City's Housing Trust Fund (HTF). The HTF funds would be first into the project, and primarily used for the acquisition of the property. The remainder of the project budget will be drawn from a pending commercial loan and federal HOME funding.
    - The project received a HOME commitment of $89,153 from the Asheville Regional Housing Consortium this spring. Homeward Bound intends to pursue additional funding in the fall which could be used to supplement the project and perhaps construct more units on site.
    - The applicant is in advanced negotiations with several commercial banks to acquire approximately $280,000 in additional funding.
    - The City's funding is contingent on Homeward Bound securing these additional funds needed for the project.
    - The remainder of the project budget not applied to acquisition will be used to rehabilitate all 5 structures to a condition that meets HUD habitability standards.
- Homeward Bound has committed to a 99-year term of affordability for the project enforced by a deed restriction. Units will be made available to clients who generally have significant case management needs and require voucher support.
    - Due to the extremely low income levels served by these units, the project will not possess adequate cash flow needed to make recurring loan payments. Homeward Bound has requested that the $530,000 HTF loan be deferred for a 30-year term with 0% interest.
    - The applicant's commitment to accept vouchers and serve a population at or below 30% of Area Median Income (AMI) would qualify the loan for Special Terms under HTF policy. Special Terms conditions would make both the deferment of the loan principal and the 0% interest rate allowable.

- The property contains 2 additional building sites, and is adjacent to 2 properties that could be acquired for expansion in the future.
- The proposal does not fully comply with HTF Policy, particularly the condition that the purchase and rehabilitation of existing multifamily housing units are only eligible if the units do not meet the City's minimum housing code. Due to the potential for displacement of existing residents and the vulnerability of the population served, Community Development staff support this exception to the policy.

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- Housing & Committee Development - June 18, 2019

Pro(s):
- The project impacts a population that has traditionally been very hard to serve through the Community Development division's affordable housing tools. Completion of this project would ensure that 11 units serving deep levels of affordability are available in perpetuity.
- Homeward Bound can monitor clients closely and better manage housing conditions when serving as property owners. Ideally this would allow them to internalize some costs, and utilize their overall funding in a manner that allows for a greater impact on the area's supportive housing population.
- The project develops capacity at Homeward Bound by providing construction and development experience, and familiarizes them with new funding sources.

Con(s):
- The deep level of affordability provided by Homeward Bound would diminish the project's cash flow, and therefore their ability to make loan payments should the Special Terms conditions not be approved.

Fiscal Impact:
- An amount of $530,000 will be drawn from the City's Housing Trust Fund. The cost per unit for the project is $48,182 based on our funding.
- The loan's proposed terms of a deferred principal and 0% interest will prevent the receipt of any program income.
- The City's funding is contingent on Homeward Bound securing these additional funds needed for the project.

Vice-Mayor Wisler said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Mr. D'Angelo responded to Councilwoman Mayfield question when she asked if more HOME funding becomes available for this project, would it reduce the City's obligation.

Ms. Meredith Switzer, Executive Director of Homeward Bound, and a board member on Homeward Bound, thanked Council for their support.

Councilwoman Mayfield was pleased to announce that this is an excellent example of an organization purchasing existing housing to keep it permanently affordable.

Councilman Young also spoke in support of this project and hoped Homeward Bound will continue to do projects on this caliber.

When Vice-Mayor Wisler asked for public comment, no one spoke.

Councilwoman Mayfield moved to approve the request by Homeward Bound to borrow funds from the Housing Trust Fund in the amount of $530,000. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 48

B. RESOLUTION NO. 19-187 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A HOUSING TRUST FUND LOAN MODIFICATION WITH SWANNANOA BEND LLC, FOR THE SIMPSON STREET PROPERTY

Community Development Program Director Paul D'Angelo said that this is the consideration of a resolution to approve a Housing Trust Fund loan modification for an increased award of funds to Swannanoa Bend, LLC for the Simpson Street project.

Background:

- Kirk Booth (d/b/a, Beaucatcher Commons, LLC, now Swannanoa Bend, LLC) received a $650,000 Housing Trust Fund (HTF) loan awarded through two requests for the purpose of constructing and operating 70 affordable housing apartments dedicated to households at or below 60% of Area Median Income (AMI).
- The project was initially awarded $300,000 in February 2016 for a 60-unit, fully affordable development located at 43 Simpson Street between Tunnel Road and Biltmore Village near the Swannanoa River.
- A request was brought forward in January 2017 expanding the number of affordable units to 70 as well as increasing the HTF request by $350,000.
- The project also possesses a commitment of $262,000 from Buncombe County and a loan from HomeTrust Bank in the amount of $3,502,979.
- Per a promissory note executed with the City of Asheville on October 6, 2017, Mr. Booth was to complete the construction of 70 affordable apartments and rent them to households at or below 60% AMI for a period of 20 years. A principal balance of $650,000 was to be paid over a term of 20 years and accrue interest at a rate of 2% annually. Contingent on starting work was a Conditional Use Permit from the Asheville City Council, which was achieved on September 27, 2016.
- The project also received an award through the City's Land Use Incentive Policy with an estimated total value of $248,710 paid out in annual increments over a period of 11 years and an approximated $70,000 fee rebate.
- The developer began construction in 2017, but in order to comply with code, needed to install a more extensive dry sprinkler system. The system was installed, as well as much of the site development required to finish work, per the site plans submitted with the Conditional Use Permit approval. Pilings and infrastructure have been installed for all of the seven (7) intended buildings. Four (4) buildings have received a Certificate of Occupancy and are currently leased to qualified low-income tenants.
- The additional work related to the sprinkler system and rising construction costs throughout the duration of the project thus far have caused the developer to exhaust his committed funds. Staff reviewed all costs associated with the project to this point, as well as conferred with the City's Development Services department about the overruns.
- Staff has concluded that a large portion of the increase is related to the installation of the dry sprinkler (approximately $140,000) along with retrofit, with the remainder resulting from the rising costs in construction materials nation-wide and local construction labor during the past 24 months.These cost increases have resulted in the need and request for an additional $650,000 in Housing Trust Fund monies.

- Staff worked with the developer to explore opportunities to complete the project without the investment of additional HTF funding, including seeking commitments from other sources, but were unsuccessful.

Revised Proposal:

- The developer has ordered the 5th building from the Clayton Homes factory, and is anticipating completion and installation in the near future. To finish the remaining site work (namely an on-site stormwater retention area) and accomplish the installation of the remaining buildings, the developer requests an additional $650,000 from the City's Housing Trust Fund.
- The developer intends to honor the terms of the previous commitment, specifically to rent to households at or below 60% AMI and accept voucher payments.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- Housing and Community Development - January 19, 2016
- Asheville City Council HTF Approval - February 23, 2016
- Asheville City Council Conditional Use Permit - September 26, 2017
- Housing and Community Development - January 17, 2017
- Asheville City Council HTF Approval - February 14, 2017
- Housing and Community Development- June 18, 2017

Pro(s):

- Awarding the increased funding will allow the developer to complete the project and bring an additional 30 affordable housing units (70 total) to market.

Con(s):

- The increased investment will use resources that could be invested in other affordable housing projects.

Fiscal Impact:

- An additional amount of $650,000 will be allocated from the City's Housing Trust Fund. This will add to the existing principal balance for a total investment of $1,300,000 to be paid back over a period of 20 years at 2% interest. The cost per unit from the HTF will rise to $18,571 ($23,124 if the value of the LUIG and fee rebate are included).

Mr. Kirk Booth said he was pleased with this project and hoped Council would assist him with a more money.

Councilman Young commended Mr. Booth on this project which will be for households at 60% below the AMI and accepting Housing Choice vouchers.

Councilwoman Mayfield noted that Mr. Kirk is a private developer and hoped other private developers will come forward as Mr. Kirk has to provide affordable housing.

When Mr. Timothy Sadler asked if public art will be required for this new development, Councilwoman Mayfield explained that when the City builds new projects, they set aside 1% for public art.

Vice-Mayor Wisler said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved to approve the request by Swannanoa Bend, LLC to borrow an additional $650,000 from the Housing Trust Fund, for a total loan amount of $1,300,000, due to cost increases for the Simpson Street project. This motion was seconded by Councilwoman Smith and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 49

C. RESOLUTION NO. 19-188 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A HOUSING TRUST FUND LOAN MODIFICATION WITH WORKFORCE HOMESTEAD INC. FOR THE AMARANTH APARTMENTS PROJECT

Community Development Program Director Paul D'Angelo said that this is the consideration of a resolution to approve a Housing Trust Fund loan modification with Workforce Homestead Inc. for an increase in funds for the Amaranth Apartments Project.

Background:

- Workforce Homestead, Inc., an affordable housing developer located in Chapel Hill, NC, applied for and received a low-income housing tax credit award from the North Carolina Housing Finance Agency (NCHFA) for the purpose of developing a 70-unit affordable housing property at 1 Brookside Circle in Candler, NC (located directly adjacent to the Smokey Park Highway and within the city limits of Asheville).
- The project as proposed will contain fourteen (14) 1br, thirty-five (35) 2br, and twenty-one (21) 3br apartments all set aside for households making at or below 60% of Area Median Income (AMI). This includes eighteen (18) apartments specifically set aside for households at or below 30% AMI.
- The tax credits will provide $7,645,942 to the project, applied as equity, and have no repayment conditions as long as affordability terms are met. Additional commitments were made from Churchill Stateside Group (CSG) for $2,030,000 and the North Carolina Housing Finance Agency (NCHFA) for $250,000, both in the form of loans.
- The Asheville Regional Housing Consortium has extended a $341,100 HOME loan.
- To fulfill the remaining gap of the initial estimated $10,917,024 total development cost, the City of Asheville committed $600,000 from its Housing Trust Fund on April 10, 2018 per Resolution No. 18-88, to be paid back at 2% annual interest adjusted amortization to meet a 1.15 debt-coverage ratio with principal deferred over a period of 20 years. A closing in late summer 2019 was anticipated, with construction to begin shortly thereafter.
- The developer received final bids from his contractor in June 2019 and found that costs had increased substantially from the initial estimate in 2017. The total increase is valued at $1,375,090, of which $843,435 is related to unique site issues and the engineering required to mitigate them.
- The developer will continue to work with his contractor to explore value engineering, and feels that they can reduce approximately $450,000 from the current costs. Additionally, the developer will defer a portion of his developer fee and seek increased loan funding from other project partners.
- The City's funding is contingent on Workforce Homestead, Inc. securing these additional funds needed for the project.
- Despite those measures, a gap of approximately $600,000 remains if the project is to be completed. Community Development staff worked with the developer to explore other sources of funding from local and regional entities, but found none that were available in the time frame necessary to complete the project.

Proposal:

- To have adequate funds available to complete the project, Workforce Homestead, Inc. requests an additional $600,000 from the City's Housing Trust Fund. The funds would be added to the existing loan amount and paid back according to the same terms.
- The developer also has plans to submit a Land Use Incentive Grant (LUIG) application when the policy is updated and passed by City Council.

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- Housing and Community Development - March 23, 2018
- Asheville City Council HTF Approval - April 10, 2018
- Asheville City Council HOME Approval - January 8, 2019
- Housing and Community Development - July 16, 2019

Pro(s):
- Awarding the increased funding will allow the developer to complete the project and bring an additional 70 affordable housing units to Asheville.

Con(s):
- None

Fiscal Impact:
- An additional amount of $600,000 will be drawn from the City's Housing Trust Fund. This will add to the current principal balance for a total investment of $1,200,000 to be paid back at 2.0% interest amortization for a term of twenty (20) years with principal deferred to the date of maturity.
- The City's funding is contingent on Workforce Homestead, Inc. securing these additional funds needed for the project.

Mr. D'Angelo responded to Councilwoman Mayfield when she asked how much money the City will have left in the Housing Trust Fund after these projects, including the $5 Million bond money. She pointed out that we need more money dedicated to this Fund, and suggested we look at including affordable housing as part of a General Obligation bond process.

Councilman Young was also pleased that there will be 18 apartments set aside for individuals and families at or below 20% AMI.

When Vice-Mayor Wisler asked for public comment, no one spoke.

Vice-Mayor Wisler said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Smith moved to approve the request by Workforce Homestead, Inc. to borrow an additional $600,000 from the Housing Trust Fund, for a total loan amount of $1,200,000. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 50

D. BOARDS & COMMISSIONS

Regarding the Multimodal Transportation Commission, the following individuals applied for the vacancy: Ritchie Rozzelle, Pat Katz, Dennis Wencel, Michael Stratton, Kenneth

Armstrong, Sandy Aldridge, Lisabeth Medlock, Shannon Watkins and Amy Jones. At the request of the Multimodal Transportation Commission, it was the consensus of Council to postpone making appointments until their August 27, 2019, meeting.

RESOLUTION NO. 19-189 - RESOLUTION APPOINTING A MEMBER AND CHAIR TO THE ALCOHOLIC BEVERAGE CONTROL BOARD

Councilman Haynes, member of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Alcoholic Beverage Control (ABC) Board.

Due to the passing of Lewis Isaac, Chair and member of the ABC Board, there currently exists an unexpired term until November 1, 2020.

The following individuals applied for the vacancy: Robin Cape, Timothy W. Collins, Arthur Michael Edwards and Ander Schreiner.

It was the consensus of the Boards & Commissions Committee to appoint Robin Cape as member of the ABC Board and Jan Davis as Chairman.

Councilman Haynes moved to (1) appoint Robin Cape to serve the unexpired term of Mr. Lewis, term to expire November 13, 2020, or until her successor has been appointed; and (2) appoint Jan Davis as Chair of the ABC Board to serve at the pleasure of City Council. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 51

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Drew Crawford spoke to Council about the need for tiny houses on wheels, campground zoning changes; and text amendments.

Mr. Steven Foster, representing the Coalition of Independent Business Owners, was concerned about the City's handling of core infrastructure components - transit, water, streets and safety. He urged Council to focus resources on core infrastructure needs.

Ms. Nina Tovish, Ms. Gaby Romero and Ms. Melissa Bliss urged Council to move forward with opposing districts.

Ms. Velvet Hawthorne spoke about storm runoff drain behind Whole Foods on Merrimon Avenue.

Mr. Timothy Sadler urged Council to move forward with allowing tiny homes; and advocated for more public art.

Mr. Jonathan Wainscott spoke in support of redistricting.

Councilwoman Mayfield said that City Council will be holding a worksession on September 6, 2019, regarding affordable housing and she has asked staff to help Council understand the regulatory framework around tiny houses. In addition, she has proposed a hotel moratorium until City Council has the opportunity for a conversation around hotels. That conversation will begin at the City Council Planning & Economic Development meeting at the end of August, 2019.

Closed Session

At 6:21 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, an administrative procedure and a potential lawsuit regarding City Council election districts. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Councilman Haynes and carried unanimously.

At 9:08 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Vice-Mayor Wisler adjourned the meeting at 9:08 p.m.

Magdalen Burleson
CITY CLERK

Edward G. Mark
MAYOR

Tuesday – August 27, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION IN RECOGNITION OF THE SERVICE OF THE WESTERN NORTH CAROLINA CHAPTER OF PHYSICIANS FOR SOCIAL RESPONSIBILITY

Councilwoman Mayfield read the proclamation in recognition of the Service of the Western North Carolina Chapter of Physicians for Social Responsibility. She presented the proclamation to Terry Clark, and others, who briefed City Council on the proclamation.

B. PROCLAMATION IN SUPPORT OF THE MEDICARE FOR ALL ACT OF 2019

Councilwoman Smith read the proclamation in support of the Medicare for All Act of 2019. She presented the proclamation to Dr. Ellen Kaczmarek, a retired Geriatric Medical Doctor, and others, who briefed City Council on the proclamation.

C. PROCLAMATION PROCLAIMING AUGUST 11, 2019, AS "KIWANIS CLUB OF ASHEVILLE DAY"

Mayor Manheimer read the proclamation proclaiming August 11, 2019, as Kiwanis Club of Asheville Day". She presented the proclamation to Windell Camanse, President, Kiwanis Club of Asheville, and others, who briefed City Council on some activities taking place through the month.

D. PROCLAMATION PROCLAIMING SEPTEMBER 2-8, 2019, AS "ASHEVILLE ENTREPRENEURSHIP WEEK"

Vice-Mayor Wisler read the proclamation proclaiming September 2-8, 2019, as "Asheville Entrepreneurship Week " in the City of Asheville. She presented the proclamation to Jeffrey Kaplan, Director of Entrepreneurship, Venture Asheville, and others, who briefed City Council on some activities taking place through the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 23, 2019

B. RESOLUTION NO. 19-190 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW AN EXISTING WORKERS' COMPENSATION CLAIMS

SERVICES AGREEMENT WITH PMA MANAGEMENT CORPORATION FOR A PERIOD OF ONE YEAR AND AUTHORIZE PROVIDING THE SERVICES FOR THREE ADDITIONAL CONSECUTIVE YEARS

Action Requested: Adoption of a resolution authorizing the City Manager to renew an existing workers' compensation claims services agreement with PMA Management Corporation (PMA) for a period of one year and authorize providing the services for three additional consecutive years.

Background:

- The City of Asheville (City) Risk Management Division (Risk) administers the City workers' compensation program and contracts with PMA for workers' compensation claims handling services (Services), including: claims adjusting, record keeping and check issuance.
- Since 2012, PMA has provided Services to support the City workers' compensation program.
- In 2018, Services were sought via a Request for Proposals and PMA was the best proposer.
- In 2018, a contract was entered into with PMA to provide Services for three years, with the option for the City to renew two additional years.
- Historically, services total approximately $36,000 annually but the contract is encumbered for $70,000 annually. Charges are incurred per claim handling service, which varies annually.
- As a result of multiple years of PMA Service provision, the aggregate value of PMA's Service contract will exceed $90,000 in Fiscal Year 2020, necessitating City Council authorization for Services to continue in Fiscal Year 2020 and subsequent years.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None

Pro(s):

- Ensures Service continuity to support the City workers' compensation program.

Con(s):

- None.

Fiscal Impact:

- Contract expenses for Services are budgeted within the Workers' Compensation Fund and adopted with the Fiscal Year 2020 budget. The contract is contingent on budget appropriations in future fiscal years.

Motion:

- Motion to adopt a resolution authorizing the City Manager to renew an existing workers' compensation claims services agreement with PMA for one year and authorize PMA to provide the services for three additional consecutive years.

RESOLUTION BOOK NO. 41 - PAGE 52

C. REQUEST TO NAME TENNIS COURT 1 AT THE ASTON PARK TENNIS CENTER IN MEMORY OF LEWIS ISAAC

Action Requested: Request for City Council to adopt a resolution naming Court 1 at Aston Park Tennis Center located at 336 Hilliard Ave. in memory of Lewis Isaac.

Background:

- Pursuant to the City's public property naming policy, Parks & Recreation staff requests the naming of a tennis court 1 at Aston Park Tennis Center in memory of Lewis Isaac.
- Lewis Isaac was a retired City of Asheville employee in the Human Resources Dept. (7 years) and the Parks & Recreation Department (3 years).
- Lewis Isaac served on the Recreation Advisory Board.
- Lewis Isaac was an avid tennis player and supporter of Aston Park Tennis Center
- Lewis lived a life of service to his community in both his professional life and personal life. He served on numerous boards and commissions.
- Supported by Asheville Tennis Association

Council Goal(s):

- Well-Planned and Livable Community
- Diverse Community

Committee(s):

- Recreation Advisory Board - 7/8/19

Pro(s):

- Recognize a dedicated public servant.
- Honor a volunteer and tennis player at a location that he dedicated time, energy and resources.

Con(s):

- None

Fiscal Impact:

- It is estimated that the plaque and installation may cost up to $2,000. These funds are available in the Parks & Recreation operating budget.

Motion:

- Move to request naming Court 1 at Aston Park Tennis Center located at 336 Hilliard Ave. in memory of Lewis Isaac.

D. RESOLUTION NO. 19-191 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO THE EXISTING TRANSIT AND OPERATIONS AND MAINTENANCE CONTRACT WITH ASHEVILLE TRANSIT MANAGEMENT, LLC (RATPDev USA)

Action Requested: Adopt a resolution authorizing the City Manager to execute an amendment to the existing Transit Operations and Maintenance Contract between the City of Asheville and Asheville Transit Management, LLC (RATPDev USA).

Background:

- The City of Asheville contracts out the operations and maintenance of the Asheville Redefines Transit (ART) fixed-route transit system.
- In 2017, the City of Asheville issued a request for proposals (RFP) for the operations and maintenance of ART and RATPDev USA was selected to be the contractor.
- The current contract is a four year contract with two optional two-year extensions. The third year of the current contract began July 1, 2019.

- In July 2018, the City of Asheville adopted the Transit Master Plan (TMP), which recommends a series of improvements over the next 10 years, including route changes, additional services, and extended hours of operations, as well as improvements to facilities.
- In the adopted FY 2020 budget, the City Council allocated an additional $1.2 million in transit funds to support implementation of the TMP. Approximately $1.0 million of this funding is intended to focus on improvements to on-time performance, customer service, and fleet maintenance, including 20,400 new service hours (to start in January 2020), representing a 25% increase in service.
- The existing contract with RATPDev USA requires that a service increase over 20% trigger a renegotiation of the contract. Staff and transit consultant, Carolyn Flowers, worked with RATPDev to renegotiate the contract to include the additional 20,400 service hours, as well as additional RATPDev staffing resources dedicated to improving customer service, maintenance and cleanliness of facilities, and additional dispatch operators and supervisors to improve operational performance.
- Additional and more stringent performance measures were also agreed to in order to reflect higher levels of accountability.
- Amendment 1 reflects the agreed-upon contract changes regarding additional service hours, staffing, and performance measures.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- Transit Committee, August 20, 2019; Finance/Human Resources Committee, August 27, 2019.

Pro(s):
- This action will support implementation of the 2018 Transit Master Plan (a portion of Year 1).
- This action will provide improved customer service, maintenance, and on-time performance of the transit system.

Con(s):
- This action will result in increased transit operational costs, but is currently budgeted in the FY 2020 budget.

Fiscal Impact:
- Amendment 1 includes increases to both the monthly fixed-fee, from $268,377 to $356,676, and the revenue hour rate, from $41.89 to $42.69. These increases will go into effect when the additional transit service and staffing increases are implemented in January 2020.
- In FY 2020, this increase is expected to total approximately $1,003,000, which is included in the FY 2020 City budget and accounts for half a year of increases.
- Staff is committed to reviewing and assessing implementation of the scheduled enhancements and will report back to Council on our progress and proposed budgetary changes, if any, that may be needed to accelerate implementation of extension of hours that was discussed during the budget process.
- To maintain the same level of service in FY 2021, it will be necessary to allocate a minimum of $2,006,000 for the full year. Additional service improvements will require additional funding.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute an amendment to the existing contract Transit Operations and Maintenance Contract between the City of Asheville and RATPDev USA.

RESOLUTION BOOK NO. 41 - PAGE 53

E. RESOLUTION NO. 19-192 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A REIMBURSEMENT AGREEMENT WITH DUKE ENERGY FOR ELECTRIC BUS CHARGING INFRASTRUCTURE FOR THE PROTERRA ELECTRIC BUSES

ORDINANCE NO. 4755 - BUDGET AMENDMENT FROM DUKE ENERGY TO PURCHASE AUTOMATIC PASSENGER COUNTERS FOR THE ELECTRIC BUSES

Action Requested: Adopt a resolution authorizing the City Manager to execute a Reimbursement Agreement between the City of Asheville and Duke Energy to reimburse the City of Asheville $200,000 for Electric Bus Charging Infrastructure for the Proterra electric buses; and approve a budget amendment in the amount of $23,620 to utilize a portion of the reimbursement funds to purchase automatic passenger counters for the electric buses.

Background:

- Duke Energy is required to spend $3,000,000 to implement environmental mitigation projects in the State of North Carolina to reduce air emissions, either by reducing vehicle emissions or by reducing fossil-fueled electricity generation.
- This Electric Bus Charging Infrastructure Reimbursement Project is designed to enable Duke Energy to provide support to transit agencies that wish to acquire electric buses and require assistance funding the associated charging infrastructure necessary to support operations of such electric charging infrastructure.
- The City of Asheville purchased five electric charging units as part of the procurement of electric buses and requested that Duke Energy reimburse the City for the costs to procure, construct and install the electric charging infrastructure.
- Duke Energy has agreed to reimburse the City for the costs associated with procuring, constructing, and installing the electric charging infrastructure for the amount of $200,000.

Vendor Outreach Efforts:

- N/A

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- Finance and Human Resources Committee, July 23, 2019, unanimous approval.

Pro(s):

- Reimburses the City for $200,000 in expenses related to the electric bus project.

Con(s):

- None

Fiscal Impact:

- Reimburses the City for $200,000 in expenses related to the electric bus project. Staff will utilize a portion of the Duke reimbursement to purchase automatic passenger counters

for the electric buses, and the remainder will go towards reducing the City's match for the Proterra bus purchases and the charging units.

Motion:

- Motion to authorize the City Manager to execute a Reimbursement Agreement between the City of Asheville and Duke Energy to reimburse the City of Asheville $200,000 for Electric Bus Charging Infrastructure for the Proterra electric buses; and motion to approve a budget amendment in the amount of $23,620 to utilize a portion of the reimbursement funds to purchase automatic passenger counters for the electric buses.

RESOLUTION BOOK NO. 41 - PAGE 54
ORDINANCE BOOK NO. 32 - PAGE 408

F. ORDINANCE NO. 4756 - BUDGET AMENDMENT TO MOVE THE FISCAL YEAR 2019-20 ELECTRIC BUS BATTERY ANNUAL LEASE PAYMENT FROM THE TRANSIT OPERATING FUND TO THE TRANSIT CAPITAL FUND

Action Requested: Adoption of a technical budget amendment in the amount of $100,000 to move the Fiscal Year (FY) 2019-20 electric bus battery annual lease payment from the Transit Operating Fund to the Transit Capital Fund.

Background:

- In FY 2018-19 the City purchased five Proterra electric buses and entered into a sole source lease agreement with Proterra for the bus batteries.
- The battery lease agreement included an upfront prepayment of $118,000 per battery and annual payments of $20,000 per battery.
- The bus procurement and the battery lease agreement are funded with a mix of federal, state, and City matching dollars.
- The initial pre-payment was made in FY 2018-19 from the Transit Capital Fund, and the FY 2019-20 annual payment of $100,000 was budgeted in the Transit Operating Fund.
- Staff has determined that in order to better align expenses with grant revenues and City matching dollars, the annual lease payments should be budgeted in the Transit Capital Fund instead of the Transit Operating Fund.

Council Goal(s):

- A Financially Resilient City

Pro(s):

- Improves accounting and reporting by aligning expenses in the same fund as the grant revenue and the City grant match.

Con(s):

- None.

Fiscal Impact:

- There is no net fiscal impact with this technical budget amendment; budget is simply being moved from one fund to another.

Motion:

- Motion to adopt a budget amendment in the amount of $100,000 to move the FY 2019-20 electric bus battery annual lease payment from the Transit Operating Fund to the Transit Capital Fund.

ORDINANCE BOOK NO. 32 - PAGE 409

G. ORDINANCE NO. 4757 - BUDGET AMENDMENT FROM TWO GRANTS TO ADVANCE EQUITY AND INCLUSION THROUGH PROGRAMMING

Action Requested: Budget Amendment, in the amount of $33,500, from two Government Alliance on Race and Equity (GARE)/Race Forward grants to advance equity and inclusion through programming.

Background:

- Received GARE/Race Forward NC Implementation & Innovation Grants to address structural racism through centering those most impacted by structural racism.
- NC Implementation & Innovation Grant #1 - In partnership with Artists Design EVOLution - The ade' Project add capacity and create entrepreneurship pathways to Racial Equity Facilitators.
- NC Implementation & Innovation Grant #2 - Asheville Healing will use a Truth, Healing & Transformation framework to engage communities most impacted by historic and contemporary traumas of structural racism in developing an Equity Vision for Asheville

Council Goal(s):

- An Equitable & Diverse City

Committee(s):

- None

Pro(s):

- Increases ability to engage traditionally underrepresented community members in building trust and improving relationships with city government.

Con(s):

- None

Fiscal Impact:

- The grants increase the Office of Equity & Inclusion's Contracting budget.

Motion:

- Motion to approve a budget amendment to increase the Office of Equity & Inclusion's budget in the amount of $33,500.

Jonathan Wainscott spoke in support of the budget amendment and hoped that some of the money funding the Office of Equity & Inclusion will be used for data analysis of the voter registration.

ORDINANCE BOOK NO. 32 - PAGE 410

H. RESOLUTION NO. 19-193 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE PURCHASE ORDERS FOR THE PURCHASE OF SEVEN TRANSIT BUSES

Action Requested: Adoption of a resolution authorizing the City Manager to purchase a total of seven (7) new buses for the Asheville Redefines Transit System totaling $3,798,538. This includes authorization to:

1. Execute purchase orders in the amount of $2,107,458 for three (3) 30-foot diesel electric hybrid Gillig buses utilizing the existing Rocky Mount, North Carolina Consortium Contract No. CRM 76164 in which the City of Asheville is a part; and

2. Waive the bidding requirements per NCGS 143-129(g) allowing the City of Asheville to utilize the existing City of Oxford, Mississippi Contract No. 500350 with Alliance Bus Group, Inc. to purchase four (4) Grande West Vicinity diesel buses, assigned by Mississippi State University to the City of Asheville; and

3. Execute a purchase order in the amount of $1,451,956 to purchase four (4) Grande West Vicinity diesel buses at the base bid price in the City of Oxford, Mississippi Contract No. 500350; and

4. Execute a change order, not to exceed $239,208, to the four (4) Grande West Vicinity buses in order to outfit them with the equipment necessary for the Asheville Redefines Transit System.

5. Execute a lease agreement with Alliance bus Group, Inc. for the lease of up to five (5) Grande West Vicinity diesel buses between January 2020 and the arrival of the new buses.

Background:

- The City of Asheville strives to maintain a healthy transit fleet in order to provide reliable transit service to the community.
- In 2018, The City received $5.7 million in federal grant funds from the French Broad River Metropolitan Planning Organization for the purpose of procuring new transit buses. The City match for the grant funds was $1.4 million, providing a total budget of $7.1 million for bus procurement.
- The City plans to utilize these funds over the next 3 years to purchase a number of buses consistent with the City's rolling stock replacement schedule, which considers the life cycle of each bus and when it will likely need to be replaced, the appropriate number of spare vehicles necessary, and upcoming and anticipated service expansions as outlined in the 2018 Transit Master Plan.
- The City wishes to purchase a total of 7 buses at this time, including four (4) 30-ft. Grande West Vicinity diesel buses and three (3) 30-ft. Gillig diesel electric hybrid buses.
- The City of Asheville is currently a part of a consortium (consolidated purchasing) contract with Rocky Mount, NC (Contract No. CRM 76164) for the purchase of buses from Gillig. The city expects to receive these buses in 12-18 months.
- The City of Asheville plans to purchase four 30-foot diesel Vicinity buses from Contract No. 500350 between the City of Oxford, Mississippi and Alliance Bus Group. It is expected that the City will receive these buses in Spring 2020. Alliance bus group has agreed to let the City lease for $1, up to five Vicinity buses between January 2020 and the arrival of the new buses. This will provide the necessary vehicles for the increase in service in January 2020.
- The City of Oxford, Mississippi has approved the assignment of four Vicinity buses from the fifteen buses awarded to Mississippi State University on October 1, 2018 via Contract No. 500350 between the City of Oxford and Alliance Bus Group.

Vendor Outreach Efforts:

- Staff researched and evaluated a number of existing transit bus contracts from different jurisdictions to determine the most appropriate fleet additions, meeting existing financial, operational, and time constraints.

Council Goal(s):

- Transportation and Accessibility

Committee(s):
- Finance and Human Resources Committee, August 27, 2019

Pro(s):
- This action will enable staff to purchase additional buses needed to meet the schedule for timely implementation of the Transit Master Plan.
- The purchase of additional hybrids and diesel vehicles will provide the needed fleet flexibility to meet system and on-time-performance needs. Staff continues to evaluate the electric buses currently in service and to monitor the electric bus market for future fleet purchases.
- This action ensures compliance with the Federal Transit Administration and the City of Asheville's procurement policy.

Con(s):
- Approximately $759,708 in City capital funds will be used to provide the required 20% match.

Fiscal Impact:
- As noted above, the purchases will be made using a portion of the $5.7 million in grant funds awarded in 2018 by the French Broad River Metropolitan Planning Organization. The City will provide the required 20% matching funds. The grant and the City match are already budgeted in the approved Capital Improvement Program (CIP) and the City's match is included in the cash flow for the CIP/debt model.

Motion:
- Move to adopt a resolution authorizing the City Manager to purchase a total of seven (7) new buses for the Asheville Redefines Transit System totaling $3,798,538. This includes authorization to:

1. Execute purchase orders in the amount of $2,107,374 for three (3) 30-foot diesel electric hybrid Gillig buses utilizing the existing Rocky Mount, North Carolina Consortium Contract No. CRM 76164 in which the City of Asheville is a part; and

2. Waive the bidding requirements per NCGS 143-129(g) allowing the City of Asheville to utilize the existing City of Oxford, Mississippi Contract No. 500350 with Alliance Bus Group, Inc. to purchase four (4) Grande West Vicinity clean diesel buses, assigned by Mississippi State University to the City of Asheville; and

3. Execute a purchase order in the amount of $1,451,956 to purchase four (4) Grande West Vicinity diesel buses at the base bid price in the City of Oxford, Mississippi Contract No. 500350; and

4. Execute a change order, not to exceed $239,208, to the four (4) Grande West Vicinity buses in order to outfit them with the equipment necessary for the Asheville Redefines Transit System; and

5. Execute a lease agreement with Alliance bus Group, Inc. for the lease of up to five (5) Grande West Vicinity diesel buses between January 2020 and the arrival of the new buses.

RESOLUTION BOOK NO. 41 - PAGE 55

I. **ORDINANCE NO. 4758 - BUDGET AMENDMENT TO ALLOCATE INSURANCE RECOVERY FUNDS FOR A TOTALLED CITY BUS**

Action Requested: Adoption of a budget amendment in both the Transit Capital Projects Fund and the Property and Liability Fund in the amount of $359,706 from insurance funds received in consideration for a totalled City of Asheville (City) bus to apply towards the purchase of a new bus.

Background:
- On October 28, 2018, a 2006 Orion City bus was totalled as a result of an engine fire.
- The City filed an insurance claim with the City's property insurance carrier seeking compensation for the totalled bus and received $359,706 in consideration for the claim.
- The City seeks to allocate the insurance proceeds to the Transportation Department to apply towards the purchase of a new bus.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- Allocate property insurance proceeds received for the Transportation Department to utilize.

Con(s):
- None

Fiscal Impact:
- The revenue will be received in the Property & Liability Fund and transferred to the Transit Capital Projects Fund, which necessitates a budget amendment in both funds.

Motion:
- Move to adopt a budget amendment in both the Transit Capital Projects Fund and the Property and Liability Fund in the amount of $359,706 from property insurance proceeds to apply towards the purchase of a new bus.

ORDINANCE BOOK NO. 32 - PAGE 411

J. **RESOLUTION NO. 19-194 - RESOLUTION AMENDING THE 2019 CITY COUNCIL MEETING SCHEDULE TO (1) ADD AN AFFORDABLE HOUSING WORKSHOP ON SEPTEMBER 6, 2019, AT 8:15 A.M. IN THE BANQUET HALL OF THE U.S. CELLULAR CENTER; AND (2) CANCEL THE CITY COUNCIL REGULAR MEETING ON OCTOBER 8, 2019**

RESOLUTION BOOK NO. 41 - PAGE 57

K. **RESOLUTION NO. 19-195 - RESOLUTION AMENDING RESOLUTION NO. 19-142 TO REPLACE THE PROGRAM NAME OF "SERVICE COORDINATOR FOR THE CITY OF ASHEVILLE" WITH "BENEFITS ASSISTANCE PROGRAM" FOR THE 2019-20 STRATEGIC PARTNERSHIP FUND GRANT**

Action Requested: Adoption of amended resolution to replace program name of "Service Coordinator for the City of Asheville" with "Benefits Assistance"

Background:

- On June 11, 2019, City Council approved Strategic Partnership Funding for the 2019-2020 Fiscal Year, based on funding recommendations made by the Housing & Community Development Committee on March 29, 2019 .
- An administrative error was made in Resolution 19-142, listing the incorrect program name for The Council on Aging of Buncombe County's Strategic Partnership Fund program as "Council on Aging Buncombe County-Service Coordinator for the City of Asheville". The correct program name is "Council on Aging Buncombe County-Benefits Assistance". No programmatic or funding changes are being requested.
- This correction is necessary to move forward with contracting the grant and making the funds available to the agency.

Council Goal(s):

- Thriving Local Economy

Committee(s):

- None

Pro(s):

- This will correct an administrative error made in the original resolution.
- This correction will allow the City to move forward with a contract for the Strategic Partnership Fund grant allocated to The Council on Aging of Buncombe County

Con(s):

- None

Fiscal Impact:

- No fiscal impact is associated with this administrative correction.

Motion:

- Motion to correct an administrative error on resolution 19-142 which replaces the program name of "Service Coordinator for the City of Asheville " with "Benefits Assistance" for The Council on Aging of Buncombe County's Strategic Partnership award.

RESOLUTION BOOK NO. 41 - PAGE 58

L. RESOLUTION NO. 19-196 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW AN EXISTING LIABILITY CLAIMS SERVICES AGREEMENT WITH PMA MANAGEMENT CORPORATION FOR A PERIOD OF ONE YEAR AND AUTHORIZE PROVIDING THE SERVICES FOR THREE ADDITIONAL CONSECUTIVE YEARS

Action Requested: Adoption of a resolution authorizing the City Manager to renew an existing liability claims services agreement with PMA Management Corporation (PMA) for a period of one year and authorize providing the services for three additional consecutive years.

Background:

- The City of Asheville (City) Risk Management Division (Risk) administers the City liability program and contracts with PMA for liability claims handling services (Services), including: claims record keeping and check issuance.
- Since 2010, PMA has provided Services to support the City liability program.
- In 2018, Services were sought via a Request for Proposals and PMA was the best proposer.

- In 2018, a contract was entered into with PMA to provide Services for three years, with the option for the City to renew two additional years.
- Historically, services total approximately $25,000 annually but the contract is encumbered for $70,000 annually. Charges are incurred per claim handling service, which varies annually.
- As a result of multiple years of PMA Service provision, the aggregate value of PMA's Service contract will exceed $90,000 in Fiscal Year 2020, necessitating City Council authorization for Services to continue in Fiscal Year 2020 and subsequent years.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- Ensures Service continuity to support the City liability program.

Con(s):
- None.

Fiscal Impact:
- Contract expenses for Services are budgeted within the Property & Liability Fund and adopted with the Fiscal Year 2020 budget. The contract is contingent on budget appropriations in future fiscal years.

Motion:
- Motion to adopt a resolution authorizing the City Manager to renew an existing liability claims services agreement with PMA for one year and authorize PMA to provide the services for three additional consecutive years.

RESOLUTION BOOK NO. 41 - PAGE 59

M. RESOLUTION NO. 19-197 - RESOLUTION RATIFYING THE RENEWAL OF AN EXISTING SECURITY CONTRACT WITH ALLIED UNIVERSAL SECURITY FOR SERVICES PROVIDED AT PARKS AND RECREATION FACILITIES

Action Requested: Ratification of contract renewal and close out of contract with Allied Universal Security for security services at Parks and Recreation properties.

Background:
- In May, 2016, the City entered into a renewable contract with Allied Universal Security Company (previously US Securities) for the provision of security at parks and recreation properties, including but not limited to closing and securing properties.
- The contract was renewed on April 17, 2017, for Fiscal Year (FY) 2017-18.
- During the transition from US Securities to Allied Universal, the vendor did not bill the City for services rendered in FY 2018-19.
- Ratification of the contract allows the department to pay the outstanding balance and close-out the contract effective July 31, 2019.
- As of August 1, 2019, the Parks and Recreation department in-sourced the service.
- In-sourcing the service saves the City approximately $35,000 annually.

Council Goal(s):

- H.1 Invest needed financial and staff resources to address maintenance, new construction and operational needs.
- F.3 Identify opportunities to in-source existing contractual services.

Committee(s):
- None

Pro(s):
- Completion and close-out of existing contract and in-sourcing of labor at living wage.

Con(s):
- None

Fiscal Impact:
- Total cost of $70,000, funding split across FY 2018-19 ($65,000) and FY 2019-20 ($5,000).

Motion:
- Motion to adopt resolution ratifying the renewal, payment and close-out of the contract with Allied Universal Security for parks facilities security.

RESOLUTION BOOK NO. 41 - PAGE 60

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT

City Manager Campbell was pleased to introduce the City's new Assistant City Manager Richard White. She also was happy welcome Police Chief Chris Bailey, who was unable to attend this meeting.

Development Services Department Process & Permitting Initiatives

Development Services Director (DSD) Ben Woody provided Council with an overview of the DSD process and permitting initiatives (1) digital residential permitting; (2) development notification tool; and (3) expedited review process update.

"Big Picture" external changes include (1) No longer accept ***incomplete residential applications***; (2) DSD will convert applications and revisions into ***digital format***, no matter how they come in; (3) ***Formal communications*** to customers will go through Accela Citizen Access (ACA); (4) ***Electronic document retention*** in Accela is sufficient; there is no need to hold onto paper documents; and (5) Improved **customer resources.**

Internal changes include: (1) Develop a new ***workflow process*** for residential Electronic Document Review (EDR) that can scale up to other permit types; (2) Coordinate with ***partner***

organizations on going digital - Tax office, MSD, NCDEQ, NCDOT, Water; (3) Create a ***residential team*** and develop standard operating procedures; and (4) Coordinate with IT on ***technology implementation*** - Residential development portal, Accela improvements, electronic document review software.

Digital permitting conclusions are (1) The residential digital process has improved review accuracy and turn-around times; (2) The internal review procedure and technology improvements are replicable for other permit types; (3) The digital process provides a highly desirable service, but does not exclude customers from traditional paper submittals; (4) There is still a learning curve for one-time or infrequent applicants; and (5) Additional staff depth is needed.

Development notification tool (1) Part of the Technical Review Committee Process Improvement; (2) Provide timely information and clarity to residents regarding development; (3) Educate residents and promote a more effective communication process; and (4) **Desired outcome**: better development, better communication, less frustration on both sides,

Regarding the major development public survey, over 200 survey responses were received: (1) Who is building what? Residents are not sure who is responsible for building a project. (2) Where do regulations and rules come from? Some residents think rules are made up on the fly. (3) Who to talk to and when to talk to them. Residents are frustrated because they don't know this.

Top requested features are notifications, livestream, and granularity control (by route, whole city, specific neighborhoods, etc.) You can opt-in; choose your notifications; email delivery; digital access to application information; and/or process education.

Notification tool conclusions include (1) The beta tool is a work in progress. Additional usability testing and feedback is needed (waterfall model); (2) The beta tool is soft-launched. The project team is working with CAPE for additional outreach to potential users; (3) The project team plans to continue adding educational resources and more granular notification types to the tool; (4) The notification tool is replicable for other permit types; and (5) To opt-in please visit: https://notifications.ashevillenc.gov/.

He updated Council on the expedited review process: (1) Establish an expedited review process that aligns with Council priorities; (2) Provide a higher level of service to qualifying projects; (3) Concept is being piloted with affordable housing developments and bond funded capital projects; and (4) **Desired outcome**: reduce overall review process time; plans are approved with no more than one revision cycle.

Downtown Public Safety and Street Outreach

Assistant City Manager Cathy Ball reviewed with Council the current initiatives and investments in Downtown.

She provided Council with an overview (1) Addressing needs & responding to recent concerns; and (2) Update on current resources, initiatives and investments (a) Central Police District; (b) Street Outreach Program; (c) Harm Reduction Task Force with Buncombe County; (d) Asheville Fire Department; (e) Downtown Liaison; (f) Downtown Cleaning; (g) Haywood/Page; and (h) Communications.

Central Police District - (1) City Council approved funding for a new central police district; (2) Anticipated date of implementation January 2020; (3) The new district will support: (a) Improved response times; (b) Increased community policing; and (c) Improved relationships with area stakeholders.

Community Goal is to end homelessness by making it: Rare, Brief and Non-recurring.

Regarding the street outreach program, (1) City Council allocated $150,000 for homeless street outreach; (2) The City will contract with Homeward Bound to provide street outreach services to persons experiencing chronic homelessness; (3) Will work collaboratively with APD and AFD; (4) Objectives will be to reduce the number of people experiencing homelessness and increase housing placements; and (5) Program will launch by late fall.

Regarding the City/County Harm Reduction Task Force, (1) The City and Buncombe County are collaborating on tools and strategies for improving the health and wellbeing of individuals in need; (2) Working to find ways to mitigate public health and safety issues that correlate with a growing number of people experiencing homelessness and Substance Use Disorders (SUDs); and (3) In-progress to rollout syringe disposal units in high need locations as a pilot program.

The Fire Department has 14 firefighters on duty 24 hours a day at the downtown station. All firefighters are trained EMTs, carry medication to reverse overdoses, and carry resource cards to distribute to those in need.

Dana Frankel is the City's dedicated staff person who serves as a liaison for downtown. Role includes coordination to prioritize and address issues, collaborate on solutions.

Regarding Downtown cleaning services, (1) The City's PW Department oversees a cleaning contract for downtown that includes litter pick-up, pressure washing, weed control, and cleaning of the trash/recycling bins. New contract increases frequency in the core; (2) PW staff removes graffiti, collects litter, waters the hanging baskets regularly; and (3) Street cleaning takes place 5 nights/week.

Regarding 68 Haywood Street, (1) Community recommendations being implemented; (2) Hours of the property are 7 am - 10 pm; (3) Beginning in January 2020, use of 68 Haywood Street will transition to support construction and communication for the Haywood Streetscape Improvement project; and (4) Next steps for long-term use are in-progress (for consideration later on agenda).

Communications/Information - Staff will develop communications and information leaflets to be distributed at downtown businesses and other key locations to help direct (and address) concerns as well as to provide information and resources to those in need.

Next steps include (1) This presentation includes some current programs the City and partners are implementing - progress updates will be provided; (2) City continues to meet regularly with downtown groups and organizations (Asheville Downtown Association, Downtown Asheville Residential Neighbors, South Slope Neighborhood Association, homeless service providers) and seeks opportunities for coordinated efforts; and (3) Prioritization and guidance will continue to come from City and County, and community advisory groups.

Community call to action includes (1) Public safety and homelessness are **BIG** issues to address and require community partnerships and a multi-faceted approach; (2) We ask and encourage community members and organizations to consider their roles and resources - the City and existing partners cannot do this alone; and (3) In addition to partnering with Buncombe County and local service providers, we welcome input, ideas and collaboration on tools for addressing these complex challenges.

In response to Councilman Kapoor regarding concerns expressed about harassment in the downtown area, Ms. Ball said that the City is continuing to work on that issue.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 1 SOUTH TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO MIXED USE EXPANSION/CONDITIONAL ZONE TO ALLOW A MIXED-USE DEVELOPMENT THAT INCLUDES RESIDENTIAL, RETAIL, SERVICE AND ENTERTAINMENT USES

On August 27, 2019, Mr. Robert W. Oast Jr., the applicant's attorney requested this public hearing be continued to October 22, 2019. Therefore, Councilwoman Mayfield moved to continue this public hearing until October 22, 2019. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

B. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE RELATED TO THE DEFINITION OF KITCHEN AND HOMESTAY STANDARDS

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to amend the Unified Development Ordinance related to the definition of kitchen and homestay standards. . This public hearing was advertised on August 16 and 23, 2019.

Background:

- At two separate meetings in the summer of 2018, the Planning and Economic Development (PED) Committee heard from members of the Homestay Network (a community based organization of homestay permit holders) and city staff regarding regulation and enforcement of homestay standards. The city's new definition of "kitchen", adopted January 2018, was at the center of the discussions.
- City staff met with representatives from the Homestay Network several more times to review potential changes to homestay standards that included the kitchen definition and other changes meant to clarify the standards and assist with current enforcement practices.
- On June 10, 2019, the Planning and Economic Development Committee provided policy direction to staff to move forward with a change to the "kitchen" definition, and to clarify in the Unified Development Ordinance (UDO) the minimum homestay host age and proof of residency requirements.
- A homestay is not allowed to have a "kitchen" and the new definition of "kitchen" included a space that had any one of the following: a stove, a full-sized refrigerator, or a kitchen sink.
- The outcome of the PED Committee meeting was direction to amend the recently adopted definition of "kitchen" to be more consistent with a former staff interpretation that only included a stove.
- The kitchen definition and and other changes agreed to by the Homestay Network are included in the draft ordinance. Other changes designed to clarify homestay standards and support more effective enforcement were suspended to provide an opportunity to explore other alternatives, including direct outreach to the major on-line rental platforms. This effort, however, did not prove effective.
- To date, no further direction regarding the other changes designed to support enforcement proposed by staff has been provided.
- The Planning & Zoning Commission reviewed the proposed changes at their August 7, 2019, regular meeting and recommended approval (7:0).

Comprehensive Plan Consistency:

- This proposal best aligns with the *Living Asheville Comprehensive Plan* theme of a Resilient Economy by tackling the city's, "*housing affordability challenges from a number of different angles, which include . . . creating more economic opportunities for wage growth and upward mobility*". Also, under strategies to increase and diversify the housing supply, the *Plan* also describes the need to, "*Develop a comprehensive study of all lodging types and their impact on the community in order to evaluate policy options related to these different uses. In the interim, continue enforcement of illegal short-term vacation rentals*".

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Planning and Economic Development Committee (July 23, 2018, August 13, 2018 and June 10, 2019)

Pro(s):

- The change in the definition of "kitchen" will allow for living spaces to move between long-term and short-term more easily, while clarifying language that has been communicated to staff to be confusing.
- Allows for homestay and other lodging units to have more full-service amenities for out of town guests.
- Simplifies the application process by not requiring documents establishing proof of residency, while still requiring affirmation of residency.
- Clarifies that a homestay operator must be a minimum of 18 years of age, which is consistent with the on-line rental companies' policies.

Con(s):

- The change in the definition of "kitchen" will allow Accessory Dwelling Units and other separate living spaces, to be used for short-term lodging by simply removing a stove.
- Identifying noncompliance by the re-installation of a stove is very difficult and there is potential for abuse.
- Falsifying residency on homestay applications continues to be one of the more significant enforcement challenges.

Fiscal Impact:

- Homestay and Short-term Vacation Rental enforcement remains the single largest focus area within zoning enforcement and includes contracting with a third party software vendor to adequately monitor rental activity.
- No additional resources are being requested so no additional fiscal impact is anticipated; however, keeping up with the regulation of home-based lodging activities continues to evolve and can be unpredictable.

Ms. Tuch further explained that in January 2018, the Asheville City Council adopted Ordinance No. 4637. This ordinance fell in the middle of an ongoing community discussion about lodging and how best to regulate it. Prior to 2018 several lodging types were lumped together under one general category of "Lodging Facilities". So, among other things, the Ordinance sought to establish several new definitions distinguishing between the different forms of lodging, and this, in turn, allowed for more individualized regulation of those different forms of lodging. One of the new definitions adopted was a definition for "kitchen" which had become an increasingly important and necessary term to define because it was one of the key features used to distinguish between different forms of loding.

The definition of kitchen that was adopted in 2018 basically said that a kitchen was an area in a structure for the preparation and cooking of food, and which included any one of the following: a stove, a sink, a full-sized Refrigerator. If you have the sink, refrigerator and cabinetry, that by itself doesn't constitute a kitchen. It's the stove that becomes that defining element - the cooking appliance that requires a 240 volt outlet or gas connection. The new definition in the proposed ordinance reads "Kitchen means an area within a structure that is used for the preparation and cooking of food and that contains one or more cooking appliances requiring a 240 volt outlet or gas connection."

In the months following the adoption of the new ordinance and kitchen definition, folks who had an interest in homestays (either because they already had a homestay permit or were looking to acquire one) expressed concern over the limits of the new definition (particularly the inability to have a sink) and asked Council to reconsider.

The Planning & Economic Development (PED) Committee heard from the community and staff at two separate meetings in the summer of 2018 and after some consideration and exploration of other related matters, directed staff to redraft the definition to be more consistent with an earlier interpretation that a "kitchen" need only include a stove.

That is the main element of this amendment. There have been some questions raised about whether this allows both a homestay and an Accessory Dwelling Unit (ADU) on a single property, or allows rooms to be rented in separate structures, or allows multiple accessory structures. But, all of these things are already allowed and this amendment doesn't change any of that. It also doesn't change the rule that prohibits an ADU from being used as a Homestay but this has been a source of some confusion. Fundamentally, this amendment does two things:

1) It relaxes the definition of kitchen to allow more kitchen related amenities (full sized refrigerator, a sink, plug-in cooking appliances like a microwave, toaster oven, hot plate) not previously allowed in a Homestay, and
2) Because a stove is now the defining feature of a kitchen, it makes it easier to move between housing and lodging by simply adding or removing a stove. If you have an ADU and you remove a stove, you no longer have a kitchen - if you don't have a kitchen - you don't have a Dwelling Unit . So, if you start with an ADU, and you remove the stove, then the ADU is not longer an ADU and it becomes accessory living space, which is then eligible to be used as a Homestay.

Also included in the current text amendment are a couple relatively minor changes to the special standards for Homestays including: (1) Adding that the resident/manager be a minimum of 18 years old; and (2) The elimination of the need to supply proof of residency documents where, instead, staff is proposing to require an affirmation of residency and the need to submit documents, only if deemed necessary (probably, most commonly, when we have an enforcement case).

Mayor Manheimer opened the public hearing at 6:14 p.m.

Casey Campfield felt that enforcement of short term rentals has been insufficient and fines imposed are far too low to act as a deterrent. He was concerned that the City will not require documents establishing residency but only require affirmation of residency. He urged Council to fight the expansion of short-term rentals. He asked Council to not vote to relax restrictions on short-term rentals.

Bob Michel, homestay host, said they have been diligently working on this since January of 2018, and in the last six months they have come up with a better kitchen definition. He urged Council to support this amendment.

Jackson Tierney, with the Asheville Homestay Network, said some issues affecting cities include affordable housing, neighborhood integrity and property rights. In his opinion, the sweet spot is homestays. Homestays allow people to participate in the tourist economy, to make things more affordable for them or a renter, and it also requires that hosts spend every night in the home that they host guests. The move in January to remove by-right whole house rentals, was a good move to staunch the flow of investors and buying up properties. There are between 150-300 illegal short-term rentals in the City. They felt that fining the platforms $500/per day for each illegal listing is a step in the right direction. They also look forward to working with the City on the current violations across the City by using their business skills and their knowledge to improve it. He asked that Council support the ordinance amendment.

Mayor Manheimer asked for clarity in the con "The change in the definition of 'kitchen' will allow Accessory Dwelling Units and other separate living spaces, to be used for short-term lodging by simply removing a stove." In 2018, a detached structure could not be used as a homestay. She assumed with this definition of "kitchen", an ADU, whether detached ADU or an attached ADU, you can convert it to a homestay by removing the stove, with this change. Ms. Tuch said that is correct. Ms. Tuch clarified that happens today - people are converting detached and attached ADUs into homestays. What this proposed change does is makes it easier - that is the flexibility going back and forth between long-term and short-term.

Vice-Mayor Wisler said that about three years ago Council loosened up the rules for allowing people to have detached dwelling units. Council allowed people to build closer to the sidewalks, etc., but as part of that we said that this was to build living units, not homestays or short-term rentals.

Mayor Manheimer said Council loosened up the regulations around the construction of ADUs to make infill dwelling units easier to build in the City. The concern here is that we have this problem already, but this change may further exacerbate the issue of allowing more ADUs to be used as short-term rentals or homestays under this definition.

Mayor Manheimer said that under the State Building Code, when you build an ADU, the City will inspect and permit it. It assumes you have a kitchen and the issue here is that people will build these, or already have there, and in order to convert them into a homestay, they will just pull out the stove. Whereas, the current definition we have now is pretty convoluted, but if we really want to honor the intent that Council was headed when we start this with the crafting of the ADU ordinance, we would really only allow some kind of convenience kitchen - like in a hotel room (small sink, maybe a microwave and a dorm-size refrigerator). But we haven't gone in that direction. It's important to understand and have clarity around which track we are taking.

Vice-Mayor Wisler said that she was opposed to allowing detached ADUs to more easily be converted to homestays. She always felt that detached ADUs should be dwelling units - no matter what.

Councilwoman Mayfield said the policy track that we have been used with ADUs is that they should be used for long-term renters. She felt that is still the right strategy. What we are seeing; however, is that people were not actually building ADUs - they were just building accessory structures that didn't have the kitchen. That means that those structures can't ever be long-term.

Devinceo Priester urged Council to invest money into public housing projects.

Eliva Diaz spoke for the need to take care of renters by making sure landlords keep the structure safe.

Mayor Manheimer closed the public hearing at 6:43 p.m.

Vice-Mayor Wisler understood the idea of making the definition of kitchen easier and that a stove is the way to define a kitchen, but she suggested an amendment to include a standard that prohibits a detached structure from becoming a homestay. She felt that when we loosened up the rules for detached dwelling units, that the whole point of it was to create long-term rentals. If this allows short-term rentals, then she felt we have let the neighborhoods down and she would not support the amendment.

Mayor Manheimer said that Vice-Mayor Wisler's amendment may be significant enough to have to go back to the Planning & Zoning Commission.

Councilwoman Mayfield said that in October there were 11 recommendations that staff brought forward and this was one of them, which was to clearly state that ADUs could not be used as homestays. That did not represent a change in the law. It represented a clear statement of the staff's interpretation of existing law. That is still the law. It was always true you could build an ADU meant for long-term rental, take out the stove, and get a homestay permit. That has always been the case. If Council wants to explore that, she suggested sending this back to PED because there are more homestay regulations and issues that need to be addressed, including how we hold the platforms accountable for listing illegal short-term rentals, etc.

Councilman Kapoor said the goal is that we do want more long-term rentals. He felt that being able to have a detached structure that has the ability to move back and forth from short-term to long-term would encourage that. He feels that if we have people doing this illegally, then we need to come down on them hard. He was supportive of the proposed amendment. When we first did this in January 2018, he thought we would be voting on simply prohibiting whole house short-term rentals in the downtown. If Council wants to go back and revisit the question of what we do with detached structures, he felt we could send that through PED.

Mayor Manheimer said she has never been supportive of these changes. She doesn't favor the direction we are moving in. She would rather see an amendment not to allow any kind of homestay in any ADU and for that matter, not make it easy to simply modify a kitchen by pulling out the stove. She'd like to see us go back to the purity of the homestay definition - which is in your home, whether you are a long-term renter or a homeowner, you can rent up to 2 bedrooms in your home. If people want to put in a convenience kitchen that has a small sink, a microwave and a small refrigerator to accommodate their temporary guests, she felt we should move the ordinance in that direction. She was alarmed by what we are seeing in Asheville with the number of AirBnB units in Asheville - that is no small impact on rental housing available to people. We are hearing more and more rumors in Raleigh that there is a push from the Air BnB industry to pre-empt all cities in North Carolina from regulating Air BnB's at all. We have been dealing with this threat all summer. There is not a bill now, but there are committee substitute bills that have been drafted and floating around the legislature. She understands that the risk is that the real estate people who have lobbied the legislature, coupled with the AirBnB lobbyists, will try to make an end run around us. She doesn't want that. We have worked really hard for a really long time to come up with a compromise that works for our community and she is concerned this will move us in a direction that is not healthy for our community and not healthy for the people that live in our community. She appreciated Asheville Homestay Network taking it upon themselves to do all this work and engage with staff and come up with all these points, but she does not endorse it. She thinks it is the wrong direction to be going in.

City Attorney Branham said that Council can move to defer consideration of this item. Council has the authority under the rules to defer consideration for up to 100 days. That can be revived by separate motion within that period at a later meeting.

Councilwoman Mayfield moved to defer consideration to a later time period and that we send this issue, and the others that have been raised here tonight, back to PED for consideration. This motion was seconded by Vice-Mayor Wisler and carried on a 5-2 vote, with Councilman Kapoor and Councilman Young voting "no."

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 19-198 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH NELSON BYRD WOLTZ TO CREATE A CONCEPT PLAN FOR THE REDEVELOPMENT OF CITY OWNED PROPERTIES AT HAYWOOD STREET AND PAGE AVENUE

Director of Planning & Urban Design Todd Okolichany said that this is the consideration of a resolution to authorize the City Manager to execute a contract for the amount of 292,000 with Nelson Byrd Woltz to create a concept plan for the redevelopment of City owned properties at Haywood Street and Page Avenue.

Background:

- Council hired the Asheville Design Center to engage the community in a visioning process for the use of the City-owned Haywood and Page properties in late 2016. The Haywood Street Visioning Project report, which focused on building community consensus on uses for the site but not a design, was delivered to Council in 2017.
- In the fall of 2017, Council authorized staff to seek a team that could create a redevelopment concept, design, and other plan implementation materials that would build on and implement the community's vision for the site.
- Nelson Byrd Woltz led the the top-ranked team in that competitive request for qualifications (RFQ) process. The original proposed fee was $324,000.
- Negotiations were put on hold when it was determined by the City that funding was not available for the project in fiscal year (FY) 18-19. Staff maintained communications with the Nelson Byrd Woltz team during the next year. Informal conversations about re-negotiating the scope and fee began in January 2019, after the Planning and Economic Development (PED) Committee of Council made a motion to recommend to the full City Council that this project be funded as part of the upcoming budget year.
- Funding for the project was approved as part of the FY 19-20 budget process. The new proposed fee is $292,000.
- The scope of work includes: preliminary site due diligence; regular meetings with the client team and the community; technical planning and design activities; an analysis of social, environmental and economic returns possible; cost estimates; and the preparation and delivery of project reports and public presentations to City Council and their committees.
- The primary deliverable to the City will be a concept/master plan for the site and up to three draft concepts based on recommendations in the Vision Report (from 2017); followed by, a preferred and refined concept design with up to two plan alternatives (based on the same general concept plan).

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses including posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.

Council Goal(s):

- Develop a plan for Haywood Street land use and implement as appropriate.

Committee(s):

- PED committee recommendation on funding in December 2018
- Regular project updates provided to Downtown Commission

Pro(s):

- Use of contracted services allows the City to deliver on a Council Strategic Goal while allowing staff to provide essential services and continue work on existing projects.
- City will be one step closer towards implementing the community's long term vision for the site.

Con(s):

- None

Fiscal Impact:

- The total impact to the general fund is $292,000. Funding for this contract was included as part of the adoption of the FY 2019-2020 budget.

In response to Councilwoman Mayfield, Mr. Okolichany said that he has reached out to the original Vision Implementation Committee to ask for their assistance.

Elvia Diaz urged Council to make sure that any work goes to local people.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to adopt a resolution to authorize the City Manager to enter into a contract with Nelson Byrd Woltz in an amount not to exceed $292,000 and endorse the Vision Implementation Committee which includes original Vision Committee members as the stakeholder group for the process. This motion was seconded by Councilman and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 61

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Buncombe County Tourism Development Authority, the following individuals applied for the vacancy: Pratik Bhakta and James Poole. It was the consensus of Council to interview Mr. Bhakta and Mr. Poole.

RESOLUTION NO. 19-199 - RESOLUTION APPOINTING MEMBERS TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Affordable Housing Advisory Committee.

The terms of Barber Melton, Andy Barnett, Sage Turner and Joe Ikelheimer expire on September 1, 2019. And, pursuant to Resolution No. 19-63, two additional seats were added to the Affordable Housing Advisory Committee, one of which is a banker/lender with loan and/or commercial experience.

The following individuals applied for these vacancies: Grace Barron-Martinez, JV Farr, Margie Bukowski, Amber Banks, Paul Holstein, Brian Methvin, Shannon Watkins, Paul Heathman, Michael Figura, T. Cory Lewis, Tyson Bowman, Thomas Christ and Drew Crawford.

The Boards & Commissions Committee recommended (at the suggestion of the Affordable Housing Advisory Committee) reappointing Andy Barnett, Sage Turner and Joe Ikelheimer; and appoint Paul Heathman, Amber Banks and Margie Bukowski.

Vice-Mayor Wisler moved to reappoint (1) Andy Barnett, Sage Turner and Joe Ikelheimer to each serve an additional three-year term, terms to expire September 1, 2022, or until their successors have been appointed; (2) appoint Paul Heathman (banker/lender with loan and/or commercial experience) to serve a three-year term, term to expire September 1, 2022, or until his successor has been appointed; and (3) appoint Amber Banks and Margie Bukowski to each serve a three-year term respectively, terms to expire September 1, 2022, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 62

RESOLUTION NO. 19-200 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Citizens-Police Advisory Committee..

Gretchen Gudites has resigned from the Citizen-Police Advisory Committee, thus leaving an unexpired term until June 30, 2022.

The following individuals applied for these vacancies: Robert Woolley, Tracey DeBruhl, Jacob Haug, Shannon Watkins, Cathy Banks and Jeremy Spielman.

The Boards & Commissions Committee recommended appointing Jeremy Spielman.

Vice-Mayor Wisler moved to appoint Jeremy Spielman to the Citizens-Police Advisory Committee, to serve the unexpired term of Ms. Gudites, term to expire June 30, 2022, or until his has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 63

RESOLUTION NO. 19-201 - RESOLUTION APPOINTING MEMBERS TO THE I-26 CONNECTOR PROJECT AESTHETICS COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the I-26 Connector Project Aesthetics Committee.

Joe Minicozzi and Tai Djani have resigned from the I-26 Connector Project Aesthetics Committee.

The following individuals applied for these vacancies: Larry McDevitt, Forster de la Houssaye and Lynn Raker.

The Boards & Commissions Committee recommended (at the recommendation of the I-26 Connector Project Aesthetics Committee) appointing Forster de la Houssaye and Lynn Raker.

The following individuals applied for these vacancies: Larry McDevitt, Forster de la Houssaye and Lynn Raker.

The Boards & Commissions Committee recommended (at the recommendation of the I-26 Connector Project Aesthetics Committee) appointing Forster de la Houssaye and Lynn Raker.

Vice-Mayor Wisler moved to appoint Forster de la Houssaye and Lynn Raker to each serve approximately one year or until their tasks are complete before the Environmental Impact Statement is released. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 64

RESOLUTION NO. 19-202 - RESOLUTION APPOINTING MEMBERS TO THE MULTIMODAL TRANSPORTATION COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Multimodal Transportation Commission.

The terms of Bruce Emory (representing transit interests), David Nutter (representing greenway interests), and Terry March (representing bike and pedestrian interests) will expire on July 1, 2019. In addition, Rachelle Cox (representing bike/ped interests) and Mary Weber (representing greenway interests) resigned thus leaving two unexpired terms until July 1, 2021.

The following individuals applied for the vacancy: Ritchie Rozzelle, Pat Katz, Dennis Wencel, Michael Stratton, Kenneth Armstrong, Sandy Aldridge, Lisabeth Medlock, Shannon Watkins and Amy Jones.

It was the consensus of the Boards & Commissions Committee (at the recommendation from the Multimodal Transportation Commission) to reappoint David Nutter (representing greenway interests), appoint Lisabeth Medlock (representing transit interests), Randy Warren (representing bike/ped interests, PatKatz (at-large representative), Michael Stratton (representing bid/ped interests) and Kenneth Armstrong (representing greenway interests).

Vice-Mayor Wisler moved to (1) reappoint David Nutter (representing greenway interests) to serve an additional three-year term, term to expire July 1, 2022; (2) appoint Lisabeth Medlock (representing transit interests); (3) appoint Randy Warren (who is currently serving as an at-large representative) to now represent bike and pedestrian interests, to serve a three-year term , term to expire July 1, 2022; (4) appoint Pat Katz (at-large representative) to serve the unexpired at-large term of Mr. Warren, term to expire July 1, 2010; (5) appoint Michael Stratton (representing bike/ped interests) to fill the unexpired term of Rachelle Cox, term to expire July 1, 2021; and (6) appoint Kenneth Armstrong (representing greenway interests) to fill the unexpired term of Mary Weber, term to expire July 1, 2021. All appointments are until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 65

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Brynn Estelle spoke to Council about various issues, including opposition to redistricting.

Sarah Benoit urged Council to oppose redistricting.

Nina Tovish urged City Council to move forward with action to fight redistricting, and to not allow any more hotels.

Mayor Manheimer said that at the September 10, 2019, City Council meeting, City Council will set a public hearing on a hotel moratorium. At the September 24, 2019, public hearing, the City Manager will talk about what to expect during the moratorium period. Also, the Planning & Economic Development Committee will be meeting on Thursday, August 28, 2019, at 4:00 p.m. regarding a moratorium. In addition, City Council will be holding an affordable housing workshop on Friday, September 6, 2019, at 8:45 a.m. in the U.S. Cellular Center Banquet Hall.

Diane Alllen urged Council to enforce and/or enact laws that prohibit weapons on buses, noting that service animals on buses are a concern as all animals should have rabies vaccination tags.

Joe Minicozzi provided Council with his experience on the I-26 Connector Aesthetics Committee and why he resigned. He felt the City should not do anything until a final Environmental Impact Statement is received. Councilwoman Mayfield said that the final Environmental Impact Statement is due out next month, and thought the full report will come to City Council by the end of the year.

Peter Landis spoke about redistricting and urged Council to consider Councilman Kapoor's suggestion of 9 Council seats, which would give all voters the opportunity to vote for five candidates.

Scott Owen urged Council to fight redistricting; and also to keep the costs of the Haywood/Page site down.

Michelle Myers and Kim Roney provided comments to Council about the draft 100% Renewable Energy Initiative.

Closed Session

At 7:53 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, an administrative procedure and a potential lawsuit concerning City Council election districts, as well as potential settlements of claims including, but not limited to the following: City of Asheville v. Charles Soderquist and Stephanie B. Soderquist 18-CVS3772. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3).This motion was seconded by Councilman Kapoor and carried unanimously.

At 8:36 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Haynes and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:36 p.m.

322

Magdalen Burleson
CITY CLERK

MAYOR

Friday – September 6, 2019 - 9:00 a.m.
U.S. Cellular Center - Banquet Hall

Affordable Housing Workshop

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Mayor Manheimer welcomed everyone to the City Council affordable housing workshop.

Mayor Manheimer convened the workshop and thanked Dionne Nelson, President and CEO of Lauren Street, a for-profit developer of affordable housing, for leading the development of affordable housing portion of this workshop. Mayor Manheimer said the goal of the session is to review the realities of local affordable housing needs, barriers to building affordable housing and the role of the City as a partner.

Mayor Manheimer said that staff and Ms. Nelson will present information on how we move forward together as a community to address this important challenge affecting many residents.

Community Development Director Paul D'Angelo said that affordable housing is defined as households, both rental & homeownership, should spend no more than 30% of their gross income on housing costs. For a renter - this includes rent and utilities. For a homeowner - this includes mortgage, insurance and taxes. The more money we spend on housing, the less we have to spend on life's other necessities and to support the local economy. He said the Bowen Report 2019 for Buncombe County shows that 46.1% of renters are cost burdened, 21:3% of owners are cost burdened, 19.4% of renters are severely burdened, and 7.9% of owners are severely burdened.

Regarding housing affordability, it's not just in Asheville. Nowhere in the United States can a worker earning minimum wage, full-time, afford a two-bedroom home at fair market rent. In only 28 counties nationwide can a full-time minimum wage worker afford a one-bedroom rental home at fair market rent. US housing construction is not keeping the pace with demand. Middle incomes are now impacted by housing cost burdens. In Buncombe County, a minimum wage worker would need to work 85 hours per week to afford a modest one-bedroom apartment. He then reviewed the Fiscal Year 2019 area median incomes from a one-person to a six-person household size.

An an average annual salary of $19.14 hour, a person or household would have $995 to spend per money on housing. This salary could be supporting a family of 1, 2, 3, 4 +. He reviewed a chart of housing wage, housing costs and the gap. At a salary of approximately $40,000 per year, supporting an individual or family, this community member could afford a home priced at $135,000 (0% down) or $170,000 (20% down).

Real Estate Manager Nikki Reid showed a chart of the median home sale price in the City of Asheville and Buncombe County from 2003 into the first quarter of 2019. In 2003, the median home price was $148,000 and now in 2018, the median home price is $310,000.

Regarding the Buncombe County housing market, in 2014, there were 863 homes available under $300,000 vs. 280 today. In the Asheville city limits, only 48 homes are listed under $275,000.

She showed a nationwide graph from 1967 to 2017, showing that in 2018, the housing costs are five times greater than the median income. In 2017, Asheville's Area Median Income (AMI)l for a family of four is $61,300.

In summary, (1) gap in wages vs. housing costs - City has limited influence on the income side; (2) supply vs. demand (a) not enough units are being added to the market; and (b) strong demand puts pressure on pricing; and (3) lowest income earners are the most cost burdened (a) needs cut across all income levels below 80% AMI; (b) the lower the AMI level, the higher the subside; and (c) our moderate and low income households are being priced out of homeownership in Asheville.

Ms. Reid said the problem is the gap. Most wages, salaries and incomes we produce in our area don't support the average housing costs in Asheville, both rental and home ownership. Our vision for housing includes an equitable inclusive mixed-income community with a variety of housing types at a variety of price points, both homeownership and rental, for the variety of incomes and wages we produce in Asheville.

Mr. D'Angelo explained the challenges for delivering affordable housing. The gap depends on percentage of AMI, length of affordability, number of units, location of build, and style of build.

Ms. Reid explained the challenges of delivering affordable housing (from the 2019 Urban Land Institute report) (1) cost of capital - financing cost; (2) lack of building efficiencies; (3) availability of buyer financing; (4) cost of materials; (5) lack of industry leadership; (6) lack of density; (7) NIMBYism; (8) local government regulation and fees; and (9) land prices/availability. For Asheville's development community the challenges are (1) land prices/availability; (2) cost of materials; (3) local government regulation and fees; and (4) cost of capital - financing costs.

Ms. Reid said the City's role in affordable housing is funding; city-owned land, regulatory, and collaborator/convenor.

In summary, (1) development constraints are knowns - land/availability; cost of capital; and government regulations; (2) the lower the AMI level, the higher the subsidy; and (3) once we fully understand how affordable housing is developed, we can design policies to make an impact and build community.

Ms. Nelson said that Laurel Street develops high quality, mixed income communities for working families and seniors that are affordable to households of a variety of incomes. She then explained their development portfolio.

The role of the developer is (1) create "places" that we live, work or play; (2) provide project management of a development from concept to profitable operations; (3) assume or manage the risk of each stage of execution; and (4) get paid appropriately for the risk assumed and successful execution.

A developer's focus is on (1) affordable/mixed income housing (a) make a reasonable return as allowed by partners and investors - mainly fee based; (b) minimize risk as limited upside provides limited room to absorb losses; and (c) community impact; and (2) market rate (a) make a return in excess of investor requirements - mainly tied to upside not fee; (b) increased complexity which increases risk - two to three times that of an affordable/mixed income development; and (c) compensation for increased risk - substantially greater than affordable development.

The risk assumed for mixed income development includes (1) developer overhead and operating costs of team and operations - $l500,000 per project per year; (2) pursuit costs to

identify possible projects - up to $100,000 per project concept; (3) predevelopment costs to complete due diligence and close financing - up to $650,000 per project closing; (4) guaranty of construction completion and payoff of construction financing - up to $15 Million per project; and (5) guaranty of successful operations - up to $500,000 per project.

Ms. Nelson said the goal of affordable/mixed income housing is to develop and preserve market rate quality housing and make it affordable to households at a rate that is affordable.

She then showed a chart of incomes and occupations by AMI, along with a chart of affordable rents. Asheville residents need to earn nearly 120% AMI to afford market rents.

She explained why market rents are so high (1) supply and demand - most markets have under built housing for growing populations so constant demand drives up rents; (2) increased construction/development costs - rents must increase to justify investment in the construction of a new unit; (3) investor return expectations - market rate real estate investors expect returns in the 17%-20% range (3-5 year IRR); and (4) developers seek returns that exceed investor targets since their compensation is tied to upside above investor hurdles.

She explained the different financing structures; (1) affordable/mixed income housing (a) private (long term or social investor) or tax credit equity; (b) conventional debt and/or tax-exempt debt; and (c) subsidy financing (often more than one source; and (2) market rate (a) private equity; and (b) conventional debt.

Ms. Nelson showed several examples of projects in Charlotte, N.C. they developed, with AMIs.

She explained that a project with (1) total development costs of $165,000; (2) 30% equity investment; (3) no structured parking; (4) no subsidy; and (5) market rents - $1,200 for 1-bedroom; $1,600 for 2-bedroom. The total investor return is 20%.

The impact of affordability for a project with (1) same development program; (2) no subsidy; (3) market rents - $1,200 for 1-bedroom; $1,600 for 2-bedroom; (4) 20% of units at 60% AMI; and (5) increased equity of $1.2 Million to offset reduced debt capacity will equal a total investor return of 8%.

Subsidies to support affordability include low interest loans or grants, free/low cost land, property tax grants, social investor equity, waived fees or requirements, expedited approvals, and rent subsidies.

Ms. Nelson stressed that you can't realistically buy your way to affordability with City resources alone. Other partners must participate - County, School system, nonprofits, corporations and investors.

Mr. D'Angelo explained the City's role in affordable housing for funding. He said that the investment on the front end ... dollars incentivize the developer or invest on the back end ... dollars subsidize the renter or homeowner. He then reiterated the subsidy needed, noting that the gap depends on the percentage of AMI, length of affordability, number of units, location of build, and style of build.

He explained the City of Asheville's current funding (1) City as lender: funding streams include (a) Bond: $25 Million - $15 Million hi-impact sites (three); $5 Million Housing Trust Fund; $3 Million land banking; $1 Million Down Payment Assistance; and $1 Million Community Land Trust; (b) annual Housing Trust Fund - $500,000; (c) annual Capital Improvement Program - $2

Million; and (d) annual allocation of federal funds (HOME, Community Development Block Grant and Continuum of Care) - $3 .2 Million; and (2) City as taxing authority - land use incentive grant.

Partner funding includes (1) low income housing tax credit/4%s, 9%s; (2) other tax credits/historia and mills; (3) rent subsidies - Housing Choice vouchers; (4) bank financing - Community Development Financial Institutions; Federal Home Loan Bank, and Community Reinvestment Act; (5) developer fee deferral; (6) grants; and (7) philanthropic.

Putting our limited funding to work includes (1) all in with our funding, $30.7 Million, we could expect to produce 307 units of affordable housing; (2) utilizing other funding sources, our incentives, other partners ... if half the subsidy could be shared, we could produce 614 units; and (3) the more tools and partners we have at the table, the more units we can produce.

City Manager Campbell reiterated the goal of this discussion is hard, complicated and expensive, but needed. We have to be extremely strategic in how we invest, who we invest with and our expectation of results.

As a result of the analysis, City Manager Campbell asked for policy discussion on staff's recommendation of establishing a goal of 200 units per year, direct and indirect; (2) for needs served, staff recommends focus efforts 80% AMI and below, with emphasis/preference on 60% AMI and acceptance of Housing Choice vouchers; (3) prioritize leveraged investments (i.e. matching with County investment, etc.); and (4) prioritize geographic areas/land-banking for access to jobs, services and community amenities.

After discussion, it was the consensus of Council to move forward with staff's recommendation except that they establish a goal of 200 units per year by 2020, direct and indirect and then come back and look at issues and concerns and adjust the goal from there.

Ms. Reid said that regarding the City's role in affordable housing about City-owned land, the City land for Request for Qualifications this year include - 319 Biltmore (309 total units); 91 Riverside - 60+ total units; Cedar Hill - 239 total units; S. Charlotte Street (future); and Asheland Avenue (future).

The Disposition Policy guidelines: (1) Procedure 1 - the City decides when properties are available for redevelopment; (2) Procedure 2 - the City obtains appraisals and due diligence of property it seeks to redevelop; and (3) Procedure 3 - the City selects developers through an open and competitive process (RFQ, RFP or RFQ/P), unless otherwise directed by the Asheville City Council or City Manager.

Draft policy goals include (1) Affordable Housing Goal 1 - when developing City property, it is the City's goal to obtain a minimum of 20% of units at 60% AMI; (2) Affordable Housing Goal 2 - affordability period of at least 20 years, with a strong preference towards an affordability period of 30 years or longer; (3) Affordability Housing Goal 1 - when developing City property, it is the City's goal to obtain a minimum of 40% of total units as affordable - 20% of units at 80% AMI; 20% of units at 50% AMI; and (4) Affordable Housing Goal 2 - affordability period of at least 20 years, with a strong preference towards an affordability period of 30 years or longer.

Ms. Reid said explained that an analysis of policy for 319 Biltmore includes (1) 319 Biltmore site, when combined with Lee Walker Heights (a) under 40% affordability policy: 521 units/336 affordable - 64.5% affordable; (b) under 20% affordability policy: 521 units/273 affordable - 52% affordable; (2) other amenities and services - traffic signal, parking deck, supportive & community services; and community's desire for grocery, daycare, etc.; (3) perception/concentration of low income; (4) 20% affordable at 60% AMI - 61 units (a) requires potential subsidy of up to $6.1 Million; and (b) land alone may suffice as subsidy. For 40%

affordable (60 and 80% AMI) - 124 units (a) requires potential subsidy of up to $11 Million - land of $0 plus additional City funding; (b) limits the pool of development partners; and (c) limits the ability to invest in other sites.

City Manager Campbell asked for, and received, policy discussion on staff's recommendation on the overall disposition policy on all city-owned land of (1) establish baseline at 20% of the units being affordable to 60% AMI and accept Housing Choice vouchers, with 20 year affordability period; (2) establish scoring criteria in the RFQ/P to incent greater affordability, where appropriate, and other community benefits; (3) cast a wide net to attract more development partners; (4) recognize that each site has context; and (5) promote vision of affordable, mixed income communities.

There was discussion on staff's recommendation on the overall disposition policy on all city-owned land, with directions to explore items brought forward at this meeting.

Ms. 'Reid said that regarding the City's role in affordable housing - regulatory, includes existing incentives (1) fee grant program; and (2) expedited review.

Housing solutions to meet demand is an equitable inclusive mixed-income community with a variety of housing types at a variety of price points, both homeownership and rental, for the variety of incomes and wages we produce in Asheville.

Land use regulations (1) 57% of residentially zoned land is zoned Single-Family residential; (2) single family zones do not allow duplexes, triplexes, or quadruplexes; (3) no quadruplexes or triplexes were built in the past year; and (4) 11 duplexes in the past year (22 units). Historic neighborhoods provide greater variety in housing types and variety of housing affordability.

Increased density on single family lots include Accessory Dwelling Units/Tiny Homes; duplex development; and cottage court concept.

City Manager Campbell asked for, and received, policy discussion on staff's recommendation to study reviewing residential zoning districts to address barriers/impediments to development of affordable housing: example - changes to single family zoning ordinance to allow a variety of housing types as a use by right (example - duplex in single family zoning).

There was discussion on staff's recommendation regarding reviewing residential zoning districts to address barriers/impediments to development of affordable housing,with directions to explore items brought forward at this meeting.

Mr. D'Angelo said that the City's role in affordable housing - convenor and collaborator. He explained (1) <30% AMI - homeless agencies - Housing First (example - Homeward Bound); (2) 30%-60% of AMI - public housing - Housing Authority of the City of Asheville (example - Lee Walker Heights); and Housing Choice voucher - Housing Authority of the City of Asheville/Homeward Bound; and (3) 60%-80% of AMI - local nonprofit developers/for-profit developers (example - Mountain Housing Opportunities, Asheville Habitat for Humanity; ABCLT/Kassinger).

To build community, you need policy, community and capacity to make change. And, a holistic comprehensive approach to build affordable mixed-income communities - social issue, equity issue, education issue, health issue, economic issue, racial issue, community issue, and political issue.

City Manager Campbell asked for policy discussion on staff's recommendation to pursue the development of a social equity fund to provide additional resources to produce, preserve and protect affordable housing. She stressed that to address affordable housing, we cannot do this by ourselves.

There was discussion on staff's recommendation to pursue the development of a social equity fund to provide additional resources to produce, preserve and protect affordable housing, with directions to explore items brought forward at this meeting.

Mr. D'Angelo said that the takeaways of this workshop include (1) support the partners already doing the hardest work, the under 60% AMI individuals and families; (2) identify the gaps in the partnerships, funding, programs, incentives, regulations and fill them so municipal resources can go farther for 60% - 80% - 100% AMI; (3) call on for-profit developers and lenders to be a part of the solution; and (4) build community coalition and bring more partners to the table

Throughout the presentations, Ms. Nelson, along with City staff, responded to various questions/comments from Council, with discussion focusing on the complexities around this issue; with the goal of identifying the most effective tools the community can use to address the affordable housing issue.

City Manager Campbell said that City Council will be considering the disposition policy on September 24, 2019. All of the other kinds of initiatives discussed today will be reviewed by the appropriate City Council Committees, along with the applicable boards and commissions.

At 1:04 p.m., Mayor Manheimer adjourned the meeting.

Magdalen Bleiker
City Clerk

Esther E. Manheimer
Mayor

Tuesday – September 10, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Mayor Manheimer invited the public to the City of Asheville 911 Remembrance Ceremony at 8:30 a.m. on September 11, 2019, in front of the Municipal Building. This ceremony will pay solemn tribute to those who heroically sacrificed their own lives to save thousands of others and to remember those who helped in the rescue/recovery efforts that followed at ground zero.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER 8-14, 2019, AS "2019 NATIONAL SUCIIDE PREVENTION WEEK"

Mayor Manheimer read the proclamation proclaiming September 8-14, 2019, as "2019 National Suicide Prevention Week " in the City of Asheville. She presented the proclamation to Nicole Rikard, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 27, 2019

B. RESOLUTION NO. 19-203- RESOLUTION TO NAME TENNIS COURT 1 AT THE ASTON PARK TENNIS CENTER IN MEMORY OF LEWIS ISAAC

Action Requested: Adoption of a resolution naming Court 1 at Aston Park Tennis Center located at 336 Hilliard Ave. in memory of Lewis Isaac.

Background:

- Pursuant to the City's public property naming policy, Parks & Recreation staff requests the naming of a tennis court 1 at Aston Park Tennis Center in memory of Lewis Isaac.
- Mr. Lewis Isaac was a retired City of Asheville employee in the Human Resources Dept. (7 years) and the Parks & Recreation Department (3 years).
- Mr. Lewis Isaac served on the Recreation Advisory Board.
- Mr. Lewis Isaac was an avid tennis player and supporter of Aston Park Tennis Center.
- Mr. Lewis lived a life of service to his community in both his professional life and personal life. He served on numerous boards and commissions.
- This action is supported by Asheville Tennis Association and many other people and organizations.

Council Goal(s):

- Well-Planned and Livable Community

- Diverse Community

Committee(s):
- Recreation Advisory Board - July 8, 2019 - unanimous support

Pro(s):
- Recognize a dedicated public servant.
- Honor a volunteer and tennis player at a location that he dedicated time, energy and resources.

Con(s):
- None

Fiscal Impact:
- It is estimated that the plaque and installation may cost up to $2,000. These funds are available in the Parks & Recreation operating budget.

Motion:
- Move to adopt a resolution to name Court 1 at Aston Park Tennis Center located at 336 Hilliard Avenue in memory of former Parks & Recreation employee Lewis Isaac.

At the request of Councilwoman Mayfield, City Clerk Burleson said that she would advise City Council when the ceremony honoring Mr. Isaac was set.

RESOLUTION BOOK NO. 41 - PAGE 66

C. ORDINANCE NO. 4759 - BUDGET AMENDMENT FROM THE FEDERAL TRANSIT ADMINISTRATION FOR SECTION 5310 FUNDS

Action Requested: Adoption of Budget Amendment in the amount of $329,294 from Federal Transit Administration Section 5310 Funds (NC-2019-017).

Background:
- At its March 12, 2019, meeting, City Council approved a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization for Section 5310 Funds, and to accept the grants and sign all the appropriate agreements with the French Broad River Metropolitan Planning Organization, Federal, and/or State agencies.
- The purpose of the Section 5310 funding program is to improve mobility for seniors and individuals with disabilities by removing barriers to transportation services and expand transportation mobility options.
- These are Federal Transit Administration (FTA) funds under Award # NC-2019-017 for the Enhanced Mobility of Seniors and Individuals with Disabilities program that the City is the designated recipient for the region. The funds will be distributed to each of the applicants via an application process through the Metropolitan Planning Organization.
- The City is responsible for overseeing and disbursing the funds to the applicants. The chart below outlines the amount funded for each recipient.
- The budget amendment will provide expenditure authorization for the $329,294 in grant funds.

Subrecipient	Project	Amount	Local Match
City of Asheville	ADA Paratransit	$135,000	$33,750

Buncombe County	SEDTAP	$46,575	$11,644
Council on Aging	Call-A-Ride and SWS	$16,311	$16,311
Land of Sky Regional Council	Senior Companion Program	$33,426	$33,426
Buncombe County	RIDE Vouchers Program	$60,053	$60,053
Madison County	Senior Center/Meal Sites Transportation	$5,000	$5,000
City of Asheville	Program Administration	$32,929	N/A

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- Project funding is provided by the FTA, 50% of operating projects and 80% of capital projects. The sub-recipients are responsible for their local match.
- The City is provided $32,929 for administration purposes, which does not require a local match.

Con(s):
- None

Fiscal Impact:
- The total grant award for the projects is $329,294 and will be funded with Federal Funds.
- As noted above, $32,929 will be reimbursed to the city for administrative costs, and Asheville's local match for the provision of the Americans with Disabilities Act paratransit services totals $33,750.
- The City's local match in the amount of $33,750, is already budgeted in the Adopted Transit Services Fund Fiscal Year 2019-20 budget.

Motion:
- Motion to adopt a budget amendment in the amount of $329,294 from Federal Transit Administration Section 5310 Funds (NC-2019-017).

ORDINANCE BOOK NO. 32 - PAGE 412

D. RESOLUTION NO. 19-204 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY TO ISSUE A JOINT REQUEST FOR PROPOSALS IN THE DEVELOPMENT SERVICES FOR DUKE ENERGY'S GREEN SOURCE ADVANTAGE PROGRAM

Action Requested: Adoption of a resolution authorizing the City Manager to enter into an interlocal agreement with Buncombe County to issue a joint Request for Proposal (RFP) in the development services for Duke Energy's Green Source Advantage Program.

Background:

- The City of Asheville will enter into an interlocal agreement with Buncombe County to give authority to issue a joint Request for Proposal (RFP) for development services for Duke Energy's Green Source Advantage Program.
- Duke Energy's Green Source Advantage Program provides the opportunity to support renewable energy development in North Carolina for military installations, University of North Carolina institutions, and large business customers.
- This program was established by the Competitive Energy Solutions Law (HB 589) and was approved by the Utilities Commission on February 1, 2019. Applications will be accepted by Duke Energy starting on October 1, 2019. It is available on a first come, first serve basis.
- The intention of the RFP is to secure a purchased power agreement and renewable energy credits from a private supplier of solar energy in the Duke Energy Progress territory.
- Buncombe County staff will administer the RFP. The City will have a role in the selection of and negotiations with the responsive bidder.

Council Goal(s):

- A Clean and Healthy Environment
- A Connected and Engaged Community

Committee(s):

- Planning and Economic Development Committee - August 29, unanimous approval

Pro(s):

- Supports Resolution 18-279 to transition municipal operations to 100% renewable energy by 2030
- An interlocal agreement with Buncombe County will increase the requested demand (megawatts) which will attract larger solar developers.

Con(s):

- None

Fiscal Impact:

- None at this time. If staff determines that responsive bidders provide a fiscally viable option, a contract will be executed between the City, responsive bidder, and Duke Energy and will be funded through the Green Revolving program subject to further approval by the City.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into an interlocal agreement with Buncombe County to issue a joint RFP in the development services for Duke Energy's Green Source Advantage Program.

RESOLUTION BOOK NO. 41 - PAGE 67

E. RESOLUTION NO. 19-205 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT OKTOBERFEST

RESOLUTION NO. 19-206 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE WICKED HALLOWEEN 5K & FUN RUN

RESOLUTION NO. 19-212 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE GOOMBAY FESTIVAL

Action Requested: Adoption of resolutions to permit the possession and consumption of malt beverages and/or unfortified wine at Asheville Oktoberfest, the Wicked Halloween 5K & Fun Run, and the Goombay Festival.

Background:

- The following organizations have requested that City Council permit them to serve beer and/or unfortified wine at their events and allow for consumption at the events:
  - Asheville Downtown Association for Asheville Oktoberfest, to occur at Pack Square Park on October 5, 2019, from 1:00 p.m. - 6:00 p.m.
  - Charity Water for the Wicked Halloween 5K & Fun Run, to occur Carrier Park on October 19, 2019, from 8:00 a.m. - 2:00 p.m.
  - YMI for Goombay Festival, to occur September 20, 21, 22, 2019, at an approved event site map location along Eagle/Market Street area, alcohol sales not to exceed 5 p.m. - 10 p.m. on September 20, and 10 a.m. - 10 p.m. on September 21.
- Alcohol boundaries are defined for each request as per the accompanying event site maps.

Council Goal(s):

- These actions have no direct connection with the City Council 2036 Vision.

Committee(s):

- None

Pro(s):

- Allows fundraising opportunities for the sponsoring nonprofit organizations

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Motion to permit the possession and consumption of malt beverages and/or unfortified wine at Asheville Oktoberfest, the Wicked Halloween 5K & Fun Run, and the Goombay Festival.

RESOLUTION NO. 19-205 - RESOLUTION BOOK NO. 41 - PAGE 68
RESOLUTION NO. 19-206 - RESOLUTION BOOK NO. 41 - PAGE 71
RESOLUTION NO. 19-212 - RESOLUTION BOO KNO. 41 - PAGE 79

F. **RESOLUTION NO. 19-207 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A LEASE AMENDMENT WITH CROWN CASTLE (D/B/A PINNACLE TOWERS LLC) TO CONTINUE THE CITY'S PRESENCE ON THE TELECOMMUNICATIONS TOWER LOCATED AT 1599 SPIVEY MOUNTAIN**

Action Requested: Adoption of a resolution authorizing the City Manager to renew the telecommunications lease between the City of Asheville and Crown Castle (DBA Pinnacle Towers) at Spivey Mountain.

Background:

- The City of Asheville leases space on a telecom tower located on Spivey Mountain for public safety communications. The original lease between Crown Castle and the City of Asheville was signed in May of 2001.
- This lease has been amended several times and is set to expire in 2021. The current rental amount is $3,775.08 per month with a 4% annual escalation rate. The monthly rate will increase to $3,926 in 2020 and then to $4,083 in 2021. The City has the right to terminate the lease at 90 days notice.
- The original term was 60 months (5 years) with three automatic renewals of five years each. Because of its importance to the City's public safety communications, new terms have been negotiated well in advance of the scheduled termination.
- Crown Castle has agreed to lower the escalation rate to 3% and the rental amount will continue at $4,083 as the existing lease ends in 2021. The proposed new term is an extension of 10 years, plus one renewal of five years. City staff recommends acceptance of these terms.

Council Goal(s):
- Financially Resilient City.

Committee(s):
- None

Pro(s):
- The City's presence on this tower will be stabilized with a 10 year term, plus a five year renewal.
- The current escalation rate will be reduced to 3%.

Con(s):
- None

Fiscal Impact:
- The current and future rental payments are budgeted in the Information Technology Department's Operational budget. Once the new lease takes effect in 2021, the rental payments will commence at $4,083 per month and escalate by 3% each year.

Motion:
- Move to adopt a resolution authorizing the City Manager to sign a lease amendment with Crown Castle to continue the City's presence on the tower.

RESOLUTION BOOK NO. 41 - PAGE 74

G. **RESOLUTION NO. 19-208 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH MISSION HOSPITAL ACCEPTING A DONATION TO BE USED FOR THE CONSTRUCTION OF A BUS SHELTER IN THE VICINITY OF LIVINGSTON STREET**

ORDINANCE NO. 4760 - BUDGET AMENDMENT FOR THE CONSTRUCTION OF THE BUS SHELTER IN THE VICINITY OF LIVINGSTON STREET

Action Requested: Authorize the City Manager to adopt (1) a resolution to execute an agreement with Mission Hospital accepting a donation of up to $30,000 to be used for the construction of a bus shelter in the vicinity of Livingston Street; and (2) a budget amendment in the amount of $30,000 in the Transit Capital Projects Fund for the construction of the shelter.

Background:

- Mission Hospital received a Conditional Use Permit during October 2015 for the construction of the North Tower, which is nearing completion.
- One of the B-1 conditions required Mission Hospital to provide $30,000 to the City for the construction of a bus shelter.
- The shelter was to be constructed as part of the City's larger Livingston Street improvement project; however, that project is currently on hold and no shelter has been constructed.
- In order to receive the certificate of occupancy and meet the B-1 condition in the Conditional Use Permit, Mission Hospital and the City propose to execute an agreement whereby Mission Hospital would provide the City with $30,000, which would be allocated to the Transit Capital Fund, and the City would construct the shelter either when it moves forward with the Livingston Street project or as a separate project.
- The Agreement does not include a deadline for construction of the shelter by the City.
- The City would provide Mission Hospital with a refund of any remaining funds after the shelter is constructed.
- The Agreement would enable Mission Hospital to receive their certificate of occupancy (assuming all other requirements of the project have been met).

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- Provides funding for the City to install a transit shelter that will serve the S4 route within the vicinity of Mission Hospital on Livingston Street.
- Enables Mission Hospital to receive the certificate of occupancy when the project is completed.

Con(s):

- None

Fiscal Impact:

- Since the funds will be provided by Mission Hospital, no City funds are impacted in the Transit Capital projects budget.

Motion:

- Move to authorize the City Manager to adopt (1) a resolution authorizing the City Manager to 1. Execute an agreement with Mission Hospital accepting a donation of up to

$30,000 to be used for the construction of a bus shelter in the vicinity of Livingston Street; and (2) a budget amendment in the amount of $30,000 in the Transit Capital Projects Fund for the construction of the shelter.

RESOLUTION BOOK NO. 41 - PAGE 75
ORDINANCE BOOK NO. 32 - PAGE 413

H. RESOLUTION NO. 19-209 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH HARRISON CONSTRUCTION, DIVISION OF APAC-ATLANTIC, FOR THE CHARLOTTE STREET ROAD DIET PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Harrison Const., Division of APAC-Atlantic, Inc. in the amount of $973,556.10 for the construction of the Charlotte Street Road Diet project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $64,694 (6.7%).

Background:

- In April 2018, City Council via Resolution 18-93 directed staff to implement a road diet and make spot safety improvements as part of the Charlotte Street Improvements project.
- In November 2018, Council authorized the City Manager to execute a design contract for these improvements.
- Design, engineering, and public engagement continued through the Spring of 2019.
- Construction bids were advertised on July 15, 2019 with the original bid opening scheduled for August 15th. Because only two bids were received, the project was re-advertised and bids were opened on August 22, 2019. No additional bids were submitted. Contractor names and bid amounts are listed below:
    - Harrison Construction, Division of APAC-Atlantic, Inc. (Candler, NC) $973,556.10
    - Bryant's Land Development Industries, Inc. (Burnsville, NC) $1,364,546.10
- Harrison Construction was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned business through solicitation processes which included posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- 14.48% of the total dollar amount of this contract will be performed through a certified MWBE. New Dimensions in Pavement Markings from Fletcher, NC and Hamilton Hauling from Candler, NC are the certified MWBE subcontractors on this project.

Council Goal(s):

- Transportation and Accessibility
- A Well Planned and Livable Community

Committee(s):

- Multimodal Commission - May 22, 2019 - Informational only; no vote requested

Pro(s):

- Currently listed in the adopted Capital Budget and is consistent with City Council's direction related to the Charlotte Street Road Diet and safety improvement recommendations provided in April 2018.

- Implements multi-modal principles.
- Enhances travel safety for multiple modes of transportation.

Con(s):

- Possible reduced levels of service for automobiles and increased queue lengths during peak hours with a maximum projected delay of 18.8 seconds.

Fiscal Impact:

- The Charlotte Street Improvements project has been listed in the Capital Improvement Program document since Fiscal Year (FY) 2014-15. The adopted budget for the project is $1,250,000.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with Harrison Construction Division of APAC-Atlantic, Inc. in the amount of $973,556.10 for the construction of the Charlotte Street Road Diet project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $64,694 (6.7%).

At the request of Councilwoman Smith, Director of Transportation Ken Putnam, along with Capital Projects Director Jade Dundas, responded to questions related to this project related to emergency access and stormwater infrastructure issues.

Mr. Sidney Bach urged City Council to suspend this major City road project pending completion of a professional Traffic Impact Analysis (TIA) by a firm acceptable to the City, especially since the City will not have to contribute to the costs of this TIA and the contractor can't start on the project until February 2020. He provided Council with an excerpt from the August 2013 Charlotte Street Corridor Traffic Study Report that reads in part "... it is difficult to identify tangible benefits justifying moving forward with the project as currently defined."

Mr. Jonathan Wainscott also supported suspending the project, noting that there are many other more immediate infrastructure needs.

RESOLUTION BOOK NO. 41 - PAGE 76

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS: None

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER REZONING TWO LOTS LOCATED AT 120 EMMA ROAD AND 99999 EMMA ROAD FROM RS-2 RESIDENTIAL SINGLE-FAMILY LOW DENSITY DISTRICT TO RIVER ARTS DISTRICT - OPEN SPACE

ORDINANCE NO. 4761 - ORDINANCE TO REZONE TWO LOTS LOCATED AT 120 EMMA ROAD AND 99999 EMMA ROAD FROM RS-2 RESIDENTIAL SINGLE-FAMILY LOW DENSITY DISTRICT TO RIVER ARTS DISTRICT - OPEN SPACE

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to rezone two lots located at 120 Emma Road and 99999 Emma Road from RS-2 Residential Single-Family Low Density District to River Arts District - Open Space. This public hearing was advertised on August 30 and September 6, 2019.

Action Requested: Rezone portions of two properties located at 120 and 99999 Emma Road (PINs 9639-70-7269 & 5433) from RS-2 to RAD-OSP and amend the City's future land use map for the purpose of supporting recreational activities and other uses compatible with the limitations of the existing flood hazard areas.

Background:

- The subject properties are 1.10 and 1.20 acres respectively, and are both zoned RS-2.
- The properties are located along Emma Road in the River Arts District area, very close to the French Broad River.
- The rezoning petition requests to rezone only the eastern half of each parcel.
- The properties are bi-sected by Emma Road with most of the eastern half of each parcel largely falling within the regulated floodway of the French Broad River.
- The western half of 120 Emma Road is developed with a single family home; the western half of 99999 Emma Road remains undeveloped.
- The properties are bordered by RS-2 zoning to the west and north, RAD-RIV to the east across the river, and RAD-OSP to the south.
- The purpose of the RS-2 zoning district is to establish a low density for single-family dwellings and other compatible uses in recognition of environmental constraints such as, but not limited to, steep slopes, impervious soils, high water tables, and flooding. The RS-2 zoning designation does not allow for business uses.
- The purpose of the RAD-OSP is intended to provide for public park and recreational facilities, natural areas, trails, wetlands, and similar types of open space owned/leased and managed by a local government.
- The portions of the properties that are proposed to be rezoned are identified as *Residential Neighborhood* on the Future Land Use map which describes what are typically lower density, single family homes that are part of a larger community masterplan. These properties may require some separation of heavier industrial uses from more sensitive uses but can generally be appropriate neighbors to other commercial or mixed-use areas (p. 346).
- The rezoning proposal, if approved, will necessitate a change to the Future Land Use map to *Parks / Open Space* which is reserved for active and passive open space, and is an important component of a sustainable community.

Council Goal(s):

- A Clean and Healthy Environment
- A Thriving Local Economy

Committee(s):

- This request was reviewed by the Planning & Zoning Commission at their July 18, 2019, meeting where it was recommended for approval, 7:0.

Pro(s):

- Assigns a classification that is consistent with the existing environmental constraints (floodway).

- Allows opportunity for active recreational uses.
- Preserves the existing single-family use which will remain conforming.

Con(s):
- Requires two different zoning categories for the same parcel (split-zone).

Fiscal Impact:
- None

Staff Recommendation:
- Staff finds that the natural limitations of the property will prevent further development under the existing zoning designation and a rezoning would allow for other, compatible open space uses of land that would not preclude the use of property for single-family use. Staff is supportive of the request.

Mayor Manheimer opened the public hearing at 5:34 p.m., and when no one spoke, she closed the public hearing at 5:34 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the rezoning request from Residential Single-family, Low Density (RS-2) to River Arts District - Open Space (RAD-OSP), and find that the request and resulting Future Land Use Map amendment from Residential Neighborhood to Parks/Open Space, is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans and meets the development needs of the community in the following ways: the rezoning will, 1) be consistent with existing environmental constraints of the properties; 2) will allow opportunities for active recreation, and 3) preserves the existing single-family use. This motion was seconded by Councilwoman Smith and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 414

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF THREE PARCELS FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/ CONDITIONAL ZONING FOR THE CONSTRUCTION OF A MIXED-USE BUILDING AT 71 BROADWAY AND 61 AND 67 NORTH MARKET STREET

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone three parcels from Central Business District to Central Business District Expansion/Conditional Zone for the construction of a mixed-use building at 72 Broadway Avenue and 61 and 67 North Market Street. This public hearing was advertised on August 30 and September 6, 2019.

Action Requested: Consider adoption of a conditional zoning petition for property currently zoned Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ)

Project Location and Contacts:
- The project site consists of three parcels with a combined area of 0.56 acres located at 72 Broadway Street and 61 and 67 North Market Street (PINs 9649.41-2358, 9467.41-3451 and 9469.41-3355) owned by S&R Investment Company and Broadway Lot LLC.

- Petitioner: Birju Patel; Contact: Chris Day.

Summary of Petition:

- The proposal is for a new mixed-use building containing 138 hotel rooms, 37 residential units (including affordable and live/work units), approximately 1,187 square feet of retail space, and additional restaurant/bar space within the building associated with the hotel use.
- The petition includes a rezoning via conditional zoning from Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ) due to the lodging use, which is prohibited in the CBD zoning district.
- The Future Land Use category is Downtown, where lodging and mixed-use developments are permitted as described in the Comprehensive Plan Consistency section of this report.
- There are two small buildings that would be removed if approved, both are contributing resources to the Downtown National Register District (built in 1947 and 1934, respectively) but neither is noted as being individually significant.
- The building is shown as nine stories with a height of 74 feet (approximately 88 feet to the top of the roof).
- The project includes compliant 12 foot wide sidewalks on both frontages, both of which are considered "key pedestrian streets." Both frontages provide street trees.
- The proposal includes a mid-block pedestrian connection along the north face of the building with a width between six and 10 feet.
- Vehicular access to the development is a single driveway from North Market Street that provides access to approximately 126 structured parking spaces (parking is only required for the lodging use at a range between 69-138 spaces). Guest drop-off for the hotel use is internal to the building as prescribed by the Unified Development Ordinance, with the lobby located on the top level to maintain active commercial space along the ground-level (retail space on Broadway and live/work units along North Market Street).
- Two existing curb cuts along Broadway will be eliminated, and with this action there is the possibility to gain some on-street parking. One driveway cut will remain on North Market Street.
- There is a portion of an existing alley that dead-ends within the project site. The closure of the end portion of this right-of-way is following the City's process and will necessitate action by City Council. There is a condition that approval of the closure for a portion of the alley that lies within the project area is required prior to issuance of a zoning permit.
- Design and operational standards for downtown projects are all met, providing active pedestrian-friendly uses along the ground level, street wall step-backs, upper-level active "roof" decks and compliant fenestration on all facades. Additional design elements proposed by the applicant include art displays along the internal walkway, a mural piece on the un-fenestrated portion of the facade where the elevator shaft is located, dedicated units for artists and residential access from North Market Street. The applicant is seeking an art gallery to be placed on the Broadway frontage to align with the developing Broadway Arts Corridor District.
- City Market (seasonal farmer's market) operates Saturdays, April through December; the vehicular access point into this development is impacted by the footprint of the market as noted in the Compatibility Analysis section of this report.
- The project was reviewed by the Downtown Commission on July 12, 2019, where several concerns were expressed, including the negative impacts from the use of exterior insulation and finish system (EIFS) (possibly mitigated with

wrap/screening at key points during the construction process), the value of additional brick along the Broadway frontage for compatibility and harmony, waste management, the need for additional affordable residential units throughout downtown and the impact of hotels on the community in general.

- The Planning & Zoning Commission voted unanimously to support the proposal at their meeting on August 7, 2019. Public comment was heard regarding concern for impact to the City Market, the need for more affordable housing downtown, the lodging use and parking impacts.
- The applicant is not requesting any variances for the project due to any issues complying with City standards; however, they are offering the following (see revised attached B1 conditions list for further details):
    - At least six of the rental units will be dedicated as affordable at 60% area median income (AMI) in perpetuity and designated as "for creatives". Also one for-sale unit and two live/work for-sale unts will be dedicated as affordable for 60% AMI.
    - An easement for public access will be dedicated following the pedestrian walkway across the project site.
    - The portion of the alley that is within the project site will follow the City's closure process including review by the Multimodal Commission and City Council.
    - The applicant will provide an upgraded transit shelter in the vicinity at a location to be determined by the Transportation Department.
    - Best practices will be employed during construction to minimize the impacts of the EIFS application process.
    - The City Market will not be disrupted during the construction process. (revised condition as of 9-10-19)
    - During the times of road closure associated with the City Market in its current configuration on North Market Street in front of the development site, there will be no vehicular access to the development from the primary driveway on North Market Street, except for emergency uses. (revised condition as of 9-10-19)

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that the Downtown Future Land Use category encourages mixed-use developments prioritizing pedestrian infrastructure and connectivity, proposes a variety of active commercial spaces and provides for both market-rate and affordable residential options.
- The comprehensive plan suggests creating Downtown character districts and elevating the arts and this project aligns with that idea by using complementary materials and supporting artists as described above.
- The plan also acknowledges that while lodging and hotels are part of what makes Downtown the primary commercial center of the city, they "must be considered in context with other development so that the variety and mix of uses, which give downtown its distinctive character is not compromised" (p. 339). By incorporating a mix of uses within the same building, the proposal seeks to meet this goal.
- The Resilient Economy section of the plan notes the need for more affordable housing; this project dedicates nine units.
- There is a goal in the Healthy Community section to promote and support access to farmer's markets.

Compatibility Analysis:

- The proposal provides a mix of uses and integrates them within one structure, including parking.
- Ground level spaces on both street frontages are reserved for active commercial uses.

- The design and materials incorporate brick on the lower levels to mirror the character of other historic buildings in the vicinity.
- Widened sidewalks are provided on both frontages and two existing curb cuts are eliminated, enhancing the pedestrian realm. The walkway provided across the north side of the building provides mid-block connectivity.
- Due to the design of site and building elements, the structure and design is considered compatible in this urban location and the height is mitigated through materials on the lower levels and facade step-backs.
- The vehicular access point on Market Street would negatively impact the City Market operations if left open for resident and hotel guest access. Staff recommends that the existing policy for special events be followed where vehicular access is restricted (except for emergency vehicles), similar to all other properties within a special event boundary.
- Staff and the City Market organizers could explore a process for identifying a possible alternative location; however, this would not be a quick or simple process and may require modification of existing policies.

Council Goal(s):
- A Well-Planned and Livable Community
- Quality Affordable Housing
- Transportation and Accessibility

Committee(s):
- Technical Review Committee (TRC) - August 5, 2019 - approved with conditions
- Downtown Commission - July 12, 2019 - approved design review (6-3)
- Multimodal Commission for related alley closure - August 28, 2019 - recommended approval (4-3)
- Planning and Zoning Commission - August 7, 2019 - recommended approval (7-0)

Staff Recommendation:
- Staff finds that the mix of uses and project design is compatible with the requirements of the zoning district, design standards and guidelines and the Living Asheville Comprehensive Plan.
- By reducing curb cuts, integrating structured parking, committing to a transit shelter upgrade in the vicinity, providing a mid-block pedestrian walkway, activating the ground level and including dedicated affordable units, the project meets City goals on connectivity, pedestrian safety and increased housing options downtown.
- Staff does not have objective criteria to apply in determining whether there is a need/value for additional hotel rooms nor for evaluating whether there are potential impacts caused by the lodging use.

Councilwoman Mayfield questioned if vehicles don't come in through North Market Street, how will they access the building. Ms. Bernstein said all the uses along North Market Street have the same restriction (just like a special event) - you may not have vehicular access at that time. That would be on the operator of the hotel to manage where the parking would be and how that would be coordinated.

In response to Councilman Kapoor, City Attorney Branham said that this is a conditional zoning. N. C. Gen. Stat. sec. 160A-383 gives City Council the guidance on what the considerations should be. That section specifically provides that Council's consideration should be primarily a review of whether or not the proposal is consistent with the approved area plans, whether the project itself is reasonable and in the public interest. Additionally, case law provides that decisions should not be arbitrary or capricious based on those three factors, and dealing with the property rights themselves and with surrounding property rights.

Mr. Derek Allen, attorney for the developer BPR Properties, clarified that the revised Condition No. 13 will not read "During the times of road closure associated with the City Market in its current configuration on North Market Street in front of the development site, there will be no vehicular access to the development from the primary driveway on North Market Street, except for emergency vehicles. *During these times, non-emergency vehicular access to the development will be from the alley.*" Mr. Allen gave a brief procedural history of the project, along with a brief overview. We have tried to come up with a project that has residential components (25% of which are affordable housing at 60% AMI) and make that make sense in the context of having a place for everyone to live in Asheville. This is not just another hotel or an affordable housing project - it's both. They listened to comments from the Downtown Commission in July and explored the needs of Asheville - need for affordable housing. This promotes full-time residents in downtown - not just wealthy visitors who buy expensive condos downtown. We want to support artists and that has been incorporated into this project - both inside and outside. We want to support the live/work lifestyle, and we want to make sure we have a living wage. We will promote alternative transportation options, walkability, bus routes, etc. We want people to live where they work and we want to make sure we incorporate more resident-created art into our downtown infrastructure. The project complies with the Living Asheville Comprehensive Plan in that it has affordable housing; promotes year-round full-time residents downtown; supports artists; elevates the arts and cultural sectors to strengthen and preserve heritage and history; supports live/work lifestyle; living wage; promotes alternative transportation options; incorporates more resident-created art into downtown infrastructure; supports the Broadway cultural gateway vision; is compatible with the requirements of the zoning district, design standards and guidelines; enhances the pedestrian experience; is compatible with the surrounding area; and is in compliance with the Downtown Commission Design Review Guidelines.

Mr. Allen said the project site (1) consists of three parcels with a combined area of 0.56 acres located at 72 Broadway Street and 61 and 67 North Market Street; (2) two small empty buildings; (3) law firm; (4) all willing sellers; (5) current combined value of properties is $1,769,600; (6) projected value after completion of project is $50,000,000; and (7) current taxes paid $19,074.53/estimated taxes after development $432,000.

Mr. Allen said Create 72 Broadway has 37 residential units - 6 affordable residential rental units at 60% AMI dedicated in perpetuity; 1 affordable for sale condo unit at 60% AMI for > 50 years; 2 affordable live/work for sale units at 60% AMI for > 50 years; 13 market rate one bedroom condo units; and 15 market rate two bedroom units. It will have 138 hotel rooms; commercial retail space; and a 126 space parking garage (excess parking spaces within the footprint of the project).

Mr. Chris Day from Civil Design Concepts, said that this is a surface lot on Broadway. We will eliminate two existing curb-cuts and make Broadway fully pedestrian focused. In doing so, it provides a couple of new parking spaces on Broadway as well as an additional new parallel parking space on North Market Street. They do meet the ordinance as it requires one public access for the project. That being said, they are conditioning that they will restrict that during the City Market hours - and only during the City Market hours would they have some proposed use of the platted 25-foot alley that is in the rear of the project. It is not proposed to use that for typical traffic. It is a service access, but the only time that would be used would be during the conflict with the City Market. In speaking with a developer who runs many hotels, he says Sundays are a very busy day and Saturdays are a little more manageable in terms of check-out. Trying to manage and minimize the amount of traffic that would even need to use that access during the City Market was their initial goal, while having the back-up to be able to get out through the platted right-of-way. Other than that, the project complies with all of the ordinances associated with it.

Mr. Peter Alberice, with architectural firm changed with designing the project, said during the main part of the week when the City Market is not in session (approximately 6 a.m. to 1:00 p.m. on Saturdays) they would restrict all access into and out of the building from the North Market Street entry. They are very passionate about the City Market because not only is it a great institution in the City, it is an integral part of downtown. The developers see it as an amenity and an opportunity for guests at the hotel and residents of the condos to have an amenity right outside their front door on a Saturday morning. There is no way they would ever want to suggest moving them. It enhances what they are doing and gives something back to the City Market as they will be bringing approximately 100 more customers to them every Saturday. On Saturdays when there is a possibility that there would be a random person who would need to leave the garage, we would suggest that they go down the alley. Close to 100% of the time, all the parking will be managed by the operator of the hotel. Guests who leave on a Saturday morning would have their cars valet parked in a parking garage outside the project. Chances are the residents in the project will walk. As far as hotel guests coming in, they will typically check in in the afternoon because check-in time is not until 3:00 p.m. We are working on managing all of that so we don't inconvenience anyone. He showed an overall view of the project site, renderings of a widened sidewalk; parking garage; hotel with 138 rooms; residential condominium; green roof; arts walkway; affordable live/work; affordable apartments; affordable condominiums; and art gallery/local retail.

Mr. Alberice said this will be quality affordable housing with (1) affordable housing at 60% AMI greater than 50 years; (2) market rate rent - $1,750 monthly; (3) affordable rent rate - $549 monthly; (4) cost to underwrite unit - $1,291 monthly; (5) > $2 Million investment by developer for affordable housing; and (6) hotel component supports the affordable housing and work/live units. Other benefits for residential units include it is located within 0.25 miles of transit; located within .05 miles of grocery store; and located less than 1 mile of downtown job center. Additional benefits include (1) payment of living wage; (2) developer will provide bus passes for employees who want to take public transportation (a) promotes alternative transportation; (b) reduce parking demands; and (c) good for the environment; and (3) display art of local artists.

Mr. Alberice said to address concerns about hotel development, this is a quality of development design; pays a living wage' addresses local needs (affordable housing); no displacement of residents; and has a traffic study.

When Councilwoman Mayfield asked what the plan is for no vehicular access to this building on Saturday mornings, Mr. Alberice said the occasional hotel guest or resident, who has to leave for an emergency, will drive through the double garage bay and down the public alley. Mr. Day said the goal is to minimize, through proper hotel management, knowing if guests are checking out that they have to place their cars in an off-premise parking structure the evening before so it would be available on Saturday morning. The residents recognize and know the City Market is going on and they would not have typical access to their vehicles, like other people on that street during those hours. For emergencies, they will lift the double garage doors and provide the access to the 25-foot alleyway. The alley is not intended to be a public access, but it is a feasible access they can use when necessary.

Councilwoman Mayfield said that she called a couple of hoteliers and they said that Saturday mornings are one of the busiest times for hotels for weekend visitors checking in and out.

When Councilwoman Mayfield asked if the applicant has reached out to any of the property owners adjacent to the alley and discussed what this access might look like. She walks by the alley multiple times a day and sees that it is pretty busy and crowded, with trash cans, parking, etc. Mr. Alberice responded that there have been publicized meetings about the project, noting that the alley has always been for trash collection for the project. There are adjoining

property owners and everyone should be consulted in that regard, but they have not told anyone that they could not use the alley. The alley was always for service. Just within the last week when they were trying to come up with a solution to allow for emergency access to the building from North Market Street without disrupting the City Market, did they look at this option as a reasonable way to provide some access in and out of the building on Saturday mornings.

Mayor Manheimer confirmed that because this is a site specific issue, in reading the conditional zoning statute, we can make this a condition that North Market Street is not used on Saturday mornings during the City Market. It will be up to the applicant to meet the condition requirements.

When Councilwoman Mayfield expressed concern that the City Market was found to be impacted in April of this year, Mayor Manheimer said that the City Market map shows the City Market doesn't begin until further up the street, but in reality the barricades are placed at the end of the street.

Mr. Day said the first goal was to come up with operational management ideas that could significantly minimize the need for the alley access, with the reality that there are times when unexpected things happen. As there are other garages that egress out onto the 25-foot alley, they had suggested the idea that that could be the relief out, if necessary. That has been a relatively recent aspect. He has had some initial conversations with some business owners along that alleyway, but that is an on-going conversation to have. At this point, we are comfortable with a condition from Council that says the project will not allow vehicular traffic out onto North Market Street during the hours of the City Market on Saturdays.

Mr. Allen said that conversations with neighbors along that alley have been happening over the last couple of days. He has not been part of those conversations, but he has seen the email correspondence.

Mayor Manheimer opened the public hearing at 6:19 p.m.

Nineteen individuals spoke in opposition to the conditional zoning, or at least asked for a delay to ensure safeguards for the City Market, mainly because of the disruptive egress/ingress impact on the City Market from North Market Street and the saturation of hotels in downtown.

Thirteen individuals spoke in support of the conditional zoning, mainly because the development has a lot to offer downtown, including affordable housing, support for the arts, parking, retail, etc.

Mr. Allen said that the project (1) will pay a living wage; (2) is for local artists; (3) is in an arts district and this hotel is looking to be a centerpiece of that; (4) has an affordable housing component; (5) has a living roof; and (6) is looking to enhance the City Market and not impact it in anyway whatsoever. During the City Market times, there is no entrance onto North Market Street. During construction, the City Market will not be disrupted. To clarify, they are willing to agree to a condition that there will be no outside construction on the project during City Market hours. We love what the City Market does for our City. When we fix the no interruption of the City Market issue, we inadvertently create this alley issue. Let's say there are 10 hours on Saturdays, but that is 10 hours out of 168 hours - 6% of the hours in a week that we are dealing with the alley issue only on one day - and then we are only dealing with it in terms of in and out. It is not a regular thoroughfare. There are other areas downtown where we have those issues. This issue did come up late, and the maps that staff was using did not show the City Market going down that far until the Planning & Zoning Commission meeting. He requested a continuance until September 24, 2019, in order to facilitate further discussion with the City Market and the business owners along that alleyway.

Mayor Manheimer closed the public hearing at 8:11 p.m

Councilman Kapoor felt that any inclusion of affordable housing at 60% AMI is a pretty important step and the developer should be commended for that. The project will also generate almost $500,000 in taxes; however, he is concerned over the hotel saturation in the downtown area. He could not support the project.

Councilwoman Mayfield agreed with Councilman Kapoor on the benefits of the project; however, she was also concerned with concentration of hotel rooms downtown, in addition to the use of the alley. She could not support the project.

Mayor Manheimer felt that our markets are an integral part of our community and we have to figure out how to co-exist, grow and enjoy. Other cities have to pay incentives to get a project of this type and we are fortunate to have the opportunity to pick through those who want to invest in our community. We must figure out a way to grow that makes sense for Asheville. After our recently held affordable housing workshop, City Council set a goal of 200 affordable units a year, and while the number of units for this project might be small, it is working towards our goal.

Councilman Kapoor moved to continue this public hearing until September 24, 2019. This motion was seconded by Councilwoman Smith and carried on a 4-3 vote, with Mayor Manheimer, Councilman Kapoor, Councilwoman Mayfield and Councilwoman Smith voting "yes" and Vice-Mayor Wisler, Councilman Haynes and Councilman Young voting "no."

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 24, 2019, TO CONSIDER A TEMPORARY MORATORIUM ON HOTEL DEVELOPMENT WITHIN THE CITY OF ASHEVILLE

Planning & Urban Design Director Todd Okolichany said the issue is that (1) Since 2015, 1,344 hotel rooms have opened in the COA out of approximately 2,761 total rooms that have been approved; (2) Community members, staff and Council have expressed concerns about the impact of hotels; (3) City currently lacks concrete policies, strategies and tools to effectively manage the impacts of these uses; (4) Lack of direction resulting in uncertainty for developers, staff and community members; and (5) Current conditions resulting in adversarial and sometimes hostile development climate in the community.

The need is (1) To effectively respond and provide some level of certainty and to determine acceptable hotel development proposals, City needs to enhance its land use policies, tools and strategies to better regulate this land use; and (2) Consideration of additional hotel development should be suspended to provide the time needed to determine impacts and remedies.

City Attorney Branham said that North Carolina law allows cities such Asheville to place a temporary moratorium on certain development approvals required by law. N.C. General Statute §160A-381(e)

He said that the development moratoria must have a valid purpose. *NCGS §160A-381(e)(1) - A moratorium ordinance must clearly state the reasons for the moratorium.* Asheville's purpose is to allow for development of regulations for a particular land use. There must be a specific duration. *NCGS §160A-381(e)(3) - A moratorium ordinance must have a*

termination date and explain why duration is necessary to address the problem. A limitation is that U.S. Supreme Court has suggested durations over a year will warrant skepticism. (Majority are around 6 months). The process (1) Requires Adoption of an Ordinance; and (2) A moratorium with a duration of 61 days or more: (a) Requires 2 meetings; and (b) The second meeting will include a Public Hearing.

The legal summary includes (1) The City has the power to impose a moratorium on hotel development; (2) Duration should be 1 year or less; (3) 2 Council Meetings required (including a public hearing); (4) Time used to develop a policy and analytic process for future hotels; and (5) Any hotel with a pre-existing vested right will be unaffected.

Regarding the planning and analysis, Mr. Okolichany outlined: First Phase (3 months) (1) City is contracting with Urban Land Institute (ULI) Charlotte District Council to provide unbiased, pragmatic advice; (2) The Technical Assistance Panel (TAP) program addresses complex land use planning and development issues; and (3) Who? - A panel of professionals with expertise in areas that are required to focus on the sponsor's particular problem or issues.

Planning and Analysis: Second Phase (up to 9 months) (1) Staff would use final ULI report and conduct any supplemental research and analysis of possible policies, strategies and tools; (2) Develop a community engagement plan that would likely entail establishing a stakeholders group and hosting community forums throughout the City to solicit input on possible policy recommendations, strategies and tools; and (3) Complete public input process and draft recommendations to present to City Council for action.

Staff recommendation for Council consideration include (1) Should the City implement the moratorium - staff recommends yes, following the process recommended above; (2) Moratorium scope (development category) - staff recommends hotels (as defined by the Unified Development Ordinance; (3) geographic area - staff recommends City of Asheville limits; and (4) duration - staff recommends no more than one year.

Mayor Manheimer said that during this moratorium, we anticipate developing specific criteria for City Council to consider when considering hotel development, if hotels are continued to be considered as a conditional zoning.

Ms. Kim Roney suggested a larger meeting room for the September 24, 2019, meeting. Mayor Manheimer said that if the meeting moved to the U.S. Cellular Center Banquet Hall, there is no broadcast to television - only live streaming through YOUTube, and we don't want to shut down access while we open up others.

Councilman Haynes spoke in support of this moratorium, but wished we would have instituted it two years ago.

Councilwoman Mayfield moved to set a public hearing on September 24, 2019, to consider a temporary moratorium on hotel development within the City of Asheville. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

B. RESOLUTION NO. 19-210 - RESOLUTION OF INTENT TO CONSIDER AN ORDINANCE AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE FOR AT-LARGE ELECTIONS FOR THE MEMBERS OF THE CITY OF ASHEVILLE CITY COUNCIL SETTING A PUBLIC HEARING ON SEPTEMBER 24, 2019, ON THE PROPOSED CHARTER AMENDMENT

RESOLUTION NO. 19-211 - RESOLUTION OF INTENT TO CONSIDER AN ORDINANCE AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE THAT ASHEVILLE CITY COUNCIL ELECTIONS BE CONDUCTED BY THE NONPARTISAN PRIMARY AND ELECTION METHOD AND SETTING A PUBLIC HEARING ON SEPTEMBER 24, 2019, ON THE PROPOSED CHARTER AMENDMENT

Action Requested: Adoption of two resolutions of intent to consider ordinance amendments to the City of Asheville Charter and setting public hearings on September 24, 2019, for the following purposes:

A. To provide for at-large elections for the members of the City of Asheville City Council.
B. To provide that Asheville City Council elections be conducted by the nonpartisan primary and election method.

Background:

- On June 29th, 2018, the N.C. State legislature ratified SB 813 which altered the form of Asheville City Council elections.
- The new local act moved City Council elections from odd to even years, removed primary elections, and established five election districts.
- Under the current law, the City Council will be made up of seven council members, including the Mayor. Five members will be elected from and by their respective districts, while one member and the Mayor will be elected at-large.
- The two proposed charter amendments would reinstate primary elections to be held in March, and return all Council positions to at-large elections.

Council Goal(s):

- An Equitable and Diverse Community
- A Connected and Engaged Community

Committee(s):

- Governance Committee - July 29 (Converted to Full Council Worksession)

Pro(s):

- Returns City Council elections to a form as close as possible to what existed prior to enactment of SB 813.

Con(s):

- A Charter amendment can be further amended by State action
- May result in diminished goodwill and additional provocation from the General Assembly

Fiscal Impact:

- None at this time.

City Attorney Branham responded to questions raised by the public regarding the timing for the March primary, and if the Board of Elections have enough people to run our elections.

Councilman Kapoor said that he proposed an alternative proposal of keeping the five districts, but adding two additional at-large members for a total of nine members. He hoped would also be on the agenda and also be considered by Council. But that is not the case. He encouraged Council members to consider his proposal. He then read the following statement: "Since getting on Council, I've spent more time researching Council districts than any other issue and, based on that analysis, I publicly changed my position to oppose an all at-large system. Hearing the concerns that both sides had, I proposed a compromise mixed district/at-large system that would keep the five districts drawn and add two additional at-large members for a

total of nine members. My compromise would have allowed every resident to be able to vote for a majority of Council members. Regardless of the vote tonight, I will continue to push for that system. The question that we as a City and we as a Council ought to be asking ourselves is "What system is best for the average Asheville resident?" Not, "What system sends a message to the General Assembly?" Not, "What system will most likely elect someone who I support?" Not, "What system benefits the most well-organized and politically-connected groups?" The question for us should be, "What is best for the average Asheville resident?" Here are four reasons for why I think that my proposal, and not an all at-large system, is best for the average Asheville resident: 1. First, a system with some districts ensures that every resident, every neighborhood, and every part of the City will have a Council member who is directly accountable to them. You know who specifically to call when you have an issue. With the current at-large system, the average person is at the mercy of whoever up here decides to respond to their constituent request and, if we're being honest with ourselves, there are certain Council members who do a much better job than others in responding. When you have districts, there's nowhere for us to hide. 2. Second, a system with some districts will better represent the needs of the average resident to City Hall. In her seminal book The Death and Life of Great American Cities, Jane Jacobs wrote, "The chief function of a successful district is to mediate between the indispensable, but inherently politically powerless, street neighborhoods, and the inherently powerful city as a whole. Among those responsible for cities, at the top, there is much ignorance... Districts have to help bring the resources of a city down to where they are needed by street neighborhoods, and they have to help translate the experiences of real life, in street neighborhoods, into policies and purposes of their city as a whole." I think that the current at-large system is a contributing reason for why many of our underserved neighborhoods are in the condition that they're in today. They never had a specific person advocating for what they needed and if we go back to the all at-large system, they will miss out on that chance again. 3. Third, the mixed district/at-large system that I'm proposing all but eliminates the concern that parts of the City will be pitted against each other. Under my proposal, there will be four members including the Mayor who will be elected at-large and every Asheville voter will be able to elect a majority of Council. As a result, the Council as a whole will not favor or disfavor any particular area of the City. 4. Fourth, my proposal is an Asheville, not a Raleigh solution. I understand the desire to tell the General Assembly to stay out of our business. It's a point of pride. I get it. That was part of the reason that I voted against the original referendum. But what I'm proposing here isn't Raleigh's solution, it's ours should we have the courage to enact it. I've had many people say to me that they're not necessarily opposed to districts, but that they resented that Raleigh imposed them. I think that if we put my proposal on a referendum, a mixed district/at-large system, it would pass. During this debate, I challenge those who support the decision to go back to the all at-large system to directly answer the question of why they believe an all at-large system is best for the average Asheville resident. I encourage the media, when covering this story, rather than to focus on the sideshow fight with Raleigh, to ask, "What system is best for the average Asheville resident?" If an all at-large system is so good, why does every other large city in North Carolina other than Wilmington have some form of district representation? If an all at-large system is the best system for minority communities, why did the NAACP Legal Defense Fund write: "Fewer and fewer districts still practice at-large voting. That is because courts and decision-makers long have recognized that discriminatory methods of election, like atlarge voting, enhance the discrimination that communities of color experience because of socioeconomic and other disparities in life opportunities between Black and white communities." Even with the huge disparities that we see in this city between white and black residents and white and black communities – all of which occurred under an all at-large system – some believe that a system with districts passed unanimously by the State Senate is racist. Really? Given where we are today under an all at-large system, how could it possibly get worse? Council has the authority to act. Let's have a real and open debate on the substance and be guided by the question, "What system is best for the average Asheville resident?"

Vice-Mayor Wisler moved to adopt a resolution of intent to consider an ordinance amending the City of Asheville Charter to provide for at-large elections for the members of the

City of Asheville City Council and setting a public hearing on September 24, 2019, on the proposed charter amendment. This motion was seconded by Councilman Haynes and carried on a 6-1 vote, with Councilman Kapoor voting "no".

RESOLUTION NO. 19-210 - RESOLUTION BOOK NO. 41 - PAGE 77

Councilman Young moved to adopt a resolution of intent to consider an ordinance amending the City of Asheville Charter to provide that Asheville City Council elections be conducted by the nonpartisan primary and election method and setting a public hearing on September 24, 2019, on the proposed charter amendment. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION NO. 19-211 - RESOLUTION BOOK NO. 41 - PAGE 78

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Ashley McDermott spoke about the need to declare a climate emergency. Councilwoman Mayfield said the resolution is making its way through the City's Sustainability Advisory Committee on Energy & Environment and will be considered at their October meeting. Mayor Manheimer also noted that Councilman Haynes is working on getting this through the proper processes quickly.

Closed Session

At 9:08 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(1). The statutory authorization is contained in N.C.G.S. 143-318.11(e); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit or potential lawsuit involving the following matter: Carrier Riverview Inc., Rano Thomas Mathew, and Anne Irene Mathew v. City of Asheville 19-CVS3692. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6). This motion was seconded by Councilwoman Mayfield and carried unanimously.

At 9:46 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:46 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – September 24, 2019 - 5:00 p.m.
U.S. Cellular Center - Banquet Hall

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MID-SEPTEMBER 2019 THROUGH MID-OCTOBER 2019 AS "LATINX HERITAGE MONTH"

Councilman Haynes read the proclamation proclaiming mid-September 2019 - mid-October 2019, as "Latinx Heritage Month " in the City of Asheville. He presented the proclamation to individuals from MANOS, de Mujer a Mujer, and BeLoved Asheville. The proclamation was then read in Spanish by some that attended.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 10, 2019

B. RESOLUTION NO. 19-213 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ASHEVILLE STAFFING TO PROVIDE TEMPORARY STAFFING SERVICES FOR THE CITY OF ASHEVILLE

Action Requested: Adoption of a resolution approving the renewal of the contract for temporary staffing agencies for an amount not- to- exceed $500,000.

Background:

- In 2018 The City issued an RFP for temporary services. Ten (10) responses were received.
- As a result of the RFP in 2018, The City of Asheville entered into a contract with Asheville Staffing for temporary staffing needs. The Contract allows for a one year renewal.
- Since July 2018, four City departments - Finance, Capital Projects -Facility Maintenance, Transportation - Parking Garages, and US Cellular Center have utilized Asheville Staffing agency and collectively expended $500,000.
- Each department reported favorable outcomes from the contract and continue to need temporary staffing.

Council Goal(s):

- A Fiscally Resilient City

Pro(s):

- We are exercising our option to renew the contract.
- Contracting with this company maximizes the ability to fill temporary positions as expeditiously as possible to allow operational needs to be met; and
- Allows the temporary staffing firm to continue to supplement in-house staff where that work is not able to be filled by a regular, temporary, or seasonal employee.

Con(s):
- None identified.

Fiscal Impact:
- Departments will pay for temporary staffing services out of their approved FY 2019-20 budgets.

Motion:
- Motion to authorize the City Manager to enter into a not-to-exceed contract in the amount of $500,000 with Asheville Staffing to provide temporary staffing services for the City of Asheville.

RESOLUTION BOOK NO. 41 - PAGE 82

C. RESOLUTION NO. 19-214 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY REGARDING FEASIBILITY SITE ASSESSMENTS AND TO ISSUE A JOINT REQUEST FOR PROPOSALS FOR ONSITE RENEWABLE ENERGY SYSTEMS

Action Requested: Adoption of a resolution authorizing the City Manager to enter into an interlocal agreement with Buncombe County regarding feasibility site assessments and to issue a joint Request for Proposals (RFP) for on-site renewable energy systems in support of the City's renewable energy goals.

Background:
- The City of Asheville will enter into an interlocal agreement with Buncombe County to give authority to issue feasibility site assessments (including structural, energy and fiscal analysis) and issuance of a joint RFP for on-site solar energy systems.
- The City will fund feasibility site assessments conducted on City-owned property.
- Feasibility site assessments will identify facilities capable of housing onsite solar energy systems, cost effectiveness of each site including the payback period and the amount of renewable energy generated towards the 100% renewable energy goal .
- The City will select the sites to be included in the RFP based on the results of the feasibility site assessments.
- Projects beyond the current budget will be considered for the Fiscal Year 2021 budget.
- The City will have a role in selecting and negotiating with the responsive bidder.

Vendor Outreach Efforts:
- Not applicable

Council Goal(s):
- A Clean and Healthy Environment

Committee(s):
- None

Pro(s):

- Supports Resolution 18-279 to transition municipal operations to 100% renewable energy.
- This strategy was identified in *Moving to 100 Percent: Renewable Energy Transition Pathways Analysis for Buncombe County and the City of Asheville*.
- An interlocal agreement with Buncombe County will increase the requested number of renewable systems which may provide both the City and County with lower prices.

L

Con(s):

- None

Fiscal Impact:

- Funding for the feasibility site assessments is already budgeted and available in the amount of $34,682. If staff determines that responsive bidders provide a fiscally viable option, Green Savings may be utilized. Projects beyond the current budget will be considered for the FY21 budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into an interlocal agreement with Buncombe County regarding feasibility site assessments and to issue a joint Request for Proposal (RFP) for on-site renewable energy systems.

RESOLUTION BOOK NO. 41 - PAGE 83

D. **RESOLUTION NO. 19-215 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACQUIRE 0.28 ACRES OF PROPERTY ALONG BROADWAY FROM THE N.C. DEPT. OF TRANSPORTATION**

RESOLUTION NO. 19-216 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY 0.28 ACRES OF PROPERTY LOCATED ALONG BROADWAY STREET TO REED CREEK GREENWAY PLAZA, LLC, FOR THE DEVELOPMENT OF AFFORDABLE, MIXED HOUSING

ORDINANCE NO. 4762 - BUDGET AMENDMENT TO ACCOUNT FOR THE REVENUE AND EXPENSES ASSOCIATED WITH THE TRANSACTION OF PROPERTY ALONG BROADWAY

Action Requested: Authorize the City Manager to acquire property along Broadway from NCDOT; authorize the sale of said property along Broadway to Reed Creek Greenway Plaza, LLC for the development of affordable, mixed-income housing; and approve a budget amendment in the General Fund in the amount of $70,575 to account for the revenue and expense associated with this transaction.

Background:

- In November 2018, the City sold 0.38 acres of property located at 427 Broadway to the adjacent property owner, Reed Creek Greenway Plaza, LLC, at appraised value of $115,000 for the purpose of building an affordable, mixed-income community.
- Reed Creek Greenway Plaza proposed to build a mixed use, mixed-income community with 38 total residential units, of which 8 units are to be affordable to households at 60% AMI. At the time, the developer agreed to a 25 year deed restriction on the affordability of those 8 units.
- To accomplish this development, additional land is needed from the North Carolina Department of Transportation (NCDOT). NCDOT has offered to sell two parcels of land to the City in a direct sale for appraised value of $70,575 for 0.28 acres, (Parcels identified as PINs # 9649-14-4359-00000 and 9649-14-4386-00000).

- The City would then sell the parcels to the developer at cost ($70,575), with deed restrictions to develop affordable housing.
- The developer has agreed to extend the term of affordability to 30 years for the 8 units planned within the new housing community.

Council Goal(s):
- Quality Affordable Housing

Committee(s):
- None

Pro(s):
- Supports the development of affordable housing within a mixed-income, mixed-use community, in a location that has access to jobs, transit, goods, and services.
- Utilizes the City's partnership with NCDOT to assist in assembling land for the purpose of developing affordable housing.

Con(s):
- None

Fiscal Impact:
- The City will be reimbursed for its purchase of the 0.28 acres along Broadway. Since this transaction will result in an unbudgeted revenue and expense in the General Fund, a budget amendment is included with this Council action.

Motion:
- Move to adopt a (1) resolution to authorize the City Manager to acquire property along Broadway from NCDOT; (2) resolution to authorize the sale of said property along Broadway to Reed Creek Greenway Plaza, LLC for the development of affordable, mixed-income housing; and (3) budget amendment in the General Fund in the amount of $70,575 to account for the revenue and expense associated with this transaction.

RESOLUTION NO. 19-215 - RESOLUTION BOOK NO. 41 - PAGE 84
RESOLUTION NO. 19-216 - RESOLUTION BOOK NO. 41 - PAGE 85
ORDINANCE BOOK NO. 32 - PAGE 418

E. **RESOLUTION NO. 19-217 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A DOWNTOWN DEVELOPMENT AGREEMENT WITH THE DEVELOPER OF 360 HILLIARD AVENUE, KASSINGER DEVELOPMENT GROUP, D/B/A HILLIARD PARK LLC, FOR PUBLIC PARKING AND ASSOCIATED IMPROVEMENTS**

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a downtown development agreement with the developer of 360 Hilliard Avenue, Kassinger Development Group (KDG) dba Hilliard Park, LLC, for public parking and associated improvements.

Background:
- Council approved the sale of city-owned land for an affordable housing development at 360 Hilliard Avenue (zoned CBD) and the associated real estate terms at its June 11, 2019 meeting.
- At that time, staff outlined Kassinger's offer to construct a public parking lot at the rear of Aston Tennis Center, with the City to pay one-half of the proposed costs.

- Per NCGS 160A-458.3-Downtown Development Projects, the City can share up to 50% of a project's cost in the Central Business District if the project is intended to have significant impact on revitalization, which is the intended result of this project. This statute allows the development partner to perform the improvements and exempts the project from public bidding statutes.
- The overall project cost is $650,000 and the City's share is not to exceed $325,000. This project will result in the development of driveway improvements, landscaping, stormwater control and 63 public parking spaces to support the future Bacoate Branch Greenway and Aston Tennis Center.
- At this time, staff seeks Council's authorization to enter into a formal agreement for the construction and cost-share associated with this parking lot.

Council Goal(s):
- Well Planned and Livable Community

Committee(s):
- Housing and Community Development - May 28, 2019

Pro(s):
- Creates public parking through a partnership with the developer of the affordable, mixed-income community at 360 Hilliard.

Con(s):
- None

Fiscal Impact:
- The City's share of the parking improvements is not to exceed $325,000. This amount is budgeted within the Parks, Recreation and Cultural Arts Department Capital Improvements Budget.

Motion:
- Motion to authorize the City Manager to enter into a downtown development agreement with the developer of 360 Hilliard Avenue, Kassinger Development Group (KDG) dba Hilliard Park, LLC, for public parking and associated improvements.

RESOLUTION BOOK NO. 41 - PAGE 86

F. RESOLUTION NO. 19-218 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT THE FISCAL YEAR 2019 DEPT. OF HOUSING & URBAN DEVELOPMENT CONTINUUM OF CARE (CoC) CONSOLIDATED GRANT APPLICATION FOR ANNUAL CoC COMPETITION AND EMERGENCY SOLUTIONS GRANT REGIONAL APPLICATION ON BEHALF OF NC-501 A-B CONTINUUM OF CARE, ACCEPTING ANY FUNDS SUBSEQUENTLY AWARDED, AND AUTHORIZING THE CITY MANAGER TO SIGN AWARDED CONTRACTS

Action Requested: Approve submission of Fiscal Year (FY) 2019 U.S. Dept. of Housing and Urban Development Continuum of Care (CoC) Competition Consolidated Application and FY 2019-20 Emergency Solutions Grants (ESG) Regional Application on behalf of the Asheville-Buncombe Continuum of Care (CoC NC 501), accepting any funds subsequently awarded, and authorize the City Manager to sign awarded contracts.

Background:

- The City of Asheville serves as the Continuum of Care Lead for the NC-501 Asheville-Buncombe Continuum of Care (CoC) and the Fiscal Sponsor for Emergency Solutions Grant funds allocated to Asheville by the NC Department of Health and Human Services.
- Each CoC Lead is responsible for submitting the community's Consolidated Application to be considered for grant funding from the CoC Competition. For FY2019, there $1,238,651 available for projects in the CoC, which includes $67,500 for the City of Asheville to operate the Homeless Management Information System (HMIS) for the entire NC-501 CoC. There is also $37,610 available for CoC Lead Planning costs (not ranked).
- The Fiscal Sponsor for Emergency Solutions Grant funding is responsible for submitting the Regional Application to be considered for funding. A total of $125,971 is available in ESG funds for FY 2019-20.
- The Finance Sub-committee of the Homeless Initiative Advisory Committee (HIAC) has reviewed, scored, and ranked the project applications that were submitted during the competition period.
- If all project applications are awarded, a total of $1,462,766 will support homelessness prevention, permanent supportive housing, rapid rehousing, emergency shelter operations, HMIS, and community planning.

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- Homeless Initiative Advisory Committee - August 27, 2019 - unanimously approved

Pro(s):
- Provides revenue to support the City's role in operation of the NC-501 Continuum of Care.
- Provides funding to sustain existing homeless prevention, permanent supportive housing, rapid rehousing, emergency shelter operations, HMIS and community planning.

Con(s):
- None

Fiscal Impact:
- $104,660 in revenue to support essential operations of the Asheville-Buncombe Homeless Initiative. The grant does not require a city match.

Motion:
- Motion to approve the submission of the FY 2019 United States Department of Housing and Urban Development Continuum of Care (CoC) Competition Grants NC 501 Consolidated Application and the FY 2019-20 Emergency Solutions Grant Regional Application on behalf of the Asheville-Buncombe Continuum of Care, authorize the City Manager to execute grant agreements, and accept any funds awarded.

RESOLUTION BOOK NO. 41 - PAGE 87

G. ORDINANCE NO. 4763 - ORDINANCE REDUCING THE SPEED LIMIT ALONG AMBOY ROAD FROM I-240 TO MEADOW ROAD FROM 45 MILES PER HOUR TO 35 MILES PER HOUR

Action Requested: Adoption of an ordinance changing the posted speed limit along SR 3556 (Amboy Road) from I-240 to SR 3556 (Meadow Road) from 45 mph to 35 mph.

Background:

- N.C. Gen. Stat. § 20-141 gives the City the authority to regulate speed limits within its corporate limits.
- SR 3556 (Amboy Road) is a state maintained street within the city limits.
- The North Carolina Department of Transportation (NCDOT) conducted a traffic-engineering study and determined that 35 mph would be a more appropriate speed limit.
- The Asheville Police Department has reviewed the subject action and they concur with it.
- A future NCDOT project (U-4739) to improve Amboy Road and Meadow Road will incorporate the new posted speed limit of 35 mph.
- Once the subject action is approved and prior to the installation of appropriate signs, Transportation Department staff will coordinate outreach and public education with the Communication & Public Engagement Department (CAPE) and the Asheville Police Department.

Council Goal(s):

- Transportation and Accessibility.

Committee(s):

- None

Pro(s):

- Provides a more appropriate posted speed limit in a growing area that includes residential properties and City park facilities.
- Provides a more appropriate posted speed limit for bicycle riders.

Con(s):

- None

Fiscal Impact:

- There is no fiscal impact to the City of Asheville.

Motion:

- Motion to approve an ordinance changing the posted speed limit along SR 3556 (Amboy Road) from I-240 to SR 3556 (Meadow Road) from 45 mph to 35 mph.

ORDINANCE BOOK NO. 32 - PAGE 419

H. RESOLUTION NO. 19-219 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A GENERAL SERVICES AGREEMENT WITH EVERBRIDGE INC. FOR MAINTENANCE AND SUPPORT TO THE CITY'S EMERGENCY NOTIFICATION SYSTEM

Action Requested: Resolution authorizing the City Manager to execute a general service agreement with Everbridge, Inc. for the City's Emergency Notification System

Background:

- Contract is for the City's Emergency Notification System.
- Our current contract with Everbridge, Inc. is for $31,285.28 and will be up for renewal on November 12, 2019.
- This rate is set to increase by 3% to $32,223.84. Proposed renegotiated contract will be for three years with a lower locked in rate of $30,995 per year.
- Term runs from November 13, 2019 - November 12, 2022; Total cost: $92,985.

Vendor Outreach Efforts:

- Everbridge Inc. has been contracted to support and maintain the City's Emergency Notification System by the City of Asheville since November 2014.
- The selection process involved the North Carolina Purchasing System and the City's website. Everbridge, Inc. is the sole-source vendor to provide the said maintenance and support. This request is to renew that Service Agreement.

Council Goal(s):

- Connected & Engaged Community

Committee(s):

- None

Pro(s):

- The City has been using Everbridge, Inc. since November 2014, and staff are familiar with its strengths, limitations, and support process.
- Proposed agreement will save the City of Asheville $3,686.52 over the term of the contract.

Con(s):

- None

Fiscal Impact:

- The funding needed for the first year of this agreement is currently allocated within the adopted Water Services Fund and General Fund budgets.
- Additional funding needed to cover years two and three and will be requested during future budget processes.

Motion:

- Move to approve a resolution authorizing the City Manager to execute a general service agreement with Everbridge, Inc. for the amount of $30,995.00 for Fiscal Year 2020 plus the same amount in subsequent years for the maximum of (3) three fiscal years with the understanding that funding is project specific and subject to the annual appropriation of funds.

RESOLUTION BOOK NO. 41 - PAGE 88

I. RESOLUTION NO. 19-220 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH DEC ASSOCIATES INC. TO PROVIDE FINANCIAL ADVISORY SERVICES FOR THE CITY OF ASHEVILLE

Action Requested: Adoption of a resolution approving contract for financial advisory services

Background:

- The City of Asheville requires a financial advisor of record for the purpose of reviewing, evaluating, planning, developing, administering, soliciting, structuring, negotiating, and otherwise assisting the City in its financial responsibilities related to municipal debt.
- DEC Associates, Inc. has assisted the City with financial modeling, debt issuance, marketing of securities, and other financial services since 2014.
- This contract replaces the previous master financial advisory contract with DEC which was mistakenly closed out at the end of Fiscal Year 2018-19.
- DEC Associates, Inc. utilizes a complex model and the continued use of this firm maintains continuity in the management of the City's debt model.

- Services rendered under this five-year master contract will have individual engagements defined through supplemental agreements for projects on an as-needed basis.
- The City does not currently owe for any services since the last contract was closed but does intend to begin our first engagement as soon as the new contract is authorized and executed.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- Contracting with this company provides outside expertise that enhances the City's financial management; and
- Statute requires a financial firm of record if issuing new debt.

Con(s):
- None.

Fiscal Impact:
- This not-to-exceed, multi-year contract will be funded each year as needed, based on the services to be rendered to each department.

Motion:
- Motion authorizing the City Manager to enter into a not-to-exceed contract in the amount of $500,000 with DEC Associates, Inc. to provide financial advisory services for the City of Asheville.

RESOLUTION BOOK NO. 41 - PAGE 89

J. RESOLUTION NO. 19-221 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A DESIGN SERVICES CONTRACT WITH CLARK NEXSEN FOR THE DR. WESLEY GRANT SR. SOUTHSIDE CENTER FOR THE DESIGN OF INDOOR AND OUTDOOR RECREATION FACILITIES

Action Requested: Resolution authorizing the City Manager to execute a contract with Clark Nexsen for design services for the Dr. Wesley Grant Sr. Southside Center Project for an amount not to exceed $465,000 and further authorizing the execution of any contract amendments up to 10% ($46,500) to the contract which may arise during the project.

Background:
- Based on a Request for Qualification (February 2018) to solicit architectural teams for design and engineering of the Dr. Wesley Grant Southside Center, a selection committee reviewed qualifications of eight firms and interviewed three firms in May 2018. The design team led by Clark Nexsen was unanimously selected as the most qualified.
- Conceptual design contract in August 2018 (Contract# 91800052) for $79,500
- The scope for this design contract amendment is intended to assist in public and community engagement, construction plans, cost estimating, bid documents, LEED Silver design/commissioning, and construction administration for additional indoor and outdoor recreation/community space.
- The Walton Street Pool is not part of this design contract. The design contract for Walton Street Pool will proceed to the City Council at a later date.

Council Goal(s):
- Well-Planned and Livable Community
- Connected and Engaged Community
- Smart City

Committee(s):
- Recreation Advisory Board, September 9, 2019 - informational only

Pro(s):
- Allows design work to proceed on the project authorized in the General Obligation (GO) Bond Referendum to provide additional indoor and outdoor recreation/community space and necessary support facilities.
- Facility improvements will be designed to increase equitable access to community and recreation services for current and future residents through a public community engagement process.
- Provides the City an opportunity to recognize the history of the Southside Community.

Con(s):
- None

Vendor Outreach:
- Staff performed outreach to minority and women-owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. Two Women-Owned Firms submitted qualifications for consideration. The selected team will be utilizing one Women-Owned subconsultant.

Fiscal Impact:
- Funding for this contract amendment exists within the approved GO Bond Capital Budget.

Motion:
- Motion to authorize the City Manager to execute a contract with Clark Nexsen for design services for the Dr. Wesley Grant Sr. Southside Center Project for an amount not to exceed $465,000 and further authorizing the execution of any contract amendments up to 10% ($46,500) to the contract which may arise during the project.

RESOLUTION BOOK NO. 41 - PAGE 90

K. RESOLUTION NO. 19-222 - RESOLUTION AUTHORIZING THE SALE OF ONE 2004 STERLING LT9500 DUMP TRUCK DEEMED SURPLUS CITY PERSONAL PROPERTY

Action Requested: Approval of a resolution authorizing the sale of one (1) 2004 Sterling LT9500 Dump Truck deemed surplus City personal property.

Background:
- The Maintenance Division of the City's Water Resources Department identified a 2004 Sterling LT9500 Dump Truck as surplus personal property, with no anticipation of utilization by the City.

- The estimated wholesale value of the 2004 Sterling LT9500 Dump Truck is listed at approximately $30,000, $1,000 to $10,000 above wholesale, depending on condition. Bids will be solicited through GovDeals online auction.
- Pursuant to N.C.G.S. §160A-266, the Sale and Disposal of Personal Property valued at $30,000 or more must be approved by the City Council. The City's Purchasing Manager has authority to dispose of personal property valued at less than $30,000 by private negotiation and sale.

Council Goal(s):
- Financially Resilient Community

Committee(s):
- None

Pro(s):
- Prudent asset management
- Space utilization eliminates the need to store large, unused equipment
- Competitive process yielded market price

Con(s):
- None

Fiscal Impact:
- The dump truck is fully depreciated and the Water Resources Fund will recognize the entire amount as revenue from the sale of the asset.

Motion:
- Move to adopt a resolution authorizing the sale of one (1) 2004 Sterling LT9500 Dump Truck deemed surplus City personal property.

RESOLUTION BOOK NO. 41 - PAGE 91

L. RESOLUTION NO. 19-223 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH DOSAN FOR THE RICHARD HILL PARK RESTROOM FACILITY AND PICNIC SHELTER

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a construction contract with DOSAN of Indian Trail, NC, in the amount of $359,300 and to further authorize change orders, if needed, up to the contingency amount of $35,930 (10%) for Richmond Hill Park restroom facility and picnic shelter.

Background:
- Richmond Hill Park, a heavily utilized park for dog walkers, bicyclists, and disc golfers, lacks supporting amenities such as restroom facilities and picnic shelters.
- Bids were requested on January 23, 2019. Two bids were received and reviewed on February 2, 2019. Both bids exceeded the available budget.
- The Project was rebid on May 22, 2019, and three bids were received and reviewed on June 17,2019. The high bid exceeded the available funds and the remaining two bids were deemed non-responsive due to one being submitted late and one not completing the required Minority & Women-Owned Business Enterprise (MWBE) forms.

- The project was rebid on June 24, 2019. Bids were received and reviewed on July 2nd. There were three bidders for the project.
    - Dosan Corp, Indian Trail/Charlotte, $347,000 base bid plus add alternate $12,300 = $359,300
    - The Construction and Maintenance Company LLC, Mills River, $374,526 base bid plus add alternate $21,935 = $396,461
    - WTAPS, Asheville, $299,878 base bid plus add alternate $5,875 = $305,662
- WTAPS submitted the lowest responsive, responsible bid for the project. However, they were unable to provide the performance and payment bonds.
- Dosan is the second lowest responsive, responsible bidder for this project.

Vendor Outreach Efforts:

- Staff performed outreach to MWBE firms through solicitation processes which included posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to MWBE service providers for subcontracted services. Dosan is a minority business enterprise.

Council Goal(s):

- Clean and Healthy Environment & Well-Planned and Livable Community.

Committee(s):

- January 14, 2019 meeting - Recreation Advisory Board - project status update

Pro(s):

- Permanent restroom facilities will expand the park user base to include families with small children.
- Project will improve the park experience for Asheville residents.
- These amenities respond to public input in regards to desired park improvements.
- Supports the Parks, Recreation, Cultural Arts Master Plan (2009).

Con(s):

- Park users will be temporarily inconvenienced by construction.

Fiscal Impact:

- Funding for this contract exists within the approved GO Bond Capital Budget.

Motion:

- Authorize the City Manager to enter into a construction contract with Dosan, of Indian Trail NC, in the amount of $359,300 and to further authorize change orders if needed, up to the contingency amount of $35,930 (10%) for Richmond Hill Park restroom facility and picnic shelter.

RESOLUTION BOOK NO. 41 - PAGE 92

M. RESOLUTION NO. 19-224 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW AN EXISTING INSURANCE BROKER OF RECORD AGREEMENT WITH INSURANCE SERVICE OF ASHEVILLE FOR FISCAL YEAR 2019-20 AND AUTHORIZE PROVIDING THE INSURANCE SERVICES THROUGH JUNE 30, 2021

Action Requested: Adoption of a resolution authorizing the City Manager to renew an existing Insurance Broker of Record agreement with Insurance Service of Asheville (ISA) for Fiscal Year 2019-20 and authorize providing the insurance services through June 30, 2021.

Background:

- The City of Asheville (City) Risk Management Division (Risk) works with Insurance Service of Asheville (ISA) to obtain insurance policies to address City risk and loss exposures, including but not limited to: property, auto, equipment, excess liability, excess workers' compensation, dam liability, crime, and builder's risk.
- In the Spring of 2016, Insurance Broker of Record Services were sought via a Request for Proposals and ISA was the best proposer.
- In September of 2016, a contract was entered into with ISA to provide Insurance Broker Services for one year, with the option for the City to renew four additional years.
- Annually, ISA contracts total $29,900 annually.
- As a result of multiple years of ISA Service provision, the aggregate value of ISA's Service contract will exceed $90,000 in Fiscal Year 2020, necessitating City Council authorization for Services to continue in Fiscal Year 2020 and Fiscal Year 2021.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None

Pro(s):

- Ensures Service continuity to support the City insurance program.

Con(s):

- None.

Fiscal Impact:

- Contract expenses for Insurance Broker Services are budgeted within the Property & Liability Fund and adopted with the Fiscal Year 2019-20 budget. The ISA contract is contingent on budget appropriations in future fiscal years.

Motion:

- Motion to adopt a resolution authorizing the City Manager to renew an existing Insurance Broker of Record contract with ISA for Fiscal Year 2019-20 and authorize ISA to provide services through June 30, 2021.

RESOLUTION BOOK NO. 41 - PAGE 93

N. RESOLUTION NO. 19-225 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A THREE-YEAR CONTRACT WITH HOMEWARD BOUND OF WESTERN NORTH CAROLINA FOR THE OPERATION OF A HOMELESS STREET OUTREACH PROGRAM

Action Requested: Authorize the City Manager to execute a contract with Homeward Bound of Western North Carolina to implement a homeless street outreach program.

Background:

- Council allocated $150,000 in the adopted Fiscal Year 2019-20 budget for Homeless Street Outreach services.
- Under this contract, Homeward Bound will assist APD and AFD in referrals and issues related to persons experiencing homelessness, work collaboratively with APD officers to

de-escalate crises and divert arrest when appropriate, and educate businesses and residents in areas most impacted by the presence of people experiencing homelessness.
- Homeward Bound of Western North Carolina is the only qualified organization with capacity to effectively operate the program.
- Program can launch 30-45 days after execution of a contract, with 1 FTE person for 3 years, $50,000 each year.

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- None

Pro(s):
- Provides assertive street outreach for homeless populations not currently being served.

Con(s):
- None

Fiscal Impact:
- $50,000 cost each year for 3 years, total cost of $150,000 over 3 years.

Motion:
- Authorize the City Manager to execute a contract with Homeward Bound of Western North Carolina for a total of $150,000, with annual cost not to exceed $50,000 each year.

RESOLUTION BOOK NO. 41 - PAGE 94

O. RESOLUTION NO. 19-226 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH BRADLEY & CONNER GRADING CONTRACTORS, FOR THE LAKE CRAIG SEDIMENT REMOVAL PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Bradley & Conner Grading Contractors, Inc. in the amount of $261,244.25 and to enter into change orders to this contract, if needed, not to exceed a contingency amount of $39,186.64 (15%) for a total budget of $300,430.89 for the Lake Craig Sediment Removal Project.

Background:
- The contract was advertised on August 21, 2019, with a Bid Due date of September 3, 2019 (informal, thus no public bid opening).
- During the non-mandatory pre-bid meeting, a total of (8) contractors attended this meeting.
- Bids were reviewed on September 3, 2019. Three (3) bids were received.
- The lowest responsive, responsible bidder was Bradley & Conner Grading Contractors, Inc.
- Construction is anticipated to start around mid-October. Weather permitting, the project should be completed in just over a month.

Vendor Outreach Efforts:
- Staff performed outreach to minority and women-owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System, City of Asheville website, City of Asheville Twitter Account, and requiring prime contractors to

reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- With this contract being in the informal range, the decision was made not to require Performance and Payment Bonds in order to open up opportunities for MWBE firms to be able to bid on this project.
- Past contractors who have shown interest in bidding on City of Asheville projects were informed about the project's advertisement. During preparation for advertising this contract, the contract was shared with the Business Inclusion Manager in the Community & Economic Development Department.
- Out of the three (3) bids received, only one bidder is a certified firm. This certified firm is a Small Business Enterprise (SBE), but the firm was not selected because the bid amount was significantly higher than all other bids received.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- The contract will restore the area to conditions that were designed to help reduce flooding from the Swannanoa River.

Con(s):
- Construction may be somewhat disruptive to nearby residences.
- Also, traffic to the Nature Center and soccer fields may be impacted at times.
- Efforts will be made to notify the public and minimize disruptions.

Fiscal Impact:
- Funding that was originally budgeted in the Stormwater Capital Improvement Program (CIP) for contracted pipe replacement is being used to fund this project.
- Pipe replacement moving forward will be performed by in-house crews in the Stormwater Operating Fund budget.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a contract with Bradley & Conner Grading Contractors, Inc. in the amount of $261,244.25 and to enter into change orders to this contract, if needed, not to exceed a contingency amount of $39,186.64 (15%) for a total budget of $300,430.89 for the Lake Craig Sediment Removal Project.

RESOLUTION BOOK NO. 41 - PAGE 95

P. RESOLUTION NO. 19-227 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SETTLEMENT, RELEASE, AND INDEMNIFICATION AGREEMENT WITH THE LONG SHOALS PARTNERS LLC.

Action Requested: Adoption of a resolution authorizing the City Manager to execute a Settlement, Release, and Indemnification Agreement with Long Shoals Partners, LLC.

Background:
- In 2005, the City annexed property located at 291 Long Shoals Road.

- As part of the annexation, the City was required to update the utilities located on the annexed property and bring them up to City-standards.
- The Council-approved annexation plan specifically provided that the City would pay to extend sanitary sewer services to the annexed property located at 291 Long Shoals Road.
- Since the time of annexation, the previous owner of 291 Long Shoals Road had been in regular contact with the City regarding how and when the City would be allowed to install the sanitary sewer line at his property, but the line was not actually installed before that previous owner elected to sell the property earlier this year.
- The current owner of the property, Long Shoals Partners, LLC, wishes to install a much more complex sanitary sewer system on the property than the City originally agreed to install.
- The property owner has accordingly agreed to accept a one-time payment in lieu of the City installing the sanitary sewer lines. The amount of this payment, $92,148, is based on an estimate of the actual cost to install the length of sewer line the City originally planned to install.

Council Goal(s):
- Well-Planned and Livable Community

Committee(s):
- None

Pro(s):
- The execution of this Agreement will extinguish the City's obligation to install any sewer systems at 291 Long Shoals Road.

Con(s):
- Will require the City to pay $92,148.

Fiscal Impact:
- Funding for this one-time payment of $92,148 will come from the FY 2019-20 Budget allocated to the Capital Improvement (CIP)/Debt model.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a Settlement, Release, and Indemnification Agreement with Long Shoals Partners, LLC, and issue a one-time payment to Long Shoals Partners, LLC in the amount of $92,148.

RESOLUTION BOOK NO. 41 - PAGE 96

Q. RESOLUTION NO. 19-228 - RESOLUTION GRANTING PERMISSION FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE MEDSTREAM ANESTHESIA FUNDRAISER ON SEPTEMBER 28, 2019

Action Requested: Adoption of resolution to permit the possession and consumption of malt beverages and/or unfortified wine at the Medstream Anesthesia Fundraiser.

Background:
- The following organization has requested that City Council permit them to serve beer and/or unfortified wine at their event and allow for consumption at the event:

- American Cancer Society for the Medstream Anesthesia Fundraiser, to occur on September 28, 2019, at Carrier Park from 5:00 p.m. - 8:00 p.m.

- Alcohol boundary is defined as per the accompanying event site map.

Council Goal(s):
- This action has no direct connection with the City Council 2036 Vision.

Committee(s):
- None

Pro(s):
- Allows fundraising opportunity for the sponsoring nonprofit organization

Con(s):
- None

Fiscal Impact:
- None

Motion:
- Motion to permit the possession and consumption of malt beverages and/or unfortified wine at the Medstream Anesthesia Fundraiser.

RESOLUTION BOOK NO. 41 - PAGE 97

Four individuals urged Council to adopt a climate emergency resolution for Asheville. Mayor Manheimer said that the first step for Council to consider the resolution is that it be reviewed by the Sustainable Advisory Committee on Energy & Environment and it's on their agenda for October 16, 2019.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. CONTINUATION OF PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF THREE PARCELS FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/ CONDITIONAL ZONING FOR THE CONSTRUCTION OF A MIXED-USE BUILDING AT 71 BROADWAY AND 61 AND 67 NORTH MARKET STREET

Mayor Manheimer announced that on September 10, 2019, this public hearing was held and at the applicant's request, in order to meet with Asheville City Market vendors/ representatives, adjoining business owners, etc., this public hearing was continued until this date.

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone three parcels from Central Business District to Central Business District Expansion/Conditional Zone for the construction of a mixed-use building at 72 Broadway Avenue

and 61 and 67 North Market Street. She said the proposal is for new mixed-use building containing 138 hotel rooms, 37 residential units (including affordable and live/work units), approximately 1,187 square feet of retail space, additional restaurant/bar space within the building associated with the hotel use, and 126 structured parking spaces. At the September 10 meeting, what was mostly discussed as far as concerns had to do with the general lodging use itself and everything else was primarily based on the impact to the Asheville City Market ("City Market") . The sole vehicular access point for the project is off N. Market Street and so there was a lot of discussion related to the existing footprint of the City Market that is within that area. Staff indicated at that meeting that the current policy for vehicular access during special events that are approved with road closures, such as the City Market, is that vehicular access would be prohibited. Additionally, the applicant proposed conditions that would restrict access during the City Market just to make that extra clear that they would not use that vehicular access point during the City Market hours. There was a lot of discussion at that meeting about using the alley for vehicular access during those times of the City Market that was not set into a condition. The proposal stands as it was at that time, with the condition of vehicular access being prohibited from that point on N. Market Street during the times of the City Market.

In response to Mayor Manheimer, Ms. Bernstein said that Conditions 12 and 13 read as they did on September 10 - Condition No. 12 "Access to the City Market will not be disrupted during the construction process." Condition 13 "During the times of road closure associated with the City Market in its current configuration on North Market Street in front of the development site, there will be no vehicular access to the development from the primary driveway on North Market Street, except for emergency vehicles."

Mr. Derek Allen, attorney for the developer BPR, said that at the September 10 hearing , he heard about the City Market, the alley, and hotel saturation. Regarding the City Market, he wanted to make it clear there would be no construction activities during the City Market hours. He asked that Condition 12 be replaced with language suggested by the City Market representation. Condition 12 would now read "No outside construction activities will take place during City Market operations, 6 a.m. - 2 p.m., Saturdays from April through the third Saturday in December." When we prohibited access to N. Market Street during the City Market hours (which is Condition 13), we ended up creating a perceived issue with the alley. To be very clear, there will be no access during the City Market or during other times. We now have a deal with the Masonic Temple to provide access to the north side of the property, through the parking lot. There will be no access to the alley - just for normal alley purposes such as trash rollout. There were questions about dumpsters in the alley and we know that dumpsters will not be allowed in the alley. He didn't foresee any changes to the alley use based on this property being placed at the end of that alley, other than the tip of that alley being closed in further. Where the developer owns both sides of the alley, that short portion will be closed, but the remainder of the alley use will be unchanged. To make that very clear, we propose to add a sentence to the end of Condition 13. "Ingress/egress to the site shall be routed to the north of the site through the parking lot currently owned by the Masonic Temple." We do not want to impact the City Market and we believe the revised Conditions 12 and 13 handles that. Also, we do not want to impact anyone's impact of the alley - they don't propose any changes to the use of the alley. The last issue is about hotel saturation. Since September 10, they commissioned a market study report and sent it to all of City Council. It makes clear that the market has never been stronger. The hotel market still thrived during the recession. Even with the hotels in planning, 80% and higher occupancy is forecasted. The average daily rate is forecasted to $195 - that is even with those hotels in planning and putting this one in line. This is the highest in all of North Carolina. The demand is here. Regarding the affordability part, we need to have a balance between our hospitality uses and the draw that this community has. It's not just about giving money to the Affordable Housing Trust Fund. It's about building units. And this project does that. There are 37 residential units proposed, 22% of which will be affordable housing and not just barely affordable housing, but 60% AMI for 50 years. Some units are even designed to be

owner-occupied. If the moratorium is approved, we will have some criteria for hotels and he hoped that it includes a lot of things that this project includes. He urged Council to approve this project.

Mayor Manheimer said that the study Mr. Allen sent to Council looked like it did a deep dive into the Airbnb market in the area. Mr. Allen said that is included as an additional point. He felt the report showed that the Airbnb market doesn't put a measurable dent into the hotel occupancy rates, despite the fact that Airbnbs are on the rise.

In response to Councilwoman Mayfield, Ms. Bernstein said that while the access from the parking deck onto the Masonic Temple parking lot, is a design change, it's not a change to the site plan. The only facade that would be affected is an internal property line, so there would not be any technical or design review concern with that.

Councilwoman Mayfield moved to deny the conditional zoning request for the project known as Create Broadway from Central Business District (CBD) to Central Business Expansion District (CBD EXP CZ) for the construction of a new mixed-use building and find that the denial is reasonable, is in the public interest, and is consistent with the city's comprehensive plan in that: 1) the project is primarily lodging in use, and as such, does not meet the comprehensive plan goal of a diverse and sustainable mix of uses in the downtown as it would contribute to a growing concentration of lodging uses and loss of opportunity for other new uses; and 2) the proposed access to/from the development is not sufficient. This motion was seconded by Councilman Young.

Mayor Manheimer opened the parking lot at 5:51 p.m. and asked that public comment be limited to any changes since the September 10 meeting.

Mr. Mike McCreary, representing the management of the Asheville City Market, acknowledged the efforts of the developer to avoid any negative impacts on the City's downtown Farmers Market. He confirmed Condition No. 12 as the developer revised. In Condition No. 13, he opposed the phrase "in its current configuration" as suggestive of there being an alternative configuration to be considered.

Nine individuals spoke in opposition to the project for various reasons, mainly because of concerns surrounding the alley and the saturation of hotels in the downtown.

Five individuals spoke in support of the project for various reasons, mainly because this will be a partner on the needed affordable housing, and the need for mixed use developments.

Mayor Manheimer closed the public hearing at 6:17 p.m.

The motion made by Councilwoman Mayfield and seconded by Councilman Young to deny the conditional zoning request carried unanimously.

B. PUBLIC HEARING TO CONSIDER REZONING PROPERTY LOCATED AT 940 WEST CHAPEL ROAD FROM NEIGHBORHOOD BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 4764 - ORDINANCE TO REZONE PROPERTY LOCATED AT 940 WEST CHAPEL ROAD FROM NEIGHBORHOOD BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to rezone property located at 940 West Chapel Road from Neighborhood Business District to RS-8

Residential Single-Family High Density District. This public hearing was advertised on September 13 and 20, 2019.

Action Requested: Rezone the property located at 940 West Chapel Road (PIN 9647-94-6312) from Neighborhood Business (NB) to Residential Single-Family High Density District (RS-8) and amend the City's Future Land Use Map for the purpose of supporting residential redevelopment.

Project Location and Contacts:

- The project site consists of one parcel with a total area of 0.5 acre located at 940 West Chapel Road (PIN 9647-94-6312) that is owned by JCS III LLC.
- Petitioner/Contact: Carr Swicegood.

Summary of Petition:

- The subject property includes a single 0.5 acre lot zoned NB and located on the northeast corner of West Chapel Road and London Road in the Shiloh community.
- The subject property currently has a small commercial structure (approximately 2600 square feet with a basement) along with a parking area. The structure is vacant and in need of repair.
- The subject property is surrounded by RS-8 zoned properties.
- The purpose of the RS-8 zoning district is to provide areas for higher density single-family dwellings and promote a suitable environment for single-family living.
- The area is identified as Neighborhood Center on the Future Land Use map, which describes areas that can be home to small businesses that serve neighborhoods with uses such as restaurants, pubs, grocers and clinics.
- The rezoning would require a change to the Future Land Use map. If approved, the land use designation would be changed to Traditional Neighborhood, which is how the surrounding property is categorized.
- This property has been included in the Draft African Amercian Heritage Resources Survey as it previously was occupied by a grocer in the 1940's that served the Shiloh community.
- Although not officially on the National Register, the property could be recognized in the future through a marker, but that is not included with this rezoning.
- The Shiloh Neighborhood Plan supports both the expansion of housing options and preserving the character of the community, but no direct goals stating that existing commercial structures should be preserved or demolished.

Comprehensive Plan Consistency:

- The Living Asheville Plan recognizes the benefits of small businesses in neighborhoods through the Future Land Use category of Neighborhood Center, and speculates that this is a use that could be developed in other neighborhoods. There is not a direct goal in the plan stating that Neighborhood Centers or uses should be retained (page 340).
- The Comprehensive Plan generally supports historic preservation as a tool for placemaking, retaining community character, and recognizes the link between historic buildings and local businesses (page 152). This proposal would almost certainly result in the loss of a historic building.
- However, expanding housing in this area is also consistent with the Comprehensive Plan by increasing the housing supply (page 178) and the proposed Traditional Neighborhood designation.

Compatibility Analysis:

- The surrounding parcels are also zoned RS-8, therefore this rezoning would be compatible.
- The rezoning supports redevelopment of the property, which has remained vacant and underutilized for an extended period of time.

- Redevelopment of the property will discourage vagrancy and other nuisance issues that can be related to vacant properties.

Council Goal(s):
- A Well Planned and Livable Community

Committee(s):
- Planning & Zoning Commission - July 18, 2019 - recommended approval (6-1)

Staff Recommendation:
- Staff finds that the proposed rezoning is both consistent and compatible with the existing neighborhood development pattern, the Living Asheville Comprehensive Plan and other city goals.

Mr. Carr Swicegood, applicant, said that he will remove a dilapidated building and replace it with new homes, along with sidewalks. He has agreed with the Shiloh Community Association to install a plaque on the property to represent the grocery store that had been there for years in the Shiloh community.

Mayor Manheimer opened the public hearing at 6:25 p.m.

Ms. Norma Baynes, Assistant Liaison to the Shiloh Community Association, spoke in support of the rezoning; however, they requested to see all plans for the houses. They are concerned that the plan provided for the houses do not support their 2025 vision for housing that supports the historic character of their neighborhood. The Shiloh Community Association is not in support of staff approval of Level I projects that look like huts. The Association also felt like the six homes will cause a potential traffic problem at that intersection.

Ms. Nina Tovish felt this area is a good spot for mixed use development.

Mayor Manheimer closed the public hearing at 6:35 p.m.

Mayor Manheimer said that this is a straight rezoning and there is not a proposal for City Council to consider. It is only a change in the use of the property.

When Councilwoman Smith suggested a bus shelter for the bus stop, Ms. Vrtunski explained that this is not a conditional zoning where we can impose conditions upon the applicant.

Councilman Young suggested the applicant meet again with the Shiloh Community Association to see if they can come up with a compromise of what the applicant wants to do with the property and what the Association feels is compatible with their Shiloh 2025 Plan. Mr. Swicegood responded that he held a neighborhood meeting with the Association and has since then provided them with a copy of his plans, which are three houses, with an accessory dwelling unit behind each house. He anticipated the accessory dwelling units would be used for long-term rentals or purchase. He felt this is a fair plan with his compromise of no two-story houses and the historical plaque.

Ms. Vrtunski said that since this is a straight rezoning, Mr. Swicegood is not obligated to proceed with this plan. The design is not to be considered with a straight rezoning.

Mr. Swicegood said that they have built several houses in the neighborhood and heard no complaints. He said they have every intention of building this project right. Ms. Baynes

responded that the Association supports the rezoning; however, their problem is with the design of the houses. Mr. Swicegood agreed to meet again with the Association to discuss the plan.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to approve the rezoning request for the project known as 940 West Chapel Road from Neighborhood Business (NB) to Residential Single-Family High Density District (RS-8) and find that the request and resulting Future Land Use Map amendment from Neighborhood Center to Traditional Neighborhood is reasonable, is in the public interest, is consistent with the city's comprehensive plan, and meets the development needs of the community in that 1) it will support the redevelopment of the land; 2) it assigns a zoning designation that is more compatible with the surrounding properties; and, 3) it will allow for the construction of single family homes that are compatible with the surrounding neighborhood. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 420

C. PUBLIC HEARING TO CONSIDER REZONING PROPERTY LOCATED AT 99999 LAKESIDE DRIVE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

ORDINANCE NO. 4765 - ORDINANCE TO REZONE PROPERTY LOCATED AT 99999 LAKESIDE DRIVE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

Urban Planner Vaidila Satvika said that this is the consideration of an ordinance to rezone property located at 99999 Lakeside Drive from RS-4 Residential Single-Family Medium Density District to RM-8 Residential Multi-Family Medium Density District. This public hearing was advertised on September 13 and 20, 2019.

Action Requested: Request to rezone a single parcel of property currently zoned Residential Single-Family, Medium Density District (RS-4) to Residential Multi-Family, Medium Density District (RM-8).

Project Location and Contacts:

- The project site consists of one parcel with a total area of 3.73 acres located at 99999 Lakeside Dr. (PIN 9628-13-2010) that is owned by Asheville West LLC.
- Petitioner/Contact: Jim Rahe.

Summary of Petition:

- The subject property is currently vacant and undeveloped.
- The proposal seeks to rezone property from Residential Single-Family Medium Density (RS-4) District to Residential Multi-Family Medium Density District (RM-8). If approved, the rezoning would allow for a subdivision of 6-10 residential lots.
- The petition does not affect the Future Land Use category of "Residential". As described in the Comprehensive Plan Consistency section of this report "Residential" covers a variety of housing types and densities.

Comprehensive Plan Consistency:

- This proposal is largely consistent with the Living Asheville Comprehensive Plan in that the "Residential" Future Land Use category allows for a variety of housing types, from lower density, single-family (RS-2) zoning districts to higher density multifamily (RM-16) zoning districts.
- The plan also acknowledges that more flexibility for development should be encouraged "in areas that could impact the natural environment, such as waterways or steep slope areas,..." (pg. 346.)

Compatibility Analysis:

- The subject property is on the edge of the city's corporate limits and is bordered by Buncombe County's jurisdictional territory to the west and south.
- Property across the street to the east is zoned RM-8 while larger lots to the north are zoned RS-4. This property may serve as a transition between the higher density RM-8 and lower density RS-4.
- The rezoning would result in smaller building setbacks that would allow future structures to be placed closer to the street, which is consistent with the development pattern along other parts of Lakeside Drive, less than a quarter mile away.
- If approved the rezoning would allow for a subdivision of residential lots, or a small multi-family structure.
- The rear of the site contains a stream that requires a 30 foot buffer, which limits the buildable area. By changing the zoning to RM-8, the front setback would be reduced and would provide more buildable area closer to the road. This would help to preserve the integrity of the stream buffer and potentially limit other environmental impacts.

Council Goal(s):

- A Well-Planned and Livable Community
- A Clean and Healthy Environment

Committee(s):

- Planning & Zoning Commission - September 4, 2019 - recommended approval (7-0)

Staff Recommendation:

- Staff finds that the proposed rezoning is consistent and compatible with the existing neighborhood development pattern, the Living Asheville Comprehensive Plan and other city goals.

Mr. John Hale, applicant, said that even though the rezoning would allow for multi-family, he is looking to build seven single-family homes.

Mayor Manheimer opened the public hearing at 6:53 p.m., and when no one spoke, she closed the public hearing at 6:53 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to approve the rezoning request for the project known as 99999 Lakeside Drive from Residential Single-Family Medium Density District (RS-4) to Residential Multi-Family Medium Density District (RM-8) in order to support infill residential development and find that the request is consistent with the city's comprehensive plan, is reasonable, and is in the public interest in that: 1) it allows for flexibility for infill residential development; 2) the proposed pattern of development is consistent with the current neighborhood character; and 3) the proposal provides environmental benefits by encouraging grading and development to take place further from the stream. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 424

D. PUBLIC HEARING TO CONSIDER A TEMPORARY MORATORIUM ON HOTEL DEVELOPMENT APPROVALS WITHIN THE CITY OF ASHEVILLE

ORDINANCE NO. 4766 - TEMPORARY MORATORIUM ON HOTEL DEVELOPMENT APPROVALS WITHIN THE CITY OF ASHEVILLE

Planning & Urban Design Director Todd Okolichany said that this is the consideration of an ordinance to place a temporary moratorium on hotel development approvals within the City of Asheville. This public hearing was advertised on September 13 and 20, 2019.

Action Requested: Adoption of an ordinance imposing a temporary moratorium on hotel development approvals within the City of Asheville.

Background:

- The City of Asheville has experienced an influx of new hotel applications over the past few years. Since 2015, 1,344 hotel rooms have opened in the city out of 2,761 total rooms that have been approved. Of that, approximately 39% of have been approved in the Central Business District.
- The Living Asheville Comprehensive Plan Assessment Report further notes that Accomodation and Food Service, which includes lodging, is a key industry sector in the City with a location quotient higher than the national average.
- Community members, staff and Council have expressed concerns about the impact of hotels.
- The City currently lacks concrete policies, strategies and tools to effectively manage the impacts of these uses resulting in uncertainty for developers, staff and community members.
- To effectively respond and provide some level of certainty and to determine acceptable hotel development proposals, city staff recommends enhancing the city's land use policies, tools and strategies to better regulate hotel development.
- Consideration of additional hotel development should be suspended via a temporary moratorium up to 12 months to provide the time needed to determine impacts and remedies.
- During the duration of the moratorium, the following actions are proposed:

  Phase 1 (three months)
  - Contract with the Urban Land Institute Charlotte District Council to conduct a planning process that includes two community engagement sessions, analysis of the hotel industry, assessment of impacts, research of best practices, and a report on best land use practices and policy recommendations for hotel development.

  Phase 2 (up to nine months)
  - Supplemental research and analysis by city staff, creation of a community engagement plan, and draft regulatory changes, strategies and tools for Council consideration.

Council Goal(s):

- A Well Planned and Livable Community

Committee(s):

- Planning and Economic Development Committee (PED) - August 29, 2019 - support shown to move forward to the full Council.

- City Council - September 10, 2019 - motion setting a public hearing on September 24, 2019 to consider a temporary moratorium on hotel development approved 7-0.

Pro(s):

- Gives the city time to better understand the impacts of new hotel development and mitigation requirements.
- Allows for research of best practices and to enhance the city's land use policies, tools and strategies.
- Will provide clearer direction to applicants of new hotel developments, City Council and the community.

Con(s):

- No new hotels will be approved during the duration of the temporary moratorium.

Fiscal Impact:

- The city will be contracting with the Urban Land Institute Charlotte District Council to conduct a Technical Assistance Panel and draft a report on policy recommendations regarding hotel development. The cost of this contract is $15,000 and will be paid from the existing Planning Services Department budget. City staff resources will also be required.

Councilman Haynes requested the following two areas be made part of the impact assessment. The first is the tourism and future developments negative effects on the environment. With the call for the City to proclaim a climate emergency, which he fully supports, and for us to make it a part of our Comprehensive Plan, it would be wrong to not make this part of the assessment. The other item he would like to see a part of the assessment is the Tourism Development Authority's $20 Million marketing budget. He questioned what role that plays in the affordability issues plaguing our City. With a $20 Million marketing budget for a City our size does not seem right. The City of Wilmington has a $5 Million marketing budget and there are larger cities with similar make-up.

Councilwoman Mayfield said that she hoped that during the moratorium we explore mixed use involving hotels.

Mayor Manheimer opened the public hearing at 6:58 p.m.

Fifteen individuals spoke in support of the moratorium.

Three individuals spoke against the moratorium.

Mayor Manheimer closed the public hearing at 7:45 p.m.

Councilman Young has heard a common theme of the intersection between hotels, housing, and how hotels affect the quality of life. With this moratorium, Council is challenged to move forward in a very strategic and purposeful way of developing policy. We are expected to come out of the moratorium with some sound policy that includes some answers to questions raised of the impacts; infrastructure; and the intersection of hotels and housing. Moving forward his specific contribution to the conversation is going to be on building affordable housing and that contribution to our community. A couple of affordable units might not seem much, but we need to explore how all that fits together. We have the obligation to explore everything across the board on how we attack this situation.

Councilwoman Mayfield spoke about the legal scope on things we can explore during this moratorium, and also what we can do in the timeframe of the moratorium. She said the Tourism

Development Authority (TDA) has a planning process now for their Tourism Management & Investment Plan. They have had public input but there will be more. The hope for the outcome of that process is that there will be a list of local government projects and other opportunities to use the occupancy tax money to invest in our community in a way that is broader than happens now. She encouraged everyone to participate in that process. She doesn't think it will be possible with the current legislature for the City to unilaterally secure a change. From her standpoint, this is an opportunity for the City and the TDA to find a way to cooperate so that more of those occupancy tax dollars come to the City to meet the needs of our residents in a way that everyone has expressed. Regarding affordable housing, we have more tools in our toolbox than any City in North Carolina. We are doing a lot on affordable housing and will be doing more - we will be adopting a policy later in this meeting; there is a community land trust coming on board; and a fee rebate policy will be coming soon. Our affordable housing staff continues to build that toolbox that will incentivize and make it better and easier for us to build affordable housing. Regarding climate change, Asheville has been working on this issue with our first set of climate goals since 2007 and we have upped the game twice since then, including the resolution on renewable energy. That resolution doesn't just commit us to reaching the goals on our own municipal operation, it also commits us to supporting and working with the County to reach the larger community goal. We have committed ourselves to that. We are doing a lot and it is moving. We are doing more around climate change than any city in North Carolina.

Mayor Manheimer's only concern about this process is that we set some sort of expectation that this Council can fix all things. Most people know that we can't. We are the front line of so many issues in a community, whether technically it's within our authority-wise jurisdiction or not. She is looking forward to this innovative process. Maybe we can set a precedent for other communities that are having similar experiences to ours.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to adopt an ordinance imposing a temporary moratorium on hotel development approvals within the City of Asheville, including "Hotel, extended stay", "Hotel, large" and "Hotel, small" as defined in Section 7-2-5 of the City's Unified Development Ordinance, commencing September 24, 2019 and expiring no later than September 24, 2020. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 427

E. PUBLIC HEARING TO CONSIDER AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE FOR AT-LARGE ELECTIONS FOR MEMBERS OF THE CITY OF ASHEVILLE CITY COUNCIL

City Attorney Brad Branham said that this is a public hearing to consider amending the City of Asheville Charter to provide for at-large elections for members of the City of Asheville City Council. This public hearing was advertised on September 13, 2019.

Background:

- On June 29th, 2018, the N.C. State legislature ratified SB 813 which altered the form of Asheville City Council elections.
- The new local act moved City Council elections from odd to even years, removed primary elections, and established five election districts.
- Under the current law, the City Council will be made up of seven council members, including the Mayor. Five members will be elected from and by their respective districts, while one member and the Mayor will be elected at-large.

- The two proposed charter amendments would reinstate primary elections to be held in March, and return all Council positions to at-large elections.
- On September 10, 2019, City Council adopted two resolutions of intent to set the public hearings on the City of Asheville Charter amendments on September 24, 2019.

Council Goal(s):
- An Equitable and Diverse Community
- A Connected and Engaged Community

Committee(s):
- Governance Committee - July 29 (Converted to Full Council Worksession)

Pro(s):
- Returns City Council elections to a form as close as possible to what existed prior to enactment of SB 813.

Con(s):
- A Charter amendment can be further amended by State action
- May result in diminished goodwill and additional provocation from the General Assembly

Fiscal Impact:
- None at this time.

Mayor Manheimer opened the public hearing at 8:21 p.m.

Seven individuals spoke against changing the Charter back to at-large elections, with three supporting Councilman Kapoor's proposal of adding two additional at-large members.

Three individuals spoke in favor of changing the Charter to provide for at-large elections.

Mayor Manheimer opened the public hearing at 8:42 p.m.

Mayor Manheimer said that this amendment will be voted on by the City Council on October 22, 2019, at which time no additional public comment will be taken.

F. PUBLIC HEARING TO CONSIDER AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE THAT ASHEVILLE CITY COUNCIL ELECTIONS BE CONDUCTED BY THE NONPARTISAN PRIMARY AND ELECTION METHOD

City Attorney Brad Branham said that this is a public hearing to consider amending the City of Asheville Charter to provide that Asheville City Council elections be conducted by the nonpartisan primary and election method. This public hearing was advertised on September 13, 2019.

Background:
- On June 29th, 2018, the N.C. State legislature ratified SB 813 which altered the form of Asheville City Council elections.
- The new local act moved City Council elections from odd to even years, removed primary elections, and established five election districts.
- Under the current law, the City Council will be made up of seven council members, including the Mayor. Five members will be elected from and by their respective districts, while one member and the Mayor will be elected at-large.
- The two proposed charter amendments would reinstate primary elections to be held in March, and return all Council positions to at-large elections.

- On September 10, 2019, City Council adopted two resolutions of intent to set the public hearings on the City of Asheville Charter amendments on September 24, 2019.

Council Goal(s):
- An Equitable and Diverse Community
- A Connected and Engaged Community

Committee(s):
- Governance Committee - July 29 (Converted to Full Council Worksession)

Pro(s):
- Returns City Council elections to a form as close as possible to what existed prior to enactment of SB 813.

Con(s):
- A Charter amendment can be further amended by State action
- May result in diminished goodwill and additional provocation from the General Assembly

Fiscal Impact:
- None at this time.

Mayor Manheimer opened the public hearing at 8:43 p.m.

Six individuals spoke in favor of amending the City's Charter to provide that Asheville City Council elections be conducted by the nonpartisan primary and election method, with some wishing this action would have taken place sooner.

Mr. Jake Quinn, Chair of the Buncombe County Board of Elections said that operationally the County Board of Elections can handle a March primary.

Mayor Manheimer closed the public hearing at 8:58 p.m.

Mayor Manheimer said that regarding the timing issue, this is not something we have been ignoring. This requires careful planning. There was some thought put into the timing. We don't take lightly in taking on Raleigh and we have seen very real consequences in engaging in that kind of warfare. There will be a repuccision so we have to decide carefully what we are willing to take on.

Councilman Kapoor felt we have not done community engagement on what system best serves the average Asheville citizen. He has not heard why returning to an at-large system is good for Asheville. He said that Equity and inclusion is serious piece in this City and on an issue as important as districting and how we choose our representations, we did not have the Office of Equity and Inclusion look at this issue. He was concerned that we did not have community engagement in the African American community on as an important issue as this.

Councilwoman Mayfield felt we need to be responsive to our voters who have said that they want us to restore what Raleigh took away from us. Our ability to have a different conversation about some of the other options will be difficult until we do that very clearly. Perhaps at a future Governance Committee she proposed assigning Council members to different parts of the City for purposes of having a point person for the constituents to direct their inquiries/complaints/comments. Obviously anyone can email anyone on Council about anything, but sometimes an individual Council member might think that someone else is responding and it doesn't get answered. There is room to see how Council can structure themselves to better serve our constituents and give people a very clear entry point into the maze of City government.

Councilman Young said that as an African American man, he does have the ability to speak for the African American community. He was born and raised in Asheville and has knocked on hundreds of doors to speak with and share conversations with his African American community. He was an advocate for our Equity and Inclusion Office, the Human Relations Commission, Banning the Box, and organizations accepting Housing Choice Vouchers.

Councilwoman Smith said that the voters have spoken and they don't want a different election system. Our current at-large system has produced two African American Council members that they favor. To change the system now will be a detriment to our entire community. Our current at-large system is equally powerful in getting people on Council as it has to keep people off Council.

Councilman Kapoor said he did not mean to be disrespectful to Councilwoman Smith or Councilman Young.

When Councilman Kapoor asked if we could have the Office of Equity and Inclusion look at this issue before it comes to Council before a vote, Mayor Manheimer suggested we place it on a Council committee agenda for their consideration when we have some time to discuss and think about it.

Mayor Manheimer said that this amendment will be voted on by the City Council on October 22, 2019, at which time no additional public comment will be taken.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 19-229 - RESOLUTION ADOPTING A POLICY ENTITLED "POLICIES FOR IMPLEMENTING AFFORDABLE HOUSING ON CITY-OWNED LAND"

Real Estate Program Director Nikki Reid said that this is the consideration of a resolution to adopt a policy entitled "Policies for Implementing Affordable Housing on City-Owned Land."

Action Requested: Approval of a resolution to adopt a policy for developing City-owned land for affordable housing entitled "Policies for Implementing Affordable Housing on City-owned Land."

Background:

- In 2015, the City adopted the "Comprehensive Housing Strategy and Policy Framework" which included the use of City-owned land as development sites for the creation of new affordable housing.
- In the coming months, the City is seeking to solicit development proposals for properties at 319 Biltmore Avenue and 91 Riverside Drive as part of the implementation of the Affordable Housing Bond Program.
- To guide this effort and any future development of other City property for affordable housing, staff developed a set of policies to establish procedures, affordable housing goals and financial incentives when developing affordable, mixed-income communities on City-owned land. This set of policies was based on research of national best practices, existing regional policies and policy discussions from the Affordable Housing Work Session.
- Staff performed a review of the policy using the "Racial Equity Toolkit: An Opportunity to Operationalize Equity", as prepared by the Local and Regional Government Alliance on Race and Equity, as a tool to "integrate explicit consideration of racial equity in

decisions." As part of this process, community input was sought from the Affordable Housing Advisory Committee, a stakeholder focus group of community advocates, and a stakeholder focus group of local nonprofit and for-profit developers.

- Goals of the policy include the following:
  - Affordable Housing Baseline #1: When developing City property, it is the City's baseline goal to obtain a minimum of 20% of total units (rental or for-sale) as affordable to and occupied by households at or below 60% Area Median Income, and to accept Housing Choice Vouchers.
  - Affordable Housing Baseline #2: When developing City property, it is the City's baseline goal for the affordable housing to maintain an affordability period of at least 20 years, with a strong preference towards an affordability period of 30 years or longer. A recordable enforcement mechanism, such as but not limited to, a deed restriction or some other contractual provision specifying the affordability conditions shall be required.
  - Exceeding the baseline: It is the City's strong preference that the development of City property exceed these baselines, where appropriate, and/or offer other community benefits.
- The Executive Summary of the policy and draft of the full policy are enclosed for reference.
